Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28681]

MALT LIQUORS FROM INDIANA, MICHIGAN, OHIO, AND PENNSYLVANIA TO SWEETWATER AND SAN ANGELO, TEX.

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to his tariff, I. C. C. No. 3912.

Commodities involved: Malt liquors, viz: ale, beer, beer tonic, porter or stout, carloads.

From: Points in Indiana, Michigan, Ohio, and Pennsylvania.

To: Sweetwater and San Angelo, Tex.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3912, supp. 222.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28682]

FERTILIZER FROM ARKANSAS, LOUISIANA AND TEXAS TO SUFFOLK, VA., GROUP

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fertilizer, fertilizer materials and solutions, carloads.

From: Points in Arkansas, Louisiana and Texas.

To: Suffolk, Va., and points grouped therewith.

Grounds for relief: Rail competition, circuity, market competition, to apply rates constructed on the basis of the short line distance formula, and additional destinations.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, supp. 128.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28683]

LUMBER FROM MEMPHIS, TENN., TO SOUTH DAKOTA AND WYOMING

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Lumber and related articles, carloads.

From: Memphis, Tenn.

To: Points in South Dakota and Wyoming.

Grounds for relief: Rail competition, circuity, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3985, supp. 35.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application No. 28684]

BRICK FROM LOCHER, VA., TO THE SOUTH

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers, parties to schedule listed below.

Commodities involved: Brick and related articles, carloads.

From: Locher, Va.

To: Points in Florida, Georgia, North Carolina, South Carolina, and Virginia.

Grounds for relief: Rail competition, circuity, to maintain grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1278, supp. 41.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 28685]

PETROLEUM OIL FROM OAK POINT, LA., TO MARYLAND, MICHIGAN, NEW JERSEY AND PENNSYLVANIA

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to tariff listed below.

Commodities involved: Petroleum oil, in tank-car loads.

From: Oak Point, La.

To: Points in Maryland, Michigan, New Jersey, and Pennsylvania.

Grounds for relief: Competition with rail carriers and circuitous routes.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3651, supp. 327.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28686]

BRICK FROM CORONA, N. Y., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 25, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to schedule listed below.

Commodities involved: Brick and related articles, also refractory articles, carloads.

From: Corona, N. Y.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuitous routes, to maintain grouping, and additional origin.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-917, supp. 16.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

## TITLE 7—AGRICULTURE

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 725—BURLEY AND FLUE-CURED TOBACCO

PROCLAMATION OF NATIONAL MARKETING QUOTAS FOR THE 1954–55 MARKETING YEAR AND APPORTIONMENT OF THE QUOTAS AMONG THE SEVERAL STATES

Sec.
725.501 Basis and purpose.
725.502 Findings and determinations with respect to the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1954.
725.503 Findings and determinations with respect to the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1954.

AUTHORITY: §§ 725.501 to 725.503 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313.

§ 725.501 *Basis and purpose.* (a) Sections 725.501 to 725.503 are issued (1) to announce the reserve supply level and the total supply of Burley tobacco for the marketing year beginning October 1, 1953, and to establish the amount of the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1954; (2) to announce the reserve supply level and the total supply of flue-cured tobacco for the marketing year beginning July 1, 1953, and to establish the amount of the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1954; and (3) to apportion the national marketing quotas among the several States. The findings and determinations contained in §§ 725.501 to 725.503 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views and recommendations received from Burley and flue-cured tobacco producers and others as provided in a notice (18 F. R. 6592) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since Burley and flue-cured tobacco growers are now planning their farming operations for 1954, are purchasing fertilizer, and preparing the land to which tobacco will be transplanted, it is imperative that they be notified as soon as possible of their 1954 acreage allotments and farm marketing quotas. Therefore, it is hereby determined that compliance with the provisions of the Administrative Procedure Act with respect to the effective date is contrary to the public interest, and that the proclamation and apportionment of the national marketing quotas contained herein shall become effective upon the date of their publication in the FEDERAL REGISTER.

§ 725.502 *Findings and determinations with respect to the national marketing quota for Burley tobacco for the marketing year beginning October 1, 1954*[1]—(a) *Reserve supply level.* The reserve supply level for Burley tobacco is 1,620,000,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 540,000,000 pounds and a normal year's exports of 35,000,000 pounds.

(b) *Total supply.* The total supply of Burley tobacco for the marketing year beginning October 1, 1953, is 1,738,000,000 pounds consisting of carry-over of 1,163,000,000 pounds and estimated 1953 production of 575,000,000 pounds.

(c) *Carry-over.* The estimated carry-over of Burley tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1954, is 1,163,000,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1953, of 575,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Burley tobacco which will make available during the marketing year beginning October 1, 1954, a supply of Burley tobacco equal to the reserve supply level of such tobacco is 457,000,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 457,000,000 pounds would result in undue restriction of marketings during the 1954–55 marketing year and such amount is hereby increased by 15 percent. Therefore, the amount of the national marketing quota for Burley tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1954, is 526,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

| State: | Acreage allotment |
|---|---|
| Alabama | 38 |
| Arkansas | 65 |
| Georgia | 95 |
| Illinois | 5 |
| Indiana | 9,845 |
| Kansas | 139 |
| Kentucky | 259,865 |
| Missouri | 4,258 |
| North Carolina | 11,723 |
| Ohio | 12,772 |
| Oklahoma | 5 |
| Pennsylvania | 4 |
| South Carolina | 4 |
| Tennessee | 78,132 |
| Virginia | 13,221 |
| West Virginia | 3,385 |
| Reserve[1] | 1,977 |

[1] Acreage reserved for establishing allotments for farms upon which no Burley tobacco has been grown during the past five years.

§ 725.503 *Findings and determinations with respect to the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1954*[1]—(a) *Reserve supply level.* The reserve supply level for flue-cured tobacco is 3,158,000,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 830,000,000 pounds and a normal year's exports of 440,000,000 pounds.

(b) *Total supply.* The total supply of flue-cured tobacco for the marketing year beginning July 1, 1953, is 3,103,000,000 pounds consisting of carry-over of 1,852,000,000 pounds and estimated 1953 production of 1,251,000,000 pounds.

(c) *Carry-over.* The estimated carry-over of flue-cured tobacco at the beginning of the marketing year for such tobacco beginning July 1, 1954, is 1,833,000,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning July 1, 1953, of 1,270,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of flue-cured tobacco which will make available during the marketing year beginning July 1, 1954, a supply of flue-cured tobacco equal to the reserve supply level of such tobacco is 1,325,000,000 pounds, and a national marketing quota of such amount is hereby proclaimed.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

| State: | Acreage allotment |
|---|---|
| Alabama | 604 |
| Florida | 22,141 |
| Georgia | 146,525 |
| North Carolina | 690,382 |
| South Carolina | 121,621 |
| Virginia | 103,465 |
| Reserve[1] | 5,283 |

[1] Acreage reserved for establishing allotments for farms upon which no flue-cured tobacco has been grown during the past five years.

Done at Washington, D. C., this 27th day of November 1953. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

---

PART 726—FIRE-CURED, DARK AIR-CURED, AND VIRGINIA SUN-CURED TOBACCO

PROCLAMATION OF NATIONAL MARKETING QUOTAS FOR THE 1954–55 MARKETING YEAR

Sec.
726.501 Basis and purpose.
726.502 Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1954.
726.503 Findings and determinations with respect to the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1954.

[1] Rounded to the nearest million pounds.

Sec.
726.504 Findings and determinations with respect to the national marketing quota for Virginia Sun-cured tobacco for the marketing year beginning October 1, 1954.

AUTHORITY: §§ 726.501 to 726.504 issued under sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312.

§ 726.501 *Basis and purpose.* Sections 726.501 to 726.504 are issued to announce the reserve supply level and the total supply of fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1953, and to establish the amounts of the national marketing quotas for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1954. The findings and determinations contained in §§ 726.502 to 726.504 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of the data, views, and recommendations received from fire-cured, dark air-cured, and Virginia sun-cured tobacco producers and others as provided in a notice (18 F. R. 6592) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

§ 726.502 *Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1954*[1]—(a) *Reserve supply level.* The reserve supply level for fire-cured tobacco is 175,600,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 38,000,000 pounds and a normal year's exports of 38,000,000 pounds.

(b) *Total supply.* The total supply of fire-cured tobacco for the marketing year beginning October 1, 1953, is 197,700,000 pounds consisting of carry-over of 146,400,000 pounds and estimated 1953 production of 51,300,000 pounds.

(c) *Carry-over.* The estimated carry-over of fire-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1954, is 126,100,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1953, of 71,600,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of fire-cured tobacco which will make available during the marketing year beginning October 1, 1954, a supply of fire-cured tobacco equal to the reserve supply level of such tobacco is 49,500,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 49,500,000 pounds would result in undue restriction of marketings during the 1954–55 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1954, is 59,400,000 pounds.

[1] Rounded to the nearest tenth of a million pounds.

§ 726.503 *Findings and determinations with respect to the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1954*[1]—(a) *Reserve supply level.* The reserve supply level for dark air-cured tobacco is 86,100,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 25,000,000 pounds and a normal year's exports of 8,000,000 pounds.

(b) *Total supply.* The total supply of dark air-cured tobacco for the marketing year beginning October 1, 1953, is 100,300,000 pounds consisting of carry-over of 75,200,000 pounds and estimated 1953 production of 25,100,000 pounds.

(c) *Carry-over.* The estimated carry-over of dark air-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1954, is 65,900,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1953, of 34,400,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of dark air-cured tobacco which will make available during the marketing year beginning October 1, 1954, a supply of dark air-cured tobacco equal to the reserve supply level of such tobacco is 20,200,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 20,200,000 pounds would result in undue restriction of marketings during the 1954–55 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for dark air-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1954, is 24,200,000 pounds.

§ 726.504 *Findings and determinations with respect to the national marketing quota for Virginia sun-cured tobacco for the marketing year beginning October 1, 1954*[1]—(a) *Reserve supply level.* The reserve supply level for Virginia sun-cured tobacco is 8,662,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 2,700,000 pounds and a normal year's exports of 500,000 pounds.

(b) *Total supply.* The total supply of Virginia sun-cured tobacco for the marketing year beginning October 1, 1953, is 5,905,000 pounds consisting of a carry-over of 2,505,000 pounds and estimated 1953 production of 3,400,000 pounds.

(c) *Carry-over.* The estimated carry-over of Virginia sun-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1954, is 2,405,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1953, of 3,500,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Virginia sun-cured tobacco which will make available during the marketing year beginning October 1, 1954, a supply of Virginia sun-cured tobacco equal to the reserve supply level of such tobacco is 6,257,000 pounds and a national marketing quota of such amount is hereby proclaimed.

Done at Washington, D. C., this 27th day of November 1953. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10090; Filed, Dec. 1, 1953; 8:52 a. m.]

## TITLE 14—CIVIL AVIATION

### Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 190-1]

PART 190—AUTHORIZATION OF NAVIGATION OF FOREIGN CIVIL AIRCRAFT WITHIN THE UNITED STATES

EXTENSION OF EFFECTIVE DATE OF PART

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of November 1953.

Part 190 of the Civil Air Regulations, adopted August 19, 1953, was issued by the Board under the authority of Public Law 225 of the 83d Congress. This law transferred the power to the Board to issue flight authorizations under the Air Commerce Act of 1926 for navigation of foreign aircraft in the United States. As stated in the preamble to Part 190, that part was adopted as a temporary measure, pending the drawing up of definitive regulations. Comments as to the respects in which the regulation should be changed were solicited with a deadline of October 1, 1953, and the termination date of the original part was established as December 1, 1953.

Few comments were received by the deadline date, but several have been received since that time. While, except in unusual cases, the Board does not care to consider comments received after a deadline date established in its notice of proposed rule-making, in this instance, because of the novelty of the subject matter and the small amount of experience which interested persons had in a regulation of this type, the Board believes it desirable to take full cognizance of the matter presented in all such comments. Moreover, since neither the comment nor the Board's own experience with the regulation has shown an urgent necessity for change, it appears desirable to gain additional experience before the adoption of final regulations. Accordingly, the Board by this amendment is prolonging the effective life of provisional Part 190 for an additional 90 days.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented. Since this amendment imposes no additional burden on any person, it may be made effective without prior notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 190 of the Civil Air Regulations (14 CFR 190) effective immediately:

By striking the date December 1, 1953, and inserting in lieu thereof March 1, 1954.

(Sec. 6, 44 Stat. 572, as amended. Pub. Law 225, 83d Cong.; 49 U. S. C. 176)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
*Secretary.*

[F. R. Doc. 53-10087; Filed, Dec. 1, 1953; 8:52 a. m.]

## TITLE 22—FOREIGN RELATIONS

### Chapter V—United States Information Agency

PART 501—INFORMATIONAL MEDIA GUARANTIES UNDER THE ECONOMIC COOPERATION ACT OF 1948, AS AMENDED

*Preamble.* In furtherance of the Mutual Security Act of 1951, as amended, in order to facilitate and maximize the use of private channels of trade, and pursuant to the authority contained in III (b) (3) of the Economic Cooperation Act of 1948, as amended (22 U. S. C. 1509) supplemented and continued (hereinafter called the "act"), the following rules and regulations are prescribed for the making of guaranties of investments in enterprises producing or distributing informational media (hereinafter called "Informational Media Guaranties").

Sec.
501.1 Scope of this part.
501.2 Application for guaranties and place of filing.
501.3 Delegation of authority.
501.4 Fee for guaranties.
501.5 Designation of Export-Import Bank of Washington as fiscal agent.
501.6 Saving clause.

AUTHORITY: §§ 501.1 to 501.6 issued under sec. 104, 62 Stat. 138, as amended, E. O. 10300, 16 F. R. 11203, 3 CFR 1951 Supp., E. O. 10368, 17 F. R. 5929, 3 CFR, 1952 Supp., E. O. 10476, 18 F. R. 4537.

§ 501.1 *Scope of this part.* This part shall cover Informational Media Guaranties.

§ 501.2 *Applications for guaranties and place of filing.* Applications for Informational Media Guaranties should be made in writing to the Informational Media Guaranty Branch, Information Center Service, United States Information Agency, Washington 25, D. C. There is no prescribed form of application, but published information on current policies of the Informational Media Guaranty Program, including the contents of applications, may be obtained on request from the United States Information Agency at the address indicated. Each applicant will be notified in writing when his application has been found to be complete and is accepted for processing.

§ 501.3 *Delegation of authority.* Delegation of Authority No. 2A, signed by the Director, United States Information Agency, dated September 3, 1953, delegated to the Chief, Information Center Service, United States Information Agency, authority to (a) make informational media guaranties and (b) administer such guaranties made prior to August 1, 1953.

§ 501.4 *Fees for guaranties.* The recipient of a guaranty shall pay to the United States Information Agency or its duly authorized representative, annually in advance, a fee of not to exceed 1 percent per annum of the face amount of such guaranty.

§ 501.5 *Designation of Export-Import Bank of Washington as fiscal agent.* Export-Import Bank of Washington is hereby designated by the United States Information Agency as its fiscal agent, upon such terms as specified by the Agency, in administering Informational Media Guaranties.

§ 501.6 *Saving clause.* The U. S. Information Agency may waive, withdraw or amend at any time or from time to time any or all of the provisions of this part.

Issued: November 25, 1953.

THEODORE C. STREIBERT,
*Director.*

[F. R. Doc. 53-10067; Filed, Dec. 1, 1953; 8:47 a. m.]

## TITLE 30—MINERAL RESOURCES

### Chapter IV—Federal Coal Mine Safety Board of Review

PART 401—RULES OF PROCEDURE

PRIOR TO FINDING

1. Section 401.32 of the Rules of Procedure (18 F. R. 3020) is amended by adding "(a)" after the heading § 401.32 *Prior to finding.*, and by adding a new paragraph (b) to read as follows:

(b) When an application for annulment or revision of an order of a Federal inspector is filed by an operator of a mine located in a State with an approved State plan, the Board may, without further proceedings, issue an order annulling or revising the order of the Federal inspector upon the filing with the Board by the respondent of a statement that (1) an inspection by a duly authorized representative of the Bureau has shown that the violation on which the order was based has been abated, and (2) the respondent joins with the applicant in requesting annulment or revision of the order.

(Sec. 205, 66 Stat. 697)

Adopted by the Federal Coal Mine Safety Board of Review at its office in Washington, D. C., on the 6th day of November 1953.

TROY L. BACK,
*Executive Secretary.*

[F. R. Doc. 53-10060; Filed, Dec. 1, 1953; 8:45 a. m.]

## TITLE 32—NATIONAL DEFENSE

### Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 535—PAYMENT OF BILLS AND ACCOUNTS

CERTIFICATION, GENERAL

In § 535.1 paragraph (b) (1) is amended as follows:

§ 535.1 *Certification, general.* * * *

(b) *Vendor's certificate*—(1) *General certificate.* The following certificate will be furnished by the vendor on his invoice or on Form 1034:

I certify that the above bill is correct and just and that payment therefor has not been received.

See MS Comp. Gen. A 51607, A 49009, May 1, 1950. The certificate will be signed by the vendor or his duly authorized agent in ink or indelible pencil, showing the title of the signer. However, rubber-stamp signatures on invoices will be accepted if the vendor has adopted the stamp as his signature. See MS Comp. Gen. B 114997, May 15, 1953, and B 115920, September 9, 1953.

* * * * * *

[C5, SR 35, 3210.5, November 10, 1953] (R. S. 161; 5 U. S. C. 22. Interpret or apply R. S. 3737, as amended, 3477, as amended; 31 U. S. C. 203, 41 U. S. C. 15)

[SEAL] WM. E. BERGIN,
*Major General, U. S. Army,*
*The Adjutant General.*

[F. R. Doc. 53-10075; Filed, Dec. 1, 1953; 8:49 a. m.]

Subchapter G—Procurement

PART 596—CONTRACT CLAUSES AND FORMS

CONSTRUCTION CONTRACT FORMS

1. Section 596.571 is rescinded and the following substituted therefor:

§ 596.571 *Standard forms for construction contracts (§ 415.004 of this title).* (a) Until such time as a short form of construction contract is adopted, the following U. S. Standard Forms are prescribed for use in formally advertised construction contracts. These forms may be used for such contracts regardless of amount, but are mandatory for formally advertised construction contracts exceeding $10,000. It is recommended, however, that the forms also be used in formally advertised construction contracts in amounts in excess of $2,000 up to and including $10,000 as these forms include labor provisions required to be inserted in construction contracts by Part 411 of this title:

U. S. Standard Form 20 (Revised March 1953)—Invitation for Bids.
U. S. Standard Form 21 (Revised March 1953)—Bid Form.
U. S. Standard Form 22 (Revised March 1953)—Instructions to Bidders.
U. S. Standard Form 23 (Revised March 1953)—Construction Contract.
U. S. Standard Form 23A (Revised March 1953)—General Provisions.

(b) The use of additional contract provisions consistent with those contained in the standard forms is authorized and, where required elsewhere in this subchapter, the use of such additional provision is mandatory. Changes or additional provisions inconsistent with those contained in the standard forms shall be incorporated when required by any other part of this subchapter, and may be incorporated when authorized on an optional basis by any other part of this subchapter. In the event that a change or additional provision inconsistent with those contained in the standard forms is neither required nor authorized by any other part of this subchapter, request for authority to make such change or incorporate such additional provision in any construction contract to be let pursuant to formal advertisement shall be submitted for approval to the Chief, Purchases Branch, Procurement Division, Office of the Assistant Chief of Staff G-4. If approval is granted, a copy of the change or additional provision so approved shall be forwarded by the approving authority to the General Services Administration.

(c) U. S. Standard Form 23 (Construction Contract) and U. S. Standard Form 23A (General Provisions) may also be utilized for negotiated lump-sum construction contracts.

(d) It is expected that these standard forms will be available in Adjutant General publications depots on or before October 22, 1953.

2. Sections 596.531 and 596.572 are revoked as follows:

§ 596.531 *Construction Contract (Lump Sum) DA AGO Form R-5701.* [Revoked.]

§ 596.572 *Bid (Construction Contract)* [Revoked.]

[Proc. Cir. 25, October 1, 1953] (R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. Sup. 151-161)

[SEAL] WM. E. BERGIN,
*Major General, U. S. Army,*
*The Adjutant General.*

[F. R. Doc. 53-10076; Filed, Dec. 1, 1953; 8:49 a. m.]

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter IX—Petroleum Administration for Defense, Department of the Interior

[PAD Order No. 3 Revocation]

PAD ORDER 3—AVIATION QUALITY BLENDING AGENTS AND FEED STOCKS

REVOCATION

PAD Order No. 3 (16 F. R. 10745) is hereby revoked effective December 1, 1953.

This revocation does not relieve any person of any obligation or liability incurred under PAD Order No. 3 as originally issued nor does this revocation deprive any person of any rights received or accrued under said order as originally issued prior to the effective date of this revocation.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

This revocation is issued this 27th day of November 1953, and shall be effective on and after the 1st day of December 1953.

J. A. LAFORTUNE,
*Deputy Petroleum Administrator.*

[F. R. Doc. 53-10074; Filed Dec. 1, 1953; 8:49 a. m.]

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

[Circular No. 1863]

PART 192—OIL AND GAS LEASES

SINGLE EXTENSION AS TO LANDS NOT IN A PRODUCING FIELD

Effective 60 days from issuance hereof, § 192.120 is amended to read as follows:

§ 192.120 *Single extension as to lands not in a producing field.* (a) The record title holder of any noncompetitive lease, maintained in compliance with the law and the regulations of this part, may, by filing his application therefor within the period of 90 days prior to the expiration date of the lease, obtain a single extension of the primary term of the lease for an additional five years, unless then otherwise provided by law, as to all of the leased lands or any legal subdivision thereof which, on the expiration date of the lease, are not within the known geologic structure of any producing oil or gas field or have not been withdrawn from leasing. A withdrawal, however, will prevent an extension only (1) if notice thereof was mailed to the lessee by registered mail at least 90 days prior to the expiration date of the lease and (2) if actual drilling operations on the leased lands were not commenced prior to the effective date of such withdrawal, or, if so commenced, have not been diligently prosecuted until and including such expiration date.

(b) The application for extension must be filed on Form 4-1238, "Application for Extension of Oil and Gas Lease,"[1] or unofficial copies of that form in current use and should be accompanied by the payment of the sixth year's rental, unless previously paid: *Provided*, That the unofficial copies are exact reproductions on one sheet of both sides of the official approved one-page form, and are without additions, omissions, or other changes, except that the copies shall include the following statement above the signature of the lessee: "This form is submitted in lieu of official Form 4-1238 and contains all of the provisions thereof as of the date of filing of this application." In addition, the name and address of the printer or other party issuing unofficial reproductions of the official form shall be printed thereon. Form 4-1238 or a valid reproduction of the official form, will also constitute approval of the extension when signed by an authorized officer.

[1] Filed as part of the original document.

(c) If during the 90 day period prior to the expiration date of the lease, the record title holder files an application or request for an extension not on the prescribed form or unofficial copies thereof, or fails to file the prescribed number of copies, or pay the sixth year's rental, a notice will be issued allowing him 30 days to do so. The application will be rejected if such filing or payment is not made within the time allowed.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

DOUGLAS MCKAY,
*Secretary of the Interior.*

NOVEMBER 25, 1953.

[F. R. Doc. 53-10079; Filed, Dec. 1, 1953; 8:50 a. m.]

### Chapter II—Bureau of Reclamation, Department of the Interior

PART 406—EXCHANGE OR AMENDMENT OF FARM UNITS ON FEDERAL RECLAMATION PROJECTS

Sec.
406.1 Purpose of act.
406.2 Eligibility of applicants.
406.3 Request for determination of eligibility.
406.4 Application for selection of lieu farm unit.
406.5 Size of farm units.
406.6 Credit for charges.
406.7 Department of Agriculture mortgages.
406.8 Credit for homestead and reclamation proof.
406.9 Removal of improvements by owner.
406.10 Water rights.
406.11 Application for entry.
406.12 Amendment of farm units or private holdings.

AUTHORITY: §§ 406.1 to 406.12 issued under sec. 10, 32 Stat. 390, as amended, sec. 12, 67 Stat. 568; 43 U. S. C. 373. Interpret or apply sec. 3, 32 Stat. 388, as amended, sec. 5, 54 Stat. 520, sec. 3, 37 Stat. 266, 67 Stat. 566, 43 U. S. C. 434, 448, 544.

§ 406.1 *Purpose of act.* The act of August 13, 1953 (67 Stat. 566), hereinafter called "the act," provides for the exchange of certain unpatented farm units or private lands on a Federal irrigation project, for farm units available on the same or any other such project by certain classes of qualified applicants whose lands have been determined, pursuant to a land classification, to be insufficient to support a family, and the amendment of farm units by the addition of contiguous or non-contiguous land on the same project.

§ 406.2 *Eligibility of applicants.* The benefits of the act shall apply to an entryman on an unpatented farm unit and shall apply as to section 1 of the act and may apply as to the remainder of the act, except as otherwise provided to the lawful assignee of an unpatented farm unit who took the assignment in good faith not knowing and not having reason to believe the farm unit to be insufficient to support a family and to a resident owner of private lands who, apart from his having previously exhausted his homestead right, if such be the case, is eligible to enter unappropriated public lands under Revised Statutes, section 2289, as amended (43 U. S. C. 161), and

who lawfully acquired his lands as an entire farm unit under the Federal reclamation laws from the United States or in the case of a widow, widower, heir or devisee, from a spouse or ancester as the case may be who so acquired them. Eligibility of all applicants for exchange or amendment shall be further conditioned as to limitation of size of entry or ownership as provided in § 406.5.

§ 406.3 *Request for determination of eligibility.* Entrymen or resident landowners qualified as provided in § 406.2 may make written request addressed to the officer of the Bureau of Reclamation in charge of the project upon which the applicant's farm unit is located for a determination of his eligibility and that of his lands described in such request, for exchange or amendment of farm unit under the provisions of the act. Such requests shall include a showing of the basis on which such eligibility is claimed as set forth in § 406.2 and shall also list the amount of liens if any against the land, together with the names and addresses of the lien holders. When such determination shall have been made, pursuant to a land classification, the entryman or resident landowner shall be notified thereof in writing, in person, or by registered mail. At the same time, a list of farm units then currently available for exchange on the same project together with a list of other projects where units may be available shall be furnished to those determined to be eligible under the act.

§ 406.4 *Application for selection of a lieu farm unit.* (a) The eligible entryman or resident landowner shall file his written application for selection of a lieu farm unit with the official in charge of the project upon which the lieu farm unit is located within 30 days of receipt of his notification of eligibility. Each such application shall be dated and shall indicate the name and post office address of the applicant, a statement as to whether the applicant is an ex-serviceman as defined in section 8 of the act and the date on which the applicant received his notification of eligibility for exchange, attaching a copy of said notification. Such filing shall be considered as being timely within the meaning of the act, except with respect to farm units opened for entry or purchase pursuant to a public notice or public announcement under which the closing date has already passed. Filings may be made in person or by mail.

(b) In the event an application for exchange is filed on a project at a time after the opening date and before the closing date of any public notice or public announcement of filings for entry or purchase of a farm unit, such applicant shall have a preference over any other applicant for a farm unit on that project or division. All subsequent public notices and public announcements shall contain reference to the priority of applicants for farm units pursuant to the act.

(c) In the event there is an available unit on the project at the time the application is received and there are no other applications pending, the official in charge of the project on which the lieu unit is located shall immediately notify the applicant in writing that said unit may be awarded to him upon his selection or rejection of the unit within 30 days. Such unit shall then be withdrawn from availability until such time as that applicant notifies the official in charge of the project upon which that unit is located of his selection or rejection, and if after the expiration of 30 days the applicant fails to select or reject, his application for a unit on that project shall be considered withdrawn and returned. If an applicant rejects the unit offered, his application shall be considered refiled for any subsequent units in the manner herein provided.

(d) In the event there are no available units on the project receiving the application the official in charge shall place the application in priority group A if the applicant is an ex-serviceman as defined in section 8 and in priority group B if no such preference is evident from the application. All subsequent applications so received shall be so classified and held until a unit becomes available. At the time a unit becomes available and there are more than one application in either priority group a drawing shall be held to determine the individual priority within the priority group. Any applicant so establishing a priority within group A shall have a preference over applicants in group B. If the number of units available will not satisfy all pending applications subsequent drawings shall be held whenever units become available with the preferences established by the priority group.

(e) Applications for selection of a lieu farm unit shall be retained on file for a period of one year unless the applicant has sooner selected a farm unit on that project or some other project or withdrawn the application, or for good cause shown, the official in charge of the project where the application is pending may extend said period from time to time. No farm units will be included in a public announcement or notice for purchase or entry until all timely applicants on the project involved have had an opportunity to select a lieu unit thereon.

§ 406.5 *Size of farm units.* The act authorizes the establishment of new farm units or the amendment of existing farm units or private holdings by the addition of either contiguous or non-contiguous lands which may be available for entry or purchase, which in combination with all or a part of the unit will be sufficient in size to support a family. The maximum size of any unit shall not exceed 320 acres, of which not more than 160 acres may be irrigable. No exchange or amendment pursuant to the act will be permitted if the lieu unit or amended unit, together with other land owned by the applicant on any Federal reclamation project shall exceed 160 acres of irrigable land on which the construction charges have not been paid. This provision shall not include lands owned by applicant under a recordable contract for their disposal as provided by the Federal reclamation laws. Amendments involving non-contiguous tracts of land will not be approved if there is a sufficient acreage of land contiguous to the applicant's base farm or if the non-contiguous tracts are so located as to preclude their being farmed as a part of the base farm. Factors among others which may be considered, are the location of canals and other reclamation structures, either constructed or proposed, which would prohibit the normal movement of farming equipment from one tract to another, terrain or distance, all or any of which would render infeasible the economic farming operations of the applicant.

§ 406.6 *Credit for charges.* After consummation of the exchange, charges or liens by the United States against the entryman or resident landowner or against the relinquished farm unit or private lands which are within the administrative jurisdiction of the Secretary of the Interior may be canceled. Any charges paid to the United States by the entryman or resident landowner on the relinquished farm unit or private lands for land development or construction costs allocated against the lands or the purchase price paid to the United States for the original farm unit may be credited against such charges as have been allocated to the new unit or against the purchase price of the new unit.

§ 406.7 *Department of Agriculture mortgages.* Land that is subject to a mortgage contract with the Secretary of Agriculture under the act of October 19, 1949 (63 Stat. 883; 7 U. S. C. 1006a and 1006b), shall be disposed of under the provisions of the regulations in this part only in such form and manner and upon such terms and conditions as are consistent with the authority of the Secretary of Agriculture over such mortgage contract.

§ 406.8 *Credit for homestead and reclamation proof.* Entryman on unpatented farm units will be given credit under the homestead laws for residence, improvements and cultivation made or performed upon the original entry and if satisfactory final proof of residence, improvements and cultivation has been made on the original entry, it shall not be necessary to submit such proof upon the lieu entry. Such rights shall not be assignable. Resident owners of private lands making an exchange under the provisions of the act shall not be required to comply with the provisions of the homestead and reclamation laws as to residence, improvements and cultivation.

§ 406.9 *Removal of improvements by owner.* Within ninety days after consummation of the exchange, and subject to the rights and interests of other parties, the entryman may dispose of or remove any and all improvements placed on the relinquished lands. Improvements remaining on the relinquished lands upon the expiration of the ninety-day period shall become the property of the United States and shall be available for disposition under the laws of the United States. When a resident landowner elects to remove improvements which were located on the base farm unit at the time of purchase from the United States the current appraised value thereof shall be taken into consideration in applying the credit on the lieu farm unit.

§ 406.10 *Water rights.* Upon the consummation of the exchange any water right appurtenant to the original lands under the Federal reclamation laws shall cease and the water supply used or required to satisfy such right shall be available for disposition under the Federal reclamation laws.

§ 406.11 *Application for entry.* If the lieu farm unit selected by a successful exchange applicant is public domain, an application for entry shall be filed with the office having jurisdiction over the area in which the unit is located. In the case of farm units offered for sale under the provisions of the Federal reclamation laws the exchange applicant will execute a land purchase contract to be filed with the official in charge of the project upon which such farm unit is located. The application for a lieu farm unit or the land purchase contract must be accompanied by a copy of the approved application for selection of a lieu farm unit. In the case of an unpatented farm unit it will be necessary that the application be accompanied by a relinquishment. In the case of private lands the application must be accompanied by a warranty deed conveying title to the United States, and an abstract of title or other evidence of title showing that the land is free of all encumbrances.

§ 406.12 *Amendment of farm units on private holdings.* On those projects where it appears that there are a sufficient number of amendments to justify such action, a board shall be created to assist the Secretary in determining the boundaries of amended farm units. Otherwise, disputes between two or more entrymen or resident landowners as to which of them shall be awarded a tract of land, shall be referred to the Board of Directors or other governing body of the irrigation district or water users' association for a recommendation. In the event there is no irrigation district or water users' association under repayment contract for the lands involved in the amendment the matter shall be referred to the Commissioner of Reclamation for a final decision, subject to the right of appeal to the Secretary of the Interior.

DOUGLAS MCKAY,
*Secretary of the Interior.*

NOVEMBER 21, 1953.

# PROPOSED RULE MAKING

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

### [ 50 CFR Part 155 ]

NORTHWEST ATLANTIC COMMERCIAL FISHERIES

HADDOCK PROVISIONS

At its Third Annual Meeting held in New Haven, Connecticut, May 25-30, 1953, the International Commission for the Northwest Atlantic Fisheries, a body created pursuant to Article II of the International Convention for the Northwest Atlantic Fisheries signed at Washington, D. C., under date of February 8, 1949, adopted a proposal amending a proposal previously adopted by the Commission concerning the regulation of the taking of haddock in Sub-area 5 of the Convention. The proposal adopted at the third meeting was accepted by the Governments of the United States and Canada on September 1, 1953, and, in accordance with the provisions of the International Convention for the Northwest Atlantic Fisheries, enters into force with respect to all Contracting Governments on January 1, 1954.

The proposal adopted by the Commission at its Third Annual Meeting recommends certain changes in the definition of average mesh size in trawl nets when wet after use and authorizes the Contracting Governments to exercise discretion in determining such average mesh size.

In accordance with section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 237), notice is hereby given that in order to give effect to the Commission's proposal, the Secretary of the Interior intends to adopt the regulations set out below affecting the taking of haddock in the Northwest Atlantic Ocean to become effective January 1, 1954. These regulations are to be adopted under the authority contained in section 7 (a) of the Northwest Atlantic Fisheries Act of 1950 (64 Stat. 1067, 16 U. S. C., 1946 ed., Supp. V, 86). In accordance with section 4 (a) of the Northwest Atlantic Fisheries Act of 1950, the proposed regulations were submitted to the Advisory Committee to the United States Commissioners on the International Commission for the Northwest Atlantic Fisheries on November 10, 1953, at which time the proposed regulations received the approval of the Advisory Committee.

The proposed regulations, to replace Subchapter I—Northwest Atlantic Commercial Fisheries, Part 155—Haddock Provisions, are as follows:

Sec.
155.1 Meaning of terms.
155.2 Restrictions on fishing gear.
155.3 Tampering with seals prohibited.
155.4 Employment of devices to reduce mesh size prohibited.
155.5 Certain vessels exempted.

AUTHORITY: §§ 155.1 to 155.5 issued under sec. 7, 64 Stat. 1067, 16 U. S. C. 956.

§ 155.1 *Meaning of terms.* When used in the regulations in this part unless the content otherwise requires, terms shall have the meanings ascribed hereinafter in this section.

(a) *Vessel.* The word "vessel" denotes every kind, type, or description of watercraft, aircraft, or other contrivance, subject to the jurisdiction of the United States, used, or capable of being used, as a means of transportation on water.

(b) *Haddock.* The word "haddock" denotes any fish of the species Melanogrammus aeglefinus.

(c) *Haddock fishing.* The words "haddock fishing" mean the catching, taking, or fishing for, or the attempted catching, taking, or fishing for any fish of the species Melanogrammus aeglefinus.

(d) *Trawl net.* The words "trawl net" mean any large bag net dragged in the sea by a vessel or vessels for the purpose of taking fish.

(e) *Cod end.* The words "cod end" mean the bag-like extension attached to the after end of the belly of the trawl net and used to retain the catch.

§ 155.2 *Restrictions on fishing gear.* (a) No person shall engage in haddock fishing in the northwest Atlantic Ocean north of 39°00' north latitude and west of 42°00' west longitude with a trawl net or nets, parts of nets or netting having a mesh size of less than four and one-half inches, as defined in this part.

(b) As used in this part, the term "mesh size of less than four and one-half inches" shall mean: (1) With respect to any part of the net except the cod end, the average size of any twenty consecutive meshes in any row located at least ten meshes from the side lacings measured when wet after use, and (2) with respect to the cod end, the average size of any row of meshes running the length of the cod end located at least ten meshes from the side lacings, measured when wet after use, or, at the option of the user, a cod end which has been approved, in accordance with paragraph (d) of this section, by an authorized representative of the Director of the Fish and Wildlife Service, as having a mesh size when dry before use equivalent to not less than four and one-half inches when wet after use.

(c) All measurements of meshes when wet after use shall be made by the insertion into such meshes under pressure of not less than ten nor more than fifteen pounds of a flat-wedge-shaped gauge having a taper of two inches in nine inches and a thickness of three thirty-seconds of an inch.

(d) For the purpose of approving dry cod ends before use, as contemplated by paragraph (b) of this section, the average mesh size of such cod ends shall be determined by measuring the length of any single row of meshes running the length of the cod end, parallel to the long axis of the cod end and located at least ten meshes from the side lacings when stretched under a tension of two hundred pounds, and dividing the length by the number of meshes in such row: *Provided*, That not more than ten percent of the meshes in such row shall be more than one-half inch smaller when measured between knot centers than the average of the row. Cod ends so measured which are constructed of the twines and are of not less than the average mesh sizes specified in the table below may be approved for haddock fishing by any duly authorized employee of the Fish and Wildlife Service by the attachment to such cod end of an appropriate seal or seals.

| *Twine* | *Average mesh size* |
|---|---|
| 4-ply 45-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 60-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 75-yard manila, double strand. | 5.625 inches (5⅝"). |
| 4-ply 80-yard manila, double strand. | 5.500 inches (5½"). |
| 100-thread cotton | 4.250 inches (4¼"). |
| All nylon | 4.250 inches (4¼"). |

§ 155.3 *Tampering with seals prohibited.* Removing, altering, defacing or in any other way tampering with seals affixed to cod ends in accordance with § 155.2 is prohibited.

§ 155.4 *Employment of devices to reduce mesh size prohibited.* The use from any vessel engaged in haddock fishing in the area described in § 155.2 of any device or method which will obstruct the meshes of the trawl net or which will otherwise, in effect, diminish the size of said meshes is prohibited: *Provided*, That a protective covering may be attached to the underside only of the cod end alone of the net to reduce and prevent damage thereto.

§ 155.5 *Certain vessels exempted.* Nothing contained in the regulations in this part shall apply to:

(a) Any vessel having in possession haddock in amounts less than five thousand pounds or ten percent by weight of all the fish on board such vessel, whichever is larger.

(b) Any vessel duly authorized by the Director of the Fish and Wildlife Service to engage in haddock fishing for scientific purposes.

(c) Any vessel documented as a common carrier by the Government of the United States and engaged exclusively in the carriage of freight and passengers.

All persons who desire to submit written data, views or arguments in connection with the proposed regulations may do so by filing them with John L. Farley, Director, Fish and Wildlife Service, Department of the Interior, Washington 25, D. C., not later than 30 days from the publication of this notice in the FEDERAL REGISTER.

Dated: November 25, 1953.

DOUGLAS MCKAY,
*Secretary of the Interior.*

[F. R. Doc. 53-10078; Filed, Dec. 1, 1953; 8:50 a. m.]

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

HOLTON BROTHERS STOCK YARDS, HUGO, OKLA., AND IDABEL STOCKYARDS, IDABEL, OKLA.

POSTING OF STOCKYARDS

The Secretary of Agriculture has information that the Holton Brothers Stock Yards, Hugo, Oklahoma, and the Idabel Stockyards, Idabel, Oklahoma, are stockyards as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyards named above as posted stockyards subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit, within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 25th day of November 1953.

[SEAL] DAVID M. PETTUS,
*Acting Director, Livestock Branch, Production and Marketing Administration.*

## CIVIL AERONAUTICS BOARD

### [ 14 CFR Parts 40, 41, 42, 60 ]

[Draft Release No. 53-30]

AMENDMENT OF CIVIL AIR REGULATIONS TO PERMIT USE OF NAUTICAL UNITS IN CONTROL OF AIR TRAFFIC AND TO REQUIRE THEIR USE IN AIR CARRIER OPERATIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of proposed amendments to the Civil Air Regulations hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by January 4, 1954. Copies of such communications will be available after January 6, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

On April 15, 1952, the Bureau of Safety Regulation of the Civil Aeronautics Board published in the FEDERAL REGISTER (17 F. R. 3357) a notice of proposed rule making and circulated as Draft Release No. 52-10 dated April 1, 1952, a proposal to amend several parts of the Civil Air Regulations with respect to the conversion of speed and distance requirements from miles per hour and statute miles to knots and nautical miles.

In response to that proposal, the Board received considerable comment from virtually all segments of United States aeronautical activity. This comment posed so many questions as to the necessity, as well as the desirability of making the proposed amendments, that the Board heard oral argument with respect to them on May 29, 1952. The Board considered that insufficient justification was shown in the oral argument for adoption of the proposed amendments at that time, and accordingly the Civil Air Regulations were not amended, nor was the use of nautical units in the control of air traffic initiated.

Subsequent to that decision, the practical effect of which was to leave civil aviation practices with respect to dimensional units unchanged, the Board continued to receive suggestions for the resolution of this problem and in keeping with its policy of constant surveillance of safety matters, the Board has reviewed the arguments presented for and against the reopening of the question. Requests have been received from the armed services, the Air Transport Association of America, and the Air Line Pilots Association for the reconsideration of this problem. These groups represent interests which account for over 90 percent of all airway traffic under instrument flight rules. The Administrator of Civil Aeronautics has also advised the Board that he has reviewed the problem of the use of nautical units in civil aviation with particular emphasis on their relation to the operation of the Federal Airways and related services. The Administrator's objective was to develop a feasible plan of operation by which those operators and service agencies who so desired, could utilize nautical units for purposes of radio navigation and traffic control, and at the same time continue to provide information in statute units to those groups in aviation who desired no change in dimensonal units. The broad outline of such a plan has been made available to the Board, and it has been used as a basis for the amendments of the Civil Air Regulations hereinafter proposed.

In general, this plan will require air carriers to use nautical units (the armed services will of course use nautical units exclusively) and give all other operators the option of using either nautical or statute units. Although non-air-carrier operators are not required to file flight plans under VFR conditions, it will be permissible for them to file flight plans in either statute or nautical units. For IFR operations, flight plans will normally be filed in nautical units, but can be submitted by non-air-carrier operators in statute units. Information as to speeds and distance will normally be transmitted in ground-to-air communications in nautical units but upon specific request will also be transmitted in statute units. It is to be noted that no change in the units currently associated with visibilities, approach charts, radio facility charts, airway widths, control zone dimensions, non-air-carrier aircraft instruments, etc., is necessary and that in Part 60 (Air Traffic Rules), it appears necessary only to remove the limiting words "in miles per hour" from § 60.41 (g) relating to IFR operations. Although the normal operation of the

Federal Airways system will be based upon the nautical system, it may be stated that no burden will be placed on general aviation either for VFR or IFR operations.

With respect to air carrier operations, it is proposed to amend the appropriate regulations to provide for an orderly changeover to nautical units. Prior to the date on which the Administrator commences the use of nautical units in airway operations, probably about July 1 1954, air carriers shall revise air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards to the same units as used on the air-speed indicator. Where the operation rules of the Civil Air Regulations require more than one air-speed indicator, all such indicators shall be calibrated to designate air-speed in the same units. If the airplane is equipped with an air-speed indicator calibrated in statute miles per hour and not in knots, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots. After January 1, 1956, however, all air-speed indicators shall be calibrated in knots, and air-speed limitations and related information contained in the Airplane Flight Manual, and pertinent placards shall be expressed in knots.

Accordingly, notice is hereby given that the Board proposes to amend the Civil Air Regulations as follows:

1. By deleting the word "in miles per hour" from § 60.41 (g) of Part 60.

2. By amending the operation requirements pertaining to air carrier operations by requiring that air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards be in the same units as used on the air-speed indicator, that all such indicators be calibrated in the same units when more than one air-speed indicator is required, and that for air-speed indicators calibrated in statute miles per hour and not in knots, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots.

3. By amending the operation requirements pertaining to air carrier operations to require that after January 1, 1956, all air-speed indicators shall be calibrated in knots, and all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

It is proposed that these amendments become effective on the date on which the Administrator commences use of nautical units in airways operations, probably about July 1, 1954.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. These proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated: November 27, 1953, at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 53-10118; Filed, Dec. 1, 1953; 11:26 a. m.]

## [ 14 CFR Part 42 ]

EXTENSION OF DATE REQUIRING NONTRANSPORT CATEGORY AIRPLANES USED IN PASSENGER OPERATIONS TO COMPLY WITH STANDARDS OTHER THAN THOSE CURRENTLY IN EFFECT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of proposed amendments of the Civil Air Regulations in substance as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulations, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by December 16, 1953. Copies of such communications will be available after December 18, 1953, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Section 42.15 (c) of Part 42 for the past several years has stated that after December 31, 1953, all airplanes used in irregular passenger operation shall comply with the transport category requirements of Parts 4a or 4b and with transport category operating limitations. This provision, which was identical to provisions in Parts 40 and 41 of the Civil Air Regulations, was intended to require nontransport category airplanes, principally the Douglas DC-3, the Lockheed L-18, and the Curtiss C-46, to comply with stricter requirements than those now in effect for passenger operations pursuant to Part 42. These operations in the case of the C-46 are further limited by Special Civil Air Regulation SR-391 which temporarily establishes a maximum certificated weight for this airplane of 44,300 pounds with an additional 1,000 pounds for those airplanes having certain type propellers.

Tests are currently being conducted with the C-46, incorporating certain modifications which are designed to improve performance and the general safety of operation. These tests are being conducted by the Aircraft Engineering Foundation, representing the C-46 operators, who have requested that the Board extend the present applicable regulations until June 30, 1954. It is stated that these tests will be completed soon and that the results will be presented to the Civil Aeronautics Administration for appraisal in the early part of 1954. In consideration of the foregoing, the Board is proposing that the present regulations be extended to not later than March 31, 1954; which, in view of the ample notice which has been given for consideration by the industry of the factors involved in the continued use of nontransport category airplanes in passenger operations, should constitute sufficient time for presentation to and consideration by the Board of the necessary data derived from the tests.

Accordingly, notice is hereby given that the Board proposes to amend the Civil Air Regulations as follows:

1. By deleting the date "December 31, 1953" in § 42.15 (c) of Part 42 and inserting the date March 31, 1954 in lieu thereof.

2. By promulgating a new Special Civil Air Regulation extending the provisions of Special Civil Air Regulation SR-391 through March 31, 1954.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. These proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. [illegible])

Dated November 27, 1953, at Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

## FEDERAL COMMUNICATIONS COMMISSION

## [ 47 CFR Parts 2, 3 ]

[Dockets Nos. 10716, 10717]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 25th day of November 1953;

The Commission having under consideration proposals to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations; and

It appearing, that notices of proposed rule making (FCC 53-1337 & FCC 53-1338) setting forth the above amendments were issued by the Commission on October 15, 1953, and were duly published in the FEDERAL REGISTER (18 F. R. 6680), which notices provided that interested parties might file statements or briefs with respect to the said amendments on or before November 16 1953; and

It further appearing, that no comments were received either favoring or opposing the adoption of the proposed reallocations;

It further appearing, that the immediate adoption of the proposed reallocations would facilitate consideration of a pending application requesting a Class B assignment in Deland, Florida, and permit a change in frequency for an existing FM broadcast station in Huntsville, Alabama,

*It is ordered*, That effective immediately the Revised Tentative Allocation Plan for Class B FM broadcast stations is amended as follows:

| General area | Channels | |
|---|---|---|
| | Delete | Add |
| Deland, Fla. | ---- | 239 |
| Longwood, Fla. | 239 | ---- |
| Huntsville, Ala. | ---- | 250 |
| Huntsville, Ala. | 250 | ---- |
| Chattanooga, Tenn. | 254 | ---- |

Released: November 27, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WM. P. MASSING, *Acting Secretary.*

[F. R. Doc. 53-10080; Filed, Dec. 1, 1953; 8:50 a. m.]

## [ 47 CFR Part 3 ]

[Docket No. 10765]

RADIO BROADCAST SERVICES

FREQUENCY ALLOCATIONS; CLEAR CHANNELS; CLASS I AND II STATIONS

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend § 3.25 (a) to read as follows:

§ 3.25 *Clear channels: Class I and II stations.* The frequencies in the following tabulations are designated as clear channels and assigned for use by the classes of stations given:

(a) (1) To each of the channels below there will be assigned one Class I station and there may be assigned one or more Class II stations within the continental limits of the United States operating limited time or daytime only: 640, 650, 660, 670, 700, 720, 750, 760, 770, 780, 820, 830, 840, 870, 880, 890, 1020, 1040, 1100, 1120, 1160, 1180, 1200, 1210 kilocycles.

(2) There also may be assigned to these frequencies Class II stations operating unlimited time in Alaska, Hawaii, Virgin Islands, and Puerto Rico which will not deliver over 5 microvolts per meter groundwave day or night or 25 microvolts per meter 10 percent time skywave at night at any point within the continental limits of the United States. The power of the Class I stations on these channels shall not be less than 50 kilowatts.

3. The purpose of this amendment is to make the frequencies concerned available for assignment in Alaska, Hawaii, Virgin Islands, and Puerto Rico in the same manner in which they are presently being used, or may be used, in other countries of the North American region that are closer to the continental United States than are Alaska, Hawaii, Virgin Islands, or Puerto Rico.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 303 (a), (b), (c), (f), (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before January 15, 1954, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 24, 1953.

Released: November 25, 1953.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WM. P. MASSING, *Acting Secretary.*

[F. R. Doc. 53-10081; Filed, Dec. 1, 1953; 8:50 a. m.]

## [ 47 CFR Part 9 ]

[Docket No. 10776]

AVIATION SERVICES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend Part 9 of the Commission's rules governing Aviation Services to provide for services not presently recognized; to streamline licensing procedures and to provide for the recognition of radio station licenses aboard foreign-flag aircraft operating within the United States in accordance with the ICAO Agreement. Final action in this matter will dispose of a petition filed by Aeronautical Radio, Inc., Washington, D. C.

3. The proposed amendment provides for:

(a) The issuance of a single license to each scheduled air carrier for the specified number of aircraft radio stations operated in its fleet;

(b) A metropolitan area plan of communications;

(c) Recognition of radio station license aboard foreign-flag aircraft operating within the United States in accordance with the ICAO Agreement.

4. Under existing rules, aircraft are separately licensed by the Commission. The petition indicates that the licensing of an entire fleet of aircraft to an air carrier on a single instrument of authorization would tend to make the administrative operation of an air carrier more functional than the present practice of separately licensing each aircraft, inasmuch as it would overcome difficulties associated with the Civil Aeronautics Board approved scheduled airline "interchange program". Section 9.105 (a) (ii) and (iii) of the proposed rules provide for the issuance of one license to each scheduled air carrier authorizing the use and operation of the total number of aircraft radio stations aboard aircraft of U. S. registry owned or controlled by such air carrier.

5. Within the past few years, there has developed a new class of aircraft operation in the major metropolitan areas where the helicopter and, in some instances, small conventional aircraft, are used to transport passengers, mail, or cargo between the main air terminal of a city and its numerous outlying or downtown minor landing areas. Sections 9.1101 through 9.1104 of the proposal provide for the operation of metropolitan area stations not specifically included in the rules at this time.

6. The petition requested promulgation of regulations governing the operation of radio stations aboard foreign-flag aircraft within the United States in accordance with Article 30 of the ICAO Agreement. This is provided for in § 9.313 of the proposed rules.

7. The petition requested regulations be adopted to provide recognition for network type of route chain systems and to authorize preliminary system licensing of aeronautical route chain systems. This raises certain basic questions of policy and authority which the Commission presently has under study. Pending completion thereof action on this aspect of the petition will be held in abeyance.

8. Enclosure A of the petition lists certain Aeronautical Mobile (R) Bands of frequencies to be made available in the Rules. The Aeronautical Mobile (R) Bands are not cleared of conflicting operations at this time, therefore cannot be made available in accordance with ARINC's request. When the Aeronautical Mobile (R) Bands are cleared of conflicting operations appropriate proposed rule making procedures will be initiated.

9. The authority for the proposed amendment, the text of which appears below, is contained in sections 4 (i), 303 (b), (c), (f), and (r) of the Communications Act of 1934, as amended.

10. Any interested person may file with the Commission on or before January 15, 1954, a written statement or brief in support, opposition, or for modification of the proposed amendment. Within 15 days from the last day for filing the original comments or briefs, comments or briefs in reply thereto may be filed. The Commission will consider such comments before taking action in this matter. If any comments will appear to warrant the holding of an oral argument or hearing a notice of time and place therefor will be given.

11. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements,

briefs or comments shall be furnished to the Commission.

Adopted: November 25, 1953.

Released: November 27, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

Proposed amendments to Part 9, rules governing Aviation Services:

1. Subparagraph (6) is added to § 9.10 (k) to read as follows:

(6) *Aeronautical metropolitan station.* An aeronautical station used for communications with aircraft, including helicopters, operating between a main air terminal of a metropolitan area and subordinate landing areas.

2. The present text of paragraph (a) of § 9.105 is designated subparagraph (1) and subparagraphs (2) and (3) are added to read as follows:

(2) A scheduled air carrier, in submitting applications for aircraft radio station licenses, may specify on a single FCC Form 404, the total number of air carrier aircraft radio stations in the fleet, together with the registration number and other pertinent information for each aircraft involved. Such an application may include a request for a single instrument of authorization for the operation of all aircraft radio stations aboard the scheduled aircraft of the fleet.

(3) Any scheduled U. S. air carrier, conducting operations pursuant to an interchange or lease agreement authorized by the Civil Aeronautics Board, may include in its application, filed in accordance with subparagraph (2) of this paragraph, a request for permission to temporarily transfer the control of any of its air carrier aircraft radio stations to another U. S. scheduled air carrier, currently licensed by the F. C. C., with whom it has such an interchange or lease agreement, in order to enable such carrier to operate the station while the interchange or lease agreement is in effect. Such request must specify (i) the number of aircraft subject to the interchange or lease agreement, and (ii) the names of the scheduled air carriers participating in the interchange or lease agreement who will operate such aircraft, including the radio station aboard.

3. Section 9.313 is added to read as follows:

§ 9.313 *Foreign aircraft stations operating within the U. S.* (a) Aircraft of member States of the ICAO may, in or over the United States, carry radio transmitting apparatus only if a license to install and operate such apparatus has been issued by the appropriate authorities of the State in which the aircraft is registered. The use of radio transmitting apparatus in or over the United States shall be in accordance with the rules and regulations of this part.

(b) Radio transmitting apparatus may be used only by members of the flight crew who are provided with a special license for the purpose, issued or recognized by the appropriate authorities of the State in which the aircraft is registered.

4. Section 9.321 (d) is amended to read as follows:

(d) The aeronautical frequencies listed under § 9.432 (a) are also available to air carrier aircraft upon showing that agreements have been made with the licensee of appropriate ground stations.

5. A new subpart entitled "Aeronautical Metropolitan Station," containing §§ 9.1101 through 9.1104 is added to read as follows:

AERONAUTICAL METROPOLITAN STATION

§ 9.1101 *Eligibility for station license.* Authorizations for aeronautical metropolitan stations will be issued only to the licensee of the aeronautical enroute station operating in the metropolitan area.

§ 9.1102 *Frequencies available.* The frequencies available for aeronautical en route stations are available for assignment to aeronautical metropolitan stations.

§ 9.1103 *Points of communication.* Aeronautical metropolitan stations are primarily authorized to communicate with aircraft and are secondarily authorized to intercommunicate with other aeronautical metropolitan stations within the same metropolitan area.

§ 9.1104 *Scope of service.* Aeronautical metropolitan stations shall transmit only communications for the safe, expeditious and economical operation of aircraft operating between a main air terminal of a metropolitan area and subordinate landing areas.

[F. R. Doc. 53-10062; Filed, Dec. 1, 1953; 8:51 a. m.]

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

ARIZONA

RESTORATION ORDER UNDER FEDERAL POWER ACT

NOVEMBER 23, 1953.

Pursuant to a determination of the Federal Power Commission (DA-112-Arizona) dated August 21, 1953, and in accordance with Order No. 427, section 2.22 (a) of the Director, Bureau of Land Management, approved August 16, 1950 (15 F. R. 5639), it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they were withdrawn or reserved in Power Site Reserve No. 759 created November 22, 1924, are hereby restored to disposition under any applicable public land law, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended:

GILA AND SALT RIVER MERIDIAN

T. 6 S., R. 31 E.,
Sec. 20, S½NE¼, SE¼NW¼, N½SE¼, SE¼SE¼, NE¼SW¼.

The lands described aggregate 280.00 acres.

The lands are located east of the Gila River with the closest point more than a half mile away. They are rough and mountainous and not subject to cultivation.

The lands described shall be subject to application by the State of Arizona for a period of ninety days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for the construction of such highways, as provided by section 24 of the Federal Power Act, as amended.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m. on the 91st day after the date of publication. At that time the said lands shall become subject to application, petition, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable law, and the 90-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the period during which, and the conditions under which veterans and others may file applications on the lands may be obtained on request from the U. S. Land and Survey Office, Phoenix, Arizona.

E. R. SMITH,
*Regional Administrator.*

[F. R. Doc. 53-10055; Filed, Dec. 1, 1953; 8:45 a. m.]

ALASKA

SMALL TRACT CLASSIFICATION ORDER NO. 77

NOVEMBER 20, 1953.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior August 20, 1951 (16 F. R. 8625), I hereby classify as hereinafter indicated under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. Sec. 682a), as amended, the following described public lands in the Anchorage, Alaska Land District:

TALKEETNA AREA

SEWARD MERIDIAN

T. 26 N., R. 4 W.
Section 29: Lot 2, NE¼NW¼.

The land described above is included in the Homestead Entry of Charles J. Tellor, Anchorage 019880.

T. 26 N., R. 4 W.,
Section 29: Lot 1,
Section 30: Lot 3, NE¼NE¼.

The land described above is included in the Homestead Entry of Kyle R. Hare, Anchorage 019545.

Containing approximately 182.49 acres.

Subject to valid existing rights and the provisions of existing withdrawals, this order shall not become effective to permit the initiation of any rights or any disposition under the public land laws until it is so provided by an order to be issued by the Chief, Division of Land Planning, Bureau of Land Management, Region VII, Anchorage, Alaska, opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U. S. C. Sec. 682a), as amended, with a ninety-one day preference right period for filing such applications by veterans of World War II and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 747, 43 U. S. C. Sec. 279), as amended.

FRED J. WEILER,
*Chief,*
*Division of Land Planning.*

[F. R. Doc. 53-10056; Filed, Dec. 1, 1953; 8:45 a. m.]

[Docket No. DA-410]

STATE OF IDAHO

RESTORATION ORDER UNDER FEDERAL POWER ACT

NOVEMBER 20, 1953.

Pursuant to determination DA-410, Idaho, of the Federal Power Commission and in accordance with Order No. 427, section 2.22 (a) (4) of the Director, Bureau of Land Management, approved August 16, 1950, 15 F. R. 5641, it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals the lands hereinafter described so far as they are withdrawn and reserved for power purposes are hereby restored under location, entry or selection under the public land laws subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. sec. 818), as amended, and subject to the stipulation that if the lands, or any of them, are required for power purposes, any structures or improvements located thereon which may be found to interfere with such development will be removed or relocated without expense to the United States, its licensees or permitees.

IDAHO, BOISE MERIDIAN

T. 3 N., R. 41 E.,
Sec. 10, Lots 1 and 2,
Sec. 11, Lots 2, 3, 4, N½SE¼SE¼,
Sec. 15, Lots 6, 7, 8, NW¼NW¼.

The areas described aggregate 277.80 acres.

The lands described lie on the north bank of the Snake River at an elevation of 5,000 feet and the topography is rough and rocky. The lands are sub-marginal in character and are classified for retention in public ownership under Bureau of Land Management administration for range management and public recreational uses. While any application that is filed will be considered on its merits, it is unlikely that any part of the restored land will be classified for any use or purpose other than that shown above.

The land described shall be subject to application by the State of Idaho for a period of 90 days from the date of publication of this order in the FEDERAL REGISTER for right-of-way for public highways or as a source of materials for the construction of such highways, subject to section 24 of the Federal Power Act as amended, and the special stipulations herein provided. This order shall not otherwise affect the status of the land until 10:00 a. m. on the 91st day after the date of publication of this order in the FEDERAL REGISTER. At that time the land shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 90-day preference filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. sec. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request in the Land and Survey Office, Boise, Idaho.

W. G. GUERNSEY,
*Regional Administrator.*

### Office of the Secretary

[Order No. 2740]

COMMISSIONER OF RECLAMATION

DELEGATION OF AUTHORITY TO APPROVE EXCHANGE OR AMENDMENT OF UNPATENTED FARM UNITS

NOVEMBER 21, 1953.

SECTION 1. *Delegation of authority.* The Commissioner of Reclamation, in accordance with the act of August 13, 1953 (67 Stat. 566), and regulations issued thereunder, may approve the exchange or amendment of unpatented farm units on Federal irrigation projects or farm units of resident owners of private land who may receive the benefits of the act of August 13, 1953, and perform all other acts necessary to effect their exchange or amendment.

SEC. 2 *Redelegation.* The Commissioner of Reclamation may, in writing, redelegate to an Assistant Commissioner of Reclamation, or an official in charge of an office, region, division, district or project of the Bureau of Reclamation, the authority granted in section 1 of this order.

(Sec. 12, Act of August 13, 1953, 67 Stat. 568)

DOUGLAS MCKAY,
*Secretary of the Interior.*

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

HAWAIIAN ISLANDS

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF DROUGHT AREAS

Pursuant to the authority delegated to me by the Administrator of the Federal Civilian Defense Administration (18 F. R. 4609) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, the leeward areas of each of the Hawaiian Islands are determined as of November 16, 1953, to be in the area affected by the major disaster occasioned by drought determined by the President on November 10, 1953, pursuant to Public Law 875, 81st Congress.

Done this 27th day of November 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10093; Filed, Dec. 1, 1953; 8:48 a. m.]

COLORADO

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF COUNTIES CONTAINED IN DROUGHT AREA

Pursuant to the authority delegated to me by the Administrator of the Federal Civilian Defense Administration (18 F. R. 4609) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, the following additional county and parts of two other counties are determined as of November 12, 1953, to be in the area affected by the major disaster occasioned by drought determined by the President on July 1, 1953, pursuant to Public Law 875, 81st Congress:

COLORADO

El Paso
Custer (only that part lying East and North of San Isabel National Forest)
Fremont (only that part lying East of Range 72 West).

Done this 27th day of November 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

### Production and Marketing Administration

JIM HOOVER SALES PAVILION, STERLING, COLO., AND COOK BROTHERS LIVESTOCK COMMISSION MARKET, ALEXANDRIA, LA.

DEPOSTING OF STOCKYARDS

It has been ascertained that the Jim Hoover Sales Pavilion, Sterling, Colorado, originally posted on October 27, 1951, under the name Platte Valley Livestock Commission Company, and the Cook Brothers Livestock Commission Market, Alexandria, Louisiana, originally posted on November 1, 1938, under the name Cook & Caldwell Commission Market, as being subject to the Packers and Stock-

yards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer come within the definition of a stockyard under said act for the reason that they are no longer being conducted or operated as public livestock markets. Therefore, notice is given to the owners of the stockyards and to the public that such livestock markets are no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which no longer is within the definition of that term contained in said act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER. This notice shall become effective upon publication in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 25th day of November 1953.

[SEAL] DAVID M. PETTUS,
*Acting Director, Livestock Branch, Production and Marketing Administration.*

[F. R. Doc. 53-10092; Filed, Dec. 1, 1953; 8:53 a. m.]

## CIVIL AERONAUTICS BOARD

[Docket No. 6411 et al.]

AMERICAN AIRLINES, INC., ET AL.

NOTICE OF PREHEARING CONFERENCE

In the matter of an investigation instituted by the Board to determine whether the public convenience and necessity require, and whether the Board should order, the temporary suspension of American's authority to serve Ann Arbor, Battle Creek, Jackson, Kalamazoo and South Bend, in the event the temporary certificates of North Central and/or Lake Central are amended to include the said points, or any combination of said points, on a route segment between Chicago and Detroit.

Notice is hereby given that a prehearing conference in the above-entitled proceeding is assigned to be held on December 14, 1953, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner James S. Keith.

Dated at Washington, D. C., November 27, 1953.

[SEAL] FRANCIS W. BROWN,
*Chief Examiner.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10740]

ROBERT V. H. SUGDEN

ORDER CONTINUING HEARING

In the matter of Robert V. H. Sugden, Yuma, Arizona; order to show cause why the license of Special Industrial Station KOG-285 should not be revoked.

The Commission having under consideration a motion filed on November 23, 1953, by the Chief, Safety and Special Radio Services Bureau, Federal Communications Commission, requesting that the hearing presently scheduled for December 1, 1953, at Washington, D. C., be continued to a date later to be specified, and

It appearing, that good cause has been shown for a continuance in this matter, but that a designated date for such continued hearing should be set by this order;

*It is ordered*, This 24th day of November 1953, that the motion for continuance is granted, and that the hearing scheduled to be held in this matter on December 1, 1953, is continued to December 11, 1953, at 10:00 a. m. in the offices of the Commission at Washington, D. C.

[Docket Nos. E-6534, E-653]

MISSOURI PUBLIC SERVICE CO. AND EMPIRE DISTRICT ELECTRIC CO.

NOTICE OF APPLICATION

NOVEMBER 25, 1953.

Take notice that on November 20, 1953, applications were filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by the Empire District Electric Company (hereinafter called Empire), a Kansas corporation doing business in the States of Arkansas, Kansas, Missouri and Oklahoma, with its principal business office at Joplin, Missouri, and by Missouri Public Service Company (hereinafter called Public Service), a Missouri corporation with its principal place of business at Warrensburg, Missouri, seeking an order authorizing the sale by Empire of certain of its facilities to Public Service, and the acquisition and merger of such facilities by Public Service.

Empire proposes to sell, and Public Service seeks to acquire and to merge with its existing facilities, a certain 69 kv electric transmission line extending from the Benton Hickory County line in the State of Missouri for a distance of approximately 27.4 miles northward to a point west of Cole Camp, Missouri, together with a certain 2,000 kva 69-2.3 kv step-down substation located adjacent to the point of termination of the said transmission line. Subject to approval of the Commission, Public Service proposes to pay for the above-described facilities $80,259.50 in cash, an amount stated by Empire to represent the aggregate depreciated original cost thereof; all as more fully appears in the applications on file with the Commission.

Any person desiring to be heard or to make any protest with respect to said applications should on or before the 15th day of December 1953, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10063; Filed, Dec. 1, 1953; 8:47 a. m.]

[Docket No. G-2307]

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATION

NOVEMBER 24, 1953.

Take notice that on November 10, 1953 Arkansas Louisiana Gas Company (Applicant), a Delaware corporation with its principal place of business in Shreveport, Louisiana, filed an application for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities for the transportation and sale of natural gas, all as hereinafter described.

The facilities which Applicant proposes to construct and operate include the following:

(a) A 10,500 horsepower compressor station located in Columbia County, Arkansas, near the town of Taylor, Arkansas.

(b) Approximately 7.8 miles of 8⅝" O. D. pipeline from the end of existing Line LT-1 extending in a northerly direction to Arkansas Power & Light Company's Stamps Plant in Columbia County, Arkansas, together with the necessary meter and scrubber facilities.

(c) Approximately 6 miles of 12¾" O. D. loop line extending from existing Perla Regulating Station northwesterly, parallel to existing line LM-2 located in Hot Spring County, Arkansas.

(d) Approximately 0.56 mile of reclaimed 16" O. D. pipeline from Station 503+52 on existing Line AM-108 extending in an easterly direction for approximately 1,711 feet and in a northerly direction for approximately 1,229 feet to Arkansas Power & Light Company's new Lynch Plant located in Pulaska County, Arkansas, together with the necessary meter and scrubber facilities.

(e) Approximately 19 miles of 20" O. D. pipeline, starting at a point on Line "S" at Applicant's Waskom Gasoline Plant and extending in a southwesterly direction to Applicant's Carthage Gasoline Plant, and approximately 14.7 miles of 16" O. D. pipeline, extending in a southwesterly direction from said Carthage Gasoline Plant to the gasoline plant of the Carthage Corporation, thence to the Panola Gasoline Plant of Arkansas Fuel Oil Corporation, together with the necessary metering facilities.

(f) Approximately 13.8 miles of 20" O. D. pipeline replacing 13.8 miles of 12¾" O. D. pipe in existing Line LM-4 extending from Bauxite, Arkansas, in a northeasterly direction to the junction of Line LM-4 and Line AM-108, located in Pulaska County, Arkansas.

(g) Approximately 24.2 miles of 24" O. D. loop pipeline extending from proposed Taylor Compressor Station southwesterly parallel to existing Line "S" located in Columbia County, Arkansas, Webster Parish, Louisiana and Bossier Parish, Louisiana.

(h) Approximately 6.2 miles of 24" O. D. loop pipeline extending from proposed Taylor Compressor Station northeasterly parallel to existing Line "S" located in Columbia County, Arkansas.

(i) Approximately 15.8 miles of 24" O. D. loop pipeline extending from existing Bierne Compressor Station northeasterly parallel to existing Lines "S", "A" and "L" located in Clark County, Arkansas.

The application recites that:

The facilities here proposed to be constructed are urgently required to enable Applicant to keep abreast of the constantly increasing natural gas requirements of customers of Applicant's present system. During 1950, Applicant served an average of 181,036 customers in its distribution plants. During 1953, it is estimated that an average of 217,206 customers will be served, and during 1956 an average of 256,902. This is a gain, between 1950 and 1956, of 75,866 customers (41.9 percent), of whom 70,073 are residential, 5,650 are commercial, and 143 are industrial.

Further comparison between 1956 (estimated) and 1950 shows an increase in system requirements (sales plus company used and unaccounted for gas) of 79,502,287 Mcf, amounting to 56.6 percent.

The estimated cost of Applicant's proposed project approximates $1,190,184. Such facilities will be financed from funds on hand, from funds provided from internal sources and to the extent necessary to the issuance of securities.

Protests or petitions to intervene may be filed with the Federal Power Comission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 14th day of December 1953.

[SEAL] LEON M. FUQUAY,
*Secretary.*

## HOUSING AND HOME FINANCE AGENCY

### Office of the Administrator

ASSISTANT REGIONAL REPRESENTATIVE, REGION II, ATLANTA, GA.

REDELEGATION OF AUTHORITY TO PERFORM FUNCTIONS IN CONNECTION WITH DEFENSE HOUSING AUTHORIZED UNDER HHFA REGULATION CR 3

The Assistant Regional Representative, Region II, is hereby authorized, within the area under his jurisdiction, to take any action which it is necessary or appropriate for the Housing and Home Finance Administrator to take in the administration of Housing and Home Finance Agency Regulation CR 3 (as amended and revised July 18, 1953, 17 F. R. 6585, with any subsequent amendments thereto) with respect to releasing applicants or their successors from their obligations under CR 3:

(a) To hold for rent structures containing one-family dwelling units,

(b) To hold any dwelling units for sale, and

(c) To exclusively offer any dwelling units to eligible defense workers.

(Delegation of Authority, effective October 2, 1953, 18 F. R. 6324 (October 2, 1953).)

Effective this 20th day of November 1953.

[SEAL] J. H. DUPUY,
*Regional Representative, Region II.*

[F. R. Doc. 53-10068; Filed, Dec. 1, 1953; 8:48 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3146]

DELAWARE POWER & LIGHT CO.

SUPPLEMENTAL ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

NOVEMBER 25, 1953.

Delaware Power & Light Company ("Delaware"), a registered holding company and a public utility company, having filed a declaration pursuant to section 7 of the Public Utility Holding Company Act of 1935 regarding the issuance and sale of 232,520 shares of its Common Stock, par value $13.50 per share, which will be offered to stockholders in accordance with their preemptive rights at a subscription price fixed by Delaware and upon the basis of one share for each seven shares; and such declaration stating that transferable warrants evidencing the right to subscribe will be issued to common stockholders of record as of the close of business on November 25, 1953, that subject to such rights of the stockholders, the

stock will also be offered at the subscription price to employees of Delaware and its subsidiaries in an amount not exceeding 150 shares per employee, and that Delaware will, pursuant to the competitive bidding requirements of Rule U-50, invite competitive bids for the purchase at the subscription price of such shares as are not subscribed for by the stockholders and employees, such bids specifying the compensation to be paid to the successful bidders for purchasing such shares at the subscription price; and

The Commission by order dated November 17, 1953, having permitted the declaration to become effective subject to the condition among others that the proposed issuance and sale of stock shall not be consummated until the subscription price and the results of competitive bidding pursuant to Rule U-50 shall have been made a matter of record in this proceeding and a further order shall have been entered with respect thereto; and jurisdiction having been reserved over the payment of fees and expenses to be incurred in connection with the proposed transaction; and

Delaware having on November 25, 1953, filed an amendment to said declaration specifying a subscription price of $24 per share and having received the following bids for shares not subscribed for by stockholders or employees:

| Name of bidder | Amount of compensation to bidder | Net aggregate proceeds to Delaware |
|---|---|---|
| W. C. Langley & Co. and Union Securities Corp. | $27,000.00 | $5,552,580.00 |
| Kidder Peabody & Co. | 30,881.00 | 5,549,586.00 |
| Carl M. Loeb, Rhoades & Co. | 31,251.42 | 5,549,228.58 |
| Blyth & Co., Inc. | 39,528.00 | 5,540,952.00 |
| White, Weld & Co. | 45,481.24 | 5,536,998.76 |
| Lehman Bros. | 44,178.80 | 5,536,301.20 |

The amendment further stating that Delaware has accepted the bid of W. C. Langley & Co. and Union Securities Corporation for the common stock as set forth above; and

The amendment further setting forth fees and expenses estimated to be incurred by Delaware in connection with the proposed transaction as follows: $27,000 for filing, listing, printing, taxes, etc.; $5,000 to Berl, Potter & Anderson, Counsel for Delaware; $3,000 for the services of Drexel & Co., financial adviser; $25,000 for fees and expenses of transfer and warrant agents; and not in excess of $5,000 to Townsend, Elliott & Munson, Counsel for underwriters, which fee is to be paid by the underwriters; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to the price to be received for said stock and the compensation to be paid the underwriters for their purchase of said stock; and

It appearing that the fees and expenses, if not in excess of the estimate, are not unreasonable and that jurisdiction with respect thereto should be released.

*It is hereby ordered*, That the declaration, as amended, be permitted to become effective forthwith, and that the jurisdiction heretofore reserved with respect to the subscription price of the common stock and the results of competitive bidding pursuant to Rule U-50, and in respect of all fees and expenses, be, and the same hereby is, released, subject, however, to the terms and conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 813-17]

TREFORD CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION FROM THE ACT AS EMPLOYEES' SECURITIES COMPANY

Notice is hereby given that Treford Corporation ("Treford"), a New York corporation, has filed an application pursuant to section 6 (b) of the act for an order exempting it as an employees securities company, from all of the provisions of the act, or, in the alternative, exempting it from the following sections of the act and the rules promulgated thereunder: Section 7, section 8 except that Treford shall file the information called for by Part V of Form N-8B-1 entitled "Policy of Registrant"; section 10 (a), section 14, section 17 (a) to the extent that Treford shall be permitted to purchase from Edward J. Devlin, Jr., the balance of his stock of Walter B. Cooke, Inc. ("Cooke"), pursuant to a contract entered into by Treford and said Devlin on July 30, 1953, section 17 (f) and Rule N-17F-2, section 20 (a) and Rule N-20A-1, section 23 (b), section 23 (c) and Rule N-23C-1, section 30 (a) and Rule N-30A-1 other than the requirement to file the information called for by Part V of Form N-30A-1 entitled "Policy of Registrant", section 30 (d) and Rule N-30D-1 to the extent that Treford shall be permitted to transmit reports to stockholders annually instead of semi-annually, section 30 (f) and Rule N-30F-2 to the extent that a person required to file Form N-30F-2 shall not be required to file such reports more often than once each six months, and section 32 (a).

Treford was organized on June 19, 1953, and to date has issued and sold 5,810 shares at a price of $50 per share. Treford was formed for the purpose of enabling the employees of Cooke and Hygrade Casket Corporation ("Hygrade") to acquire and operate respective businesses, which are the operation of a chain of funeral homes and the manufacture and sale of caskets, respectively.

On July 30, 1953, Treford entered into an agreement with Devlin, who with his wife owned 58.77 percent of Cooke and Hygrade, under which Treford agreed to purchase 178 shares (19.83 percent) of the outstanding stock of Cooke, for $198,328 ($1,114.21 per share) and obtained an option to purchase in lots of not less than 10 shares the balance of Devlin's holdings of 349½ shares of Cooke for a price of $1,114.21 per share. The balance of the Cooke stock is owned by members of Devlin's immediate family, and the estate of a deceased brother. In an event Treford fails to exercise the option, Devlin has the right to buy back all of the shares theretofore purchased by Treford pursuant to said option at the same price per share. This does not include the original purchase of 178 shares. Until the option is fully exercised or until the death of Devlin, the shares of Cooke purchased by Treford are to be held in a Voting Trust of which Devlin will be the sole Voting Trustee.

Treford issued and sold the 5,810 shares of its common stock referred to above and used the proceeds to pay for its organization and for the initial purchase of Cooke's stock, and to provide for working capital and funds to be applied to the purchase of additional shares of stock of Cooke. Such sales of Treford's stock were made solely to the employees of Cooke and Hygrade, and the application represents that all of Treford's stock is owned beneficially by employees of Cooke and Hygrade. Accordingly, Treford is an employee securities company within the meaning of section 2 (a) (13) (A) of the act.

Section 6 (b) provides that upon application by an employees security company, the Commission shall by order exempt such company from the provisions of the act and of the rules and regulations hereunder, if and to the extent that such exemption is consistent with the protection of investors. In determining the provisions to which such an order shall apply, the Commission shall give due weight, among other things, to the form of organization and the capital structure of such company, the persons by whom its voting securities, evidences of indebtedness, and other securities are owned and controlled, the prices at which securities issued by such company are sold and the sales load thereon, the disposition of the proceeds of such sales, the character of the securities in which such proceeds are invested, and any relationship between such company and the issuer of any such security.

Notice is further given that any interested person may, not later than December 4, 1953, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

# FEDERAL REGISTER

VOLUME 18 NUMBER 235

*Washington, Thursday, December 3, 1953*

## TITLE 3—THE PRESIDENT

### EXECUTIVE ORDER 10502

SUSPENDING CERTAIN STATUTORY PROVISIONS RELATING TO EMPLOYMENT IN THE CANAL ZONE

By virtue of the authority vested in me by section 103 of the Civil Functions Appropriations Act, 1954 (Public Law 153, 83d Congress), and section 615 of the Department of Defense Appropriation Act, 1954 (Public Law 179, 83d Congress), relating to certain kinds of employment in the Canal Zone, and deeming such course to be in the public interest, I hereby suspend, from and including the effective date of the said acts, compliance with the provisions of the said sections: *Provided*, that this suspension shall not be construed to affect the provisions of the said sections relating to the amount of compensation that may be received by persons employed in skilled, technical, clerical, administrative, executive or supervisory positions on the Canal Zone directly or indirectly by any branch of the United States Government or by any corporation or company the stock of which is owned wholly or in part by the United States Government.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
*December 1, 1953.*

### EXECUTIVE ORDER 10503

AMENDMENT OF EXECUTIVE ORDER NO. 10011,[1] AS AMENDED, AUTHORIZING THE SECRETARY OF STATE TO EXERCISE CERTAIN POWERS OF THE PRESIDENT WITH RESPECT TO THE GRANTING OF ALLOWANCES AND ALLOTMENTS TO GOVERNMENT PERSONNEL ON FOREIGN DUTY

By virtue of the authority vested in me by section 301 of title 3 of the United States Code (65 Stat. 713), it is ordered that section 1(d) of Executive Order No. 10011 as last amended by Executive Order No. 10391 of September 3, 1952, authorizing the Secretary of State to exercise certain powers of the President with respect to the granting of allowances and allotments to Government personnel on foreign duty, be, and it is hereby, amended to read as follows:

"(d) The authority vested in the President by section 1303 of the Supplemental Appropriation Act, 1954 (Public Law 207, 83rd Congress), or by any reenactment of the provisions of such section, and by section 302 of the United States Information and Educational Exchange Act of 1948 (62 Stat. 8) to prescribe, with respect to civilian officers and employees of the Government, regulations governing living-quarters allowances, cost-of-living allowances, and representation allowances in accordance with, or similar to, such allowances authorized by the said act of June 26, 1930, or the said section 901 of the Foreign Service Act of 1946.

This order shall be effective as of July 1, 1953.

DWIGHT D. EISENHOWER

### EXECUTIVE ORDER 10504

TRANSFERRING CERTAIN FUNCTIONS, POWERS, AND DUTIES TO THE SMALL BUSINESS ADMINISTRATION

By virtue of the authority vested in me by section 218 of the Small Business Act of 1953 (Title II, Public Law 163, 83rd Congress; 67 Stat. 232, 239), and as President of the United States, it is ordered as follows:

SECTION 1. There are hereby transferred and assigned to the Small Business Administrator all functions, powers, and duties of the Small Defense Plants Administration, its Administrator, and other officers, relating to the liquidation of the Small Defense Plants Administration, including, without limiting the generality of the foregoing, all remaining functions, powers, and duties with respect to (a) contracts entered into pursuant to subdivisions (B), (C), and (D) of section 714 (b) (1) of the Defense Production Act of 1950, as amended; (b) certificates of competency issued pursu-

## TITLE 6—AGRICULTURAL CREDIT

### Chapter I—Farm Credit Administration, Department of Agriculture

Subchapter B—Federal Farm Loan System

PART 10—FEDERAL LAND BANKS GENERALLY

BONDS

Part 10 of Title 6 of the Code of Federal Regulations (18 F. R. 4779) is hereby amended to include three new sections: § 10.294a *Exchanges and assignments of consolidated bonds,* § 10.294b *Basis of relief on account of lost, stolen, destroyed, mutilated or defaced consolidated bonds or coupons,* and § 10.294c *Claims and proof for lost, stolen, destroyed, mutilated or defaced consolidated bonds or coupons;* and §§ 10.295 and 10.296 thereof are hereby amended, so that such §§ 10.294a, 10.294b, 10.294c, 10.295 and 10.296 shall read as follows:

§ 10.294a *Exchanges and assignments of consolidated bonds.* Consolidated bonds issued by the 12 Federal land banks may be exchanged for bonds of the same issue, and assignments of registered consolidated bonds of all issues may be effected, under and in accordance with the regulations of the United States Treasury Department governing exchanges and transfers of United States bonds.

§ 10.294b *Basis of relief on account of lost, stolen, destroyed, mutilated or defaced consolidated bonds or coupons.* The statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, governing relief on account of the loss, theft, destruction, mutilation, or defacement of United States securities, and the regulations of the Treasury Department, now or hereafter in force, governing the payment of mutilated or defaced coupons of United States securities, so far as such statutes and regulations may be applicable, and as modified to relate to consolidated Federal farm loan bonds, and coupons of such bonds, shall govern the granting of relief on account of lost, stolen, destroyed, mutilated, or defaced consolidated Federal farm loan bonds, and mutilated or defaced coupons of such bonds.

§ 10.294c *Claims and proof for lost, stolen, destroyed, mutilated or defaced consolidated bonds or coupons.* Claims shall be presented, and proof shall be made by applicants for relief on account of the loss, theft, destruction, mutilation, or defacement of consolidated Federal farm loan bonds, and the mutilation or defacement of coupons of such bonds, in accordance with the statutes of the United States, now or hereafter in force, and the regulations of the Treasury Department, now or hereafter in force, with respect to securities of the United States, and coupons of such securities.

§ 10.295 *Payment of lost or stolen bonds and coupons issued by a bank individually.* Whenever it appears by clear and satisfactory evidence that any interest-bearing bond or any coupon thereof issued by any Federal land bank has, without bad faith on the part of the owner, been lost, stolen, or destroyed, and is not lawfully held by any person as his own property, or has been so mutilated or defaced as to impair its value to the owner, and is identified by number and description, the bank of issue may make payment (upon approval of the proofs of loss, etc., bonds of indemnity and related papers filed with the banks of issue in such cases, detailed information as to which has been furnished the banks) without requiring the issuance of any new bonds for record purposes.

§ 10.296 *Owner of lost bond to file bond of indemnity.* The owner of any

ant to section 714 (e) (6) and section 714 (f) (1) of the said act; and (c) payment of obligations incurred against any appropriation or fund made available to the Small Defense Plants Administration.

SEC. 2. The said functions, powers, and duties shall be administered by the Small Business Administrator or, subject to his direction and control, by such officers and employees of the Small Business Administration as he shall designate.

SEC. 3. There shall be transferred to the Small Business Administration the records, property, and unexpended balances of appropriations and other funds of the Small Defense Plants Administration which relate to the functions, powers, and duties transferred and assigned by section 1 of this order.

SEC. 4. This order shall become effective at the close of business on November 30, 1953.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
*December 1, 1953.*

[F. R. Doc. 53-10170; Filed, Dec. 1, 1953; 3:38 p. m.]

such lost, stolen, or destroyed bond or coupon shall file with the bank of issue a bond of indemnity in a penal sum equal to the face amount of the bond or coupon, plus an amount sufficient to protect the bank from any loss on account of interest which may be payable on such lost, stolen, or destroyed bond. A corporate surety to be approved by the bank of issue shall be required for the bond of indemnity when the penal sum exceeds $50.

(Sec. 20, 39 Stat. 377; 12 U. S. C. 862)

## TITLE 8—ALIENS AND NATIONALITY

### Chapter I—Immigration and Naturalization Service, Department of Justice

SUBCHAPTER B—IMMIGRATION REGULATIONS

PART 212—DOCUMENTARY REQUIREMENTS FOR NONIMMIGRANT; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

WAIVER OF DOCUMENTARY REQUIREMENTS

Paragraph (f) of § 212.3 of Chapter I of Title 8 of the Code of Federal Regulations is amended and a new paragraph (h) is added to that section to read, when taken with the introductory material, as follows:

§ 212.3 *Nonimmigrants not required to present passports, visas, or border-crossing identification cards.* The provisions of section 212 (a) (26) of the Immigration and Nationality Act and of this chapter relating to the requirement of passports, visas, and border-crossing identification cards for nonimmigrants, have been waived by the Secretary of State and the Attorney General, acting jointly in pursuance of the authority contained in section 212 (d) (4) of the Immigration and Nationality Act, in the cases of aliens (including alien crewmen) who fall within any of the following-described categories and who are otherwise qualified for admission as nonimmigrants under the applicable provisions of the immigration laws:

* * * * *

(f) An alien not within the purview of paragraph (e) of this section who is being transported in immediate and continuous transit through the United States without stopover from one foreign place to another in accordance with the terms of a contract, including a bonding agreement, entered into by a transportation line and the Attorney General under the provisions of section 238 (d) of the Immigration and Nationality Act, to insure such immediate and continuous transit through, and departure from, the United States en route to a specifically designated foreign country: *Provided*, That such alien is in possession of a travel document which is valid for his entry into a foreign country for a period of not less than 60 days after the date of immediate and continuous transit through the United States: *And provided further*, That at all times such alien is not aboard an aircraft which is in flight through the United States he shall be in the custody of an officer of the United States or, if the Attorney General finds that such custody is not practicable, in such other custody as the Attorney General may approve.

* * * * *

(h) A national of Cuba who is a crewman serving on board a Cuban military or naval aircraft and who makes application for admission into the United States in connection with his official duties.

(Sec. 103, 66 Stat. 173; 8 U. S. C. 1103)

NOTE: The record-keeping and reporting requirements of these regulations have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order shall become effective on the date of its publication in the FEDERAL REGISTER. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relieve restrictions and are clearly advantageous to persons affected thereby.

Dated: November 23, 1953

HERBERT BROWNELL, Jr.,
*Attorney General.*

Recommended: November 5, 1953.

ARGYLE R. MACKEY,
*Commissioner of Immigration and Naturalization.*

[F. R. Doc. 53-10037; Filed, Dec. 2, 1953; 8:45 a. m.]

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 5828]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

HOLTITE MANUFACTURING CO. ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Price discrimination under 2 (a): § 3.715 *Charges and price differentials;* § 3.770 *Quantity rebates or discounts;* § 3.785 *Terms and conditions.* In connection with the sale of leather and rubber heels and soles, leather and rubber shoe repair materials and other products known commercially as findings, such as shoe polish, saddle soap, nails, laces, heel plates and shoe machinery, in commerce; and on the part of respondent corporations, their officers, etc.; certain respondents, individually, and as officers of said corporations, their representatives, etc.; respondent Klinger, doing business as A. Leveton Company, his agents, etc.; and six respondents, individually and as partners, doing business as Reick, Langendorf and Company, their representatives, etc.; severally, jointly, or with any other individual, firm or corporation, directly or indirectly, discriminating in price between different purchasers of said products by selling products of like grade and quality to any purchaser at prices lower than those granted other purchasers who in fact compete, or whose customers compete, with the favored purchaser or purchasers, in the resale or distribution of such products; prohibited, subject to the provision that for the purpose of comparison, the term "price" as used in the order takes into account discounts, volume or otherwise, rebates, allowances and other terms and conditions of sale.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Holtite Manufacturing Company et al., Baltimore, Md., Docket 5828, October 22, 1953]

*In the Matter of Holtite Manufacturing Company, a Corporation; Morris Eisen, President, Larry L. Esterson, Vice-President, Albert A. Esterson, Secretary-Treasurer, Individually and as Officers of Holtite Manufacturing Company; Cat's Paw Rubber Company, Inc., a Corporation; Albert A. Esterson, President, Larry L. Esterson, Vice-President, and Morris Eisen, Secretary-Treasurer, Individually and as Officers of Cat's Paw Rubber Company, Inc.; Jack Klinger, Doing Business as A. Leveton Company; K. Kaplan Sons and Company, a Corporation; Rudolph E. Kaplan, President, Eli E. Kaplan, Secretary-Treasurer, Individually and as Officers of K. Kaplan Sons and Company; and Rudolph E. Kaplan, Eli E. Kaplan, I. Gilbert Kaplan, Sidney Kaplan, Rubin Chupack, and Edwin Kardon, Doing Business as Reick, Langendorf and Company, a Partnership*

This proceeding was heard by Frank Hier, Hearing Examiner, upon the complaint of the Commission, answer of certain respondents, and substituted amended answers of the other respondents, in which answer and substituted amended answers, said various respondents admitted all the material allegations of the complaint and waived all intervening procedure and further hearing as to the facts.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer and amended answers thereto, and said examiner, having duly considered the record in the matter, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

Thereafter, following respondents' appeal from said initial decision, the matter was disposed of by the Commission's "Order Denying Respondents' Appeal from Initial Decision; Decision of the Commission and Order to File Report of Compliance", dated October 30, 1953, as follows:

This matter came on to be heard by the Federal Trade Commission upon an appeal by all of the respondents herein with the exception of Jack Klinger from the initial decision of the hearing examiner, briefs in support of and in opposition to said appeal and oral argument thereon, an order granting leave to respondents to show cause why the form of order contained in the initial decision should not be entered as the order to cease and desist of the Commission, respondents' objections stated in answer to said order to show cause, and answer of counsel supporting complaint in opposition to said objections.

The record herein consists of a complaint and respondents' answers admitting all of the material allegations of fact. These answers were filed by respondents after an agreement had been reached between them and counsel supporting the complaint as to the form of proposed order which would be urged by all counsel. It was clearly understood, however, that the Commission was not bound to issue its order to cease and desist in the form proposed. The hearing examiner in his initial decision varied from the form of the proposed order by omitting from its provisos which, in effect, state that the defenses of cost justification and of meeting the equally low price of a competitor are available to respondents under the order. Respondents appealed from this initial decision on the ground that the exclusion of these provisos took from them substantial rights to which they are entitled. Further objection was made to the entry of any order to cease and desist herein prior to disposition by the Commission of the cases in Docket Nos. 6042, 6043, 6044 and 6045, involving competitors' pricing practices.

Respondents' contention that the omission of the provisos from the order is erroneous is of no merit. The Supreme Court of the United States in Federal Trade Commission v. The Ruberoid Co., 343 U. S. 470 (1952) stated that such provisos are necessarily implicit in every such order of the Commission. However, as stated by that court, the implicit availability of these defenses does not allow respondents to relitigate issues already decided by the proceeding before the Commission which resulted in the order to cease and desist. Thus, the only difference between the proposed order and the order adopted by the hearing examiner is that the proposed order would allow respondents to relitigate on the questions of meeting competition and cost justification in a proceeding for violation of the order on the same facts as considered herein. The Commission is of the opinion that the order contained in the initial decision provides the more adequate relief from the complained of practices and is proper in all respects.

As to respondents' contention that no order should be issued herein until its disposition of the cases in Docket Nos. 6042, 6043, 6044 and 6045 involving competitors' pricing practices, the Commission, on August 5, 1953, issued its decision accepting a consent settlement containing an order to cease and desist in each of these cases. The basis for this objection, therefore, has been eliminated.

The Commission, therefore, being of the opinion that respondents' grounds for appeal are of no merit and that the initial decision of the hearing examiner is appropriate in all respects to dispose of this proceeding:

*It is ordered*, That respondents' appeal from the initial decision of the hearing examiner be, and it hereby is, denied.

*It is further ordered*, That the initial decision of the hearing examiner shall, on the 22d day of October 1953, become the decision of the Commission.

*It is further ordered*, That the respondents shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in said initial decision, a copy of which is attached hereto.[1]

The order in said initial decision, thus made the decision of the Commission, is as follows:

*It is ordered*, That respondents Holtite Manufacturing Company, a corporation, Cat's Paw Rubber Company, Inc., a corporation, K. Kaplan Sons and Company, a corporation, their officers, agents, representatives and employees, respondents Morris Eisen, Larry L. Esterson, Albert A. Esterson, Rudolph E. Kaplan and Eli E. Kaplan, individually and as officers of the named corporations, their representatives, employees and agents, respondent Jack Klinger, doing business as A. Leveton Company, or under any other name, his agents, employees and representatives, and respondents Rudolph E. Kaplan, Eli E. Kaplan, I. Gilbert Kaplan, Sidney Kaplan, Rubin Chupack and Edwin Kardon, individually and as partners doing business under the name of Reick, Langendorf and Company, a partnership, or under any other partnership or firm name, their representatives, agents and employees, directly or through any corporate or other device, in connection with the sale of leather and rubber heels and soles, leather and rubber shoe repair materials and other products known commercially as findings, such as shoe polish, saddle soap, nails, laces, heel plates and shoe machinery, in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist, severally, jointly or with any other individual, firm or corporation, directly or indirectly, from discriminating in price between different purchasers of said products by selling products of like grade and quality to any purchaser at prices lower than those granted other purchasers who in fact compete, or whose customers compete, with the favored purchaser or purchasers, in the resale or distribution of such products.

For the purpose of comparison, the term "price" as used in this order takes into account discounts, volume or otherwise, rebates, allowances and other terms and conditions of sale.

Issued: October 30, 1953.

[SEAL] ALEX AKERMAN, Jr.,
*Secretary.*

tion or distribution, in commerce, of fibrous stocks, or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain or in any way are represented as containing "wool", "reprocessed wool", or "reused wool", as those terms are defined in said act, misbranding said products by: (1) Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein; (2) failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner: (a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers; (b) the maximum percentage of the total weight of such wool product of any nonfibrous loading, filling or adulterating matter; (c) the name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof, in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939; (3) falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as containing hair or fleece of the Cashmere goat when such is not the fact; and (4) stamping, tagging, labeling or otherwise identifying such products as containing the hair or fleece of the Cashmere goat without setting out in a clear and conspicuous manner on each such stamp, tag, label or other identification the percentage of such cashmere therein; prohibited, subject to the proviso, however, that the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; and to the further provision that nothing contained in the order shall be construed as limiting any applicable provisions of said act or the Rules and Regulations promulgated thereunder.

(Sec. 6, 38 Stat. 722, sec. 6, 54 Stat. 1131; 15 U. S. C. 46, 68d. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2–5, 54 Stat. 1128–1130; 15 U. S. C. 45, 68–68c) [Cease and desist order, Saxony Wool Corporation of New York et al., New York, N. Y., Docket 6114, October 29, 1953.]

*In the Matter of Saxony Wool Corporation of New York, a Corporation, and Ralph Rubinger and Ann Rivlin, Individually*

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices in violation of the provisions of the Federal Trade Commission Act and the Wool Products Labeling Act of 1939.

It was disposed of, as announced by the Commission's "Notice" dated November 2, 1953, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith,[1] was accepted by the Commission on October 29, 1953, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order, including order to cease and desist, and order of dismissal as to a certain respondent, thus entered of record, following the findings as to the facts[1] and conclusion,[1] reads as follows:

*It is ordered*, That the respondents, Saxony Wool Corporation of New York, a corporation, and its officers, and Ralph Rubinger individually, and respondents' respective representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the offering for sale, sale, transportation or distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of fibrous stocks, or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain or in any way are represented as containing "wool," "reprocessed wool" or "reused wool," as those terms are defined in said act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers included therein;

2. Failing to securely affix to or place on each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fiber is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product of any non-fibrous loading, filling or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution, or delivery for shipment thereof, in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

3. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as containing hair or fleece of the Cashmere goat when such is not the fact;

4. Stamping, tagging, labeling or otherwise identifying such products as containing the hair or fleece of the Cashmere goat without setting out in a clear and conspicuous manner on each such stamp, tag, label or other identification the percentage of such cashmere therein.

*Provided*, That the foregoing provisions concerning misbranding shall not be construed to prohibit acts permitted by paragraphs (a) and (b) of section 3 of the Wool Products Labeling Act of 1939; *And provided further*, That nothing contained in this order shall be construed as limiting any applicable provisions of said act or the rules and regulations promulgated thereunder.

*It is further ordered*, That the complaint herein in so far as it relates to Ann Rivlin, individually, be, and the same is hereby dismissed, it being understood, however, that this action shall not be construed to prevent the application of this order to the said Ann Rivlin as an officer of the Saxony Wool Corporation of New York.

*It is further ordered*, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

The foregoing consent settlement is hereby accepted by the Federal Trade Commission and entered of record on this 29th day of October 1953.

Issued: November 2, 1953.

By direction of the Commission.

[SEAL] ALEX. AKERMAN, Jr., *Secretary.*

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

EXEMPTING CERTAIN ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS FROM CERTIFICATION

Under authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 507 (c), 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357 (c); 67 Stat. 18), I find that the requirements of sections 502 (l) and 507 of the act with respect to penicillin troches, buffered crystalline penicillin, and bacitracin ointment which meet certain requirements and are used for certain conditions, are no longer necessary to insure safety and efficacy of such drugs when used in such manner, and hereby promulgate the following amendments exempting such drugs from the requirements:

1. Section 146.30 is amended by adding the following new paragraph:

§ 146.30 *Penicillin troches.* • • •

(f) *Exemption of penicillin troches from certification.* Penicillin troches that conform to the requirements of paragraphs (a), (b), and (c) of this section, except paragraph (c) (1) (iii), of this section, shall be exempt (unless they contain crystalline penicillin 0 or 1-ephenamine penicillin) from the requirements of sections 502 (l) and 507 of the act, if they comply with the following conditions:

(1) The outside wrapper or container and the immediate container bear an expiration date not more than 48 months after the month during which the batch was last assayed and released by the manufacturer; and

(2) The brochure, printed matter, and circular referred to in paragraph (c) (2) (iii) of this section bear information that the drug is for use only as a local treatment for Vincent's infection (Vincent's angina) and as an adjunct in pericoronitis and other superficial dental infections due to penicillin-sensitive organisms; and further, that such brochure, printed matter, and circular bear directions and warnings adequate for such use by practitioners licensed by law to administer such drug.

2. Section 146.37 is amended by adding the following new paragraph:

§ 146.37 *Buffered crystalline penicillin.* • • •

(f) *Exemption of buffered crystalline penicillin G from certification.* Buffered crystalline penicillin G that conforms to the requirements of this section shall be exempt from the requirements of sections 502 (l) and 507 of the act, if it complies with the following conditions:

(1) The outside wrapper or container and the immediate container bear an expiration date not more than 36 months after the month during which the batch was last assayed and released by the manufacturer; and

(2) It is intended for use by man and the brochure, printed matter, and the circular referred to in § 146.24 (c) (3) (iii) bear information that the drug is for use in the treatment of the following conditions; and further, that such brochure, printed matter, and circular bear directions and warnings adequate for such uses by practitioners licensed by law to administer such drug:

(i) Staphylococcic infections with and without bacteremia.

(ii) Hemolytic streptococcic infections including bacteremia.

(iii) Anaerobic streptococcic infections.

(iv) Pneumococcic infections.

(v) Gonococcic infections.

(vi) Syphilis.

(vii) Anthrax.

(viii) As an adjunct to specific antitoxin therapy for clostridial infections.

(ix) Bacterial endocarditis due to penicillin-sensitive organisms.

(x) Diphtheria, with antitoxin therapy.

(xi) Pulmonary suppuration due to penicillin-sensitive organisms.

(xii) Vincent's infection.

(xiii) Erysipeloid (swine erysipelas).

(xiv) Meningococcic infections.

(xv) For the prevention of possible secondary infection following tonsillectomy and tooth extraction in patients with a history of rheumatic fever or rheumatic heart disease, in congenital heart disease, and in other conditions in which secondary infection may occur; or

(3) It is intended solely for veterinary use and is conspicuously so labeled, and its labeling bears information that the drug is for use only in the treatment of one or more of the following conditions, and further, bears directions and warnings adequate for such use:

(i) Bovine mastitis caused by Streptococcus agalactiae.

(ii) Leptospirosis in dogs.

(iii) Osteomyelitis.

(iv) Peritonitis.

(v) Strangles of horses.

(vi) Equine pneumonia.

(vii) Early tetanus, with antitoxin therapy.

(viii) Calf pneumonia.

(ix) Calf diphtheria.

(x) Pyelonephritis in cattle.

(xi) Blackleg.

(xii) Malignant edema.

(xiii) Early anthrax.

(xiv) Metritis.

(xv) Bovine actinomycosis.

(xvi) Swine erysipelas in turkeys.

If such drug is represented for use as a treatment for mastitis, its labeling shall bear the statement, "Important: Milk from treated segments of udders should be discarded or used for purposes other than human consumption for at least 72 hours after the last treatment."

3. In § 146.60, the introduction to paragraph (a) is amended to read:

§ 146.60 *Penicillin-bacitracin troches.* (a) Penicillin-bacitracin troches conform to all the requirements prescribed by § 146.30 for penicillin troches, and are subject to all procedures prescribed by § 146.30 for penicillin troches, except paragraph (f) of that section, and except that:

4. Section 146.402 is amended by adding the following new paragraph:

§ 146.402 *Bacitracin ointment.* • • •

(f) *Exemption of bacitracin ointment from certification.* Bacitracin ointment that conforms to the requirements of paragraphs (a), (b), and (c) of this section, except paragraph (c) (1) (iv) of this section, shall be exempt (unless it is the powder preparation described in paragraph (a) or it contains an antifungal agent, rotenone, or cortisone acetate) from the requirements of sections 502 (l) and 507 of the act, if it complies with the following conditions:

(1) The outside wrapper or container and the immediate container bear an expiration date not more than 24 months after the month during which the batch was last assayed and released by the manufacturer; and

(2) It is intended for use by man and is packaged for ophthalmic use, or it contains one or more sulfonamides and the brochure, printed matter, and circular referred to in paragraph (c) (2) of this section bear information for use of the drug only in the local treatment of those superficial infections caused by bacitracin-sensitive organisms; and further, that such brochure, printed matter, and circular bear directions and warnings adequate for such use by practitioners licensed by law to administer such drug; or

(3) It is intended for use by man and it is not packaged for ophthalmic use nor contains one or more sulfonamides, or it is intended solely for veterinary use and is conspicuously so labeled; and its labeling bears information that the drug is for use only in the prevention of infection in minor cuts and abrasions and, further, bears directions adequate for such use by the laity and a statement that use of the drug should be discontinued and a physician (if it is for human use) or a veterinarian (if it is for veterinary use) consulted if signs of infection or irritation appear.

5. In § 146.407, the introduction to paragraph (a) is amended to read:

§ 146.407 *Bacitracin-tyrothricin ointment.* (a) Bacitracin-tyrothricin ointment conforms to all requirements prescribed by § 146.402 for bacitracin ointment, and is subject to all procedures prescribed by § 146.402 for bacitracin ointment, except paragraph (f) of that section, and except that:

6. In § 146.409, the introduction to paragraph (a) is amended to read:

§ 146.409 *Bacitracin-polymyxin ointment.* (a) Bacitracin-polymyxin ointment conforms to all requirements prescribed by § 146.402 for bacitracin ointment, and is subject to all procedures prescribed by § 146.402 for bacitracin ointment, except paragraph (f) of that section, and except that:

7. In § 146.411, the introduction to paragraph (a) is amended to read:

§ 146.411 *Bacitracin-neomycin ointment.* (a) Bacitracin-neomycin ointment conforms to all requirements prescribed by § 146.402 for bacitracin ointment, and is subject to all procedures prescribed by § 146.402 for bacitracin ointment, except paragraph (f) of that section, and except that:

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the aforesaid amendments, and since it conditionally relaxes existing requirements.

Dated: November 27, 1953.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc. 53-10110; Filed, Dec. 2, 1953; 8:51 a. m.]

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 930]

CALIFORNIA

PARTIALLY REVOKING EXECUTIVE ORDER NO. 4203 OF APRIL 14, 1925

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 4203 of April 14, 1925, temporarily withdrawing certain public lands in California and Nevada in aid of classification is hereby revoked so far as it affects the following-described land in California:

MOUNT DIABLO MERIDIAN

T. 2 N., R. 16 E.
Sec. 16, W½NE¼SW¼ and SE¼NE¼SW¼.

The areas described aggregate 30 acres.

The lands are not suitable for cultivation. It is proposed to offer them at public sale. It is unlikely that they will be classified for any other disposition but any application that is filed will be considered on its merits.

This order shall not become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection under the applicable public land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Manager, Land Office, Sacramento, California.

ORME LEWIS,
*Assistant Secretary of the Interior.*

NOVEMBER 27, 1953.

[F. R. Doc. 53-10095; Filed, Dec. 2, 1953; 8:47 a. m.]

## TITLE 14—CIVIL AVIATION

### Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 49]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter, which have been published in the Flight Information Manual, are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

LOW FREQUENCY RANGE PROCEDURES

When an LFR instrument approach is conducted at the below named airport(s), it shall be in accordance with the following in turn unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for air route operation in the particular area or as set forth below:

| City and State; airport name, elevation, class of facility; frequency; identification; procedure No. | Initial approach to facility: From— | Initial approach to facility: Course and distance | Initial approach to facility: Minimum altitude (ft.) | Procedure turn (*Inside of final approach course (outbound and inbound); altitudes, limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance (facility to airport) | Ceiling and visibility minimums: Condition | Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less | Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h. | If visual contact not established at authorized landing minimums after passing facility within distance specified below, or if landing not accomplished, remarks |

2. The high frequency range procedures prescribed in § 609.7 are amended to read in part:

VHF VISUAL-AURAL (VAR) RANGE PROCEDURES

When a VAR instrument approach is conducted at the below named airport(s), it shall be in accordance with the following instrument approach procedure(s), unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below:

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

| City and State; airport name, elevation; class of facility; frequency; identification; procedure No. | Initial approach to facility: From— | Initial approach to facility: Course and distance | Initial approach to facility: Minimum altitude (ft.) | Procedure turn: ( ) side of final approach course (outbound and inbound) altitudes limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance facility to airport | Ceiling and visibility minimums: Condition | Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less | Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h. | If visual contact not established at authorized landing minimums after passing facility within distance specified below, or if landing not accomplished; remarks |

3. The automatic direction finding procedures prescribed in § 609.9 are amended to read in part:

AUTOMATIC DIRECTION FINDING PROCEDURES

When an ADF instrument approach is conducted at the below named airport(s), it shall be in accordance with the following instrument approach procedure(s), unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

| City and State; airport name, elevation; class of facility; frequency; identification procedure No. | Initial approach to facility | | | Procedure turn: ( ) side of final approach course (outbound and inbound); altitudes, limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance facility to airport | Ceiling and visibility minimums | | | If visual contact not established at authorized landing minimums after passing facility within distance specified below, or if landing not accomplished, remarks |
|---|---|---|---|---|---|---|---|---|---|---|
| | From— | Course and distance | Minimum altitude (ft.) | | | | Condition | Type aircraft: 75 m. p. h. or less | Type aircraft: More than 75 m. p. h. | |

4. The instrument landing system procedures prescribed in § 609.11 are amended to read in part:

INSTRUMENT LANDING SYSTEM PROCEDURE

When an ILS instrument approach is conducted at the below named airport(s), it shall be in accordance with the following instrument approach procedure(s), unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below:

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

| City and State; airport name; elevation. Localizer frequency and identification; LMM: frequency and identification; LOM: frequency and identification; procedure No. | Transition to ILS | | | | Procedure turn: ( ) side of final approach course (outbound and inbound); altitudes; limiting distances | Minimum altitude at glide slope intercept ion inbound (ft.) | Altitude of glide slope and distance to approach end of runway | | Ceiling and visibility minimums | | | If visual contact not established upon descent to authorized landing minimums, or if landing not accomplished, remarks |

5. The ground controlled approach procedures prescribed in § 609.13 are amended to read in part:

GROUND CONTROLLED APPROACH SYSTEM PROCEDURES

When a GCA instrument approach is conducted at the below named airport(s), it shall be in accordance with the following instrument approach procedure(s), unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with the ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

| City and State; airport name, elevation; GCA transmitting and guarding frequencies | Radar terminal area maneuvering altitudes by sectors and limiting distances | Ceiling and visibility minimums | | | | | | Except when the ground controller may direct otherwise prior to final approach, A missed approach procedure shall be executed as provided below when: (A) communication on final approach is lost for more than 5 seconds; (b) directed by ground controller; (c) visual reference is not established upon descent to the authorized landing minimums; or (d) landing is not accomplished; remarks |

7. The very high frequency omnirange procedures prescribed in § 609.15 (b) are amended to read in part:

VHF OMNIRANGE (TVOR) PROCEDURES

When a TVOR instrument approach is conducted at the below named airport(s), it shall be in accordance with the following instrument approach procedure(s), unless an approach is conducted in accordance with a different procedure authorized by the Administrator for such airport(s). Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area, or as set forth below.

NOTE: Bearings, headings, courses are magnetic. Distances are in statute miles. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation.

| City and State; airport name, elevation; class of facility; frequency; identification; procedure No. | Initial approach to facility: From— | Initial approach to facility: Course and distance | Initial approach to facility: Minimum altitude (ft.) | Procedure turn: ( ) side of final approach course (outbound and inbound); altitudes, limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance from int. runway centerline extended and final approach course to approach end of runway | Ceiling and visibility minimums: Condition | Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less | Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h. | If visual contact not established at TVOR, or if landing not accomplished, remarks |

## PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

### ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE—Continued

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below listed airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

| City and State; airport name, elevation; facility, class and identification; procedure No.; effective date | Initial approach to facility from— | Course and distance | Minimum altitude (ft.) | Procedure turn (—) side of final approach course (outbound and inbound altitudes; limiting distances | Minimum altitude over facility on final approach course (ft.) | Course and distance from IAF to airport | Ceiling and visibility minimums | | | If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | Condition | Type aircraft | | |
| | | | | | | | | 75 m. p. h. or less | More than 75 m. p. h. | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |

## TITLE 22—FOREIGN RELATIONS

### Chapter I—Department of State

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANT ALIENS UNDER THE IMMIGRATION AND NATIONALITY ACT

NONIMMIGRANTS NOT REQUIRED TO PRESENT PASSPORTS, VISAS, OR BORDER-CROSSING IDENTIFICATION CARDS

The following amendments to Part 41, Chapter I, Title 22 of the Code of Federal Regulations, are hereby prescribed:

1. Paragraph (f) of § 41.6 *Nonimmigrants not required to present passports, visas, or border-crossing identification cards* is amended to read as follows:

(f) An alien not within the purview of paragraph (e) of this section who is being transported in immediate and continuous transit through the United States without stopover from one foreign place to another in accordance with the terms of a contract, including a bonding agreement, entered into by a transportation line and the Attorney General, under the provisions of section 238 (d) of the act, to insure such immediate and continuous transit through, and departure from, the United States en route to a specifically designated foreign country: *Provided*, That such alien is in possession of a travel document which is valid for his entry into a foreign country for a period of not less than 60 days after the date of immediate and continuous transit through the United States: *And provided further*, That at all times such alien is not aboard an aircraft which is in flight through the United States he shall be in the custody of an officer of the United States or, if the Attorney General finds that such custody is not practicable, in such other custody as the Attorney General may approve.

2. Section 41.6 *Nonimmigrants not required to present passports, visas, or border-crossing identification cards*, is amended by the addition of the following new paragraph at the end thereof:

(j) A national of Cuba who is a crewman serving on board a Cuban military or naval aircraft and who makes application for admission into the United States in connection with his official duties.

(Sec. 104, 66 Stat. 174; 8 U. S. C. 1104)

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: September 8, 1953.

[SEAL] JOHN FOSTER DULLES,
*Secretary of State.*

Dated: November 23, 1953.

HERBERT BROWNELL, Jr.,
*Attorney General.*

PART 44—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE REFUGEE RELIEF ACT OF 1953

Chapter I, Title 22 of the Code of Federal Regulations, is amended by the addition of the following part:

Sec.
44.1 Definitions.
44.2 Classes of applicants under the Refugee Relief Act of 1953.
44.3 Assurance of employment, housing, and against becoming a public charge.
44.4 Eligible orphans.
44.5 Disavowal of proscribed activities.
44.6 Registration and order of consideration.
44.7 Ineligibility to receive visas.
44.8 Procedure in applying for visa.
44.9 Procedure in issuing visa.
44.10 Numerical limitations on issuance of visas.

AUTHORITY: §§ 44.1 to 44.10 issued under sec. 4, 63 Stat. 111; 5 U. S. C. 151c.

§ 44.1 *Definitions.* The following definitions, in addition to the pertinent definitions contained in section 101 of the Immigration and Nationality Act and Part 42 of this chapter, shall be applicable to this part:

(a) The terms "refugee", "escapee", and "German expellee" shall have the meaning ascribed thereto in section 2 of the Refugee Relief Act of 1953.

(b) "Act" means the Refugee Relief Act of 1953, approved August 7, 1953 (Pub. Law 203, 83d Cong.).

(c) "Administrator" means the Administrator of the Bureau of Security, Consular Affairs and Personnel of the Department of State.

(d) "Applicant" means an alien who seeks to enter the United States under the provisions of the Refugee Relief Act of 1953.

(e) "British Isles", as used in section 4 (a) (4) of the act, shall include England, Scotland, Wales and Northern Ireland, and adjacent islands under British jurisdiction.

(f) "Certificate of re-admission", as used in section 7 (d) (2) of the act, means a document which is valid for the bearer's re-admission into the country in which he obtained his visa when it shall be found that the visa was obtained by fraud or willful misrepresentation of a material fact.

(g) "Citizen or citizens of the United States", as used in section 7 (a) of the act, refers to natural persons who are citizens of the United States as distinct from aliens, organizations, and persons who are nationals but not citizens of the United States.

(h) "Communist, Communist-dominated, or Communist-occupied areas of Europe", as used in section 2 (b) of the act, refers to the status of such area as of the time of application for a visa.

(i) "Country", as used in section 7 (d) (2) of the act, means any area in which an applicant obtains his visa.

(j) "Ethnic origin", as used in section 2 (c) of the act with reference to German expellees, and as used in section 4 (a) of the act with reference to Italian, Greek, Dutch, and Chinese persons, shall be determined upon the basis of the following factors, the presence or absence of any one of which shall not in itself be considered conclusive, but any combination of which may be considered as providing satisfactory evidence of the ethnic origin claimed:

(1) Applicant, other than a German expellee, emigrated from or is indigenous to the country of ethnic origin claimed;

(2) Antecedents emigrated from or were indigenous to the country of ethnic origin claimed;

(3) Uses the language or dialect of the country of ethnic origin claimed as the common language of the home or for social communication;

(4) Resided in the country of birth, if other than the country of ethnic origin, in an area predominantly populated by persons of the ethnic stock or origin claimed who, as distinguished from the surrounding population, retained the social characteristics and group homogeneity attributable to such persons;

(5) Evidences common attributes or social characteristics of the ethnic group to which he ascribes his origin and with which he resided in the country of his birth, if other than the country of ethnic origin, such as educational institutions attended, church affiliation, social and political associations and affiliations, name, business or commercial practices and associates, and secondary language or dialect.

(k) "Far East", as used in section 4 (a) (11) and (12) of the act, means the geographical area which includes British Borneo, Burma, Cambodia, the Federation of Malaya, Hong Kong, Indonesia, Japan, Korea, Laos, Macau, New Caledonia, the Philippines, Singapore, Taiwan, Thailand, Timor and Vietnam.

(l) "Firmly resettled" refers to the status of an alien who, at any time after the occurence of events which form the basis of his claim to a refugee status under the act, has been re-established in a home under circumstances which assure him a reasonable opportunity of remaining permanently. The status of firm resettlement shall be considered prima facie established upon the basis of any of the factors specified in subparagraphs (1), (2), (3) and (4) of this paragraph: *Provided*, That nothing in this paragraph shall be construed as an exclusive definition of the term "firmly resettled":

(1) Applicant has acquired a new nationality: *Provided*, That such nationality was not acquired by the applicant solely as a member of a group which, by law or edict, was collectively granted full or limited citizenship rights and privileges in the area of their present residence;

(2) Applicant has a reasonably permanent livelihood, including income from business interests, and enjoys substantially the same economic and political rights or privileges enjoyed by the citizens or resident aliens of the community in which he lives;

(3) Applicant voluntarily abandoned his permanent residence in a non-communist area where he had a reasonably permanent livelihood, including income from business interests, and enjoyed substantially the same economic and political rights or privileges enjoyed by

the citizens or resident aliens of the community in which he lived;

(4) Applicant has had a long residence in the country or area in which he makes application for a visa under the act. In any such case the type of residence or work permit held by the applicant and the requirement of periodic renewal thereof are factors to be considered.

(m) "Fled from", as used in section 2 (b) of the act, shall be deemed to include cases of forceful removal when the alien concerned declines to return because of persecution or the fear of persecution. The persecution or fear of persecution which caused an alien to flee from his usual place of abode need not be the same persecution which causes his inability to return.

(n) "Material misrepresentation", as used in section 11 (e) of the act, means a misrepresentation, including the presentation of documents, made or presented knowingly, to any officer or agency of the United States Government intrusted directly or indirectly, or charged in whole or in part, with the administration, investigation, enforcement, or any other function relating to, the implementation of the act concerning any matter material to the applicant's eligibility for any benefits under the act, or material to his eligibility to receive a visa under the immigration laws and regulations.

(o) "Reside" and "residing", as used in section 4 (a) of the act, shall have the meaning ascribed to the term "residence" as defined in section 101 (a) (33) of the Immigration and Nationality Act.

(p) "Under ten years of age" refers to age prior to reaching the tenth birthday anniversary and relates to the time of visa issuance.

(q) "Urgent need of assistance for the essentials of life", as used in section 2 (a) of the act, shall include, but not be limited to, essentials such as food, shelter, clothing and medical care; freedom from persecution because of race, religion or political opinion; the opportunity to earn a reasonable livelihood; equal opportunity for sharing in economic, social and political rights or privileges; the right and opportunity to practice religious beliefs; and the privilege and opportunity to be united with one's family.

(r) "Urgent need of assistance for transportation", as used in section 2 (a) of the act, shall include, but not be limited to, such factors as the need for services and guidance as well as a need for funds.

(s) "Usual place of abode", as used in section 2 (a) of the act, means the country, region, area, or locality where the applicant had his principal actual dwelling place in fact and to which he is unable to return because of fear of persecution, natural calamity, or military operations, or because of the consequences of a natural calamity or military operations.

(t) "Son", "daughter", "stepson", "stepdaughter" and "child" shall include such a person who was born out of lawful wedlock. "Stepson" or "stepdaughter" refers to a person who had not reached the age of twenty-one years at the time the marriage creating the status of stepson or stepdaughter occurred.

(u) "Sponsor" means a United States citizen who gives an assurance required by the act on behalf of an alien seeking to enter the United States under the act.

(v) "Spouse", as used in section 5 of the act, means a United States citizen spouse, or an alien spouse who has been lawfully admitted into the United States for permanent residence or who is admissible to the United States for permanent residence.

(w) "Valid unexpired passport", or "suitable travel document", or "document of identity or nationality", or "other documentary evidence", as used in section 7 (d) (1) of the act, means a travel document which is valid for the entry of the bearer into a foreign country for at least sixty days beyond the period of validity of the immigrant visa issued to the bearer.

(x) "World War II" shall be considered to have started on September 1, 1939 and to have terminated on December 31, 1946.

§ 44.2 *Classes of applicants under the Refugee Relief Act of 1953*—(a) *German expellees.* This class shall consist of refugees of German ethnic origin who (1) were born in and were forcibly removed from or forced to flee from Albania, Bulgaria, Czechoslovakia, Estonia, Hungary, Latvia, Lithuania, Poland, Rumania, Union of Soviet Socialist Republics, Yugoslavia, or areas provisionally under the administration or control or domination of any such countries, except the Soviet Zone of military occupation of Germany, and (2) are residing in the area of the German Federal Republic, western sectors of Berlin or in Austria at the time of application for a visa. Zone "B" of the Free Territory of Trieste shall be considered an area provisionally under the administration of Yugoslavia. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in the German Federal Republic or in the western sector of Berlin or in Austria, and shall bear the notation "P. L. 203—4 (a) (1)" in the space provided for nonquota classification.

(b) *Escapees in German Federal Republic, Berlin and Austria.* This class shall consist of refugees who (1) because of persecution or fear of persecution on account of race, religion or political opinion, fled from the Union of Soviet Socialist Republics or other Communist, Communist-dominated or Communist-occupied area of Europe including those parts of Germany under military occupation by the Union of Soviet Socialist Republics, (2) cannot return thereto because of fear of persecution on account of race, religion or political opinion, and (3) are residing in the area of the German Federal Republic or the western sectors of Berlin or in Austria at the time of application for a visa. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in the German Federal Republic or in the western sector of Berlin or in Austria, and shall bear the notation "P. L. 203—4 (a) (2)" in the space provided for nonquota classification.

(c) *Escapees in NATO and other countries.* This class shall consist of refugees who (1) because of persecution or fear of persecution on account of race, religion or political opinion, fled from the Union of Soviet Socialist Republics or other Communist, Communist-dominated or Communist-occupied area of Europe including those parts of Germany under military occupation by the Union of Soviet Socialist Republics, (2) cannot return thereto because of fear of persecution on account of race, religion or political opinion, (3) at the time of application for a visa are residing within the European continental limits of the member nations of the North Atlantic Treaty Organization, or in Turkey, Sweden, Iran, or in Zone "A" of the Free Territory of Trieste, and (4) are not nationals of the area in which they reside. The NATO countries within European continental limits include Belgium, Denmark, France, Greece, Italy, Luxembourg, the Netherlands, Norway, Portugal and islands under the jurisdiction of any such country if immediately adjacent thereto. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in one of the NATO countries specified, or in Turkey, Sweden, Iran, or in Zone "A" of the Free Territory of Trieste, and shall bear the notation "P. L. 203—4 (a) (3)" in the space provided for nonquota classification.

(d) *Polish war veterans in the British Isles.* This class shall consist of refugees who (1) during World War II were members of the armed forces of the Republic of Poland, (2) were honorably discharged from such forces, (3) resided on August 7, 1953 in the British Isles, and (4) have not acquired British citzenship. The issuance of immigrant visas to aliens within the class described in this paragraph shall not be limited to any particular geographical area. Such visas shall bear the notation "P. L. 203—4 (a) (4)" in the space provided for nonquota classification.

(e) *Italian refugees.* This class shall consist of refugees who: (1) Are persons of Italian ethnic origin, and (2) resided on August 7, 1953 in Italy or in the Free Territory of Trieste. An alien residing within Zone "B" of the Free Territory of Trieste at the time of his application for a visa shall not be considered chargeable as a refugee. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in Italy or in Zone "A" of the Free Territory of Trieste, and shall bear the notation "P. L. 203—4 (a) (5)" in the space provided for nonquota classification.

(f) *Italian relatives.* This class shall consist of persons who: (1) Are of Italian ethnic origin, (2) resided on August 7, 1953 in Italy or the Free Territory of Trieste, and (3) qualify under any of the preferences specified in paragraph (2), (3), or (4) of section 203 (a) of the Immigration and Nationality Act. A prerequisite to qualification under any of such preferences shall be the approval by the Attorney General of a petition provided for in section 205 of the Immigration and Nationality Act. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in Italy or in the Free Territory of Trieste, and shall bear the notation "P. L. 203—4 (a) (6)" in the space provided for nonquota classification.

(g) *Greek refugees.* This class shall consist of refugees who: (1) Are persons of Greek ethnic origin, and (2) resided on August 7, 1953 in Greece. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in Greece, and shall bear the notation "P. L. 203—4 (a) (7)" in the space provided for nonquota classification.

(h) *Greek relatives.* This class shall consist of persons who: (1) Are of Greek ethnic origin, (2) resided on August 7, 1953 in Greece, and (3) qualify under any of the preferences specified in paragraph (2), (3), or (4) of section 203 (a) of the Immigration and Nationality Act. A prerequisite to qualification under any of such preferences shall be the approval by the Attorney General of a petition provided for in section 205 of the Immigration and Nationality Act. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in Greece, and shall bear the notation "P. L. 203—4 (a) (8)" in the space provided for nonquota classification.

(i) *Netherlands refugees.* This class shall consist of refugees who: (1) Are of Dutch ethnic origin, and (2) resided on August 7, 1953, in continental Netherlands. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in continental Netherlands, and shall bear the notation "P. L. 203—4 (a) (9)" in the space provided for nonquota classification.

(j) *Netherlands relatives.* This class shall consist of persons who: (1) Are of Dutch ethnic origin, (2) resided on August 7, 1953 in continental Netherlands, and (3) qualify under any of the preferences specified in paragraph (2), (3), or (4) of section 203 (a) of the Immigration and Nationality Act. A prerequisite to qualification under any of such preferences shall be the approval by the Attorney General of a petition provided for in section 205 of the Immigration and Nationality Act. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in the Netherlands and shall bear the notation "P. L. 203—4 (a) (10)" in the space provided for nonquota classification.

(k) *Far East refugees (non-Asian).* This class shall consist of refugees who: (1) At the time of application for a visa are residing within the district of an American consular office in the Far East, and (2) are not attributable by as much as one-half of their ancestry to a people or peoples indigenous to the Far East. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in a consular office district in the Far East, and shall bear the notation "P. L. 203—4 (a) (11)" in the space provided for nonquota classification.

(l) *Far East refugees (Asian).* This class shall consist of refugees, including Chinese persons, who: (1) At the time of application for a visa are residing within the district of an American consular office in the Far East, and (2) are attributable by as much as one-half of their ancestry to a people or peoples indigenous to the Far East. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in a consular office district in the Far East, and shall bear the notation "P. L. 203—4 (a) (12)" in the space provided for nonquota classification.

(m) *Chinese refugees.* This class shall consist of refugees who: (1) Are of Chinese ethnic origin, and (2) whose passports for travel to the United States are endorsed by the Chinese Nationalist Government or its authorized representatives. The passport of an alien eligible under this paragraph shall bear an endorsement reading as follows: "Endorsed for the purposes of section 4 (a) (13) of the Refugee Relief Act of 1953". The issuance of immigrant visas to aliens within the class described in this paragraph shall not be limited to any particular geographical area. Such visas shall bear the notation "P. L. 203—4 (a) (13)" in the space provided for nonquota classification.

(n) *Palestinian refugees.* This class shall consist of refugees who on August 7, 1953 were eligible to receive assistance from the United Nations Relief and Works Agency for Palestine Refugees in the Near East. The term "Palestinian refugee" means a refugee who was formerly resident in Palestine and who lost his home and livelihood as a result of the Arab-Israeli hostilities. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in Bahrein, Egypt, Iran, Iraq, Jordan, Kuwait, Lebanon, Oman, Saudi Arabia, Syria, Turkey or Yemen, and shall bear the notation "P. L. 203—4 (a) (14)" in the space provided for nonquota classification.

(o) *Orphans.* This class shall consist of children who: (1) Are eligible orphans as that term is defined in section 5 (b) of the act, (2) are under ten years of age at the time the visa is issued, and (3) are unable to obtain an immigrant visa solely because the nonpreference portion of the quota to which they would otherwise be chargeable is oversubscribed at the time their visa application is made. The issuance of visas to orphans within the class described in this paragraph shall not be limited to any particular geographical area. Such visas shall bear the notation "P. L. 203—orphan" in the space provided for nonquota classification.

(p) *Spouses and unmarried minor sons and daughters.* This class shall consist of the accompanying spouses and the accompanying unmarried sons or daughters under twenty-one years of age, including stepsons or stepdaughters and sons or daughters adopted prior to July 1, 1953, of persons described in paragraphs (a) to (n), inclusive, of this section. A spouse, son or daughter shall be deemed to be accompanying the principal applicant if such spouse, son or daughter is issued an immigrant visa within four months of the date of issuance of an immigrant visa to the principal applicant. An immigrant visa issued to an alien within the class described in this paragraph shall be issued only in the country or area in which the principal applicant is, or could be, issued an immigrant visa under the act, and shall bear the same notation which is or was used in issuing an immigrant visa to the principal applicant, in the space provided for nonquota classification. In any case where the principal applicant precedes his family to the United States, or in which the family unit is not traveling together, the immigrant visa issued to the spouse, son or daughter shall bear the name of the principal applicant.

§ 44.3 *Assurance of employment, housing, and against becoming a public charge*—(a) *Submission of assurances.* The assurance required by section 7 (a) of the act relating to employment, housing, and against becoming a public charge shall be given in writing by a responsible citizen or citizens of the United States, and sworn to or affirmed before a notary public or other person authorized to administer an oath or affirmation. The assurance shall be (1) in such form and content as shall be prescribed by the Administrator; (2) accompanied by such documentary evidence as may be required by written instructions attached thereto; (3) prepared in quadruplicate; and (4) forwarded in triplicate to the Director of the Visa Office, Department of State, Washington 25, D. C. An assurance shall be the personal obligation of the individual citizen or citizens signing it. Several citizens may give individual assurances to cover the members of a family. Assurances which do not specifically identify the prospective employment and housing accommodation shall be considered blanket assurances and shall not be considered as meeting the requirements of section 7 of the act. The following assurance forms shall be used exclusively and may be obtained from the Visa Office of the Department of State, from any District Office of the Immigration and Naturalization Service, or from any voluntary or other recognized agency which performs services in connection with the immigration, settlement, or welfare of aliens:

Form DSR 1—Assurance by an individual sponsor for named alien.

Form DSR 2—Assurance by more than one sponsor for named alien.

Form DSR 3—Assurance by an individual sponsor for alien nominated by agent.

Form DSR 4—Assurance by more than one sponsor for alien nominated by agent.

(b) *Adequacy of assurances.* Upon the receipt by the Visa Office of the Department of State of an assurance submitted in accordance with the provisions of paragraph (a) of this section, the Administrator will verify, or cause to be verified, the authenticity and bona fides of such an assurance. It it is found that the assurance is authentic and given in good faith by a responsible citizen or citizens of the United States, the assurance will be verified and the sponsor

notified thereof: *Provided*, That such verification may be revoked, cancelled, or withdrawn at any time prior to the applicant's admission into the United States if information subsequently obtained by the Administrator establishes that the assurance did not meet the requirements of the act or the regulations contained in this part. Two copies of the verified assurance shall be forwarded to the American consular office where the beneficiary will apply for an immigrant visa under the act. If the Administrator has reason to believe that an assurance does not meet the requirements of the act and the regulations contained in this part, he will withhold its approval, notify the sponsor of the action taken and of the reasons therefor, or he may require the sponsor to furnish additional information or undertakings in connection with the assurance. The Administrator may request or conduct such investigation as he deems appropriate to verify the authenticity and bona fides of any assurance submitted for his approval. Disapproval of an assurance shall not preclude the submission of other assurances by the same sponsor nor the re-activation of the original assurance if further information or undertakings are provided and are satisfactory to the Administrator. The consular officer shall likewise be satisfied that a verified assurance meets the requirements of the act and the regulations contained in this part, and, if so satisfied, shall accept and approve it. Verification of an assurance by the Administrator shall establish prima facie that it is authentic and given in good faith by a responsible citizen or citizens of the United States. In the event a consular officer is not satisfied that a verified assurance meets the requirements of the act and the regulations contained in this part, he may request the Department to obtain additional information or undertakings with respect thereto, or he may disapprove the assurance. Both the sponsor and the beneficiary shall be informed concerning the disapproval of any assurance, including the reason for the action taken.

(c) *Assurance of employment.* (1) The assurance that an alien will be suitably employed without displacing some other person from his employment shall provide such information as may be required to satisfy the Administrator, the consular officer, and the immigration officer that (i) suitable activities for salary, wages, or other economic gain are to be made available to the alien by the individual citizen or citizens furnishing the assurance, (ii) the wages or compensation offered are not less than the prevailing rate for like activity in the community where the employment will be performed, (iii) the employment is of a permanent or indefinite nature and will be available at the time of arrival of the alien in the United States, and (iv) no person will be displaced from his employment by reason of the activities to be performed by such alien. The assurance of employment shall show the specific address in the United States at which the employment is available, the type of employment, and the terms and conditions thereof, including the rate or range of compensation to be paid.

(2) In the case of an alien who has reached his tenth birthday anniversary and who is under twenty-one years of age at the time of issuance of an immigrant visa to him, who has no dependents, and for whom an assurance of employment is required by the act, assurance that such alien will, as his principal activity, pursue a full course of study at an established institution of learning or other recognized place of study in the United States, particularly designated by him and approved by the Attorney General for the purposes of section 101 (a) (15) (F) of the Immigration and Nationality Act, and that he will undertake studies commensurate with his age and prior scholastic attainment without displacing another student from his place of study shall be deemed to be an assurance that the alien will be suitably employed without displacing some other person from his employment: *Provided*, That the Administrator may, upon recommendation of a consular officer, waive the twenty-one year limitation in an exceptionally meritorious case.

(3) Every sponsor who gives an assurance of employment for an alien shall, prior to the submission of the assurance to the Director of the Visa Office, obtain through the local office of the State Employment Service serving the area of proposed employment a signed statement from the United States Employment Service consisting of a finding and recommendation with regard to the authenticity and bona fides of the employment assurance. Such statement shall accompany the assurance of employment and shall be submitted to the Director of the Visa Office in duplicate. In making its finding with regard to the authenticity and bona fides of an assurance of employment, the Employment Service will consider such factors as (i) the existence of a valid offer of employment, (ii) the status of the assurer as a bona fide employer, (iii) the non-displacement of American workers, (iv) whether the employment will be temporary or seasonal in duration, and (v) whether the terms and conditions of the employment are substantially less favorable to the alien than to other workers similarly employed in the area of prospective employment. As a possible basis for granting a priority in the consideration of the alien's visa application, the local office of the State Employment Service may include in its finding a statement concerning the urgent need for the alien's services or skills in the United States, if it finds that the alien will be employed in a capacity calling for such services or skills. A sponsor giving an assurance of employment shall establish any claim to priority consideration under section 12 (i) of the act with the local office of the State Employment Service.

(d) *Assurance of housing.* The assurance of housing required by section 7 (a) of the act shall provide such information as may be required to satisfy the Administrator, the consular officer and the immigration officer that (1) safe, sanitary and adequate housing will be available to the alien and the members of his family upon their arrival in the United States, and (2) no person will be displaced from such housing to accommodate the occupancy of the alien and the members of his family. The assurance of housing shall show the specific address and type of housing to be made available. Prior to the submission of an assurance of housing to the Director of the Visa Office, a sponsor submitting Form DSR–1 or DSR–2 shall first obtain from a State or local public agency having jurisdiction over the area of prospective housing a statement consisting of a finding and recommendation with regard to the authenticity and bona fides of the housing assurance, particularly from the standpoint of the availability of such housing. In the absence of a State or local public agency, any such statement from a recognized voluntary agency or from three disinterested citizens residing in the community in which the housing is to be provided shall be deemed acceptable. A sponsor submitting Form DSR–3 or DSR–4 shall attach thereto a similar statement secured either from a State or local public agency, a recognized voluntary agency, or from three disinterested citizens residing in the community in which the housing is to be provided.

(e) *Assurance against becoming a public charge.* (1) The assurance that an alien and the members of his family who shall accompany him and who propose to live with him, if admitted into the United States, will not become public charges shall provide such information as may be required to satisfy the Administrator, the consular officer and the immigration officer that the alien and the members of his family who will accompany him and who propose to live with him will not become public charges after their arrival in the United States: *Provided*, That assistance to be rendered an alien and the members of his family in connection with their transportation to and resettlement in the United States shall not be regarded as a cause for refusal of a visa on the ground that such alien will become a public charge. An applicant whose assurance against becoming a public charge has been found insufficient shall not be precluded from having another assurance against becoming a public charge submitted in his behalf.

(2) An applicant eligible under paragraph (6), (8) or (10) of section 4 (a) of the act shall, in the absence of an assurance of employment, bond required against becoming a public charge, provide other satisfactory evidence that he will not become a public charge.

(f) *Procedure in case of unknown alien.* A United States citizen who desires to sponsor an unknown alien shall execute Form DSR–3 (Form DSR–4 if more than one sponsor) in an original and four copies and, in his discretion, may designate therein an individual or a public or private agency or organization as his agent for the purpose of nominating the alien beneficiary of the assurance in accordance with its specifications. The notarized original and three signed copies of the assurance shall be transmitted by the sponsor to the designated agent. At such time as an alien beneficiary has been nominated and the "Statement by Agent", annexed to the assurance form, has been properly completed by the agent, including the name of the nominated alien, the notarized original and two signed copies of the assurance shall be forwarded to the Director of the Visa Office, Department of State, Washington 25, D. C. The assurance shall be accompanied by such documentary evidence as the attached instructions may require.

(g) *Assurances in "Pipeline Cases".* An applicant whom the Displaced Persons Commission found to be an eligible displaced person under the provisions of section 2 (c) of the Displaced Persons Act of 1948, as amended, and whose application for an immigration visa was in process on December 31, 1951, shall be required to have a new assurance form executed in his behalf. A determination of eligibility under the Displaced Persons Act of 1948, as amended, shall not be deemed to exempt any such applicant from a de novo consideration of his eligibility under the act and regulations issued thereunder, nor entitle him to any priority in the consideration of his visa application.

(h) *Penalties for violation.* Every sponsor shall be advised concerning the provisions of section 14 (c) of the act which provides that any person or persons who shall knowingly violate, conspire to violate, induce or attempt to induce any person to violate any provision of the act shall be guilty of a felony, and upon conviction thereof, shall be fined not more than ten thousand dollars or shall be imprisoned not more than ten years, or both. The substance of this provision of law shall be included in the instructions appended to each assurance form.

§ 44.4 *Eligible orphans*—(a) *Assurance of adoption and proper care.* The assurance of adoption and proper care required by section 5 (b) of the act in the case of an orphan to be adopted in the United States shall be given in writing jointly by the adoptive United States citizen and spouse, sworn to or affirmed before a notary public or other person authorized to administer an oath or affirmation, and forwarded in triplicate (notarized original and two signed copies) to the Director of the Visa Office, Department of State, Washington 25, D. C. Form DSR–5 shall be used in the case of an orphan known to the adoptive parents. Form DSR–6 shall be used in the case of an orphan to be selected by a designated agency. An assurance of adoption and proper care shall provide such information and be accompanied by such documentary evidence as may be required to satisfy the Administrator and the consular officer that (1) proper care will be provided the orphan in conformity with standards established by an appropriate public agency of the State in which the orphan will reside, (2) appropriate proceedings for the adoption of such orphan in the United States will be initiated and completed as soon as possible in accordance with the applicable State law, (3) no legal obstacle to a lawful adoption is known or believed to exist under the laws of the State of prospective adoption, (4) permission to bring the orphan into the State of prospective adoption has been obtained from the appropriate State agency, if such permission is necessary, (5) the orphan has been irrevocably released in writing for emigration and adoption in accordance with the law governing the relinquishment of a child for adoption in the country of the orphan's residence and the release is deemed acceptable to the court of prospective adoption, (6) as satisfactory investigation of the proposed adoptive home and parents has been made by a local child-care agency recognized by the State in which the orphan will reside, which investigation shall be compatible with the requirements, procedures and practices of the appropriate State welfare agency, (7) a satisfactory investigation in the country of the orphan's residence has been made by a qualified welfare agency concerning the orphan's mental and physical health, family background and other pertinent matters, and (8) arrangements have been made with an appropriate local agency or any other local child-care agency for the supervision of the orphan pending his legal adoption, and, in the event the adoption petition is denied by the court, for the assumption by such agency of responsibility for the care and resettlement of the orphan.

(b) *Affidavit by social welfare agency.* Every assurance of adoption and proper care given for an eligible orphan shall be a named assurance and shall be accompanied by an affidavit signed by a responsible officer of a national or other social welfare agency, recognized for such purpose by the Administrator, attesting to the authenticity and bona fides of the assurance, which affidavit shall be considered by the Administrator as a confirmation that the requirements and conditions, specified in paragraph (a) of this section, have been satisfied. The United States citizen and spouse who execute an assurance of adoption and proper care shall designate therein a recognized social welfare agency to provide the necessary affidavit. It shall be incumbent upon such agency to report to the appropriate State Department of Welfare whenever an eligible orphan is to be placed within the State, and to indicate in the report what local agency will assume responsibility for the supervision of the orphan pending his or her legal adoption.

(c) *Procedure in case of unknown orphan.* In the case of an orphan who is not known to the adoptive parents, the United States citizen and spouse shall execute Form DSR–6 in an original and four copies and shall authorize therein the designated social welfare agency to act as their agent in the selection of an eligible orphan in accordance with the specifications of the assurance. The notarized original of the assurance and three signed copies thereof shall be transmitted by the adoptive parents to the designated agency. At such time as an eligible orphan has been selected and the required affidavit has been executed by a responsible officer of the designated agency, the complete file in the case, including the notarized original and two signed copies of the assurance, shall be forwarded to the Director of the Visa Office, Department of State, Washington 25, D. C.

(d) *Procedure in case of known orphan.* In the case of an orphan who is known to the adoptive parents and who is, therefore, named in the assurance of adoption and proper care, the procedure prescribed in paragraph (c) of this section shall be followed, except that no authorization to select an eligible orphan need be given the designated agency. In any such case, the United States citizen and spouse shall execute Form DSR–5 in an original and four copies.

(e) *Procedure in case of orphan adopted abroad.* In the case of an orphan who has been adopted abroad, the adoptive United States citizen and spouse shall execute Form DRS–5 only to the extent required in such form, and if residing abroad, may submit the notarized original and one signed copy thereof directly to the consular officer to whom an application for an immigrant visa will be made in behalf of such orphan. In the event the adoptive parents of an orphan adopted abroad are residing in the United States, the executed Form DSR–5 shall be submitted in triplicate (notarized original and two signed copies) to the Director of the Visa Office, Department of State, Washington 25, D. C.

(f) *Adequacy of assurance of adoption and proper care.* Upon the receipt of an assurance of adoption and proper care, the Administrator will verify, or cause to be verified, the authenticity and bona fides of such assurance. If it is found that the assurance is authentic and given in good faith by a responsible United States citizen and spouse, the assurance will be verified: *Provided*, That such verification may be revoked, cancelled or withdrawn at any time prior to the orphan's admission into the United States if information subsequently obtained by the Administrator establishes that the assurance of adoption and proper care did not meet the requirements of the act and the regulations contained in this part. Two copies of the verified assurance of adoption and proper care will be forwarded to the American consular office where the application for an immigrant visa under the act will be made in behalf of the orphan. The consular officer to whom a visa application is made in behalf of an orphan shall be satisfied that the United States citizen and spouse who gave the assurance of adoption and proper care will adopt, and will care for properly, the orphan named in the assurance, if such orphan is admitted into the United States. If the consular officer is not satisfied that a verified assurance of adoption and proper care meets the requirements of the act and the regulations contained in this part, he may request the Department to obtain additional information or undertakings with respect thereto, or he may disapprove the assurance. In the event an assurance of adoption and proper care is disapproved either by the Administrator or by a consular officer, the adoptive United States citizen and spouse shall be informed concerning the reason or reasons for disapproval.

(g) *Release for emigration and adoption.* In the case of an eligible orphan adopted abroad or to be adopted in the United States, the irrevocable written release required of the remaining parent, if any, by section 5 (b) of the act shall be a prerequisite to the issuance of an immigrant visa to any such orphan, regardless of whether the orphan is in the custody of the remaining parent or has been released into the custody of a child welfare agency. Every release of an orphan for adoption in the United States shall meet the requirements of the governing law of the country of the orphan's residence and shall also be acceptable to the court of prospective adoption in the United States.

§ 44.5 *Disavowal of proscribed activities.* (a) An applicant's oath or affirmation subscribed or taken in connection with his formal application for a special nonquota immigrant visa shall be administered by the consular officer in such a manner as to comply with the provisions of section 14 (b) of the act which require every alien eighteen years of age or older, before being issued a visa, to take and subscribe an oath or affirmation that he is not and never has been a person specified in subparagraph (A), (B), (C), (D), (E), (F), (G), or (H) of section 212 (a) (28) of the Immigration and Nationality Act, except as provided in subparagraph (I) of such section. Prior to administering the required oath or affirmation, the consular officer shall inform the applicant concerning the classes of excludable aliens enumerated in section 212 (a) (28) of the Immigration and Nationality Act, as well as the defector and other classes provided for in subparagraph (I) thereof, and require him to sign the following statement which shall become a part of, and be covered by the applicant's oath or affirmation subscribed or taken in connection with, his visa application:

I have been informed concerning both the classes of excludable aliens enumerated in section 212 (a) (28) of the Immigration and Nationality Act, and the defector and other classes provided for in subparagraph (I) thereof. I hereby declare that I am not and never have been a person specified in such section, except as may be claimed under Item 38 of this application.

(b) The signed statement required under paragraph (a) of this section shall be stamped or otherwise included under Item 37 of application Form 256a and 256b, immediately following the listing of excludable classes.

§ 44.6 *Registration and order of consideration.*—(a) *Registration priority.* Aliens previously registered on quota-waiting lists, including the beneficiaries of approved petitions, shall have the burden of coming forward to claim the benefits of the act. The names of prospective applicants who have not previously been registered on a quota-waiting list, or in whose cases an approved petition for preference status has not been received at the Consulate, shall be entered on appropriate quota-waiting lists in the chronological order in which they apply for registration. Every applicant shall be entitled to a registration priority as determined by (1) the date on which he was registered on a quota-waiting-list for the purposes of the Immigration and Nationality Act, (2) the date he actually applied for registration under the act, or (3) the date on which an approved petition was filed with the Attorney General in his behalf, whichever date is earliest.

(b) *Maintenance of index-card lists.* For the purpose of keeping a current record of active cases, two index-card lists, may, in the discretion of the responsible consular officer, be maintained chronologically, one for petition cases and the other for non-petition cases, as follows:

(1) Upon the receipt of a verified assurance of employment, housing, and against becoming a public charge, an index card may be prepared showing the name of the beneficiary of the assurance, the date of his registration priority, and such other data as the consular officer deems pertinent;

(2) Upon the receipt of an approved petition in the case of a beneficiary who has signified his intention to apply for a visa under the act, an index card may be prepared showing the name of the beneficiary of the petition, the date of his registration priority, and such other data as the consular officer deems pertinent;

(3) Upon the issuance or refusal of an immigrant visa, the applicant's card shall be withdrawn from the index-card list, appropriately noted, and separately filed pending the termination of the Refugee Relief Program.

(c) *Order of consideration.* In determining the order of consideration of applications for special nonquota immigrant visas under the act, consideration shall be given first to applications under paragraphs (6), (8) and (10) of section 4 (a) of the act, and second to the applications of aliens for whom a priority over other nonpreference applicants has been authorized as provided in section 12 of the act. As among applicants under paragraph (6), (8), or (10) of section 4 (a) of the act, consideration shall be given first to the applications of aliens who qualify under the preference specified in section 203 (a) (2), of the Immigration and Nationality Act, second to the applications of aliens who qualify under the preference specified in section 203 (a) (3) of the Immigration and Nationality Act, and third to the applications of aliens who qualify under the preference specified in section 203 (a) (4) of the Immigration and Nationality Act.

(d) *Order of issuance of visas.* Immigrant visas issued to applicants within the classes described in section 4 and section 5 of the act shall be issued strictly in the chronological order in which such applicants (1) have established their registration priorities and (2) are determined by the consular officer to be qualified for immigrant visas under the immigration laws and regulations, including the provisions of the act and the regulations contained in this part.

§ 44.7 *Ineligibility to receive visas.* An applicant shall be considered ineligible to receive an immigrant visa under the immigration laws and regulations, including the provisions of the act and the regulations contained in this part, on any of the following grounds:

(a) The applicant does not qualify under any category of refugees or other persons described in section 4 or section 5 of the act;

(b) The applicant has had no satisfactory assurance or assurances given in his behalf, if required by section 5 (b) or section 7 (a) of the act;

(c) The applicant claiming eligibility under paragraph (6), (8), or (10) of section 4 (a) of the act has had no petition approved in his behalf, as required by section 205 of the Immigration and Nationality Act;

(d) The applicant has not undergone a thorough investigation, or a written report of investigation has not been prepared in his case, as required by section 11 (a) of the act;

(e) Complete information is not available regarding the applicant's history covering a period of at least two years immediately preceding his application for a visas, unless such requirement has been waived upon the recommendation of the Secretary of State and the Secretary of Defense;

(f) The applicant has not taken and subscribed to the oath or affirmation required by section 14 (b) of the act;

(g) The applicant made a material misrepresentation for the purpose of gaining admission into the United States as an alien eligible under the act;

(h) The applicant has personally advocated or assisted in the persecution of any person or group of persons because of race, religion, or national origin;

(i) The applicant is not in possession of (1) a valid unexpired passport or other suitable travel document, or a document of identity or nationality, or other documentary evidence that he will be assured of readmission to the country of his nationality, foreign residence or in which he obtains a visa under the act, and (2) a certificate of readmission to the country in which he obtains a visa, as required by section 7 (d) (2) of the act;

(j) The applicant is ineligible to receive an immigrant visa under the provisions of the Immigration and Nationality Act and the regulations contained in Part 42 of this chapter;

(k) Due to the absence of affirmative evidence, there is insufficient information to form a clear judgment of eligibility in the applicant's case.

§ 44.8 *Procedure in applying for visa.*—(a) *Form and place of application.* Every alien applying for an immigrant visa under the act shall make application on Form FS–256 in accordance with the provisions of § 42.30 of this chapter, except that (1) no application fee shall be charged, and (2) the alien shall apply for such visa at an American consular office which is authorized to issue immigrant visas under the act and which is within the country or area in which the applicant was residing on August 7, 1953, or is residing at the time of his application for a visa, whichever limitation is applicable to his case as determined by section 4 (a) of the act or by § 44.2.

(b) *Supporting documents.* Every applicant shall be required to submit supporting documents in accordance with the provisions of § 42.35 of this chapter. Consular officers shall insist upon the presentation of birth certificates if they are reasonably procurable. In the case of an applicant under section 4 (a) (14) of the act, the consular officer may, in his discretion, require a statement in writing from the United Nations Relief and Works Agency for Palestine Refugees in the Near East certifying to the applicant's eligibility for assistance on August 7, 1953.

(c) *Fingerprints.* Every applicant shall be fingerprinted on standard fingerprint Form AR–4 in connection with his visa application, except in the case of an applicant who is under fourteen years of age at the time of application for a visa. An applicant may be required by the consular officer at the time he makes preliminary or informal application for an immigrant visa to have a set of his fingerprints taken on Form AR–4 in the event such procedure is considered necessary for the purpose of identification or investigation. The applicant's fingerprint card AR–4 shall, upon the issuance or refusal of a visa, be forwarded to the Department with the pertinent information required to be inserted therein and, if the visa is refused, a statement of the ground of refusal.

(d) *Physical and mental examination.* Prior to the issuance of an immigrant visa to any applicant, the consular officer shall require such applicant to submit to a physical and mental examination by a medical officer of the United States Public Health Service.

(e) *Referral for investigation.* Consular officers shall not refer a case for investigation until such time as a favorable preliminary determination has been made with respect to the applicant's eligibility to receive an immigrant visa. Any such determination shall include a preliminary approval of the required assurance or assurances submitted in the particular case, which approval shall be contingent, so far as concerns the assurance of employment, upon the receipt of a certification from the United States Employment Service's representative abroad concerning the applicant's occupational qualifications.

(f) *Amendment of Form FS–256.* For the purposes of the act, application Form FS–256 shall be amended in the following respects:

(1) The introductory sentence shall read:

I, the undersigned, being duly sworn, state the following facts regarding myself and hereby make application for a special nonquota immigrant visa and alien registration under the Refugee Relief Act of 1953 and the Immigration and Nationality Act to the American ------ consul ------ at ------

(2) Item 30 shall read:

I claim to be a nonquota immigrant under the Refugee Relief Act of 1953 and my claim is based on the following facts.

(3) Item 31 shall read:

Available documents required by the Refugee Relief Act of 1953 and the Immigration and Nationality Act are filed herewith and made a part hereof, as follows (Sec. 222 (b)).

(4) On the reverse side of Form 256a and 256b, the following statement shall be stamped or otherwise inserted under Item 37 immediately following the listing of excludable classes:

I have been informed concerning both the classes of excludable aliens enumerated in section 212 (a) (28) of the Immigration and Nationality Act, and the defector and other classes provided for in subparagraph (I) thereof. I hereby declare that I am not and never have been a person specified in such section, except as may be claimed under Item 38 of this application.

(5) On the reverse side of Form 256a and 256b, the reference to the five dollar application fee and to the twenty dollar visa fee shall be stricken and the word "gratis" inserted in the spaces opposite the specified fee.

§ 44.9 *Procedure in issuing visa.*—(a) *Applicable regulation and exceptions.* The issuance of immigrant visas under the act shall be in accordance with the provisions of § 42.41 of this chapter, except that (1) no visa fee shall be charged, (2) in lieu of the symbols specified in § 42.3 of this chapter, there shall be inserted in the spaces provided in Form 256a and 256b for nonquota classification the appropriate notation specified in § 44.2, and (3) the applicant shall be required to sign the statement inserted in Item 37 of the application form with reference to proscribed activities. An immigrant visa issued under the act shall bear a number assigned by the Department for use in issuing such visa, and shall also bear the number of the approved petition in the case of an applicant eligible under paragraph (6), (8), or (10) of section 4 (a) of the act.

(b) *Assignment of number a prerequisite to issuance.* No immigrant visa shall be issued under the act until such time as the consular officer shall have received from the Department an appropriate number for such purpose. A number which has been used in issuing an immigrant visa under the act shall not be used again even though the recipient of the visa failed for any reason to use it. Unused numbers shall be returned to the Department.

(c) *Supporting documents.* Supporting documents submitted in connection with the visa application shall be attached to the application side of Form 256 in accordance with the provisions of § 42.41 (c) of this chapter. A copy of the verified assurance shall be included among the attached supporting documents. In the case of a Palestinian refugee eligible under section 4 (a) (14) of the act, a copy of the statement from the United Nations Relief and Works Agency for Palestine Refugees in the Near East, if required by the consular officer, shall also be included among the attached supporting documents.

(d) *Advisory opinion required in certain cases.* A consular officer may refuse to issue an immigrant visa to any applicant without the concurrence of the immigration officer abroad. In any case, however, in which the consular officer makes a determination of eligibility to receive an immigrant visa and the immigration officer abroad does not concur in such determination, a full report of the facts in the case shall be forwarded to the Department for an advisory opinion. The report shall specify the provision of law or regulation under which the immigration officer considers the applicant to be ineligible to receive an immigrant visa and the reasons therefor. Pending receipt of an advisory opinion from the Department, final action shall not be taken in the case.

§ 44.10 *Numerical limitations on issuance of visas.* (a) In accordance with the provisions of section 4 and section 5 of the act, a total of two hundred nine thousand numbers may be made available for the issuance of special nonquota immigrant visas as follows:

(1) Not more than fifty-five thousand visas to German expellees, as described in section 4 (a) (1) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(2) Not more than thirty-five thousand visas to escapees, as described in section 4 (a) (2) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(3) Not more than ten thousand visas to escapees, as described in section 4 (a) (3) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(4) Not more than two thousand visas to Polish war veterans in the British Isles, as described in section 4 (a) (4) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(5) Not more than forty-five thousand visas to Italian refugees, as described in section 4 (a) (5) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(6) Not more than fifteen thousand visas to Italian relatives, as described in section 4 (a) (6) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(7) Not more than fifteen thousand visas to Greek refugees, as described in section 4 (a) (7) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(8) Not more than two thousand visas to Greek relatives, as described in section 4 (a) (8) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(9) Not more than fifteen thousand visas to Netherlands refugees, as described in section 4 (a) (9) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(10) Not more than two thousand visas to Netherlands relatives, as described in section 4 (a) (10) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(11) Not more than two thousand visas to non-Asian refugees in the Far East, as described in section 4 (a) (11) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(12) Not more than three thousand visas to Asian refugees in the Far East, as described in section 4 (a) (12) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(13) Not more than two thousand visas to Chinese refugees, as described in section 4 (a) (13) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(14) Not more than two thousand visas to Palestinian refugees, as described in section 4 (a) (14) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(15) Not more than four thousand visas to eligible orphans as defined in section 5 (b) of the act.

(b) In the event the numbers used for the issuance of visas do not exhaust the total authorized for a particular class of refugees or other persons enumerated in paragraph (a) of this section, the unused portion shall not be made available to increase the total of visas issued beyond the numerical limitation specified for any other class.

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: November 27, 1953.

SCOTT MCLEOD,
*Administrator, Bureau of Security, Consular Affairs, and Personnel.*

# TITLE 26—INTERNAL REVENUE

## Chapter I—Internal Revenue Service, Department of the Treasury

### Subchapter A—Income and Excess Profits Taxes

[Regs. 130; T. D. 6054]

### PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

TELEVISION BROADCASTING COMPANIES

On December 13, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 11247) to conform Regulations 130 (26 CFR, Part 40) to section 519 of the Revenue Act of 1951, approved October 20, 1951. After consideration of such relevant suggestions as were presented regarding the proposals, the amendments set forth below are hereby adopted.

PARAGRAPH 1. Section 40.435–6 (a) (1) is amended by inserting at the end thereof the following new sentence: "In the case of a taxpayer engaged in the television broadcasting business which computes its average base period net income under section 459 (d), see § 40.459 (d)–5 (c)."

PAR. 2. Section 40.435–7 (a) (2) is amended by inserting at the end thereof the following new sentence: "For rules applicable in the case of a taxpayer engaged in the television broadcasting business which computes its average base period net income under section 459 (d), see § 40.459 (d)–5 (d)."

PAR. 3. There is inserted immediately after § 40.459 (c)–1 (d) (4) the following:

SEC. 519 TELEVISION BROADCASTING COMPANIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951)

Section 459, as added by sections 516 to 518 of this Act, is hereby amended by adding after subsection (c) thereof the following new subsections:

(d) *Television broadcasting companies*—(1) *In general.* In the case of a taxpayer engaged in the business of television broadcasting throughout a period beginning before January 1, 1951, and ending with the close of the taxable year, the taxpayer's average base period net income determined under this subsection shall be the amount computed under paragraph (2) or (3), whichever is applicable.

(2) *If engaged in television broadcasting at close of base period.* If the taxpayer was engaged in the business of television broadcasting at the close of its base period, the average base period net income computed under this paragraph shall be computed as follows:

(A) If the taxpayer was engaged during its base period in any business or businesses other than television broadcasting, by computing the average base period net income under section 435 (d) for such other business or businesses (determined without regard to income, deductions, losses, or other items attributable to the television broadcasting business).

(B) By multiplying such part of its total assets (as defined in section 442 (f)) for the last day of its base period, as was attributable to the television broadcasting business by—

(i) The base period rate of return determined under section 447 (c) for the industry classification which includes radio broadcasting, or

(ii) If the taxpayer was engaged during its base period in the business of radio broadcasting, its individual rate of return computed under paragraph (4),

whichever rate of return produces the greater average base period net income under this subsection. If the amount computed under this subparagraph is computed by the use of the rate of return specified in clause (i), the amount so computed shall be reduced by an amount equal to such portion of the total interest paid or incurred by the taxpayer, for the period of 12 months following the close of its base period, as is attributable to its television broadcasting business.

(C) By adding the amount computed under subparagraph (B) to the amount, if any, computed under subparagraph (A).

(3) *Commencing television broadcasting after base period and before 1951.* If the taxpayer acquires its television broadcasting business after the close of its base period and before January 1, 1951, the average base period net income computed under this paragraph shall be computed as provided in paragraph (2), except that—

(A) The applicable rate of return under paragraph (2) (B) shall be multiplied by such part of its total assets (as defined in section 442 (f)), for the last day of the calendar month in which it first engaged in such business, as was attributable to such business, and

(B) The reduction specified in the last sentence of paragraph (2) (B) shall, if applicable, be equal to such portion of the total interest paid or incurred by the taxpayer, for the period of 12 months following the month in which it first engaged in such business, as is attributable to such business.

(4) *Individual rate of return.* The individual rate of return shall be computed as follows:

(A) By determining the amount of the taxpayer's total assets (as defined in section 442 (f)) attributable to the business of radio broadcasting for the last day of each month in its base period.

(B) By computing the aggregate of the amounts ascertained under subparagraph (A) and dividing by 48.

(C) By computing for each month in the base period the excess profits net income of the radio broadcasting business (computed without regard to income, deductions, losses, or other items attributable to any other business), by adding such amounts for the 48 months in the base period, and by dividing by 4.

(D) By dividing the amount computed under subparagraph (C) by the amount computed under subparagraph (B).

(5) *Rules for application of paragraph.* (A) For the purpose of section 459 (d) (1) (B), an average base period net income determined under this subsection shall be considered an average base period net income determined under section 435 (d); but, in computing the base period capital addition under section 435 (f), the contribution under such section shall be adjusted, under regulations prescribed by the Secretary or his delegate, so as to exclude therefrom items attributable to the television broadcasting business.

(B) If any part of the total assets referred to in paragraph (2) (B) or paragraph (3) (A), whichever is applicable, were acquired, directly or indirectly, through the use of assets attributable at any time during the base period to a business of the taxpayer other than television broadcasting, the amount determined under paragraph (2) (A) shall be properly adjusted by eliminating from the excess profits net income (computed for the purpose of paragraph (2) (A)) for each month prior to such acquisition such portion thereof as is attributable to the assets used, directly or indirectly, for such acquisition. For the purpose of this subparagraph, the excess profits net income for any month shall be attributed to such assets on the basis of the ratio, as of the beginning of the day of the acquisition, of such assets to total assets (as defined in section 442 (f)) determined without regard to assets attributable to the television broadcasting business.

(C) The Secretary shall by regulations prescribe rules for the application of this subsection, including rules for the computation of the taxpayer's net capital addition or reduction.

* * * * * *

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 516 (d), the amendments made by this title (including sec. 519) shall be applicable only with respect to taxable years ending after June 30, 1950.

§ 40.459 (d)–1 *Television broadcasting companies; in general.* (a) A corporation which was engaged in the business of television broadcasting throughout a period beginning before January 1, 1951, and ending with the close of an excess profits tax taxable year may compute its average base period net income for the purpose of determining its excess profits tax for such taxable year under section 459 (d) instead of under any other applicable provision of the Code. The average base period net income computed under section 459 (d) shall be

the amount computed under paragraph (2) of section 459 (d) and under § 40.459 (d)–2 if the taxpayer was engaged in the business of television broadcasting at the end of its base period, and shall be the amount computed under paragraph (3) of section 459 (d) and under § 40.459 (d)–3 if the taxpayer did not acquire its television broadcasting business until after the close of its base period. In no event shall the benefit of section 459 (d) be available, however, unless the taxpayer was engaged in the television broadcasting business before January 1, 1951. The amount determined as the average base period net income under section 459 (d) shall be used as the average base period net income in computing the excess profits tax for any taxable year ending after June 30, 1950, if the taxpayer continued in the business of television broadcasting through the end of such taxable year, and if the use of such amount computed under section 459 (d) as the average base period net income would result in a lesser excess profits tax for such taxable year than would result under any other allowable computation of such tax.

(b) A taxpayer which does not actually broadcast television will not be considered to be engaged in the television broadcasting business even though it is engaged in a business which is related to television broadcasting, such as advertising, the manufacturing of television equipment, or the preparation and sale of television programs. A taxpayer which is engaged in the television broadcasting business and also in any other business or businesses, however, may be entitled to the benefit of section 459 (d).

§ 40.459 (d)–2 *Computation of average base period net income if taxpayer was engaged in television broadcasting at close of base period.* If the taxpayer was engaged in the business of television broadcasting at the close of its base period, its average base period net income determined under section 459 (d) shall be computed as follows:

(a) If the taxpayer was engaged during its base period in any business or businesses other than television broadcasting, its average base period net income for such other business or businesses shall be computed under section 435 (d) and § 40.435–1 (d), relating to the computation of average base period net income under the general average method. The determination of the average base period net income of such business or businesses other than television broadcasting shall be made without regard to any income, deductions, losses, or other items which are attributable to the television broadcasting business. See § 40.459 (d)–5 (a). If the taxpayer was not engaged during its base period in any business other than television broadcasting, the amount determined under this paragraph shall be zero. See § 40.459 (d)–5 (b) for adjustment of the amount computed under this paragraph where assets attributable to the television broadcasting business were acquired, directly or indirectly, through the use of assets attributable at any time during the base period to a business other than the television broadcasting business.

(b) Such part of the taxpayer's total assets for the last day of its base period as was attributable to the television broadcasting business shall be multiplied—

(1) By the base period rate of return determined under section 447 (c) for the industry classification which includes radio broadcasting, and the amount so determined shall then be reduced by an amount equal to such portion of the total interest paid or incurred by the taxpayer for the period of 12 months following the close of its base period as is attributable to its television broadcasting business, or

(2) If the taxpayer was engaged during its base period in the business of radio broadcasting, by its individual rate of return computed under section 459 (d) (4) and § 40.459 (d)–4,

whichever produces the greater average base period net income under section 459 (d) and this section.

(c) The amount, if any, computed under section 459 (d) (2) (A) and under paragraph (a) of this section shall be added to the amount computed under section 459 (d) (2) (B) and under paragraph (b) of this section.

The amount determined under paragraph (c) of this section—that is, the total of the amounts determined under paragraphs (a) and (b) of this section—shall be the average base period net income computed under section 459 (d) of a taxpayer which was engaged in the television broadcasting business at the close of its base period.

§ 40.459 (d)–3 *Computation of average base period net income if taxpayer commenced television broadcasting after close of base period and before 1951.* If the taxpayer did not acquire its television broadcasting business until after the close of its base period (but before January 1, 1951), its average base period net income determined under section 459 (d) shall be computed in the same manner as provided in section 459 (d) (2) and § 40.459 (d)–2 as in the case of a taxpayer which was engaged in the television broadcasting business at the close of its base period, except that—

(a) The applicable rate of return specified in section 459 (d) (2) (B) and § 40.459 (d)–2 (b) shall be multiplied by such part of the taxpayer's total assets for the last day of the calendar month in which it first engaged in the television broadcasting business (instead of for the last day of its base period) as was attributable to such television broadcasting business; and

(b) The reduction for interest specified in the last sentence of section 459 (d) (2) (B) and in § 40.459 (d)–2 (b) (1) shall, if applicable, be equal to that portion of the total interest paid or incurred by the taxpayer for the period of 12 months following the month in which it first engaged in the television broadcasting business (instead of for the period of 12 months following the close of its base period) as is attributable to such television broadcasting business.

§ 40.459 (d)–4 *Individual rate of return.* The individual rate of return, for the purpose of the computations provided in sections 459 (d) (2) (B) (ii) and § 40.459 (d)–2 (b) (2) and in sections 459 (d) (3) (A) and § 40.459 (d)–3 (a), in the case of a taxpayer which was engaged in the business of radio broadcasting during its base period, shall be computed as follows:

(a) The taxpayer's total assets attributable to its radio broadcasting business for the last day of each month in its base period shall be determined. See § 40.459 (d)–5 (a) for rules for the determination of the business to which assets are attributable.

(b) The amounts determined under paragraph (a) of this section shall be added together and the aggregate divided by 48.

(c) The excess profits net income for each month in the base period attributable to the radio broadcasting business shall be computed, such excess profits net income being determined without regard to income, deductions, losses, or any other items attributable to any business other than the radio broadcasting business (see § 40.459 (d)–5 (a)). Such amounts of excess profits net income attributable to the radio broadcasting business for each month in the base period shall be added together and the total of such amounts then divided by 4. The excess profits net income for any month attributable to the radio broadcasting business, for the purpose of this paragraph, shall be the excess profits net income or deficit in excess profits net income, as the case may be, attributable to such business for the taxable year in which such month falls divided by the number of calendar months in such year.

(d) The amount computed under paragraph (c) of this section shall be divided by the amount computed under paragraph (b) of this section. That is, the aggregate, divided by 4, of the excess profits net income attributable to the radio broadcasting business for each month in the base period shall be divided by the aggregate, divided by 48, of the taxpayer's total assets attributable to the radio broadcasting business for the last day of each month in the base period. The resulting figure shall be the taxpayer's individual rate of return.

§ 40.459 (d)–5 *Rules for application of section 459 (d)*—(a) *Determination of business to which items are attributable.* (1) The determination, for the purpose of section 459 (d) and §§ 40.459 (d)–1 through 40.459 (d)–5, whether any income, deductions, losses, interest, assets, or any other items are attributable to the television broadcasting business, to the radio broadcasting business, or to any other business shall be made in such manner as will clearly reflect the income attributable to each such business, and, in the case of assets, will reflect the extent to which assets are used in, or devoted to, the businesses of the taxpayer. Administrative expenses, for example, in the case of a taxpayer which is engaged in the television broadcasting business and also in some other business or busi-

nesses may not be attributed to any one business but shall be properly allocated among the various businesses of the taxpayer. If an asset is used in or devoted to the television broadcasting business, or the radio broadcasting business, and also some other business, such asset shall not be included at an amount equal to its full adjusted basis in determining at any time the total assets of the taxpayer which are attributable, as the case may be, to the television broadcasting business or to the radio broadcasting business. In such case, proper adjustment shall be made to reflect the fact that such asset directly or indirectly is used in or devoted to, or is part of, the television broadcasting business, the radio broadcasting business, or some other business. Similarly, proper adjustment shall also be made in the case of any other items (including, for example, interest) as are attributable to more than one business.

(2) (i) For the purpose of the adjustment provided in section 459 (d) (5) (B) and in paragraph (b) of this section, for the purpose of computing the individual rate of return provided in section 459 (d) (4), and for the purpose of computing an average base period net income under section 459 (d) (2) (A) for the business or businesses of the taxpayer other than the television broadcasting business, if cash or other liquid assets were in fact set aside pursuant to a resolution of the board of directors of the taxpayer or other corporate action for the purpose of acquiring assets to be used in the television broadcasting business, the setting aside of such assets shall be considered the acquisition, on the date the assets were set aside, of assets attributable to the television broadcasting business.

(ii) The rules provided in subdivision (i) of this subparagraph shall also apply to cash or other liquid assets not so set aside to the extent that the taxpayer establishes to the satisfaction of the Commissioner that such cash or other liquid assets were held for the purpose of acquiring assets to be used in the television broadcasting business (for example, through designation in the accounting records of the taxpayer) and that such cash or other liquid assets had no material effect upon the excess profits net income during the base period of the business or businesses of the taxpayer other than television broadcasting. Such cash or other liquid assets shall be deemed to have been set aside for the purpose of acquiring assets to be used in the television broadcasting business on the date which the taxpayer so establishes as the date that such cash or other liquid assets were first held for this purpose.

(iii) The rules provided in subdivisions (i) and (ii) of this subparagraph shall not apply to any assets therein described which were used for a purpose other than that for which they were set aside.

(b) *Adjustment of average base period net income of business other than television broadcasting business.* (1) If any part of the total assets attributable to the television broadcasting business which were held by the taxpayer on the date as of which the applicable rate of return is to be applied to its television broadcasting assets was acquired, directly or indirectly, through the use of assets which were attributable at any time during the base period to a business of the taxpayer other than the television broadcasting business, an adjustment, as provided in section 459 (d) (5) (B), must be made in determining under section 459 (d) (2) (A) the average base period net income, if any, of the taxpayer's nontelevision broadcasting business or businesses. See subparagraph (3) of this paragraph for rules with respect to the circumstances in which such adjustment is required. The conversion in whole or in part of assets attributable to a business other than the television broadcasting business to use in the television broadcasting business shall be considered for the purpose of section 459 (d) and of this section, to the extent of such conversion, to be an acquisition of television broadcasting assets by the use of assets attributable to a business of the taxpayer other than its television broadcasting business. In determining the extent of such conversion, appropriate allowance shall be made for offsetting effects of conversion in whole or in part of assets attributable to the television broadcasting business to use in a business other than the television broadcasting business.

(2) If an adjustment is required under the provisions of section 459 (d) (5) (B) and of subparagraph (1) of this paragraph with respect to any acquisition of assets attributable to the television broadcasting business, then in determining the average base period net income under section 459 (d) (2) (A) of such nontelevision broadcasting business or businesses there shall be excluded from the excess profits net income for each month prior to any such acquisition such portion of such excess profits net income as is attributable to the assets used, directly or indirectly, for such acquisition. In determining the amount which is to be excluded from the excess profits net income for any month, under the provisions of section 459 (d) (5) (B) and of this subparagraph, the part of the excess profits net income attributable to any assets which were used, directly or indirectly, to acquire assets attributable to the television broadcasting business shall be determined on the basis of the ratio, as of the beginning of the date of acquisition, of such assets which were so used to the total assets of the taxpayer other than its assets attributable to the television broadcasting business. If the acquisition took place on any day other than the first day of a calendar month, the adjustment for the month in which the acquisition took place shall be reduced to an amount determined on the basis of the ratio of the number of days in such month prior to the day on which the acquisition was made to the total number of days in such month.

(3) The adjustment provided in section 459 (d) (5) (B) and in this paragraph is required in any case in which an average base period net income for a business or businesses of the taxpayer other than its television broadcasting business is computed under section 459 (d) (2) (A) except to the extent that television broadcasting assets were acquired by the taxpayer through a bona fide long-term increase in its capital structure made in conjunction with and for the purpose of such acquisition. A bona fide long-term increase in the capital structure within the meaning of this subparagraph (whether an increase in equity capital or in borrowed capital as defined in section 439 (b)) shall be deemed to have occurred only to the extent that such increase is reflected in the capital structure throughout the period beginning with the time such increase was originally made and ending with the close of the taxable year for which the tax is being computed. For the purpose of determining whether such increase is reflected in the capital structure, proper adjustment shall be made to eliminate the effect of any loss occurring after the original increase is made and, in the case of such determination as of any time during a taxable year, the determination shall be made without regard to the earnings and profits of such taxable year. If the increase in the capital structure is the result of a Part II transaction, this subparagraph and § 40.462–9 (b) (1) (ii) shall be applied in the light of the facts applicable both to the taxpayer and to the component corporation in such transaction. For the purpose of this subparagraph, an increase in the capital structure does not result from the conversion of inadmissible assets into admissible assets or from the accumulation of earnings and profits prior to the beginning of the first taxable year which begins after the date of the acquisition. If the assets of the television broadcasting business were acquired partly in the manner described in this subparagraph and partly in another manner the adjustment shall be made to the extent the acquisition was made in such other manner.

(c) *Computation of base period capital addition.* The average base period net income under section 459 (d) shall be considered, for the purpose of section 435 (a) (1) (B), to be an average base period net income computed under section 435 (d) which provides for the computation of the average base period net income under the general average method. The base period capital addition provided in section 435 (f) accordingly will be allowed in any case in which the average base period net income computed under section 459 (d) is used in determining the excess profits tax for any excess profits tax taxable year, but such base period capital addition shall be allowed only with respect to the taxpayer's business or businesses other than its television broadcasting business. The following rules shall be applicable in computing the base period capital addition in the case of a taxpayer which computes its average base period net income under section 459 (d):

(1) In computing the yearly base period capital as of any day, there shall be excluded from each item in the computation (such as assets, liabilities, borrowed capital, or the adjustment for interest) any amount attributable or allocable to the assets of the television broadcasting business held on such day.

(2) If an adjustment is required to be made under section 459 (d) (5) (B) with respect to assets of the taxpayer used directly or indirectly to acquire television broadcasting assets, the amount of the adjusted basis of assets with respect to which such adjustment is required shall be excluded from assets of the taxpayer in computing equity capital as of any day prior to such acquisition. Such further adjustments shall be made in computing other items (such as liabilities, borrowed capital, or the adjustment for interest) in the determination of yearly base period capital as of such day as are, under generally accepted accounting principles, consistent with the elimination of such amount from total assets.

(3) In making computations necessary for the determination of yearly base period capital for any taxable year, such computations shall be made, under the rules and principles set forth in paragraph (a) of this section, in the light of all the facts of the particular case and consistent with the purpose of restricting the base period capital addition to the business or businesses of the taxpayer other than its television broadcasting business and the avoidance of any duplication in the computation of such base period capital addition.

(d) *Computation of net capital addition or reduction.* (1) In the case of a taxpayer which was engaged in the business of television broadcasting at the close of its base period, the net capital addition or reduction, provided in section 435 (g), shall be computed in the same manner as in the case of any taxpayer which computes its average base period net income under the general average method provided in section 435 (d). See §§ 40.437–6 and 40.437–7.

(2) In the case of a taxpayer which did not acquire its television broadcasting business until after the close of its base period (but before January 1, 1951), the net capital addition or reduction, provided in section 435 (g), shall be determined in the same manner as in the case of any taxpayer which computes its average base period net income under the general average method provided in section 435 (d) (see §§ 40.437–6 and 40.437–7), except that the following adjustment shall be made:

(i) There shall be determined the amount of any proceeds obtained from borrowing, from the issuance of capital stock, as paid-in surplus, as a contribution to capital, or in any other manner, on or after the first day of the taxpayer's first taxable year ending after June 30, 1950, and before the first day of the first calendar month following the calendar month in which the taxpayer first engaged in the television broadcasting business.

(ii) There shall be determined the excess of (*a*) the amount of the taxpayer's assets attributable to the television broadcasting business as of the last day of the calendar month in which the taxpayer first engaged in the television broadcasting business over (*b*) the amount of the taxpayer's assets with respect to which an adjustment is required under the provisions of section 459 (d) (5) (B) and of paragraph (b) of this section.

(iii) The amount determined under subdivision (i) of this subparagraph, but not more than the amount determined under subdivision (ii) of this subparagraph, shall be considered, for the purpose of any computations necessary for the determination of the net capital addition or reduction, to have been obtained prior to the first day of the taxpayer's first taxable year ending after June 30, 1950.

§ 40.459 (d)–6 *Definitions.* For the purpose of section 459 (d) and §§ 40.459 (d)–1 through 40.459 (d)–5:

(a) The term "total assets" shall have the same meaning as in section 442 (f) and § 40.442–3 (d) (1).

(b) The "amount of an asset" in the case of property other than money shall be an amount equal to the adjusted basis of such property for determining gain on the sale or exchange thereof, and in the case of money shall be the amount thereof.

SEC. 519. TELEVISION BROADCASTING COMPANIES (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 459, as added by sections 516 to 518 of this Act, is hereby amended by adding after subsection (c) thereof the following new subsections:

* * * * * *

(e) *Basis of assets.* For the purposes of this section, any reference to the adjusted basis of property or to the basis (unadjusted) of property means the adjusted basis or the basis (unadjusted), as the case may be, for determining gain upon sale or exchange.

SEC. 523. EFFECTIVE DATE OF TITLE V (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Except as otherwise provided in section 506 (d), the amendments made by this title (including sec. 519) shall be applicable only with respect to taxable years ending after June 30, 1950.

§ 40.459 (e)–1 *Basis of assets.* For the purpose of section 459 (including all subsections thereof) and the regulations thereunder, any reference to the adjusted basis of property or to the basis (unadjusted) of property means the adjusted basis or the basis (unadjusted), as the case may be, of such property for determining gain upon the sale or exchange thereof.

(53 Stat. 32; 26 U. S. C. 62. Interpret or apply sec. 519, 65 Stat. 555)

[SEAL] T. COLEMAN ANDREWS,
*Commissioner of Internal Revenue.*

Approved: November 27, 1953.

M. B. FOLSOM,
*Acting Secretary of the Treasury.*

## TITLE 31—MONEY AND FINANCE: TREASURY

### Chapter II—Fiscal Service, Department of the Treasury

Subchapter A—Bureau of Accounts

[Treasury Department Circ. 932]

### PART 290—LOANS TO PUBLIC OR PRIVATE AGENCIES UNDER REFUGEE RELIEF ACT OF 1953

Sec.
290.1 Scope of part.
290.2 Definition of terms.
290.3 Applications.
290.4 Requirements.
290.5 Terms and conditions of loans.
290.6 Repayments.
290.7 Reservations.

AUTHORITY: §§ 290.1 to 290.7 issued under sec. 16, Pub. Law 203, 83d Cong., E. O. 10487, 18 F. R. 5635.

§ 290.1 *Scope of part.* This part applies to the making of loans by the Secretary of the Treasury under section 16 of the Refugee Relief Act of 1953, Pub. Law 203, 83d Cong., to public or private agencies of the United States for the purpose of financing the transportation from ports of entry within the United States, to the places of their resettlement, of persons receiving immigrant visas under the said act and who lack the resources to finance the expenses involved.

§ 290.2 *Definition of terms.* For the purposes of this part:

(a) The word "Secretary" refers to the Secretary of the Treasury and, except for the purposes of § 290.7 (c), his designee.

(b) The word "act" refers to the Refugee Relief Act of 1953, approved August 7, 1953, Public Law 203, 83d Congress.

(c) The term "public agency" shall mean any executive department or agency of the United States or of any state of the United States, or municipality of such state.

(d) The term "private agency" shall mean a corporation or association organized and operated exclusively for religious, charitable, scientific, literary or educational purposes, no part of the net earnings of which inures to the benefit of a private shareholder or individual, and no substantial part of the activities of which is carried on for propaganda or otherwise attempting to influence legislation.

§ 290.3 *Applications.* Public or private agencies shall make application for loans on forms prescribed by the Secretary which may be obtained from the Fiscal Service, Bureau of Accounts, Treasury Department, Washington 25, D. C.

§ 290.4 *Requirements.* In order for an application to be given favorable consideration, the applying agency shall not be in default in the payment of any loan made to it pursuant to the provisions of the Displaced Persons Act of 1948, as amended, and shall:

(a) Establish to the satisfaction of the Secretary that it has authority to borrow money under its charter, articles of incorporation, or other enabling document for the purpose described in section 16 of the Refugee Relief Act of 1953 and that the person acting for it in this regard has the authority so to act;

(b) Set forth the manner and terms in which it proposes to repay the loan requested, if granted;

(c) Establish to the satisfaction of the Secretary that there is reasonable assurance the amount of the loan requested will be repaid.

§ 290.5 *Terms and conditions of loans.* In cases where applications for loans are approved, the applying agency shall:

(a) Execute a promissory note in such form and with such terms and conditions as the Secretary may deem appropriate; and

(b) Execute an agreement containing the following and such other provisions as the Secretary may require:

(1) All funds loaned to it will be used exclusively for the purpose of financing the transportation from ports of entry within the United States, to the places of their resettlement, of persons receiving immigrant visas under the act, and who lack resources to finance the expenses involved.

(2) A bank account or bank accounts for the borrowed funds will be established and maintained by the agency separately from other funds of the agency.

(3) Promissory notes will be obtained from the sponsor or the immigrant and held in trust for the Secretary as security for loans made to the agency.

(4) No interest, service or other charges will be made upon the sponsor or immigrant for the use of any funds made available under the act.

(5) Adequate books and records relating to the funds borrowed from the Secretary and loans made therefrom shall be maintained and shall be available for inspection during the life of the loan obtained from the Secretary.

(6) Reports will be made to the Secretary for such periods and in such form as he may prescribe of the balances available in and the sums disbursed from the accounts referred to in subparagraph (2) of this paragraph, the number of immigrants served by the borrowed funds, the recoveries on loans made, and such other information as the Secretary may require.

(7) All recoveries by the agency of advances to sponsors or immigrants out of funds borrowed from the Secretary shall be deposited in the special accounts referred to in subparagraph (2) of this paragraph, and shall be used only for the repayment of any unpaid balance of such loan or interest thereon so long as any such balance remains outstanding.

(8) If, in the judgment of the Secretary, there has been an improper use or other misapplication of the borrowed funds, or the agency has failed to meet the requirements of the act or this part, or any terms of the loan agreement, the loan or any unpaid balance due thereon, upon written notice by the Secretary to the agency, shall become due and payable immediately.

§ 290.6 *Repayments.* Repayments shall be made by check, draft or money order drawn in favor of the Treasurer of the United States and forwarded to the Fiscal Service, Bureau of Accounts, Treasury Department, Washington 25, D. C., with an appropriate letter of transmittal identifying the loan to which such repayment applies.

§ 290.7 *Reservations.* (a) The Secretary may, in his discretion, reject in whole or in part any application of a public or private agency for a loan under the provisions of this part.

(b) Any determination by the Secretary that a corporation or association is a private agency for the purposes of this part shall not be construed in any manner as determining the status of such corporation or association under the provisions of the Internal Revenue Code.

(c) The Secretary may waive, withdraw or amend at any time or from time to time any or all of the provisions of the regulations in this part.

[SEAL] M. B. FOLSOM,
*Acting Secretary of the Treasury.*

DECEMBER 1, 1953.

[F. R. Doc. 53-10162; Filed, Dec. 2, 1953; 8:52 a. m.]

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 71—ISSUE OF DOMESTIC MONEY ORDERS

ERROR IN AMOUNT OF MONEY ORDERS

In Part 71, Issue of Domestic Money Orders, 39 CFR Part 71, make the following change:

In § 71.12 *Errors and corrections: "not issued" orders* (18 F. R. 5542), paragraphs (b) and (c) are designated paragraphs (c) and (d) respectively, and a new paragraph (b) is inserted, to read as follows:

(b) *Error in amount of money order.* In any instance where the remitter discovers the error after the order issued for an insufficient amount has left his possession, he can apply for the issuance of a money order covering the difference between the erroneous amount and the proper amount as shown on the related application, Form 6001. The postmaster should request a photostat of the paid order from the regional accounting office, forward it with report of the facts in the case to the Bureau of Finance, Division of Money Orders.

(R. S. 161, 396, 4027, 4029, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 711, 713)

[SEAL] ROSS RIZLEY,
*Solicitor.*

[F. R. Doc. 53-10093; Filed, Dec. 2, 1953; 8:49 a. m.]

## TITLE 45—PUBLIC WELFARE

### Chapter V—War Claims Commission

Subchapter C—Appeals and Hearings

PART 515—APPEALS

Except for §§ 515.1 and 515.2 (a), (b) and (c) (1) (2), Part 515 is amended to read as follows:

SUBPART A—APPEALS, GENERAL INFORMATION

Sec.
515.1 Basis for appeal.
515.2 Appeal form and time limitations.
515.3 Appeals calendar.
515.4 Consideration of appeals.
515.5 Appeal proceedings in general.
515.6 The Council on Appeals.

SUBPART B—REVIEW AND RECONSIDERATION

515.10 Review and reconsideration by the Claims Service.

SUBPART C—HEARINGS

Sec.
515.15 Docketing and notification of hearing.
515.16 Pre-hearing conference.
515.17 Conduct of hearings.
515.18 Oral argument at close of hearing.
515.19 Proposed findings and conclusions.

SUBPART D—FINDINGS AND CONCLUSIONS

515.30 Council on Appeals to recommend decisions.
515.31 Decision of the Commission.
515.32 Notice of decision.
515.33 Dismissal of appeals.

SUBPART E—REHEARING AND REARGUMENT

515.35 Rehearing and reargument.

AUTHORITY: §§ 515.1 to 515.35 issued under sec. 2, 62 Stat. 1240; 50 U. S. C. App. 2001.

SUBPART A—APPEALS, GENERAL INFORMATION

§ 515.1 *Basis for appeal.* Any claimant whose claim is denied or is approved for less than the full allowable amount may appeal to the Commission from such determination.

§ 515.2 *Appeal form and time limitations.* (a) An appeal shall be made in writing on WCC Form 1105. Such form to be acceptable, must be filed with the Commission within six months from the date of the award or disallowance letter informing the claimant of the original determination.

(b) Upon failure to file such an appeal within six months, the claimant will be deemed to have waived his right to appeal and the decision of the Commission shall constitute a full and final disposition of the case.

(c) (1) All documents, briefs or other additional evidence relative to an appeal from the award or disallowance of a claim under sections 5 (a) through (e), 6 or 7 (a) of the act shall be filed with the Commission at the time of the filing of WCC Form 1105 or within 30 days thereafter except that if such documents, briefs or other additional evidence are requested by the Commission, they shall be filed within 60 days from the date of request therefor if the claimant is within the continental United States or within 90 days from the date of request therefor if the claimant is outside the continental United States. Failure on the part of the claimant to file such documents, briefs or other additional evidence within the time limits shall be grounds for dismissal of the appeal in accordance with § 515.32.

(2) All documents or other additional evidence relative to an appeal from the award or disallowance of a claim under section 7 (b) or (c) of the act shall be submitted prior to December 1 1953: *Provided*, That the appellant may at any time prior to December 1, 1953, notify the Commission that all additional evidence has been submitted. Appellants under section 7 (b) or (c) shall file all briefs which they desire to file in connection with their appeals prior to January 31, 1954.

§ 515.3 *Appeals calendar.* Upon receipt in Appeals and Hearings Service of WCC Form 1105 from the Claims Service following its reconsideration and review in accordance with Subpart B of this part, the case shall be entered on the

Appeals and Hearings Docket. Each appeal shall be assigned a docket number in the order of its receipt. This number shall govern the order in which appeals are considered.

§ 515.4 *Consideration of appeals.* (a) If the appellant has specified on WCC Form 1105 that he does not wish to make a personal appearance or to appear through a representative, his appeal, when reached on the appeals calendar, shall be considered by the Council on Appeals in accordance with § 515.30 (b).

(b) If the appellant in executing WCC Form 1105 has requested a personal appearance the hearing date will be set in accordance with Subpart C of this part.

(c) A request for a personal appearance may be waived by the interested parties at any time and the case submitted to the Council on Appeals in accordance with § 515.30 (b).

§ 515.5 *Appeal proceedings in general.* Appeal proceedings may consist of:

(a) A review and reconsideration by the Claims Service of the original determination on the claim. (See Subpart B of this part.)

(b) A hearing before the Commissioners or their representative when requested by the appellant or by the Commission. (See Subpart C of this part.)

(c) Findings and conclusions of the Commission upon the recommendation of the Council on Appeals. (See Subpart D of this part.)

(d) Rehearing and reargument. (See Subpart E of this part.)

§ 515.6 *The Council on Appeals.* The Council on Appeals shall consider appeals within the Appeals and Hearings Service and shall recommend decisions on appeals to the Commissioners. The Director, Appeals and Hearings Service shall serve as Chairman of the Council on Appeals.

SUBPART B—REVIEW AND RECONSIDERATION

§ 515.10 *Review and reconsideration by the Claims Service.* (a) Upon receipt of WCC Form 1105 from the appellant the Claims Service shall briefly review and reconsider the appeal and the material in support thereof, plus any additional supporting evidence or briefs which the appellant or his authorized representative shall submit.

(b) The recommendation of the Claims Service together with all supporting evidence, briefs, et cetera, shall be promptly forwarded to the Appeals and Hearings Service for further consideration.

(c) This action of the Claims Service shall be informal and no notice of the finding of the Claims Service need be furnished the appellant.

SUBPART C—HEARINGS

§ 515.15 *Docketing and notification of hearing.* (a) If the appellant in executing WCC Form 1105 has requested a personal appearance, the appeal will be set for hearing at the earliest date permitted by the hearing docket. The appellant will be notified of the date set. If the appellant fails to appear, the case will be disposed of in the usual order. The appellant may request that the case be reset for a different date within 30 days of the date of notice of hearing if the appellant resides in the continental United States or 90 days if outside the continental United States. The appellant shall be limited to one such request.

(b) The Commission may, in its discretion, require a hearing in any proceeding and shall set the hearing at the earliest practicable date permitted by the hearing docket. The appellant will be notified of the date set. If the appellant fails to appear the appeal shall be dismissed in accordance with § 515.33. The appellant may request that the case be reset for a different date within 30 days of the notice of hearing if within the continental United States or 90 days if outside the continental United States. The appellant shall be limited to one such request.

§ 515.16 *Pre-hearing conference.* At the request of the appellant or by an order of the Council on Appeals, at any time prior to the hearing, a conference may be arranged between the appellant or his representative and the Council on Appeals or its representative at a designated time and place to consider simplification of the issues and any other matter which would tend to expedite the disposition of the hearing.

§ 515.17 *Conduct of hearings.* (a) Unless otherwise ordered by the Commission, hearings on appeals shall be closed. The hearings shall be stenographically reported and the transcript shall be a part of the record.

(b) Hearings shall be held by the Commissioners or by the Council on Appeals or by any combination of Commissioners and members of the Council on Appeals as may be designated by the Commission in each instance. The Commission will specify the individual who is to serve as chairman of the hearing.

(c) The chairman of a hearing panel may administer oaths and examine witnesses. The chairman may, in accordance with Part 502, Subchapter A of the Commission's regulations in this chapter, require by subpoena the attendance and testimony of witnesses, as well as the production of all necessary books, papers, documents, records, correspondence, and other evidence.

(d) The appellant shall have the burden of proof on all issues involved in the appeal proceeding.

(e) The appellant, his authorized representative, the Council on Appeals or the appellate attorney shall have the right and power to call, examine and cross-examine witnesses and to introduce for the record documentary or other evidence.

(f) The rules of evidence prevailing in courts of law and equity shall not be controlling. Any testimony or other evidence having probative value shall be received. However, it shall be the policy to exclude irrelevant, incompetent, immaterial or unduly repetitious evidence.

(g) In the discretion of the chairman, the hearing or pre-hearing may be adjourned from day to day, postponed to a later date, or to a different place by announcement thereof at the hearing, or by reasonable notice to the interested parties.

§ 515.18 *Oral argument at close of hearing.* Any party shall be entitled upon request at the close of the hearing, to such time as may be fixed by the chairman for oral argument. Oral argument made with the consent of the chairman shall be included in the stenographic report of the hearing.

§ 515.19 *Proposed findings and conclusions.* At the close of the reception of evidence, or within a reasonable time thereafter, to be fixed by the chairman, any party may submit proposed findings and conclusions, together with a brief in support thereof. Such proposal shall be in writing and shall contain appropriate references to the record. Copies thereof shall be furnished to all parties. Reply briefs may be filed with the permission of and within a reasonable time to be fixed by the chairman.

SUBPART D—FINDINGS AND CONCLUSIONS

§ 515.30 *Council on Appeals to recommend decisions.* (a) After a hearing upon an appeal has been held the Council on Appeals shall, as soon as practicable after receipt of the transcript of the hearing, consider all evidence presented by the appellant in connection with an appeal and shall recommend a decision to the Commissioners.

(b) If no hearing is requested upon the appeal, the Council on Appeals, shall consider all additional evidence and shall recommend a decision upon the appeal to the Commissioners.

§ 515.31 *Decision of the Commission.* The recommended decision of the Council on Appeals shall be referred to the Commissioners and shall, when approved by two Commissioners, become the final decision of the Commission.

§ 515.32 *Notice of decision.* Notice of the final decision of the Commission together with a copy thereof shall be furnished to all interested parties.

§ 515.33 *Dismissal of appeals.* (a) An appeal may be dismissed when on its face it is not allowable or when it appears to have been abandoned or when substantiating evidence has not been furnished in accordance with § 515.2.

(b) The decision dismissing an appeal shall be final. The provisions as to notice of finding in § 515.32 and as to rehearing and reargument in § 515.35 shall apply to decisions of the Commission in dismissing an appeal.

SUBPART E—REHEARING AND REARGUMENT

§ 515.35 *Rehearing and reargument.* Any party desiring a rehearing, reargument or any relief not specifically covered by this part, may file a petition with the Commission within ten (10) days if a resident within the continental United States or within sixty (60) days if outside the continental United States after notice of the decision, stating the relief sought and the reasons in support thereof. Evidence in support of the pe-

tition should be attached thereto. The Commission may deny or allow the petition in whole or in part, as it deems proper.

DANIEL F. CLEARY,
*Chairman, War Claims Commission.*

# TITLE 47—TELECOMMUNICATION

## Chapter I—Federal Communications Commission

### PART 3—RADIO BROADCAST SERVICES

### TELEVISION BROADCAST STATIONS; TRANSMITTERS AND ASSOCIATED EQUIPMENT

In the matter of amendment of § 3.687 (a) (2) rules governing television broadcast stations.

1. The Commission has before it for consideration § 3.687 (a) (2) of its rules and regulations relating to the operation of television transmitters.

2. On April 23, 1953, the Commission issued a Report and Order in Dockets 10369 and 10370, which, among other things, amended § 3.687 (a) (2) of the rules, effective June 1, 1953, by adding the following provision relating to the field strength or voltage of the upper sideband radiated or dissipated by television transmitters:

> The field strength or voltage of the upper sideband as radiated or dissipated and measured as described in subparagraph (3) of this paragraph, shall not be greater than −20 db for a modulating frequency of 4.75 Mc or greater.

3. Section 3.687 (a) (2), as amended, requires that television transmitters be operated so that a specified attenuation of the upper sidebands is obtained. However, it has come to the Commission's attention that the video frequency filters necessary in some transmitters to achieve the specified attenuation figure will not be generally available for an additional 6 to 8 months' period and that, accordingly, a number of existing stations have been unable to comply with the present provisions of the rule. Accordingly, it is the Commission's view that the public interest would be served by extending the time for compliance with the provisions of the rule to July 1, 1954.

4. The Commission has found that prior notice of rule making in this case would be unnecessary and impracticable and would be contrary to the public interest. Furthermore, since the amendment adopted herein represents a relaxation of the requirements of the rule by postponing the date of compliance, the amendment may be made effective immediately. Authority for the adoption of the amendment is contained in sections 4 (i), 303 (f) and 303 (r) of the Communications Act of 1934, as amended.

5. In view of the foregoing: *It is ordered*, That, effective immediately, § 3.687 of the Commission's rules and regulations is amended as follows:

(a) Add footnote designator 28a at the end of paragraph (a) (2).

(b) Insert footnote 28a in its proper place to read as follows:

> [28a] Television stations shall have until July 1, 1954 for compliance with the requirements of this subparagraph with respect to attenuation of the upper sidebands.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082 as amended; 47 U. S. C. 303)

Adopted: November 25, 1953.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

---

[Docket No. 8967]

### PART 3—RADIO BROADCAST SERVICES

### MULTIPLE OWNERSHIP

In the matter of the amendment of §§ 3.35, 3.240 and 3.636 of the rules and regulations relating to multiple ownership of AM, FM and television broadcast stations; Docket No. 8967.

1. This proceeding involves a proposal to amend §§ 3.35, 3.240 and 3.636 (formerly 3.640) of the Commission's rules and regulations which relate respectively to multiple ownership of AM, FM and television broadcast stations.

2. The proceeding was instituted by the issuance of a notice of proposed rule making on August 19, 1948 (13 F. R. 5060). The following parties submitted written comments with respect to the proposed amendments and also participated in the oral argument held before the Commission en banc on January 17, 1949: Paramount Pictures, Inc., Balaban and Katz Corporation and Gulf Theatres, Inc. (the "Paramount group"); Columbia Broadcasting System, Inc.; the Fort Industry Company; KMMJ, Inc., Salt Lake City Broadcasting Corporation, Trans-America Television Corporation, and Universal Broadcasting Company (the "McKenna group"); and National Broadcasting Company, Inc. In addition, written comments were submitted by Mr. E. B. Craney and Mr. Arthur W. Scharfeld.

3. The parties to this proceeding have raised numerous objections to the proposed amendments. These objections fall generally into two categories. The first group challenges the authority of the Commission to adopt rules of general applicability dealing with the subject multiple ownership of broadcast stations, while the second group objects to specific provisions of the proposed amendments. We shall first take up the arguments of the former group.

4. There has been general agreement among the parties to this proceeding that in order to guard against monopolistic tendencies and to preserve competition in the broadcasting industry the Commission can and should, in the exercise of its licensing functions, give consideration to the multiple ownership of stations. Nevertheless, it has been argued that the Commission must announce the general principle of law governing the multiple ownership of broadcast stations on a case-to-case basis only and that the Commission is here precluded from issuing rules of general applicability. This argument however, fails to consider the specific rule making powers conferred on this Commission by the Communications Act[1] and the consistent rulings of the courts sustaining the rule making powers of this Commission, as well as other government agencies.[2] Under the Communications Act, the Commission has full authority to adopt rules giving effect to the principles that will apply in licensing radio stations pursuant to the statutory touchstone of "public convenience, interest and necessity." Such rules are designed to implement and enforce the act and to announce publicly Commission policy with respect to factors which may warrant a denial of a license because they are incompatible with the policies and purposes of the act. The rule making powers conferred on the Commission, expressly set forth in sections 4 (i) and 303 (r) of the act, not only authorize the adoption of rules but affirmatively direct the Commission to make such regulations as may be necessary to carry out the provisions of the act. In addition to its rule making powers, the Commission may proceed on a case-to-case basis so that the policies and purposes of the act will be implemented within the framework of particular cases. The choice between these alternative techniques for the implementation of the act must be determined in light of all the relevant considerations presented by the particular problem. The Supreme Court in Securities and Exchange Commission v. Chenery Corp. 332 U. S. 194, 203-204, stated:

> • • • an administrative agency must be equipped to act either by general rule or by individual order. To insist upon one form of action to the exclusion of the other is to exalt form over necessity.
>
> • • • There is thus a very definite place for the case-by-case evolution of the statutory standards and the choice made between proceeding by general rule or by individual ad hoc litigation is one that lies primarily in the informed discretion of the administrative agency. See Columbia Broadcasting System v. U. S., 316 U. S. 407, 421.[2a]

Our determination here that the problems presented by the multiple ownership of broadcast stations are best resolved by the promulgation of rules of general applicability is made on the basis of the knowledge and experience acquired by this Commission over a period of more than a decade in the handling of these problems.[4]

5. The provisions of §§ 3.35, 3.240 and 3.636 governing the multiple ownership of broadcast stations and the amendments thereof proposed in this proceeding were promulgated pursuant to the general rule making authority contained in sections 4 (i) and 303 (r) of the act and are designed to implement the Congressional policy against monopoly enunciated specifically in sections 311 and 313 of the Communications Act. Parties to this proceeding have urged that the promulgation of these rules by the Commission is an attempt to enforce the anti-trust laws of the United States which function Congress has delegated to the Department of Justice. This contention has been advanced before, and expressly rejected by the courts. Thus, in Mansfield Journal Co. v. Federal Communications Commission, 86 U. S. App. D. C. 102, 180 F. (2d) 28, the court stated:

> Appellant argues that this amounts to enforcement of the anti-trust laws. But whether appellant has been guilty of a violation of these laws is not here in issue. The fact that a policy against monopoly has been made the subject of criminal sanction by Congress as to certain activities does not preclude an administrative agency charged with protecting the public interest from holding the general policy of Congress to be applicable to questions arising in the proper discharge of its duties. • • • Monopoly in the field of communication of news and advertising is contrary to the public interest, even if not in terms proscribed by the anti-trust laws.[5]

---

[1] Section 4 (i) provides: The Commission may perform any and all acts, make such rules and regulations and issue such orders, not inconsistent with this act, as may be necessary in the execution of its functions.

Section 303 (r) provides: Except as otherwise provided in this Act, the Commission from time to time, as public convenience, interest, or necessity requires, shall • • •

(r) Make such rules and regulations and prescribe such restrictions and conditions, not inconsistent with law, as may be necessary to carry out the provisions of this act, or any international radio or wire communications treaty or convention, or regulations annexed thereto, including any treaty or convention insofar as it relates to the use of radio, to which the United States is or may hereafter become a party.

[2] National Broadcasting Company v. United States, 319 U. S. 190, affirming 47 F. Supp. 940; Columbia Broadcasting System v. United States, 316 U. S. 407, 420–421; Heitmeyer v. Federal Communications Commission, 68 App. D. C. 180, 95 F. (2d) 90; Ward v. Federal Communications Commission, 71 App. D. C. 166, 108 F. (2d) 486; cf. Stahlman v. Federal Communications Commission, 75 App. D. C. 176, 126 F. (2d) 124; Securities & Exchange Commission v. Chenery Corp., 332 U. S. 194; Lichter v. United States, 334 U. S. 742.

[2a] In at least three cases in recent years the courts have expressly rejected arguments that the Federal Communications Commission should act on a case-by-case basis rather than by adopting general rules specifying in advance the circumstances under which it will or will not grant licenses. National Broadcasting Company v. Federal Communications Commission, 319 U. S. 190 (Chain Broadcasting Regulations); Pelman v. United States (N. D. Ill., Civil No. 49C227, aff'd 339 U. S. 873 (Reserve time Rules); American Broadcasting v. U. S. (110 F. Supp. 374 (S. D. N. Y.) (Latta v. Rules).

[3] In 1940 the Commission adopted a multiple ownership rule for FM broadcasting stations (5 F. R. 2384); multiple ownership rules for television were adopted in 1941 (6 F. R. 2284); multiple ownership rules for AM broadcasting stations were adopted in 1943 (8 F. R. 16065). These rules have been reported to Congress and discussed in hearings but Congress has never taken action to abolish or circumscribe the Commission's authority to issue such rules.

[4] See also National Broadcasting Company v. United States, 319 U. S. 190; Southern Steamship Company v. National Labor Relations Board, 316 U. S. 31.

6. Nor do we find merit in the contention that section 9 (a) of the Administrative Procedure Act, 5 U. S. C., section 1008, which provides that "no sanction shall be imposed or substantive rule or order be issued except within the jurisdiction delegated to the agency and as authorized by law", prohibits the adoption of these rules. The legislative history of section 9 (a) leaves no doubt that the section was not intended to prevent an agency from adopting rules which it would be otherwise authorized to issue but was merely designed to "afford statutory recognition for the basic rule of law embodied in judicial decisions." Senate Judiciary Committee Print, June 1945, in Sen. Doc. No. 248, 79th Cong. 2d Sess., p. 34.[5]

7. The objections advanced by the parties to this proceeding against the specific provisions of the amended rules are considered below.

8. We need not here take up those arguments directed to the overlap and allied provisions of the outstanding proposal (subsections (1) and (2)). We have determined not to effectuate, at this time, any changes with respect to overlap. We recognize that some changes may well be desirable, but recent developments, particularly in television, compel reconsideration of the entire overlap question. While certain features of the outstanding proposal are unrelated to these developments and would appear to merit adoption, it is felt that such a piecemeal approach is inappropriate. Accordingly, we take no action here changing the present provisions of our rules governing overlap situations.

9. We turn now to the objections to the proposed provisions which deal with the total number of stations in which a licensee should be permitted to have an interest. The proposed rules provide that the determination whether the grant of a license would result in a concentration of control of broadcasting facilities inconsistent with the public interest will depend on the facts of each case; and the factors which the Commission will consider in making that determination are set forth with particularity. It is further provided that the Commission will consider the ownership, operation or control directly or indirectly of more than 7 AM, 6 FM or 5 TV broadcast stations by any person to constitute a concentration of control contrary to the public interest. It is also provided that no person or any of its stockholders, officers or directors may have a direct or indirect interest in or be stockholders, officers or directors of more than 14 AM, 12 FM or 10 TV broadcast stations. Tables are also included in the rules which specifically set forth the maximum number of stations in which any person or its stockholders, officers or directors may have interests less than control.

10. One of the basic underlying considerations in the enactment of the Communications Act was the desire to effectuate the policy against the monopolization of broadcast facilities and the preservation of our broadcasting system on a free competitive basis. See Federal Communications Commission v. Sanders Brothers Radio Station, 309 U. S. 470. This Commission has consistently adhered to the principle of "diversification" in order to implement the Congressional policy against monopoly and in order to preserve competition. That principle requires a limitation on the number of broadcast stations which may be licensed to any person or to persons under common control. It is our view that the operation of broadcast stations by a large group of diversified licensees will better serve the public interest than the operation of broadcast stations by a small and limited group of licensees. The vitality of our system of broadcasting depends in large part on the introduction into this field of licensees who are prepared and qualified to serve the varied and divergent needs of the public for radio service. Simply stated, the fundamental purpose of this facet of the multiple ownership rules is to promote diversification of ownership in order to maximize diversification of program and service viewpoints as well as to prevent any undue concentration of economic power contrary to the public interest. In this connection, we wish to emphasize that by such rules diversification of program services is furthered without any governmental encroachment on what we recognize to be the prime responsibility of the broadcast licensee (See section 326 of the Communications Act). It is to effect this purpose that the foregoing specific limitation on the number of stations that may be owned, operated or controlled by any person, has been included in the multiple ownership rules.[7]

11. In view of the arguments advanced by some parties that the proposed rules are arbitrary in that they give no effect to class and size of stations, geographical locations, populations served, and similar factors, we have considered alternatives

---

[5] The Attorney General's Manual on the Administrative Procedure Act makes it clear that the purpose of Section 9 (a) was to prevent administrative agencies from imposing sanctions or adopting substantive rules which had not been specifically or generally authorized by Congress. See also Senate Report on S. 7 in Sen. Doc. 248, 79th Cong. 2d Sess., p. 211; and House Report on S. 7 in Sen. Doc. 248, 79th Cong. 2d Sess., p. 274.

[6] Involved here is the question of determining the extent of overlap—that is, the population and area encompassed by the overlap. As brought out in the Sixth Report and Order (pars. 85, 88, 90, 91) and several recent cases (In re Application of Westinghouse Stations, Inc., 8 Pike & Fischer RR 341; In re Application of Louis Wasmer, 9 Pike & Fischer RR 713), this presents a particularly difficult problem in television because of the technical data available and the rules drafted on the basis of such limited data.

[7] Such limitations have been in effect for the FM and TV service since the multiple ownership rules for those services were adopted. The original limit of 3 television stations was subsequently raised to 5 in the light of changed conditions.

to the outstanding proposal.[8] But as a result of a study of the present holdings of multiple owners, we have concluded that any proposal to limit multiple ownership on the basis of such factors as class of station or geographical location, is either unsatisfactory or unworkable.[9] For a formula, which we believe would reasonably limit ownership on such bases, would require extensive divestment of holdings by existing licensees; it is felt that this would be unduly disruptive. On the other hand, if existing licensees are to retain their present holdings, no formula can be devised which does not substantially extend the present maximum limitation on station ownership—a result felt to be completely unwarranted in view of the important policy considerations involved. As to devising a reasonable formula and "grandfathering" present holdings however greatly in excess of this new criterion, this is believed improper in view of the extensive multiple AM holdings and the nature of such holdings built up over that service's long history and the consequent unfairly preferential treatment accorded such multiple owners. We conclude, therefore, that the method employed in our outstanding proposal is the only sound and workable one because of the history and present development of the broadcast industry.

12. As stated, the outstanding proposal equates two minority non-controlling holdings with one full or controlling ownership. In view of the contention made that the proposal is objectionable because of this effort to deal with interests less than control (e. g., that "[it] endeavor[s] to reduce to simple mathematical formulae matters that are incapable of such reduction"), we have re-examined this facet of the matter. It is our conclusion that the principle of diversification and the realities of the situation require that no distinction be made between a minority non-controlling interest and a full or controlling one. While the holder of a small interest in many instances may have slight influence on the operation of the station in question, it is also true such a person can exert a considerable influence—to an extent clearly within the objectives and purview of the described diversification policy. Several factors should be noted here: (1) there may not be a correlation between the size of the minority holding and the extent of the influence wielded; (2) it is impossible to determine on the face of the application what the influence of the multiple owner will be; indeed, it may be difficult or incapable of definite ascertainment even in a subsequent hearing; and (3) in the case of the holder who has interested himself in numerous stations, there is a good probability that because he is so actively engaged in the broadcast field, his influence will tend to be a positive or substantial one. For these reasons, we are of the opinion that to permit parties to acquire interests of any nature in more than the specified maximum numbers of stations set out within would tend to defeat the diversification policy. We have accordingly revised the multiple ownership rules so as to preclude such holdings.[10]

13. Section (a) (3) of the attached rules is also concerned with the interests that any stockholder, officer or director of a party applying for a license may have in other stations. Objections have been raised to the consideration of the interests of those who are only officers or directors but not stockholders of applicants or licensees. Such objections, however, ignore the practical realities of business organization and control, particularly in the case of corporations. In numerous business organizations the actual day to day control is in the hands of officers and directors who are not necessarily owners or stockholders. Reference need only be made to the history of the antitrust laws to discover the consequences which may flow from interlocking directorships and managements. And it is significant that Congress has inserted provisions in the antitrust laws specifically to guard against evils resulting from the interlocking interests of directors, officers and even employees of business organizations. See 15 U. S. C., sections 19, 20. In light of these considerations, the Commission believes that it is both reasonable and necessary to take cognizance of the interests of directors and officers of licensees and applicants in order to preserve competition and prevent monopoly in the broadcasting field.

14. With respect to stockholders, section (b) of the proposed rules provides that in applying section (a) in the case of corporations having more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who own 1 percent or more of the outstanding voting stock. It has been suggested that only holders of 5 percent or more of the stock of such corporations should be considered. The Commission is of the opinion, however, that the provision as originally proposed should be adopted for the reason that in corporations of large size, owners of 1 percent of the stock may have considerable voice in the control and management; and that interests of that size should properly be considered in the application of these rules.

15. Neither the present nor proposed rules on limiting multiple ownership in TV make any distinction between VHF and UHF stations. The Commission has received several petitions[11] requesting that such a distinction be made, and that either no limitation be placed on the ownership of UHF stations or that the limitation on TV holdings be raised to either 7 or 8 with no more than five in the VHF service. This argument rests on the premise that such action is desirable in order to promote the early development of UHF. Oppositions to these proposals have also been submitted.[12] The opponents argue that the proposed liberalization of the ownership limitation with respect to UHF stations is not in the public interest and that "If it appears that UHF is not developing as rapidly as desired, and if smaller communities are not being served by television, and if no other solution is in sight, there will be time enough to take such a drastic step as has been suggested." The Commission is now actively engaged in studying the position of the post-freeze TV station. We note that other interested parties are also engaged along this line.[13] Accordingly, we are deferring consideration of the multiple ownership facet of the UHF question to the over-all UHF study.

16. We turn now to what is the appropriate specific limitation in each service on the number of stations in which one person may hold an interest. The attached rules continue in effect the existing limitation on TV station ownership which, in our judgment based on extensive experience with the problems of multiple ownership, have proven practicable and desirable. It is argued that the rules should permit the ownership of the same number of TV stations as AM since TV operations now need to be buttressed by the profits of the AM operation while the latter may need such service from the former in the future. But the period when television operations were largely supported by AM profits has passed, and television stations by and large, are either now operating at a profit or can reasonably look forward to such operation in the future. As to the converse argument, it is believed that restrictions on multiple ownership should be related to the circumstances of the present and immediate future rather than to some remote or possible set of circumstances in the indefinite future. In the absence of circumstances which we do not now foresee, we believe that the policy of diversification requires the adoption of the 5 station limitation.[14]

17. With respect to interests in FM broadcast stations, the attached rules, unlike the proposal which specified a 6 station FM limitation, raise the limitation to seven—the AM figure. It is considered desirable to have the same limitation applicable to both aural services because of their inter-relationship and the present status of FM's growth.[15]

18. The specific limitation on the holding of interests in excess of seven AM broadcast stations is a new provision of the Commission's rules on multiple ownership. Aside from the factors set out in the prior paragraph, the greater potential of FM as compared to AM for the accommodation of broadcast stations might have justified a more severe limitation in AM than the limitation imposed in FM. It was determined, however, to limit the holdings in AM stations of any one person to seven in order that present holdings of such stations be not unduly disrupted. The specific limitation of 7 stations contained in the attached rule is consistent with the historical development of AM broadcasting and the tremendous expansion that has been achieved almost entirely within the framework of that limitation; only a very few parties have holdings in excess of 7. As to these latter few, orders to show cause why they should not divest themselves of so much of their holdings as is necessary to bring about conformity with the subject rule, will be issued. Decision as to whether or not divestment will be required will be made on the basis of the arguments adduced and the factors involved in each case.

19. In view of the above considerations, we find that the public interest, convenience and necessity will be served by the adoption of the attached rules. Authority for their adoption is contained in sections 4 (i), 303 (r), 311, 313 and 314 of the Communications Act of 1934, as amended.

20. *Accordingly, it is ordered,* This 25th day of November 1953, that, effective 20 days after publication in the FEDERAL REGISTER, §§ 3.35, 3.240, and 3.636 of the Commission's rules and regulations are amended as set forth below

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interpret or apply secs. 303, 311, 313, 314, 48 Stat. 1082, as amended, 1083, 1087; 47 U. S. C. 303, 311, 313, 314)

Released: November 27, 1953.

FEDERAL COMMUNICATIONS COMMISSION,[16]

[SEAL] WM. P. MASSING, *Acting Secretary.*

§ 3.35 *Multiple ownership.* No license for a standard broadcast station shall be granted to any party (including all parties under common control[17]) if:

(a) Such party directly or indirectly owns, operates, or controls another standard broadcast station a substantial portion of whose primary service area would receive primary service from the station in question, except upon a showing that public interest, convenience and necessity will be served through such multiple ownership situation; or

(b) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other standard broadcast station if the grant of such license would result in a concentration of control of standard broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, classes of station involved and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven standard broadcast stations.[18]

§ 3.240 *Multiple ownership.* No license for an FM broadcast station shall be granted to any party (including all parties under common control[17]) if:

(a) Such party directly or indirectly owns, operates, or controls another FM broadcast station which serves substantially the same service area; or

(b) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other FM broadcast station if the grant of such license would result in a concentration of control of FM broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, classes of stations involved, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven FM broadcast stations.[18]

§ 3.636 *Multiple ownership.* (a) No license for a television broadcast station shall be granted to any party (including all parties under common control[17]) if:

(1) Such party directly or indirectly owns, operates, or controls another television broadcast station which serves substantially the same area; or

(2) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or

---

[8] In the Matter of Erunton et al., 3 Pike & Fischer RR 291. On the basis of the facts in that proceeding, the Commission considered and gave weight to such factors as the class and power of stations in determining whether the requested transfer of an additional station to CBS would be in the public interest. The Commission's decision in that proceeding does not, however, preclude the adoption under appropriate circumstances of rules of general application such as are involved here.

It should also be noted that even if all the AM stations owned by the one party are small, there is a tendency to concentrate in the same general area; under these circumstances, ownership of more than 7 stations would result in a concentration of control that would be contrary to the public interest.

[9] It is important to note that the proposed rules do take these factors into consideration in situations not involving an application for facilities in excess of the maximum permissible number.

[10] We note that some parties who now have television interests in five stations which include some of a minority nature, have applied for additional television facilities, presumably relying on the absence of any specific provision dealing with minority holdings. We feel that such parties, who may have gone to considerable expense and otherwise relied on the policy prevailing before this change, should not be penalized procedurally by the immediate dismissal of their applications.

Therefore, parties who have applied for interests in excess of five before the date of adoption of this rule change and whose applications—because their holdings involved minority interests—were not defective under § 1.361 (c) of this chapter or inconsistent with other pending applications of the party within § 1.362 of this chapter, may, if they desire, continue to prosecute their applications by a request for waiver of either § 1.362 of this chapter or § 1.361 (c) of this chapter. It should be clearly understood that the waiver thus granted is a procedural one only, permitting the parties involved to continue in their hearings or other processing procedure; the holdings of such parties, whether minority or controlling, must conform to the maximum number established in the rules here adopted. It follows that a grant to such a party bringing its interests to six would be conditioned on divestment of some other interest.

[11] These petitions were filed by the National Broadcasting Company, Inc., American Broadcasting Company, Inc., and Allen B. DuMont Laboratories, Inc.

[12] The opposing parties are Senator Edwin C. Johnson, Redwood Broadcasting Co., Fairmont Broadcasting Co., and New England Television Company.

[13] See e. g., the petition of the newly formed Ultra High Frequency Television Association dated October 27, 1953.

[14] The argument is also made that no cogent reasons exist for the disparity in TV and AM multiple ownership rules in view of the fact that the TV station potential is approximately equivalent to the AM station number. But there is a substantial disparity between the number of existing AM and TV stations. Further, as brought out in paragraph 18, the AM figure of 7 was selected because of the tremendous expansion which has been achieved within the framework of that limitation; a lower figure would result in either severe disruption or, in the event of "grandfathering", preferential treatment being accorded too many licensees. No such consideration pertains to the determination of the TV figure.

[15] The most recent statistics available (January 1, 1953) show that of 600 FM broadcast stations, 538 are owned by AM licensees and for the most part, duplicate the AM programming.

[16] Separate views of Commissioner Hennock filed as part of original document.

[17] The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

[18] In applying the foregoing provisions to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

directors of, more than five television broadcast stations."*

* The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

** In applying the provisions of paragraph (a) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

(b) Paragraph (a) of this section is not applicable to non-commercial educational stations.

## TITLE 49—TRANSPORTATION

### Chapter I—Interstate Commerce Commission

#### Subchapter B—Carriers by Motor Vehicle

[Ex Parte No. MC-43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

MOTOR CARRIERS; AUGMENTING EQUIPMENT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 30th day of November A. D. 1953.

Upon consideration of the record in the above-entitled proceeding, and in order to afford more time for further study as to the necessity for the provisions hereinafter described of the rules prescribed by the order entered in this proceeding May 8, 1951, as heretofore modified, and good cause appearing;

*It is ordered*, That the order entered in this proceeding May 8, 1951, as heretofore modified, be, and it is hereby, further modified so as to make effective March 1, 1955, instead of March 1, 1954, the provision of § 207.4 (a) (3) which requires that any contract, lease, or other arrangement for the use of equipment shall specify a period "which shall not be less than 30 days".

*And it is further ordered*, That the following proviso of § 207.4 (a) (5) of the said order of May 8, 1951, shall become effective March 1, 1955, instead of March 1, 1954: *"Provided, however*, That such compensation shall not be computed on the basis of any division or percentage of any applicable rate or rates on any commodity or commodities transported in said vehicle or on a division or percentage of any revenue earned by said vehicle during the period for which the lease is effective."

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[F. R. Doc. 53-10116; Filed, Dec. 2, 1953; 8:53 a. m.]

[Ex Parte No. MC-43]

PART 207—LEASE AND INTERCHANGE OF VEHICLES

MOTOR CARRIERS; AUGMENTING EQUIPMENT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 30th day of November A. D. 1953.

Upon consideration of the record in the above-entitled proceeding; it appearing desirable to clarify § 207.4 (a) (3) (i) and (ii) of the rules and regulations prescribed by the order of May 8, 1951, in the said proceeding, as heretofore modified;

*It is ordered*, That subdivision (ii) of § 207.4 (a) (3) be, and the same is hereby canceled.

*It is further ordered*, That subdivision (i) of § 207.4 (a) (3) be amended to read as follows:

(i) That equipment specified in section 203 (b) (4a), (5) and (6) of the act (49 U. S. C. 303 (b) (4a), (5) and (6)), may be utilized by authorized carriers under contracts, leases or other arrangements applying for any period, upon completion of a movement in which such equipment is exempt from regulation by the Commission except as to qualifications and maximum hours of service of employees and safety of operations and standards of equipment, and is next being utilized by the authorized carrier in a loaded movement in any direction or in one of a series of loaded movements over reasonably direct routes in the direction of the general area in which the exempt movement originated, or in the direction of the area in which the equipment is based; provided the authorized carrier receives, prior to the execution of the lease, a statement signed by the owner of the equipment, or some one duly authorized to sign for the owner authorizing the driver to lease the equipment for the return movement or movements, and a statement signed by the driver specifying the origin, destination, and the time of the beginning and ending of the last exempt movement.

*And it is further ordered*, That this order shall be effective as of the date hereof.

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

## PROPOSED RULE MAKING

### FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Part 2 ]

[Docket No. 10200]

TABLE OF FREQUENCY ALLOCATIONS

ORDER SCHEDULING HEARING

In the matter of amendment of § 2.104 (a) (1) (iv) of Part 2 of the Commission's rules and regulations to delete certain uses by the domestic fixed service of frequencies below 25 Mc for purposes other than the safety of life and property; Docket No. 10200.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission having under consideration additional comments filed on February 16, 1953, in the above-entitled proceeding by the State of California, requesting the Commission to take no further action in this matter until the State of California can make a determination as to the feasibility of substituting microwave frequencies for those presently utilized by the Federal-State Market News Service, and a letter dated May 25, 1953 from the State of California stating that the Legislature of the State of California has adopted Senate Concurrent Resolution No. 16 which authorizes and directs a complete survey of the feasibility of utilization of a microwave system, a wire line system and other alternative forms of communication systems for state agencies and that the Division of Communications of the State Department of Finance will promptly undertake such a survey;

It appearing, that concurrently with the above additional comments, the State of California filed a petition requesting the amendment of rules and regulations governing the Public Safety Radio Service and the Industrial Radio Service, as well as requesting the amendment of Part 2, Frequency Allocations and Radio Treaty Matters; General Rules and Regulations; and

It further appearing, that this petition requires the further study by the Commission, of the effect such amendments may have upon the existing frequency allocations and present use of frequencies above 25 Mc; and

It further appearing, that the request of the State of California that the Commission withhold action in Docket 10200 would apparently require considerable delay in resolving the problems involved in this proceeding and which were fully set forth in the Commission's further notice of proposed rule making; and

It further appearing, that the Commission cannot find that such delay would be in the public interest; and

It further appearing, that the State of California has requested a hearing and oral argument with respect to the deletion of frequencies below 25 Mc, now utilized by stations of the Federal State Market News Service, provided the Commission cannot grant the relief requested in the petition and in Docket 10200 comments;

*It is ordered*, That on February 23, 1954, the Commission will hold a hearing on its notice of proposed rule making in Docket 10200 adopted May 21, 1952, and its further notice of proposed rule making adopted September 17, 1952. The issue to be considered at this hearing will be limited to whether § 2.104 (a) (1) (iv) of the Commission's rules should be amended so as to delete authority for certain uses by the Domestic Fixed Service of frequencies below 25 Mc. for purposes other than the safety of life and property; and

*It is further ordered*, That parties desiring to participate in the hearing should file a statement with the Commission on or before January 22, 1954, setting forth a list of their witnesses who will testify at the hearing together with the subjects with respect to which testimony will be adduced and evidence offered.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10119; Filed, Dec. 2, 1953; 8:54 a. m.]

[ 47 CFR Part 3 ]

[Docket No. 10782]

STANDARD BROADCAST STATIONS

FREQUENCY ALLOCATIONS; CLEAR CHANNELS; CLASS I AND II STATIONS

In the matter of amendment to § 3.25 (b) of the Commission rules and regulations (Radio Broadcasting Service) to permit the inclusion of the frequency of 1540 kilocycles as a Class I–B channel in the United States; Docket No. 10782.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend § 3.25 (b) of Subpart A, Part 3, of the Commission's rules, to read as follows:

(b) To each of the channels below there may be assigned Class I and Class II stations: 680, 710, 810, 850, 940, 1000, 1030, 1060, 1070, 1080, 1090, 1110, 1130, 1140, 1170, 1190, 1500, 1510, 1520, 1530, 1540[a], 1550, and 1560 kilocycles.

[a] Class I and II stations on this frequency shall protect a Class I assignment in the Bahama Islands in accordance with paragraph (e) of this section.

3. The purpose of this amendment is to provide for the establishment of a Class I–B station in the United States on 1540 kc. in Waterloo, Iowa as provided for by the terms of the 1950 NARBA.

4. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (a), (b), (c), (d), (f), (h), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before December 31, 1953 a written statement or brief setting forth his comments. Comments in support of the proposed amendment also may be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 25, 1953.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. R. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10121; Filed, Dec. 2, 1953; 8:55 a. m.]

[ 47 CFR Part 3 ]

[Docket No. 10783]

TELEVISION BROADCAST STATIONS

TABLE OF ASSIGNMENTS

1. Notice is hereby given that the Commission has received a proposal for rule making in the above-entitled matter.

2. The Commission has before it for consideration a petition filed on October 27, 1953, by the Tennessee Educational Television Commission, and now made part of this docket, requesting an amendment of § 3.606, *Table of assignments*, rules governing Television Broadcast Stations, so as to assign Channel 11 to Lexington, Tennessee, Channel 7—to Rock Island, Tennessee, and Channel 2—to Sneedville, Tennessee [1] and to reserve those assignments for noncommercial educational use. The following change with respect to the offset carrier requirement only would be required as a result of the assignment of Channel 11 to Lexington, Tennessee:

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Meridian, Miss. | 11 | −11 |

[1] The assignment of Channel 2 to Sneedville would conflict with the assignment of this channel to Montgomery, West Virginia, as proposed in a petition filed on October 16, 1953, by Fayette Associates, Inc., and Chemical City Broadcasting Company in that the separation between these communities is approximately 155 miles whereas the required separation is 170 miles.

3. In support of the requested amendment, petitioner urges that there are presently assigned 4 television channels in the State of Tennessee which are reserved for educational use; that these assignments would not provide for complete coverage of the state; that the addition of the three assignments as requested would provide almost complete coverage of the state; and that these assignments conform to all the requirements of the Commission's rules and may be made without any other changes in the table.

4. Authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

5. Any interested party who is of the opinion that the amendment proposed by petitioners should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before December 31, 1953, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: November 25, 1953.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10122; Filed, Dec. 2, 1953; 8:55 a. m.]

[ 47 CFR Part 18 ]

[Docket No. 10778]

INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICES

USE OF SHORT-WAVE EPILATION EQUIPMENT

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Short-wave epilation (hair removing) equipment has been classified by the Commission as miscellaneous equipment as defined in Part 18 of the Commission's rules regulating the use of Industrial, Scientific and Medical Equipment. The provisions of Part 18 dealing with miscellaneous equipment have been in effect since April 30, 1948, except that those provisions did not become applicable until April 30, 1953, to miscellaneous equipment manufactured and assembled prior to April 30, 1948.

3. The Commission has received a petition, filed jointly by Lionel Shuman and The Electrolysis Society of America, Inc., requesting that § 18.51 be amended to provide that Part 18 would not be applicable until December 31, 1957, to epilating equipment manufactured before December 31, 1953. This petition alleges that electrologists were not aware that their equipment was subject to the provisions of Part 18 and they therefore have been buying, until very recently, equipment that did not meet the standards prescribed by Part 18.

4. The Commission believes that the meaning of Part 18 of its rules has been clear since the date that the rules were originally adopted. Moreover, a number of epilation machines have been type approved by the Commission and made available to the public. However, the Commission is aware that there has been some confusing and misleading advertising in the Trade Press with respect to the applicability of Part 18 to epilation equipment, with the result that there has been widespread misunderstanding on the part of users of this type of equipment. Therefore, the Commission now proposes to amend § 18.51 of its rules so as to defer the applicability of Part 18 to short-wave epilation equipment until June 30, 1954, with respect to all short-wave epilation equipment manufactured before December 31, 1950, and until December 31, 1955, for such equipment manufactured between December 31, 1950, and June 30, 1953. By extending the applicability date until June 30, 1954, for machines made prior to December 31, 1950, the owners of such equipment will have been able to use it for a minimum of 3½ years, and it is believed that the June 30, 1954, date will provide a reasonable amount of time within which to replace such equipment. An additional 18 months is being given persons who purchased their equipment subsequent to December 31, 1950, to provide them with a reasonable amortization period. The June 30, 1953, date has been chosen because of the fact that on June 18, 1953, the Commission released its order denying the petition of Wappler, Inc., which sought to have epilation equipment classified as surgical diathermy apparatus which is exempt from the provisions of Part 18 of the rules, and if any doubts previously existed as to the status of epilation equipment under Part 18, they ceased to exist after that decision of the Commission was publicized. All persons are warned that the continued use of non-complying epilation equipment manufactured subsequent to June 30, 1953, without a license is contrary to law. Moreover, the relief which the Commission proposes to grant to the users of epilation equipment will be applicable only if such steps as may be necessary are promptly take to eliminate interference to authorized radio services resulting from the operation of epilation equipment.

5. The proposed amendment is issued under the authority of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted or should not be adopted in the form proposed may file with the Commission on or before December 31, 1953, a written statement or brief setting forth his comments. Persons desiring to support the amendments may also file comments by the same date. Replies to comments may be filed within 10 days from the last day for filing original comments. The Commission will consider all comments and briefs presented before taking final action with respect to the proposed amendments.

7. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of the statements or comments shall be furnished to the Commission.

Adopted: November 25, 1953.

Released: November 30, 1953.

## INTERSTATE COMMERCE COMMISSION

[ 49 CFR Part 207 ]

[Ex Parte No. MG-43]

LEASE AND INTERCHANGE OF VEHICLES

MOTOR CARRIERS; AUGMENTING EQUIPMENT

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 30th day of November A. D. 1953.

Upon consideration of the record in the above-entitled proceeding, and good cause appearing:

*It is ordered*, That this proceeding be, and it is hereby, reopened for further hearing at a time and place or places to be hereafter fixed, solely with respect to the following matters:

1. Those provisions of § 207.4 (a) (3) of the rules and regulations prescribed herein by order entered May 8, 1951, as heretofore modified, which require that any contract, lease or other arrangement for the use of equipment shall specify a period "which shall be not less than 30 days".

2. The following proviso of § 207.4 (a) (5) of said rules and regulations: "*Provided, however*, That such compensation shall not be computed on the basis of any division or percentage of any applicable rate or rates on any commodity or commodities transported in said vehicle or on a division or percentage of any revenue earned by said vehicle during the period for which the lease is effective."

Notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304)

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

# NOTICES

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

ALASKA

SHORESPACE RESTORATION ORDER NO. 506 AND SMALL TRACT CLASSIFICATION NO. 76

NOVEMBER 13, 1953.

1. By virtue of the authority contained in the act of June 5, 1920 (41 Stat. 1059; 48 U. S. C. 372), and pursuant to Delegation of Authority contained in sections 2.21 and 2.22 (a) (3) of Order No. 1, Bureau of Land Management, Region VII, approved by the Acting Secretary of the Interior on August 20, 1951 (16 F. R. 8625), it is ordered as follows:

Subject to valid existing rights, the 80-rod shorespace reserve which is now or may hereafter be created under the act of May 14, 1898 (30 Stat. 409; 48 U. S. C. 371), as amended, is hereby revoked as to the public lands hereinafter described, which are situated in the Anchorage, Alaska Land District and which are hereby classified as chiefly valuable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

KODIAK AREA

FOR LEASE AND SALE

1. For business sites:

U. S. Survey 3098:
Lots 1, 2, 3, 13, 14 and 15.

Comprising 6 tracts aggregating approximately 6.01 acres.

2. For home sites:
U. S. Survey 3098:
Lots 4–9, inclusive;
Lots 11 and 12;
Lots 16–22, inclusive;
Lots 26–29, inclusive.
U. S. Survey 3099:
Lots 1–28, inclusive.
U. S. Survey 3100:
Lots 1–12 inclusive;
Lots 14–20, inclusive.
U. S. Survey 3101:
Lots 1–24, inclusive.
U. S. Survey 3103:
All
U. S. Survey 3104:
All.

Comprising 122 tracts aggregating approximately 170.76 acres.

2. These lands have been reserved for various purposes for several years and were restored subject to Small Tract Classification on October 6, 1953. The tracts are grouped in six U. S. Surveys and are located approximately one to two miles northeast of the City of Kodiak. Of the 128 lots opened to lease and sale, 25 border Mill Bay Road and 71 lie along Mission Road Extension. None of the 32 lots on Melnitsa (Island) Lake are now accessible by road. The six lots nearest to Kodiak on Mill Bay Road have been classified as business sites while all of the remaining tracts in the six surveys are listed as home sites. The terrain varies widely from well-drained, exceptionally good building sites to low, swampy areas of little value. Most of the tracts have an added advantage of either a fine view of St. Paul Harbor or a lake-shore location. For the most part, their vegetative cover consists of a fine stand of Sitka spruce. The climate here is typical of Kodiak Island and much of the Aleutian Chain. It has cool summers, mild winters, and a very high annual precipitation. Sewage disposal on these tracts can be accomplished through the use of cesspools and septic tanks. Water for domestic use may be obtained from either hand-dug or drilled wells. Churches, schools, commercial establishments, and other community facilities are available in the City of Kodiak.

3. This classification order shall not otherwise become effective to change the status of any lands described herein or to permit the leasing of any such lands under the Small Tract Act of June 1, 1938, cited above, until 10:00 a. m. on December 10, 1953. At that time the lands described below shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location and selection as follows:

(a) *Ninety-one day period for preference right filings.* For a period of 91 days from 10:00 a. m. on December 10, 1953, to close of business on March 10, 1954 inclusive, preference will be given, as set forth above, to:

(1) Applications under the Small Tract Act of June 1, 1938, (52 Stat. 609; 43 U. S. C. 682a) as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and

(2) Applications under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Application by veterans and other qualified persons under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph.

(b) *Advance period for simultaneous preference right filings.* All applications filed by such veterans and other qualified persons, or by persons claiming preference rights superior to those of such veterans filed under the preceding paragraph (a) on November 19, 1953 or thereafter, up to and including 10:00 a. m. on December 10, 1953, shall be treated as simultaneously filed. All applications filed under the preceding paragraph (a) after 10:00 a. m. on December 10, 1953, shall be considered in the order of filing.

(c) *Date for non-preference right filings.* Commencing at 10:00 a. m. on March 11, 1954, any lands remaining unappropriated shall become subject to application under the Small Tract Act by the public generally.

(d) *Advance period for simultaneous non-preference right filings.* Applications under the Small Tract Act by the general public filed on February 16, 1954, or thereafter, up to and including 10:00 a. m. on March 11, 1954, shall be treated as simultaneously filed. All applications filed thereafter shall be considered in the order of filing.

4. A veteran shall accompany his application with a complete photostatic, or other copy, (both sides) of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or which constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claim. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

5. All applications for these lands, which shall be filed in the Land Office at Anchorage, Alaska, shall be made on Form 4–776 and shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

6. Lessees under the Small Tract Act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the appropriate officer of the Bureau of Land Management authorized to sign the lease, improvements which, under the circumstances, are substantial, and are appropriate for the use for which the lease is issued. Leases will be issued for a period of two years, at an annual rental of $5 for homesites, payable in advance for the entire lease period. Applications for extension for an additional period of one year shall be considered in appropriate cases. The rental for business sites will be in accordance with a schedule of graduated charges based on gross income, with a minimum charge of $20 payable yearly in advance, the remainder, if any, to be paid within 30 days after each yearly anniversary of the lease. Every lease for land classified for lease and sale will contain an option to purchase clause and every such lessee may file an application to purchase at the sale price as provided in the lease.

7. All of the land will be leased in tracts varying in size from approximately 0.17 acre to approximately 2.22 acres, in accordance with the classification maps on file in the Land Office, Anchorage, Alaska. These tracts are appraised at prices ranging from $50 to $500.

8. Lessees must locate any wells or sewage disposal facilities in accordance with the laws and regulations of the Territory of Alaska.

9. The leases will be made subject to rights-of-way for road purposes and public utilities, as specified in the Classification and Appraisal Report on file in the Land Office, Anchorage, Alaska. Such rights-of-way may be utilized by the Federal Government, State, Territory, County, or Municipality, or by any agency thereof. In the discretion of the authorized officer of the Bureau of Land Management, these rights-of-way may be definitely located prior to the issuance of the patent. If not so located, they may be subject to location after patent is issued.

FRED J. WELLER,
*Chief,*
*Division of Land Planning.*

## DEPARTMENT OF THE TREASURY

### Office of the Secretary

[Treasury Department Order 150-33]

COMMISSIONER OF INTERNAL REVENUE

DELEGATION OF AUTHORITY TO ABATE JEOPARDY ASSESSMENTS WHEN JEOPARDY DOES NOT EXIST

By virtue of the authority vested in me as Secretary of the Treasury, it is hereby ordered:

1. The Commissioner of Internal Revenue is authorized to perform the functions vested in the Secretary of the Treasury by Public Law 274 (83d Cong.), approved August 14, 1953, to abate jeopardy assessments if he finds that jeopardy does not exist.

2. The functions herein transferred may be delegated by the Commissioner to such officers or employees in the In-

ternal Revenue Service in such manner as he shall from time to time direct.

Dated: November 27, 1953.

[SEAL] M. B. FOLSOM,
*Acting Secretary of the Treasury.*

[Treasury Department Order 177-2]

FISCAL ASSISTANT SECRETARY

DESIGNEE OF SECRETARY OF THE TREASURY UNDER THE REFUGEE RELIEF ACT OF 1953

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, the Fiscal Assistant Secretary shall be my designee under the provisions of the regulations in Part 290 of Title 31, Code of Federal Regulations (31 CFR Part 290)[1], relating to the making of loans to public or private agencies of the United States for the purpose of financing the transportation from ports of entry within the United States to the places of their resettlement of persons receiving immigrant visas under the Refugee Relief Act of 1953, approved September 16, 1953.

Dated: December 1, 1953.

[SEAL] M. B. FOLSOM,
*Acting Secretary of the Treasury.*

## DEPARTMENT OF LABOR

### Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.168, as amended June 2, 1952, 17 F. R. 3818).

Bee & Gee Pants Co., 104-106 River Street, Olyphant, Pa., effective 12-15-53 to 12-14-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's & boys' trousers).

Bellgrade Manufacturing Co., Winder, Ga., effective 11-18-53 to 11-17-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (work trousers).

Belton Shirt Co., Belton, S. C., effective 12-1-53 to 11-30-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Benjamin & Johnes, Inc., 413 South Clinton Avenue, Dunn, N. C., effective 11-19-53 to 5-18-54; 20 learners for expansion purposes (foundation garments).

B. Bennett Co., Inc., 123 Magazine Street, New Orleans, La., effective 11-19-53 to 11-18-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (pants and shirts).

Blue Buckle Overall Co., Fourteenth and Kemper Streets, Lynchburg, Va., effective 12-4-53 to 12-3-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (work clothing).

Cowden Manufacturing Co., 112 Hamilton Avenue, Lancaster, Ky., effective 11-28-53 to 11-27-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (denim overalls and overall jackets).

Day's Tailor-D Clothing, Inc., Twenty-ninth and Pacific, Tacoma, Wash., effective 11-26-53 to 11-25-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's trousers).

Day's Tailor-D Clothing, Inc., Twenty-ninth and Pacific, Tacoma, Wash., effective 11-26-53 to 5-25-54; 50 learners for expansion purposes (men's trousers).

Delta Manufacturing Co., Wichita Falls, Tex., effective 11-23-53 to 11-22-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (work clothing).

Eagle Bros., Mahanoy City, Pa., effective 11-23-53 to 11-22-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (dress and sport shirts).

Fairmont Manufacturing Co., Inc., Mitchell Building, Fairmont, N. C., effective 11-19-53 to 5-18-54; 35 learners for expansion purposes (ladies' nightwear).

Grafton Manufacturing Co., Route 4, Riverside Drive, Grafton, W. Va., effective 11-20-53 to 4-8-54; 50 learners for expansion purposes (replacement certificate) (ladies' cotton shirts).

Hebson Garment Co., Inc., 25 East G Street, Anniston, Ala., effective 11-23-53 to 11-22-54; 5 learners for normal labor turnover purposes (pajamas and nightgowns).

Industrial Garment Manufacturing Co., Erwin, Tenn., effective 12-1-53 to 11-30-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts and work pants).

The H. D. Lee Co., Inc., 409 East Madison, South Bend, Ind., effective 11-28-53 to 11-27-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (work clothing).

R. Lowenbaum Manufacturing Co., 100 South Minnesota Street, Cape Girardeau, Mo., effective 12-5-53 to 12-4-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (junior dresses).

Oberman Manufacturing Co., Fayetteville, Ark., effective 11-30-53 to 11-29-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (pants and shirts).

Palm Beach Co., Roanoke, Ala., effective 11-19-53 to 11-18-54; 7 percent of the total number of factory production workers for normal labor turnover purposes. Machine operators (except cutting), pressers, hand sewers; each 480 hours at least 65 cents an hour for the first 240 hours and not less than 70 cents an hour for the remaining 240 hours (pants and washable suits).

Pittston Apparel Co., Inc., E and I Tompkins Streets, Pittston, Pa., effective 11-20-53 to 11-19-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (brassieres).

Reliance Manufacturing Co., Magnolia Factory, Laurel, Miss., effective 12-1-53 to 11-30-54; 10 percent of the total number of factory production workers for normal labor turnover purposes (sport shirts).

Richmond Shirt Co., Inc., 816 Bridge Street, Richmond, Vt., effective 11-23-53 to 11-22-54; 5 learners for normal labor turnover purposes (children's shirts and blouses).

Selinsgrove Dress Co., 113 North High Street, Selinsgrove, Pa., effective 11-20-53 to 11-19-54; 10 learners for normal labor turnover purposes (ladies' wash frocks).

Woods Manufacturing Co., 202 Garrison Avenue, Fort Smith, Ark., effective 11-23-53 to 11-22-54; 10 learners for normal labor turnover purposes (men's and boys' trousers).

York Manufacturing Co., York, Ala., effective 11-17-53 to 11-16-54; 10 learners for normal labor turnover purposes (children's play clothing).

Cigar Industry Learner Regulations (29 CFR 522.201 to 522.211, as amended October 27, 1952, 17 F. R. 8633).

The S. Frieder & Sons Co., Greensboro, Fla., effective 11-20-53 to 5-19-54; 25 learners for expansion purposes. Cigar machine operating, 320 hours, machine stripping, 160 hours, packing (cigars retailing for 6 cents or less), 160 hours; each 65 cents an hour.

General Cigar Co., Inc., 1201-11 Seventh Avenue, Huntington, W. Va., effective 11-20-53 to 11-19-54; 10 percent of the total number of factory production workers engaged in each occupation listed below. Cigar machine operator, 320 hours, packer (cigars retailing for more than 6 cents each), 320 hours, hand stripper, 160 hours, machine stripper, 160 hours; each 65 cents an hour.

Glove Industry Learner Regulations (29 CFR 522.220 to 522.231, as amended July 13, 1953, 18 F. R. 3292).

The Boss Manufacturing Co., Cleburne and Harrington Streets, Cisco, Tex., effective 10-24-53 to 10-23-54; 10 learners for normal labor turnover purposes (work gloves).

The Boss Manufacturing Co., 105 Elm Street, Chillicothe, Mo., effective 11-24-53 to 11-23-54; 10 percent of the total number of machine stitchers for normal labor turnover purposes (work gloves).

The Boss Manufacturing Co., 124 West Williams Street, Breckenridge, Tex., effective 11-19-53 to 11-18-54; 10 learners for normal labor turnover purposes (work gloves).

Wells Lamont Corp., 217 East Main Street, Beardstown, Ill., effective 11-24-53 to 11-23-54; 10 learners for normal labor turnover purposes (work gloves).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952, 16 F. R. 12866).

Abingdon Manufacturing Corp., Abingdon, Va., effective 11-20-53 to 11-19-54; 5 percent of the total number of factory production workers engaged in the manufacture of men's woven shorts for normal labor turnover purposes (men's woven shorts).

Norwich Knitting Co., Clayton, N. C., effective 11-24-53 to 11-23-54; 5 percent of the total number of factory production workers for normal labor turnover purposes (knitted underwear and outerwear).

[1] See Title 31, Chapter II, Part 290, *supra*.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Glenwyn Chenilles, Inc., Sweetwater, Tenn., effective 11-19-53 to 5-18-54; 10 percent of the total number of factory production workers for normal labor turnover purposes. Chenille machine operators, 320 hours at least 65 cents an hour for the first 160 hours and not less than 70 cents an hour for the remaining 160 hours (chenille bedspreads).

Glen I. Evans, Inc., 306 Paynter Avenue, Caldwell, Idaho, effective 11-19-53 to 5-18-54; 10 percent of the total number of factory production workers for normal labor turnover purposes. Fly tyers, 320 hours at least 65 cents an hour for the first 160 hours and not less than 70 cents an hour for the remaining 160 hours (fishing tackle).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER, pursuant to the provisions of Part 522.

Signed at Washington, D. C. this 23d day of November 1953.

MILTON BROOKE,
*Authorized Representative of the Administrator.*

## FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 8873, 10766]

RADIO DIABLO, INC., AND KXOB, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARINGS ON STATED ISSUES

In re applications of Radio Diablo, Inc., Stockton, California, Docket No. 8873, File No. BPCT-363; KXOB, Inc., Stockton, California, Docket No. 10766, File No. BPCT-1091; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 13 in Stockton, California; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing that upon due consideration of the above-entitled applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act of 1934, as amended, a hearing is mandatory; that Radio Diablo, Inc., is legally, financially and technically qualified to construct, own and operate a television broadcast station; and that KXOB, Inc., is legally and technically qualified to construct, own and operate a television broadcast station;

It further appearing that Radio Diablo, Inc., filed a letter on November 24, 1953, stating, inter alia: that the Commission, on September 21, 1953, sent pre-hearing letters to each of the above-entitled applicants, stating that any reply should be filed within thirty days from the date of that notice and that "In the absence of a reply from you concerning the above matters, your application will be subject to dismissal pursuant to the provisions of § 1.381 of the Commission's rules"; that on October 21, 1953, Radio Diablo, Inc., filed an amendment to its application; that on October 21, 1953, KXOB, Inc., filed a letter requesting that the Commission defer action on designating the competing Stockton applications for hearing for a period of two weeks to permit completion and filing of an amendment; that by letter of October 29, 1953, "the Commission advised Radio Diablo, Inc., that it was unable to resolve certain questions and requested further advice from the applicant within ten days thereof"; that on November 9, 1953, Radio Diablo, Inc., filed a response to the Commission's letter of October 29, 1953, providing information and statements concerning the matters raised therein; that on November 4, 1953, KXOB, Inc., filed an amendment to its application, the covering letter stating that "it may be necessary to tender still another amendment to the application in the near future"; that "on November 12, 1953, the Commission addressed another letter to KXOB, Inc., advising of financial deficiencies in the proposal of KXOB, Inc., and directed that 'your reply and any appropriate amendments to your application should be filed in triplicate on or before November 23, 1953'"; and that the application of KXOB, Inc., should be dismissed pursuant to the provisions of § 1.381 of the Commission's rules; and

It further appearing that, on November 23, 1953, KXOB, Inc., filed a letter stating that an amendment "will be submitted in the course of the next day or two"; that the replies filed by KXOB, Inc., on October 21, 1953, and November 23, 1953, were submitted within the times specified by the Commission in its letters of September 21, 1953, and November 12, 1953, respectively, and indicated an intention on the part of KXOB, Inc., to prosecute its application as did its amendment of November 4, 1953; that Radio Diablo, Inc., has not been prejudiced in any respect by the actions of which it complains; and that dismissal of the application of KXOB, Inc., is not warranted on the basis of the above facts;

It further appearing that, by letters of October 21, 1953, and October 23, 1953, respectively, KXOB, Inc., and Radio Diablo, Inc., requested, inter alia, that the order designating the above-entitled applications for hearing include an issue drawn in the light of the provisions of section 307 (b) of the Communications Act of 1934, as amended; and

It further appearing that, inasmuch as both of the above-entitled applications specify operation on the same channel assigned to the same city in the Commission's Table of Assignments, the inclusion of such an issue is not warranted.

*It is ordered*, That the request of Radio Diablo, Inc., to dismiss the application of KXOB, Inc., as set forth in its letter filed November 24, 1953, is denied.

*It is further ordered*, That the requests of KXOB, Inc., and Radio Diablo, Inc., in their letters of October 21, 1953, and October 23, 1953, respectively, to include an issue drawn under section 307 (b) of the Communications Act, are denied.

*It is further ordered*, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding to commence at 10:00 a. m. on the 24th day of December 1953, in Washington, D. C., upon the following issues:

1. To determine whether KXOB, Inc., is financially qualified to construct, own and operate its proposed television broadcast station.

2. To determine on a comparative basis which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

*It is further ordered*, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to Radio Diablo, Inc. will give reasonable assurance that the proposals set forth in its application will be effectuated.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket Nos. 10767-10770]

TELEPHONE ANSWERING SERVICE ET AL

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Mrs. Pearl Forester, d/b as Telephone Answering Service, Dallas, Texas, Docket No. 10767, File No. 180-C2-P-53; Radio Paging, Dallas, Texas, Docket No. 10768, File No. 363-C2-P-53; George A. Smith, Dallas, Texas, Docket No. 10769, File No. 607-C2-P-53; O. B. English, d/b as Radio Communications Company, Fort Worth, Texas, Docket No. 10770, File No. 927-C2-P-53; For construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission, having under consideration the above-entitled applications for one-way signaling authorizations in the Domestic Public Land Mobile Radio Service in Dallas and Fort Worth, Texas; and

It appearing that the number of applicants for facilities in this area exceeds the number of frequencies available; and

It further appearing that the above-entitled applications request authorizations in the same or overlapping service areas and that a grant of such applications might result in harmful mutual interference; and

It further appearing that, in accordance with § 6.409 of the Commission's rules, each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis; and

It further appearing that the Commission has advised each of the above-entitled applicants by letter dated July 21, 1953, pursuant to the provisions of section 309 (b) of the Communications Act, as amended, as to the reasons why his application cannot be granted without hearing, and no replies have been received thereto;

*It is ordered*, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on January 4, 1954 upon the following issues:

1. To determine the technical and other qualifications (except legal and financial) of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from each of the proposed facilities and the need for such service in the areas proposed to be served.

3. To determine whether any mutual interference would result from operation of the proposed stations, and, if so, whether, in view of the nature of the service proposed, such interference would be undesirable or intolerable.

4. To determine whether, and to what extent, co-channel operations are feasible between the communities involved in this proceeding.

5. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices, and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

6. To determine, in the light of the evidence adduced on the foregoing issues which applicants are best qualified to serve the public interest, convenience or necessity.

Released: November 30, 1953.

[Docket Nos. 10771, 10772]

RADIO PAGING AND JOHN R. SUTHERLAND

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Radio Paging, St. Louis, Missouri, Docket No. 10771, File No. 589-C2-P-53; John R. Sutherland, St. Louis, Missouri, Docket No. 10772, File No. 868-C2-P-53; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission, having under consideration the above-entitled applications for one-way signaling authorizations in the Domestic Public Land Mobile Radio Service in St. Louis, Missouri; and

It appearing, that the number of applicants for facilities in this area exceeds the number of frequencies available; and

It further appearing that the above-entitled applications request authorizations in the same or overlapping service areas and that a grant of such applications might result in harmful mutual interference; and

It further appearing that, in accordance with § 6.409 of the Commission's rules, each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis; and

It further appearing that the Commission has advised each of the above-entitled applicants by letter dated September 29, 1953, pursuant to the provisions of section 309 (b) of the Communications Act, as amended, as to the reasons why his application cannot be granted without hearing, and that no replies to such letters have been received;

*It is ordered*, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on February 1, 1954, upon the following issues:

1. To determine the technical and other qualifications (except legal and financial) of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from the proposed facilities and the need for such service in the areas proposed to be served.

3. To determine whether any mutual interference would result from operation of the proposed stations, and, if so, whether, in view of the nature of the service proposed, such interference would be undesirable or intolerable.

4. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

5. To determine, in the light of the evidence adduced on the foregoing issues, which applicant is better qualified to serve the public interest, convenience or necessity.

Released: November 30, 1953.

[Docket Nos. 10773-10775]

SEATTLE RADIO TELEPHONE SERVICE ET AL

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Lewis Maxwell Kelley and R. E. Rogers, d/b as Seattle Radio Telephone Service, Seattle, Washington, Docket No. 10773, File No. 351-C2-P-53; Phil Duryee, d/b as Radio Contact, Seattle, Washington, Docket No. 10774, File No. 379-C2-P-53; Radio Dispatch, Inc., d/b as Radiosignal Service, Seattle, Washington, Docket No. 10775, File No. 421-C2-P-53; for construction permits for one-way signaling stations in the Domestic Public Land Mobile Radio Service.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission, having under consideration the above-entitled applications for one-way signaling authorizations in the Domestic Public Land Mobile Radio Service in Seattle, Washington; and

It appearing that the number of applicants for facilities in this area exceeds the number of frequencies available; and

It further appearing that the above-entitled applications request authorizations in the same or overlapping service areas and that a grant of such applications might result in harmful mutual interference; and

It further appearing that, in accordance with § 6.409 of the Commission's rules, each frequency available for assignment in the Domestic Public Land Mobile Radio Service is normally assigned exclusively to a single applicant in any service area, in order to permit the rendition of service on an interference-free basis; and

It further appearing that the Commission has advised each of the above-entitled applicants by letter dated February 16, 1953, pursuant to the provisions of section 309 (b) of the Communications Act, as amended, as to the reasons why his application cannot be granted without hearing, and has carefully considered all responses thereto and is still of the opinion that a hearing is necessary;

*It is ordered*, That, pursuant to the provisions of section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at the offices of the Commission in Washington, D. C., commencing at 10:00 a. m. on January 18, 1954, upon the following issues:

1. To determine the technical and other qualifications (except legal and financial) of each of the above-entitled applicants to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to receive service from the proposed facilities and the need for such service in the area proposed to be served.

3. To determine whether any mutual interference would result from operation of the proposed stations, and, if so, whether in view of the nature of the service proposed, such interference would be undesirable or intolerable.

4. To determine the facts with respect to the proposed facilities, personnel, rates, regulations, practices and services of each applicant for the furnishing of Domestic Public Land Mobile Radio Service.

5. To determine, in the light of the evidence adduced on the foregoing issues, which applicants are best qualified to serve the public interest, convenience or necessity.

Released: November 30, 1953.

[Docket No. 10786]

COLUMBIA BROADCASTING SYSTEM, INC.

ORDER TO SHOW CAUSE

1. The Commission has today (November 25, 1953) adopted rules revising the multiple ownership limitations (Docket 8967). As so revised, § 3.35 (a) (2) prohibits the holding of interests in more than seven standard broadcast stations. Since Columbia Broadcasting System, Inc. now owns six such stations and has minority interests in three others, its holdings contravene the cited rule.

2. In this connection, the following excerpt from the Report and Order is in point:

• • • only a very few parties have holdings in excess of seven. As to these latter few, orders to show cause why they should not divest themselves of so much of their holdings as is necessary to bring about conformity with the subject rule, will be issued. Decision as to whether or not divestment will be required will be made on the basis of the arguments adduced and the factors involved in each case.

3. In view of the foregoing: *It is ordered*, Pursuant to sections 303 (f) and 316 of the Communications Act of 1934, as amended, that Columbia Broadcasting System, Inc. show cause, by written reply submitted by December 31, 1953, why it should not, within a period of 3 years from the release date of this order, make such divestment of its present holdings as to bring them into conformity with the seven station limitation specified by § 3.35 (a) (2).

Adopted: November 25, 1953.

Released: November 27, 1953.

By direction of the Commission.

[Docket No. 10787]

J. ELROY McCAW

ORDER TO SHOW CAUSE

In the matter of standard broadcast holdings of J. Elroy McCaw; Docket No. 10787.

1. The Commission has today (November 25, 1953) adopted rules revising the multiple ownership limitations (Docket 8967). As so revised, § 3.35 (a) (2) prohibits the holding of interests in more than seven standard broadcast stations. Since you now have interests in eight such stations, your holdings contravene the cited rule.

2. In this connection, the following excerpt from the Report and Order is in point:

• • • only a very few parties have holdings in excess of seven. As to these latter few, orders to show cause why they should not divest themselves of so much of their holdings as is necessary to bring about conformity with the subject rule, will be issued. Decision as to whether or not divestment will be required will be made on the basis of the arguments adduced and the factors involved in each case.

3. In view of the foregoing: *It is ordered*, Pursuant to sections 303 (f) and 316 of the Communications Act of 1934, as amended, that you show cause, by written reply submitted by December 31, 1953, why you should not, within a period of 3 years from the release date of this order, make such divestment of your present holdings as to bring them into conformity with the seven station limitation specified by § 3.35 (a) (2).

Adopted: November 25, 1953.

Released: November 27, 1953.

By direction of the Commission.

[SEAL] WM. P. MASSING,
*Acting Secretary.*

## SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3237]

ADOLF GOBEL, INC.

ORDER SUMMARILY SUSPENDING TRADING

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 27th day of November A. D. 1953.

The Commission by order adopted March 13, 1953, pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, having summarily suspended trading in the $1.00 par value common stock of Adolf Gobel, Inc., on the American Stock Exchange for a period of ten days from that date, and subsequently having entered additional orders further suspending such trading in order to prevent fraudulent, deceptive or manipulative acts or practices; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on that Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X-15C2-2 thereunder, for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

*It is ordered*, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, effective at the opening of the trading session on said Exchange on November 30, 1953, for a period of ten days.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 70-3150]

CENTRAL AND SOUTH WEST CORP.

NOTICE OF FILING REGARDING ISSUANCE OF NOTES

NOVEMBER 27, 1953.

Notice is hereby given that a declaration has been filed with this Commission by Central and South West Corporation ("Central"), a registered holding company, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and that declarant has designated sections 6 (a) and 7 thereof as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than December 14, 1953 at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, said declaration as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Pursuant to two loan agreements, the one between Central and The First National Bank of Chicago, Bankers Trust Company, The Chase National Bank of the City of New York, Harris Trust and Savings Bank, and Equitable Security Trust Company, and the other between Central and John Hancock Mutual Life Insurance Company, Central proposes to borrow up to an aggregate amount not exceeding $12,750,000, of which not exceeding $10,000,000 will be borrowed from said banks from time to time, from December 31, 1953, to December 31, 1954, and of which $2,750,000 will be borrowed from said insurance company on December 31, 1953. Each loan will be evidenced by a promissory note or notes of Central maturing December 31, 1955, and bearing interest from the date thereof until maturity at the rate of 3½ percent per annum, payable semiannually June 30 and December 31 of each year, and after maturity at the rate of 6 percent per annum. Under the loan agreements between Central and said banks and said insurance company, each of the notes (but in the case of notes payable to said banks, only those notes outstanding on December 1, 1955) may be renewed by a new note or notes dated December 31, 1955, maturing December 31, 1957, and bearing interest until maturity at an annual rate equal to ½ of 1 percent above the prime rate then in effect at The First National Bank of Chicago, but not less than 3½ percent or more than 3¾ percent per annum, and after maturity at the rate of 6 percent per annum.

Under the loan agreement with said banks, Central may prepay at any time, or from time to time, any of such notes, in whole or in part, without premium, unless prepayment is made from the proceeds of any bank borrowings (other than from said banks), in which event Central shall pay a premium of ½ of 1 percent of the amount of any prepayment made on or prior to December 31, 1956, and of ¼ of 1 percent of any prepayment made thereafter. Said agreement further provides for the payment of a commitment fee computed from December 31, 1953, to December 31, 1954, at the rate of ½ of 1 percent per annum on the daily average unused amount of the commitment of each said bank, Central having the right to terminate on five days written notice the unused amount of the commitment of said banks. Under the loan agreement with the insurance company, Central may prepay, without premium, at any time, or from time to time, the insurance company note, in whole or in part, except where such prepayment is made directly or indirectly from the proceeds of any loan from any bank or insurance company (other than said insurance company), in which event the company shall pay at the same time a premium equal to ½ of 1 percent of the amount of the prepayment made on or prior to December 31, 1956, and equal to ¼ of 1 percent of the amount of the prepayment if made thereafter. Any such "loan" shall not include the purchase of debentures and other securities of Central payable five years or more from the date thereof, or serially during said period. Both loan agreements provide that if a prepayment is made, 78 percent of such prepayment shall be made under the agreement with said banks, and 22 percent under the agreement with said insurance company.

The entire proceeds of the bank loans will be invested by Central in common stock of one or more of its subsidiaries and will be used by such subsidiaries to finance, in part, their immediate construction programs. The note to the insurance company will be delivered in full payment and discharge of the 3 percent notes of Central now outstanding in the aggregate principal amount of $2,750,000 payable to said insurance company which mature January 1, 1954, to July 1, 1959. The declaration states that it is contemplated that the proposed notes will be paid at or before their maturity, or their extended maturity, through the issuance and sale by Central of such securities as may be appropriate and approved by the Commission. By amendment to the declaration, Central agrees that such securities will meet the requirements of section 7 (c) (1) of the act or that it will demonstrate that such securities are for necessary and urgent corporate purposes and that the requirements of section 7 (c) (1) would impose an unreasonable financial burden upon Central and are not necessary or appropriate in the public interest or for the protection of investors or consumers.

Central requests authority to renew on December 31, 1955, the notes to be issued under the bank loan agreement and the note to be issued under the insurance company agreement by the issuance of the renewal notes described above. The declaration as amended states that should the Commission prefer to withhold action at this time with respect to the renewal notes, Central requests the Commission to retain jurisdiction with respect thereto.

The declaration states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Fees and expenses are estimated at $4,500, including legal fees not to exceed $1,500 to be paid to counsel for the insurance company.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3153]

COLUMBIA GAS SYSTEM, INC., AND CUMBERLAND AND ALLEGHENY GAS CO.

NOTICE REGARDING ISSUANCE AND SALE OF INSTALLMENT NOTES BY SUBSIDIARY TO HOLDING COMPANY

NOVEMBER 27, 1953.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its wholly owned subsidiary Cumberland and Allegheny Gas Company ("Cumberland") have filed a joint application with the Commission pursuant to sections 6 (b), 9 and 10 of the Public Utility Holding Company Act of 1935 ("the act"). All interested persons are referred to said application for a more detailed statement of the transactions therein proposed, which are summarized as follows:

Cumberland, a West Virginia corporation, is a gas utility company operating in the States of West Virginia and Maryland. In order to provide additional cash required to complete its 1953 construction program, Cumberland proposes to issue and sell at par from time to time, but not later than March 31, 1954, and Columbia proposes to buy, $1,450,000 principal amount of Cumberland's -- percent Installment Promissory Notes. Said Notes will become due in equal annual installments on February 15 of each of the years 1955 to 1979 inclusive. Interest on the unpaid principal will be payable semi-annually on February 15 and August 15 at the rate of 4 percent per annum or such lower rate, being a multiple of ⅛th of 1 percent, as shall be not less than the cost of money to Columbia in its next sale of Debentures. Any Notes issued prior to the sale of Debentures by Columbia will bear interest at 4 percent per annum, subject to change as set forth above.

Cumberland has applied to the Public Service Commission of West Virginia for approval of the proposed issue of notes and the filing indicates that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

The expenses of applicants in connection with the proposed transactions are estimated at $1,895 for Cumberland and $150 for Columbia.

It is requested that the Commission's order be expedited and made effective upon issuance.

Notice is further given that any interested person may, not later than December 14, 1953, at 5:30 p. m., e. s. t., request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3154]

CENTRAL AND SOUTH WEST CORP. ET AL.

NOTICE OF FILING REGARDING ISSUANCE AND SALE OF COMMON STOCK BY SUBSIDIARIES AND ACQUISITION THEREOF BY PARENT

NOVEMBER 27, 1953.

In the matter of Central and South West Corporation, Central Power and Light Company, Public Service Company of Oklahoma, Southwestern Gas and Electric Company; File No. 70-3154.

Notice is hereby given that Central and South West Corporation ("Central") and its public-utility subsidiaries, Central Power and Light Company ("Power and Light"), Public Service Company of Oklahoma ("Public Service"), and Southwestern Gas and Electric Company ("Southwestern"), all of whose common stocks are owned by Central, have filed a joint application-declaration pursuant to section 6 (a), 7, 9, 10 and 12 (f) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-43 of the rules and regulations promulgated thereunder with this Commission with respect to proposed transactions which are summarized as follows:

A. Power and Light proposes:

(1) By amendment to its Articles of Incorporation to increase the number of authorized shares of its common stock ($10 par value) from 2,397,300 shares to 2,697,300 shares.

(2) On or about January 4, 1954, to issue, sell and deliver 300,000 shares of its common stock ($10 par value) to Central for the sum of $3,000,000, payable in cash upon delivery of the shares.

B. Public Service proposes:

(1) On or before December 31, 1953, to issue and deliver 300,000 additional shares of its common stock ($10 par value) to Central and to transfer on its books from "Earned Surplus" to "Stated Capital" in respect of its common stock, the sum of $10 for each of said additional shares, or a total of $3,000,000.

(2) On or before December 31, 1953, to issue, sell and deliver 300,000 shares of its common stock ($10 par value) to Central for the sum of $3,000,000, payable in cash upon delivery of the shares.

C. Southwestern proposes:

(1) On or before December 31, 1953, to issue, sell and deliver 100,000 shares of its common stock ($10 par value) to Central for the sum of $1,000,000, payable in cash upon delivery of the shares.

D. Central proposes:

(1) To purchase and pay for in cash, at par, the 300,000 shares of common stock of Power and Light on the terms stated in paragraph A (2).

(2) To acquire the 300,000 shares of common stock of Public Service to be issued as stated in paragraph B (1).

(3) To purchase and pay for in cash, at par, the 300,000 shares of common stock of Public Service on the terms stated in paragraph B (2) above.

(4) To purchase and pay for in cash, at par, the 100,000 shares of common stock of Southwestern on the terms stated in paragraph C (1) above.

The joint application-declaration recites that the proposed issue and sale of the additional common shares by Power and Light, Public Service and Southwestern to Central is necessary to finance, in part, the construction programs of the respective companies. The purchase of the shares by Central will be made out of funds received from the sale of 606,034 shares of its common stock as authorized by this Commission (File No. 70-3094).

The declaration states that no Federal or State commission, other than this Commission and the Corporation Commission of the State of Oklahoma, has jurisdiction over any of the proposed transactions.

Fees and expenses are estimated at $28,000.

Notice is further given that any interested person may, not later than December 14, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said filing which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 14, 1953, such joint application-declaration as filed or as amended, may be granted, or permitted to become effective, as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29637]

PAPER FROM YULEE, FLA., TO WESTERN TRUNK LINE TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 27, 1953

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Paper and paper articles, carloads.

From: Yulee, Fla.

To: Points in western trunk-line territory.

Grounds for relief: Rail competition, circuity, market competition, to maintain grouping, and additional origin.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1378, supp. 1.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29638]

CASTOR POMACE FROM CAMERON, TEX., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 27, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Castor pomace, carloads.

From: Cameron, Tex.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, circuity, and market competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3746, supp. 130.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28689]

PETROLEUM PRODUCTS FROM SUPERIOR, WIS., TO MINNESOTA

APPLICATION FOR RELIEF

NOVEMBER 27, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the aggregate-of-intermediates provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Duluth, Missabe and Iron Range Railway Company, the Duluth, Winnipeg & Pacific Railway Company, and Great Northern Railway Company for carriers parties to schedules listed below.

Commodities involved: Refined petroleum products, in tank-car loads.

From: Superior, Wis.

To: Points in Minnesota.

Grounds for relief: Competition with rail carriers and competition with motor carriers.

Schedules filed containing proposed rates: D. M. & I. R. Railway tariff I. C. C. No. A-110, D. W. & P. Railway tariff I. C. C. No. 286, supp. 134, G. N. Railway tariff I. C. C. No. A-8163, supp. 76.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28690]

FISH FROM MENOMINEE, MICH., TO POINTS IN MARYLAND, PENNSYLVANIA, VIRGINIA, AND WEST VIRGINIA

APPLICATION FOR RELIEF

NOVEMBER 30, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Alternate Agent, for carriers parties to his tariff I. C. C. No. 4542, pursuant to fourth-section order No. 17220.

Commodities involved: Fish, pickled, in barrels, boxes, kits, pails or tubs, carloads.

From: Menominee, Mich.

To: Points in Maryland, Pennsylvania, Virginia, and West Virginia.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

## TITLE 3—THE PRESIDENT

### PROCLAMATION 3039

UNITED NATIONS HUMAN RIGHTS DAY, 1953

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the Universal Declaration of Human Rights was adopted by the General Assembly of the United Nations on December 10, 1948, as a common standard of achievement, and the anniversary of its adoption is now celebrated throughout the world as a time to increase understanding of this great document; and

WHEREAS the Universal Declaration of Human Rights proclaims that recognition of the inherent dignity and the equal and inalienable rights of all members of the human family is the foundation of freedom, justice, and peace in the world, and declares that the basis of the authority of government shall be the will of the people; and

WHEREAS these essential principles of liberty and free government are affirmed likewise in our Declaration of Independence, the Constitution of the United States, and the Constitutions and basic laws of our States and territories:

NOW, THEREFORE, I, DWIGHT D EISENHOWER, President of the United States of America, do hereby call upon the people of the United States to observe December 10, 1953, as United Nations Human Rights Day. The guardian of our heritage of individual liberty is the sacred obligation of every citizen of our Republic. Let us study the Universal Declaration of Human Rights and the Bills of Rights in our own Constitutions and basic laws, that they may arouse our consciences to the need to defend our liberties and to extend the frontiers of freedom, thus hastening the day when all people, of whatever nation, race, or creed, will be secure in the enjoyment of their human rights and fundamental freedoms.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 30th day of November in the year of our Lord nineteen hundred and fifty-three, and of the Independence of the United States of America the one hundred and seventy-eighth.

[SEAL] DWIGHT D EISENHOWER

By the President:

JOHN FOSTER DULLES, *Secretary of State.*

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

[1954 C. C. C. Wheat Bulletin A, Revised]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1954 WHEAT PRICE SUPPORT PROGRAM

Certain changes in these regulations are appropriate at this time for the efficient operation of the program. Rather than issuing the several amendments necessary we are, for purposes of clarity, making the changes necessary by issuing this 1954 C. C. C. Wheat Bulletin A, Revised, which reads as follows:

Sec.
601.426 Administration.
601.427 Applicability of §§ 601.426 through 601.428.
601.428 Definitions.

AUTHORITY: §§ 601.426 to 601.428 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 401, 408, 63 Stat. 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup. 1421, 1428.

§ 601.426 *Administration.* The program will be carried out under the general supervision and direction of the President, Commodity Credit Corporation, by Production and Marketing Administration (hereinafter referred to as PMA) through State and county PMA committees.

§ 601.427 *Applicability of §§ 601.426 through 601.428.* Sections 601.426 through 601.428 shall govern the eligi-

bility of producers and wheat under the 1954 Wheat Price Support Operations insofar as compliance with 1954 acreage allotments on wheat is concerned.

§ 601.428 *Definitions.* As used in this subpart and in all instructions, forms and documents in connection therewith, the words and phrases defined in this section shall have the meanings herein assigned to them unless the context or subject matter otherwise requires.

(a) *Farm.* "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Assistant Administrator for Production, PMA, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops, and with workstock, farm machinery, and labor substantially separate from that for any other land; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county in which the principal dwelling is situated or, if there is no dwelling thereon, it shall be regarded as located in the county in which the major portion of the farm is located.

(b) *Farm acreage allotment.* Means that wheat acreage allotment established for the farm under Title 7, Part 728—Wheat, Subpart—Regulations Pertaining to Farm Acreage Allotment for 1954 Crop, as published in the FEDERAL REGISTER under date of June 3, 1953.

(c) *Wheat acreage.* (1) Wheat acreage means (i) the acreage seeded to wheat, excluding (*a*) any acreage seeded to a wheat mixture in wheat mixture counties approved by the Director, Grain Branch, PMA, and, (*b*) any acreage seeded in counties approved by the Director, Grain Branch, PMA, including drought counties approved by the President of the United States of America, for use as green manure, cover crop and hay, and which does not reach maturity and (ii) the acreage of volunteer (self-seeded) wheat which reaches maturity.

(2) Acreage seeded to wheat will not be considered as an acreage of wheat for the farm to the extent that (i) it has been totally destroyed by any cause beyond the control of the producer and cannot be reseeded and (ii) an additional acreage of wheat subsequently seeded with prior approval of the county committee, or an acreage of volunteer wheat, with approval of the county committee, or both, is substituted for the destroyed acreage.

(d) *Eligible producer.* (1) An eligible producer shall be any individual, partnership, association, corporation or other legal entity producing wheat in 1954 on a farm on which the 1954 wheat acreage is not in excess of the 1954 wheat acreage allotment established for such farm: *Provided, however,* That no such producer shall be eligible for price support on eligible wheat until he is entitled to receive a wheat marketing card or a wheat marketing certificate for each farm on which he has an interest in the 1954 wheat crop, located in the same county as the farm on which the eligible wheat was produced.

(2) A producer shall not be deemed to be in excess of the acreage allotment for the farm unless the producer operating such farm knowingly exceeded the acreage allotment. If the acreage allotment is in fact exceeded, such allotment shall be considered as having been knowingly exceeded unless it is determined by the county committee on the basis of evidence submitted by such producer that the acreage allotment was unknowingly exceeded: *Provided, however,* That if the allotment is in fact exceeded by more than two percent or two acres, whichever is larger, the county committee shall submit its findings and recommendations to the State committee which shall make the determination as to whether the allotment was unknowingly exceeded. If the producer made no direct effort by measuring or otherwise to comply with the allotment, he shall be determined to have knowingly exceeded the allotment. If the producer is determined to have unknowingly exceeded the allotment, the acreage shall be deemed to be within the acreage allotment for the purpose of price support only. Any producer who is dissatisfied with any determination of the county committee respecting his compliance or eligibility may, within 15 days after the notification to him of such determination by the county committee, appeal to the State committee in writing. Such appeal shall contain all the facts constituting the basis of his claim that the county committee determination is improper.

(e) *Eligible wheat.* No wheat other than wheat which is produced by an eligible producer in 1954 on a farm on which the wheat acreage is within the farm acreage allotment shall be eligible for price support.

Done at Washington, D. C., this 1st day of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10180; Filed, Dec. 3, 1953; 8:55 a. m.]

# TITLE 14—CIVIL AVIATION

## Chapter I—Civil Aeronautics Board

### Subchapter A—Civil Air Regulations

[Supp. 18]

### PART 60—AIR TRAFFIC RULES

### CERTIFICATE OF WAIVER

The purpose of this supplement is to publish current policies under which the Administrator of Civil Aeronautics will authorize persons conducting special flight operations to deviate from Air Traffic Rules.

Section 60.1-1, published on September 27, 1951, in 16 F. R. 9802, is revoked, and new §§ 60.1-1 through 60.1-4 are added to read:

§ 60.1-1 *Sections of this part which may be waived (CAA policies which apply to § 60.1 (b)).* (a) A Certificate of Waiver or Authorization, Form ACA-663, will be issued to authorize noncompliance with any section of this part for a special flight operation when the operation can be conducted under the terms and conditions of a certificate which will provide a reasonable degree of safety to other air traffic and to persons and property on the ground. Deviations from the following section of this part for special flight operations are considered routine and generally will be approved by the local Aviation Safety Agent:

(1) Section 60.16, Acrobatic flight.

(2) Section 60.17, Minimum safe altitudes.

(3) Section 60.18, Operation on and in the vicinity of an airport.

(4) Section 60.23, Aircraft lights.

(b) Deviation from other sections of this part may require approval by authority higher than the local Aviation Safety Agent, and the application for such deviation should be submitted sufficiently in advance of the contemplated operation to allow time for the additional approval procedure to be completed. Normally, ten days is sufficient time to complete the approval procedure for such deviations.

§ 60.1-2 *Terms and conditions of a certificate of waiver (CAA policies which apply to § 60.1 (b)).* A Certificate of Waiver or Authorization, Form ACA-663, which authorizes noncompliance with one or more sections of this part for a special flight operation will be subject to the following terms and conditions:

(a) *Authorization.* The certificate will authorize noncompliance with only those sections of the Air Traffic Rules listed on the certificate. It will not relieve the holder from compliance with any state or local law or ordinance which may apply to the operation.

(b) *Duration.* The certificate will contain an expiration date to allow ample time for completion of the operation, not to exceed one year. It may be surrendered by the holder or cancelled by the Administrator at any time.

(c) *Special provisions.* (1) The certificate will contain such special provisions as the approving agent may deem necessary in the interest of safety and appropriate to the operation to be performed. Examples of special provisions which may be placed in the certificate are:

(i) A thorough inspection of the aircraft, engine, and special equipment shall be made prior to each day's operation.

(ii) A planned course of action shall be followed with emphasis on selection of available emergency landing areas.

(iii) A capable and experienced pilot holding at least a commercial rating shall be used as pilot.

(iv) Appropriate officials of the community involved shall be notified prior to the beginning of the operations.

(v) Air traffic control for the area involved shall be notified prior to the beginning of the operations.

(2) In addition, specific installations or precautions will be required where they are deemed necessary to insure safety during the use of special equipment, or necessary for the particular areas or types of operation involved.

§ 60.1-3 *Certificate of waiver for air shows, meets, races, etc. (CAA policies which apply to § 60.1 (b)).* The following policies, in addition to those contained in § 60.1-2, apply to a Certificate of Waiver or Authorization for an air show, air meet, air race, or other aeronautical demonstration for which noncompliance with any provision of this part is necessary.

(a) *Authorization.* Authorization will be issued only when the air show, meet, race, or other aeronautical demonstration will contribute directly to the advancement of, and public confidence in, aviation. The certificate will be issued only to an applicant who is directly in charge of the flight operation and responsible for compliance with the conditions of the waiver.

(b) *Acts for which authorization will not be granted.* Approval will not be given for the following acts:

(1) Intentional aircraft crashes.

(2) Dog fighting.

(3) "Crazy" flying.

(4) Acrobatics not under direct control (communications) provided by the applicant.

(5) Acrobatics or inverted flight below an altitude of 100 feet.

(6) Flight closer than 500 feet horizontally to the spectators.

(c) *Special provisions.* The certificate may contain any of the following provisions:

(1) All acts shall be approved in writing by the local agent before they may be performed.

(2) Participants in a specific act shall, if required by the local agent, demonstrate competency to perform the act prior to approval.

(3) First aid and fire fighting equipment shall be immediately available at the location of the demonstration.

(4) Provisions shall be made for control of spectators.

(5) The applicant shall establish a central operations point from which activities will be directed, and he or his representatives shall be immediately available at this point during activities.

(6) The applicant shall provide means to advise all participants that an activity has been halted.

(7) An activity shall be halted when unauthorized persons enter the operations area, or for any other reason in the interest of safety.

(8) No aircraft shall be flown closer than (specified distance) horizontally to spectators.

(9) Acrobatics or inverted flight shall not be demonstrated lower than (specified altitude).

(10) No object shall be dropped from an aircraft if the object will land within (specified distance) from spectators.

(11) A closed field signal, readily seen from an altitude of 3,000 feet, (large white "X") shall be displayed on the landing area when the activities are in progress.

(12) A physical barrier shall be provided to confine spectators to designated areas.

(13) A deadline readily visible to the participants, shall be provided to insure that aircraft will maintain the approved horizontal distance from the spectators.

(14) The holder shall notify the nearest CAA Airways Communication Station of the date, time, place, nature, and duration of the operations and request that an appropriate Notice to Airmen be disseminated.

(15) The course and pylons for races shall be located and spaced to provide protection to persons and property on the ground.

(16) The holder shall, prior to beginning activities, submit to the approving agent a written statement, signed by all participants that they have read and understand the conditions of the certificate of waiver.

(17) All participants shall be briefed on special field rules, and the manner and order of events before beginning activities.

(18) Clearance for all participating pilots and aircraft shall be obtained from the approving agent before beginning activities.

(19) All aircraft and special equipment shall be inspected prior to each day's operation.

(20) Any other special provisions which the approving agent may deem necessary in the interest of safety.

§ 60.1-4 *Application for waiver (CAA policies which apply to § 60.1 (b)).* An applicant for a Certificate of Waiver or Authorization for any special flight operation should comply with the following procedure:

(a) Obtain two copies of an Application for Certificate of Waiver, Form ACA-400, from the local Aviation Safety District Office.

(b) Fill out both copies of the application as follows:

(1) Type or print in ink.

(2) Give complete information on items 1 through 7 (items 1 through 13 for air shows).

(3) List, under item 3, all sections of this part for which a waiver is required.

(4) Sign both copies of the completed application on the reverse side in the space provided for the applicant's signature.

(c) Submit both copies of the application to the local Aviation Safety Agent.

(d) Arrange with the local Aviation Safety Agent for inspection of aircraft, aircraft records, personnel, etc., as appropriate for the operation involved.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This supplement shall become effective December 15, 1953.

[SEAL] F. B. LEE,
*Administrator of Civil Aeronautics.*

[F. R. Doc. 53-10134; Filed, Dec. 3, 1953; 8:45 a. m.]

## Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 22]

### PART 600—DESIGNATION OF CIVIL AIRWAYS

### ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.14 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended between the "Columbus, Ohio, radio range station" and the "Altoona, Pa., radio range station" to read: "Columbus, Ohio, radio range station; Wheeling, W. Va., nondirectional radio beacon; Pittsburgh, Pa., radio range station; New Alexandria, Pa., nondirectional radio beacon; Altoona, Pa., radio range station;".

2. Section 600.109 is amended to read:

§ 600.109 *Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.).* From the Charleston, S. C., radio range station via the Myrtle Beach, S. C., nondirectional radio beacon; Wilmington, N. C., VHF VAR radio range station; New Bern, N. C., VHF VAR radio range; Williamston, N. C., VHF VAR radio range station (excluding the portions between 11,000 feet and 16,000 feet and between 21,000 feet and 45,000 feet above mean sea level, during the hours of darkness, which lie within the Cherry Point, N. C., night danger area D-125); the intersection of the northeast course of the Williamston, N. C., VHF VAR radio range and the southwest course of the Norfolk, Va., radio range to the Norfolk, Va., radio range station.

3. Section 600.211 *Red civil airway No. 11 (Enid, Okla., to Boston, Mass.)* is amended by deleting the portion which reads: "Louisville, Ky., radio range station; the intersection of the east course of the Louisville, Ky., radio range and the southwest course of the Huntington, W. Va., radio range to the Huntington, W. Va., radio range station," and by adding the following portion in lieu thereof: "Louisville, Ky., radio range station to the intersection of the east course of the Louisville, Ky., radio range and a line bearing 358° True from the Lexington, Ky., nondirectional radio beacon,"

4. Section 600.213 *Red civil airway No. 13 (Wheeling, W. Va., to Boston, Mass.)* is amended by changing the name of the facility at Wheeling, W. Va., from "outer marker compass locator" to "nondirectional radio beacon."

5. Section 600.218 is amended to read:

§ 600.218 *Red civil airway No. 18 (Indianapolis, Ind., to Washington, D. C.).* From the intersection of the northwest

course of the Indianapolis, Ind., radio range and the northwest course of the Cincinnati, Ohio, radio range via the Cincinnati, Ohio, radio range station; Huntington, W. Va., nondirectional radio beacon; Charleston, W. Va., radio range station; Elkins, W. Va., radio range station; Front Royal, Va., radio range station to the intersection of the east course of the Front Royal, Va., radio range and the northwest course of the Washington, D. C., radio range.

6. Section 600.219 *Red civil airway No. 19 (Detroit, Mich., to Norfolk, Va.)* is amended between the "Detroit, Mich., radio range station" and "the intersection of the southeast course of the Morgantown, W. Va., radio range and the west course of the Front Royal, Va., radio range," to read: "From the Detroit, Mich., radio range station via the intersection of the southeast course of the Detroit, Mich., radio range and the west course of the Akron, Ohio, radio range; Akron, Ohio, radio range station; Morgantown, W. Va., radio range station to the intersection of the southeast course of the Morgantown, W. Va., radio range and the west course of the Front Royal, Va., radio range".

7. Section 600.220 *Red civil airway No. 20 (Lansing, Mich., to Washington, D. C.)* is amended between "Akron, Ohio, radio range station;" and "Pittsburgh, Pa., radio range station;" by adding the following portion to read: "the intersection of the southeast course of the Akron, Pa., radio range and the northwest course of the Pittsburgh, Pa., radio range;".

8. Section 600.221 is amended by changing the caption to read: "*Red civil airway No. 21 (Selinsgrove, Pa., to Boston, Mass.)*", by deleting the first portion which reads: "From the intersection of the northeast course of the Pittsburgh, Pa., radio range and the west course of the Altoona, Pa., radio range via the intersection of the northeast course of the Pittsburgh, Pa., radio range and the north course of the Altoona, Pa., radio range; the Selinsgrove, Pa., nondirectional radio beacon to the Wilkes-Barre, Pa., radio range station." and by adding the following portion in lieu thereof: "From the Selinsgrove, Pa., nondirectional radio beacon to the Wilkes-Barre, Pa., radio range station."

9. Section 600.234 is amended to read:

§ 600.234 *Red civil airway No. 34 (Charleston, W. Va., to Weeksville, N. C.).* From the Charleston, W. Va., radio range station via the Pulaski, Va., radio range station to the Greensboro, N. C., radio range station. From the intersection of the northeast course of the Greensboro, N. C., radio range and the northwest course of the Raleigh, N. C., radio range via the Raleigh, N. C., radio range station; the intersection of the southeast course of the Raleigh, N. C., radio range and the southwest course of the Rocky Mount, N. C., VHF VAR radio range; Rocky Mount, N. C., VHF VAR radio range station; the intersection of the northeast course of the Rocky Mount, N. C., radio range and a line bearing 287° True from the Weeksville, N. C., Navy radio range to the Weeksville, N. C., Navy radio range station.

10. Section 600.257 *Red civil airway No. 57 (Des Moines, Iowa, to Youngstown, Ohio)* is amended by deleting the last portion which reads: "From the intersection of the west course of the Cleveland, Ohio, radio range and the northwest course of the Akron, Ohio, radio range via the Akron, Ohio, radio range station to the Youngstown, Ohio, radio range station.", and by substituting the following in lieu thereof: "From the Akron, Ohio, radio range station to the Youngstown, Ohio, radio range station."

11. Section 600.285 is amended to read:

§ 600.285 *Red civil airway No. 85 (Dayton, Ohio, to Altoona, Pa.).* From the Dayton, Ohio, radio range station to the Mansfield, Ohio, nondirectional radio beacon. From the intersection of the southeast course of the Akron, Ohio, radio range and the northwest course of the Pittsburgh, Pa., radio range via the Butler, Pa., nondirectional radio beacon to the Altoona, Pa., radio range station.

12. Section 600.302 is amended to read:

§ 600.302 *Red civil airway No. 102 (Louisville, Ky., to Huntington, W. Va.).* From the intersection of the south course of the Louisville, Ky., radio range and a line bearing 268° True from the Lexington, Ky., nondirectional radio beacon via the Lexington, Ky., nondirectional radio beacon to the Huntington, W. Va., nondirectional radio beacon.

13. Section 600.304 is added to read:

§ 600.304 *Red civil airway No. 104 (Greensboro, N. C., to Raleigh, N. C.).* From the Greensboro, N. C., radio range station to the intersection of the southeast course of the Greensboro, N. C., radio range and the south course of the Raleigh, N. C., radio range.

14. Section 600.305 is added to read:

§ 600.305 *Red civil airway No. 105 (Wichita, Kans., to Joplin, Mo.).* From the intersection of the northeast course of the Wichita, Kans., radio range and the west course of the Chanute, Kans., radio range via the Chanute, Kans., radio range station to the intersection of the east course of the Chanute, Kans., radio range and the north course of the Joplin, Mo., radio range.

15. Section 600.615 *Blue civil airway No. 15 (Huntington, W. Va., to Erie, Pa.)* is amended by deleting the portion which reads: "From the intersection of the northwest course of the Huntington, W. Va., radio range and the south course of the Columbus, Ohio, radio range to the Columbus, Ohio, radio range station." and by adding the following in lieu thereof: "From the Huntington, W. Va., nondirectional radio beacon to the Columbus, Ohio, radio range station."

16. Section 600.620 *Blue civil airway No. 20 (Atlantic City, N. J., to Allentown, Pa.)* is amended by changing the last portion to read: "Philadelphia, Pa., radio range station via a point at lat. 40°15'00", long. 75°22'45" to the Allentown, Pa., radio range station."

17. Section 600.649 *Blue civil airway No. 49 (Atlantic City, N. J., to Philadelphia, Pa.)* is amended by changing the first portion to read: "From the intersection of the southeast course of the Philadelphia, Pa., radio range and a point at lat. 38°58'35", long. 74°54'30" via the intersection of the southeast course of the Philadelphia, Pa., radio range and the southeast course of the Millville, N. J., radio range;".

18. Section 600.673 is amended to read:

§ 600.673 *Blue civil airway No. 73 (Pittsburgh, Pa., to Buffalo, N. Y.).* From the Pittsburgh, Pa., radio range station via the Brookville, Pa., nondirectional radio beacon; Bradford Pa., nondirectional radio beacon to the Buffalo, N. Y., radio range station.

19. Section 600.6001 is amended to read:

§ 600.6001 *VOR civil airway No. 1 (Norfolk, Va., to New York, N. Y.).* From the Norfolk, Va., VAR station via the intersection of the Norfolk VAR north course and the Salisbury omnirange 206° True radial; Salisbury, Md., omnirange station; intersection of the Salisbury omnirange 038° True radial and the Atlantic City VAR southwest course; Atlantic City, N. J., VAR station; intersection of the Atlantic City VAR northeast course and the Colts Neck omnirange 204° True radial to the Colts Neck, N. J., omnirange station. Those portions of this airway between the Atlantic City, N. J., VAR station and the Colts Neck, N. J., omnirange station more than 3 miles either side of the center line and those portions in conflict with Patuxent danger area (D-43) are excluded.

20. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended between the Kansas City, Mo., omnirange station and the Burlington, Iowa, omnirange station to read: "Kansas City, Mo., omnirange station, including a north alternate, excluding the portion which overlaps the Osage City danger area (D-405); Kirksville, Mo., omnirange station, including a south alternate via the intersection of the Kansas City omnirange 076° True and the Kirksville omnirange 227° True radials; Burlington, Iowa, omnirange station, including a south alternate;".

21. Section 600.6012 *VOR civil airway No. 12 (Palmdale, Calif., to Philadelphia, Pa.)* is amended between the Wichita, Kans., omnirange station and the Kansas City, Mo., omnirange station to read: "Wichita, Kans., omnirange station including a north alternate and also a south alternate via the intersection of the Anthony omnirange 084° True and the Wichita omnirange 191° True radials; Emporia, Kans., omnirange station, including a north alternate via the intersection of the Wichita omnirange 045° True and the Emporia omnirange 259° True radials; Kansas City, Mo., omnirange station, including a north alternate, excluding the portion which overlaps the Osage City danger area (D-405);".

22. Section 600.6013 *VOR civil airway No. 13 (Houston, Tex., to Duluth, Minn.)* is amended between the Kansas City, Mo., omnirange station and the Des Moines, Iowa, omnirange station to read: "Kansas City, Mo., omnirange station, including an east alternate; Lamoni, Iowa, omnirange station, including an east alternate via the intersection of the Kansas City omnirange 035° True and the Lamoni omnirange 175° True radials; Des Moines, Iowa, omnirange station, including an east and a west alternate;".

23. Section 600.6016 *VOR civil airway No. 16 (Los Angeles, Calif., to Montebello, Va.)* is amended between the Fort Worth, Tex., omnirange station and the Sulphur Springs, Tex., omnirange station to read: "Fort Worth, Tex., omnirange station; Dallas, Tex., omnirange station, including a north alternate and also a south alternate via the intersection of the Fort Worth omnirange 109° True and the Dallas omnirange 247° True radials; Sulphur Springs, Tex., omnirange station, including a north alternate;".

24. Section 600.6050 is amended to read:

§ 600.6050 *VOR civil airway No. 50 St. Joseph, Mo., to Peoria, Ill.).* From the St. Joseph, Mo., omnirange station via the Kirksville, Mo., omnirange station; Quincy, Ill., omnirange station, including a south alternate; to the point of intersection of the Pontiac, Ill., omnirange 258° True and the Bradford, Ill., omnirange 188° True radials.

25. Section 600.6114 is amended to read.

§ 600.6114 *VOR civil airway No. 114 Pueblo, Colo., to New Orleans, La.).* From the Pueblo, Colo., omnirange station via the Dalhart, Tex., omnirange station; Amarillo, Tex., omnirange station, Childress, Tex., omnirange station; Wichita Falls, Tex., omnirange station; Dallas, Tex., omnirange station, including a north alternate via the intersection of the Wichita Falls omnirange 109° True and the Dallas omnirange 324° True radials; Gregg County, Tex., omnirange station; Shreveport, La., omnirange station; intersection of the Shreveport omnirange 169° True and the Alexandria omnirange 312° True radials; Alexandria, La., omnirange station; Baton Rouge, La., omnirange station to the New Orleans, La., omnirange station, including a north alternate via the intersection of the Baton Rouge omnirange 092° True and the New Orleans omnirange 001° True radials.

(Sec. 307, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985 as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. December 8, 1953, except item 12, which becomes effective 0001, e. s. t. December 29, 1953.

[Amdt. 22]

## PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

### ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.109 is amended by changing caption to read: "*Amber civil airway No. 9 control areas (Charleston, S. C., to Norfolk, Va.).*"

2. Section 601.221 is amended by changing the caption to read: "*Red civil airway No. 21 control areas (Selinsgrove, Pa., to Boston, Mass.).*"

3. Section 601.234 is amended by changing the caption to read: "*Red civil airway No. 34 control areas (Charleston, W. Va., to Weeksville, N. C.).*"

4. Section 601.285 is amended to read:

§ 601.285 *Red civil airway No. 85 control areas (Dayton, Ohio, to Altoona, Pa.).* All of Red civil airway No. 85.

5. Section 601.304 is added to read:

§ 601.304 *Red civil airway No. 104 control areas (Greensboro, N. C., to Raleigh, N. C.).* All of Red civil airway No. 104.

6. Section 601.305 is added to read:

§ 601.305 *Red civil airway No. 105 control areas (Wichita, Kans., to Joplin, Mo.).* All of Red civil airway No. 105.

7. Section 601.673 is amended by changing caption to read: "*Blue civil airway No. 73 control areas (Pittsburgh, Pa., to Buffalo, N. Y.).*"

8. Section 601.1010 *Control area extension (Charlotte, N. C.)* is revoked.

9. Section 601.1010 is added to read:

§ 601.1010 *Control area extension (Greenwood, S. C.).* That airspace bounded on the north by lat. 34°20'00", on the east by long. 82°00'00", on the south by lat. 34°10'00" and on the west by Blue civil airway No. 39.

10. Section 601.1014 is amended to read:

§ 601.1014 *Control area extension (Greenville, S. C.) (Greenville-Charlotte-Greensboro area).* All that airspace beginning at lat. 35°49'30", long. 79°30'00", thence southwesterly to lat. 34°49'30", long. 80°10'00", thence clockwise along the arc of a 50-mile radius circle centered on the Charlotte, N. C., radio range (at lat. 35°10'30", long. 80°56'00") to lat. 34°27'15", long. 80°52'30", thence westerly to lat. 34°22'30", long. 82°20'00", thence clockwise along the arc of a 30-mile radius circle centered on the Greenville, S. C., radio range (at lat. 34°48'45", long. 82°20'30") to lat. 35°13'30", long. 82°30'00", thence northeast to lat. 35°19'00", long. 82°06'30", thence clockwise along the arc of a 30-mile radius circle centered on the Spartanburg, S. C., radio range (at lat. 34°53'45", long. 81°58'40") to Green civil airway No. 6 at lat. 35°11'30", long. 81°35'30", thence northeast along Green civil airway No. 6 to lat. 35°51'00", long. 80°34'30", thence clockwise along the arc of a 35-mile radius circle centered between the Winston-Salem and Greensboro, N. C., radio ranges at lat. 36°06'00", long. 80°01'30", to lat. 35°49'30", long. 79°30'00" point of beginning.

11. Section 601.1112 *Control area extension (Fort Dix, N. J.)* is amended by deleting the words "on the east by Amber civil airway No. 9," and by substituting the following in lieu thereof: "on the east by VOR civil airway No. 1,".

12. Section 601.1114 *Control area extension (Chanute, Kans.)* is revoked.

13. Section 601.1167 *Control area extension (Winston-Salem, N. C.)* is revoked.

14. Section 601.1199 *Control area extension (Greensboro, N. C.)* is revoked.

15. Section 601.1256 is amended to read:

§ 601.1256 *Control area extension (Pittsburgh, Pa.).* All that airspace within a 35-mile radius of the Pittsburgh, Pa., radio range station.

16. Section 601.1337 is amended to read:

§ 601.1337 *Control area extension (Wausau, Wis.).* That airspace within a 15-mile radius of the Wausau omnirange station including the airspace southeast of the omnirange station bounded on the northeast by VOR civil airway No. 268, on the south by lat. 44°30'00", and on the west by a line 5 miles west of and parallel to the 166° True radial of the Wausau omnirange station.

17. Section 601.2017 is amended to read:

§ 601.2017 *Pittsburgh, Pa., control zone.* Within a 5-mile radius of Allegheny County Airport, Pittsburgh, Pa., and within 2 miles either side of a direct line extending from the Allegheny County Airport to the Cecil, Pa., nondirectional radio beacon.

18. Section 601.2090 is amended to read:

§ 601.2090 *Columbus, Ohio, control zone.* Within a 5-mile radius of the Port Columbus Municipal Airport and within a 5-mile radius of the Lockbourne, Ohio, Air Force Base including the airspace within 2 miles either side of a direct line extending from the Columbus radio range station to the Lockbourne AFB, within 2 miles either side of the west course of the Columbus radio range extending to the Hilliard fan marker, within 2 miles either side of the east course of the Columbus radio range extending to the Newark fan marker and within 2 miles either side of the 50 mile

230° True radials of the Columbus omnirange extending from the Port Columbus airport control zone to a point 10 miles northeast of the omnirange station.

19. Section 601.2104 is amended to read:

§ 601.2104 *Huntington, W. Va., control zone.* Within a 5-mile radius of Huntington Airport, Chesapeake, Ohio, within a 5-mile radius of Tri State Airport, Huntington, W. Va., within 2 miles either side of a line bearing 253° True extending from the Huntington nondirectional radio beacon to a point 10 miles west, and within 2½ miles either side of a line bearing 313° True extending from the Huntington nondirectional radio beacon to a point 10 miles northwest

20. Section 601.2313 is amended to read:

§ 601.2313 *Pittsburgh, Pa., control zone.* Within a 5-mile radius of Greater Pittsburgh Airport, within 2 miles either side of the Greater Pittsburgh Airport ILS localizer southeast course extending southeastward from the ILS localizer to the boundary of the Allegheny County Airport control zone, and within 2 miles either side of bearings of 90° True and 270° True from the Greater Pittsburgh Airport extending through the Greater Pittsburgh nondirectional radio beacon to a point 10 miles east of the radio beacon and through the Clinton nondirectional radio beacon to a point 10 miles west of the radio beacon.

21. Section 601.2318 is amended to read:

§ 601.2318 *Myrtle Beach, S. C., control zone.* Within a 5-mile radius of the Myrtle Beach Municipal Airport and within 2 miles either side of the 47° True radial of the Myrtle Beach omnirange extending from the omnirange station to a point 10 miles northeast.

22. Section 601.4013 *Green civil airway No. 3 (San Francisco, Calif., to New York, N. Y.)* is amended by deleting the following reporting point: "the intersection of the southwest course of the New York (La Guardia), N. Y., radio range and the east course of the Matawan, N. J., VHF VAR radio range;".

23. Section 601.4014 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.)* is amended by deleting the following reporting point: "the intersection of the west course of the Pittsburgh, Pa., radio range and the northwest course of the Morgantown, W. Va., radio range;" and by substituting the following reporting point in lieu thereof: "Wheeling, W. Va., nondirectional radio beacon;" and by adding after "Pittsburgh, Pa., radio range station;" the following reporting point: "New Alexandria, Pa., nondirectional radio beacon;".

24. Section 601.4109 is amended by changing caption to read: *"Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.)*," and by deleting the following reporting point: "Salisbury, Md., VHF radio range station."

25. Section 601.4211 *Red civil airway No. 11 (Enid, Okla., to Boston, Mass.)* is amended by deleting the following reporting point: "Huntington, W. Va., radio range station;".

26. Section 601.4218 *Red civil airway No. 18 (Indianapolis, Ind., to Washington, D. C.)* is amended after "Cincinnati, Ohio, radio range station;" by adding the following reporting point: "Huntington, W. Va., nondirectional radio beacon;".

27. Section 601.4219 *Red civil airway No. 19 (Detroit, Mich., to Norfolk, Va.)* is amended by deleting the following reporting point: "Wellington, Ohio, VHF radio range station;".

28. Section 601.4221 is amended to read:

§ 601.4221 *Red civil airway No. 21 (Selinsgrove, Pa., to Boston, Mass.).* The intersection of the southwest course of the Providence, R. I., radio range and the southwest course of the Quonset Point, R. I. (Navy), radio range.

29. Section 601.4234 is amended by changing caption to read: *"Red civil airway No. 34 (Charleston, W. Va., to Weeksville, N. C.)*, and by deleting the following reporting point: "Elizabeth City, N. C., VHF radio range station."

30. Section 601.4285 is amended to read:

§ 601.4285 *Red civil airway No. 85 (Dayton, Ohio, to Altoona, Pa.).* Butler, Pa., nondirectional radio beacon.

31. Section 601.4304 is added to read:

§ 601.4304 *Red civil airway No. 104 (Greensboro, N. C., to Raleigh, N. C.).* No reporting point designation.

32. Section 601.4305 is added to read:

§ 601.4305 *Red civil airway No. 105 (Wichita, Kans., to Joplin, Mo.).* No reporting point designation.

33. Section 601.4673 is amended by changing the caption to read: *"Blue civil airway No. 73 (Pittsburgh, Pa., to Buffalo, N. Y.)."*

34. Section 601.6001 is amended to read:

§ 601.6001 *VOR civil airway No. 1 control areas (Norfolk, Va., to New York, N. Y.).* All of VOR civil airway No. 1.

35. Section 601.6050 is amended to read:

§ 601.6050 *VOR civil airway No. 50 control areas (St. Joseph, Mo., to Peoria, Ill.).* All of VOR civil airway No. 50, including a south alternate.

36. Section 601.6114 is amended to read:

§ 601.6114 *VOR civil airway No. 114 control areas (Pueblo, Colo., to New Orleans, La.).* All of VOR civil airway No. 114, including north alternates.

37. Section 601.7001 *Domestic VOR reporting points* is amended by adding the following reporting point:

Henrietta intersection: the intersection of the Lansing, Mich., omnirange 148° True and the Detroit, Mich., omnirange 276° True radials.

(Sec. 205, 52 Stat. 984, as amended. 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 001 e. s. t. December 8, 1953, except items 5 and 13, which become effective 0001, e. s. t., December 29, 1953.

## TITLE 15—COMMERCE AND FOREIGN TRADE

### Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

**Subchapter C—Bureau of Foreign Commerce**

[6th Gen. Rev. of Export Regs., Amdt. 73]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

MISCELLANEOUS AMENDMENTS

1. Section 373.40 *Iron and steel* is amended by deleting therefrom paragraphs (d) *Nickel-bearing stainless steel, and plate and structurals* and (f) *Time for submission of applications.*

2. Section 373.71 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended by deleting therefrom the following entries and related submission dates:

a. For the Second and Third Quarters, 1953:

| Dept. of Commerce Schedule B No. | Commodity | Submission dates | |
|---|---|---|---|
| | | Second quarter 1953 | Third quarter 1953 |
| | *Metals and manufactures*[1] | | |
| | Commodities with processing code STEE, carbon and stainless steel only[2] | Nov. 24-Dec. 20, 1952 | Mar. 2-May 18, 1953. |
| | Commodities with processing code NONF | Dec. 1-Dec. 31, 1952 | |
| | Commodities with processing code TNPL: Specification production plate | Dec. 15, 1952-Jan. 9, 1953 | |

[1] Submission dates for these commodities are also applicable to project license and petroleum project licenses (see § 374.2 (c) of this subchapter).
[2] See § 398.5 (c) of this subchapter for exception to these dates under certain conditions.

b. For the Fourth Quarter, 1953 and the First Quarter, 1954:

| Dept. of Commerce Schedule B No. | Commodity | Submission dates | |
|---|---|---|---|
| | | Fourth quarter 1953 | First quarter 1954 |
| | *Metals and manufactures*[1] | | |
| | Commodities with processing code STEE[2] Nickel-bearing stainless steel in all shapes and forms (semi-finished and finished) (as defined in Defense Materials System Regulation 1). | May 18-June 5, 1953. | Oct. 12-Nov. 6, 1953. |

[1] The submission dates for these commodities are also applicable to project license and petroleum project license applications (see § 374.2 (c) of this subchapter).
[2] See § 398.5 (c) of this subchapter for exception to these dates under certain conditions.

3. Section 380.2 *Amendments or alterations of licenses* paragraph (f), subparagraph (3) *Amendment requests on which field offices may not take action,* is amended by deleting therefrom subdivisions (iii) and (iv).

This amendment shall become effective as of December 3, 1953.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

## TITLE 16—COMMERCIAL PRACTICES

### Chapter I—Federal Trade Commission

[Docket 6046]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

VISIONADE VISOR CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.20 *Comparative data or merits;* § 3.130 *Manufacture or preparation;* § 3.170 *Qualities or properties of product or service.* I. In connection with the offer for sale, sale or distribution of the corporate respondent's automobile visors or any other visors made of materials having the same or similar properties in commerce, and on the part of respondent corporation, its officers, etc., representing, directly or by implication: (1) That respondent's visors will fit more makes or models of automobiles than is the fact, or are tailor made to fit individual model cars; and (2) that respondent's visors give the eyes the same protection as fine sun glasses; and, II, in connection with the offering for sale, sale or distribution of the plastic automobile visors, or any other visors made of materials having the same or similar properties, in commerce, and on the part of respondents, Henry I. Sobel and Albert Rothgart, individually or as copartners trading as Filterzone Auto Vision Company, etc., jointly or severally, and on the part of their representatives, etc., representing, directly or by implication: (1) That respondents' visors are optically correct and afford clear, true visibility; and (2) that respondents' visors filter out all infra red rays or any greater proportion of infra red rays than is actually the fact; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45)

[Cease and desist order, Visionade Visor Company, Inc., et al., Brooklyn, N. Y., Docket 6046, November 3, 1953]

*In the Matter of Visionade Visor Company, Inc., a Corporation, and Henry I. Sobel and Albert Rothgart, Copartners Trading as Filterzone Auto Vision Company*

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission, respondents' answer thereto, and hearings at which testimony and other evidence, duly recorded and filed in the office of the Commission, in support of and in opposition to the allegations of said complaint were introduced before said examiner, theretofore duly designated by the Commission.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer, testimony and other evidence, proposed findings as to the facts and conclusions presented by counsel in support of complaint, no proposed findings as to the facts and conclusions having been presented by respondents and oral argument not having been requested, and said examiner, having duly considered the record in the matter, and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on November 3, 1953.

Said order to cease and desist is as follows:

*It is ordered,* That the respondent Visionade Visor Company, Inc., its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of its plastic automobile visors or any other visors made of materials having the same or similar properties in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That its visors will fit more makes or models of automobiles than is the fact, or are tailor made to fit individual model cars.

2. That its visors give the eyes the same protection as fine sun glasses.

*It is further ordered,* That the respondents, Henry I. Sobel and Albert Rothgart, individually or as copartners trading as Filterzone Auto Vision Company, or trading under any other name, jointly or severally, their representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of the plastic automobile visors, or any other visors made of materials having the same or similar properties, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That their visors are optically correct and afford clear, true visibility.

2. That their visors filter out all infra red rays or any greater proportion of infra red rays than is actually the fact.

By "Decision of the Commission and Order To File Report of Compliance", Docket 6046, November 3, 1953, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

*It is ordered,* That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: November 3, 1953.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
*Secretary.*

[F. R. Doc. 53-10173; Filed, Dec. 3, 1953; 8:53 a. m.]

[Docket No. 5974]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

PAGE DAIRY CO.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Price discrimination under 2 (a): § 3.715 *Charges and price differentials.* In connection with the sale of fluid milk in commerce, discriminating in price by selling said fluid milk of like grade and quality to any purchaser at prices lower than those granted other purchasers where respondent, in the sale of such product, is in competition with any other sellers; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 2, 49 Stat. 1526; 15 U. S. C. 13)

[Cease and desist order, Page Dairy Company, Toledo, Ohio, Docket 5974, October 30, 1953]

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission, respondent's answer, and hearings at which

[1] Filed as part of the original document.

testimony and other evidence, duly recorded and filed in the office of the Commission, in support of the allegations of the complaint, were introduced by said examiner, theretofore duly designated by the Commission.

Thereafter, following the resting of the case in support of the complaint at the conclusion of the aforesaid hearings, and respondent's election to introduce no testimony or other evidence in opposition to the allegations of the complaint, the proceeding regularly came on for final consideration by said examiner on the complaint, answer, testimony, and other evidence and proposed findings as to the facts, conclusion and order submitted jointly by counsel supporting the complaint and counsel for respondent, oral argument not having been requested; and said examiner, having duly considered the matter, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order to cease and desist, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 30, 1953.

Said order to cease and desist is as follows:

*It is ordered*, That the respondent, Page Dairy Company, a corporation, its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the sale of fluid milk in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from discriminating in price by selling said fluid milk of like grade and quality to any purchaser at prices lower than those granted other purchasers where respondent, in the sale of such product, is in competition with any other seller.

By "Decision of the Commission and Order to File Report of Compliance", Docket 5974, October 30, 1953, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

*It is ordered*, That the respondent herein shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: October 30, 1953.

By the Commission.

[SEAL] ALEX. AKERMAN, Jr.,
*Secretary.*

## TITLE 29—LABOR

### Chapter V—Wage and Hour Division, Department of Labor

PART 686—SHOE MANUFACTURING AND ALLIED INDUSTRIES IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on November 10, 1953 (18 F. R. 7060), of my decision to approve the recommendation of Special Industry Committee No. 14 for Puerto Rico for the Shoe Manufacturing and Allied Industries in Puerto Rico, and the Wage Order which I proposed to issue to carry such recommendation into effect was published therewith.

As indicated in the notice, my findings and conclusions in this matter were set forth in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendation of Special Industry Committee No. 14 for Puerto Rico for Minimum Wage Rates in the Shoe Manufacturing and Allied Industries in Puerto Rico."

Interested parties were given an opportunity to file exceptions to the proposed actions within fifteen days of the date of publication of the notice. No exceptions have been received.

Accordingly, pursuant to the authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C. 201, et seq.), the said decision is affirmed and made final, the recommendation of Special Industry Committee No. 14 for Puerto Rico for a minimum wage rate in the Shoe Manufacturing and Allied Industries in Puerto Rico is hereby approved and the Wage Order contained in 29 CFR, 1952 Supp., Part 686, is hereby amended, as set forth in the November 10, 1953 issue of the FEDERAL REGISTER (18 F. R. 7060), as follows:

1. Delete § 686.2 and substitute the following:

§ 686.2 *Wage rate.* Wages at a rate of not less than 40 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Shoe Manufacturing and Allied Industries in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(Sec. 8, 63 Stat. 915; 29 U. S. C. 208)

The above amendment shall become effective January 4, 1954.

Signed at Washington, D. C., this 30th day of November 1953.

WM. R. MCCOMB,
*Administrator,*
*Wage and Hour Division.*

[F. R. Doc. 53-10139; Filed, Dec. 3, 1953; 8:47 a. m.]

PART 709—COSTUME JEWELRY HAIR ORNAMENT DIVISION AND COSTUME JEWELRY GENERAL DIVISION OF THE BUTTON, BUCKLE AND JEWELRY INDUSTRY IN PUERTO RICO

MINIMUM WAGE ORDER

Pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001), notice was published in the FEDERAL REGISTER on November 10, 1953 (18 F. R. 7060-7061), of my decision to approve the recommendations of Special Industry Committee No. 14 for Puerto Rico for the Costume Jewelry Division of the Button, Buckle, and Jewelry Industry in Puerto Rico, and the Wage Order which I proposed to issue to carry such recommendations into effect was published therewith.

As indicated in the notice, my findings and conclusions in this matter were set forth in a document entitled "Findings and Opinion of the Administrator in the Matter of the Recommendations of Special Industry Committee No. 14 for Puerto Rico for Minimum Wage Rates in the Costume Jewelry Division of the Button, Buckle, and Jewelry Industry in Puerto Rico."

Interested parties were given an opportunity to file exceptions to the proposed actions within fifteen days of the date of publication of the notice. No exceptions have been received.

Accordingly, pursuant to authority under the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended, 29 U. S. C. 201 et seq.), the said decision is affirmed and made final, the recommendations of Special Industry Committee No. 14 for Puerto Rico for minimum wage rates in the Costume Jewelry Division of the Button, Buckle, and Jewelry Industry in Puerto Rico are hereby approved and the Wage Order contained in 29 CFR, Part 709, is hereby amended, as set forth in the November 10, 1953, issue of the FEDERAL REGISTER (18 F. R. 7060-7061), as follows:

1. In § 709.1 delete in its entirety the note which immediately follows paragraph (e) (minimum wage rate for the pearl button and buckle division) and substitute the following paragraphs:

(f) Wages at a rate of not less than 50 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Costume Jewelry Hair Ornament Division of the Button, Buckle, and Jewelry Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

(g) Wages at a rate of not less than 36 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the Costume Jewelry General Division of the Button, Buckle, and Jewelry Industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

2. In § 709.3 delete the note which immediately follows paragraph (b) (5) (definition of the pearl button and buckle division) and add the following subparagraphs:

(6) *Costume Jewelry Hair Ornament Division.* The manufacture from any material (except precious metals or materials of local origin such as seeds, shells, natural fibers and similar materials) of hair ornaments such as decorative or ornamental combs, clips, and barrettes, and of component parts of such ornaments when the manufacture of such parts is performed in an establishment producing such hair ornaments.

(7) *Costume Jewelry General Division.* The manufacture of jewelry (except rosaries, hair ornaments, metal expansion watch bands and bracelets, and metal, glass, plastic and wooden beads) and jewelry findings from any material except precious metals or materials of local origin such as seeds, shells, natural fibers and similar materials.

(Sec. 8, 63 Stat. 915; 29 U. S. C. 208)

The above amendments shall become effective January 4, 1954.

Signed at Washington, D. C., this 30th day of November 1953.

WM. R. MCCOMB,
*Administrator,*
*Wage and Hour Division.*

[F. R. Doc. 53-10140; Filed, Dec. 3, 1953; 8:47 a. m.]

## TITLE 43—PUBLIC LANDS: INTERIOR

### Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 931]

CALIFORNIA

PARTIALLY REVOKING EXECUTIVE ORDER OF AUGUST 8, 1914, CREATING PUBLIC WATER RESERVE NO. 22

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of August 8, 1914, creating Public Water Reserve No. 22, is hereby revoked so far as it affects the following-described lands:

MOUNT DIABLO MERIDIAN

T. 24 S., R. 42 E.,
Sec. 24, W½.

The area described, including public and non-public lands, contains 320 acres.

The release from withdrawal of the lands in the SE¼NW¼, N½SW¼ and the SE¼SW¼ of the said section 24 is made in furtherance of an exchange under section 8 of the act of June 28, 1934, as amended by section 3 of the act of June 26, 1936 (48 Stat. 1272, 49 Stat. 1976; 43 U. S. C. 315g), by which the offered lands will benefit a Federal land program. This restoration is therefore not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 147; 43 U. S. C. 279-284) as amended, granting preference rights to veterans of World War II and others.

The W½NW¼ is patented land.

No applications for the remaining lands released from withdrawal by this order may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. This order shall not otherwise become effective to change the status of the said lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for the lands may be obtained on request from the Manager of the Land Office at Los Angeles, California.

ORME LEWIS,
*Assistant Secretary of the Interior.*

NOVEMBER 30, 1953.

[F. R. Doc. 53-10136; Filed, Dec. 3, 1953; 8:46 a. m.]

[Public Land Order 932]

SOUTH DAKOTA

PARTIALLY REVOKING PUBLIC LAND ORDER NO. 85 OF JANUARY 29, 1943

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Public Land Order No. 85 of January 29, 1943, withdrawing public lands for use of the War Department as a gunnery range, is hereby revoked so far as it affects the following-described lands:

BLACK HILLS MERIDIAN

T. 8 N., R. 9 E.,
Sec. 5, lots 2, 3 and 4, S½N½, S½.
T. 9 N., R. 9 E.,
Sec. 21, N½, SW¼;
Sec. 28, N½, SW¼;
Sec. 29, SE¼;
Sec. 31, E½, SW¼;
Sec. 32, S½SW¼, NW¼SW¼;
Sec. 33, NE¼SW¼.

The areas described aggregate 2,369.36 acres.

The lands are gently rolling and have an elevation of approximately 3,000 feet above sea level. The soil is a heavy gumbo clay over hardpan and shale. The annual precipitation is about 16.09 inches. Owing to poor soils, the land is not suitable for cultivation but is usable mainly for grazing. They are primarily suitable for disposal by public sale, exchange or State selection. It is not likely that they will be classified for any other disposition but any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not become effective to change the status of the described lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall become subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284) as amended.

Information showing the periods during which and the conditions under which veterans and others may file applications for these lands may be obtained on request from the Regional Administrator at Billings, Montana.

ORME LEWIS,
*Assistant Secretary of the Interior.*

NOVEMBER 30, 1953.

[F. R. Doc. 53-10137; Filed, Dec. 3, 1953; 8:46 a. m.]

## TITLE 47—TELECOMMUNICATION

### Chapter I—Federal Communications Commission

[Docket Nos. 10670, 10671]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS

In the matter of amendment of § 3.606, *Table of assignments*, rules governing television broadcast stations; Dockets Nos. 10670, 10671.

1. The Commission has under consideration the following notices issued in these proceedings: (1) Its notice of proposed rule making (FCC 53-1112) issued on August 27, 1953, relating to the request of Carl Bloomquist that Channel 10 be assigned to Virginia, Minnesota, and to Laurium, Michigan, to be accomplished by deleting the present assignment of Channel 10 from Hibbing, Minnesota, and from Hancock, Michigan; (2) its notice of proposed rule making (FCC 53-1116) issued on the same date, relating to the request of Head of the Lakes Broadcasting Company that Channel 12 be assigned to Duluth, Minnesota-Superior, Wisconsin, to be accomplished by substituting Channel 37 for Channel 12 in Brainerd, Minnesota, and Channel 33 for Channel 12 in Iron River, Michigan; and (3) its notice of further proposed rule making (FCC 53-1368) issued on October 23, 1953, relating to the counterproposal of Head of the Lakes Broadcasting Company requesting the assignment of Channel 10 to Duluth, Minnesota, and Channel 13 to Buhl, Minnesota, to be accomplished by deleting Channel 10 from Hibbing, Minnesota, and from Hancock, Michigan, and by deleting Channel 26 from Virginia, Minnesota.

2. The above-entitled proceedings relate to several requests for amendment of the Commission's television channel assignments in the Northern Minnesota-

Northwestern Michigan area. The various proposals and counterproposals filed in the proceedings, some of which are mutually exclusive, seek a reassignment of Channels 10 and 12 in this general area; and the discussion of the proposals will be considered in this light.

CHANNEL 10 PROCEEDING

3. Carl Bloomquist, Eveleth, Minnesota, filed a petition requesting that Channel 10 be assigned to Virginia, Minnesota, a city with a population of 12,500 persons, to be accomplished by deleting Channel 10 from Hibbing, Minnesota, a city with 16,300 persons located about 20 miles from Virginia. This assignment would also require the deletion of Channel 10 from Hancock, Michigan, a community of 5,200 persons situated less than 190 miles from Virginia; and it is suggested than Channel 10 can be assigned instead to Laurium, Michigan, a community in this general area with a population of 3,200 persons. Petitioner suggests as an alternative that Channel 13 could be shifted from Calumet, Michigan, a nearby community of 1,300 persons, to replace Channel 10 at Hancock. One channel, Channel 26 is presently assigned to Virginia; Channel 10 represents the only assignment in Hibbing and Hancock; Channel 13 is the only assignment in Calumet; and no assignments are presently listed for Laurium. An application (BPCT–1774) for a station on Channel 10 in Hibbing, filed September 30, 1953, by North Star Televising Company, is pending. No applications have been filed for Channel 10 in Hancock, Channel 26 in Virginia, or Channel 13 in Calumet.

4. In support of his request, Carl Bloomquist states that he proposes to file an application for a VHF television station in Virginia "designed to provide service for the entire Mesabi Range" and that "Virginia is the central city of this area, whose principal industry is the mining of iron ore." Petitioner contends that while a UHF channel has been assigned to Virginia, it "has been advised that the signal would be unsatisfactory" and that a VHF station would "provide a satisfactory service for the entire area." Petitioner argues that in light of the trend in the iron ore industry in the general area, there will be a shift in population in the direction of the area that would be served by a Virginia station and that, accordingly, the assignment of Channel 10 in Virginia would represent a more efficient utilization of the spectrum than would this assignment in Hibbing. A comment supporting the proposed assignment of Channel 10 in Virginia was filed by the Chamber of Commerce of Ely, Minnesota, a small community located approximately 35 miles from Virginia and 75 miles from Hibbing.

5. Head of the Lakes Broacasting Company filed a conflicting counterproposal requesting that Channel 10 be assigned to Duluth, Minnesota.[1]

[1] Head of the Lakes Broadcasting Company has also filed an alternative request which seeks the assignment of Channel 12 for Duluth-Superior. This request is discussed below in connection with the Channel 12 proceeding.

The following changes in the Table of Assignments are suggested to accomplish this assignment:

| City | Present | Proposed |
|---|---|---|
| Duluth, Minn.-Superior, Wis | 3, 6+, *8, 9, 13 | 3, 6+, *8, 13 |
| Duluth, Minn | --- | 10 |
| Hibbing, Minn | 10 | --- |
| Virginia, Minn | 28+ | --- |
| Hancock, Mich | 10– | --- |
| Buhl, Mich | --- | 13 |

Head of the Lakes suggests that Channel 10 be assigned to Duluth rather than Duluth-Superior since Channel 10 at Superior would not meet the minimum spacing requirements. In order to assign Channel 10 to Duluth it must be deleted from both Hibbing and Hancock. Head of the Lakes requests, in addition, that Channel 13 be added to Buhl, Minnesota, a community of 1,400 persons, and that Channel 26 be deleted from Virginia. Head of the Lakes points out that since both Hibbing and Virginia are within 15 miles of Buhl,[2] Channel 13 in Buhl would be available as well for applicants in Hibbing and Virginia under the provisions of § 3.607 (b) of this chapter which makes channels listed in the Table of Assignments available upon application to communities without their own assignments and within 15 miles of the listed city (15-mile rule). Head of the Lakes suggests that Channel 32 be deleted from Duluth-Superior to keep the number of assignments in the community at the same level. Five channels are presently assigned to Duluth-Superior, three VHF with one of these reserved for education, and two UHF. Great Plains Televising Properties of Minnesota, Inc., has been operating UHF Station WFTV on Channel 38 in Duluth since June. A Final Decision granting an application for VHF Channel 6 in Duluth was issued October 15, 1953. Two applications for Channel 3, the remaining commercial VHF channel at Duluth-Superior, including the Head of the Lakes' application, are involved in a comparative hearing. One application, as noted above, is pending for Channel 10 at Hibbing. Duluth and Superior have a combined population of 139,800 persons, with Duluth having 104,500 and Superior 35,300.

6. In support of its request for the addition of a VHF channel to Duluth, Head of the Lakes urges that such assignment would eliminate the controversy in the Channel 3 and 6 proceedings in Duluth-Superior and would "bring VHF television service immediately to the Duluth-Superior area." While Channel 10 is proposed only for Duluth, it is urged that a station could be so located as to provide identical service to both cities and the surrounding area as would be the case if the assignment were made to the hyphenated community. Head of the Lakes submits that Channel 13 at Buhl is intended as a substitute for the present assignments of Channel 10 at Hibbing and Channel 26 at Virginia, as well as a substitute for the proposed assignment of Channel 10 to Virginia. It is contended that Channel 13 at Buhl would satisfy "the needs of this entire area of the Mesabi Range, and the cities located within it, for television assignments", and that the eventual location of this channel would be determined in a licensing proceeding involving applicants from all of the cities. Head of the Lakes notes, also, that Channel 13 is assigned to Calumet, Michigan, and that since both Hancock and Laurium are within 15 miles of Calumet,[3] Channel 13 would also be available upon application for Hancock and Laurium. It is urged that the assignment of two VHF channels to the small area comprised by Calumet and Hancock, communities with very small populations represents an inefficient distribution of channels. If additional channels for these communities are required, it is asserted that UHF channels could be assigned. Mayor John I. Anderson of Buhl filed a communication supporting the assignment of Channel 13 to Buhl.

7. The Bemidji Civic and Commerce Association of Bemidji, Minnesota, filed a counterproposal requesting the assignment of Channel 13 to Bemidji, Minnesota, a city with a population of 10,000 persons. It is proposed to accomplish this assignment merely by switching Channel 11 for Channel 13 at Fargo, North Dakota. An application for Channel 13 at Fargo is pending; however, it appears that the site presently specified for Channel 13 in this application can also be employed on Channel 11. The Fargo applicant has not filed an opposition to the proposed change of channels for Fargo in this proceeding. The Table of Assignments presently assigns one channel, UHF Channel 24, to Bemidji, so that Channel 13 would represent a second assignment for that community. The Bemidji counterproposal conflicts with the Head of the Lakes counterproposal in that Channel 13 cannot be assigned to both Buhl and Bemidji.

8. In support of the request for the assignment of Channel 13 to Bemidji, it is urged that Bemidji, with a population of 10,000 persons, is the county seat of Beltrami County, and is the trading center for an area extending 50 miles in every direction. It is stated that the closest VHF assignment to Bemidji is at Brainerd, Minnesota, 84 miles distant, and that Bemidji would receive no Grade A VHF service under the present assignments. It is asserted that Channel 13 at Bemidji would represent its second frequency and would "furnish the trading area of Bemidji with a consistent VHF service."

OPPOSITION

9. North Star Televising Company filed comments opposing the proposals which require deletion of Channel 10 from Hibbing. It is explained that on September 30, 1953, North Star filed an application for Channel 10 in Hibbing. North Star argues that in the Hibbing area there is a chain of cities running generally northeastward from Grand Rapids to Aurora, Minnesota, and that Hibbing, the largest city in the chain of cities, is located almost exactly in the center. North Star alleges that a station on Channel 10 in the Hibbing area operating with the power and antenna height proposed in the North Star application would include all the cities in the chain within its Grade B contour. With respect to the Carl Bloomquist proposal to assign Channel 10 to Virginia in place of Hibbing, North Star asserts that Virginia is not only smaller in population than Hibbing but is located so that a Virginia station could not afford Grade B service to all the cities in the chain without employing much greater power than that required in Hibbing. North Star also opposes the deletion of Channel 10 from Hibbing in order to assign this frequency to Duluth. North Star argues that in order to assign a fourth VHF channel to Duluth, it is necessary to delete the only assignments from two communities, Hibbing and Hancock. North Star urges that the assignment of Channel 10 in Hibbing represents a more efficient utilization of the spectrum. With respect to the proposal to assign Channel 13 to Buhl, North Star points out that such assignment can be accomplished without reference to Channel 10. North Star explains that Channel 32 is presently assigned to Duluth-Superior but that no applications have been filed for this frequency, and submits that the need for an additional VHF channel in Duluth-Superior arises solely from the refusal of the presently pending applicants to accept a UHF channel. North Star asserts that demand for a VHF facility in Hibbing has been demonstrated by the application for Channel 10 in that city. The Hibbing Chamber of Commerce also submitted a communication urging that Channel 10 be retained in Hibbing.

10. Great Plains Television Properties of Minnesota, Inc., filed comments opposing the assignment of Channel 10 to Duluth. Great Plains is presently operating UHF Station WFTV on Channel 38 in Duluth. Great Plains urges that Hibbing and Hancock should not be deprived of their only channels to make possible the assignment of a third commercial VHF channel for Duluth-Superior. It is urged that an additional channel is not required to satisfy the demand in Duluth-Superior since a UHF assignment is unapplied for. Great Plains argues that the Head of the Lakes proposal seeks to "break down basic inter-mixture principles and to deprive more sparsely settled areas in Michigan and Minnesota of their only VHF assignment for the sole purpose of getting another VHF channel in lieu of a UHF channel which they could presumably have for the asking under the present allocation table." Great Plains submits that if a third VHF channel is assigned to Duluth-Superior, the three top television networks will affiliate with the VHF grantees and the UHF station will be left without adequate network service. Great Plains cautions that "it is doubtful whether a UHF station could survive under these circumstances."

11. Carl Bloomquist also filed comments opposing the Head of the Lakes proposal to assign Channel 10 to Duluth, urging that an additional VHF channel should be assigned instead to Virginia as requested in his petition.

12. Head of the Lakes filed comments opposing the Carl Bloomquist proposal, urging that any need for additional assignments at Virginia or Hibbing would be taken care of by the assignment of Channel 13 to Buhl, and, further, that UHF channels could be assigned to these communities. Head of the Lakes also opposes the Bemidji counterproposal, noting that Channel 13 in Bemidji would be a second channel even though no applications have been filed for Channel 24 which is already assigned there. Head of the Lakes submits that UHF channels would suffice in Bemidji and urges that there is no need for the addition of VHF Channel 13. Head of the Lakes urges that, in any event, the assignment of Channel 13 to Buhl is to be preferred.

CHANNEL 12 PROCEEDING

13. Head of the Lakes Broadcasting Company has filed a petition requesting that Channel 12 be assigned to Duluth-Superior to be accomplished by making the following changes in the Table of Assignments:[4]

| City | Channel No. | |
|---|---|---|
| | Present | Proposed |
| Duluth, Minn.-Superior, Wis | 3, 6+, *8–, 9, 13 | 3, 6+, *8–, 12, 13 |
| Brainerd, Minn | 12 | 12 |
| Iron River, Mich | 12– | 12– |

As noted from the above table the assignment of Channel 12 in Duluth-Superior requires the deletion of this frequency from Brainerd, Minnesota, a city of 12,600 persons, and from Iron River, Michigan, a community of 4,000 persons. Head of the Lakes proposes UHF channels as replacements in these communities. Channel 12 would represent a third commercial VHF in Duluth-Superior, which has a population of 139,800 persons. No applications have been filed for stations in either Brainerd or Iron River. As noted above, UHF Station WFTV has been operating on Channel 38 in Duluth since June; a Final Decision was issued for a station on Channel 6 on October 15, 1953; and two applications including petitioner's, are involved in a comparative hearing for Channel 3. No applications have been filed for UHF Channel 32 in Duluth-Superior.

14. In support of its request for the assignment of Channel 12 in Duluth-Superior, Head of the Lakes urges the same arguments advanced in the Channel 10 proceeding in support of the addition of a VHF channel for Duluth. Head of the Lakes submits also that since both Brainerd and Iron River presently have no television stations or service, the potential viewing public would not be prejudiced by the assignment of the UHF channels at this time. Head of the Lakes argues also that the population of Brainerd and Iron River are "too small to afford economic support for a television station."

15. Upper Michigan-Wisconsin Broadcasting Company, Inc., filed a mutually exclusive counterproposal requesting that VHF Channel 12 be assigned to Ironwood, Michigan. It is proposed to accomplish this assignment by substituting UHF Channel 33 for Channel 12 in Iron River, Michigan. Since Channel 12 cannot be assigned to both Ironwood and Duluth-Superior in light of the minimum spacing requirements, this proposal conflicts with the Head of the Lakes proposal. The Table of Assignments presently assigns one channel, UHF Channel 31, to Ironwood, a city of 11,500 persons. No applications for a station in Ironwood have been filed.

16. In support of its counterproposal, Upper Michigan represents that it proposes to file an application for a station on Channel 12 in Ironwood. It is urged that Channel 12 in Iron River is the only VHF channel presently assigned in the Upper Peninsula area served by its standard broadcast stations. Upper Michigan contends that the assignment of Channel 12 to Ironwood is to be preferred to the assignment of an additional channel to Duluth-Superior. It is urged that if Channel 12 is assigned to Duluth-Superior as a fourth VHF channel, no VHF service would be available for either the Brainerd or Ironwood areas.

OPPOSITIONS

17. The University of Minnesota filed comments opposing the substitution of a UHF channel for VHF Channel 12 in Brainerd as requested by Head of the Lakes. The University explains that for the past several years it has been looking toward the development of a state-wide network of educational television stations serving the State and that at the present time only Channel 2 in Minneapolis and Channel 8 in Duluth have been reserved. The University states that a study which it has undertaken indicates that a total of 10 stations throughout Minnesota would be required in order to achieve a state-wide educational network. The University represents that a VHF station on Channel 12 at Brainerd would be the third station in terms of priority, and that it might consider applying for an educational station on Channel 12 if a commercial applicant does not apply. Channel 12 in Brainerd, it is stated, would be particularly useful in light of its location in the central part of the State in the middle of a large rural area that does not presently receive satisfactory service.

18. Governor C. Elmer Anderson of Minnesota filed comments opposing the Head of the Lakes proposal to delete Channel 12 from Brainerd. Governor Anderson urges that Channel 12 "will best serve Brainerd and this region in the future." It is argued that depriving Brainerd of its only VHF channel to make another VHF channel available for Duluth is not justified. Governor Anderson contends that "it is just as important for the smaller communities of our State to have the opportunity to develop VHF television in their markets as it is for the larger communities to do so."

[2] Hibbing is 9.2 miles from Buhl, and Virginia is 11.5 miles from Buhl.

[3] Hancock is 11 miles from Calumet and Laurium is about 10 miles from Calumet.

[4] As noted above in connection with the Channel 10 proceeding, Head of the Lakes has filed an alternative request seeking Channel 10 for Duluth.

19. Comments opposing the deletion of Channel 12 from Brainerd were also filed by Brainerd Broadcasting Company (KLIZ). Brainerd Broadcasting Company states that if Brainerd is ever to have good service, a VHF channel will be necessary. If Channel 12 is deleted, it is urged that the Brainerd area "will be doomed for the foreseeable future because it will be that much less commercially advisable." In addition to the foregoing, comments opposing the deletion of Channel 12 from Brainerd were filed by Brainerd Civic Association, Inc.; Pequot Lakes Commercial Club, Pequot Lakes, Minnesota; Mayor Frank M. Neisse, Long Prairie, Minnesota; Chamber of Commerce, Little Falls, Minnesota; Chamber of Commerce, Motley, Minnesota; Mayor G. E. Luekow, Deerwood, Minnesota; Mayor Roy Tabaka, Longville, Minnesota; Long Prairie Commercial Club, Long Prairie, Minnesota; Brainerd Lions Club, The Exchange Club of Brainerd; Brainerd Rotary Club; and Village Council of Pequot Lakes, Minnesota.

20. Great Plains Television Properties of Minnesota, Inc., also opposes the Head of the Lakes request to assign Channel 12 to Duluth-Superior. As noted above, Great Plains is presently operating a UHF station on Channel 38 in Duluth, and advances the same arguments as those presented in its opposition to the request to assign Channel 10 to Duluth. In addition, Great Plains states that the Head of the Lakes request requires that two cities lose their only VHF assignments in order to provide a fourth for Duluth-Superior. Great Plains argues that the Head of the Lakes proposal violates two basic assignment principles as laid down by the Commission in the Sixth Report: (1) To provide at least one VHF signal to as much of the nation as possible; and (2) the principle of intermixture of VHF and UHF for the purpose of fostering a competitive nationwide service. Great Plains also asserts that the request to assign Channel 12 to Ironwood, Michigan, indicates a "demand" for a VHF channel in the Iron Mountain region of Michigan, and that the assignment of Channel 12 to Ironwood is to be preferred.

21. WIKB, Inc., Iron River, Michigan, filed a telegram opposing the deletion of VHF Channel 12 from Iron River.

CONCLUSIONS

22. Channel 10 proceeding: The Commission is presented with two mutually exclusive proposals for the use of VHF Channel 10 in the Minnesota-Michigan area, and with a proposal for the assignment of Channel 13 to Bemidji which conflicts in part with one of the Channel 10 requests. These requests are (1) the proposal of Carl Bloomquist to assign Channel 10 to Virginia and Laurium by deleting it from Hibbing and Hancock; (2) the proposal of Head of the Lakes to assign Channel 10 to Duluth by deleting it from Hibbing and Hancock, deleting Channel 26 from Virginia, and assigning Channel 13 to Buhl; and (3) the requests of Bemidji Civic and Commerce Association to assign Channel 13 to Bemidji by shifting Channel 11 for 13 in Fargo. The Bloomquist and Head of the Lakes proposals are conflicting since Channel 10 cannot be assigned to both Virginia and Duluth, and the Head of the Lakes and Bemidji proposals are conflicting since Channel 13 cannot be assigned to both Buhl and Bemidji.

23. We do not believe that the request of Carl Bloomquist to shift Channel 10 from Hibbing to Virginia has merit. Hibbing is a city with a population of 16,300 as compared with 12,500 in Virginia. Furthermore, an application is presently pending for Channel 10 in Hibbing and the record in this proceeding demonstrates a demand for this assignment in that community. Finally, the Bloomquist proposal would require that we shift Channel 10 from Hancock with a population of 5,200 to Laurium with a population of 3,200. Upon the basis of the entire record in this proceeding, we conclude that the shifting of Channel 10 from Hibbing to Virginia would not be warranted and that the request of Carl Bloomquist should be denied.

24. The Head of the Lakes counterproposal seeking the assignment of Channel 10 for Duluth also requires that we delete Channel 10 from both Hibbing and Hancock. For the same reasons set out below in connection with our discussion of the Head of the Lakes Channel 12 proposal, we do not believe that the assignment of an additional VHF channel for Duluth, at the expense of the only assignments in Hibbing and Hancock, would be warranted. As noted above, Hibbing is a city of over 16,000 people, and an application for the use of Channel 10 in Hibbing is pending.

25. The Head of the Lakes proposal would require that we delete Channel 10 from two communities in order to make this assignment available for Duluth. Such assignment would result in an inefficient utilization of the spectrum. Head of the Lakes suggests that Channel 13 could be added to Buhl, but this assignment can be made without regard to the assignment of Channel 10 in Duluth. Furthermore, this assignment can also be made to Bemidji, a city of 10,000 people as compared with only 1,400 in Buhl. We do not believe that the fact that Channel 13 at Buhl could be applied for by Hibbing and Virginia, or that Channel 13 in Calumet, Michigan, could be applied for by Hancock or Laurium, under the 15-mile rule, offers a satisfactory solution. Nevertheless, it is the fact that in order to assign Channel 10 to Duluth, the total number of VHF assignments in the Table must be reduced. We cannot conclude, on the basis of the entire record in this proceeding, that the assignment of Channel 10 to Duluth would be warranted; and, accordingly, the Head of the Lakes counterproposal is being denied.

26. Finally, we believe the record supports the adoption of the request for the assignment of Channel 13 to Bemidji, Minnesota, a city with a population of 10,000 persons. This assignment can be accomplished merely by substituting Channel 11 for Channel 13 in Fargo, North Dakota, and without depriving any other community of a VHF channel. The addition of Channel 13 in Bemidji; therefore, would effect an efficient utilization of the spectrum and would serve the public interest. Accordingly, we are granting the proposal of Bemidji Civic and Commerce Association.

27. Channel 12 proceeding: The Commission has under consideration two conflicting requests for the assignment of VHF Channel 12 in the Minnesota-Michigan area: (1) Head of the Lakes Broadcasting Company requests that Channel 12 be asigned as a fourth VHF (third commercial) channel to Duluth-Superior. This assignment requires that we substitute UHF channels for VHF Channel 12 in both Brainerd, Minnesota, and Iron River, Michigan; (2) the Upper Michigan-Wisconsin Broadcasting Company, Inc., in its counterproposal requests instead that we shift Channel 12 from Iron River to Ironwood, Michigan, and that UHF Channel 33 be substituted in Iron River. Since Channel 12 cannot be assigned to both Ironwood and Duluth-Superior, these two proposals conflict.

28. In our view the additional assignment of a VHF channel for Duluth-Superior at the expense of deleting VHF Channel 12 from both Brainerd and Iron River would not be warranted. Channel 12 represents the only assignment in Brainerd, a community of 12,600 persons. Furthermore, the assignment of Channel 12 to Ironwood would represent a first VHF channel for a city with a population of 11,500 persons. Adequate demand for the assignment of Channel 12 in both Brainerd and Ironwood has been demonstrated in the record of this proceeding.

29. In urging adoption of its counterproposal, Head of the Lakes assumes that the assignment of an additional VHF channel to Duluth-Superior will enable the Commission immediately to resolve the procedural problems in the comparative hearing in Duluth-Superior. However, a new assignment to Duluth-Superior must, of course, be available upon application for new applicants, and a comparative hearing might still very well be necessary. It should also be noted that Head of the Lakes is not contending that Duluth-Superior does not have its fair share of channels, but rather that an additional VHF channel be added. On the other hand, UHF Channel 32 which is assigned to Duluth-Superior is still unapplied for.

30. The assignment of Channel 12 in Duluth-Superior can be accomplished only by deleting this assignment from two other cities. This assignment, therefore, would represent an inefficient use of the spectrum. We cannot conclude, on the basis of the entire record in this proceeding, that the assignment of Channel 12 to Duluth-Superior as requested by Head of the Lakes would be justified. Accordingly, we are denying this proposal.

31. We do believe, however, that the record supports the granting of the Upper Michigan counterproposal requesting that Channel 12 be shifted from Iron River to Ironwood, Michigan, and that Channel 33 be substituted in Iron River. Iron River has a population of only about 4,000 and no application for Channel 12 has as yet been filed. Channel 12 in Ironwood, a city with a population of 11,500 persons, would represent a first VHF assignment and a second channel. We believe the record establishes a demand for the assignment of Channel 12 to Ironwood and that Channel 33 will adequately serve the needs of Iron River. Accordingly, we are granting the counterproposal of Upper Michigan-Wisconsin Broadcasting Company.

32. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended.

33. In view of the foregoing: *It is ordered*, That effective 30 days after publication in the FEDERAL REGISTER, the Table of Assignments contained in § 3.606 *Table of Assignments*, rules governing television broadcast stations, is amended as follows:

1. Amend the table to read as follows:

| City | Channel No. |
|---|---|
| Iron River, Mich | 33 — |
| Ironwood, Mich | 12 —, 31 — |
| Bemidji, Minn | 13 —, 24 — |
| Fargo, N. Dak | 6, 11, *34 —, 40 |

2. Change the Channel 11 assignment at International Falls, Minnesota from Channel 11 to Channel 11+.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1082, 1082 as amended, 1084; 47 U. S. C. 301, 303, 307)

Adopted: November 27, 1953.

Released: December 1, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

## TITLE 50—WILDLIFE

### Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter C—Management of Wildlife Conservation Areas

PART 32—SOUTHWESTERN REGION

SUBPART—WICHITA MOUNTAINS WILDLIFE REFUGE, OKLAHOMA

USE OF BOATS FOR FISHING

*Basis and purpose.* On the basis of observations and reports by representatives of the Fish and Wildlife Service, it has been determined that the limited use of outboard motor powered boats for the purpose of fishing on Elmer Thomas Lake within the Wichita Mountains Wildlife Refuge will not be inimical to the management of the refuge.

Since the following regulation is a relaxation of the existing restrictions applicable to the Wichita Mountains Wildlife Refuge, notice and public procedure thereon are not required (60 Stat. 237; U. S. C. 1001, et seq.).

Effective immediately upon publication in the FEDERAL REGISTER, § 32.188 is revised to read as follows:

§ 32.188 *Use of boats.* The use of boats or floating devices of any description is prohibited on all waters of the refuge except for official purposes by the Oklahoma Game and Fish Commission and by representatives of the Fish and Wildlife Service authorized to enforce the laws and regulations applicable to the refuge or to fishing in Oklahoma: *Provided*, That on the waters of Elmer Thomas Lake within the refuge rowboats may be used for recreational purposes and boats powered by outboard motors may be used for fishing purposes only at all times except during the waterfowl hunting season. No racing craft or inboard motorboats may be used on Elmer Thomas Lake within the refuge.

(Sec. 10, 45 Stat. 1222, 16 U. S. C. 715i)

Dated: November 30, 1953.

O. H. JOHNSON,
*Acting Director.*

# PROPOSED RULE MAKING

## DEPARTMENT OF AGRICULTURE

### Bureau of Animal Industry

[ 9 CFR Part 151 ]

RECOGNITION OF BREEDS AND BOOKS OF RECORD OF PUREBRED ANIMALS

DOGS

Notice is hereby given that the Secretary of Agriculture, pursuant to the authority vested in him by section 201, paragraph 1606 of the Tariff Act of 1930, as amended (19 U. S. C. and Supp., sec. 1201, par. 1606), proposes to recognize the book of record of purebred dogs entitled "Livre des Origines Français" sponsored by the Société Centrale Canine pour l'Amélioration des Races de Chiens en France, 3 Rue de Choiseul, Paris 2, France, of which Mr. G. Guilbert is President, and to amend the regulations governing the recognition of breeds and books of record of purebred animals by adding the name of the stud book to the list of books of record named in 9 CFR 151.10 (a), as amended, under the subheading "Dogs".

Any person who wishes to submit written data, views, or arguments concerning the proposed action may do so by filing them with the Chief of the Bureau of Animal Industry, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within thirty days after the date of publication of this notice in the FEDERAL REGISTER.

(Sec. 201, Par. 1606, 46 Stat. 673 as amended by 62 Stat. 161; 19 U. S. C. and Supp., Sec. 1201, Par. 1606)

Done at Washington, D. C., this 30th day of November 1953.

TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10145; Filed, Dec. 3, 1953; 8:48 a. m.]

### Production and Marketing Administration

[ 9 CFR Part 201 ]

REVISION OF REGULATIONS UNDER PACKERS AND STOCKYARDS ACT

EXTENSION OF TIME FOR SUBMITTING DATA, VIEWS OR ARGUMENTS

Notice is hereby given of an extension, to and including January 7, 1954, of the period of time within which any interested person may submit written data, views, or arguments concerning the proposed revision of the regulations under the Packers and Stockyards Act, 1921, as amended and supplemented (9 CFR 201 et seq.; 7 U. S. C. 181 et seq.).

Notice of rule making concerning the proposed revision was published in the FEDERAL REGISTER on November 7, 1953 (18 F. R. 7027).

Done at Washington, D. C., this 30th day of November 1953.

TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## FEDERAL COMMUNICATIONS COMMISSION

[ 47 CFR Parts 2, 6, 10, 11 ]

[Docket No. 10777]

PUBLIC SAFETY, AND INDUSTRIAL RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of Parts 10 and 11 of the Commission's rules governing Public Safety and Industrial Radio Services, respectively, to permit Operational Fixed Stations licensed to a State to provide coordinated service to State agencies for the handling of public safety, administrative and agricultural information traffic on a non-common-carrier basis; Docket No. 10777.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The State of California has filed a petition requesting the Commission to

amend Parts 10 and 11 of its rules and regulations so as to permit the use of operational fixed stations licensed to a State to provide coordinated service to certain State agencies which are now licensees in the Public Safety Radio Services, other State agencies which are eligible to become licensees in the Public Safety Radio Services and the Federal State Market News Service of California. In addition, petitioner asks that any facilities licensed for the above purposes be permitted to use any offpeak circuit capacity for general administrative communications of the State Government. Under the Commission's existing rules, organizations such as the Federal State Market News Service may not be authorized to use frequencies in either the Industrial or Public Safety Radio Services, other State agencies which are authorized for the transmission of State administrative traffic. Petitioner specifically requests that the Commission's rules be amended substantially as follows:

(a) The definition of "Agriculture Service" in § 6.3 of the Commission's rules be transferred to, and become a part of, § 2.1 of the Commission's rules.

(b) Sections 10.7 and 11.6 of the Commission's rules be amended to provide that agencies of a State Government eligible to use the same Operational Fixed frequencies may enter into cooperating arrangements to share the use of stations employing such frequencies.

(c) Section 11.451 or § 11.501 of the Commission's rules be amended to provide that a State Agency engaged in the collection, transmission and dissemination of agricultural market news in conjunction with the United States Department of Agriculture is eligible to become a licensee in the "Relay Press Radio" or "Special Industrial Radio" Service.

(d) Sections 11.452 and 11.453 or § 11.502 and § 11.503 of the Commission's rules (depending on whether § 11.451 or § 11.501 is amended) be amended to provide that only the frequencies assignable to Operational Fixed Stations or frequencies made available to Agriculture Stations by § 2.104 (a) of the Commission's rules will be licensed to Agriculture Stations.

3. The Commission has not made any determination as to whether amendments of the type proposed by the State of California would be in the public interest and the Commission is not now proposing specific amendments to its rules. However, this notice of proposed rule making is being issued to afford interested parties an opportunity to present their views to the Commission concerning the proposal advanced by the State of California.

4. The proposed amendments are issued pursuant to the authority of sections 4 (i) and 303 of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendment should not be adopted should file with the Commission on or before January 15, 1954, a written statement or brief setting forth his comments. Persons desiring to support the amendment may also file comments by the same date. Comments or briefs in reply to the original comments or briefs may be filed within ten days from the last day for filing said original briefs or comments. The Commission will consider all comments and briefs before taking final action. An original and fourteen copies of each brief or written statement should be filed, as required by § 1.764 of the Commission's rules and regulations.

Adopted: November 25, 1953.

Released: November 30, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10165; Filed, Dec. 3, 1953; 8:53 a. m.]

## FEDERAL POWER COMMISSION

### [ 18 CFR Part 11 ]

[Docket No. R-120]

ANNUAL CHARGES PRESCRIBED FOR LICENSEES

DISCRETIONARY REDUCTION

NOVEMBER 25, 1953.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Under section 10 (e) of the Federal Power Act, licensees are required to pay reasonable annual charges to be fixed by the Commission for, among others, the purpose of reimbursing the United States for the costs of administration of Part I of the act, with the proviso that State and municipal licensees are entitled to certain exemptions thereunder. Those charges are generally assessed by the Commission in accordance with the provisions of § 11.20 of its general rules and regulations (18 CFR 11.20).

3. The act of August 15, 1953 (Pub. Law 278, 83d Cong., 67 Stat. 587) provides that in determining the amount of annual charges applicable to any project owned by a State or municipality, the Commission may determine those charges with reference to the actual cost of services incurred by the Commission with respect to the project. This provision, in effect, gives the Commission discretionary authority to establish an alternative method for determining annual charges for States and municipal licensees, other than the uniform formula now applicable to all licensees under § 11.20 of the Commission's rules (18 CFR 11.20). In order to determine annual charges on a project basis as permitted in the new statute, it would be necessary to establish an additional system of cost accounting for State and municipal projects. Because of the additional cost resulting from the establishment and administration of any such cost-accounting system and in view of the fact that the Commission has, on the average over the past several years, collected in annual administrative charges an amount which has not been greatly in excess of the annual cost of administration of Part I of the act, no change is contemplated at this time in the present method of determining annual administrative charges for State and municipal licensees provided in § 11.20 of the Commission's rules.

4. Since the act referred to in paragraph 3, above, also provides that the accounting requirements of sections 4 (b), 301 and 302 of the Federal Power Act shall not be applicable to any project owned by a State or municipality (except that the provisions of section 4 (b) of the act shall continue to be applicable to any license for a hydroelectric project in the International Rapids sections of the St. Lawrence River), the Commission is relieved of the administration of cost accounting with respect to such projects. This fact makes it reasonable to grant some reduction in annual charges assessed pursuant to § 11.20 of the Commission's rules to reflect the saving resulting to the Commission.

5. Pursuant to the authority vested in it by section 10(e) of the Federal Power Act and Public Law 278 (67 Stat. 587), the Commission proposes to amend its rules by the addition of § 11.28 to grant a reduction in annual charges for project licenses issued to States and municipalities, in the following form:

§ 11.28 *Discretionary reduction.* Until such time as the Commission shall otherwise order, a State or municipal licensee shall be entitled to a reduction in the amount of the annual charges fixed under a license heretofore or hereafter issued for a major project to the extent of thirty (30) percent of the net amount of the charges assessed for the purpose of reimbursing the United States for the cost of administration of Part I of the Federal Power Act as reduced by any exemption that may be granted pursuant to section 10(e) of the act: *Provided, however,* That nothing herein shall apply to any hydroelectric development in the International Rapids section of the St. Lawrence River, United States and Canada. The reduction herein granted shall be applicable to annual charges for periods from and after January 1, 1954.

6. Any interested person may submit to the Federal Power Commission, Washington 25, D. C., not later than 30 days from the date of the publication of this notice in the FEDERAL REGISTER, data, views and comments in writing concerning the proposed amendment. The Commission will consider these written submittals before acting upon the proposed amendments.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10141; Filed, Dec. 3, 1953; 8:47 a. m.]

## DEPARTMENT OF THE INTERIOR

### Office of the Secretary

AGUA CALIENTE (PALM SPRINGS) BAND OF MISSION INDIANS OF CALIFORNIA

FEDERAL INDIAN LIQUOR LAWS

Pursuant to the act of August 15, 1953 (Pub. Law 277, 83d Cong., 1st Sess.), I certify that the following ordinance relating to the application of the Federal Indian liquor laws on the Agua Caliente Reservation was duly adopted by the Agua Caliente (Palm Springs) Band of Mission Indians of California which has jurisdiction over the area of Indian country included in the resolution:

Whereas Public Law 277, 83d Congress, approved August 15, 1953, provides that sections 1154, 1156, 3113, 3488 and 3618 of title 18, United States Code, commonly referred to as the Federal Indian liquor laws, shall not apply to any act or transaction within any area of Indian country provided such act or transaction is in conformity with both the laws of the State in which such act or transaction occurs and with an ordinance duly adopted by the tribe having jurisdiction over such area of Indian country, certified by the Secretary of the Interior, and published in the FEDERAL REGISTER.

Therefore, be it resolved that the introduction, sale or possession of intoxicating beverages shall be lawful within the Indian country under the jurisdiction of the Agua Caliente (Palm Springs) Band of Mission Indians: *Provided*, That such introduction, sale or possession is in conformity with the laws of California.

Be it further resolved that any tribal laws, resolutions or ordinances heretofore enacted which prohibit the sale, introduction or possession of intoxicating beverages are hereby repealed.

ORME LEWIS,
*Assistant Secretary of the Interior.*

NOVEMBER 19, 1953.

## DEPARTMENT OF COMMERCE

### Bureau of the Census

LUMBER, GLASS, STEEL AND MACHINERY PRODUCTS

NOTICE OF CONSIDERATION FOR SURVEYS

Notice is hereby given that the Bureau of the Census is considering a proposal to conduct annual surveys of the products listed below, under the provision of the act of Congress approved June 19, 1948, 62 Stat. 478. These commodities are significant in the lumber, glass, steel and machinery areas of manufacturing and on the basis of information and recommendations received by the Bureau of the Census, the data have significant application to the needs of the public and industry and are not publicly available from non-Governmental or other Governmental sources.

Such surveys, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

Information will be collected from establishments engaged in the production of the following products: Lumber, Glass containers, Steel mill products, Power cranes and shovels.

Report forms furnishing data on shipments and or production will be required from all establishments engaged in the production of the specified items with the exception of the lumber survey, which will be conducted on a sample basis, and the glass containers survey where establishments that file the monthly report on glass containers will not need to submit an annual report on those products. In addition, data on manufacturers' stocks will be required for lumber and glass containers and data on receipts and consumption will be required for steel mill products. Copies of the proposed forms are available on request to the Director, Bureau of the Census, Washington 25, D. C.

Any suggestions or recommendations concerning the subject matter of these proposed surveys should be submitted in writing to the Director of the Census and will receive consideration.

[SEAL] ROBERT W. BURGESS,
*Director.*

Approved:

SINCLAIR WEEKS,
*Secretary of Commerce.*

SALES, CREDIT BUSINESS, BAD DEBT LOSSES, AND OPERATING EXPENSES OF WHOLESALERS 1953

NOTICE OF CONSIDERATION FOR SURVEYS

Notice is hereby given that the Bureau of the Census is considering a proposal to conduct an annual wholesale trade survey of annual sales, cash-credit business, bad debt losses, operating expenses, and end-of-year receivables under the provisions of the act of Congress approved June 19, 1948, 62 Stat. 478. This survey will provide important information on these phases of wholesale trade in the various kinds of business and, on the basis of information and recommendations received by the Bureau of the Census, the data have significant application to the needs of the public, and the distributive trade and other government agencies, and are not publicly available from non-governmental or other governmental sources.

Such survey, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

The survey will cover merchant wholesalers as defined in the Standard Industrial Classification Manual published by the Bureau of the Budget. Reports will be required from a sample of merchant wholesalers in the United States in order to provide information on annual sales figures, sales-expense ratios, sales-receivables ratios, credit-bad debt loss ratios, and notes and accounts receivable at the end of the year. As the survey is based on a probability sample, it will be possible to determine the accuracy or sampling reliability of the findings. The sample of wholesale firms required to report the above information will be based on sales size and trade classifications of establishments as shown in the latest Census of Business covering the year 1948, as supplemented by records of new businesses maintained by the Bureau of Old Age and Survivors' Insurance.

Copies of the proposed form and a description of the collection methods are available on request to the Director, Bureau of the Census, Washington 25, D. C.

Any suggestions or recommendations concerning the subject matter of this proposed survey should be submitted in writing to the Director of the Census and will receive consideration.

[SEAL] ROBERT W. BURGESS,
*Director.*

Approved:

SINCLAIR WEEKS,
*Secretary of Commerce.*

RECEIPTS OF SERVICE ESTABLISHMENTS WITH CERTAIN SUPPLEMENTARY DATA FOR MOTION PICTURE THEATERS, HOTELS, MOTELS AND TOURIST COURTS, AND LAUNDRY AND CLEANING ESTABLISHMENTS

NOTICE OF CONSIDERATION FOR SURVEYS

Notice is hereby given that the Bureau of the Census is considering a proposal to conduct an annual service trade survey of the annual receipts of selected service trades with supplementary information for certain of these trades, as of the end of the year, under the provisions of the act of Congress approved June 19, 1948, 62 Stat. 478. The supplementary information for motion picture theaters will consist of number of admissions, seating capacity, receipts from admissions, amount of admissions taxes; and other receipts for hotels and motels, number of rented units, percentage of occupancy, number of rooms for transients and residential guests, receipts for room rentals, sales of meals and alcoholic beverages; for laundry and cleaning establishments, receipts from cash and carry and from delivered work, type and capacity of laundering equipment, capacity of cleaning equipment. This survey will provide the only continuing source of basic information in the service trades. On the basis of information and recommendations received by the Census Bureau, the data have significant application to the needs of the public, the representatives and members of the trades involved, governmental agencies, and are not publicly available from non-governmental or other governmental sources.

Such survey, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

Reports will not be required from all service trades in the United States but will be confined to the following groups as described in the Standard Industrial Classification Manual issued by the Technical Committee on Industrial Classification, Division of Statistical Standards, Bureau of the Budget:

| Major group or industry No.: | Title |
|---|---|
| 701 | Hotels. |
| 7031 | Auto courts, etc. (part). |
| 72 | Personal services. |
| 75 | Automobile repair service and garages. |
| 76 | Miscellaneous repair services. |
| 7831 | Motion picture theaters. |

Not all establishments engaged in the kinds of service mentioned above will be required to file reports. A probability sample has been designed which will provide the type of information outlined in paragraph one above and which will produce results, the accuracy or sampling variability of which can be measured. Reports will be requested from establishments selected in accordance with the sample design on the basis of their volume of receipts and location in Census Sample Areas. Reports will also be requested from some service firms which operate establishments outside Census Sample Areas but whose headquarters are located therein.

Copies of the proposed forms and a description of the collection methods are available on request to the Director, Bureau of the Census, Washington 25, D. C.

Any suggestions or recommendations concerning the subject matter of this survey should be submitted in writing to the Director of the Census and will receive consideration.

[SEAL] ROBERT W. BURGESS, *Director.*

Approved:

SINCLAIR WEEKS, *Secretary of Commerce.*

## Federal Maritime Board

MEMBER LINES OF TRANS-ATLANTIC PASSENGER CONFERENCE AND GULF MEDITERRANEAN PORTS CONFERENCE

NOTICE OF AGREEMENTS FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 120-73 between the member lines of the Trans-Atlantic Passenger Conference modifies the basic agreement of the conference (No. 120) to provide for sale of transportation by airlines having arrangements with a member line for the interchange on a commission basis of trans-atlantic passenger traffic on tickets or exchange orders issued by or transferred from such airlines.

(2) Agreement No. 134-18 between the member lines of the Gulf Mediterranean Ports Conference modifies the basic agreement of that Conference (134) to exclude from the scope of the agreement sulphur, in bulk, grain in bulk, and phosphate rock, in bulk. Agreement 134 as presently in effect includes such commodities within its scope only to the extent of fixing the maximum brokerage that may be paid on grain, and providing that brokerage on sulphur and phosphate rock will be governed by the customary usage of the trade.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: November 30, 1953.

By order of the Federal Maritime Board.

## CIVIL AERONAUTICS BOARD

[Docket No. 5993]

TRANS-TEXAS AIRWAYS

NOTICE OF HEARING

In the matter of the application of R. E. McKaughan and Trans-Texas Airways for approval of control and interlocking relationships under sections 408 and 409 of the Civil Aeronautics Act of 1938, as amended.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, that hearing in the above-entitled proceeding is assigned to be held on December 10, 1953, at 10:00 a. m., e. s. t., in Room 2070, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Curtis C. Henderson.

Dated at Washington, D. C., December 1, 1953.

[SEAL] FRANCIS W. BROWN, *Chief Examiner.*

## FEDERAL POWER COMMISSION

[Docket No. G-2240]

WASHINGTON GAS LIGHT CO. AND POTOMAC GAS CO.

ORDER FIXING DATE OF HEARING

Washington Gas Light Company (Washington), a corporation organized and existing under the laws of the United States of America, and the Potomac Gas Company (Potomac), a Virginia corporation, both having their principal place of business at Eleventh and H Streets NW., Washington, D. C., on September 4, 1953, filed a joint application, as supplemented on October 29, 1953, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Washington to acquire and operate all of the facilities and properties of Potomac, all as more fully described in said joint application on file with the Commission and open to public inspection.

The Commission finds:

(1) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Washington and Potomac having requested that their joint application be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest, or petition having been filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on October 20, 1953 (18 F. R. 6653).

(2) It is reasonable and in the public interest and good cause exists for fixing the date of hearing in this proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 7, 1953, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the Matters involved and the issues presented by the application herein: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: November 30, 1953.

Issued: November 30, 1953.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 53-10142; Filed, Dec. 3, 1953; 8:48 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3127]

DUQUESNE LIGHT CO.

SUPPLEMENTAL ORDER PERMITTING ISSUANCE AND SALE AT COMPETITIVE BIDDING OF ADDITIONAL SHARES OF PREFERRED STOCK

NOVEMBER 30, 1953.

Duquesne Light Company ("Duquesne"), a subsidiary of Philadelphia Company, a registered holding company and a subsidiary of Standard Gas and Electric Company and Standard Power and Light Corporation, both also registered holding companies, filed an application and amendments thereto, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-50 promulgated thereunder, regarding, among other things, the issue and sale by Duquesne of 100,000 shares of its authorized but unissued preferred stock as a new series to be known as its "... Percent Preferred Stock", of the par value of $50 per share ("New Preferred Stock").

The Commission, by order dated September 8, 1953, granted said application, as amended, subject among other things, to a reservation of jurisdiction with respect to the fees and expenses to be incurred by Duquesne in connection with the proposed issuance and sale of New Preferred Stock, except that the proposed sale of the shares of New Preferred Stock was not to be consummated until the results of competitive bidding, pursuant to Rule U-50, were made a matter of record and a further order or orders issued, for which purpose jurisdiction also was reserved;

On November 25, 1953, Duquesne filed a further amendment to its application in which amendment Duquesne states that pursuant to the aforesaid order, on September 9, 1953, Duquesne published a public invitation for the presentation on September 17, 1953, of proposals for the purchase of said shares of its New Preferred Stock, subject to a 30-day postponement period, and that on September 16, 1953, Duquesne postponed the time for presentation of such proposals to a time and date subsequently to be determined by Duquesne;

Said amendment further states that Duquesne now proposes to publish a second public invitation for proposals to be submitted on December 7, 1953, and Duquesne requests that the 10-day notice period provided for by Rule U-50 with respect to the proposed sale of said shares of New Preferred Stock be shortened to six days;

The Commission having examined said application as further amended and again finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and that no adverse findings are necessary; and the Commission deeming it appropriate and in the public interest and the interest of investors and consumers to grant said application, as further amended, subject to the terms and conditions and reservation of jurisdiction hereinafter indicated;

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act that said application, as further amended, be and the same is hereby granted forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further condition that the results of the competitive bidding with respect to the proposed sale of shares of New Preferred Stock shall have been made a matter of record herein and a further order or orders shall have been entered with respect thereto, which order or orders may contain such further terms and conditions as may then be deemed appropriate, for which purpose jurisdiction be, and the same hereby is, reserved.

*It is further ordered*, That the jurisdiction heretofore reserved over all fees and expenses incurred or proposed to be incurred in connection with the issuance and sale of New Preferred Stock be, and the same hereby is, continued.

*It is further ordered*, That the request of Duquesne to shorten the 10-day notice period, provided by Rule U-50, to elapse between the time of inviting bids and the entering into of agreements with respect to the proposed sale of New Preferred Stock be, and the same hereby is, granted.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28692]

BRICK FROM IOWA TO MINNESOTA AND NORTH DAKOTA

APPLICATION FOR RELIEF

NOVEMBER 30, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent for carriers parties to schedules listed below.

Commodities involved: Brick and related articles, also drain title, carloads.

From: Sioux City and Sergeant Bluff, Iowa.

To: Points in Minnesota and North Dakota.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: Great Northern Railway Company, I. C. C. A-7678, supp. 29; Great Northern Railway Company, I. C. C. A-8051, supp. 227; Great Northern Railway Company, I. C. C. A-8114, supp. 63. Minneapolis, St. Paul & Sault Ste. Marie Railroad Company, I. C. C. No. 7403, supp. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28693]

FEEDING AND SORGHUM GRAINS FROM IOWA AND MISSOURI TO COLORADO AND WYOMING

APPLICATION FOR RELIEF

NOVEMBER 30, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Feeding grains and sorghum grains, as described in the application, carloads.

From: Points in Iowa and Missouri.

To: Points in Colorado and Wyoming.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3306, supp. 93.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

PIPE FROM BROOKLYN, N. Y. STATIONS TO THE SOUTHWEST

APPLICATION FOR RELIEF

NOVEMBER 30, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Steel or wrought iron or steel pipe and related articles, carloads.

From: Stations on the South Brooklyn Railway, viz.: Bath Beach, Coney Island, Gravesend, Greenwood, Kensington and 39th Street and 3d Avenue, N. Y.

To: Points in Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

Grounds for relief: Rail competition, circuity, to maintain grouping, and additional origins.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3982, supp. 41.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28703]

CEMENT FROM ALPENA, MICH., TO MILWAUKEE, WIS.

APPLICATION FOR RELIEF

DECEMBER 1, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Cement, carloads.

From: Alpena, Mich.

To: Milwaukee, Wis.

Grounds for relief: Competition with rail carriers, circuity, to maintain grouping, and additional origins.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1329, supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

## TITLE 6—AGRICULTURAL CREDIT

### Chapter I—Farm Credit Administration

[Farm Credit Administration Order 585]

CONTINUATION OF ORDERS, REGULATIONS, AND SIMILAR INSTRUMENTS

DECEMBER 4, 1953.

1. All orders, regulations, rules, delegations of authority, directives, and other actions of the Farm Credit Administration whether issued, made, or taken by the Governor or through the exercise of authority delegated by the Governor, which were in effect immediately prior to the effective date (December 4, 1953) of the Farm Credit Act of 1953 (Pub. Law 202, 83d Cong.), are hereby continued in effect except to the extent modified by law and by this order.

2. All orders, regulations, rules, delegations of authority, directives, and other actions continued in effect by the first paragraph of this order which refer to an officer or employee of the Farm Credit Administration by the title shown below in the column designated "First Column" are hereby amended to refer to the title shown below in the column designated "Second Column" directly opposite the title listed in the "First Column".

| *First Column* | *Second Column* |
|---|---|
| Land Bank Commissioner | Deputy Governor, and Director of Land Bank Service. |
| Production Credit Commissioner | Deputy Governor, and Director of Production Credit Service. |
| Intermediate Credit Commissioner | Deputy Governor, and Director of Intermediate Credit Bank Service. |
| Cooperative Bank Commissioner | Deputy Governor, and Director of Cooperative Bank Service. |
| Deputy Land Bank Commissioner | Deputy Director of Land Bank Service. |
| Deputy Production Credit Commissioner. | Deputy Director of Production Credit Service. |
| Deputy Intermediate Credit Commissioner. | Deputy Director of Intermediate Credit Bank Service. |
| Deputy Cooperative Bank Commissioner. | Deputy Director of Cooperative Bank Service. |
| Assistant Intermediate Credit Commissioner. | Assistant Director of Intermediate Credit Bank Service. |
| Assistant Cooperative Bank Commissioner. | Assistant Director of Cooperative Bank Service. |
| Assistant Deputy Land Bank Commissioner. | Assistant Deputy Director of Land Bank Service. |
| Assistant Deputy Production Credit Commissioner. | Assistant Deputy Director of Production Credit Service. |
| Assistant Deputy Intermediate Credit Commissioner. | Assistant Deputy Director of Intermediate Credit Bank Service. |
| Assistant Deputy Cooperative Bank Commissioner. | Assistant Deputy Director of Cooperative Bank Service. |

3. The Deputy Governor and Director of Land Bank Service is hereby designated a member of the Board of Directors of the Federal Farm Mortgage Corporation.

4. The Deputy Governor and Director of Cooperative Bank Service is hereby designated a member of the Board of Directors of the Central Bank for Cooperatives, Chairman of said Board of Directors, and Executive Officer of said Bank.

## TITLE 7—AGRICULTURE

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

[Amdt. 1]

### PART 722—COTTON

MARKETING QUOTA REGULATIONS RELATING TO APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT FOR 1954 CROP OF UPLAND COTTON TO STATES, COUNTIES AND FARMS

*Basis and purpose.* The purpose of this amendment is to establish the county acreage allotments for the 1954 crop of upland cotton pursuant to section 344 (e) of the Agricultural Adjustment Act of 1938, as amended. Notice of the proposed establishment of such allotments was given on October 21, 1953 (18 F. R. 6661), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003).

Farmers engaged in the production of upland cotton in 1953 will determine in a referendum to be held on December 15, 1953, whether marketing quotas will be in effect on the 1954 crop of upland cotton. In order that county acreage allotments may be apportioned to farms and notices of individual farm acreage allotments mailed, insofar as practicable, so as to be received by farmers prior to the referendum, as required by section 362 of the Agricultural Adjustment Act of 1938, as amended, it is essential that this amendment be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date requirements of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest, and the county acreage allotments contained herein shall be effective upon filing of this document with the Director, Division of the FEDERAL REGISTER.

Section 722.516 (e) of the Marketing Quota Regulations Relating to Apportionment of the National Acreage Allotment for the 1954 Crop of Upland Cotton to States, Counties, and Farms (18 F. R. 7531) is amended to read as follows:

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (b) of this section and (2) the acreages, if any, allocated to the county by the State committee from the State acreage reserve as adjustments for trends in acreage and for abnormal conditions adversely affecting plantings, pursuant to subparagraphs (1) and (2) of paragraph (c) of this section. The county acreage allotment for each county is set out below. The amounts of the acreages set aside and reserved by each county committee pursuant to § 722.517 (a) and (b) are available for inspection by any interested person at the office of the county committee. Also available for inspection at the office of the county committee are the data pertaining to the establishment of administrative areas in accordance with paragraph (f) of this section.

| County: ALABAMA | *County acreage allotments* |
|---|---|
| Autauga | 9,614 |

## Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

**Subchapter B—Sugar Requirements and Quotas**

[Sugar Reg 814.20, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS

MAINLAND CANE SUGAR AREA, 1953

*Basis and purpose.* This amendment is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of revising Sugar Regulation 814.20 which allots the 1953 sugar quota for the mainland cane sugar area.

Revision of Sugar Regulation 814.20 is necessary (1) to give effect to Amendment 7 to Sugar Regulation 813 (18 F. R. 7159) which prorated a deficit in the 1953 quota for the domestic beet area and increased the 1953 quota for the mainland cane area by 7,531 short tons, raw value, to a total of 517,291 short tons, raw value, and (2) to prorate to other allottees the quantity released by one allottee.

On June 23, 1953, a hearing was held in New Orleans, Louisiana, for the purpose of receiving evidence, to enable the Secretary to make a fair, efficient and equitable distribution of the 1953 sugar quota for the mainland cane sugar area.

At that hearing, or following the hearing, 50 of the 51 allottees waived their right to a further hearing for the purpose of (1) giving effect to a change in the quota for the mainland cane area or (2) reallotting to other allottees any quantities released by one or more allottees provided the revised allotments were made on the same basis as the original allotments. Since the initial order was issued (S. R. 814.20 (18 F. R. 5289)), the quota for the mainland cane sugar area has been increased by 7,531 short tons, raw value, due to an additional deficit in the quota for the beet area (S. R. 813, Amendment 7 (18 F. R. 7159)). Also, 660 short tons, raw value, have been released by one allottee.

Since one allottee failed to waive its right to a hearing prior to the revision of the initial allotment order, it became necessary to hold a public hearing. Accordingly, pursuant to the applicable rules of practice and procedure (7 CFR 801.1 et seq.), a notice was issued on November 18, 1953, of a public hearing to be held at Washington, D. C., on November 24, 1953, for the purpose of receiving evidence to enable the Secretary to make a fair, efficient and equitable distribution of the revised 1953 sugar quota for the mainland cane sugar area.

At the hearing the Government witness proposed that the revised allotments should be made on the same basis as the initial allotments. No other testimony was offered. The revised allotments in the amounts set forth in this order are established on the same basis as those in the initial order, and afford a fair, efficient and equitable distribution of the quota, as required by section 205 (a) of the act.

Because of the limited time remaining in the quota year to which the allotments apply it is imperative that this amendment became effective at the earliest possible date in order to permit continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and consequently this order shall be effective when published in the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, paragraph (a) of § 814.20 is hereby amended to read as follows:

§ 814.20 *Allotment of the 1953 sugar quota for the mainland cane sugar area*—(a) *Allotments.* The 1953 sugar quota for the mainland cane sugar area is hereby allotted to the following processors in amounts which appear opposite their respective names:

## Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 7]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.307 *Navel Orange Regulation 7*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 14 (18 F. R. 5638), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 3, 1953, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section

effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., December 6, 1953, and ending at 12:01 a. m., P. s. t., December 13, 1953, is hereby fixed as follows:

(i) District 1: 1,200 carloads;

(ii) District 2: Unlimited movement;

(iii) District 3: 125 carloads;

(iv) District 4: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section "handled," "handler," "carloads," "prorate base," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 4th day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

[Lemon Reg. 514]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.621 *Lemon Regulation 514*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified in this section was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 2, 1953, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 6, 1953, and ending at 12:01 a. m., P. s. t., December 13, 1953, is hereby fixed as follows:

(i) District 1: 30 carloads;

(ii) District 2: 200 carloads;

(iii) District 3: 20 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended market-

ing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 513 (18 F. R. 7584) and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 3d day of December 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch, Production and Marketing Administration.*

## PART 959—IRISH POTATOES GROWN IN THE COUNTIES OF CROOK, DESCHUTES, JEFFERSON, KLAMATH, AND LAKE IN OREGON, AND MODOC AND SISKIYOU IN CALIFORNIA

### LIMITATION OF SHIPMENTS

*Findings.* (1) Pursuant to Marketing Agreement No. 114 and Order No. 59, as amended (7 CFR Part 959), regulating the handling of Irish potatoes grown in the counties of Crook, Deschutes, Jefferson, Klamath and Lake in the State of Oregon, and Modoc and Siskiyou in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Oregon-California Potato Committee, established pursuant to said marketing agreement and order, as amended, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any preparation on the part of handlers which cannot be completed by the effective date, and (iv) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

*Order as amended.* The provisions of § 959.309 (b) (4) and (5) (FEDERAL REGISTER, August 29, October 22, and November 10, 1953, 18 F. R. 5163, 6697, 7055), are hereby amended to read as follows:

(4) The limitations set forth in subparagraph (1) of this paragraph shall not be applicable to shipments of potatoes for the following purposes: (i) Grading or storing in the production area, (ii) seed, (iii) export, (iv) canning, freezing, dehydration, or manufacture or conversion into starch, flour and alcohol, (v) charity, and (vi) livestock feed within the production area.

(5) Each handler making shipments of potatoes pursuant to subparagraph (4) of this paragraph shall (except for shipments of potatoes for grading or storing in the production area, and shipments of potatoes for livestock feed) (i) file an application with the committee pursuant to § 959.130 for permission to make such shipments, (ii) pay assessments on such shipments pursuant to § 959.41, and (iii) have such shipments (except shipments of seed potatoes) inspected pursuant to § 959.60, and for each shipment made pursuant to subdivisions (iv) and (v) of subparagraph (4) of this paragraph shall furnish a record of shipment applicable thereto to the committee: *Provided*, That each application to ship potatoes made pursuant to subdivisions (iv) and (v) of subparagraph (4) of this paragraph shall be accompanied by the applicant handler's certification and buyer's certification that the potatoes to be shipped are to be used for the purpose stated in the application: *Provided further*, That each handler agrees in his application to furnish a copy of the bill of lading on each such shipment and to bill each such shipment directly to the applicable processor: *And provided further*, That each handler making shipments of potatoes to export, pursuant to subdivision (iii) of subparagraph (4) of this paragraph, shall include in his application applicable thereto, the export license number and shall enter such number on the Federal-State Inspection Certificate and Bill of Lading applicable to each such shipment, or in the event that no export license is required on such shipment, the handler thereof shall furnish the committee with a copy of the Department of Commerce Export Declaration Form No. 7525-V applicable to such shipment.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 1st day of December 1953, to become effective 12:01 a. m., P. s. t., December 4, 1953.

[SEAL] S. R. SMITH,
*Director, Fruit and Vegetable Branch.*

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

### PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

### PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

### MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1952 Supp., Part 146; 18 F. R. 352, 1207, 4376, 4950) are amended as indicated below:

1. Part 141 is amended by adding the following new section:

§ 141.420 *Bacitracin - tyrothricin - neomycin troches; potency and moisture.* Proceed as directed in § 141.410 (a).

2. In § 146.77 *Dibenzylethylenediamine dipenicillin G for aqueous injection* subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the period at the end thereof to a comma and adding the following clause: "except that the blank may be filled in with the date which is 24 months after the month during which the batch was certified, if the person who requests certification has submitted to the Commissioner results of tests and assays showing that after having been stored for such period of time such drug as prepared by him complies with the standards prescribed by paragraph (a) of this section."

3. In § 146.114 *Streptomycin sulfate oral veterinary* subparagraph (3) of paragraph (c) *Labeling* is amended by changing the figure "24" to "36".

4. In § 146.115 *Streptomycin sulfate powder oral veterinary* • • • subparagraph (1) (iii) of paragraph (c) *Labeling* is amended by changing the figure "18" to "36".

5. Section 146.304 *Chloramphenicol ophthalmic* is amended as follows:

a. Paragraph (a) *Standards of identity* • • • is amended by changing the second, third, and fourth sentences to read: "It may contain cortisone acetate. It is sterile. The chloramphenicol is of such quantity that when prepared as directed in its labeling the potency of such solution or suspension is not less than 1.0 milligram per milliliter and maintains its labeled potency after it has been kept for 10 days at room temperature. Such solution or suspension has a pH of 7.3 ± 0.2."

b. In paragraph (b) *Packaging*, fourth sentence, delete the words "shall contain not less than 25 milligrams and each".

c. In paragraph (c) *Labeling*, subparagraph (1) (v) is amended by inserting between the words "contains" and "preservatives" the words "cortisone acetate or".

d. Paragraph (c) *Labeling* is further amended by adding the following new subparagraph:

(4) On the label and labeling, if it contains cortisone acetate, after the name "Chloramphenicol ophthalmic," wherever it appears, the words "with cortisone acetate," in juxtaposition with such name.

e. In paragraph (d) *Request for certification; samples*, subparagraph (2) (i) is amended by inserting between the words "solution" and "prepared" the words "or suspension".

f. In paragraph (d) *Request for certification; samples*, subparagraph (3) (iii) is amended by changing the period at the end thereof to a comma and adding the following clause: "except if cortisone acetate is used, such package shall contain approximately 100 milligrams."

6. Section 146.403 (3) (iii) is amended to read:

§ 146.403 *Bacitracin tablets* • • •
(d) *Request for certification; samples* • • •
(3) • • •
(iii) In case of an initial request for certification, each other substance used in making the batch; 1 package of each containing approximately 5 grams.

7. Part 146 is amended by adding the following new section:

§ 146.420 *Bacitracin-tyrothricin-neomycin troches.* Bacitracin-tyrothricin-neomycin troches conform to all requirements, and are subject to all procedures, prescribed by § 146.413 for bacitracin-neomycin troches, except that:

(a) Each troche contains not less than 50 units of bacitracin.

(b) Each troche contains not less than 1 milligram of tyrothricin.

(c) In addition to the labeling prescribed for bacitracin-neomycin troches, each package shall bear on the outside wrapper or container and the immediate container the number of milligrams of tyrothricin in each troche of the batch.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 2 U. S. C. 371)

Dated: December 1, 1953.

[SEAL] OVETA CULP HOBBY,
*Secretary.*

[F. R. Doc. 53-10187; Filed, Dec. 4, 1953; 8:46 a. m.]

# TITLE 39—POSTAL SERVICE

## Chapter I—Post Office Department

### PART 58—REGISTRATION OF DOMESTIC MAIL MATTER

### REGISTRY RECEIPTS

In § 58.10, *Registry receipts*, amend paragraph (b) as follows:

a. Insert "(1)" after "(b) *Full value to be declared at time of mailing.*"

b. Add new subparagraph (2) to read as follows:

(2) The following standards are furnished merely as a guide in determining the value to be declared on representative types of matter presented for registration:

(i) Currency—full value.

(ii) Negotiable securities—market value on the date of mailing.

(iii) Jewelry and precious stones—full value.

(iv) Merchandise of all kinds—full value.

(v) Internal Revenue Documentary stamps and postage stamps—full value (in cases of stamps having philatelic value, the cost of replacement should be declared).

(vi) Nonnegotiable securities (including certificates of stock)—no intrinsic value. (If registry indemnity is desired, the sender may pay a fee higher than the minimum to provide for indemnification for the cost of duplication.)

(vii) Warehouse receipts—no intrinsic value. (If registry indemnity is desired, the sender may pay a fee higher than the minimum for indemnification for the cost of duplication.)

(viii) Valuable papers, such as checks, drafts, deeds, wills, abstracts, and the like—no value.

(R. S. 161, 396, secs 304, 309, 42 Stat. 24, 25, sec. 3, 45 Stat. 469, as amended; 5 U. S. C. 22, 369, 39 U. S. C. 381a)

[SEAL] ROSS RIZLEY,
*Solicitor.*

# TITLE 43—PUBLIC LANDS: INTERIOR

## Chapter I—Bureau of Land Management, Department of the Interior

### Subchapter S—Rights-of-Way

[Circular 1864]

### PART 244—RIGHTS-OF-WAY OTHER THAN FOR RAILROAD PURPOSES AND FOR LOGGING ROADS ON THE OREGON AND CALIFORNIA AND COOS BAY REVESTED LANDS

### DOCUMENTARY EVIDENCE OF WATER RIGHT

Paragraph (b) of § 244.6 is amended to read as follows:

§ 244.6 *Documents which must accompany application.* • • •

(b) *Evidence of water right.* If the project involves the storage, diversion, or conveyance of water, the applicant must file a statement of the proper State official, or other evidence, showing that he has a right to the use of the water. Where the State official requires an applicant to obtain a right-of-way as a prerequisite to the issuance of evidence of a water right, if all else be regular, a right-of-way may be granted conditioned only upon the applicant's filing the required evidence of water right from the State official within a specified reasonable time. The conditional right-of-way will terminate at the expiration of the time allowed.

(R. S. 161, 453, 2478; 5 U. S. C. 22, 43 U. S. C. 2, 1201)

### Subchapter A—General Rules and Regulations

### PART 120—ANNUAL, SPECIAL OR PERIODICAL REPORTS

### PERSONS FURNISHING CARS OR PROTECTIVE SERVICE; ANNUAL REPORT FORM B-1

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 18th day of November A. D. 1953.

The Matter of Annual Reports from Persons Furnishing Cars or Protective Service being under consideration, and it appearing that the changes in existing regulations to be effectuated by this order are only minor changes with respect to the data to be furnished, and that public rule-making procedures are unnecessary;

*It is ordered*, That the order dated December 10, 1952, In the Matter of Annual Reports from Persons Furnishing Cars or Protective Service (49 CFR 120.70) be, and it is hereby modified with respect to annual reports for the year ended December 31, 1953, and subsequent years, as follows:

§ 120.70 *Form prescribed for persons furnishing cars or protective service and owning 1,000 cars or more.* All persons furnishing cars or protective service to or on behalf of carriers by railroad or express companies within the scope of section 20 of Part I of the Interstate Commerce Act as amended, and owning 1,000 cars or more, are hereby required to file annual reports for the year ended December 31, 1953, and for each succeeding year until further order, in accordance with Annual Report Form B-1, which is hereby approved and made a part of this order.[1] The annual report shall be filed, in duplicate, in the Bureau of Transport Economics and Statistics, Interstate Commerce Commission, Washington 25, D. C., on or before March 31, of the year following the one to which it relates.

(Sec. 12, 24 Stat. 383, as amended, sec. 201, 54 Stat. 933; 49 U. S. C. 12, 904. Interprets or applies sec. 20, 24 Stat. 386, as amended; 49 U. S. C. 20)

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[F. R. Doc. 53-10204; Filed, Dec. 4, 1953; 8:50 a. m.]

[1] Form filed as part of the original document.

## TITLE 46—SHIPPING

### Chapter I—Coast Guard, Department of the Treasury

[CGFR 53-25]

MISCELLANEOUS AMENDMENTS TO CHAPTER

Notices regarding proposed changes in the rules and regulations governing vessel inspection were published in the FEDERAL REGISTER dated February 13, 1953, 18 F. R. 880–883, as Items II to XI, inclusive, and Item XIX, and in the FEDERAL REGISTER dated March 7, 1953, 18 F. R. 1334, as Item XX on the agenda to be considered by the Merchant Marine Council, and a public hearing was held by the Merchant Marine Council on March 24, 1953, in Washington, D. C. All comments submitted were considered and where practicable were incorporated into the regulations.

The various amendments to the rules and regulations for tank vessels in 46 CFR Parts 32, 33, and 34 (Subchapter D) are based on Item XX of the agenda considered by the Merchant Marine Council. The amendment to 46 CFR 32.01–10 (a) eliminates the requirements for rails on unmanned tank barges. The amendments to 46 CFR 33.35–1 and 33.35–5 require additional life preservers for personnel on watch in the engine room and pilothouse which shall be stowed in locations readily accessible to such personnel. The amendment to 46 CFR 33.55–10 (a) revises the requirement regarding equipment for the impulse-projected rocket type line-throwing appliance. The amendment to 46 CFR 34.20–1 (c) and (d) revises the requirements for oil fuel units or settling tanks. The amendment to 46 CFR 34.22–5 (d) will allow a minimum nominal diameter of $\frac{3}{4}$ inch for steam extinguishing pipe used in fixed fire extinguishing systems for lamp and paint rooms and similar spaces on tank ships constructed or converted on or after November 19, 1952.

The purpose of the amendment to 46 CFR 43.40–10 is to correct a typographical error in the "International Load Line certificate" (Form A–2). The purpose for amending 46 CFR 44.05–10 (b), 44.05–30, and 44.05–35, regarding load line markings and load line certificates for steam colliers, tugs, barges, and self-propelled barges when engaged in special services or coastwise and inter-island voyages, is to permit the use of the load line mark "MS" for those vessels operating on the Great Lakes when authorized under 46 CFR 45.01–15 and 45.01–17. These changes are based on Item XIX on the agenda considered by the Merchant Marine Council.

The purpose for amending 46 CFR 52.20–15, 55.07–15, 55.10–25 (c) (2), and 55.10–30, is to clarify various requirements regarding shell joints of boilers and unfired pressure vessels, bilge and ballast piping, and bilge pumps.

The various amendments to 46 CFR 56.01–10 (d) and (m), 56.05–3, and 56.05–5, deal with test procedures for qualified welders, radiography of welds and radiographic test procedures and use of magnetic particle testing of welds. These changes are based on Item II of the agenda.

The purpose for adding 46 CFR 57.01–15, regarding fuel oil for boilers, is that this requirement was inadvertently omitted when the regulations were revised and republished on October 18, 1952. The amendment to 46 CFR 61.20–20 (a) revises the requirements of inspection of boiler mountings and attachments to agree with the regulations which were in effect prior to November 19, 1952, since it was not intended that the inspections be changed.

The purpose for amending 46 CFR 67.01–30 (d) is to clarify the requirements regarding repairs, replacements, or alterations of boilers built and installed prior to July 1, 1935. The purpose for amending 46 CFR 67.10–10 (c) is to add requirements regarding riveted shell joints which were inadvertently omitted when the regulations were revised and published October 18, 1952.

The purpose for amending 46 CFR 71.20–15 (a), 71.25–10 (a), 72.40–1 (a), and 73.35–25 (b), regarding scope of initial inspection, scope of annual inspection, requirements for rails and guards, and door indicators and warning signals for class 3 watertight doors, is editorial in nature and clarifies the requirements which were published on October 18, 1952.

The amendments to 46 CFR 75.20–15 (kk) and 75.20–15 (n) establish requirements regarding emergency drinking water for lifeboats and life rafts. These amendments are based on Item III on the agenda.

The amendment to 46 CFR 75.45–15 revises the requirement regarding the length of service line for impulse-projected rocket type line-throwing appliance. This amendment is based on Item IV on the agenda.

The amendment to Table 76.05–1 (a) in 46 CFR 76.05–1 (a) revises the requirements regarding fire detecting systems in machinery spaces containing oil fuel units or settling tanks. This amendment is based on Item V of the agenda.

The purpose for amending 46 CFR 76.50–15 (a), (c) regarding spare charges for hand portable fire extinguishers, 77.13–1 (a), regarding radiotelegraph and radiotelephone, and 78.13–20, regarding manning of lifeboats and life rafts, is to clarify the requirements and to indicate applicability to motorboats carrying passengers for hire.

The purpose for adding 46 CFR 78.17–70, regarding radio apparatus for lifeboats, 78.17–75, regarding requirements for fuel oil, 78.33–20, regarding breaking of safety valve seal, and 78.37–5 (a) (12), regarding fuel oil data required to be logged, is to add requirements which were inadvertently omitted in the revision of the regulations published October 18, 1952. The purpose for amending 46 CFR 78.55–1 (a) is to clarify the master's and chief engineer's responsibility with respect to steam pressure of boilers.

The purpose for amending 46 CFR 91.20–15, regarding scope of initial inspection, and 91.25–10, regarding scope of annual inspection, is to clarify the regulations published October 18, 1952. The amendments to 46 CFR 94.20–15 (ii) and 94.20–25 (n) revise requirements regarding drinking water for lifeboats and life rafts. These amendments are based on Item III of the agenda.

The amendment to 46 CFR 94.45–15 (a) (3) revises the requirements regarding the service line for impulse-projected rocket type line-throwing appliance. This amendment is based on Item IV of the agenda.

The purpose for deleting 46 CFR 94.90–5 (b) is to remove from the regulations a duplicate requirement regarding daylight signalling lamp. The applicable requirements are in Subpart 113.60 of Subchapter J—Electrical Engineering of this chapter.

The amendment to 46 CFR 95.05–10 (a) (3) revises the requirements regarding fixed fire extinguishing systems in the engine room where oil fuel units or settling tanks are used. This amendment is based on Item V of the agenda.

The purpose for amending 46 CFR 95.50–15 (a) and (c), regarding spare charges for fire extinguishers, 96.13–1, regarding radiotelegraph and radiotelephone, 97.13–25 (a) and (c), regarding manning of lifeboats and life rafts, is to clarify the requirements which were previously published October 18, 1952.

The purpose for adding 46 CFR 97.15–50, regarding radio apparatus for lifeboats, 97.15–55, regarding requirements for fuel oil, 97.30–20, regarding breaking of safety valve seal, and 97.35–5 (a) (8), regarding fuel oil data required to be logged, is to add requirements which were inadvertently omitted when the regulations were revised and published October 18, 1952.

The purpose for amending 46 CFR 97.37–37 (d), regarding markings for emergency equipment, and 97.45–1 (a), regarding the master's and chief engineer's responsibility relating to steam pressure of boilers, is to clarify the requirements which were revised and published October 18, 1952.

The purpose for amending 46 CFR 112.55–1 (a) is to correct the general requirements regarding storage batteries which were published October 18, 1952.

The purpose for amending 46 CFR 157.20–35, regarding the minimum number of engineers necessary for the safe navigation of a vessel, is to correct the regulation to agree with the provisions of R. S. 4463, as amended (46 U. S. C. 222), and R. S. 4426, as amended (46 U. S. C. 404).

The amendments to 46 CFR 160.002–1 to 160.002–7, inclusive, revise and bring up to date the specification requirements for kapok life preservers. These amendments are based on Item VI of the agenda.

The amendments to 46 CFR 160.003–1 to 160.003–7, inclusive, revise and bring up to date the specification requirements for cork life preservers. These amendments are based on Item VII of the agenda.

The amendments to 46 CFR 160.004–1 to 160.004–7, inclusive, revise and bring up to date the specification requirements for balsa wood life preservers. These amendments are based on Item VII of the agenda.

The amendments to 46 CFR 160.005–1 to 160.005–7, inclusive, revise and bring up to date the specification requirements for fibrous glass life preservers. These amendments are based on Item VI of the agenda.

The deletion of 46 CFR 160.006–3 and the change in title for Subpart 160.006 cancel the specification requirements for re-covering of life preservers. This deletion is based on Item VII of the agenda.

The addition of 46 CFR 160.026–1 to 160.026–7, inclusive, as a new Subpart 160.026 establishes specification requirements regarding emergency drinking water in hermetically sealed containers. This new specification is based on Item III of the agenda.

The amendments to 46 CFR 160.035–1 to 160.035–11, inclusive, revise and bring up to date the specification requirements for lifeboats. These amendments are based on Item VIII of the agenda.

The amendment to 46 CFR 160.040–4 (c) revises the requirements for service lines for the impulse-projected rocket type line-throwing appliance. This amendment is based on Item IV of the agenda.

The addition of 46 CFR 162.027–1 to 162.027–6, inclusive, establishes specification requirements for combination solid stream and water spray fire hose nozzles as a new Subpart 162.027. This specification is based on Item IX of the agenda.

The amendments to 46 CFR 164.006–1 to 164.006–5, inclusive, revise and bring up to date the specification requirements for deck coverings for merchant vessels. These amendments are based on Item X of the agenda.

The amendments to 46 CFR 164.008–1 to 164.008–4, inclusive, revise and bring up to date the specification requirements for bulkhead panels for merchant vessels. These amendments are based on Item XI of the agenda.

The proposed amendments regarding the specification for incombustible materials considered as Item XII of the agenda were not approved and will be given further consideration and placed on a future agenda of the Merchant Marine Council.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate rules and regulations in accordance with the statutes cited with the regulations below the following amendments to the regulations are prescribed which shall become effective on and after January 1, 1954, unless otherwise indicated within the amendment itself:

#### Subchapter D—Tank Vessels

PART 32—SPECIAL EQUIPMENT, MACHINERY, AND HULL REQUIREMENTS

SUBPART 32.01—SAFETY REQUIREMENTS

Section 32.01–10 (a) is amended to read as follows:

§ 32.01–10 *Rails—TB/ALL.* (a) All tank vessels, except unmanned tank barges, the construction or conversion of which is started on or after July 1, 1951, shall be fitted with fixed or portable rails on decks and bridges. All rails shall be in at least two courses, including the top, and shall be at least 36 inches high. Rails shall consist of solid or tubular stanchions or chains or wire rope or a combination thereof.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended; 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 33—LIFESAVING APPLIANCES

SUBPART 33.35—LIFE PRESERVERS

1. Section 33.35–1 is amended to read as follows:

§ 33.35–1 *Number required—TB/ALL.* All tank vessels shall be provided with one approved life preserver for each person carried. An additional number of life preservers shall be provided for personnel on watch in the engine room and pilothouse.

2. Section 33.35–5 is amended to read as follows:

§ 33.35–5 *Distribution and stowage—TB/ALL.* Life preservers shall be distributed throughout the cabins, staterooms, berths, and other places convenient for each person on such tank vessels. The stowage of the additional number of life preservers shall be such that they are readily accessible to personnel on watch in the engine room and pilothouse.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

SUBPART 33.35—LINE-THROWING APPLIANCES

Section 33.55–10 (a) is amended to read as follows:

§ 33.55–10 *Equipment for line-throwing appliances—T OC.* * * *

(a) *Impulse-projected rocket type.* Four rockets (2 of which shall be of the buoyant type), 4 primer-ejector cartridges, 4 service lines (each of a length not less than that specified in the approval of the appliance carried, of $\frac{7}{32}$-inch to $\frac{9}{32}$-inch diameter, of flax or manila, and having a breaking strength of at least 500 pounds, to be kept in faking boxes or on reels), 1 auxiliary line (1,500 feet of 3-inch circumference manila), 1 can of oil, 1 cleaning brush, 12 wiping patches, and 1 set of instructions furnished by the manufacturer, all in a suitable case or box with the appliance, except that the service lines and the auxiliary line may be stowed in an accessible location nearby.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 34—FIRE-FIGHTING EQUIPMENT

SUBPART 34.20—BOILER ROOM AND MACHINERY SPACES ON TANK VESSELS

Section 34.20–1 is amended by revising paragraphs (c) and (d) to read as follows:

§ 34.20–1 *Fixed fire extinguishing systems for boiler rooms and machinery spaces—T/ALL.* * * *

(c) All steam propelled tank ships using oil for fuel, construction or conversion of which is started on or after November 19, 1952, shall be fitted with a fixed carbon dioxide or foam fire extinguishing system in all spaces containing oil fired boilers, whether main or auxiliary, their fuel oil service pumps and or such fuel oil units as the heaters, strainers, valves, manifolds, etc., that are subject to the discharge pressure of the fuel oil service pumps.

(d) All tank ships propelled by internal combustion machinery and having auxiliary boilers using oil for fuel, construction or conversion of which is started on or after November 19, 1952, shall be fitted with a fixed carbon dioxide or foam fire extinguishing system in all spaces containing such boilers, their fuel oil service pumps and or such fuel oil units as heaters, strainers, valves, manifolds, etc., that are subject to the discharge pressure of the fuel oil service pumps.

SUBPART 34.22—LAMP AND PAINT ROOMS AND SIMILAR COMPARTMENTS ON TANK SHIPS

Section 34.22–5 (d) is amended to read as follows:

§ 34.22–5 *Fixed fire extinguishing systems for lamp and paint rooms and similar spaces on tank ships constructed or converted on or after November 19, 1952—T/ALL.* * * *

(d) When a steam system is installed it shall meet the general requirements of § 34.15–15, except that the minimum nominal diameter of any steam fire extinguishing pipe shall be $\frac{3}{4}$ of an inch.

(R. S. 4405, as amended, 4417a, as amended, 4462, as amended; 46 U. S. C. 375, 391a, 416. Interpret or apply sec. 5, 55 Stat. 244, 245, as amended; 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

#### Subchapter E—Load Lines

PART 43—FOREIGN OR COASTWISE VOYAGE

SUBPART 43.40—ZONES AND SEASONAL AREAS AND MISCELLANEOUS REQUIREMENTS

Section 43.40–10 *Form of load line certificates* is amended by correcting the "International Load Line Certificate" (Form A2) by changing the phrase describing the "Load Line," opposite "Freeboards From Deck Line" for "Tropical, Summer, Winter," from "Upper edge of line below center of disk" to "Upper edge of line through center of disk."

(Sec. 2, 45 Stat. 1493, as amended, sec. 2, 49 Stat. 888, as amended; 46 U. S. C. 85a, 88a)

PART 44—VARIANCE FOR STEAM COLLIERS, TUGS, BARGES, AND SELF-PROPELLED BARGES (WHEN ENGAGED IN SPECIAL SERVICES OR COASTWISE AND INTER-ISLAND VOYAGES)

1. Section 44.05–10 (b) (including Figure 44.05–10 (b)) is amended to read as follows:

§ 44.05–10 *Load line markings.* * * *

(b) In the case of vessels which engage in special services on coastwise voyages and voyages on the Great Lakes, the marks on the vessel's sides are to be in accordance with figure 44.05–10 (b), except that the line marked "MS" shall be used only where applicable to vessels defined in §§ 45.01–15 and 45.01–17 of this subchapter.

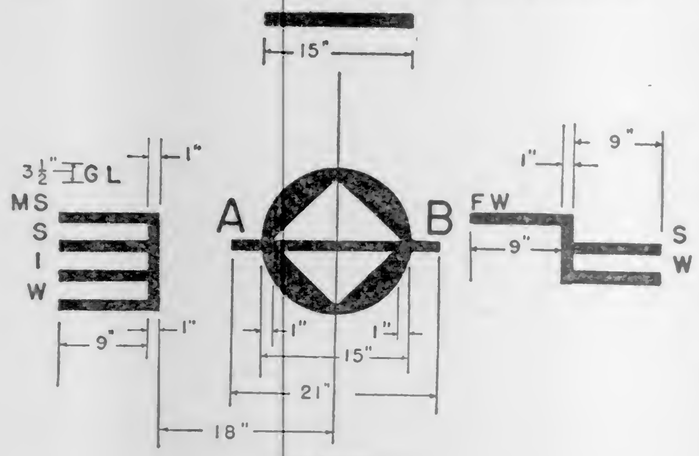

FIGURE 44.05-10 (b).

NOTE: The line marked "MS" shall be used only where applicable to vessels defined in §§ 45.01-15 and 45.01-17 of this subchapter.

2. Section 44.05-30 is amended to read as follows:

§ 44.05-30 *Load line certificate.* (a) The load line certificates for a special service coastwise or special inter-island voyage shall be issued in addition to any other applicable load line certificates and shall be on the form shown in § 44.05-35.

3. Section 44.05-35 is amended to read as follows:

§ 44.05-35 *Form of load line certificate.* (a) Where no other Load Line certificate is issued:

LOAD LINE CERTIFICATE FOR A SPECIAL SERVICE COASTWISE OR INTER-ISLAND VOYAGE

Issued under the authority of the Commandant, U. S. Coast Guard, United States of America, under the provisions of the Coastwise Load Line Act of August 27, 1935, as amended.

[SEAL]

Issued by----------
Certificate No.----------

This certificate is valid only for coastwise or inter-island voyages that are between the limits of---------- and ---- provided the vessel is engaged solely in the trade stated herein.

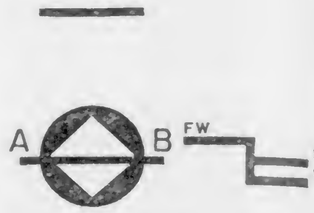
Ship---------- Official No.------
Port of registry ------- Trade of vessel-----
Gross tonnage----------

| FREEBOARD FROM DECK LINE | LOAD LINE |
|---|---|
| Tropical------- (T) | -- -------Above (S) |
| Summer------- (S) | --Upper edge of line through center of disk. |
| Winter------- (W) | ----------Below (S) |

*Allowance for fresh water for all freeboards (except on the Great Lakes)---------
The upper edge of the deck line from which these freeboards are measured is-----inches above the top of the----deck at side.

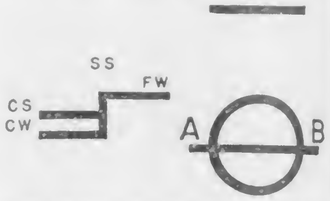
*Where seagoing steamers navigate a river or inland water, deeper loading is permitted corresponding to the weight of fuel, etc., required for consumption between the point of departure and the open sea.

This is to certify that this ship has been surveyed and the freeboards and load lines shown above have been found to be correctly marked upon the vessel in manner and location as provided by the Load Line Regulations of the Commandant, U. S. Coast Guard, applicable to vessels engaged on this special service voyage.



** This certificate remains in force until ---------- Issued at ----------
on the --------- day of ---------- 19 ----.
(Here follows the signature or seal and description of the assigning authority)

NOTE: In accordance with the Load Line Regulations the disc or diamond and the lines must be permanently marked by center punch marks or cutting.



(On the reverse side of the load line certificate, the provision for annual inspection endorsement and for renewal of the certificate is to be the same as for vessels engaged in the foreign trade.)

** Upon the expiration of the certificate renewal must be obtained as provided by the Load Line Regulations and the certificate so endorsed. Endorsement should also be made in the spaces provided on the occasion of each annual inspection required by the Load Line Regulations.

(b) Where the Special Service Load Line Certificate is issued in addition to a Great Lakes Load Line Certificate, the wording of the Special Service Load Line Certificate is to be identical to that given in paragraph (a) of this section, but the markings indicated in the form shall be replaced by the following markings:

(c) Where the Special Service Load Line Certificate is issued in addition to an Unlimited Coastwise or International Load Line Certificate, the wording of the Special Service Load Line Certificate is to be identical to that given in paragraph (a) of this section, but the markings indicated in the form shall be replaced by the following markings:

(Sec. 2, 49 Stat. 888, as amended, 46 U. S. C. 88a)

## Subchapter F—Marine Engineering

### PART 52—CONSTRUCTION

Section 52.20-15 is amended by correcting the phrase "outside diameters" to "inside diameters" in the first sentence of paragraph (a) and in paragraph (e) so that these paragraphs read as follows:

§ 52.20-15 *Detail requirements.* (a) Where the radius *R* to which a dished head is formed is less than 80 percent of the inside diameter of the shell, the thickness of a head with a flanged-in manhole opening shall be not less than the value found by making *R* in Formulas (1) and (2) in § 52.20-10, equal to 80 percent of the inside diameter of the shell and with the added thickness for the manhole. The thickness calculated shall be the minimum thickness of a head with a flanged-in manhole opening for any form of head and the maximum allowable stress shall not exceed 80 percent of the values given in Table 52.05-10 (a) or 54.03-10 (c) in Part 54 of this subchapter.

* * * * *

(e) If a flanged-in manhole which meets the requirement of § 52.20-20 is placed in a full-hemispherical head or ellipsoidal head, the thickness of the head shall be the same as for a head dished to a segment of a sphere, with the radius of dish equal to eight-tenths of the inside diameter of the shell and with the added thickness for the manhole as specified in paragraph (d) of this section.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426-4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 391a, 392, 399, 404-409, 411, 412, 435, 489, 366, 363, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

### PART 55—PIPING SYSTEMS, PUMPS, REFRIGERATION MACHINERY, AND FUEL TANKS

#### SUBPART 55.07—DETAIL REQUIREMENTS

1. Section 55.07-15 *Joint and flange connections* is amended by deleting the explanatory note "(For maximum steam service pressure at a temperature of 500° F)" just below the heading in Table 55.07-15 (e5), and by deleting the explanatory note "(For maximum steam service pressure at a temperature of 750°)" just below the headings in Tables 55.07-15 (e6) through 55.07-15 (e11), inclusive, which are all titled "Steel flanged fittings and companion flanges."

2. Section 55.10-25 (c) (2) is amended to read as follows:

§ 55.10-25 *Bilge and ballast piping.* * * *

(c) * * *

(2) Passenger vessels engaged on international voyages shall have the bilge manifolds arranged for remote control so that in the event of flooding, one of the bilge pumps can take suction from any compartment. If a bilge system common to all pumps is installed, the necessary valves for controlling the bilge suctions shall be operable from above the bulkhead deck. If, in addition to the main bilge pumping system, an emergency bilge pumping system is installed, it shall be so arranged that the emergency bilge pump may take suction from any flooded compartment.

3. Section 55.10-30 (e) is amended to read as follows:

§ 55.10-30 *Bilge pumps.* * * *

(e) *Location.* If the engines and boilers are in two or more watertight compartments, the bilge pumps shall be distributed throughout these compartments. When the location of bilge pumps in separate watertight compartments is not possible, the Commandant will consider alternate arrangements of the bilge pumps.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4421, 4426-4431, 4433, 4434, 4453, 4491, as amended, sec. 14, 29 Stat. 690, 41 Stat. 305, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. ### PART 56—ARC WELDING, GAS WELDING, AND BRAZING

#### SUBPART 56.01—ARC WELDING AND GAS WELDING

1. Section 56.01-10 (d) is amended by revising the text of the paragraph, but not the Figures 56.01-10 (d1) to 56.01-10 (d6), inclusive, and by adding a Table 56.01-10 (d), to read as follows:

§ 56.01-10 *Qualification of welders.* * * *

(d) (1) Tests required for qualification in the various positions for different materials and thicknesses are given in Table 56.01-10 (a). They are designated as Test No. 1 through Test No. 6 for which specimens shall be prepared in accordance with Figures 56.01-10 (d1) through 56.01-10 (d6), respectively, and physically tested if this method of welder qualification is used. Alternatively, if so desired, a welder may be qualified by the use of radiography provided the radiographic procedure is qualified as required in § 56.05-3. The radiographs of the weld test plates shall indicate that the weld(s) are acceptable for the group covering the fabrication classification as specified in Table 56.01-10 (d). Test specimens shall be prepared in position of material and thicknesses as indicated in Table 56.01-10 (a) for either physical tests or radiographic examination.

(2) The test plate welds shall comply with the radiographic standards of Group 1 or 2 classification, a copy of which is on file with each Officer in Charge, Marine Inspection covering the welding for which the welder is being qualified.

TABLE 56.01-10 (d)—RADIOGRAPHIC WELDER QUALIFICATION TESTS

| Group | Classification |
|---|---|
| 1 ------- | Class I piping. |
| 1 ------- | Class I and Class II welded pressure vessels. |
| 2 ------- | Class II piping. |
| 2 ------- | Class III welded pressure vessels. |

2. Section 56.01-10 (m) is amended by revising Figure 56.01-10 (m) to read as follows:

(m) * * *

FIGURE 56.01-10 (m)—RECORD CARD OF WELDER'S QUALIFICATION TESTS

#### SUBPART 56.05—TESTS AND INSPECTION

1. Part 56 is amended by adding a new § 56.05-3 reading as follows:

§ 56.05-3 *Qualification of radiographic test procedure.* (a) Prior to the use of radiography by fabricators or commercial radiographic laboratories, the radiographic procedure proposed for use in the nondestructive tests of welds shall be qualified to demonstrate that the procedure will produce radiographs of acceptable standard.

NOTE: An additional procedure qualification test will not be required provided proof is furnished that the radiographic procedure test has been accepted by the Bureau of Ships of the Department of the Navy.

(b) After exposure and processing, the procedure qualification films shall be forwarded to the Commandant through the Officer in Charge, Marine Inspection, for interpretation.

(c) The procedure qualification shall be representative of the radiography to be used in examining production welds or welder qualification tests. If both plate and welded pipe joints are to be tested by radiography, a procedure qualification test shall be conducted for each type of fabrication involved.

2. Section 56.05-5 is amended to read as follows:

§ 56.05-5 *Nondestructive tests.* (a) (1) All longitudinal and circumferential

welded butt-joints of Class I welded pressure vessels shall be examined throughout their entire length, except as specifically exempted in other sections of this subchapter, by means of radiography, preferably by X-ray.

(2) Each welded butt-joint of Class II welded pressure vessels shall be examined throughout its entire length by means of radiography, preferably by X-ray, when the plate thickness at the welded joint exceeds 1½ inches, or when such pressure vessels are constructed of steel plate complying with Subpart 51.04 in Part 51 of this subchapter for Grades C, D, E, F, and G, having plate thicknesses at the joint exceeding 1 inch. (See § 54.03–1 of this subchapter and Table 56.01–25.)

(b) (1) All butt-welded joints of Class I piping, unless exempted by § 56.01–80, shall be nondestructively tested. Radiography shall be used for diameters or thicknesses as follows:

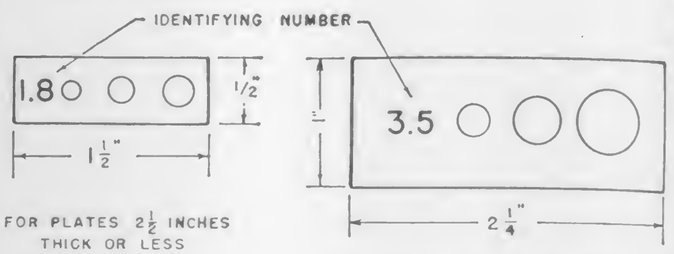
(i) Carbon steel when the pipe wall thickness exceeds $^3/_8$ inch.

(ii) Alloy steel when the diameter is 4 inches or larger.

(2) Butt-welded joints of Class I piping of thicknesses and sizes not exceeding that specified in subparagraph (1) of this paragraph may be examined by means of magnetic particle testing. The surfaces to be inspected shall be clean, dry, and free from oil, excessive rust, slag, and scale accumulation. All surface irregularities such as undercuts, overlaps, ripples, rough welds, etc., which may make interpretation of the magnetic indications difficult, shall be made smooth by grinding, chipping, or sandblasting.

(c) Welded joints of pressure vessels to be radiographed shall be prepared as follows:

(1) The welded joints shall be representative of the completed weld to be placed in service.



(2) The weld ripples or weld surface irregularities, on both inside and outside, shall be removed by any suitable mechanical process to a degree such that the resulting radiographic contrast due to any remaining irregularities cannot mark or be confused with that of any objectionable defect.

(3) The finished surface of the reinforcement may have a crown of approximately uniform amount not to exceed the following:

| Material thickness (inches): | Maximum thickness of reinforcement (inches) |
|---|---|
| ½ and below | $^1/_{16}$ |
| Over ½ to 1, inclusive | $^3/_{32}$ |
| Over 1 | $^1/_8$ |

(4) Single-welded butt-joints made the equivalent of double-welded butt-joints in accordance with § 56.01–55 may be radiographed without removal of the backing strip provided the backing strip image will not interfere with the interpretation of resultant radiographs.

(d) Radiographic examination shall be performed with a technique that will indicate the presence of defects having depths of 2 percent of the thickness of the material, or widths of 4 percent of the thickness of the material being examined. Penetrameters made of material having radiographic density approximately the same as that of the material being radiographed shall be used to determine the sensitivity of the radiographic technique being employed.

DIAMETER OF HOLES 2, 3, AND 4 TIMES THE THICKNESS OF PENETRAMETER BUT NOT LESS THAN 1/16 INCH

FIGURE 56.05–5 (e)—Details of penetrameters.

(e) Penetrameters of the type as shown in Figure 56.05–5 (e) shall be used, and shall be placed on the energy source side of the object being radiographed. All radiographs shall show the image of the penetrameter.

(f) Each penetrameter shall have three holes of diameters equal respectively to two, three and four times the penetrameter thickness, but in no case less than $^1/_{16}$ inch, except when gamma rays are used as a source of radiation, the minimum hole need not be less than $^3/_{32}$ inch. The smallest hole shall be distinguishable on the radiograph.

(g) Each penetrameter shall carry an identifying number representing, to two significant figures, the minimum thickness of plate for which it may be used. The images of the identifying numbers shall appear clearly on the radiographs.

(h) The thickness of the penetrameter shall be not more than 2 percent of the thickness of the material being examined. When the weld reinforcement and or backing strip is not removed, a shim shall be placed under the penetrameter, such that the total thickness being radiographed under the penetrameter is the same as the total thickness through the weld, including backing strip when not removed.

(i) For metals of uniform thickness, each radiograph taken of welds shall have visible penetrameters and identification markers as follows:

(1) When the dimension of the film in the direction of the weld is 6 inches or less, one penetrameter is required.

(2) When the dimension of the film in the direction of the weld is over 6 inches, 2 penetrameters are required.

(3) When a gammograph is made with the source of energy on the inside of the pipe, one penetrameter is required.

(4) For assembly welds, at least 2 identification markers are required. The distance between any two adjacent identification markers shall be not more than 6 inches.

(j) (1) Where the thickness of the metal is not uniform but does not vary over the area covered by a single radiograph (6 inches maximum length) by more than 50 percent of the maximum thickness or by more than $^1/_2$ inch in thickness, whichever is the lesser, one penetrameter shall be used which shall be located at a point of mean thickness. The penetrameter shall be placed at the end of maximum angularity when there is a difference in angularity of radiation at the two ends.

(2) If the thickness of metal covered by a single radiograph varies by more than 50 percent of the maximum thickness or by more than $^1/_2$ inch, whichever is the lesser, suitable penetrameters shall be placed at the thinnest and thickest portion of the material being radiographed.

(3) The penetrameter shall be positioned so as to give the maximum sensitivity of image.

(k) Radiographic film shall be of fine grain and used with lead screens unless other type of film and screens are used in the procedure qualification. All radiographs shall be free from excessive mechanical processing defects which would interfere with the proper interpretation of the radiograph.

(l) (1) The film during exposure shall be as close to the surface of the weld as practicable. If possible this distance shall be not greater than 1 inch. Except as provided for below, under any condition the following ratio shall be at least 7 to 1:

$$\frac{\text{Distance from source of radiation to weld surface toward radiation}}{\text{Distance from weld surface toward radiation to film}}$$

(2) In radiographing a pipe weld or a casting by placing a radium or cobalt capsule inside the object, the penetrameters may be placed on the film side of the surface provided the inspector is satisfied that the radiographic technique followed has been proved satisfactory.

(m) Identification markers, the image of which is to appear on the film, shall be placed adjacent to the weld and their locations accurately and permanently marked near the weld on the outer surface of the plate or pipe, so that a defect appearing on the radiograph may be accurately located on the actual weld.

(n) (1) When radiographing a circumferential pipe joint by placing a radium or cobalt capsule inside the pipe, the penetrameters may be placed on the film side of the circumferential joint provided the manufacturer satisfies the inspector that the technique followed in doing the work is known to be adequate.

NOTE: A suggested method for proving the adequacy of the radium or cobalt capsule method of radiography is as follows:

A preliminary radiograph should be made with a piece of pipe or casting with penetrameters on both the inside and outside. The diameter of the pipe employed in making this proof radiograph should be substantially the same as that of the job to be performed, and its wall thickness the practical equivalent of the over-all thickness of the joint to be radiographed, including both backing ring and reinforcement if these are present in the joint to be examined. The radium or cobalt capsule employed in making this proof radiograph, together with all other items of technique, such as the location of the capsule and the time of the exposure, should be the same as employed on the actual job. Each penetrameter should be provided with a marker which will show up clearly on the film and which will indicate the side of the joint on which it is located. F for the film side, and R for the radiation side.

(2) When the radium or cobalt capsule is placed on the axis of the joint and the complete circumference radiographed with a single exposure, four penetrameters uniformly spaced, shall be employed.

(o) The radiographs shall be submitted to the inspector with data as follows:

(1) The thickness of the base metal.

(2) The distance of the film from the surface of the weld.

(3) The distance of the film from the source of radiation.

(p) A complete set of radiographs for each job shall be submitted for examination to, and be retained for a period of ten years by, the Officer in Charge, Marine Inspection, in the zone where the fabrication is done.

(q) The acceptability of welds examined by radiography shall be judged by the following standards:

(1) Welds in which the radiographs show elongated slag inclusions or cavities are unacceptable if the length of any such imperfection is greater than $^1/_3T$ where $T$ is the thickness of the thinner plate welded. If several imperfections within the above limitations exist in line, the welds shall be judged acceptable if the sum of the longest dimensions of all such imperfections is not more than $T$ in a length of $12T$ and if the defects are separated by at least $6L$ of acceptable weld metal, where $L$ is the length of the longest imperfection. The maximum length of acceptable inclusion for any plate thickness shall be ¾ inch. Any slag inclusion shorter than ¼ inch shall be acceptable for any plate thickness.

(2) Welds in which the radiographs show any type of crack or zones of incomplete penetration shall be unacceptable. Incomplete penetration appears as elongated darkened lines of varying length and width in any part of the welding groove.

(3) Welds in which the radiographs show porosity shall be judged as acceptable or unacceptable by comparison with a standard set of radiographs, copies of which are on file at Coast Guard Headquarters, with the Coast Guard District Commanders, and with the Officers in Charge, Marine Inspection.

(R. S. 4405, 4417a, as amended, sec. 14, 29 Stat. 690, as amended, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 375, 391a, 366, 367, 1333, 50 U. S. C. App. 1275. Interpret or apply R. S. 4418, 4426, 4427, 4429, 4430, 4433, 4434, 4453, as amended; 46 U. S. C. 392, 404, 405, 407, 408, 409, 411, 412, 435; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 57—MAIN AND AUXILIARY MACHINERY

SUBPART 57.01—GENERAL REQUIREMENTS

Part 57 is amended by adding a new section 57.01–15 reading as follows:

§ 57.01–15 *Fuel oil for boilers.* Oil to be used as fuel to be burned under boilers on vessels subject to inspection by the Coast Guard shall have a flash point of not less than 150 degrees F. (Closed cup test.)

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4426–4431, 4433, 4434, 4453, 4491, as amended; sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, secs. 1 and 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 391a, 392, 404–409, 411, 412, 435, 489, 366, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 61—INSTALLATIONS, TESTS, INSPECTIONS, MARKINGS, AND OFFICIAL FORMS

SUBPART 61.20—TESTS AND INSPECTION OF BOILERS

Section 61.20–20 (a) is amended to read as follows:

§ 61.20–20 *Boiler mountings and attachments.* (a) All valves and other boiler mountings and attachments shall be opened up and examined by the inspector after each four years of service, and such valves, boiler mountings, and attachments shall be removed from the boilers after each eight years of service for examination of the studs or bolts connecting them to the boiler and to permit examination of those parts of the valves, boiler mountings and attachments which are not susceptible to examination by simply opening up the valves. The Officer in Charge, Marine Inspection, may require the examinations prescribed by this section to be made at more frequent intervals, if in his opinion such action is necessary to be assured of the safety of the boiler.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4426–4431, 4433, 4434, 4453, 4491, as amended; sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, secs. 1 and 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 391a, 392, 404–409, 411, 412, 435, 489, 366, 367, 526p, 1333, 463a 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter G—Marine Engineering Installations Contracted for Prior to July 1, 1935

PART 67—CONSTRUCTION

SUBPART 67.01—PROCEDURE AND GENERAL REQUIREMENTS

Section 67.01–30 (b) is amended to read as follows:

§ 67.01–30 *Repairs, replacements, or alterations.* * * *

(b) Boilers built and installed prior to July 1, 1935, may be repaired with materials and in the same manner specified in this subchapter, except that the use of cast iron valves, mountings, or attachments for repairs, replacements, or alterations on existing boilers operating at pressures exceeding 30 pounds per square inch is prohibited. Emergency repairs, replacements, or alterations shall be reported as soon as practicable to the Officer in Charge, Marine Inspection, at or nearest the first port where the vessel may call after such repairs are made.

SUBPART 67.10—SHELL JOINTS

Section 67.10–10 (c) is amended to read as follows:

§ 67.10–10 *Riveted joints.* * * *

(c) (1) To determine the pitch for iron plates and iron rivets:

$$p = \frac{d^2 \times 0.7854 \times n}{T} + d \qquad (1)$$

(2) To determine the pitch for steel plates and steel rivets:

$$p = \frac{23}{28} \times \frac{d^2 \times 0.7854 \times n}{T} + d \qquad (1a)$$

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4417a, 4418, 4426–4431, 4433, 4434, 4453, 4491, as amended; sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, secs. 1 and 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 391a, 392, 404–409, 411, 412, 435, 489, 366, 367, 526p, 1333, 463a 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter H—Passenger Vessels

PART 71—INSPECTION AND CERTIFICATION

SUBPART 71.20—INITIAL INSPECTION

Section 71.20–15 (a) is amended to read as follows:

§ 71.20–15 *Scope of inspections.* (a) The initial inspection, which may consist of a series of inspections during the construction of a vessel, shall include a complete inspection of the structure, machinery, and equipment, including the outside of the vessel's bottom, and the outside, and where possible the inside, of the boilers. The inspection shall be such as to insure that the arrangements, materials, and scantlings of the structure, boilers and their appurtenances, piping, main and auxiliary machinery, electrical installations, lifesaving appliances, fire detecting and extinguishing equipment, and other equipment fully comply with the applicable regulations for such vessel and are in accordance with approved plans, and that the radio installations, including fixed and port-

able radios for lifeboats, are in accordance with the requirements of the Federal Communications Commission. The inspection shall also be such as to insure that the workmanship of all parts of the vessel and its equipment is in all respects satisfactory.

SUBPART 71.25—ANNUAL INSPECTION

Section 71.25–10 (a) is amended to read as follows:

§ 71.25–10 *Scope of inspection.* (a) The annual inspection shall include an inspection of the structure, boilers, machinery, and equipment. The inspection shall be such as to insure that the vessel, as regards the structure, boilers and their appurtenances, piping, main and auxiliary machinery, electrical installations, lifesaving appliances, fire detecting and extinguishing equipment, and other equipment is in satisfactory condition and fit for the service for which it is intended, and that it complies with the applicable regulations for such vessel, and that the radio installations, including fixed and portable radios for lifeboats, are in compliance with the requirements of the Federal Communications Commission.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426, 4428–4430, 4433, 4434, 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–408, 411, 412, 435, 366, 395, 396, 363, 367, 660a, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 72—CONSTRUCTION AND ARRANGEMENT

SUBPART 72.40—RAILS AND GUARDS

Section 72.40–1 (a) is amended to read as follows:

§ 72.40–1 *Application.* (a) The provisions of this subpart, with the exception of § 72.40–90, shall apply to all vessels contracted for on or after November 19, 1952. Vessels contracted for prior to November 19, 1952, shall meet the requirements of § 72.40–90.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4490, as amended, sec. 3, 24 Stat. 129, 41 Stat. 305, sec. 5, 49 Stat. 1384, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 483, 363, 369, 367, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 73—WATERTIGHT SUBDIVISION

SUBPART 73.35—WATERTIGHT BULKHEADS DOORS

Section 73.35–25 (b) is amended to read as follows:

§ 73.35–25 *Door indicators and warning signals.* • • •

(b) For Class 3 watertight doors, provision shall be made to give warning signal by electric horn or howler when the door is about to be closed; the signal shall precede the movement of the door by a safe interval.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4490, as amended, sec. 3, 24 Stat. 129, 41 Stat. 305, sec. 2, 45 Stat. 1493, sec. 2, 49 Stat. 888, sec. 5, 49 Stat. 1384, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 482, 483, 363, 85a, 88a, 369, 367, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1592 Supp.)

PART 75—LIFESAVING EQUIPMENT

SUBPART 75.20—EQUIPMENT FOR LIFEBOATS, LIFE RAFTS, LIFE FLOATS, AND BUOYANT APPARATUS

1. Section 75.20–15 (kk) is amended to read as follows:

§ 75.20–15 *Description of equipment for lifeboats.* • • •

(kk) *Water.* (1) For each person the lifeboat is certified to carry, there shall be provided three quarts of drinking water consisting of 9 approved hermetically sealed containers per person constructed and filled in accordance with Subpart 160.026 of Subchapter Q (Specifications) of this chapter. The service life of this equipment shall be limited to 5 years from date of packing, and replacement of outdated containers shall be made at the first annual inspection of the vessel after the date of expiration.

(2) The drinking water containers shall be stowed in drinking water tanks, lockers, or other compartments providing suitable protection.

(3) This regulation shall become effective January 1, 1954, but approved drinking water containers already in use on that date may be continued in use, if otherwise in good and serviceable condition, until the first annual inspection of the vessel following 5 years from the date of packing, whereupon they shall be replaced with containers of the type specified in subparagraph (1) of this paragraph.

2. Section 75.20–25 (n) is amended to read as follows:

§ 75.20–25 *Description of equipment of life rafts.* • • •

(n) *Water.* (1) For each person the life raft is certified to carry, there shall be provided one quart of drinking water consisting of 3 approved hermetically sealed containers per person constructed and filled in accordance with Subpart 160.026 of Subchapter Q (Specifications) of this chapter. The service life of this equipment shall be limited to five years from date of packing, and replacement of outdated containers shall be made at the first annual inspection of the vessel after the date of expiration.

(2) The drinking water containers shall be stowed in compartments providing suitable protection.

(3) This regulation shall become effective January 1, 1954, but approved drinking water containers already in use on that date may be continued in use, if otherwise in good and serviceable condition, until the first annual inspection of the vessel following 5 years from the date of packing, whereupon they shall be replaced with containers of the type specified in subparagraph (1) of this paragraph.

SUBPART 75.45—LINE-THROWING APPLIANCES

Section 75.45–15 (a) (3) is amended to read as follows:

§ 75.45–15 *Equipment for line-throwing appliances.* (a) • • •

(3) Four service lines, each of a length not less than that specified in the approval of the appliance carried, of $^{7}/_{32}$-inch to $^{9}/_{32}$-inch diameter, of flax or manila, and having a breaking strength of at least 500 pounds, to be kept in faking boxes or on reels. These lines may be kept either in the box or case with the remainder of the equipment, or be stowed in an accessible location nearby.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4481, 4482, 4488, 4491, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 474, 475, 481, 489, 367, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 76—FIRE PROTECTION EQUIPMENT

SUBPART 76.05—FIRE DETECTING AND EXTINGUISHING EQUIPMENT, WHERE REQUIRED

Section 76.05–1 (a) is amended by changing in Table 76.05–1 (a) the requirements for "oil fired boilers" under "machinery spaces" to read as follows:

§ 76.05–1 *Fire detecting systems.* (a) • • •

TABLE 76.05–1 (a)

| Space | Detecting systems | Fire-extinguishing systems |
|---|---|---|
| *Machinery spaces* | | |
| • • | • | • • |
| Oil fired boilers: Spaces containing oil fired boilers either main or auxiliary, their fuel oil service pumps, and/or such other fuel oil units as the heaters, strainers, valves, manifolds, etc., that are subject to the discharge pressure of the fuel oil service pumps, together with adjacent spaces to which oil can drain. | None required. | Carbon dioxide, foam, or water spray.[1] |
| • • | • | • • |

[1] Protection of auxiliary boilers, fuel oil units, valves, and manifolds not required on vessels contracted for prior to Nov. 19, 1952.

SUBPART 76.50—HAND PORTABLE FIRE EXTINGUISHERS AND SEMIPORTABLE FIRE EXTINGUISHING SYSTEMS, ARRANGEMENTS, AND DETAILS

Section 76.50–15 is amended by revising paragraphs (a) and (c) to read as follows:

§ 76.50–15 *Spare charges.* (a) For all vessels other than motorboats, spare charges shall be carried for at least 50 percent of each size and each variety, i. e. foam, soda-acid, carbon dioxide, etc., of hand portable fire extinguisher required by § 76.50–10 (a). However, if the unit is of such variety that it cannot be readily recharged by the vessel's personnel, one spare unit of the same classification shall be carried in lieu of spare charges for all such units of the same size and variety.

• • • • •

(c) For all vessels other than motorboats, extra safety valve units shall be carried on board for at least 50 percent of all foam type hand portable fire extinguishers and semiportable fire extinguishing systems.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, 4483, as amended, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526p, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

PART 77—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

SUBPART 77.13—RADIOTELEGRAPH AND RADIOTELEPHONE

1. The center heading title for Subpart 77.13 is amended to read as set forth above.

2. Section 77.13–1 (a) is amended to read as follows:

§ 77.13–1 *Required by Federal Communications Commission.* (a) Radiotelegraph and radiotelephone installations are required on certain vessels. Details of the application of this requirement as well as details of the installation shall be as required by the statutes and regulations under the jurisdiction of the Federal Communications Commission.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245; 46 U. S. C. 391, 392, 404, 367, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 78—OPERATIONS

SUBPART 78.13—STATION BILLS

Section 78.13–20 is amended to read as follows:

§ 78.13–20 *Manning of lifeboats and life rafts.* (a) The provisions of this section shall apply to all vessels other than motorboats and to all motorboats carrying more than 12 passengers on an international voyage with the exception that the lifeboat or life raft may be placed in the charge of a licensed motorboat operator.

(b) There shall be for each lifeboat or life raft a number of certificated lifeboatmen equal to that specified in Table 78.13–20 (b).

Table 78.13–20 (b)

| Prescribed complement of lifeboat or life raft | | Minimum number of lifeboatmen | |
|---|---|---|---|
| Over | Not over | Ocean service | All services other than ocean[1] |
| ---- | 25 | 2 | 1 |
| 25 | 40 | 2 | 2 |
| 40 | 60 | 3 | 3 |
| 60 | 85 | 4 | 4 |
| 85 | 110 | 5 | 5 |
| 110 | ---- | 6 | 6 |

[1] Certificated lifeboatmen not required in river service.

(c) The allocation of the certificated lifeboatmen to each lifeboat shall be at the discretion of the master according to the circumstances.

(d) For ocean service, the master shall appoint a first and second in command of each lifeboat and life raft who shall be either a licensed deck officer, an able seaman, or a certificated lifeboatman. For vessels in other services, the master shall appoint a person in command of each lifeboat and life raft, and except for river service, this person shall be either a licensed deck officer or an able seaman, except that life rafts for 15 persons or less in Great Lakes and lakes, bays, and sounds service may be placed in the charge of a certificated lifeboatman. The person in charge of each lifeboat or life raft shall have a list of its crew, and shall see that the persons under his orders are acquainted with their several duties.

(e) The master shall assign to each motor-propelled lifeboat a man capable of working the motor.

(f) The master shall assign to each lifeboat carrying a wireless and searchlight a man capable of operating such equipment.

SUBPART 78.17—TESTS, DRILLS, AND INSPECTIONS

Part 78 is amended by adding new §§ 78.17–70 and 78.17–75, reading as follows:

§ 78.17–70 *Radio apparatus for lifeboats.* (a) It shall be the duty of the master to require that all batteries for all fixed and portable radio apparatus for lifeboats are brought up to full charge weekly if the batteries are of a type which require recharging.

(b) In any case, the transmitter shall be tested weekly using a suitable artificial aerial.

§ 78.17–75 *Requirements for fuel oil.* (a) It shall be the duty of the chief engineer to cause an entry in the log be made of each supply of fuel oil received on board, stating the quantity received, the name of the vendor, the name of the oil producer, and the flash point (closed cup test) for which it is certified by the producer.

(b) It shall be the further duty of the chief engineer to cause to be drawn and sealed and suitably labeled at the time the supply is received on board, a half-pint sample of each lot of fuel oil. These samples shall be preserved until the particular supply of oil is exhausted.

SUBPART 78.33—REPORTS OF ACCIDENTS, REPAIRS, AND UNSAFE EQUIPMENT

Part 78 is amended by adding a new § 78.33–20, reading as follows:

§ 78.33–20 *Breaking of safety valve seal.* (a) If at any time it is necessary to break the seal on a safety valve for any purpose, the chief engineer shall advise the Officer in Charge, Marine Inspection, at the next port of call, giving the reason for breaking the seal and requesting that the valve be examined and adjusted by an inspector.

SUBPART 78.37—LOG BOOK ENTRIES

Section 78.37–5 (a) is amended by adding a new subparagraph reading as follows:

§ 78.37–5 *Actions required to be logged.* (a) • • •

(12) Fuel oil data: Upon receipt of fuel oil on board. See § 78.17–75.

SUBPART 78.55—CARRYING OF EXCESS STEAM

Section 78.55–1 is amended to read as follows:

§ 78.55–1 *Master and chief engineer responsible.* (a) It shall be the duty of the master and the engineer in charge of the boilers of any vessel to require that a steam pressure is not carried in excess of that allowed by the certificate of inspection, and to require that the safety valves, once set and sealed by the inspector, are in no way tampered with or made inoperative except as provided in § 78.33–20.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4453, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 435, 367, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

**Subchapter I—Cargo and Miscellaneous Vessels**

PART 91—INSPECTION AND CERTIFICATION

SUBPART 91.20—INITIAL INSPECTION

Section 91.20–15 is amended to read as follows:

§ 91.20–15 *Scope of inspection.* (a) The initial inspection, which may consist of a series of inspections during the construction of a vessel, shall include a complete inspection of the structure, machinery, and equipment, including the outside of the vessel's bottom, and the outside, and where possible the inside, of the boilers. The inspection shall be such as to insure that the arrangements, materials, and scantlings of the structure, boilers and their appurtenances, piping, main and auxiliary machinery, electrical installations, lifesaving appliances, fire detecting and extinguishing equipment, and other equipment fully comply with the applicable regulations for such vessel and are in accordance with approved plans, and that the radio installations, including fixed and portable radios for lifeboats, are in accordance with the requirements of the Federal Communications Commission. The inspection shall also be such as to insure that the workmanship of all parts of the vessel and its equipment is in all respects satisfactory.

(b) When equipment is installed which is not required by applicable regulations in this subchapter, that equipment shall be inspected and tested as required for such equipment by applicable regulations in Subchapter H (Passenger Vessels) of this chapter. For example, fire-detecting systems shall be inspected and tested as required by Subpart 71.20 of Subchapter H (Passenger Vessels) of this chapter.

SUBPART 91.25—ANNUAL INSPECTION

Section 91.25-10 is amended to read as follows:

§ 91.25-10 *Scope of inspection.* (a) The annual inspection shall include an inspection of the structure, boilers, machinery, and equipment. The inspection shall be such as to insure that the vessel, as regards the structure, boilers and their appurtenances, piping, main and auxiliary machinery, electrical installations, lifesaving appliances, fire-detecting and extinguishing equipment, and other equipment is in satisfactory condition and fit for the service for which it is intended, and that it complies with the applicable regulations for such vessel, and that the radio installations, including fixed and portable radios for lifeboats, are in compliance with the requirements of the Federal Communications Commission.

(b) When equipment is installed which is not required by applicable regulations in this subchapter, that equipment shall be inspected and tested as required for such equipment by applicable regulations in Subchapter H (Passenger Vessels) of this chapter. For example, fire-detecting systems shall be inspected and tested as required by Subpart 71.25 of Subchapter H (Passenger Vessels) of this chapter.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426-4431, 4433, 4434, 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, sec. 5, 55 Stat. 244, 245, as amended, 46 U. S. C. 361, 362, 391, 392, 399, 400, 404-409, 411, 412, 435, 366, 395, 396, 363, 367, 660a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 94—LIFESAVING EQUIPMENT

SUBPART 94.20—EQUIPMENT FOR LIFEBOATS AND LIFE RAFTS

1. Section 94.20-15 (ii) is amended to read as follows:

§ 94.20-15 *Description of equipment for lifeboats.* • • •

(ii) *Water.* (1) For each person the lifeboat is certified to carry, there shall be provided three quarts of drinking water consisting of 9 approved hermetically sealed containers per person constructed and filled in accordance with Subpart 160.026 of Subchapter Q (Specifications) of this chapter. The service life of this equipment shall be limited to 5 years from date of packing, and replacement of outdated containers shall be made at the first annual inspection of the vessel after the date of expiration.

(2) The drinking water containers shall be stowed in drinking water tanks, lockers, or other compartments providing suitable protection.

(3) This regulation shall become effective January 1, 1954, but approved drinking water containers already in use on that date may be continued in use, if otherwise in good and serviceable condition, until the first annual inspection of the vessel following 5 years from the date of packing, whereupon they shall be replaced with containers of the type specified in subparagraph (1) of this paragraph.

2. Section 94.20-25 (n) is amended to read as follows:

§ 94.20-25 *Description of equipment for life rafts.* • • •

(n) *Water.* (1) For each person the life raft is certified to carry, there shall be provided one quart of drinking water consisting of 3 approved hermetically sealed containers per person constructed and filled in accordance with Subpart 160.026 of Subchapter Q (Specifications) of this chapter. The service life of this equipment shall be limited to 5 years from date of packing, and replacement of outdated containers shall be made at the first annual inspection of the vessel after the date of expiration.

(2) The drinking water containers shall be stowed in compartments providing suitable protection.

(3) This regulation shall become effective January 1, 1954, but approved drinking water containers already in use on that date may be continued in use, if otherwise in good and serviceable condition, until the first annual inspection of the vessel following 5 years from the date of packing, whereupon they shall be replaced with containers of the type specified in subparagraph (1) of this paragraph.

SUBPART 94.45—LINE-THROWING APPLIANCE

Section 94.45-15 (a) (3) is amended to read as follows:

§ 94.45-15 *Equipment for line-throwing appliances.* (a) • • •

(3) Four service lines, each of a length not less than that specified in the approval of the appliance carried, of 7/32-inch to 9 32-inch diameter, of flax or manila, and having a breaking strength of at least 500 pounds, to be kept in faking boxes or on reels. These lines may be kept either in the box or case with the remainder of the equipment, or be stowed in an accessible location nearby.

SUBPART 94.90—SHIP'S DISTRESS SIGNALS

Section 94.90-5 *Vessels in ocean or coastwise service* is amended by deleting paragraph (b). (The applicable requirements are in Subpart 113.60 of Subchapter J—Electrical Engineering.)

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4481, 4482, 4488, 4491, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 5, 55 Stat. 244, 245; as amended; 46 U. S. C. 391, 392, 404, 484, 475, 481, 489, 367, 526p. 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 95—FIRE PROTECTION EQUIPMENT

SUBPART 95.05—FIRE DETECTING AND EXTINGUISHING EQUIPMENT WHERE REQUIRED

Section 95.05-10 (a) (3) is amended to read as follows:

§ 95.05-10 *Fixed fire extinguishing systems.* (a) • • •

(3) On vessels of 1,000 gross tons and over, contracted for on or after November 19, 1952, or where conversion from coal to oil is contracted for on or after November 19, 1952, a fixed carbon dioxide, foam or water spray system shall be installed in all spaces containing oil fired boilers, either main or auxiliary, their fuel oil service, pumps, and/or such fuel oil units as the heaters, strainers, valves, manifolds, etc., that are subject to the discharge pressure of the fuel oil service pump.

SUBPART 95.50—HAND PORTABLE FIRE EXTINGUISHERS AND SEMIPORTABLE FIRE EXTINGUISHING SYSTEMS, ARRANGEMENTS, AND DETAILS

Section 95.50-15 is amended by revising paragraphs (a) and (c) to read as follows:

§ 95.50-15 *Spare charges.* (a) For all vessels other than motorboats spare charges shall be carried for at least 50 percent of each size and each variety, i. e. foam, soda-acid, carbon dioxide, etc., of hand portable fire extinguisher required by § 95.50-10 (a). However, if the unit is of such variety that it cannot be readily recharged by the vessel's personnel, one spare unit of the same classification shall be carried in lieu of spare charges for all such units of the same size and variety.

• • • • • •

(c) For all vessels other than motorboats extra safety valve units shall be carried on board for at least 50 percent of all foam type hand portable fire extinguishers and semiportable fire extinguishing systems.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, 4483, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526p, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 96—VESSEL CONTROL AND MISCELLANEOUS SYSTEMS AND EQUIPMENT

SUBPART 96.13—RADIOTELEGRAPH AND RADIOTELEPHONE

1. The center heading title for Subpart 96.13-1 is amended to read as set forth above.

2. Section 96.13-1 (a) is amended to read as follows:

§ 96.13-1 *Required by Federal Communications Commission.* (a) Radiotelegraph and radiotelephone installations are required on certain vessels. Details of the application of this requirement as well as details of the installation shall be as required by the statutes and regulations under the jurisdiction of the Federal Communications Commission.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 5, 55 Stat. 244, 245; 46 U. S. C. 391, 392, 404, 367, 526p, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 97—OPERATIONS

SUBPART 97.13—STATION BILLS

Section 97.13-25 is amended by revising paragraphs (a) and (c) to read as follows:

§ 97.13-25 *Manning of lifeboats and life rafts.* (a) There shall be for each lifeboat and life raft a number of certificated lifeboatmen equal to that specified in Table 97.13-25 (a).

TABLE 97.13-25 (a)

| Prescribed complement of lifeboat or life raft | | Minimum number of lifeboatmen | |
|---|---|---|---|
| Over | Not over | Ocean service | All services other than ocean [1] |
| ---- | 25 | 2 | 1 |
| 25 | 40 | 2 | 2 |
| 40 | 60 | 3 | 3 |
| 60 | 85 | 4 | 4 |
| 85 | 110 | 5 | 5 |
| 110 | ---- | 6 | 6 |

[1] Certificated lifeboatmen not required in river service.

• • • • • •

(c) For ocean service, the master shall appoint a first and second in command of each lifeboat and life raft who shall be either a licensed deck officer, an able seaman, or a certificated lifeboatman. For vessels in other services, the master shall appoint a person in command of each lifeboat and life raft, and except for river service, this person shall be either a licensed deck officer or an able seaman, except that life rafts for 15 persons or less in Great Lakes and lakes, bays and sounds service may be placed in the charge of a certificated lifeboatman. The person in charge of each lifeboat or life raft shall have a list of its crew, and shall see that the persons under his orders are acquainted with their several duties.

SUBPART 97.15—TESTS, DRILLS, AND INSPECTIONS

Part 97 is amended by adding new §§ 97.15-50 and 97.15-55, reading as follows:

§ 97.15-50 *Radio apparatus for lifeboats.* (a) It shall be the duty of the master to require that all batteries for all fixed and portable radio apparatus for lifeboats are brought up to full charge weekly if the batteries are of a type which require recharging.

(b) In any case, the transmitter shall be tested weekly using a suitable artificial aerial.

§ 97.15-55 *Requirements for fuel oil.* (a) It shall be the duty of the chief engineer to cause an entry in the log to be made of each supply of fuel oil received on board, stating the quantity received, the name of the vendor, the name of the oil producer, and the flash point (closed cup test) for which it is certified by the producer.

(b) It shall be the further duty of the chief engineer to cause to be drawn and sealed and suitably labeled at the time the supply is received on board, a half-pint sample of each lot of fuel oil. These samples shall be preserved until the particular supply of oil is exhausted.

SUBPART 97.30—REPORTS OF ACCIDENTS, REPAIRS, AND UNSAFE EQUIPMENT

Part 97 is amended by adding a new § 97.30-20, reading as follows:

§ 97.30-20 *Breaking of safety valve seal.* (a) If at any time it is necessary to break the seal on a safety valve for any purpose, the chief engineer shall advise the Officer in Charge, Marine Inspection, at the next port of call, giving the reason for breaking the seal and requesting that the valve be examined and adjusted by an inspector.

SUBPART 97.35—LOG BOOK ENTRIES

Section 97.35-5 (a) is amended by adding a new subparagraph reading as follows:

§ 97.35-5 *Actions required to be logged.* (a) • • •

(8) Fuel oil data: Upon receipt of fuel oil on board. See § 97.15-55.

SUBPART 97.37—MARKING FOR FIRE AND EMERGENCY EQUIPMENT, ETC.

Section 97.37-37 (d) is amended to read as follows:

§ 97.37-37 *Lifeboats.* • • •

(d) All oars shall be conspicuously marked with the vessel's name.

SUBPART 97.45—CARRYING OF EXCESS STEAM

Section 97.45-1 (a) is amended to read as follows:

§ 97.45-1 *Master and chief engineer responsible.* (a) It shall be the duty of the master and the engineer in charge of the boilers of any vessel to require that a steam pressure is not carried in excess of that allowed by the certificate of inspection, and to require that the safety valves, once set and sealed by the inspector, are in no way tampered with or made inoperative except as provided in § 97.30-20.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4453, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 392, 404, 435, 367, 526p, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter J—Electrical Engineering

PART 112—EMERGENCY LIGHTING AND POWER SYSTEM

SUBPART 112.55—STORAGE BATTERY INSTALLATION

Section 112.55-1 (a) is corrected to read as follows:

§ 112.55-1 *General requirements.* (a) Storage batteries shall be of a design and construction proven successful in merchant marine service, and capable of withstanding the roll and pitch of a vessel and exposure to salt air. Positive plates of lead-acid batteries shall be at least 0.25 inch thick, and the specific gravity of the electrolyte when fully charged shall be 1.210 to 1.220, both inclusive, at 25 degrees C., except that thin positive plate construction (0.125 inch thick) may be used for engine cranking batteries. The fully charged specific gravity of the electrolyte of engine cranking batteries shall not exceed 1.260 at 25 degrees C. for high watering space type batteries or 1.285 at 25 degrees C. for normal watering space type batteries.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4426, 4427, 4433, 4453, as amended, sec. 14, 29 Stat. 690, sec. 10, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1384, 1544, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 361, 362, 391, 392, 399, 404, 405, 411, 435, 366, 395, 363, 369, 367, 463a, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter P—Manning of Vessels

PART 157—MANNING REQUIREMENTS

SUBPART 157.20—COMPUTATIONS

Section 157.20-35 is amended to read as follows:

§ 157.20-35 *Engineers.* (a) On any vessel subject to inspection, the Officer in Charge, Marine Inspection, shall determine the minimum number of engineers necessary for the safe navigation of a vessel.

(R. S. 4438, as amended, 4463, as amended; 46 U. S. C. 224, 222)

(b) The provisions of R. S. 4426, as amended (46 U. S. C. 404), require a licensed engineer on every ferryboat, canal boat, yacht, or other small craft of like character propelled by steam, except for a motorboat subject to the Act of April 25, 1940, as amended (54 Stat. 164-167; 46 U. S. C. 526-526t).

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply E. O. 10402, Oct. 30, 1952, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter Q—Specifications

PART 160—LIFESAVING EQUIPMENT

1. Subpart 160.002, consisting of §§ 160.062-1 to 160.002-7, inclusive, is amended to read as follows:

SUBPART 160.002—LIFE PRESERVERS, KAPOK, ADULT AND CHILD (JACKET TYPE), MODELS 2, 3, 5 AND 6

Sec.
160.002-1 Applicable specifications and plans.
160.002-2 Types and models.
160.002-3 Materials.
160.002-4 Construction.
160.002-5 Inspections and tests.
160.002-6 Marking.
160.002-7 Procedure for approval.

AUTHORITY: §§ 160.002-1 to 160.002-7 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4481, 4482, 4488, 4491, 4492, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, secs. 6, 17, 54 Stat. 164, 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526c, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 160.002-1 *Applicable specifications and plans*—(a) *Specifications.* The following specifications, of the issue in effect on the date life preservers are manufactured, form part of this subpart:

(1) Military specifications:

JAN-C-299—Cloth, Cotton, Print.
MIL-C-300—Cloth, Cotton, Drill (Fully shrunk).
JAN-W-530—Webbing, Cotton, Natural, or in Colors.
MIL-L-3129—Life Preservers, Jacket Type, Fibrous Glass.

MIL–T–2448—Twine, Cotton, Mattress, Polished for use in Tufting Machines.

(2) Federal specifications:

V–T–276—Thread, Cotton.
CCC–T–191—Textile Test Methods.
DDD–S–751—Stitches; Seams; and Stitching.

(3) Coast Guard Specification:

164.003—Kapok, processed.

(b) *Plans.* The following plans, of the issue in effect on the date life preservers are manufactured, form a part of this specification:

Dwg. No. F–49–6–1:
(Sheet 1) Cutting Pattern and General Arrangement (adult).
(Sheet 1A) Alternate stitching of tapes and webbing (adult and child).
(Sheet 2) Pad Detail (adult).
Dwg. No. F–49–6–5:
(Sheet 1) Cutting Pattern and General Arrangement (child).
(Sheet 2) Pad Detail (child).

(c) *Copies on file.* Copies of the specifications and plans referred to in this section shall be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard specification and plans may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D. C. The Federal Specifications may be purchased from the Business Service Center, General Services Administration, Washington 25, D. C. The Military Specifications may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D. C.

§ 160.002–2 *Types and models.* (a) Life preservers specified by this subpart shall be of the following types:

Type A—Adult:
Model 2—Adult, 24 ounces kapok, removable pads *not enclosed* within vinyl film outer pad covering.
Model 3—Adult, 24 ounces kapok, removable pads *enclosed* within vinyl film outer pad covering.
Type B—Child:
Model 5—Child, 16 ounces kapok, removable pads *enclosed* within vinyl film outer pad covering.
Model 6—Child, 16 ounces kapok, removable pads *not enclosed* within vinyl film outer pad covering.

§ 160.002–3 *Materials*—(a) *Kapok.* The kapok shall comply with Subpart 164.003 of this subchapter and shall be properly processed.

(b) *Envelope.* The life preserver envelope, or cover, shall be made of cotton drill. The color shall be Indian Orange, Cable No. 70072, Standard Color Card of America, Ninth Edition, issued by the Textile Color Association of the United States, Inc., 200 Madison Avenue, New York, N. Y. The drill shall be evenly dyed, and the fastness of the color to laundering, water, and light shall be rated "good" when tested in accordance with Federal Specification CCC–T–191, Methods 5610, 5630, and 5660. After dyeing, the drill shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section. The finished goods shall contain not more than 2 percent residual sizing or other nonfibrous material, shall weigh not less than 6.5 ounces per square yard, shall have a thread count of not less than 72 in the warp and 54 in the filling, and shall have a breaking strength (grab method) of not less than 105 pounds in the warp and 70 pounds in the filling. Properly mildew-inhibited drills meeting the psysical requirements of specification MIL–C–300 for Type II, Class A drill will be acceptable. If it is proposed to treat the fabric with a fire-retardant substance, full details shall be submitted to the Commandant for determination as to what samples will be needed for testing.

(c) *Tunnel strip.* The tunnel strip shall be made of cotton drill conforming to the requirements for the envelope cover.

(d) *Pad covering.* The covering for the kapok pads shall be any cotton sheeting or print cloth which possesses not less strength than unbleached cotton print cloth known commercially as 38½ inch, 64 x 56, 5.50 yards, having a minimum breaking strength of 36 pounds in the warp and 22 pounds in the filling. Cotton print cloths meeting the requirements of Type I, Class B, of specification JAN–C–299 are acceptable. The pad covering shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(e) *Outer pad covering.* The outer covering for the kapok pads of Models 3 and 5 life preservers shall be a vinyl resin film complying with the applicable requirements of Section 3 of specification MIL–L–3129, and shall have a maximum of two pinholes per square yard under a 20 percent linear elongation.

(f) *Tie tapes and drawstrings.* The tie tapes at the neck and the lower drawstring shall be made of 1¼-inch cotton tape weighing not less than 0.3 ounce per linear yard, and having a minimum breaking strength of 200 pounds. The tie tapes and drawstrings shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(g) *Body strap.* The body strap shall be made of one-inch cotton webbing having a minimum breaking strength of 400 pounds. One-inch cotton webbing meeting the requirements of specification JAN–W–530 is acceptable. The complete body strap assembly shall have a minimum breaking strength of 360 pounds. The body strap shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(h) *Dee rings and snap hook.* The Dee rings and snap hook shall be brass, bronze, or stainless steel, and of the approximate size indicated by Dwg. F–49–6–1, Sheet 1. The snap hook spring shall be phosphor bronze or other suitable corrosion-resistant material. Dee ring ends shall be welded to form a continuous ring. The webbing opening of the snap hook shall be a continuous ring.

(i) *Reinforcing tape.* The reinforcing tape shall be made of ¾-inch cotton tape weighing not less than 0.18 ounce per linear yard and having a minimum breaking strength of 120 pounds, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(j) *Thread.* The thread shall be Type IB, No. 20, 4-ply cotton thread, conforming to the requirements of Federal Specification V–T–276, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(k) *Tufting twine.* The tufting twine shall be in compliance with specification MIL–T–2448, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(l) *Mildew-inhibitor.* The mildew-inhibitor shall be dihydroxydichlorodiphenylmethane, known commercially as Compound G–4, applied by the aqueous method. The amount of inhibitor deposited shall be not more than 1.50 percent and not less than 1.00 percent of the dry weight of the finished goods.

§ 160.002–4 *Construction*—(a) *General.* This specification covers life preservers which essentially consist of a vest-cut envelope containing pockets in which are enclosed pads of buoyant material, the life preserver being fitted with tapes and webbing to provide complete reversibility, proper adjustment for close fit to the bodies of various size wearers, and proper flotation characteristics to hold the wearer in an upright backward position with head and face out of water.

(b) *Envelope.* The envelope shall be of not more than two pieces, one piece for either side, cut to the pattern shown on Dwg. No. F–49–6–1, Sheet 1, for adult size, and Dwg. No. F–49–6–5, Sheet 1, for child size, joined by seams and stitching as shown on the drawing. A drawstring tunnel shall be formed by stitching a strip of the tunnel strip material as shown by the drawing. The ends of the tunnel strip shall be tucked under the reinforcing tape stitched around the end openings so there is no direct access to the pads from the outside. Three pockets shall be formed for insertion of the kapok pads. The two front pads shall be removable from the envelope when portions of the lower longitudinal seam are opened, and the back pad shall be removable when a portion of one armhole seam is opened. The pads shall be well inserted into the pockets of the envelope, in no case more than one inch from the top seam of the pocket.

(c) *Pad inserts.* (1) The kapok pads shall be formed from two pieces of material cut to the pattern shown by Dwg. No. F–49–6–1, Sheet 2, for adult size, and Dwg. No. F–49–6–5, Sheet 2, for child size, with seams as indicated on the drawing, and filled with kapok distributed as follows:

TABLE 160.002–4 (c) (1)—DISTRIBUTION OF KAPOK IN PAD INSERTS

| | Models 2 and 3 life preservers | Models 5 and 6 life preservers |
|---|---|---|
| | *Ounces* | *Ounces* |
| Kapok, maximum | 24 | 16 |
| Front pad (2): | | |
| Lower section | 5¼ | 3½ |
| Upper section | 3¼ | 2½ |
| Back pad | 6 | 4 |

(2) For Models 3 and 5 life preservers, the kapok pads shall be enclosed in the outer pad covering specified by § 160.002–3 (e), which shall be heat-sealed tight. The heat-sealed pad seams shall show an adhesion of not less than 8 pounds when tested in accordance with paragraph 4.4.5 of specification MIL–L–3129, and the volume of the finished individual heat-sealed pads shall be such as to provide buoyancy as set forth in the following table when tested in accordance with the method set forth in § 160.002–5 (d), except that the period of submergence shall be only long enough to determine the displacement of the pads:

TABLE 160.002–4 (c) (2)—VOLUME DISPLACEMENT OF SEALED PADS FOR MODELS 3 AND 5 LIFE PRESERVERS

| | Model 3 life preservers | Model 5 life preservers |
|---|---|---|
| Front pad | 12½ lb. each ± 1 lb. | 7½ lb. each ± 1 lb. |
| Back pad | 8 lb. each ± 1½ lb. | 5 lb. each ± 1½ lb. |

(d) *Tie tapes.* The tie tapes at the neck shall extend not less than 14 inches from the edge of the adult life preserver and not less than 12 inches from the edge of the child life preserver. They shall be stitched through both thicknesses of the envelope as shown by Dwg. No. F–49–6–1, Sheet 1, for adult size, and Dwg. No. F–49–6–5, Sheet 1, for child size, or by the alternate stitching shown on Sheet 1A. The free ends shall be doubled over and stitched in accordance with Section G–G of Sheet 1.

(e) *Drawstrings.* The drawstrings at the waist shall extend not less than 8 inches from the edge of the life preserver and shall be secured in the drawstring tunnel as shown by Dwg. No. F–49–6–1, Sheet 1, for adult size, and Dwg. No. F–49–6–5, Sheet 1, for child size, or by the alternate stitching shown on Sheet 1A. The free ends shall be doubled over and stitched in accordance with Section G–G of Sheet 1.

(f) *Body strap.* The body strap shall be fitted with a single Dee ring on one end with the arrangement of a snap hook and pre-threaded double Dee rings as shown on Dwg. No. F–49–6–1, Sheet 1, on the other. The body strap shall be stitched as shown on the drawings, and the edge of the single Dee ring shall be 20 inches from the center line for adult size and 15 inches for child size.

(g) *Reinforcing tape.* Binding tape shall be stitched approximately 15 inches for adult jackets and 12 inches for child jackets around the back of the neck, and also around the openings of the drawstring tunnel and around the bottom of the armholes, as indicated by the drawings.

(h) *Stitching.* All stitching shall be a short lock stitch conforming to Stitch Type 301 of Federal Specification DDD–S–751 and there shall be not less than 7, nor more than 9 stitches to the inch.

(i) *Tufting.* The pad inserts shall be tufted in the locations shown on Dwg. No. F–49–6–1, Sheet 2, for adult size, and Dwg. No. F–49–6–5, Sheet 2, for child size, except the alternate method provided by § 160.002–4 (j) may be employed for certain tufts in the case of Models 2 and 6 life preservers.

(j) *Securing pad inserts in envelope pockets.* The removable pad inserts shall be secured in the pockets of the envelopes of Models 2 and 6 life preservers, in no case more than one inch from the top seam of the pocket, by a row of stitching, approximately 1¼ inches long near the upper edge of each pocket, which stitching shall extend through both envelope covers and the pad cover fabric. The alternate method of securing the pad inserts in the pockets of the envelopes of Models 2 and 6 life preservers, in no case more than one inch from the top seam of the pocket, shall be by extending the tufts in the upper section of the front pads, and the tuft in the back pad, through the envelope covers and the pads. The removable pad inserts, which are contained in vinyl film outer pad covering, shall not be stitched or tufted to the envelopes of Models 3 and 5 life preservers.

(k) *Workmanship.* Life preservers shall be of first-class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

§ 160.002–5 *Sampling, tests, and inspections*—(a) *General.* When production is to commence on life preservers or kapok pad inserts for use in life preservers, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located in sufficient time for him to assign a Coast Guard marine inspector to the plant to observe production methods and to conduct any inspections or tests which may be deemed advisable. Manufacturers of approved life preservers shall maintain quality control of the materials used in manufacturing operations, and the finished product so as to meet the requirements of this specification. When a lot of life preservers is presented for Coast Guard inspection, it is expected that the manufacturer will previously have taken all ordinary precautions to assure himself that the life preservers are in full compliance with the requirements of this specification. The Coast Guard inspections and test are not intended to replace, or be a substitute for, full inspections and tests by the manufacturer to maintain the quality of his product. The Coast Guard marine inspector shall be admitted to any place in the factory where work is done on the life preservers or on component materials or parts. Samples of materials entering into construction may be taken by the inspector and tests made for compliance with the applicable requirements.

(b) *Lot size and sampling.* (1) A lot shall consist of not more than 500 life preservers. A new lot shall be started with any change or modification in materials used or manufacturing methods employed. When a lot of life preservers is ready for inspection, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located, who will assign a marine inspector to the plant for the purpose of making the necessary tests and inspections. From each lot of life preservers the marine inspector shall select samples in accordance with the following table to be tested for buoyancy in accordance with paragraph (d) of this section:

TABLE 160.002–5 (b) (1)—SAMPLING FOR BUOYANCY TESTS

| Lot size: | *Number of life preservers in sample* |
|---|---|
| 100 and under | 1 |
| 101 to 200 | 2 |
| 201 to 300 | 3 |
| 301 to 500 | 4 |

(2) For a lot next succeeding one from which any sample life preserver failed the buoyancy test, the sample shall consist of not less than ten specimen life preservers to be tested for buoyancy in accordance with paragraph (d) of this section.

(c) *Test facilities.* The manufacturer shall provide a suitable place and the necessary apparatus for the use of the inspector in conducting tests to determine compliance of life preservers with this specification. The apparatus shall include accurate spring scales of adequate capacity, weighted wire mesh baskets, and a test tank or tanks which can be locked or sealed in such manner as to preclude disturbance of life preservers undergoing test or change in water level.

(d) *Buoyancy test.* (1) Securely attach the accurate spring scale in a position directly over the test tank. Suspend the weighted wire basket from the scale in such a manner that the basket is weighed while it is completely under water. In order to measure the actual buoyancy provided by the life preserver, the underwater weight of the empty basket should exceed the buoyancy of the life preserver. To obtain the buoyancy of the life preserver, proceed as follows:

(i) Weigh the empty wire basket under water.

(ii) Place the life preserver inside the basket and submerge it so that the top of the basket is at least 2 inches below the surface of the water for 48 hours. The tank shall be locked or sealed during this 48 hour submergence period. It is important that after the life preserver has once been submerged it shall remain submerged for the duration of the test, and at no time during the course of the test shall it be removed from the tank or otherwise exposed to air.

(iii) After the 48 hour submergence period unlock or unseal the tank and weigh the weighted wire basket with the life preserver inside while both are still under water.

(iv) The buoyancy is computed as (i) minus (iii).

(2) A Model 2 or 6 life preserver may be tested as a unit. For a Model 3 or 5 life preserver, the pads shall be separated from the preserver. The vinyl film outer pad covering shall then be removed from the pads, and the pads placed in the wire basket and tested for buoyancy as described above.

(e) *Buoyancy required.* Models 2 and 3 adult life preservers are required to provide not less than 16½ pounds buoyancy, and Models 5 and 6 child life preservers are required to provide not less than 11 pounds buoyancy.

(f) *Lot inspection.* If the sample life preserver or preservers meet the buoy-

ancy requirement, the inspector shall carefully inspect individually each of the life preservers in the lot, making such examination and tests as are necessary to satisfy himself that the life preservers have been manufactured according to this specification. Non-conforming units shall be eliminated. The manufacturer shall provide a well lighted place equipped with a suitable smooth top table for use by the inspector and shall provide labor for all handling of life preservers requisite to lot inspection.

(g) *Lot acceptance.* When the inspector has satisfied himself that the life preservers in the lot are of a type officially approved in the name of the company, and that such life preservers meet the requirements of this specification, they shall be plainly marked in waterproof ink with the words, "Inspected and Passed, (Date), (Port), (Inspector's initials), USCG."

(h) *Lot rejection.* If any sample life preserver fails the buoyancy test, ten additional specimen life preservers shall be selected from the lot and tested for buoyancy. If all the ten additional specimen life preservers pass the buoyancy test, the lot shall be considered for lot inspection as set forth in paragraph (f) of this section. If any one of the ten additional specimen life preservers fails the buoyancy test, the lot shall be rejected. If, in the lot inspection, three or more non-conforming units are eliminated for the same kind of defect, lot inspection shall be discontinued until such time as the manufacturer has inspected the remainder of the lot and eliminated or corrected additional units having the same kind of defect. Non-conforming units which have been eliminated in the lot inspection may be re-submitted for inspection, provided that all defects have been corrected to the satisfaction of the inspector. When permitted by the Commander of the Coast Guard District, rejected lots may be re-worked by the manufacturer to correct the deficiency for which they were rejected and to eliminate all non-conforming units, following which the remainder of the lot may be re-submitted for official testing and inspection. Life preservers from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels or motorboats.

§ 160.002–6 *Marking*—(a) *General.* Each life preserver shall be plainly marked in waterproof ink on a front compartment in letters not less than ¾ inch in height with the word, "ADULT" or "CHILD", as the case may be, and in letters ¼ inch to ⅜ inch in height with, "Model No. _____, Kapok (Manufacturer's name and address), U. S. C. G. Approval No. _____."

§ 160.002–7 *Procedure for approval*—(a) *General.* Life preservers for use on merchant vessels or motorboats are approved only by the Commandant, U. S. Coast Guard, Washington, D. C. Each model life preserver is considered separately. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located. The Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select, from not less than ten life preservers already manufactured, not less than three life preservers for test in accordance with § 160.002–5 (d). A copy of the marine inspector's report, together with a fourth specimen life preserver and one set of pad inserts selected from those already manufactured, will be forwarded to the Commandant for examination, and if satisfactory an official approval number will be assigned to the manufacturer for the model life preserver submitted.

2. Subpart 160.003, consisting of §§ 160.003–1 to 160.003–7, inclusive, is amended to read as follows:

SUBPART 160.003—LIFE PRESERVERS, CORK (JACKET TYPE), MODELS 32 AND 36

Sec.

160.003–1 Applicable specifications and plans.
160.003–2 Types and models.
160.003–3 Materials.
160.003–4 Construction.
160.003–5 Inspections and tests.
160.003–6 Marking.
160.003–7 Procedure for approval.

AUTHORITY: §§ 160.003–1 to 160.003–7 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4481, 4482, 4488, 4491, 4492, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, secs. 6, 17, 54 Stat. 164, 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391a, 404 474, 473, 481, 489, 490, 396, 367, 526e, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 160.003–1 *Applicable specifications and plans*—(a) *Specifications.* The following specifications, of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

(1) Military specifications:

MIL–C–300—Cloth, Cotton, Drill (Fully Shrunk).

(2) Federal specifications:

C–G–496—Glue, Urea, resin-type (liquid and powder).
V–T–276—Thread; cotton.
CCC–T–191—Textile Test Methods.
DDD–S–751—Stitches; seams; and stitching.

(3) Coast Guard specification:

164.001—Cork, Sheet.

(b) *Plans.* The following plans of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

Dwg. No. 160.003–1 (b), Sheet 1—Life Preserver, Cork and Balsa Wood, Models 32 and 42 Cutting Pattern and General Arrangement (Adult).
Dwg. No. 160.003–1 (b), Sheet 2—Life Preserver, Cork and Balsa Wood, Models 36 and 46, Cutting Pattern and General Arrangement (Child).

(c) *Copies on file.* Copies of the specifications and plans referred to in this section shall be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard specifications and plans may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D. C. The Federal Specifications may be purchased from the Business Service Center, General Services Administration, Washington 25, D. C. The Military Specifications may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D. C.

§ 160.003–2 *Types and models.* (a) Life preservers specified by this subpart shall be of the following types and models:

Type A—Adult:
Model 32—Adult cork life preserver (Jacket type).
Type B—Child:
Model 36—Child cork life preserver (Jacket type).

§ 160.003–3 *Materials*—(a) *Cork.* The cork shall be of new material and shall comply with the requirements of specification Subpart 164.001 of this subchapter. Re-use of cork blocks from life preservers is permitted, but if such blocks are utilized they shall be of sound structure and shall comply with the requirements for size, forming, and quality as specified in this subpart for new blocks.

(b) *Envelope.* The life preserver envelope, or cover, shall be made of cotton drill. The color shall be Indian Orange Cable No. 70072, Standard Color Card of America, Ninth Edition, issued by the Textile Color Association of the United States, Inc., 200 Madison Ave., New York, N. Y. The drill shall be evenly dyed, and the fastness of the color to laundering, water, and light shall be rated "good" when tested in accordance with Federal Specification CCC–T–191, Methods 5610, 5630, and 5660. After dyeing, the drill shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section. The finished goods shall contain not more than 2 percent residual sizing or other non-fibrous material, shall weigh not less than 6.5 ounces per square yard, shall have a thread count of not less than 72 in the warp and 54 in the filling, and shall have a breaking strength (grab method) of not less than 105 pounds in the warp and 70 pounds in the filling. Properly mildew-inhibited drills meeting the physical requirements of specification MIL–C–300 for Type II, Class A drill will be acceptable. If it is proposed to treat the fabric with a fire-retardant substance, full details shall be submitted to the Commandant for determination as to what samples will be needed for testing.

(c) *Tie tapes and body straps.* The tie tapes at the neck and the lower body straps shall be 1¼-inch cotton tape, weighing not less than 0.3 ounce per linear yard, and having a minimum breaking strength of 200 pounds. Tie tapes and body straps shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section.

(d) *Thread.* The thread shall be heavy cotton thread, Type IIIB, designation 10/3, complying with Table IV of Federal Specification V–T–276, and shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section. Alternate threads will be given special consideration.

(e) *Reinforcing tape.* The reinforcing tape shall be ¾-inch cotton tape weighing not less than 0.18 ounce per lineal yard and having a minimum breaking strength of 120 pounds, and shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section.

(f) *Mildew inhibitor.* The mildew-inhibitor shall be dihydroxydichlorodiphenylmethane, known commercially as Compound G–4, applied by the aqueous method. The amount of inhibitor deposited shall be not more than 1.50 percent and not less than 1 percent of the dry weight of the finished goods.

(g) *Glue.* The glue shall be a waterproof urea resin type complying with Federal Specification C–G–496.

§ 160.003–4 *Construction*—(a) *General.* This specification covers life preservers which essentially consist of a vest-cut envelope containing pockets in which are enclosed blocks of buoyant material, the life preserver being secured with tapes to provide reversibility and adjustment for fitting it to the body.

(b) *Envelope.* The envelope shall be of not more than two pieces, one piece for either side, cut to the pattern shown on Dwg. No. 160.003–1 (b), Sheet 1, for adult size, and Sheet 2, for child size; joined by seams and stitching as shown on the drawing.

(c) *Buoyant material.* The life preservers covered by this specification shall each be filled with 8 blocks of cork as specified below:

(1) *Dimensions.* The dimensions of the finished cork blocks shall be as follows, except that a tolerance of plus or minus ⅛ inch in length, breadth, and thickness will be permitted:

Model 32—Adult:
4 blocks—12" x 5" x 1⅞".
4 blocks—7" x 5" x 1⅞".
Model 36—Child:
4 blocks—11" x 3½" x 1⅞".
4 blocks—7" x 3½" x 1⅞".

(2) *Forming.* The corners and edges of the blocks shall be slightly rounded or beveled. The surfaces, edges, and corners of the blocks shall be of such smoothness as will prevent undue destruction of the covering and present a smooth surface to provide a suitable backing for legible stenciling or stamping of the required marking on the cover. If blocks are of more than one piece, the joining pieces shall be milled to a fair surface and shall be fitted and secured together by waterproof glue or by dowel pins or skewers, or by a combination of waterproof glue and dowel pins or skewers. The finished blocks shall be free of protruding dowel pins or skewers.

(d) *Tie tapes and body straps.* The tie tapes at the neck and the two body straps (one body strap is located on each side of the life preserver) shall be secured by stitching through both thicknesses of the envelope as indicated on the drawings, and the free ends shall extend not less than 12 inches from the edges of the life preserver after being doubled over and stitched as shown on the drawings.

(e) *Stitching.* All machine stitching shall be short lock stitch, conforming to Stitch Type 301 of Federal Specification DDD–S–751, with not less than 7 nor more than 9 stitches to the inch. The lower longitudinal edge of the jacket shall be turned to a roll and rope stitched will double thread, not less than 2½ stitches to the inch, or it may be machine sewn.

(f) *Reinforcing tape.* Reinforcing tape shall be stitched approximately 18 inches for adult jackets and 14 inches for child jackets around the back of the neck.

(g) *Workmanship.* Life preservers shall be of first-class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

§ 160.003–5 *Sampling, tests, and inspections*—(a) *General.* When production is to commence on life preservers, or cork blocks for use in life preservers, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located in sufficient time for him to assign a Coast Guard Marine Inspector to the plant to observe production methods and to conduct any inspections or tests which may be deemed advisable. Manufacturers of approved life preservers shall maintain quality control of the materials used, manufacturing operations, and the finished product so as to meet the requirements of this specification. When a lot of life preservers is presented for Coast Guard inspection, it is expected that the manufacturer will previously have taken all ordinary precautions to assure himself that the life preservers are in full compliance with the requirements of this specification. The Coast Guard inspections and tests are not intended to replace, or be a substitute for, full inspections and tests by the manufacturer to maintain the quality of his product. The Coast Guard Marine Inspector shall be admitted to any place in the factory where work is done on the life preservers or on component materials or parts. Samples of materials entering into construction may be taken by the marine inspector and tests made for compliance with the applicable requirements.

(b) *Lot size and sampling.* (1) A lot shall consist of not more than 500 life preservers. A new lot shall be started with any change or modification in materials used or manufacturing methods employed. When a lot of life preservers is ready for inspection, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located, who will assign a marine inspector to the plant for the purpose of making the necessary tests and inspections. From each lot of life preservers the marine inspector shall select samples in accordance with the following table to be tested for buoyancy in accordance with paragraph (d) of this section:

TABLE 160.003–5 (b)—SAMPLING FOR BUOYANCY TESTS

| Lot size: | Number of life preservers in sample |
|---|---|
| 100 and under | 1 |
| 101 to 200 | 2 |
| 201 to 300 | 3 |
| 301 to 500 | 4 |

(2) For a lot next succeeding one from which any sample life preserver failed the buoyancy test, the sample shall consist of not less than ten specimen life preservers to be tested for buoyancy in accordance with paragraph (d) of this section.

(c) *Test facilities.* The manufacturer shall provide a suitable place and necessary apparatus for the use of the inspector in conducting tests to determine compliance of life preservers with this specification. The apparatus shall include accurate spring scales of adequate capacity, weighted wire mesh baskets, and a test tank or tanks which can be locked or sealed in such manner as to preclude disturbance of life preservers undergoing test or change in water level.

(d) *Buoyancy test.* Securely attach the accurate spring scale in a position directly over the test tank. Suspend the weighted wire basket from the scale in such a manner that the basket is weighed while it is completely under water. In order to measure the actual buoyancy provided by the life preserver, the underwater weight of the empty basket should exceed the buoyancy of the life preserver. To obtain the buoyancy of the life preserver, proceed as follows:

(1) Weigh the empty wire basket under water.

(2) Place the life preserver inside the basket and submerge it so that the top of the basket is at least 2 inches below the surface of the water for 48 hours. The tank shall be locked or sealed during this 48-hour submergence period. It is important that after the life preserver has once been submerged it shall remain submerged for the duration of the test, and at no time during the course of the test shall it be removed from the tank or otherwise be exposed to air.

(3) After the 48-hour submergence period, unlock or unseal the tank and weigh the weighted wire basket with the life preserver inside while both are still under water.

(4) The buoyancy is computed as (1) minus (3).

(e) *Buoyancy required.* A Type A adult life preserver is required to provide not less than 16½ pounds buoyancy, and a Type B child life preserver is required to provide not less than 11 pounds buoyancy.

(f) *Lot inspection.* If the sample life preserver or preservers meet the buoyancy requirement, the marine inspector shall carefully inspect individually each of the life preservers in the lot, making such examinations and tests as are necessary to satisfy himself that the life preservers have been manufactured according to this specification. Non-conforming units shall be eliminated. The manufacturer shall provide a well-lighted place equipped with a suitable smooth top table for use by the marine inspector and shall provide labor for all handling of life preservers requisite to lot inspection.

(g) *Lot acceptance.* When the marine inspector has satisfied himself that the life preservers in the lot are of a type officially approved in the name of the company, and that such life preservers meet the requirements of this specification, they shall be plainly marked in waterproof ink with the words,

"Inspected and Passed, (Date), (Port), (Inspector's initials), USCG".

(h) *Lot rejection.* If any sample life preserver fails the buoyancy test, ten additional specimen life preservers shall be selected from the lot and tested for buoyancy. If all the ten additional specimen life preservers pass the buoyancy test, the lot shall be considered for inspection as set forth in paragraph (f) of this section. If any one of the ten additional specimen life preservers fails the buoyancy test, the lot shall be rejected. If, in the lot inspection, three or more nonconforming units are eliminated for the same kind of defect, lot inspection shall be discontinued until such time as the manufacturer has inspected the remainder of the lot and eliminated or corrected additional units having the same kind of defect. Non-conforming units which have been eliminated in the lot inspection may be re-submitted for inspection: *Provided*, That all defects have been corrected to the satisfaction of the inspector. When permitted by the Commander of the Coast Guard District, rejected lots may be re-worked by the manufacturer to correct the deficiency for which they were rejected and to eliminate all non-conforming units, following which the remainder of the lot may be re-submitted for official testing and inspection. Life preservers from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels or motorboats.

§ 160.003–6 *Marking*—(a) *General.* Each life preserver shall be plainly marked in waterproof ink on a front compartment in letters not less than ¾ inch in height with the word, "ADULT" or "CHILD", as the case may be, and in letters ¼ inch to ⅜ inch in height with, "Model No. ____, Cork, (Manufacturer's name and address), U. S. C. G. Approval No. ____."

§ 160.003–7 *Procedure for approval*—(a) *General.* Life preservers for use on merchant vessels and motorboats are approved only by the Commandant, U. S. Coast Guard, Washington, D. C. Each model life preserver is considered separately. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located. The Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select, from not less than ten life preservers already manufactured, not less than three life preservers for test in accordance with § 160.003–5 (d). A copy of the marine inspector's report, together with a fourth specimen life preserver selected from those already manufactured, will be forwarded to the Commandant for examination and, if satisfactory, an official approval number will be assigned to the manufacturer for the model life preserver submitted.

3. Subpart 160.004, consisting of §§ 160.004–1 to 160.004–7, inclusive, is amended to read as follows:

## SUBPART 160.004—LIFE PRESERVERS, BALSA WOOD (JACKET TYPE), MODELS 42 AND 46

Sec.

160.004–1 Applicable specifications and plans.
160.004–2 Type and models.
160.004–3 Materials.
160.004–4 Construction.
160.004–5 Sampling, tests, and inspections.
160.004–6 Marking.
160.004–7 Procedure for approval.

AUTHORITY: §§ 160.004–1 to 160.004–7 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4481, 4482, 4488, 4491, 4492, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, secs. 6, 17, 54 Stat. 164, 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526e, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 160.004–1 *Applicable specifications and plans*—(a) *Specifications.* The following specifications, of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

(1) Military specifications:

MIL–C–300—Cloth, Cotton, Drill (Fully Shrunk).

(2) Federal specifications:

C–G–496—Glue: Urea, Resin-Type (Liquid and Powder).
V–T–276—Thread: Cotton.
CCC–T–191—Textile Test Methods.
DDD–S–751—Stitches; Seams; and Stitching.

(3) Coast Guard specification:

164.002—Balsa Wood.

(b) *Plans.* The following plans, of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

Dwg. No. 160.003–1(b): Sheet 1—Life preserver, Cork and Balsa Wood, Models 31 and 41, Cutting Pattern and General Arrangement (Adult).

Dwg. No. 160.003–1(b): Sheet 2—Life preserver, Cork and Balsa Wood, Models 35 and 45, Pattern and General Arrangement (Child).

(c) *Copies on file.* Copies of the specifications and plans referred to in this section shall be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard specification and plan may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D. C. The Federal Specifications may be purchased from the Business Service Center, General Services Administration, Washington 25, D. C. The Military Specifications may be obtained from the Bureau of Supply and Accounts, Department of the Navy, Washington 25, D. C.

§ 160.004–2 *Types and models.* (a) Life preservers specified by this subpart shall be of the following types and models:

Type A—Adult:
Model 42—Adult balsa wood life preserver (jacket type).
Type B—Child:
Model 46—Child balsa wood life preserver (jacket type).

§ 160.004–3 *Materials*—(a) *Balsa wood.* Balsa wood blocks shall be new wood complying with Subpart 164.002 of this subchapter of a density to meet the requirements for "Density B". Re-use of balsa wood blocks from old life preservers or other devices is not permitted.

(b) *Envelope.* The life preserver envelope, or cover, shall be made of cotton drill. The color shall be Indian Orange Cable No. 70072, Standard Color Card of America, Ninth Edition, issued by the Textile Color Association of the United States, Inc., 200 Madison Ave., New York, N. Y. The drill shall be evenly dyed, and the fastness of the color to laundering, water, and light shall be rated "good" when tested in accordance with Federal Specification CCC–T–191, Methods 5610, 5630, and 5660. After dyeing, the drill shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section. The finished goods shall contain not more than 2 percent residual sizing or other non-fibrous material, shall weigh not less than 6.5 ounces per square yard, shall have a thread count of not less than 72 in the warp and 54 in the filling, and shall have a breaking strength (grab method) of not less than 105 pounds in the warp and 70 pounds in the filling. Properly mildew-inhibited drills meeting the physical requirements of specification MIL–C–300 for Type II, Class A drill will be acceptable. If it is proposed to treat the fabric with a fire-retardant substance, full details shall be submitted to the Commandant for determination as to what samples will be needed for testing.

(c) *Tie tapes and body straps.* The tie tapes at the neck and the lower body straps shall be 1¼-inch cotton tape, weighing not less than 0.3 ounce per linear yard, and having a minimum breaking strength of 200 pounds. The tapes and body straps shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section.

(d) *Thread.* The thread shall be heavy cotton thread, Type IIIB, designation 10 3, complying with Table IV of Federal Specification V–T–276, and shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section. Alternate threads will be given special consideration.

(e) *Reinforcing tape.* The reinforcing tape shall be ¾-inch cotton tape, weighing not less than 0.18 ounce per linear yard and having a minimum breaking strength of 120 pounds, and shall be treated with a mildew-inhibitor of the type specified in paragraph (f) of this section.

(f) *Mildew-inhibitor.* The mildew-inhibitor shall be dihydroxydichlorodiphenylmethane, known commercially as Compound G–4, applied by the aqueous method. The amount of inhibitor deposited shall be not more than 1.50 percent and not less than 1.00 percent of the dry weight of the finished goods.

(g) *Glue.* The glue shall be a waterproof urea resin type complying with Federal Specification C–G–496.

(h) *Coating.* Coating for the balsa wood blocks shall be a suitable waterproofing substance, such as "Hydrotuf", "Synthetic Plasoleum", "Balsa Wood Coating", or other substance of equal quality and effectiveness.

§ 160.004–4 *Construction*—(a) *General.* This specification covers life preservers which essentially consist of a vest-cut envelope containing pockets in which are enclosed blocks of buoyant material, the life preserver being secured with tapes to provide reversibility and adjustment for fitting it to the body.

(b) *Envelope.* The envelope shall be of not more than two pieces, one piece for either side, cut to the pattern shown on Dwg. No. 160.003–1 (b), Sheet 1, for adult size, and Sheet 2, for child size; joined by seams and stitching as shown on the drawings.

(c) *Buoyant material.* The life preservers covered by this specification shall each be filled with 8 blocks of balsa wood as specified below:

(1) *Dimensions.* The dimensions of the finished balsa wood blocks shall be as follows, except that a tolerance of plus or minus ⅛ inch in length, breadth, and thickness will be permitted:

Model 42—Adult:
4 blocks—12" x 5" x 1⅞".
4 blocks—7" x 5" x 1⅞".
Model 46—Child:
4 blocks—11" x 3½" x 1⅞".
4 blocks—7 " x 3½" x 1⅞".

(2) *Forming.* The balsa wood blocks shall be of one piece or shall be cut from glued up panels made from balsa wood lumber of the same length and thickness. The blocks shall be formed so as to present minimum end grain, and the corners and edges shall be slightly rounded or beveled. The surfaces, edges, and corners of the blocks shall be of such smoothness as will prevent undue destruction of the covering and present a smooth surface to provide a suitable backing for legible stenciling or stamping of the required marking on the cover.

(3) *Coating.* The balsa wood blocks shall be given a copious coating with a waterproof coating material which is in accordance with § 160.004–3 (g) and be allowed to dry thoroughly before being inserted in the pockets of the envelope.

(d) *Tie tapes and body straps.* The tie tapes at the neck and the two body straps (One body strap is located on each side of the life preserver) shall be secured by stitching through both thicknesses of the envelope as indicated on the drawings, and the free ends shall extend not less than 12 inches from the edges of the life preserver after being doubled over and stitched as shown on the drawings.

(e) *Stitching.* All machine stitching shall be short lock stitch, conforming to Stitch Type 301 of Federal Specification DDD–S–751, with not less than 7 nor more than 9 stitches to the inch. The lower longitudinal edge of the jacket shall be turned to a roll and rope stitched with double thread, not less than 2½ stitches to the inch, or it may be machine sewn.

(f) *Reinforcing tape.* Reinforcing tape shall be stitched approximately 18 inches for adult jackets and 14 inches for child jackets around the back of the neck.

(g) *Workmanship.* Life preservers shall be of first-class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

§ 160.004–5 *Sampling, tests and inspections*—(a) *General.* When production is to commence on life preservers or balsa wood blocks for use in life preservers, the manufacturer shall notify the Officer in Charge, U. S. Coast Guard, of the inspection zone in which the factory is located in sufficient time for him to assign a Coast Guard Marine Inspector to the plant to observe production methods and to conduct any inspections or tests which may be deemed advisable. Manufacturers of approved life preservers shall maintain quality control of the materials used, manufacturing operations, and the finished product so as to meet the requirements of this specification. When a lot of life preservers is presented for Coast Guard inspection, it is expected that the manufacturer will previously have taken all ordinary precautions to assure himself that the life preservers are in full compliance with the requirements of this specification. The Coast Guard inspections and tests are not intended to replace, or be a substitute for, full inspections and tests by the manufacturer to maintain the quality of his product. The Coast Guard Marine Inspector shall be admitted to any place in the factory where work is done on the life preservers or on component materials or parts. Samples of materials entering into construction may be taken by the marine inspector and tests made for compliance with the applicable requirements.

(b) *Lot size and sampling.* (1) A lot shall consist of not more than 500 life preservers. A new lot shall be started with any change or modification in materials used or manufacturing methods employed. When a lot of life preservers is ready for inspection, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located, who will assign a marine inspector to the plant for the purpose of making the necessary tests and inspections. From each lot of life preservers the marine inspector shall select samples in accordance with the following table to be tested for buoyancy in accordance with paragraph (d) of this section:

TABLE 160.004–5 (b) (1)—SAMPLING FOR BUOYANCY TESTS

| Lot size: | Number of life preservers in sample |
|---|---|
| 100 and under | 1 |
| 101 to 200 | 2 |
| 201 to 300 | 3 |
| 301 to 500 | 4 |

(2) For a lot next succeeding one from which any sample life preserver failed the buoyancy test, the sample shall consist of not less than ten specimen life preservers to be tested for buoyancy in accordance with paragraph (d) of this section.

(c) *Test facilities.* The manufacturer shall provide a suitable place and the necessary apparatus for the use of the marine inspector in conducting tests to determine compliance of life preservers with this specification. The apparatus shall include accurate spring scales of adequate capacity, weighted wire mesh baskets, and a test tank or tanks which can be locked or sealed in such manner as to preclude disturbance of life preservers undergoing test or change in water level.

(d) *Buoyancy test.* Securely attach the accurate spring scale in a position directly over the test tank. Suspend the weighted wire basket from the scale in such a manner that the basket is weighed while it is completely under water. In order to measure the actual buoyancy provided by the life preserver, the under water weight of the empty basket should exceed the buoyancy of the life preserver. To obtain the buoyancy of the life preserver, proceed as follows:

(1) Weigh the empty wire basket under water.

(2) Place the life preserver inside the basket and submerge it so that the top of the basket is at least 2 inches below the surface of the water for 48 hours. The tank shall be locked or sealed during this 48-hour submergence period. It is important that after the life preserver has once been submerged it shall remain submerged for the duration of the test, and at no time during the course of the test shall it be removed from the tank or otherwise be exposed to air.

(3) After the 48-hour submergence period unlock or unseal the tank and weigh the weighted wire basket with the life preserver inside while both are still under water.

(4) The buoyancy is computed as (1) minus (3).

(e) *Buoyancy required.* A Type A adult life preserver is required to provide not less than 16½ pounds buoyancy, and a Type B child life preserver is required to provide not less than 11 pounds buoyancy.

(f) *Lot inspection.* If the sample life preserver or preservers meet the buoyancy requirement, the Marine inspector shall carefully inspect individually each of the life preservers in the lot, making such examination and tests as are necessary to satisfy himself that the life preservers have been manufactured according to this specification. Non-conforming units shall be eliminated. The manufacturer shall provide a well lighted place equipped with a suitable smooth top table for use by the Marine inspector and shall provide labor for all handling of life preservers requisite to lot inspection.

(g) *Lot acceptance.* When the Marine inspector has satisfied himself that the life preservers in the lot are of a type officially approved in the name of the company, and that such life preservers meet the requirements of this specification, they shall be plainly marked in waterproof ink with the words, "Inspected and Passed, (Date), (Port), (Inspector's initials), USCG."

(h) *Lot rejection.* If any sample life preserver fails the buoyancy test ten additional specimen life preservers shall be selected from the lot and tested for buoyancy. If all the ten additional specimen life preservers pass the buoyancy test, the lot shall be considered for lot inspection as set forth in paragraph (f) of this section. If any one of the ten additional specimen life preservers fails the buoyancy test, the lot shall be rejected. If, in the lot inspection, three or

more non-conforming units are eliminated for the same kind of defect, lot inspection shall be discontinued until such time as the manufacturer has inspected the remainder of the lot and eliminated or corrected additional units having the same kind of defect. Non-confroming units which have been eliminated in the lot inspection may be re-submitted for inspection, provided that all defects have been corrected to the satisfaction of the marine inspector. When permitted by the Commander of the Coast Guard District, rejected lots may be re-worked by the manufacturer to correct the deficiency for which they were rejected and to eliminate all non-confroming units, following which the remainder of the lot may be re-submitted for official testing and inspection. Life preservers from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels or motorboats.

§ 160.004–6 *Marking*—(a) *General.* Each life preserver shall be plainly marked in waterproof ink on a front compartment in letters not less than $\frac{3}{4}$ inch in height with the word, "ADULT" or "CHILD", as the case may be, and in letters $\frac{1}{4}$ inch to $\frac{3}{8}$ inch in height with, "Model No. ____, Balsa Wood (Manufacturer's name and address), U. S. C. G. Approval No. ____."

§ 160.004–7 *Procedure for approval*—(a) *General.* Life preservers for use on merchant vessels and motorboats are approved only by the Commandant, U. S. Coast Guard, Washington, D. C. Each model life preserver is considered separately. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located. The Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select, from not less than ten life preservers already manufactured, not less than three life preservers for test in accordance with § 160.004–5 (d). A copy of the inspector's report, together with a fourth specimen life preserver selected from those already manufactured, will be forwarded to the Commandant for examination and, if satisfactory, an official approval number will be assigned to the manufacturer for the model life preserver submitted.

4. Subpart 160.005, consisting of §§ 160.005–1 to 160.005–7, inclusive, is amended to read as follows:

SUBPART 160.005—LIFE PRESERVERS, FIBROUS GLASS, ADULT AND CHILD (JACKET TYPE), MODELS 51, 52, 55, AND 56

Sec.

160.005–1 Applicable specifications and plans.
160.005–2 Types and models.
160.005–3 Materials.
160.005–4 Construction.
160.005–5 Inspections and tests.
160.005–6 Marking.
160.005–7 Procedure for approval.

AUTHORITY: §§ 160.005–1 to 160.005–7 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4481, 4482, 4488, 4491, 4492, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, secs. 6, 17, 54 Stat. 164, 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended, 46 U. S. C. 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526c, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 160.005–1 *Applicable specifications and plans*—(a) *Specifications.* The following specifications, of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

(1) Federal specifications:

V–T–276—Thread, Cotton.
CCC–T–191—Textile Test Methods.
DDD–S–751—Stitches; Seams; and Stitching.

(2) Military specifications:

JAN–C–299—Cloth, Cotton, Print.
MIL–C–300—Cloth, Cotton Drill (Fully Shrunk).
JAN–W–530—Webbing, Cotton, Natural or in Colors.
MIL–T–2448—Twine, Cotton, Mattress, Polished, for use in Tufting Machines.
MIL–G–2766—Glass, Fibrous (For Life Preservers).
MIL–L–3129—Life Preservers, Jacket Type, Fibrous Glass.

(b) *Plans.* The following plans, of the issue in effect on the date life preservers are manufactured, form a part of this subpart:

Dwg. No. 160.005–1:
(Sheet 1) Cutting Pattern and General Arrangement (Adult).
(Sheet 2) Alternate Stitching of Tapes and Webbing (Adult and Child).
(Sheet 3) Pad Detail (Adult).
(Sheet 4) Cutting Pattern and General Arrangement (Child).
(Sheet 5) Pad Detail (Child).

(c) *Copies on file.* Copies of the specifications and plans referred to in this section shall be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard plans may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D. C. The Federal Specifications may be purchased from the Business Service Center, General Services Administration, Washington 25, D. C. The Military Specifications may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D. C.

§ 160.005–2 *Types and models.* (a) Life preservers specified by this subpart shall be of the following types:

Type A—Adult:
Model 51—Adult, removable pads *not enclosed* within vinyl film outer pad covering.
Model 52—Adult, removable pads *enclosed* within vinyl film outer pad covering.
Type B–Child:
Model 55—Child, removable pads *not enclosed* within vinyl film outer pad covering.
Model 56—Child, removable pad *enclosed* within vinyl film outer pad covering.

§ 160.005–3 *Materials*—(a) *Fibrous glass.* The fibrous glass shall comply with the requirements of specification MIL–G–2766.

(b) *Envelope.* The life preserver envelope, or cover, shall be made of cotton drill. The color shall be Indian Orange Cable No. 70072, Standard Color Card of America, Ninth Edition, issued by the Textile Color Association of the United States, Inc., 200 Madison Ave., New York, N. Y. The drill shall be evenly dyed, and the fastness of the color to laundering, water, and light shall be rated "good" when tested in accordance with Federal Specification CCC–T–191, Methods 5610, 5630, and 5660. After dyeing, the drill shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section. The finished goods shall contain not more than 2 percent residual sizing or other non-fibrous material, shall weigh not less than 6.5 ounces per square yard, shall have a thread count of not less than 72 in the warp and 54 in the filling, and shall have a breaking strength (grab method) of not less than 105 pounds in the warp and 70 pounds in the filling. Properly mildew-inhibited drills meeting the physical requirements of specification MIL–C–300 for Type II, Class A drill will be acceptable. If it is proposed to treat the fabric with a fire-retardant substance, full details shall be submitted to the Commandant for determination as to what samples will be needed for testing.

(c) *Tunnel strip.* The tunnel strip shall be made of cotton drill conforming to the requirements for the envelope cover.

(d) *Pad covering.* The covering for the fibrous glass pads shall be any cotton sheeting or print cloth which possesses not less strength than unbleached cotton print cloth known commercially as $38\frac{1}{2}$-inch, 64 x 56, 5.50 yards, having a minimum breaking strength of 36 pounds in the warp and 22 pounds in the filling. Cotton print cloths meeting the requirements of Type I, Class B, of specification JAN–C–299, are acceptable. The pad covering shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(e) *Outer pad covering.* The outer covering for the fibrous glass pads for Models 52 and 56 life preservers shall be a vinyl resin film complying with the applicable requirements of Section 3 of specification MIL–L–3129, and shall have a maximum of two pinholes per square yard under a 20 percent elongation.

(f) *Tie tapes and drawstrings.* The tie tapes at the neck and the lower drawstrings shall be made of $1\frac{1}{4}$-inch cotton tape weighing not less than 0.3 ounce per linear yard, and having a minumum breaking strength of 200 pounds. Tie tapes and drawstrings shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(g) *Body strap.* The body strap shall be made of one-inch cotton webbing having a minimum breaking strength of 400 pounds. One-inch cotton webbing meeting the requirements for Types IIb, III, or V, of specification JAN–W–530, are acceptable. The complete body strap assembly shall have a minimum breaking strength of 360 pounds. The body strap shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(h) *Dee rings and snap hook.* The dee rings and snap hook shall be brass, bronze, or stainless steel, and of the approximate size indicated by Dwg. No. 160.005–1, Sheet 1. The snap hook spring shall be phosphor bronze or other suitable corrosion-resistant material. Dee ring ends shall be welded to form a continuous ring. The webbing opening of the snap hook shall be a continuous ring.

(i) *Reinforcing tape.* The reinforcing tape shall be $\frac{3}{4}$-inch cotton tape weighing not less than 0.18 ounce per linear yard and having a minimum breaking strength of 120 pounds, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(j) *Thread.* The thread shall be Type IB, No. 20, 4-ply cotton thread, conforming to the requirements of Federal Specification V–T–276, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(k) *Tufting twine.* The tufting twine shall be in compliance with specification MIL–T–2448, and shall be treated with a mildew-inhibitor of the type specified in paragraph (1) of this section.

(l) *Mildew-inhibitor.* The mildew-inhibitor shall be dihydroxydichlorodiphenylmethane, known commercially as Compound G–4, applied by the aqueous method. The amount of inhibitor deposited shall be not more than 1.50 percent and not less than 1.00 percent of the dry weight of the finished goods.

§ 160.005–4 *Construction*—(a) *General.* This specification covers life preservers which essentially consist of a vest-cut envelope containing pockets in which are enclosed pads of buoyant material, the life preserver being fitted with tapes and webbing to provide complete reversibility, proper adjustment for close fit to the bodies of various size wearers, and proper flotation characteristics to hold the wearer in an upright backward position with head and face out of water.

(b) *Envelope.* The envelope shall be of not more than two pieces, one piece for either side, cut to the pattern shown on Dwg. No. 160.005–1, Sheet 1, for adult size, and Dwg. No. 160.005–1, Sheet 4, for child size; joined by seams and stitching as shown on the drawing. A drawstring tunnel shall be formed by stitching a strip of the tunnel strip material as shown by the drawing. The ends of the tunnel strip shall be tucked under the reinforcing tape stitched around the end openings so there is no direct access to the pads from the outside. Three pockets shall be formed for insertion of the pads. The two front pads shall be removable from the envelope when portions of the lower longitudinal seam are opened, and the back pad shall be removable when a portion of one armhole seam is opened. The pads shall be well inserted into the pockets of the envelope, in no case more than one inch from the top seam of the pocket.

(c) *Pad inserts.* (1) The fibrous glass pads shall be formed from two pieces of material each cut to the patterns shown by Dwg. No. 160.005–1, Sheet 3, for adult size, and Sheet 5, for child size, with seams as indicated on the drawing, and filled with buoyant fibrous glass distributed as follows:

TABLE 160.005–4 (c) (1)—DISTRIBUTION OF FIBROUS GLASS IN PAD INSERTS

| | Models 51 and 52 (minimum) | Models 55 and 56 (minimum) |
|---|---|---|
| | *Ounces* | *Ounces* |
| Fibrous glass, minimum | 46.0 | 30.0 |
| Front pad (2): | | |
| Lower section | 10.0 | 6.5 |
| Upper section | 7.25 | 4.75 |
| Back pad | 11.5 | 6.5 |

(2) For Models 52 and 56 life preservers, the fibrous glass pads shall be enclosed in the outer pad covering specified by § 160.005–3 (e), which shall be heat-sealed tight. The heat-sealed pad seams shall show an adhesion of not less than 8 pounds when tested in accordance with paragraph 4.4.5 of specification MIL–L–3129, and the volume of the finished individual heat-sealed pads shall be such as to provide buoyancy as set forth in the following table when tested in accordance with the method set forth in § 160.005–5 (d), except that the period of submergence shall be only long enough to determine the displacement of the pads:

TABLE 160.005–4 (c) (2)—VOLUME DISPLACEMENT OF SEALED PADS FOR MODELS 52 AND 56 LIFE PRESERVERS

| | Model 52 life preservers | Model 56 life preservers |
|---|---|---|
| Front pad | 12 lb. each ±½ lb. | 7½ lb. each ±½ lb. |
| Back pad | 8 lb. each ±½ lb. | 5 lb. each ±½ lb. |

(d) *Tie tapes.* The tie tapes at the neck shall extend not less than 14 inches from the edge of the adult life preserver and not less than 12 inches from the edge of the child life preserver. They shall be stitched through both thicknesses of the envelope as shown by Dwg. No. 160.005–1, Sheet 1, for adult size, and Sheet 4, for child size, or by the alternate stitching shown on Sheet 2. The free ends shall be doubled over and stitched in accordance with Section E–E of Sheet 1.

(e) *Drawstrings.* The drawstrings at the waist shall extend not less than 8 inches from the edge of the life preserver and shall be secured in the drawstring tunnel as shown by Dwg. No. 160.005–1, Sheet 1, for adult size, and Sheet 4, for child size, or by the alternate stitching shown on Sheet 2. The free ends shall be doubled over and stitched in accordance with Section E–E of Sheet 1.

(f) *Body strap.* The body strap shall be fitted with a single dee ring on one end and with the arrangement of a snap hook and prethreaded double dee rings as shown on Dwg. No. 160.005–1, Sheet 1, on the other. The body strap shall be stitched as shown on the drawings, and the edge of the single dee ring shall be 20 inches from the center line for adult size and 15 inches for child size.

(g) *Reinforcing tape.* Binding tape shall be stiched approximately 15 inches for adult life preservers and 12 inches for child life preservers around the back of the neck, and also around the openings of the drawstring tunnel and around the bottom of the arm holes as indicated by the drawings.

(h) *Stitching.* All stitching shall be a short lock stitch conforming to Stitch Type 301 of Federal Specification DDD–S–751, and there shall be not less than 7, nor more than 9 stitches to the inch.

(i) *Tufting.* The pad inserts shall be tufted in the locations shown on Dwg. No. 160.005–1, Sheet 3, for adult size, and Sheet 5, for child size, except the alternate method provided by paragraph (j) of this section may be employed for certain tufts in the case of Models 51 and 55 life preservers.

(j) *Securing pad inserts in envelope pockets.* The removable pad inserts shall be secured in the pockets of the envelopes of Models 51 and 55 life preservers, in no case more than one inch from the top seam of the pocket, by a row of stitching, approximately $1\frac{1}{4}$ inches long near the upper edge of each pocket, which stitching shall extend through both envelope covers and the pad cover fabric. The alternate method of securing the pad inserts in the pockets of the envelopes of Models 51 and 55 life preservers, in no case more than one inch from the top seam of the pocket, shall be by extending the tufts in the upper section of the front pads, and the tuft in the back pad, through the envelope covers and the pads. The removable pad inserts, which are contained in a vinyl film outer pad covering, shall not be stitched or tufted to the envelopes of Models 52 and 56 life preservers.

(k) *Workmanship.* Life preservers shall be of first-class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

§ 160.005–5 *Sampling, tests, and inspections*—(a) *General.* When production is to commence on life preservers or fibrous glass pad inserts for use in life preservers, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard of the inspection zone in which the factory is located in sufficient time for him to assign a Coast Guard Marine Inspector to the plant to observe production methods and to conduct any inspections or tests which may be deemed advisable. Manufacturers of approved life preservers shall maintain quality control of the materials used, manufacturing operations, and the finished product so as to meet the requirements of this specification. When a lot of life preservers is presented for Coast Guard inspection, it is expected that the manufacturer will previously have taken all ordinary precautions to assure himself that the life preservers are in full compliance with the requirements of this specification. The Coast Guard inspections and tests are not intended to replace, or be a substitute for, full inspections and tests by the manufacturer to maintain the quality of his product. The Coast Guard Marine Inspector shall be admitted to any place in the factory where work is done on the life preservers or on component materials or parts. Samples of materials entering into construction may be taken by the marine inspector and tests made for compliance with the applicable requirements.

(b) *Lot size and sampling.* (1) A lot shall consist of not more than 500 life preservers. A new lot shall be started with any change or modification in materials used or manufacturing methods employed. When a lot of life preservers is ready for inspection, the manufacturer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the factory is located, who will assign a marine inspector to the plant for the purpose of making the necessary tests and inspections. From each lot of life preservers the marine inspector shall select samples in accordance with the following table to be tested for buoyancy in accordance with paragraph (d) of this section:

TABLE 160.005 (b) (1)—SAMPLING FOR BUOYANCY TESTS

| Lot size: | Number of life preservers in sample |
|---|---|
| 100 and under | 1 |
| 101 and 200 | 2 |
| 201 to 300 | 3 |
| 301 to 500 | 4 |

(2) For a lot next succeeding one from which any sample life preserver failed the buoyancy test, the sample shall consist of not less than ten specimen life preservers to be tested for buoyancy in accordance with paragraph (d) of this section.

(c) *Test facilities.* The manufacturer shall provide a suitable place and the necessary apparatus for the use of the inspector in conducting tests to determine compliance of life preservers with this specification. The apparatus shall include accurate spring scales of adequate capacity, weighted wire mesh baskets, and a test tank or tanks which can be locked or sealed in such manner as to preclude disturbance of life preservers undergoing test or change in water level.

(d) *Buoyancy test.* (1) Securely attach the accurate spring scale in a position directly over the test tank. Suspend the weighted wire basket from the scale in such a manner that the basket is weighed while it is completely under water. In order to measure the actual buoyancy provided by the life preserver, the underwater weight of the empty basket should exceed the buoyancy of the life preserver. To obtain the buoyancy of the life preserver, proceed as follows:

(i) Weigh the empty wire basket under water.

(ii) Place the life preserver inside the basket and submerge it so that the top of the basket is at least 2 inches below the surface of the water for 48 hours. The tank shall be locked or sealed during this 48 hour submergence period. It is important that after the life preserver has once been submerged it shall remain submerged for the duration of the test, and at no time during the course of the test shall it be removed from the tank or otherwise be exposed to air.

(iii) After the 48 hour submergence period unlock or unseal the tank and weigh the weighted wire basket with the life preserver inside while both are still under water.

(iv) The buoyancy is computed as (i) minus (iii).

(2) A Model 51 or 55 life preserver may be tested as a unit. For a Model 52 or 56 life preserver the pads shall be separated from the preserver. The vinyl film outer pad covering shall then be removed from the pads, and the pads placed in the wire basket and tested for buoyancy as described above.

(e) *Buoyancy required.* Models 51 and 52 adult life preservers are required to provide not less than 16½ pounds buoyancy, and Models 55 and 56 child life preservers are required to provide not less than 11 pounds buoyancy.

(f) *Lot inspection.* If the sample life preserver or preservers meet the buoyancy requirement, the marine inspector shall carefully inspect individually each of the life preservers in the lot, making such examination and tests as are necessary to satisfy himself that the life preservers have been manufactured according to this specification. Non-conforming units shall be eliminated. The manufacturer shall provide a well lighted place equipped with a suitable smooth top table for use by the marine inspector and shall provide labor for all handling of life preservers requisite to lot inspection.

(g) *Lot acceptance.* When the marine inspector has satisfied himself that the life preservers in the lot are of a type officially approved in the name of the company, and that such life preservers meet the requirements of this specification, they shall be plainly marked in waterproof ink with the words, "Inspected and Passed, (Date), (Port), (Inspector's initials), USCG."

(h) *Lot rejection.* If any sample life preserver fails the buoyancy test ten additional specimen life preservers shall be selected from the lot and tested for buoyancy. If all the ten additional specimen life preservers pass the buoyancy test, the lot shall be considered for lot inspection as set forth in paragraph (f) of this section. If any one of the ten additional specimen life preservers fails the buoyancy test, the lot shall be rejected. If in the lot inspection, three or more non-conforming units are eliminated for the same kind of defect, lot inspection shall be discontinued until such time as the manufacturer has inspected the remainder of the lot and eliminated or corrected additional units having the same kind of defect. Non-conforming units which have been eliminated in the lot inspection may be re-submitted for inspection, provided that all defects have been corrected to the satisfaction of the marine inspector. When permitted by the Commander of the Coast Guard District, rejected lots may be re-worked by the manufacturer to correct the deficiency for which they were rejected and to eliminate all non-conforming units, following which the remainder of the lot may be re-submitted for official testing and inspection. Life preservers from rejected lots may not, unles subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels or motorboats.

§ 160.005–6 *Marking*—(a) *General.* Each life preserver shall be plainly marked in waterproof ink on a front compartment in letters not less than ¾ inch in height with the word, "ADULT" or "CHILD", as the case may be, and in letters ¼ inch to ⅜ inch in height with, "Model No. ____, Fibrous Glass, (Manufacturer's name and address), U. S. C. G. Approval No. ____."

§ 160.005–7 *Procedure for approval*—(a) *General.* Life preservers for use on merchant vessels and motorboats are approved only by the Commandant, U. S. Coast Guard, Washington, D. C. Each model life preserver is considered separately. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located. The Commander of the Coast Guard District will detail a marine inspector to the factory to observe the production facilities and manufacturing methods and to select, from not less than ten life preservers already manufactured, not less than three life preservers for test in accordance with § 160.005–5 (d). A copy of the marine inspector's report, together with a fourth specimen life preserver and one set of pad inserts selected from those already manufactured, will be forwarded to the Commandant for examination and, if satisfactory, an official approval number will be assigned to the manufacturer for the model life preserver submitted.

SUBPART 160.006—LIFE PRESERVERS; REPAIRING AND CLEANING

5. The heading for Subpart 160.006 is changed from "Subpart 160.006—Life Preservers; Repairing, Re-Covering and Cleaning" to "Subpart 160.006—Life Preservers; Repairing and Cleaning."

6. Section 160.006–3 Re-covering is deleted.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, 4426, 4481, 4482, 4488, 4491, 4492, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, secs. 6, 17, 54 Stat. 164, 166, sec. 3, 54 Stat. 346, and sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391a, 404, 474, 475, 481, 489, 490, 396, 367, 526e, 526p, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

7. Part 160 is amended by adding a new Subpart 160.026, consisting of §§ 160.026–1 to 160.026–7, inclusive, reading as follows:

SUBPART 160.026—WATER, EMERGENCY DRINKING (IN HERMETICALLY SEALED CONTAINERS), FOR MERCHANT VESSELS

Sec.
160.026–1 Applicable specifications.
160.026–2 Type.
160.026–3 Container.
160.026–4 Water.
160.026–5 Marking.
160.026–6 Sampling, inspection, and tests of production lots.
160.026–7 Procedure for approval.

AUTHORITY: §§ 160.026–1 to 160.026–7 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4417a, 4418, 4426, 4488, 4491, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended, 46 U. S. C. 391, 391a, 392, 404, 481, 489, 396, 367, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

§ 160.026–1 *Applicable specifications*—(a) *General.* The following specifications, of the issue in effect on the date emergency drinking water is packed, form a part of this subpart:

(1) Military specifications:

MIL–L–7178—Lacquer; Cellulose Nitrate, Gloss for Aircraft Use.
MIL–E–15090—Enamel, Equipment, Light-Gray (Formula No. 111).
MIL–W–15117A—Water, Emergency Drinking (In Sealed Cans).

(b) *Copies on file.* Copies of the above specifications shall be kept on file by the packer, together with the approved plans and certificate of approval issued by the Coast Guard. The military specifications may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D. C.

§ 160.026–2 *Type.* (a) Emergency drinking water for lifeboats and life rafts and its hermetically sealed container shall be as specified herein, but alternate containers will be given special consideration.

§ 160.026–3 *Container*—(a) *General.* The emergency drinking water container shall be a sanitary type can, approximately $2^{11}/_{16}$" in diameter by $4^{7}/_{8}$" in height. The top and bottom of the can shall be double-seamed and compound-lined. The side seam shall be of a locked type, soldered on the outside. The can shall be made of 1.25-pound coating coke tin-plate throughout, with not less than 100-pound plate for the body and 85-pound plate for the ends.

(b) *Interior and exterior coatings.* The interior of the container shall be uncoated, except for the tin-plating required by paragraph (a) of this section. In addition to the tin-plating, the exterior surfaces of the container, including the ends, but excluding the side seam, shall be lithographed a gray enamel conforming to Type I or II, Class 2 of Specification MIL–E–15090, with the marking as provided by § 160.026–5 lithographed in black print. After filling, sealing, autoclaving, and marking, the container shall be dip-coated with one coat of clear base lacquer conforming to Specification MIL–L–7178.

(c) *Plant sanitation, sterilizing and filling.* The plant and equipment in which the water is canned shall be maintained in a clean and sanitary condition at all times, and standard aseptic procedures shall be followed throughout in filling the cans. The container shall be free from all foreign materials, and shall be filled with approximately $10^{2}/_{3}$ oz. of water meeting the requirements of § 160.026–4. After filling, it shall be hermetically sealed under vacuum, and after sealing, it shall be autoclaved at a temperature of not less than 250° F. for not less than 15 minutes.

§ 160.026–4 *Water.* (a) Only clear, potable water which has been suitably inhibited to protect the container against corrosion shall be used. After treatment and packing, the water shall be free from organic matter and have a pH between 7.0 and 9.0 as determined by means of a standard pH meter using glass electrodes. The water shall be completely sterile, having a coliform bacteria count of zero, and shall not exceed the maxima in mineral salt as shown in Table 160.026–4 (a) below:

TABLE 160.026–4 (a)—MINERAL SALT CONTENT

| Constituent | Parts per million (maximum) |
|---|---|
| Lead (Pb) | 0.1 |
| Copper (Cu) | .2 |
| Zinc (Zn) | 5.0 |
| Sulfate ($SO_4$) | 250.0 |
| Magnesium (Mg) | 100.0 |
| Chlorides (Cl) | 250.0 |
| Iron (Fe) | .3 |
| Residue on Evaporation | 1,000.0 |
| Sulfide (S) | None |

§ 160.026–5 *Marking*—(a) *General.* The month and year of packing and the lot number shall be embossed on the top of the container. The container shall also be lithographed on one side in accordance with § 160.026–3 (b) with the following:

"U. S. Coast Guard
Approval No. ____"
(Not less than $^{3}/_{32}$" in height)

"Contents
Approx. $10^{2}/_{3}$ oz."
(Not less than $^{3}/_{32}$" in height)

"EMERGENCY
DRINKING
WATER"
(Not less than $^{3}/_{8}$" in height)

(Name and address of packer)
(Not less than $^{1}/_{8}$" in height)

(b) *Other marking.* In addition to any other marking placed on the smallest packing carton or box in which emergency drinking water containers are placed prior to shipment, each carton or box shall be plainly and permanently marked with the name and address of the packer, the month and year of packing, and the lot number.

§ 160.026–6 *Sampling, inspection, and tests of production lots*—(a) *General.* When packing of approved emergency drinking water for lifeboats and life rafts is to commence, the packer shall notify the Officer in Charge, Marine Inspection, U. S. Coast Guard, of the inspection zone in which the plant is located in sufficient time for him to assign a marine inspector to the plant to observe production methods, select samples from production, and conduct the inspections and tests required by this subpart.

(b) *Lots.* For purposes of sampling the production of approved emergency drinking water for lifeboats and life rafts, a lot shall consist of all cans of water to be offered for inspection at one time. Lots shall be numbered serially by the packer, and a new lot shall be started with any change or modification in materials or production methods.

(c) *Visual inspection of containers.* The marine inspector shall select at random from each lot the number of sample filled containers indicated in Table 160.026–6 (c), which shall be examined visually for marking, exterior coating, and general compliance with the requirements of this subpart and the packer's approved drawings. If the number of defective cans exceeds the acceptance number shown in the table for the sample selected, the lot shall be rejected.

TABLE 160.026–6 (c)—SAMPLING FOR VISUAL INSPECTION OF CONTAINERS

| Lot size | Number of cans in sample | Acceptance number |
|---|---|---|
| 800 and under | 35 | 0 |
| 801 to 1,300 | 50 | 1 |
| 1,301 to 3,200 | 75 | 2 |
| 3,201 to 8,000 | 110 | 3 |
| 8,001 and over | 150 | 4 |

(d) *Laboratory tests of containers and water.* The marine inspector shall select at random from each lot the number of sets of 11 filled sample containers indicated in Table 160.026–6 (d1), which shall be forwarded to a recognized testing laboratory for the tests outlined in Table 160.026–6 (d2), all costs of which shall be payable by the packer. If any sample is found to be non-conforming in any of these tests, the lot shall be rejected.

TABLE 160.026–6 (d1)—SAMPLING FOR LABORATORY TESTS

| Lot size | Number of sets of samples to be selected |
|---|---|
| 3,200 and under | 1 set of 11 containers each. |
| 3,201 and over | 2 sets of 11 containers each. |

TABLE 160.026–6 (d2)—DESCRIPTION OF LABORATORY TESTS

| Number of containers per set of samples to be tested | Type of test | Reference specification for test procedure to be followed |
|---|---|---|
| 1 | Coliform organisms | Spec. MIL–W–15117A, Sec. 4.5.2. |
| 1 | Interior corrosion | Spec. MIL–W–15117A, Sec. 4.5.1. |
| 9 | Salt content | Spec. MIL–W–15117A, Sec. 4.5.3. |

(e) *Packer's tests for retention of vacuum.* All filled containers in the lot shall be held in storage by the packer for a period of two weeks from the date of filling. At the end of this two weeks storage period, the packer shall subject each container to slap tests as follows: Strike the end of the can against a firm but well padded surface to deaden any noise of impact other than the water slap which will occur if the required vacuum is present in the can. The water slap is distinguished by a sharp metallic click and is caused by the absence of air to cushion the impact of the water against the can. All cans found not to have the required vacuum shall be removed from the lot.

(f) *Additional tests by marine inspector.* Upon receiving a certified copy of the laboratory test report showing

satisfactory results in the tests described in paragraph (d) of this section, and notification from the packer of completion of the tests for retention of vacuum described in paragraph (e) for the lot offered for inspection, the marine inspector shall select at random from the lot the number of filled sample containers indicated in Table 160.026–6 (f). The test for retention of vacuum previously conducted by the packer shall be repeated by the inspector with the samples selected, and if any container is found not to have the required vacuum, the lot shall be rejected. If satisfactory in tests for retention of vacuum, the sample containers selected shall then be opened, and the water checked for clearness, potability and *pH* value. An accurately calibrated meter for use by the marine inspector in determining *pH* value shall be provided by the packer. If any cloudiness, discoloration, bad taste or odor, or a *pH* value of less than 7.0 or more than 9.0 is observed, the lot shall be rejected.

TABLE 160.026–6 (f)—SAMPLING FOR ADDITIONAL TESTS BY MARINE INSPECTOR

| Lot size: | *Number of cans in sample* |
|---|---|
| 500 and under | 5 |
| 501 to 3,200 | 7 |
| 3,201 and over | 10 |

(g) *Lot acceptance.* When the marine inspector has satisfied himself that the emergency drinking water in the lot is of a type officially approved in the name of the packer and meets the requirements of this subpart and the packer's approved drawings, the lot shall be accepted, and each of the smallest packing cartons or boxes in which the containers are sealed prior to shipment shall be plainly marked with the words, "Inspected and Passed (date), (port), Inspector's Initials, USCG." When permitted by the inspector, rejected lots may be resubmitted for official inspection, provided all containers in the lot have been re-worked by the packer, and all defective units removed. Emergency drinking water from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this subpart or as being approved for use on merchant vessels.

§ 160.026–7 *Procedure for approval*—(a) *General.* Emergency drinking water for lifeboats and life rafts on merchant vessels is approved only by the Commandant, U. S. Coast Guard, Washington 25, D. C. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the plant is located.

(b) *Pre-approval samples and plans.* Packers who desire to pack approved emergency drinking water shall make application for approval to the Commander of the Coast Guard District who will detail a marine inspector to the factory to observe production facilities and manufacturing methods and to select a pre-approval sample of at least 24 containers made up as for service use, together with four prints of fully-dimensioned descriptive drawings showing the construction and arrangement of the container, all materials and finishes used, marking, source of water supply, and kind and amount of corrosion inhibitor used. The Commander of the Coast Guard District will forward the sample containers and drawings to the Commandant to determine compliance with this specification and suitability of the emergency drinking water for type or brand approval for use in lifeboats and life rafts on merchant vessels.

8. Subpart 160.035, consisting of §§ 160.035–1 to 160.035–11, is amended to read as follows:

## SUBPART 160.035—LIFEBOATS FOR MERCHANT VESSELS

Sec.

160.035–1 Applicable specifications.
160.035–2 General requirements for lifeboats.
160.035–3 Construction of steel oar-propelled lifeboats.
160.035–4 Construction of steel hand-propelled lifeboats.
160.035–5 Construction of steel motor-propelled lifeboats, with and without radio cabin.
160.035–6 Construction of aluminum oar-, hands-, and motor-propelled lifeboats.
160.035–7 Construction of wood oar-, hand-, and motor-propelled lifeboats.
160.035–8 Cubic capacity of lifeboats.
160.035–9 Number of persons allowed in lifeboats.
160.035–10 Inspection and testing of lifeboats.
160.035–11 Procedure for approval of lifeboats.

AUTHORITY: §§ 160.035–1 to 160.035–11 issued under R. S. 4405, as amended 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4417a, 4418, 4426, 4481, 4482, 4488, 4491, 4492, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended. 46 U. S. C. 391, 391a, 392, 404, 474, 475, 481, 489, 490, 396, 367, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

§ 160.035–1 *Applicable specifications*—(a) *Specifications.* The following specifications, of the issue in effect on the date lifeboats are manufactured, form a part of this subpart:

(1) A. S. T. M. Standard specifications:

A93—Standard Specification for Zinc Coated Iron or Steel Sheets, Class D or E.
A7—Standard Specification for Steel for Bridges and Buildings.

(2) Military specification:

MIL–P–66A—Plywood, Flat-panel.

(3) Federal Communications Commission:

Rules Governing Stations on Shipboard in the Maritime Services.

(4) United States Coast Guard specifications:

160.033—Mechanical Disengaging Apparatus (For Lifeboats).
160.034—Hand Propelling Gear (For Lifeboats).
161.006—Searchlights, Motor Lifeboat.
162.015—Flame Arresters, Back-fire (For Carburetors) For Merchant Vessels and Motorboats.

(b) *Copies on file.* Copies of the specifications and rules referred to in this section shall be kept on file by the manufacturer, together with the approved plans and certificate of approval. The Coast Guard Specifications may be obtained upon request from the Commandant, United States Coast Guard Headquarters, Washington 25, D. C. The A. S. T. M. Standard Specifications may be purchased from the American Society for Testing Materials, 1916 Race St., Philadelphia 3, Pennsylvania. The Military Specifications may be obtained from the Bureau of Supply and Accounts, Department of the Navy Washington 25, D. C. The Federal Communications Commission's Rules and Regulations may be obtained from the Federal Communications Commission, Washington 25, D. C.

§ 160.035–2 *General requirements for lifeboats.* (a) The requirements of this subpart apply to all new construction. Lifeboats approved and in use prior to the regulations in this subpart may be continued in service if in satisfactory condition.

(b) All lifeboats must be properly constructed and shall be of such form and proportions that they shall be readily maneuverable, have ample stability in a seaway, and sufficient freeboard when fully loaded with their full complement of persons and equipment. All lifeboats must be open boats with rigid sides having internal buoyancy only.

(c) Lifeboats may be constructed of steel, aluminum, wood or other materials receiving specific approval: *Provided*, That, the weight of the fully equipped and loaded lifeboat shall not exceed 44,800 pounds.

(d) For the purpose of calculations and conducting tests, the weight of the persons shall be taken at 165 pounds each.

§ 160.035–3 *Construction of steel oar-propelled lifeboats*—(a) *Type.* Lifeboats shall have rigid sides and be fitted with internal buoyancy so arranged that the boats will float in the flooded condition when fully loaded with persons and equipment. The capacity of an oar-propelled lifeboat is limited to a maximum of 59 persons. Lifeboats designed to carry 60 or more persons shall be either hand-propelled or motor-propelled.

(b) *Specifications.* The following specifications and schedule of lifeboat material, including Table 160.035–3, shall be complied with unless other arrangements in matters of construction details, design, strength, equivalent in safety and efficiency are approved by the Commandant.

TABLE 160.035–3

| Length of boat, not over (feet) | Bar keel, stem, and stern-post (inches) | Gunwales: Angle bar (inches) | Gunwales: Flanged flat bar (inches) | Shell plating: Side (USSG) | Shell plating: Bottom (USSG) | Thwarts: Number required | Thwarts: Distance from top of thwart to top of gunwale (inches) | Thwarts: Size (inches) | Stanchions (inches) | Painter shackles (nominal size) | Rudder thickness (inches) |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 12.0 | 2½ x ⅝ | 2 x 1½ x ⅛ | 3½ x ⅜ | 18 | 18 | 4 | 9 | 1⅛ x 7½ | 1⅛ x 3½ | ⅝ | 1 |
| 14.0 | 2½ x ⅝ | 2 x 1½ x ⅛ | 3½ x ⅛ | 18 | 18 | 4 | 9 | 1⅛ x 7½ | 1⅛ x 3½ | ⅝ | 1 |
| 16.0 | 2½ x ⅝ | 2 x 1½ x ⅛ | 3½ x ⅛ | 18 | 18 | 4 | 9 | 1⅛ x 7½ | 1⅛ x 3½ | ⅝ | 1 |
| 18.0 | 2½ x ⅝ | 2 x 2 x ⅛ | 4 x ⅛ | 18 | 18 | 4 | 9 | 1⅝ x 7½ | 1⅝ x 3½ | ⅝ | 1 |
| 20.0 | 2½ x ¾ | 2 x 2 x ⅛ | 4 x ⅛ | 16 | 16 | 5 | 9 | 1⅝ x 7½ | 1⅝ x 3½ | ⅝ | 1 |
| 22.0 | 2½ x ¾ | 2 x 2 x ⅛ | 4 x ⅛ | 16 | 14 | 5 | 9 | 1⅝ x 7½ | 1⅝ x 3½ | ¾ | 1¼ |
| 24.0 | 3 x ¾ | 2½ x 2 x ⅛ | 4½ x ⅛ | 16 | 14 | 5 | 10 | 1¾ x 9½ | 1¾ x 5½ | ¾ | 1¼ |
| 26.0 | 3 x ¾ | 2½ x 2 x ⅛ | 4½ x ⅛ | 14 | 14 | 6 | 10 | 1¾ x 9½ | 1¾ x 5½ | ¾ | 1¼ |
| 28.0 | 3½ x ¾ | 2½ x 2½ x ⅛ | 5 x ⅛ | 13 | 12 | 6 | 10 | 1¾ x 9½ | 1¾ x 5½ | ¾ | 1¼ |
| 30.0 | 3½ x ¾ | 2½ x 2½ x ⅛ | 5 x ⅛ | 13 | 12 | 7 | 11 | 1¾ x 9½ | 1¾ x 5½ | ¾ | 1¼ |
| 32.0 | 4 x ¾ | 2½ x 2½ x ⅛ | 5 x ⅛ | 13 | 12 | 7 | 11 | 1¾ x 11½ | 1¾ x 5½ | ¾ | 1¼ |
| 34.0 | 4 x ¾ | 2½ x 2½ x ⅛ | 5 x 5/16 | 12 | 12 | 8 | 11 | 1¾ x 11½ | 1¾ x 5½ | ¾ | 1¼ |
| 36.0 | 1 x 1 | 2½ x 2½ x 5/16 | 5 x 5/16 | 12 | 12 | 8 | 11 | 1¾ x 11½ | 1¾ x 5½ | ¾ | 1¼ |

NOTE: Hoisting shackles, if provided, shall have a factor of safety of six based on the lowering weight of the fully loaded lifeboat.

(c) *Material.* (1) Plating for shell, floors, air tanks, etc., shall be made by the openhearth or electric furnace process in accordance with A. S. T. M. Standard Specification A93 Class D or E. The bend tests required by these specifications shall be made after the galvanizing or other anti-corrosive treatment has been applied.

(2) Rolled or extruded shapes such as keel, stem, sternpost, gunwales, etc., and rivets shall be made by the openhearth or electric furnace process in accordance with A. S. T. M. Standard Specification A7. Consideration will be given to the use of other steels having equivalent strength where longitudinal cold forming is necessary.

(d) *Riveting.* (1) Where riveting is employed in the construction of the shell, double riveting shall be used. The centers of the rivets in the row nearest the edge of the sheet shall be not less than $\frac{3}{8}$ inch nor more than $\frac{1}{2}$ inch from the edge. Rivets shall be staggered with not less than 18 rivets to the foot and shall have countersunk heads. The diameter of the rivets shall be not less than that shown in the Table 160.035–3 (d) (1).

TABLE 160.035–3 (d) (1)

| Plating thickness: | *Rivet diameter (inch)* |
|---|---|
| 18 USSG | $\frac{1}{4}$ |
| 16 USSG | $\frac{1}{4}$ |
| 14 USSG | 5/16 |
| 13 USSG | 5/16 |
| 12 USSG | 5/16 |

(2) Riveting of the shell plating to the keel, stem, and sternpost shall be button head rivets, staggered with not less than 12 rivets to the foot. The distance from the edge of the plate to the centers of the rivets in the nearest row shall be not less than $\frac{1}{2}$ inch nor more than $\frac{3}{4}$ inch. Rivets connecting the shell to the gunwale shall be spaced not more than 3 inches on centers. The size of the rivets for connecting the shell plating to the keel, stem, sternpost, and gunwale shall be $\frac{1}{4}$-inch diameter for boats 28 feet and under, and $\frac{5}{16}$-inch diameter for boats over 28 feet.

(3) The connection of the floors to the shell shall be by a single row of rivets not less than $\frac{3}{16}$ inch in diameter and spaced not more than 3 inches on centers.

(e) *Welding.* (1) Welding may be substituted for riveting in any location. It shall be performed by welders certified by the U. S. Coast Guard, American Bureau of Shipping, or U. S. Navy Department, and only approved electrodes shall be used. Details of the joints shall be indicated on the construction drawings submitted for approval.

(f) *Keel, stem and sternpost.* (1) Dimensions shall be not less than those shown in Table 160.035–3.

(2) The keel, stem, and sternpost shall be in not more than two lengths except in the case of a lifeboat of stern frame construction where three lengths may be used. The scarph shall have a length of nine times the thickness of the keel and shall be strapped and riveted. A double Vee butt weld may be used without straps.

(g) *Shell plating.* (1) The gage of the shell plating shall be not less than that shown in Table 160.035–3.

(2) Where increased thickness of bottom plating is called for by Table 160.035–3, the thicker plating shall be fitted to approximately the turn of the bilge.

(3) Doubling plates of suitable size shall be fitted on all lifeboats where the shell is liable to damage, wear, or corrosion from contact with chocks. Doublers shall be not less than the thickness of the bottom plating.

(4) All seam and butt laps shall be at least $1\frac{1}{4}$ inches.

(5) The laps of joints on keel, stem, and sternpost shall be at least 2 inches.

(6) All seam and butt laps, laps of plating on keel, stem, and sternpost, shall be made over felt laid in wet red lead. Other methods will be given separate consideration.

(h) *Floors.* (1) Floors shall be fitted in lifeboats 24 feet in length and over.

(2) Floors shall be of a thickness not less than that of the bottom plating and shall be at least 6 inches deep at the centerline of the lifeboat and shall be flanged $1\frac{1}{2}$ inches top and bottom. The floors shall extend to approximately the turn of the bilge.

(3) The maximum floor spacing for boats 28 feet and under shall be 36 inches, and for boats over 28 feet but not exceeding 36 feet shall be 30 inches.

(4) Limber holes shall be cut in the floors and so located as to provide efficient drainage. The limber holes shall be so arranged that the load on the floors is taken by the keel as well as by the shell plating.

(i) *Gunwales.* (1) Dimensions of angular gunwales shall be not less than that shown in Table 160.035–3.

(2) The gunwales on each side of the lifeboat shall be in not more than two pieces. If the gunwales are fitted in two lengths, the joint shall be placed at approximately one-third of the length from the stem or stern of the boat and at opposite ends of the boat. The joint may be riveted or welded, and if riveted, the backing-up piece shall be angular in section of the thickness of the gunwale, and the length shall be not less than eight times the depth of the gunwale. A suitable butt weld may be used without backing-up bar.

(3) Flanged plates made from flat bars, dimensions of which shall be not less than that shown in Table 160.035–3, may be substituted for angle gunwales. The legs of the angles shall be approximately equal and the inside radius of the bend shall be not less than $\frac{1}{2}$ inch nor more than $\frac{3}{4}$ inch. The vertical leg shall be outside of the sheer strake.

(4) Wood gunwales when installed in metal lifeboats shall be of clear grained oak or teak. They shall be of a size as listed in the table below. When in two lengths the scarph shall be located as outlined in subparagraph (2) of this paragraph. Scarphs shall be of a good long bevel type stiffened on the under side by a piece of the same size and material as the gunwale and at least 2 feet in length. The lap of the wooden gunwale to the sheer strake shall be made over felt laid in wet red lead and the gunwale shall be secured to the sheer strake with fastenings placed on 3-inch centers.

TABLE 160.035–3 (i) (4)

| Length of boat | Depth of gunwale | Width of gunwale |
|---|---|---|
| | *Inches* | *Inches* |
| 12 feet and not over 18 feet | 1¾ | 2⅝ |
| Over 18 and not over 20 feet | 1¾ | 2¾ |
| Over 20 and not over 22 feet | 2 | 2⅝ |
| Over 22 and not over 24 feet | 2¼ | 2¾ |
| Over 24 and not over 26 feet | 2⅜ | 2⅝ |
| Over 26 and not over 28 feet | 2⅝ | 2¾ |

(j) *Nosings.* (1) The outside of the gunwale angle shall have a nosing fitted to the gunwale of hollow steel, half round, 2 inches by $\frac{1}{4}$ inch. If a flanged plate gunwale is used, a nosing will not be required.

(2) The outside of a wooden gunwale shall have a nosing of clear grain oak or teak, secured to the sheer strake and the gunwale by fastenings spaced on 6-inch centers which fastenings may be substituted for alternate fastenings between the gunwale and sheer strake. On boats not over 20 feet long, the flat side of the nosing shall be not less than $1\frac{1}{2}$-inch

wide and $^{3}/_{8}$-inch thick, on boats not over 24 feet in length it shall be not less than $1^{7}/_{8}$-inch wide by 1-inch thick, on all boats over 24 feet in length it shall be not less than $2^{1}/_{4}$-inch wide by 1-inch thick.

(k) *Gunwale braces.* (1) The brace shall be bent outboard at the thwart so that the bolts and nuts do not obstruct the seating space. The gunwales shall be secured to the thwarts by steel braces, bolts and rivets as follows:

TABLE 160.035-2 (k) (1)

| Length of lifeboat | Brace size | Bolts and rivets |
|---|---|---|
| | *Inches* | *Diameter (inch)* |
| 22 feet and under | 3 x [illegible] | [illegible] |
| Over 22 feet and not over 28 ft. | 3 x [illegible] | [illegible] |
| Over 28 feet | 3 x [illegible] | [illegible] |

(2) The gunwale braces shall be bolted to the thwarts with at least two carriage bolts of a size not less than that noted in the table above and riveted or welded to the gunwales. Where riveted to the gunwale, at least two rivets of a size not less than that noted in the table above shall be used.

(3) Bracket type gunwale braces will be given special consideration.

(l) *Breast plates.* (1) Breast plates shall be fitted to the stem and stern post. The thickness of the breast plates shall not be less than the thickness of the leg of the gunwale and the depth of the throat of the plate shall not be less than twice the depth of the gunwale.

(2) Breast hooks for wooden gunwales shall be of the strap type, not less than $1^{1}/_{2}$-inch wide, nor less than $^{1}/_{4}$-inch thick. The length of each leg of the breast hook shall be not less than 5 times the width of the gunwale. The inside strap shall be continuous and the outside strap may be in two pieces provided they are through riveted to the stem or stern post. The inner and outer straps shall be through riveted or bolted to each other through the gunwale and sheer strake by not less than 3 rivets or bolts on each side.

(m) *Seats.* (1) The thwarts, side benches, and end benches shall be of fir, yellow pine, or approved equivalent.

(2) The dimensions of the thwarts shall be not less than that shown in Table 160.035-3. The mast thwart, if cut out in way of the mast, shall be suitably increased in width so that the width in way of the mast is not less than that required for other thwarts.

(3) The number of thwarts shall not be less than that set forth in Table 160.035-3.

(4) The distance from the top of the thwarts to the top of the gunwale shall be not less than that shown in Table 160.035-3.

(5) The thwart ends shall be fitted between flanges, or may be installed on top of both flanges, of a thickness not less than the bottom shell plating and secured to the thwart by two bolts in addition to the bolts through the gunwale braces. Each flange shall be riveted to the shell with rivets of the same size as used to connect the side and bottom plating and spaced not less than ten to the foot. The flanges shall extend inboard to take the brace bolts and shall be one inch in width less than the thwart. The ends of the thwart shall be not less than $^{3}/_{8}$ inch and not more than $^{3}/_{4}$ inch from the shell.

(6) The edges of all thwarts, side, and end benches shall be well rounded.

(7) Suitable foot rests shall be furnished at a distance of between 17 inches to 20 inches below the thwarts and side benches. This may be accomplished by raising the footings from the bottom of the boat.

(8) Side and end benches shall be solid or close planked, not less than the following thicknesses:

TABLE 160.035-3 (m) (8)

| Length of lifeboat | Fir or Pine | Plywood [1] |
|---|---|---|
| | *Inch* | *Inch* |
| Up to 24 feet | $^{3}/_{4}$ | $^{5}/_{8}$ |
| 24 feet to and including 28 feet | 1 | $^{3}/_{4}$ |

[1] Plywood, if used, shall be at least equal to Military Specification MIL-P-15, Boat Hull Plywood, Type I or Type II.

(n) *Stretchers.* (1) Stretchers of sufficient size and strength shall be fitted in suitable positions for rowing.

(o) *Stanchions.* (1) Fir or yellow pine stanchions of a size not less than that shown in Table 160.035-3 shall be fitted in all lifeboats where the unsupported length of the thwarts exceeds 4 feet.

(p) *Footings.* (1) Fir, pine, or plywood footings, of a thickness not less than that shown in subparagraph (m) (8) of this section, shall cover the bottom of the lifeboat between the side tanks. If fir or pine footings are used, they shall be not less than $7^{1}/_{2}$ inches wide or more than $9^{1}/_{2}$ inches wide and they shall be spaced not more than 2 inches apart.

(2) The footings shall be made readily detachable and so arranged that the plugs are at all times directly accessible without removing the footings.

(q) *Disengaging apparatus.* (1) Connections for the disengaging apparatus shall have a minimum factor of safety of six.

(2) For construction and capacity of disengaging apparatus, see Subpart 160.033 of this subchapter.

(r) *Plugs.* (1) Each lifeboat shall be fitted with an automatic plug so designed and installed as to insure complete drainage at all times when the boat is out of the water. The automatic plug shall be provided with a cap attached to the lifeboat by a suitable chain.

(s) *Protection against corrosion.* (1) All steel or iron entering into the construction of lifeboats shall be galvanized by the hot dipped process. Other methods of corrosion prevention will be given special consideration.

(2) Where welded construction is employed, the material shall be galvanized after welding unless impractical to do so in which case consideration will be given to equivalent protection.

(3) Provisions shall be made to obtain a satisfactory bond between the metal and the paint.

(t) *Rudders.* (1) Each lifeboat for vessels in ocean, coastwise, and Great Lakes service shall be fitted with a rudder and tiller. The rudder shall be constructed of clear straight grained oak, properly strengthened with drifts or straps, of a thickness not less than that shown in Table 160.035-3. The thickness may be reduced $^{1}/_{8}$ inch if cheek pieces are fitted extending beyond the lower pintle connection. The rudder shall be stiffened across the bottom edge by a piece of wood of the same character or by a metal shoe. Consideration will be given to the use of hollow metal rudders provided they are designed to float. Plywood rudders will be given special consideration. The rudder shall be fitted with a $^{1}/_{2}$-inch diameter manila lanyard of such length as to permit the rudder to be shipped without untying the lanyard.

(2) The lower attachment of the rudder to the sternpost shall be by a gudgeon and pintle. The upper attachment shall be of the triple or double gudgeon drop pin type. Where the double gudgeon type is used, the pin shall be attached to the rudder by a chain.

(3) A suitable hinged or pivoted tiller shall be provided.

(4) Rudder stops shall be provided to limit the rudder angle to approximately 45 degrees each side of the centerline.

(u) *Air tanks.* (1) There shall be supplied at least one cubic foot of air tankage for each person permitted in the boat in addition to sufficient air tankage to float the boat when filled with water and open to the sea.

(2) At least 50 percent of the air tankage shall be located along the sides of the boat and it shall be so located that the boat will be on even keel when flooded.

(3) The tops of the air tanks shall be protected by the side benches or other suitable means. The construction shall be such that water will not collect on the tops of the tanks.

(4) The cubical contents shall be stamped on the air tanks in such a location as to be visible from within the boat. The cubic capacity of the air tanks shall be determined by the formula contained in § 160.035-8 (c) except that the areas at the ends of the tanks cannot be neglected.

(5) Each air tank shall be fitted with a standard one-quarter inch pipe-size testing nipple with hexagonal cap. Cap to be of corrosion resistant material.

(6) Air tanks shall be double riveted and caulked, hook jointed and soldered, or welded so as to withstand a test pressure of one pound per square inch.

(7) *Independent air tanks.* (i) Independent air tanks shall be securely fastened in such a manner that they may be temporarily removed for inspection purposes. Fastenings shall not pierce the air tanks.

(ii) The material for the air tanks shall be of a thickness not less than that noted below:

| Capacity (cubic feet): | *USSG* |
|---|---|
| Not over 6 | 22 |
| Over 6, not over 15 | 20 |
| Over 15 | 18 |

(8) *Built-in air tanks.* (i) A bolted inspection plate shall be provided in such a location that all portions of the tank will be accessible for inspection and repair.

(ii) The tops and sides of all built-in air tanks shall be not less than 14 USSG, except that 16 USSG may be used at the ends if severe forming is necessary. All bulkheads of built-in air tanks shall be not less than 16 USSG.

(iii) Each compartment shall be fitted with a standard $^{1}/_{4}$-inch pipe size test nipple and hexagonal cap so located as to be convenient for inspection purposes. In addition, a similar fitting shall be installed as near the bottom as possible for the purpose of draining water that may enter the tank.

(v) *Equipment stowage.* (1) Provision lockers, water tanks, and special equipment lockers shall be watertight and so designed and located as to fit under the side benches, end benches, or footings without projecting into the accommodation spaces of the lifeboat. In special cases, stowage under the thwarts will be permitted. Standard $^{1}/_{4}$-inch pipe size testing nipples shall be fitted to all such lockers or tanks.

(2) Water tanks shall be constructed of at least 18 USSG material. An opening with a dogged type cover shall be provided for removal of water cans. This opening shall be at least 7" in diameter, but in any case shall be of sufficient size that all water cans can be removed. In addition, built-in water tanks shall have an opening at least 13 inches in diameter with a bolted cover for the purpose of inspection and maintenance. A 2-inch diameter fill cap shall be installed for the purpose of storing rain water. A standard $^{1}/_{4}$-inch pipe size drainage nipple with hexagonal cap shall be fitted in the bottom of the tank in an accessible location and may be used for air testing the water tank.

(w) *Grab rails.* (1) Grab rails shall be substantially attached to each lifeboat below the turn of the bilge and shall extend approximately one-half of the length of the lifeboat on each side. The ends of the grab rails shall be faired to prevent fouling and all connections of the rails to the lifeboat shall be made by riveting the palms of the brackets to a small plate and riveting the plate to the shell. To prevent rupture of the shell if the grab rail is carried away, more rivets shall be used in attaching the plate to the shell than in fastening the bracket to the plate.

(x) *Hand rails.* (1) All lifeboats intended for use in ocean and coastwise service shall be fitted with hand rails approximately 18 inches in length, constructed and attached to the lifeboat in the same manner as the grab rails required by paragraph (w) of this section. The hand rails shall be located approximately parallel to and at both ends of the grab rails and spaced midway between the grab rail and the gunwale and midway between the grab rail and the keel on both sides of the lifeboat, provided that, when the distance from grab rail to the gunwale or to the keel exceeds 4 feet two hand rails shall be fitted so as to provide equal spacing. In no case shall the hand rails project beyond the widest part of the boat. Recessed hand rails or other alternate arrangements will be given special consideration.

§ 160.035-4 *Construction of steel hand-propelled lifeboats.* (a) A hand-propelled lifeboat shall comply with all the requirements for an oar-propelled lifeboat, and in addition, shall have sufficient additional buoyancy to compensate for the weight of the hand-propelling gear.

(b) The hand-propelling gear shall be of an approved type and shall be substantially constructed and securely fitted in the lifeboat. The design shall be such that the lifeboat may be readily maneuvered from the ship's side after being launched and steerage way maintained under adverse weather conditions. Provisions shall be made for going astern. The hand-propelling gear shall propel the lifeboat with only a normal amount of effort while maintaining an average speed of not less than 3 knots over a measured course of not less than 1,000 feet.

(c) The hand-propelling gear shall be so designed that it may be operated by persons untrained in its use, and shall be operable when the boat is flooded.

(d) For construction of hand-propelling gear, see Subpart 160.034 of this subchapter.

§ 160.035-5 *Construction of steel motor-propelled lifeboats, with and without radio cabin—(a) General provisions applicable to all motor-propelled lifeboats.* (1) A motor-propelled lifeboat, carried as part of the lifesaving equipment of a vessel, whether required or not, shall comply with all the requirements for an oar-propelled lifeboat, and in addition, shall have sufficient additional buoyancy to compensate for the weight of the engine and other equipment.

(2) The engine shall be enclosed in a suitable engine box which shall be watertight with the exception of the top which may be weathertight. The top of the engine box shall be fitted with a screw-down mushroom vent. The engine box shall be fitted with a suitable drain.

(3) Fuel tanks shall be constructed of steel or other approved equivalent. The material for gasoline fuel tanks shall comply with A. S. T. M. Specification A93, and shall have a thickness of not less than 14 USSG. Diesel oil fuel tanks shall have a thickness of not less than 12 USSG and shall not be galvanized on the inside; however, the outside of such tanks shall be so treated as to obtain a corrosion resistance approximately equivalent to hot-dip galvanizing. Swash plates shall be fitted in tanks over 30 inches in length. Fuel tanks shall be adequately supported and securely fastened inside the lifeboat to prevent any movement. Fuel tanks shall have no openings in bottom, sides, or ends. Openings for fill, vent and feed pipes shall be on the top surface of the tanks. Fuel tanks shall be provided with a shut-off valve at the tank. Tanks shall be designed with a factor of safety of not less than 4, and shall be tested by a static head above the tank top of ten feet of water without showing leakage or permanent deformation.

(4) Propeller shafting shall be of bronze or other suitable corrosion resistant materials. Fittings, pipes, connections, etc., shall be of high standard and good workmanship, and installed in accordance with good marine practice. The exhaust manifold shall be suitably insulated.

(5) All engines shall be permanently installed in the lifeboat and have an efficient hand starter. If starting batteries are fitted, in addition to the hand starter, they shall be installed in a lead lined box within the motor box. The battery box shall be so constructed as to retain the battery in position when the lifeboat is in a seaway. The battery box shall be one inch longer and one inch wider than the battery and shall be lined with 4 pound lead flashed up 3 inches on the sides and ends.

(6) The following tools to perform emergency repairs and ordinary servicing shall be provided:

1 12-oz. ball peen hammer.
1 screw driver with 6-inch blade.
1 pair of 8-inch slip-joint pliers.
1 8-inch adjustable end wrench.

(b) *Steel motor-propelled lifeboats with radio cabin (Class A).*

(1) The engine shall be of a reliable, marine, compression-ignition type and shall be capable of propelling the fully equipped and loaded lifeboat at a sustained speed of not less than six knots through smooth water over a measured course. Provisions shall be made for going astern. Sufficient fuel for 24 hours continuous operation at six knots shall be provided. The engine shall be fitted with a marine type generator, insulated as required by A. I. E. E. rules for marine service, capable of charging the batteries used for the radio and searchlight as well as the starting battery, if fitted.

(2) The radio and source of power for the radio and the searchlight shall be housed and protected from the elements by a suitable radio cabin. The entire installation shall comply with the requirements of the Federal Communications Commission's Rules Governing Stations on Shipboard in the Maritime Services. The radio cabin shall be of a size to contain the radio and source of power for the radio and searchlight, and the operator of the equipment. The top and sides of the radio cabin shall be watertight with the exception of the door which need not be watertight but shall be at least weathertight. The installation of the radio cabin shall take into consideration the concentration of weight in this area.

(3) The searchlight shall be of an approved type constructed in accordance with specification Subpart 161.006 of this subchapter and shall be securely mounted on top of the radio cabin.

(4) The batteries shall be installed in a lead lined box securely fastened inside the radio cabin. The box shall be one inch longer and one inch wider than the battery and shall be lined with 4-pound lead flashed up 3 inches on the sides and ends.

(c) *Steel motor-propelled lifeboats without radio cabin (Class B).* (1) The engine shall be of a reliable, marine, compression-ignition or spark ignition type, capable of propelling the fully equipped and loaded lifeboat at a sustained speed of four knots through smooth water over a measured course. Provision shall be

made for going astern. Sufficient fuel for 24 hours continuous operation at four knots shall be provided. If a starting battery is supplied, the engine shall be fitted with a generator for charging the battery.

(2) All carburetors, except the down draft type, shall be fitted with an adequate drip collector covered with a flame screen. A backfire flame arrester of an approved type constructed in accordance with specification Subpart 162.015 of this subchapter shall be fitted and the air intakes shall be so directed that the backfire cannot blow down into the bilge. There shall be a strainer between the carburetor and the fuel tank.

§ 160.035–6 *Construction of aluminum oar, hand, and motor-propelled lifeboats.* (a) Lifeboats may be constructed of aluminum alloy. Special consideration of the materials, scantlings, and design will be given. In general, the strength of aluminum alloy lifeboats shall be equivalent to that of steel lifeboats the construction of which is noted in §§ 160.035–3, 160.035–4 and 160.035–5.

§ 160.035–7 *Construction of wood oar, hand, and motor-propelled lifeboats.* (a) Lifeboats may be constructed of wood or plywood. In either case, special consideration of the materials, scantlings, and design will be given. In general, the strength of wooden lifeboats shall be equivalent to that of steel lifeboats the construction of which is noted in §§ 160.035–3, 160.035–4 and 160.035–5.

§ 160.035–8 *Cubic capacity of lifeboats*—(a) *Definitions.* The following definitions apply to the measurement of a lifeboat to determine its cubic capacity:

(1) *Length (L).* The length is the distance in feet from the inside of the plating or planking at the stem to the corresponding position at the stern. In the case of a boat with a square stern, the after terminus is the inside of the transom.

(2) *Breadth (B).* The breadth is the distance in feet over the plating or planking at the point where the breadth of the boat is greatest.

(3) *Depth (D).* The depth is the distance in feet amidships inside the plating from the top of the keel to the level of the gunwale. The depth used for calculating purposes shall not exceed 45 percent of the breadth.

(4) *Sheer.* Lifeboats shall have a sheer at each end at least equal to 4 percent of the length, and a sheer at the quarter points of at least 1 percent of the length. If less sheer is provided, the depth used to determine the cubic capacity shall be assumed to be reduced so as to achieve this minimum sheer.

(b) *Formula.* The cubic capacity shall be determined by the following formula:

$$L \times B \times D \times 0.6$$

(c) *Owner's option.* (1) In all cases the owner or manufacturer has the right to require that the cubic capacity of the lifeboat be determined by exact measurement as outlined in subparagraph (2) of this paragraph.

(2) To determine the cubic capacity of a lifeboat by exact measurement, the use of Stirling's (Simpson's) rule shall be employed. The capacity in cubic feet of a lifeboat, calculated by Stirling's rule, may be considered as given by the following formula:

$$\text{Capacity} = \frac{L}{12}(4A + 2B + 4C)$$

where *A*, *B*, and *C* denote, respectively, the areas of the cross sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing *L* into four equal parts. (The areas corresponding to the two ends of the boat are considered negligible.) The areas *A*, *B*, and *C* shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross sections:

$$\text{Area} = \frac{h}{12}(a + 4b + 2c + 4d + e)$$

*h* being the depth in feet as determined by subparagraph (a) (3) of this section. *a*, *b*, *c*, *d*, and *e*, denote the horizontal breadths of the lifeboat measured in feet at the upper and lower points obtained by dividing *h* into four equal parts. (*a* and *e* being the breadths at the extreme points, and *c* the breadth at the middle point of *h*.) If the sheer of the gunwale measured at the two points situated at a quarter of the length of the boat from the ends exceeds 1 percent of the length of the lifeboat, the depth used in calculating the area of the cross sections A and or C shall be deemed to be the depth amidships plus 1 percent of the length of the boat.

(d) *Hand-propelled lifeboat.* The cubic capacity of a hand-propelled lifeboat shall be determined in the same manner as an oar-propelled lifeboat.

(e) *Motor-propelled lifeboat.* The cubic capacity of a motor-propelled lifeboat shall be determined in the same manner as an oar-propelled lifeboat and then deducting from the gross volume, a volume equal to the engine box and accessories, and when carried, the radio cabin, searchlight, and their accessories. The volume of such equipment extending above the sheer line need not be deducted.

§ 160.035–9 *Number of persons allowed in lifeboats.* (a) The maximum number of persons for which the lifeboat may be rated is determined as noted in subparagraphs (1), (2), and (3) of this paragraph. The smallest number obtained is the number to be used.

(1) The number of persons permitted in the lifeboat shall not exceed $\frac{1}{10}$ the net cubic capacity as determined by § 160.035–8 (b) or at the owner's or manufacturer's option by § 160.035–8 (c).

(2) The number of persons permitted in the lifeboat shall not exceed the number for which seating space is provided as determined by drawing figures to scale of a size as noted below on an arrangement plan of the lifeboat:

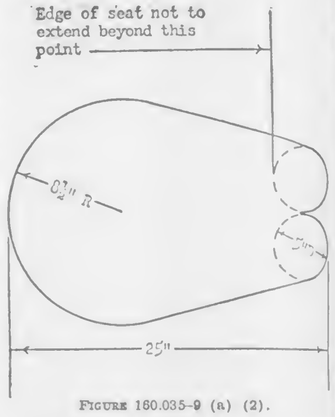


FIGURE 160.035–9 (a) (2).

(3) The number of persons permitted in the lifeboat shall not exceed the number of persons wearing life preservers which can be seated in the lifeboat without interfering with the use of the oars.

§ 160.035–10 *Inspection and testing of lifeboats.* (a) Lifeboats shall be inspected during the course of construction to determine that the arrangements and materials entering into the construction are in accordance with approved plans, and to insure that the workmanship is of good quality. All air tanks shall be tested to an air pressure of one pound per square inch and shall show no evidence of weakness.

(b) Before approval is granted to any design of lifeboat, the following tests shall be made by a marine inspector:

(1) *Strength test.* The light boat shall be suspended by shackles at the bow and stern, or by means of the releasing gear, and the length, beam, and depth shall be measured. Weights shall then be added to equal the weight of the equipment, food, water, etc., and persons for which the boat is to be approved, and the length, beam, and depth measured. Additional weight shall then be added so that the suspended load is 25 percent greater than the weight of the fully equipped and loaded lifeboat and the measurements repeated. All weights shall then be removed and the measurements rechecked. There shall be no appreciable set as a result of this test.

(2) *Flooding test.* Lifeboats shall be flooded to determine the amount of air tankage necessary to float the complete boat including releasing gear but with no equipment, provision lockers, water tanks, or fuel tanks aboard. If provision lockers, water tanks, and fuel tanks cannot be removed, they should be flooded or filled to the final waterline. Lifeboats fitted with watertight storage compartments to accommodate individual drinking water containers shall have these individual containers aboard and placed in the stowage compartments which shall be sealed watertight during the flooding test. Ballast of equivalent weight and density should be substituted for the motor, shaft, propeller, radio, battery, searchlight, etc., if they are to be installed.

(i) *Boats with independent air tanks.* The estimated amount of air tankage to just float the boat in this condition should be fitted symmetrically aboard the lifeboat, and then the boat flooded. If the tops of the gunwales at their lowest point do not clear the surface of the water, the air tankage shall be increased as necessary. One cubic foot of air tankage for each person the lifeboat is permitted to carry shall be added to the amount thus determined to constitute the required air tankage for the lifeboat.

(ii) *Boats with built-in air tanks.* When flood testing lifeboats with built-in air tanks, weights shall be placed in the bottom of the lifeboat to counteract the buoyancy of air tankage provided for the persons to be carried. The amount of weight required per person carried shall be as follows:

| Material: | Weight per person (pounds) |
|---|---|
| Iron or steel | 72 |
| Lead | 69 |
| Concrete | 110 |

Other impervious material may be used if more convenient. The weight per person required is determined from the formula $W = \frac{63d}{d-63}$ where *d* is the density of material in pounds per cubic foot. (Sandbags should not be used for this purpose inasmuch as their weight under water is not readily predictable.) If the lifeboat weighted as above does not float with the gunwale at the lowest point just clear of the surface of the water, unit air tanks should be slipped beneath the thwarts until the gunwales do clear the surface of the water. The additional air tankage required shall be incorporated in the design of the lifeboat.

(3) *Seating capacity test.* The lifeboat shall be fully loaded with equipment, and in this condition the number of persons for which the lifeboat is to be approved shall be seated, in accordance with the seating plan required in § 160.035–11 (a). All persons shall wear an approved life preserver and it shall be demonstrated by actual test that there is sufficient room to row the boat without interference.

(4) *Freeboard test.* Freeboards shall be measured to the low point of the sheer with the lifeboat in light condition with neither equipment nor persons aboard, and in the loaded condition with full equipment and persons aboard.

(5) *Stability test.* Upon the conclusion of the seating test, all persons on one side of the centerline shall disembark. The remaining people on board should sit upright and not move from their original positions. (Not less than one-half the total number of persons should remain in the lifeboat.) Freeboard to the low point of sheer shall then be measured. This freeboard should, in general, be not less than 10 percent of the depth of the lifeboat.

(c) Motor-propelled lifeboats shall be subjected to the same tests as required for an oar-propelled lifeboat. In addition, speed tests over a measured course and fuel consumption tests on a time basis shall be made to determine that the fully loaded lifeboat can maintain a speed of 6 knots for Class A motor-propelled lifeboats, and 4 knots for Class B motor-propelled lifeboats, and that there is sufficient fuel for at least 24 hours for each class of motor-propelled lifeboat at its respective speed. A 4-hour endurance trial shall be conducted with the fully loaded lifeboat at the RPM attained in the speed test in order to insure that there is no overheating, undue vibration, or other condition which would warrant the belief that the lifeboat could not maintain its proper speed for 24 hours. The time consumed in conducting the speed and fuel consumption tests may be counted toward the 4-hour endurance test. It shall be demonstrated that all engines installed in motor lifeboats can be started with the hand crank with no previous warming up period.

(d) Hand-propelled lifeboats shall be subjected to the same tests as required for an oar-propelled lifeboat. In addition, a test shall be made to assure that the lifeboat can be satisfactorily maneuvered with the hand-propelling gear. A speed of at least 3 knots shall be achieved in both light and load condition over a measured course of not less than 1,000 feet.

(e) *Testing and inspection after approval.* After the design of a lifeboat has been approved, subsequent lifeboats of the same design shall be individually inspected and tested as noted in paragraph (a) of this section. In addition, motors and hand-propelling gear when installed shall be operated in the "ahead", "neutral", and "astern" positions. If mechanical disengaging apparatus is fitted, it shall be tested by suspending the lifeboat in light condition and operating the mechanism to insure that the gear is properly installed: *Provided*, That, if in the opinion of the marine inspector, the installation is not entirely satisfactory, he may require the same test be conducted with the lifeboat fully loaded.

(f) A corrosion resistant name plate shall be affixed at the bow of each lifeboat on which is stamped the name of the manufacturer, serial number, approval number, dimensions of the lifeboat, cubic capacity, air tank capacity, the number of persons for which the lifeboat is approved, together with the inspector's initials, the date, and the letters U. S. C. G.

§ 160.035–11 *Procedure for approval of lifeboats.* (a) Before action is taken on any design of lifeboat, plans covering fully the arrangement and construction of the lifeboat, material specifications, together with a lines drawing, stowage arrangement, seating arrangement, and other details shall be submitted to the Commandant through the Commander of the Coast Guard District in which the lifeboat is built.

(b) If the drawings required in paragraph (a) of this section are satisfactory, the Commander of the Coast Guard District in which the lifeboat is to be built, shall be notified in writing when fabrication is to commence. A marine inspector will be assigned to supervise the construction in accordance with the plans and upon completion, conduct the tests required by § 160.035–10.

(c) At the time that the tests are successfully completed, the manufacturer shall present to the marine inspector four corrected copies of the plans noted in paragraph (a) of this section, including any corrections, changes, or additions which may have been found necessary during construction or testing. If the manufacturer desires more than one set of approved plans, additional copies shall be submitted at that time.

(d) Upon receipt of corrected drawings and satisfactory test reports, the Commandant will issue a certificate of approval. No change shall be made in the design or construction without first receiving permission of the Commandant, via the Commander of the Coast Guard District in which the lifeboat is built.

SUBPART 160.040—LINE-THROWING APPLIANCE, IMPULSE-PROJECTED ROCKET TYPE (AND EQUIPMENT) FOR MERCHANT VESSELS

9. Section 160.040–4 (c) is amended by changing the first sentence to read as follows:

§ 160.040–4 *Equipment for impulse-projected rocket type line-throwing appliance.* * * *

(c) Four service lines, each $\frac{7}{32}$-inch to $\frac{9}{32}$-inch diameter, with not less than 500 pounds breaking strength, and in one continuous length not less than that specified in the approval of the appliance carried, without splice, knot, or other retarding or weakening features. The length of each service line will be assigned in the approval of the appliance as a round number approximately one-third in excess of the average distance the line is carried in the tests required by § 160.040–7 (c). * * *

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4417a, 4418, 4426, 4481, 4488, 4491, as amended, sec. 11, 35 Stat. 428, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 391a, 392, 404, 474, 481, 489, 396, 367, 1333, 50 U. S. C. App 1275; E. O. 10102, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 162—ENGINEERING EQUIPMENT

Part 162 is amended by adding a new Subpart 162.027 reading as follows:

SUBPART 162.027—NOZZLES, FIRE HOSE, COMBINATION SOLID STREAM AND WATER SPRAY ($1\frac{1}{2}$-INCH AND $2\frac{1}{2}$-INCH) FOR MERCHANT VESSELS

Sec.
162.027–1 Applicable specifications.
162.027–2 Type and size.
162.027–3 Materials, construction, workmanship, and performance requirements.
162.027–4 Inspections and tests.
162.027–5 Marking.
162.027–6 Procedure for approval.

AUTHORITY: §§ 162.027–1 to 162.027–6 issued under R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4417a, 4418, 4426, 4471, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 3, 54 Stat. 1333, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 391a, 392, 404, 471,

489, 396, 367, 526p, 463a, 1333, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.

§ 162.027–1 *Applicable specifications.* (a) The following specifications of the issue in effect on the date combination solid stream and water spray fire hose nozzles are manufactured, form a part of this subpart:

(1) Military specification:

MIL–B–16444, Bronze, Hydraulic (ounce metal): castings.

(2) Federal specification:

WW–C–621, Couplings; hose, cotton (rubber lined) and linen (unlined).

(b) *Copies on file.* Copies of the specifications referred to in this section shall be kept on file by the manufacturer, together with the approved plans and certificate of approval. The Military Specification may be obtained from the Bureau of Supplies and Accounts, Department of the Navy, Washington 25, D. C. The Federal Specification may be purchased from the Business Service Center, General Services Administration, Washington 25, D. C.

§ 162.027–2 *Type and size*—(a) *Type.* Combination solid stream and water spray fire hose nozzles specified by this subpart shall consist essentially of a fire hose nozzle body with two discharge outlets, a valve for shut off and directing the flow of water to either outlet, a high-velocity water spray tip, and an applicator with a low-velocity water spray head. One discharge outlet shall be a straight stream orifice, and the other outlet shall be designed to accommodate either the high-velocity tip or the applicator with the low-velocity head, both of which must be capable of being removed or inserted readily without the use of tools. Combination nozzles shall be designed with a self-cleaning strainer in the body; or may omit the strainer if both the high-velocity spray tip and the low-velocity spray head are designed to pass material up to the size of a $\frac{7}{8}$-inch diameter ball for the $1\frac{1}{2}$-inch size, and up to a $\frac{1}{2}$-inch diameter ball for the $2\frac{1}{2}$-inch size. Nozzles permitting adjustment to obtain a range of spray patterns will not be considered as meeting the requirements of this subpart.

(b) *Size.* Combination solid stream and water spray fire hose nozzles shall be of two sizes: one for use on $1\frac{1}{2}$-inch hose, and the other for use on $2\frac{1}{2}$-inch hose.

§ 162.027–3 *Materials, construction, workmanship, and performance requirements*—(a) *Materials.* The materials shall comply with the requirements outlined in this paragraph. Alternate materials which meet the performance requirements of this subpart will be given special consideration.

(1) *Materials, general.* All materials used in the construction of combination solid stream and water spray fire hoze nozzles shall be of good quality, suitable for the purpose intended, and shall conform to the requirements of this subpart. The use of dissimilar metal in combination shall be avoided if possible but, when such contacts are necessary, provisions shall be made to prevent effects such as galvanic corrosion, freezing of moving parts, and loosening or tightening of joints due to differences in thermal expansion coefficients. Castings shall be free from blow holes, porosity, shrinkage defects, cracks, or other injurious defects.

(2) *Materials, specific.* The nozzle body, valve, valve control handle or lever, high-velocity tip, and low-velocity head shall be bronze, complying with Military Specification MIL–B–16444. Other component parts such as applicator tubes, valve seats, springs, gaskets, etc., shall not be limited with regard to materials except for the requirements of subparagraph (1) of this paragraph.

(b) *Construction.* The construction of combination nozzles manufactured in accordance with this subpart shall comply with the requirements outlined in this paragraph. Alternate arrangements which meet the performance requirements of this subpart will be given special consideration.

(1) *General.* The waterways and control valve shall be so arranged that the nozzle operates from shut-off to spray position and then to solid stream, so that it is not necessary to go through solid stream to obtain a spray. Each of the three positions shall have a positive stop or spring-loaded detent to hold the valve at the position while the pressure at the inlet is 100 p. s. i., and shall be clearly marked to indicate the proper location of the lever or handle for the desired use. The $1\frac{1}{2}$-inch nozzle shall have not less than a $\frac{5}{8}$-inch solid stream orifice, and the $2\frac{1}{2}$-inch nozzle shall have not less than a $\frac{7}{8}$-inch solid stream orifice. The high-velocity water spray tip shall be attached to the body of the nozzle by a short length of chain. The threads on the inlet end of the nozzle shall be American National Standard Fire-Hose Threads, i. e., 9 threads per inch for the $1\frac{1}{2}$-inch size, and $7\frac{1}{2}$ threads per inch for the $2\frac{1}{2}$-inch size.

(2) *Self-cleaning strainer.* The self-cleaning strainer contained within the body of the nozzle shall be so arranged as to prevent foreign material from entering the spray waterway and to effect complete cleaning of the strainer when the handle is moved to the solid stream position with the water flowing. The arrangement shall be such as to not permit any of the foreign material to be flushed into the spray waterway when the valve is in any position. The perforations in the strainer shall be of a diameter no larger than 60 percent of the diameter of the smallest orifice in the high-velocity spray tip, and the total free area of the strainer shall be at least 15 times the total area of the high-velocity spray tip orifices. The self-cleaning strainer may be omitted from the body of the nozzle if both the high-velocity tip and the applicator with low-velocity head are designed to pass material up to the size of a $\frac{3}{8}$-inch diameter ball for the $1\frac{1}{2}$-inch size, and up to a $\frac{1}{2}$-inch diameter ball for the $2\frac{1}{2}$-inch size.

(3) *Applicators.* The applicator for the $1\frac{1}{2}$-inch nozzles shall be either 4 feet or 10 feet in length.[1] The 4-foot applicator shall have a bend approximately 12 inches from the discharge end, through an angle of 60 degrees, on a 6- to 8-inch radius. The discharge end of the 10-foot applicator shall be bent through an angle of 90 degrees, to a radius of 6 to 8 inches, so that the normal extension is 10 to 12 inches in length. The applicator for the $2\frac{1}{2}$-inch nozzle shall be 12 feet in length, with the discharge end bent through an angle of 90 degrees, to a radius of 6 to 8 inches, so that the normal extension is 10 to 12 inches in length. The bends in the applicators shall be downward and in the vertical plane of the nozzle when the applicator is locked in place. The length specified for each applicator is the straight length of the pipe before bending, and a reasonable tolerance will be acceptable. The inlet end of the applicator shall have a bayonet or other positive but quick operating joint which shall be identical with that on the high-velocity water spray tip.

(4) *Additional strainer for low-velocity water spray head.* The low-velocity water spray head which is fitted on the end of the applicator shall be protected by an additional strainer which shall be readily removable for cleaning, this strainer to have perforations of a diameter no larger than 60 percent of the diameter of the smallest orifice in the low-velocity water spray head, and a total free area of at least 15 times the total free area of the orifices in the low-velocity water spray head. The strainer may be omitted if the low-velocity water spray head is designed to pass material up to the size of a $\frac{3}{8}$-inch diameter ball for the $1\frac{1}{2}$-inch size, and up to a $\frac{1}{2}$-inch diameter ball for the $2\frac{1}{2}$-inch size.

(c) *Workmanship.* Combination nozzles manufactured in accordance with this subpart shall be of first class workmanship and shall be free from any defects materially affecting their appearance or serviceability.

(d) *Performance requirements.* Combination nozzles manufactured in accordance with this subpart shall be capable of meeting the test requirements outlined in § 162.027–4.

§ 162.027–4 *Inspections and tests*—(a) *General.* Combination nozzles specified by this subpart are not inspected at regularly scheduled factory inspections by the Coast Guard; however, the Commander of the Coast Guard District may detail an inspector at any time to visit any place where combination nozzles are manufactured to check materials and manufacturing methods, and to conduct such tests and examinations as may be required to satisfy himself that combination nozzles are being manufactured in compliance with the requirements of this specification. The manufacturer shall provide a suitable place and the necessary equipment for the use of the inspector in conducting such tests or examinations at the place of manufacture.

[1] The 4-foot applicator is intended for $1\frac{1}{2}$-inch size combination nozzles fitted in propulsion machinery spaces containing oil-fired boilers, internal combustion machinery, or oil fuel units.

(b) *Solid stream.* With the nozzle three feet above the ground, held at an angle to obtain maximum range, the valve in the solid stream position, and the water flowing at a gage pressure at the inlet to the nozzle of 100 pounds per square inch, the output and effective range of the solid stream orifice in still air shall comply with the requirements in Table 162.027–4 (b). The effective range is defined as the extreme limit at which the stream has not lost continuity by breaking into showers of spray, and appears to effectively carry through an opening of 4 feet diameter, as nearly as can be judged by visual observation.

TABLE 162.027–4 (b)

| Nozzle size | $1\frac{1}{2}$-inch | $2\frac{1}{2}$-inch. |
|---|---|---|
| Output, minimum | 160 g. p. m. | 325 g. p. m. |
| Effective range, minimum | 55 feet | 65 feet. |

(c) *High-velocity water spray tip.* With the high-velocity water spray tip in place, the nozzle about 3 feet above the ground, held level, the valve in the water spray position, and the water flowing at a gage pressure at the inlet to the nozzle of 100 pounds per square inch, the output and pattern in still air shall consist of finely divided particles uniformly distributed throughout the discharge cone, and shall comply with the requirements in Table 162.027–4 (c).

TABLE 162.027–4 (c)

| Nozzle size | $1\frac{1}{2}$-inch | $2\frac{1}{2}$-inch. |
|---|---|---|
| Output | 50 g. p. m., −3, +5. | 110 g. p. m., −7, +11. |
| Horizontal projection of spray pattern. | 20 feet, minimum. | 25 feet, minimum. |
| Diameter of pattern at point of maximum spread. | 6 feet, minimum. | 8 feet, minimum. |

(d) *Low-velocity water spray head.* (1) With the applicator in place on the nozzle, the low-velocity water spray head in a vertical position pointing downward, about 8 feet above the ground, the valve in the water spray position, and the water flowing at a gage pressure at the inlet of the nozzle of 100 pounds per square inch, the output and pattern in still air shall consist of very finely divided particles uniformly distributed throughout the discharge cone, and shall comply with the requirements in Table 162.027–4 (d) (1).

TABLE 162.027–4 (d) (1)

| Nozzle size | $1\frac{1}{2}$-inch | $2\frac{1}{2}$-inch. |
|---|---|---|
| Output | 50 g. p. m., −3, +5. | 110 g. p. m., −7, +11. |
| Diameter of pattern | 16 feet, minimum. | 22 feet, minimum. |

(2) With the applicator in place on the nozzle, the water flowing at a gage pressure at the inlet of the nozzle of 100 pounds per square inch, bring the low-velocity spray head over the surface of kerosene or water in a tank and measure the distance when it is as close as possible without unduly disturbing the surface or scattering the liquid. The distance under these conditions shall not exceed 2 feet.

(3) *Fire test.* For the purpose of evaluating the effectiveness of the low-velocity water spray head, a fire test with the following set-up shall be used:

A cylindrical tank, having a minimum diameter of 15 feet and a height of approximately $2\frac{1}{2}$ feet above the ground, shall be partially filled with water on which kerosene is floated to a depth of not less than $2\frac{1}{2}$ inches. The surface of the kerosene shall be approximately 12 inches below the top rim of the tank. The kerosene shall be primed with about $\frac{1}{2}$ gallon of gasoline. After ignition, the fire shall be allowed to burn approximately 2 minutes before being attacked. The approach shall be made from the windward side with the water flowing at a gage pressure at the nozzle inlet of 100 p. s. i. This test shall not be conducted out of doors when the wind velocity is greater than 5 miles per hour. The test fire shall be extinguished in not more than 2 minutes for the $1\frac{1}{2}$-inch size and not more than 1 minute and 30 seconds for the $2\frac{1}{2}$-inch size.

(e) *Self-cleaning strainer.* The self-cleaning strainer shall be tested by introducing foreign material into the water stream supplied to the nozzle, the foreign material to consist of sea weed, sand, and broken shells, no part of which shall be larger than the straight stream orifice of the nozzle being tested. With the high-velocity water spray tip in place, sufficient material shall be introduced to effect a nearly complete stoppage of the flow through the spray tip. With the flow nearly stopped, the control lever shall be moved to the solid stream position for a period not longer than 5 seconds to flush out the strainer. This test shall be performed with a gage pressure at the nozzle inlet of both 50 pounds per square inch and 100 pounds per square inch with the water flowing and the nozzle in the unclogged condition. The performance of the strainer following this test shall be such that the output and the spray pattern of the spray tip will comply with the requirements of paragraph (c) of this section for the size nozzle being tested.

(f) *Corrosion tests.* Measure the torque required to turn the valve control handle from the "Spray" position toward the "Solid Stream" position. With the high-velocity spray tip in place, and the valve control handle in the "Spray" position, expose the nozzle to a 20 percent salt water spray for 6 days at 95° F., following which again measure the torque in the same manner. With the high-velocity spray tip in place, submerge the nozzle in a 4 percent salt water solution for 5 minutes with the valve control handle in the "Solid Stream" position and 5 minutes in the "Spray" position, then drain it and set it aside for 2 days, following which again measure the torque in the same manner. The torque required to operate the valve control handle after each test shall be no greater than two pound-feet more than the torque required to operate it with the nozzle in the new condition.

(g) *Ruggedness tests.* With the high-velocity spray tip in place, the nozzle shall be dropped on a concrete floor or slab having a smooth surface from a height of 3 feet four times, as follows: In the first drop the nozzle shall be held vertically so as to land on its tip. In the second drop it shall be held vertically so as to land on the hose end. In the third and fourth drops it shall be held with its axis approximately horizontal so as to land on opposite sides. The high-velocity spray tip shall then be removed and replaced by the applicator with low-velocity spray head, and this complete assembly shall be dropped from a height of 3 feet once, as follows: It shall be held with the axis of the assembly approximately horizontal and the bend of the applicator downward so as to land on the end of the low-velocity tip and bottom of the nozzle body approximately simultaneously. The nozzle body, valve control handle, high-velocity water spray tip, and applicator with low-velocity water spray head shall be sufficiently rugged so that following these drop tests they function properly and meet all the test requirements of this subpart.

§ 162.027–5 *Marking*—(a) *General.* Each combination nozzle shall be permanently and legibly marked with the manufacturer's name and model designation in addition to the marking of the valve positions required by § 162.027–3 (b) (1).

§ 162.027–6 *Procedure for approval*—(a) *General.* Combination solid stream and water spray fire hose nozzles for use on merchant vessels are approved only by the Commandant, U. S. Coast Guard, Washington, D. C. Correspondence pertaining to the subject matter of this specification shall be addressed to the Commander of the Coast Guard District in which the factory is located.

(b) *Manufacturer's plans and specifications.* In order to apply for approval of combination nozzles, the manufacturer shall submit 4 prints each of detailed plans and specifications, including a complete bill of materials, assembly drawing, and parts drawings descriptive of the arrangement and construction of the device, to the Commander of the Coast Guard District in which the factory is located. Each drawing shall have an identifying number, date, with alterations properly noted, and the model designation identifying the nozzle involved. These drawings and specifications will be forwarded to the Commandant for examination.

(c) *Pre-approval sample and tests.* After the drawings and specifications have been found to appear satisfactory, at the request of the manufacturer, a marine inspector will be detailed to the factory to observe the production facilities and manufacturing methods, and to examine a pre-approval sample, which will be forwarded to the Commandant for testing, in accordance with § 162.027–4, together with plans and specifications in quadruplicate, revised or corrected as may have been required. Cost of shipping and pre-approval testing shall be borne by the manufacturer.

(d) *Alternate pre-approval tests.* In order to avoid the duplication of tests which may have been done previously by some other recognized testing organization, such as a facility of the U. S. Navy or Underwriters' Laboratories, Inc., the Coast Guard will accept the test data of such organizations. Reports of such tests should be forwarded in quadruplicate by the manufacturer along with the plans and specifications indicated by paragraph (b) of this section, or arrange-

ments made for such organization to forward the reports directly to the Coast Guard. Such reports shall identify the nozzle by name and model designation and by specifications and drawings having revision dates corresponding to the drawings submitted in accordance with paragraph (b) of this section. Such reports shall indicate that the samples tested were compared with the manufacturer's plans and specifications and were found to be in conformance thereto, with any exceptions between the sample and the plans and specifications properly noted. In addition to the results of the various tests, such reports shall show the detailed data on each trial made to arrive at the average results, and the pertinent conditions of the test methods followed, instruments and methods used for measurements, and all arrangements and conditions surrounding the tests, in order to provide a clear presentation not only of the test results, but also of all pertinent facts necessary for a clear understanding and interpretation of such results.

---

PART 164—MATERIALS

1. Subpart 164.006, consisting of §§ 164.006–1 to 164.006–8, inclusive, is amended to read as follows:

SUBPART 164.006—DECK COVERINGS FOR MERCHANT VESSELS

Sec.
164.006–1 Applicable specifications.
164.006–2 Grades.
164.006–3 Construction.
164.006–4 Inspection and testing.
164.006–5 Procedure for approval.

AUTHORITY: §§ 164.006–1 to 164.006–5 issued under R. S. 4405, as amended, 4462, as amended. Interpret or apply R. S. 4417, 4417a, 4418, 4426, as amended, sec. 5, 49 Stat. 1384, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 391a, 392, 404, 369, 367, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

§ 164.006–1 *Applicable specifications.* (a) There are no other specifications applicable to this subpart.

§ 164.006–2 *Grades.* (a) Deck coverings shall be of but one grade as specified in this subpart, and shall be known as "an approved deck covering."

§ 164.006–3 *Construction, materials, and workmanship.* (a) It is the intent of this specification to obtain a deck covering made largely of incombustible materials with low heat transmission qualities which will produce a minimum of smoke when exposed to high temperatures.

(b) Deck coverings shall be of such a quality as to successfully pass all of the tests set forth in § 164.006–4.

§ 164.006–4 *Inspection and testing.* (a) All tests shall be conducted at the National Bureau of Standards or other laboratories designated by the Coast Guard.

(b) *Smoke tests.* (1) A sample of each thickness submitted shall be tested for smoke emission. Each sample shall be laid on a ¼" x 12" x 27" steel plate. Normal protective coatings and deck attachments shall be incorporated in the samples. Each sample shall be heated in a furnace whose temperature is limited to the standard decking curve reaching 1,325 degrees F. at the end of one hour. Smoke observations shall be made at intervals not greater than five minutes during the one-hour period of test.

(2) Instantaneous values of the percent of light transmission shall be calculated from the observations noted in subparagraph (1) of this paragraph. A plot of light transmission values shall be made using straight lines between instantaneous values.

(3) Any instantaneous value of 10 percent light transmission or less shall be considered sufficient cause for rejection of a deck covering.

(4) Average values of light transmission shall be calculated for 15, 30, and 60 minutes. Averages shall be an arithmetic mean with values taken at one minute intervals from the plotted curve noted in subparagraph (2) of this paragraph. If any of the three average values of light transmission is less than the values set forth below, it will be considered sufficient cause for rejection of a deck covering:

15 minutes—90 percent light transmission.
30 minutes—60 percent light transmission.
60 minutes—50 percent light transmission.

(c) *Fire resistance and integrity tests.* (1) A sample of each thickness submitted shall be tested for fire resistance and integrity. Each sample shall be laid on a ¼" x 12" x 27" steel plate. Normal protective coatings and deck attachments shall be incorporated in the samples. Each sample shall be heated in a furnace whose temperature is controlled according to the standard fire exposure curve reaching 1,700 degrees F. at the end of one hour. Temperature of the unexposed side as indicated by a thermocouple under a 0.40 inch asbestos pad shall be observed at intervals not greater than 5 minutes during the one-hour period of test.

(2) Data from these tests shall be analyzed to determine the thicknesses necessary to limit the average temperature rise on the unexposed surface to 250 degrees F. above the original temperature at the end of 15, 30, and 60 minutes.

(3) Excessive cracking, buckling, or disintegration may be considered cause for rejection.

(d) *Organic carbon content test.* (1) The organic carbon content shall be determined and shall not exceed 0.12 gram per cubic centimeter of the molded deck covering.

§ 164.006–5 *Procedure for approval.* (a) If a manufacturer desires to have a deck covering approved, a request shall be presented to the Commandant of the Coast Guard, together with the following information:

(1) The trade name and designation of the deck covering.

(2) The range of thicknesses in which it is proposed to lay the deck covering together with any information the manufacturer may have as to maximum or minimum thicknesses.

(3) Description of method of attachment to or protection of the steel deck together with the trade name and designation of adhesive or protective coating if used.

(4) A sample of the molded deck covering at least 6 inches square and ¼ inch thick. This may or may not be attached to a backing material at the manufacturer's option.

(b) The material submitted will be examined and the manufacturer advised as to the number and thicknesses of samples to be submitted together with the estimated cost of the tests.

(c) If the deck covering is indicated as being suitable, the manufacturer shall then submit the following:

(1) Two samples of each thickness to be tested laid in the manner designated on a ¼" x 12" x 27" steel plate for the purpose of the smoke test and fire resistance and integrity test noted in § 164.006–4 (b) and (c).

(2) Sufficient bulk material (unmixed) to lay a sample one inch thick on an area of 12" x 27". If an adhesive or protective coating is used, a liberal sample shall be supplied.

(3) If the manufacturer desires to witness the tests, he should so indicate at this time.

(4) A check in amount to cover the estimated cost of the test, made payable to Treasurer of the United States.

(d) The above material will be submitted to the National Bureau of Standards by the Coast Guard for testing. The tests noted in § 164.006–4 will be conducted and a report submitted to the Coast Guard.

(e) A copy of the test report will be forwarded to the manufacturer and he will be advised if his material is approved under this specification, and if approved, in what thicknesses it may be laid, and in what thicknesses it must be laid to meet the requirements for Class A–60 decks without the use of any other insulating material. If approved, this information will be published in the FEDERAL REGISTER.

2. Subpart 164.008, consisting of §§ 164.008–1 to 164.008–4, inclusive, is amended to read as follows:

SUBPART 164.008—BULKHEAD PANELS FOR MERCHANT VESSELS

Sec.
164.008–1 Applicable specifications.
164.008–2 Material.
164.008–3 Inspection and testing.
164.008–4 Procedures for approval.

AUTHORITY: §§ 164.008–1 to 164.008–4 issued under R. S. 4405, as amended, 4462, as amended. Interpret or apply R. S. 4417, 4417a, 4418, 4426, as amended, sec. 5, 49 Stat. 1384, secs. 1, 2, 49 Stat. 1544, sec. 3, 54 Stat. 346, sec. 2, 54 Stat. 1028, sec. 5, 55 Stat. 244, 245, as amended; 46 U. S. C. 391, 391a, 392, 404, 369, 367, 1333, 463a, 50 U. S. C. App. 1275; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.

§ 164.008–1 *Applicable specifications.* (a) The following specifications, of the issue in effect on the date of manufacture of the bulkhead panel, shall form a part of this subpart where applicable:

(1) Coast Guard specification:

Subpart 164.009—Incombustible Materials for Merchant Vessels.

(2) American Society for Testing Materials specification:

ASTM E 119–50—Methods of Fire Tests of Building Construction and Materials.

(b) *Copies on file.* Copies of the specifications referred to in this section shall

be kept on file by the manufacturer, together with the certificate of approval. The Coast Guard specification may be obtained upon request from the Commandant, United States Coast Guard, Washington 25, D. C. The American Society for Testing Materials specification may be purchased from the American Society for Testing Materials, 1916 Race Street, Philadelphia 3, Pennsylvania.

§ 164.008–2 *Material.* (a) Bulkhead panel material shall be of such quality as to successfully meet the requirements for an Incombustible Material as set forth in Subpart 164.009 of this subchapter.

(b) Bulkhead panels used in Class B–15 construction and as a component in Class A–30 or Class A–15 construction shall meet the fire resistance requirements of § 164.008–3 (b) (2) for at least 15 minutes, and the integrity requirements of § 164.008–3 (b) (3) for at least 30 minutes.

(c) Bulkhead panels for use as a component in Class A–60 construction shall meet the first resistance requirements of § 164.008–3 (b) (2) for at least 15 minutes and the integrity requirements of § 164.008–3 (b) (3) for at least 60 minutes.

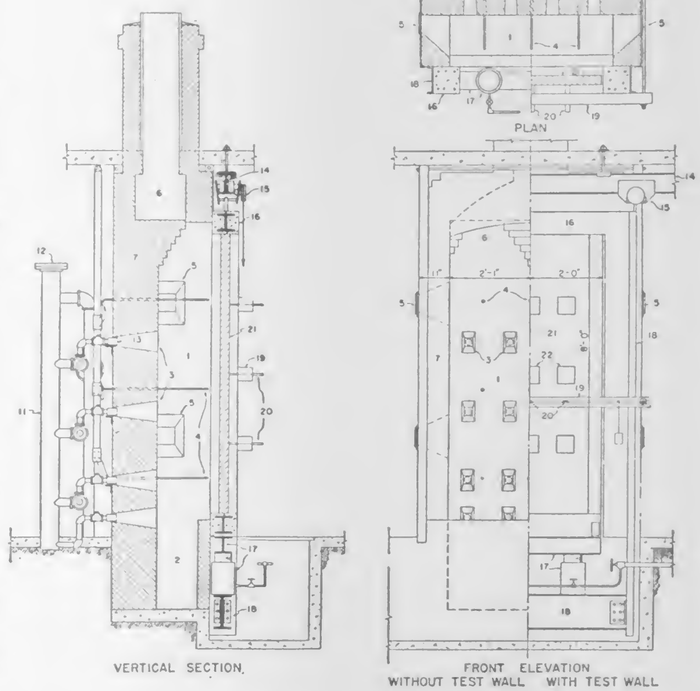
§ 164.008–3 *Inspection and testing—*(a) *Tests.* All tests shall be conducted at the National Bureau of Standards or other laboratory designated by the Coast Guard.

(b) (1) A representative bulkhead panel, of a size as indicated in § 164.008–4 (c) (1), shall be installed in a furnace to form part of one wall. The furnace shall be heated and the temperature controlled according to the standard fire exposure curve reaching 1,550 degrees F. at the end of 30 minutes and 1,700 degrees F at the end of one hour. The temperature of the non-fire exposed side, as indicated by 9 thermocouples under 040-inch asbestos pads (less than 9 thermocouples will be given special consideration by the Coast Guard), shall be observed at intervals not greater than 3 minutes during the test. The test shall be continued for at least 30 minutes to meet the requirements of § 164.008–2 (b) or at least 60 minutes to meet the requirements of § 164.008–2 (c). In either case, the test shall not be stopped before the maximum surface temperature rise values noted in subparagraph (2) of this section have been reached. Temperature recordings shall be taken in way of the joints for information purposes, but these temperatures will not be used to determine the average or maximum temperature rises of the panel.

(2) Data from this test shall be analyzed to determine the thickness necessary to limit the temperature rise at any thermocouple on the non-fire exposed surface to 250 degrees F. above the original temperature at the end of 15 minutes.

(3) This test shall determine the length of time, up to one hour, that the bulkhead panel, including the joint, can withstand the passage of flame.

(c) *Spot check tests.* After approval has been granted to a bulkhead panel, the Coast Guard reserves the right to spot-check the material at any time by having any or all of the above tests conducted on any samples taken from stock or from the field. The manufacturer will incur no expense for such tests, but the results shall be binding upon the approval of his product. The manufacturer will be advised in advance of the time of testing of the samples selected and may witness the tests if he so desires.



§ 164.008–4 *Procedure for approval.* (a) If a manufacturer desires to have a bulkhead panel approved, a request shall be presented to the Commandant of the Coast Guard together with the following:

(1) If the material has already been approved as an "Incombustible Material" under Subpart 164.009 of this subchapter, the approval number of the material shall be indicated. If the material has not been approved as an "Incombustible Material," the procedure set forth in Subpart 164.009 shall be followed; and such approval shall be obtained.

(2) The trade name of the bulkhead panel.

(3) The range of thicknesses and/or densities in which it is proposed to manufacture or use the material, together with any information or recommendations the manufacturer may have as to maximum or minimum thicknesses or densities.

(b) This information will be submitted by the Coast Guard to the National Bureau of Standards for consideration. After the material has been approved as an "Incombustible material," and if it is indicated that the material is in all other respects suitable, the manufacturer will be so advised. The recommended thickness of the panel for the fire resistance and integrity test

SMALL WALL-TESTING FURNACE

1, Furnace chamber; 2, pit for debris; 3, burner ports; 4, thermocouple protection tubes; 5, observation windows; 6, flue outlets; 7, fire brick furnace wall; 8, gas control valve; 9, air control valve; 10, air-gas mixer; 11, mixed fuel distributing manifold; 12, explosion valve; 13, selfpiloting burner tips; 14, track for moving test frames; 15, hand trolley for carrying test frames; 16, movable refractory concrete test frame; 17, loading jacks and beam; 18, loading frame; 19, bar for holding deflection scales and tying frame to furnace; 20, deflection scales; 21, test specimen; 22, asbestos pads covering thermocouples on unexposed surface of test specimen.

FIGURE NO. 164.008–4 (c) (1).

and the estimated cost of the tests will be specified at this time.

(c) If the material is indicated as being suitable, the manufacturer shall submit the samples required by subparagraph (1) of this paragraph to the Fire Protection Section of the National Bureau of Standards, Washington 25, D. C., and shall advise the Coast Guard of the shipment.

(1) One representative panel of the material 7.5 feet high and 4 feet wide containing at least one vertical joint, located at approximately ⅓ panel width from one edge (16"–18"). A sketch of the furnace is shown in Figure 164.008–4 (c) (1). If the manufacturer desires to submit the panel in a thickness or size other than that recommended, prior approval shall be obtained from the Commandant. The manufacturer shall supply any labor required for fabrication of the panel and for attaching the panel to the frame for testing, as necessary.

(2) A check in the amount of the estimated cost made payable to the Treasurer of the United States should be submitted to the Coast Guard prior to testing.

(3) If the manufacturer desires to witness the test, he should so indicate at this time.

(d) The test noted in § 164.008–3 (b) will then be conducted by the National Bureau of Standards, and a report will be submitted to the Coast Guard.

(e) A copy of the report will be forwarded to the manufacturer, and he will be advised if his material is approved under this subpart. If approved, any stipulations of the approval will be specified. This information will be published in the FEDERAL REGISTER, and a Certificate of Approval will be given to the manufacturer.

(f) If the manufacturer desires to have the tests conducted at some laboratory other than the National Bureau of Standards, this information shall be supplied at the time of initial contact with the Coast Guard. If the proposed laboratory is acceptable to the Coast Guard, the manufacturer will be so advised and any special testing requirements together with an estimated cost of expenses incurred by a Coast Guard representative and by the National Bureau of Standards will be specified at this time. Payment will be made as noted in subparagraph (c) (2) of this section. The Coast Guard shall be notified in advance of the date of the test so that a representative may be present. The laboratory shall submit a detailed test report to the Coast Guard in triplicate together with representative samples of the material taken before and after testing. The test report and samples will be examined by the National Bureau of Standards for compliance with this subpart. The test report shall include the following information together with any other pertinent data:

(1) Description of the panel tested giving size, thickness, density, detail of joint and method of assembling in furnace.

(2) Complete time-temperature data consisting of a numerical time-temperature table for each furnace and panel thermocouple together with the initial temperature reading of each thermocouple.

(3) A log setting forth the observer's notes relative to deflections, cracking, smoke and gas emission, glow, flame emission, and any other important data. The time of each observation should be noted.

(4) Photographs of both sides of the panel before and after testing.

Dated: December 3, 1953.

[SEAL] A. C. RICHMOND,
*Rear Admiral, U. S. Coast Guard, Acting Commandant.*

[F. R. Doc. 53-10230; Filed, Dec. 4, 1953; 8:52 a. m.]

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VII-6]

### DMO VII-6—EXPANSION GOALS

By virtue of the authority vested in me by Executive Order 10480 of August 14, 1953; *It is hereby ordered:*

1. In view of the amount of expansion which has been undertaken, and on the recommendation of the agency to which authority has been delegated for this purpose in each instance, it is hereby ordered that no accelerated tax amortization certificates under section 124A of the Internal Revenue Code will be issued on applications filed after this date for further expansions in the areas of production appearing on List I set forth below. The expansion goals in these areas will be reviewed from time to time by the appropriate agencies under the direction of the Office of Defense Mobilization in order to determine (1) that certified expansion is in fact being accomplished and (2) that changes in defense requirements are adequately reflected in the goals. If after such review new goals are established for any of the areas of production on List I, a public announcement to that effect will be made so that all members of the affected industries may have equal opportunity to apply for accelerated tax amortization to the extent of the additional capacity required and within the limitations of the statute.

2. The need for further expansion in the areas of production appearing on List II set forth below, is currently under active consideration by the Office of Defense Mobilization with appropriate agencies and no accelerated tax amortization certificates in an area on List II will be issued on applications filed after this date until a decision has been reached. Public announcement of each decision will be made.

3. Since the amount of expansion which has been undertaken in the areas of production appearing on List III set forth below, is not adequate for defense purposes, the Office of Defense Mobilization will continue to issue accelerated tax amortization certificates for further expansions within such areas of production, up to the amount of the defense requirement.

4. This order shall take effect on December 3, 1953.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

## DEPARTMENT OF THE INTERIOR

### Office of the Secretary

WRIGHT BROTHERS NATIONAL MEMORIAL

ORDER REDESIGNATING AREA AND MONUMENT FORMERLY KNOWN AS THE KILL DEVIL HILL NATIONAL MEMORIAL

Whereas, on December 17, 1953, the United States will celebrate the fiftieth anniversary of the first successful human attempt in all history at power-driven airplane flight, achieved on December 17, 1903, by an American, Orville Wright, with the assistance of his brother Wilbur Wright;

Whereas, there has been established pursuant to the act of March 2, 1927 (44 Stat. 1264) a memorial area and monument, known as Kill Devil Hill National Memorial, at Kitty Hawk, North Carolina, in commemoration of such airplane flight:

Now, therefore, in furtherance of the object of the aforesaid act of March 2, 1927, in commemorating the historic achievement of the Wright brothers, and in recognition of the fiftieth anniversary of the historic flight achieved by Orville Wright, I, Orme Lewis, Acting Secretary of the Interior, pursuant to my authority and responsibility for the administration, protection, and development of the aforesaid area of the National Park System, do hereby designate as the "Wright Brothers National Memorial" the area heretofore known as the "Kill Devil Hill National Memorial."

Issued this 1st day of December 1953.

ORME LEWIS,
*Acting Secretary of the Interior.*

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

MEMPHIS UNION STOCK YARDS, MEMPHIS, TENNESSEE

DEPOSTING OF STOCKYARD

It has been ascertained that the Memphis Union Stock Yards, Memphis, Tennessee, originally posted on November 1, 1921, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it is no longer being conducted or operated as a public livestock market. Therefore, notice is given to the owners of the stockyard and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting

promptly a stockyard which no longer is within the definition of that term contained in said act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 2d day of December 1953.

[SEAL] H. E. REED,
*Director, Livestock Branch, Production and Marketing Administration.*

## DEPARTMENT OF COMMERCE

### Office of the Secretary

[Dept. Order 128, Amended, Amdt. 2]

UNDER SECRETARY OF COMMERCE FOR TRANSPORTATION

REVOCATION OF DELEGATION OF AUTHORITY TO ACT PURSUANT TO CMP REG. 6

National Production Authority Delegation 14 was revoked effective July 1, 1953 (18 F. R. 4917). Accordingly, paragraph 4.04 of Department Order No. 128 (Amended) of February 13, 1953 (18 F. R. 1216), and Supplement 4 to Department Order No. 128, Revised August 3, 1951 (16 F. R. 10042), are hereby revoked.

This revocation does not affect the validity of any action taken pursuant to the above delegations prior to the effective date of the revocation.

[SEAL] ROBERT B. MURRAY, Jr.,
*Acting Secretary of Commerce.*

## FEDERAL POWER COMMISSION

[Docket No. G-2098]

TEXAS ILLINOIS NATURAL GAS PIPELINE CO.

NOTICE OF EXTENSION OF TIME

NOVEMBER 30, 1953.

Upon consideration of the motion of Texas Illinois Natural Gas Pipeline Company filed November 27, 1953, for a further extension of time within which to undertake the operations, sale and service authorized by the Commission's order issued March 27, 1953, in the above-entitled matter;

Notice is hereby given that a further extension of time is granted to and including January 1, 1954, within which Texas Illinois Natural Gas Pipeline Company shall complete the construction of the facilities and sell and deliver storage gas to the Natural Gas Storage Company of Illinois, authorized by said order issued March 27, 1953. Paragraph (C) (1) of said order is further amended accordingly.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10183; Filed Dec. 4, 1953; 8:45 a. m.]

[Docket No. G-2099]

NATURAL GAS PIPELINE CO. OF AMERICA

NOTICE OF EXTENSION OF TIME

NOVEMBER 30, 1953.

Upon consideration of the Motion of Natural Gas Pipeline Company of America filed November 27, 1953, for a further extension of time within which to undertake the operations, sale and service authorized by the Commission's order issued March 27, 1953, in the above-designated matter;

Notice is hereby given that a further extension of time is granted to and including January 1, 1954, within which Natural Gas Pipeline Company of America shall actually undertake and regularly perform the operations, sale, and service authorized by said order issued March 27, 1953. Paragraph (C) (1) of said order is further amended accordingly.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10184, Filed, Dec. 4, 1953; 8:45 a. m.]

[Docket No. G-2284]

CENTRAL KENTUCKY NATURAL GAS CO.

NOTICE OF APPLICATION

DECEMBER 1, 1953.

Take notice that on October 20, 1953, Central Kentucky Natural Gas Company (Applicant), a Kentucky corporation, address, Charleston, West Virginia, filed an application for an order disclaiming jurisdiction with respect to the sale and delivery of natural gas by Applicant to Kentucky Creosoting Company (Creosoting), or, in the alternative an order issuing a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing such sale and delivery of natural gas and authorizing the continued operation of certain existing facilities utilized to make such sale and delivery.

Applicant states that as a result of recent operations the perimeter of its Menifee Storage Pool in Kentucky was enlarged so that certain tracts of land from which Creosoting obtained natural gas under leasehold oil and gas estates which it owned or controlled in conjunction with various private individuals became included within the enlarged perimeter of the storage horizon of said storage pool. As a result of condemnation proceedings Applicant became assignee of the various leasehold oil and gas estates, wells and well and field lines of Creosoting, subject to a reservation of approximately 114,000 Mcf of natural gas to be extracted from the assigned premises by Creosoting and other assignors, and subject to Applicant's agreement that following such extraction, it would sell and deliver natural gas to Creosoting for the purpose of resale in the Town of Stanton, Kentucky, and its environs. Applicant states that in February, 1953 delivery of such reserved volumes to Creosoting was completed. Applicant now proposes to continue the operation of the necessary facilities, and the sale and delivery of natural gas to Creosoting for resale which it commenced pursuant to its contractual obligations following final delivery of the reserved volumes in February, 1953. The estimated requirements of Creosoting for 1953 are approximately 43,168 Mcf, growing to approximately 55,867 Mcf in 1957. The 1953-1954 peak day requirements are estimated to be approximately 388 Mcf. Applicant proposes to continue the operation of existing well and field facilities located in Menifee Storage Pool at existing pool pressures for the proposed service, and no new or additional facilities are proposed for such purpose.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 21st day of December 1953. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
*Secretary.*

[F. R. Doc. 53-10185; Filed, Dec. 4, 1953; 8:45 a. m.]

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3139]

STANDARD POWER AND LIGHT CORP.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO NEGOTIATED SALE OF COMMON STOCK OF SUBSIDIARY BY PARENT

NOVEMBER 30, 1953.

The Commission by order dated November 9, 1953, having permitted to become effective a declaration, as amended, of Standard Power and Light Corporation ("Standard Power"), a registered holding company, with respect to, among other things, a proposal to sell, by negotiation, from 10,000 to 15,000 shares of the 290,000 shares of Common Stock of Duquesne Light Company ("Duquesne"), a public utility company and a subsidiary of Standard Power, held by Standard Power; and

The Commission having reserved jurisdiction over, among other things, the sale of the Duquesne Common Stock; and

Standard Power having filed a further amendment to its declaration in which it is stated that, in accordance with the permission granted by said order of the Commission dated November 9, 1953, it offered 10,000 shares of Duquesne Common Stock to a limited group on a competitive basis and received bids for 8,500 shares of such Stock as follows:

| Number of shares: | Price per share |
|---|---|
| 2,100 | $29.75 |
| 900 | 29.50 |
| 5,500 | 29.335 |
| 8,500 | |

The amendment having further stated that Standard Power has accepted the bids as set forth above, and that it will attempt to sell an additional 1,500 shares prior to December 31, 1953; and

The Commission having examined said amendment, and having considered the record herein, and having found no

reason for the imposition of any further terms and conditions with respect to the sale of the said 8,500 shares of Common Stock and that jurisdiction with respect thereto should be released;

*It is ordered*, That jurisdiction heretofore reserved with respect to the results of the sale by Standard Power of the aforesaid 8,500 shares of Duquesne Common Stock be, and the same hereby is, released.

*It is further ordered*, That jurisdiction be, and the same hereby is, continued over the results of negotiation by Standard Power for the sale of the additional 1,500 shares of Duquesne Common Stock.

*It is further ordered*, That jurisdiction heretofore reserved over all other matters described in the Commission's order dated November 9, 1953, be, and the same hereby is, continued.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

[F. R. Doc. 53-10205; Filed, Dec. 4, 1953; 8:50 a. m.]

[File No. 70-3163]

ELECTRIC BOND AND SHARE CO.

NOTICE OF FILING REGARDING SALE BY PARENT OF SECURITIES OF SUBSIDIARY

Notice is hereby given that Electric Bond and Share Company ("Bond and Share"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), and has designated section 12 (d) thereof and Rule U-44 (a) promulgated thereunder as being applicable to the proposed transaction which is summarized as follows:

Bond and Share heretofore filed with the Commission its Final Comprehensive Plan as finally amended July 7, 1953 (the "Plan") under section 11 (e) of the act. The Plan was approved by orders of the Commission dated February 20, 1953, and July 15, 1953, and by order of the United States District Court for the Southern District of New York dated July 16, 1953.

The Plan proposed, among other things, that Bond and Share would dispose of certain of its holdings of common stock of United Gas Corporation ("United Gas") by capital distribution, dividend distributions and rights offerings to the Bond and Share stockholders. Provision was also made that the remainder of the shares of United Gas stock to be disposed of under the Plan should be disposed of by Bond and Share in such manner and on such terms as it deemed appropriate within two years after the effective date of the Plan which was July 16, 1953. Bond and Share now holds 1,765,053 shares of United Gas common stock (being approximately 13.7 percent of the outstanding shares of such stock). By the present declaration Bond and Share proposes to sell 100,000 shares of United Gas stock in the manner hereinafter set forth.

Bond and Share proposes to sell the foregoing 100,000 shares of United Gas common stock for cash upon the basis of a negotiated private sale to a person or persons who will acquire such shares for investment and not for distribution under circumstances which will not involve any "public offering" as contemplated by the Securities Act of 1933. The terms under which and the price at which the shares of United Gas are proposed to be sold by Bond and Share have not yet been agreed upon but such terms and price, as well as other details involving the proposed sale, will be supplied by amendment to the present declaration as soon as they are available.

Declarant requests that the Commission exempt the proposed sale of 100,000 shares of United Gas stock from the provisions of Rule U-50 promulgated under the act on the basis of a finding to be made by the Commission as contemplated by subsection (a) (5) of such rule, that compliance with paragraphs (b) and (c) of the rule, relating to "competitive bidding" procedure, is not "necessary or appropriate in the public interest or for the protection of investors or consumers to assure the maintenance of competitive conditions, the receipt of adequate consideration or the reasonableness of any fees or commissions to be paid with respect" to the proposed sale.

Notice is further given that any interested person may, not later than December 11, 1953, at 12:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest, and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter, said declaration as filed, or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the Rules and Regulations promulgated under the Act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28709]

SULPHURIC ACID FROM SOUTHWEST TO LE MOYNE, ALA.

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Sulphuric acid, in tankcar loads.

From: Specified points in Arkansas, Louisiana, Oklahoma, and Texas.

To: Le Moyne, Ala.

Grounds for relief: Rail carriers, circuity, market competition, to apply over rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3919, supp. 200; F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 290; F. C. Kratzmeir, Agent, I. C. C. No. 3908, supp. 169; F. C. Kratzmeir, Agent, I. C. C. No. 3906, supp. 198.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
*Secretary.*

[4th Sec. Application 28710]

MOTOR-RAIL RATES IN THE EAST; SUBSTITUTED SERVICE

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and Rand Express Freight Lines, Inc.

Commodities involved: Semi-trailers, loaded or empty, on flat cars.

Between: New Haven, Conn., and Harlem River, N. Y., also from Boston and Springfield, Mass., and Providence, R. I., to New Haven, Conn.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters in-

volved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 28711]

MOTOR-RAIL RATES IN THE EAST; SUBSTITUTED SERVICE

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The New York, New Haven and Hartford Railroad Company and Bradley's Express.

Commodities involved: Semi-trailers, loaded or empty, on flat cars.

Between: Boston, Mass., and New Haven, Conn., also between Hartford and New Haven, Conn., on the one hand, and Harlem River, N. Y., Elizabeth and Edgewater, N. J., on the other.

Grounds for relief: Competition with motor carriers.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28712]

LESS THAN CARLOAD TRAFFIC IN CONTAINERS FROM AND TO MISSOURI RIVER CITIES

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Missouri Pacific Railroad Company and Missouri Pacific Railroad Company of Nebraska.

Commodities involved: Less-than-carload shipments of freight in containers furnished by the carriers.

Between: Kansas City, Mo.-Kans., and St. Joseph, Mo., on the one hand, and stations in Kansas and Nebraska, on the other.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates: Missouri Pacific Railroad Company, I. C. C. No. A-10406.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28713]

CANDY AND CONFECTIONERY FROM CHICAGO, ILL., TO KANSAS CITY, MO.-KANS.

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Candy and confectionery, carloads.

From: Chicago, Ill.

To: Kansas City, Mo.-Kans.

Grounds for relief: Competition with rail carriers, circuity, and competition with motor carriers.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3733, supp. 97.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 28717]

MURIATIC ACID FROM AND TO SOUTHWEST; EXCEPTIONS TO UNIFORM CLASSIFICATION RATING

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Muriatic (hydrochloric) in tank-car loads, subject to class 22 5 rating in exceptions to uniform classification.

Between: Points in southwestern territory, on the one hand, and points in Illinois and western trunk-line territory, on the other.

Grounds for relief: Rail competition, circuity, operation through higher-rated territory, and to maintain higher rates at intermediate points east of Mississippi River.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4077, supp. 2.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FRESH MEATS AND PACKING HOUSE PRODUCTS FROM RIO GRANDE CROSSINGS TO POINTS IN CENTRAL, MIDWEST AND SOUTHWEST TERRITORIES

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fresh meats and packing house products, carloads.

From: Brownsville, Eagle Pass, El Paso, Hidalgo, Laredo, and Presidio, Tex. (on traffic from Mexico).

To: Points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wisconsin.

Grounds for relief: Competition with rail carriers, circuitous routes, and equalization of rates from Rio Grande River Crossings.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3843, supp. 44.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. MOTOR-COMPETITIVE ALL-RAIL CLASS AND COMMODITY RATES BETWEEN LOUISIANA AND TEXAS

APPLICATION FOR RELIEF

DECEMBER 2, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Texas and New Orleans Railroad Company for itself and on behalf of Texas-Mexican Railway Company.

Involving: Class and commodity rates over all-rail routes made the same as common carrier motor rates.

Between: Points in Louisiana and Texas.

Grounds for relief: Competition with motor carriers and to maintain grouping.

Schedules filed containing proposed rates: J. D. Hughett, Agent, MF–I. C. C. No. 205, supp. 3; J. D. Hughett, Agent, MF–I. C. C. No. 203, supp. 6; J. D. Hughett, Agent, MF–I. C. C. No. 178, supp. 42; J. D. Hughett, Agent, MF–I. C. C. No. 182, supp. 15; J. D. Hughett, Agent, MF–I. C. C. No. 200, supp. 9; J. D. Hughett, Agent, MF–I. C. C. No. 185, supp. 30.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

### Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 722—COTTON

MARKETING QUOTA REGULATIONS RELATING TO APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT FOR 1954 CROP OF EXTRA LONG STAPLE COTTON TO STATES, COUNTIES, AND FARMS

GENERAL

Sec.
722.1111 Basis and purpose.
722.1112 Definitions.
722.1113 Issuance of forms and instructions.
722.1114 Extent of calculations and rule of fractions.

STATE AND COUNTY ACREAGE ALLOTMENTS

722.1115 Apportionment of national acreage allotment among States.
722.1116 Apportionment of State acreage allotment among counties.

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS

722.1117 Apportionment of county acreage allotment.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

722.1118 Notice of farm acreage allotment and marketing quota.
722.1119 Amount of the farm marketing quota.
722.1120 Amount of the farm marketing excess.
722.1121 Publication of farm acreage allotments and marketing quotas.
722.1122 Successors-in-interest.
722.1123 Marketing quotas not transferable.

MISCELLANEOUS PROVISIONS

722.1124 Report of data and information for old cotton farms.
722.1125 Acreage planted to cotton.
722.1126 Availability of records.
722.1127 Approval of county committee determinations and redelegation of authority by the State committee.

REVIEW OF QUOTAS

722.1128 Review of quotas.

AUTHORITY: §§ 722.1111 to 722.1128 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 343–347, 361–368, 373–374, 388, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1343–1347, 1361–1368, 1373–1374, 1388.

GENERAL

§ 722.1111 *Basis and purpose.* (a) The regulations contained in §§ 722.1111 to 722.1128 are issued pursuant to the Agricultural Adjustment Act of 1938, as amended, and govern the establishment of State, county, and farm acreage allotments for the 1954 crop of extra long staple cotton. The latest available statistics of the Federal Government have been used in making the determinations required to be made in connection with establishing State and county acreage allotments, and such statistics will be used in making the other determinations required to be made in connection with §§ 722.1111 to 722.1128. Prior to preparing the regulations in §§ 722.1111 to 722.1128, public notice was given (18 F. R. 7196) in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003) of proposed regulations being considered for issuance. The data, views, and recommendations which were submitted in response to such notice have been duly considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

(b) In order that the State and county Production and Marketing Administration committees may establish farm acreage allotments as early as possible prior to the cotton referendum to be held on

## CODIFICATION GUIDE—Con.

Title 39 — Page
Chapter I:
Part 27 — 7894
Title 50
Chapter I:
Part 6 — 7894

December 15, 1953, and in order to comply with section 362 of the act which provides that, insofar as practicable, notice of the farm acreage allotment shall be mailed to the farm operator of each farm in sufficient time to be received prior to the date of the referendum, it is essential that the regulations in §§ 722.1111 to 722.1128 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and such regulations shall be effective upon filing of this document with the Director, Division of the Federal Register.

§ 722.1112 *Definitions.* As used in §§ 722.1111 to 722.1128 and in all forms and documents in connection therewith, unless the context or subject matter otherwise requires, the following terms shall have the following meanings and the masculine shall include the feminine and neuter genders and the singular shall include the plural number:

(a) "Act" means the Agricultural Adjustment Act of 1938 and any amendments thereto heretofore or hereafter made.

(b) "Secretary" means the Secretary, or Acting Secretary, of Agriculture of the United States.

(c) "Assistant Administrator" means the Assistant Administrator for Production or Acting Assistant Administrator for Production, of the Production and Marketing Administration of the United States Department of Agriculture.

(d) "Director" means the Director, or Acting Director, of the Cotton Branch, Production and Marketing Administration, United States Department of Agriculture.

(e) "Committees":

(1) "Community committee" means the persons elected within a community as the community committee pursuant to the Secretary's regulations governing the selection and functions of the Production and Marketing Administration county and community committees (14 F. R. 5916).

(2) "County committee" means the persons elected within a county as the county committee pursuant to the Secretary's regulations governing the selection and functions of the Production and Marketing Administration county and community committees (14 F. R. 5916). In Puerto Rico the PMA Caribbean Area Committee shall, insofar as applicable, perform all functions of the county committee.

(3) "State committee" means the persons designated by the Secretary as the State committee of the Production and Marketing Administration. In Puerto Rico the PMA Caribbean Area Committee shall, insofar as applicable, perform all functions of the State committee.

(4) "Review committee" means the review committee appointed by the Secretary pursuant to section 363 of the act.

(f) "Person" means an individual, partnership, firm, joint-stock company, corporation, association, trust, estate, or other legal entity, or State or agency thereof. The term "person" shall include two or more persons having a joint or common interest.

(g) "Owner" or "landlord" means a person who owns farm land and rents such land to another person or who operates such land.

(h) "Cash tenant", "standing-rent tenant", or "fixed-rent tenant" means a person who rents land from another for a fixed amount of cash or a commodity to be paid as rent.

(i) "Share tenant" means a person other than a sharecropper who rents land from another person and pays as rent a share of the crops or the proceeds thereof.

(j) "Sharecropper" means a person who works a farm in whole or in part under the general supervision of the operator and is entitled to receive for his labor a share of the crops produced thereon or the proceeds thereof.

(k) "Operator" means the person who is in charge of the supervision and conduct of the farming operations on the entire farm.

(l) "Farm" means all adjacent or nearby farm or range land under the same ownership which is operated by one person, including also:

(1) Any other adjacent or nearby farm or range land which the county committee, in accordance with instructions issued by the Assistant Administrator, determines is operated by the same person as part of the same unit in producing range livestock or with respect to the rotation of crops and with workstock, farm machinery, and labor substantially separate from that for any other lands; and

(2) Any field-rented tract (whether operated by the same or another person) which, together with any other land included in the farm, constitutes a unit with respect to the rotation of crops.

A farm shall be regarded as located in the county or administrative area, as the case may be, in which the principal dwelling is situated, or if there is no dwelling thereon it shall be regarded as located in the county or administrative area, as the case may be, in which the major portion of the farm is located.

(m) "Farm acreage allotment" means an acreage allotment established for extra long staple cotton for a farm under the regulations in this subpart.

(n) "Extra long staple cotton" means American-Egyptian, Sea Island and Sea-land cotton, and all other varieties of the Barbedense species, and any hybrid thereof, and any other cotton in which one or more of these varieties predominates.

(o) "State and county code number" means the applicable number assigned by the Production and Marketing Administration to each State and county for the purpose of identification. In Puerto Rico a comparable identifying number will be used in place of the county code number.

(p) "Serial number of the farm" or "farm serial number" means the serial number assigned to a farm by the county committee.

(q) "Old cotton farm" means a farm having an acreage planted to extra long staple cotton in any one or more of the years 1951, 1952, and 1953, in a county designated in § 722.1116 (b).

(r) "New cotton farm" means a farm located in a county designated in § 722.1116 (b) on which extra long staple cotton is to be planted in 1954 but on which there was no acreage planted to extra long staple cotton in any of the years 1951, 1952, or 1953.

(s) "Normal yield" means the average yield of extra long staple lint cotton per acre for the farm, adjusted for abnormal weather conditions, during the five calendar years 1947, 1948, 1950, 1951, and 1952. If for any such year the data are not available or there is no actual yield, then the normal yield for the farm shall be appraised by the county committee in accordance with instructions issued by the Assistant Administrator, taking into consideration abnormal weather conditions, the normal yield, if any, for the county, and the yield in years for which data are available.

(t) "Normal production" of any number of acres means the normal yield per acre of extra long staple lint cotton for the farm multiplied by such number of acres.

(u) "Actual yield" means the pounds of extra long staple lint cotton per acre determined by dividing the number of pounds of such lint cotton produced on the farm in 1954 by the acreage planted to such cotton on the farm in 1954.

(v) "Actual production" of any number of acres means the actual yield of extra long staple lint cotton per acre for the farm multiplied by such number of acres.

(w) "Producer" means a person who as landlord (other than the landlord of a standing-rent tenant, fixed-rent tenant, or cash tenant), cash tenant, standing-rent tenant, fixed-rent tenant, share tenant, or sharecropper is entitled to all or a share of the 1954 crop of extra long staple cotton or of the proceeds thereof.

(x) "Acreage planted to extra long staple cotton":

(1) *State and county.* The acreages of extra long staple cotton to be used in establishing State acreage allotments are the official acreages for the years 1947, 1948, 1950, 1951, and 1952, as determined by the Bureau of Agricultural Economics of the United States Department of Agriculture. Official estimates of planted acreages shall be used where available from the Bureau of Agricultural Economics; in other cases, the official estimates of the acreages in cultivation on July 1 of each year shall be used.

(2) *Farm.* For purposes of establishing farm acreage allotments for the 1954 crop of extra long staple cotton, the acreage planted to such cotton on a farm means the acreage of land seeded to such

cotton. The acreage seeded to extra long staple cotton for the years 1951 to 1953, inclusive, shall be determined as follows:

(i) *For 1951 and 1952.* The acreage measured by the county committee or reported to the county committee for the farm, with such adjustments in the reported acreages as are necessary under instructions issued by the Assistant Administrator. The sum of the reported acreages as adjusted by the county committee plus the measured acreages shall conform with the official planted acreages of the Bureau of Agricultural Economics, United States Department of Agriculture, for the respective years to the extent required under instructions issued by the Assistant Administrator.

(ii) *For 1953.* The acreage measured by the county committee in accordance with instructions issued by the Assistant Administrator.

(y) "Abnormal weather conditions" means weather conditions (including conditions directly resulting therefrom) adversely affecting the planting of extra long staple cotton, which conditions must have been of sufficient duration and intensity to prevent the planting of cotton and must have continued until the end of the planting season for the area. In apportioning the State acreage allotment to counties, adjustments in county acreages of extra long staple cotton for abnormal weather conditions for applicable years are made on the basis of recommendations by the State committees. Any such adjustment in county acreages of extra long staple cotton is the amount established by reference to available information and data as the net reduction of planted acreage in the county attributable solely to abnormal weather conditions. Such adjustments for abnormal weather conditions take into consideration failure to plant extra long staple cotton because of abnormal weather conditions. Also, in cases where the acreage of extra long staple cotton in cultivation July 1 is used in apportioning allotments to States and counties, abandonment of extra long staple cotton prior to July 1 in excess of normal abandonment by that date because of abnormal weather conditions shall be taken into consideration in determining adjustments, if any, in county acreages of extra long staple cotton.

(z) "Cropland" means the land which in 1953 was tilled or was in regular rotation as determined by the county committee in accordance with instructions issued by the State committee, excluding any land which constitutes, or will constitute, if such tillage is continued, a wind-erosion hazard to the community and also excluding bearing orchards and vineyards (except the acreage of cropland therein) and plowable non-crop open pasture.

§ 722.1113 *Issuance of forms and instructions.* The Director shall cause to be prepared such forms and instructions as are necessary for carrying out the regulations in §§ 722.1111 to 722.1128. The forms shall be issued by the Director with the approval of the Assistant Administrator, and the instructions shall be issued by the Assistant Administrator. Copies of such forms and instructions shall be furnished free to persons needing them upon request made to the office of the State or county committee or the Director.

§ 722.1114 *Extent of calculations and rule of fractions.* The acreage planted to extra long staple cotton on farms and farm acreage allotments shall be computed to three places beyond the decimal point and rounded to tenths of acres. Fractions of fifty one-thousandths of an acre or more shall be rounded upward, and fractions of less than fifty one-thousandths of an acre shall be dropped. For example, 10.051 would be 10.1 and 10.050 would be 10.0.

STATE AND COUNTY ACREAGE ALLOTMENTS

§ 722.1115 *Apportionment of national acreage allotment among States.* The national acreage allotment proclaimed for the 1954 crop of extra long staple cotton (18 F. R. 6557) is apportioned among the States (including Puerto Rico) on the basis of the average acreage planted to extra long staple cotton in each such State for the years 1947, 1948, 1950, 1951, and 1952. It has been determined that, on the basis of the latest available data and information, no adjustments in State acreages of extra long staple cotton for abnormal weather conditions are required for any of the aforementioned years. The acreage allotted to a State pursuant to the provisions of this section is herein referred to as the "State acreage allotment". The State acreage allotment for each State for the 1954 crop of extra long staple cotton is as follows:

| State | *State acreage allotments* |
|---|---|
| Arizona | 16,271 |
| California | 272 |
| Florida | 614 |
| Georgia | 185 |
| New Mexico | 7,144 |
| Texas | 14,259 |
| Puerto Rico | 2,516 |
| Total | 41,261 |

§ 722.1116 *Apportionment of State acreage allotment among counties*—(a) *Establishment of State acreage reserve.* The State committee shall set aside a total State acreage reserve of 10 percent of the State acreage allotment unless, on the basis of the needs of the State as determined under paragraph (c) of this section, the State committee recommends a smaller acreage reserve and the Administrator of the Production and Marketing Administration approves such recommendation.

(b) *Computed county acreage allotments.* The State acreage allotment for the 1954 crop of extra long staple cotton, less the State acreage reserve established pursuant to paragraph (a) of this section, shall be apportioned to the following counties designated pursuant to section 347 (a) of the act: Cochise, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz, and Yuma Counties, Arizona, and Imperial and Riverside Counties, California, and Alachua, Columbia, Hamilton, Jefferson, Lake, Madison, Marion, Orange, Putnam, Seminole, Suwannee, Union, and Volusia Counties, Florida, and Atkinson, Berrien, Cook, and Lanier Counties, Georgia, and Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, and Sierra Counties, New Mexico, and the counties in Puerto Rico, and Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, and Ward Counties, Texas. Such apportionment shall be made on the basis of the acreage planted to extra long staple cotton in 1947, 1948, 1950, 1951, and 1952 (herein referred to as the "base years"), with adjustments for abnormal weather conditions during such years. The acreage allotted to a county pursuant to the provisions of this paragraph is herein referred to as the "computed county acreage allotment". The cotton producing areas located in the northern part of Puerto Rico shall be considered as a county and the cotton producing areas in the southern part of Puerto Rico shall be considered as a county.

(c) *Use of State acreage reserve.* The State acreage reserve established for the purposes set forth in subparagraphs (1) through (4) of this paragraph (c) shall be used as provided in such subparagraphs and in accordance with instructions issued by the Assistant Administrator.

(1) *To adjust computed county acreage allotments for trends in the acreage of extra long staple cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for trends in the acreage planted to extra long staple cotton in the counties during recent years (the period of years may include the year 1953 but shall not include the year 1949). Any such adjustments shall be determined by use of a formula, if needed, applied uniformly to each county in the State.

(2) *To adjust computed county acreage allotments for counties adversely affected by abnormal conditions affecting plantings of extra long staple cotton.* The State committee shall, if necessary, use a part of the State acreage reserve to adjust the computed county acreage allotments for abnormal conditions adversely affecting plantings in the counties during the base years. The State committee shall examine the acreage planted to extra long staple cotton for each of the base years to determine whether the acreage planted may have been adversely affected by abnormal conditions. In determining the needs for adjustments for abnormal conditions adversely affecting plantings, the State committee shall take into account (i) abnormal weather conditions adversely affecting plantings during any of the base years; (ii) conditions in counties in which a number of farms are being returned to extra long staple cotton production or are increasing the acreage in extra long staple cotton after having been out of production or having been on a reduced level of production of such cotton because such farms were used to a larger extent than normal in connection with air bases, defense plants, and other wartime activities; (iii) abnormal reduction in planted acreage of extra long staple cotton because of an unusual movement of labor from farms in the area or county to war industries or into the armed forces and

its return, as compared with such movements in other counties; and (iv) any other abnormal conditions which adversely affected plantings in the county to a greater extent as compared with other counties.

(3) *To make adjustments in acreage allotments for small farms.* The State committee shall determine the acreage required from the State acreage reserve to supplement that part of the county acreage reserve established as provided for in subparagraphs (1) and (2) of § 722.1117 (e) to adjust indicated farm acreage allotments for old cotton farms established under § 722.1117 (d) at 15 acres or less. The acreage made available to any county under this subparagraph shall be used by the county committee only for adjustments in small farm allotments. The acreage reserved for small farms may also be used (i) to establish allotments for any small farm which is an old cotton farm but for which an allotment was not established at the time allotments were established for old cotton farms in the county because of oversight on the part of the county committee or because the county committee had no information or data with respect to acreage planted to extra long staple cotton on the farm in 1951, 1952, or 1953, and (ii) to adjust allotments for small farms where the farm is reconstituted for 1954 due to division of the farm as constituted in 1953 or a combination of a part or all of the 1953 farm with other land.

(4) *To establish 1954 acreage allotments for new cotton farms.* Where the State committee determines that the needs for acreage to establish acreage allotments for new cotton farms are generally uniform in all counties in the State which are designated in paragraph (b) of this section, the State committee shall determine whether all the acreage required to establish acreage allotments for new cotton farms shall be provided from the State acreage reserve or the county acreage reserve, or from both such reserves. In determining the source of acreage for new cotton farms the State committee shall take into consideration the acreage requirements determined for such farms from the county surveys, if available, as provided for in § 722.1117 (e) (3). In States where new areas within the counties designated in paragraph (a) of this section will be brought into production of extra long staple cotton in 1954 or where it is determined by the State committee that the entire county acreage reserve for any county is needed for adjustments pursuant to subparagraphs (1) and (2) of § 722.1117 (e), the State committee shall consider establishing an acreage from the State acreage reserve to supplement the acreage set aside by the county committee, if any, from the county acreage reserve for establishing acreage allotments for new cotton farms. The acreage made available to any county under this subparagraph shall be used by the county committee only for new cotton farms.

(d) *Availability of data for inspection.* The following shall be on file and shall be available in the office of the State committee for examination by any interested producer of extra long staple cotton: (1) The amount of the State acreage reserve; (2) the formula, if any, and data developed and used under subparagraphs (1) and (2) of paragraph (c) of this section; and (3) the total acreage set aside from the State acreage reserve for the purposes set forth in subparagraphs (3) and (4) of paragraph (c) of this section.

(e) *County acreage allotment.* The county acreage allotment shall be the sum of (1) the computed county acreage allotment determined under paragraph (b) of this section, and (2) the acreages from the State acreage reserve which are added to the computed county acreage allotment under subparagraphs (1) and (2) of paragraph (c) of this section. This paragraph will be amended at a later date to include the county acreage allotment established for each county.

(f) *Administrative areas.* If the county committee with the approval of the State committee, or if the State committee, determines with respect to a county that, because of the difference in types, kinds, and productivity of the soil or other conditions, different areas of the county should be treated separately in order to prevent discrimination, each such area shall, in accordance with instructions issued by the Assistant Administrator, be designated as an administrative area and, insofar as practicable, each such area shall be treated as a county in determining the acreage allotment for the area and in establishing farm acreage allotments under § 722.1117.

ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS

§ 722.1117 *Apportionment of county acreage allotment*—(a) *Acreage set aside from county acreage allotment.* The county committee shall set aside an acreage from the county acreage allotment which it estimates will be adequate (1) for establishing allotments for old cotton farms for which allotments are not established at the time allotments are originally established for old cotton farms in the county because of oversight on the part of the county committee or because the county committee had no information or data with respect to acreage planted to extra long staple cotton on the farm in 1951, 1952, or 1953, (2) for correction by the county committee of errors in farm acreage allotments, and (3) for providing the additional allotment required for farms which are reconstituted for 1954 as provided in paragraphs (g) and (h) of this section.

(b) *Determination of county acreage reserve.* The county committee shall establish a county acreage reserve of not in excess of 15 percent of the county acreage allotment which shall be used to adjust indicated farm acreage allotments for old cotton farms determined under paragraph (d) of this section and to establish acreage allotments for new cotton farms under paragraph (e) (3) of this section. The county acreage reserve shall not be less than 13 percent of the county acreage allotment (less the acreage set aside pursuant to paragraph (a) of this section) unless the county committee recommends a smaller acreage reserve and the State committee gives its approval in accordance with instructions issued by the Assistant Administrator. Any approval of a smaller acreage reserve shall be based upon a showing by the county committee that the recommended acreage is adequate, on the basis of the factors set forth in paragraph (e) of this section, to make necessary adjustments in indicated allotments for old cotton farms and to establish allotments for new cotton farms.

(c) *Determination of adjusted cropland.* The county committee shall in accordance with instruction issued by the Assistant Administrator, determine an adjusted cropland acreage for each old cotton farm by subtracting from the acreage of land on the farm which in 1953 was tilled annually or in regular rotation, the sum of the following acreages:

(1) The 1953 acreage of sugarcane for sugar or for syrup and sugar beets for sugar;

(2) The 1953 acreage of tobacco for market (or the 1953 farm acreage allotment, if any, for the applicable type of tobacco if the 1953 acreage has not been determined);

(3) The 1953 acreage of peanuts picked and threshed as determined by the county comittee;

(4) The acreage of wheat for harvest in 1954 for market or for feeding to livestock for market. If the measured wheat acreage for the farm is not available to the county committee, the deduction for wheat acreage shall be the 1954 wheat acreage allotment less the acreage which the county committee determines will be used for purposes other than for market or for feeding to livestock for market. In the counties designated in item (7) of this paragraph, the deduction for wheat acreage shall be limited to the acreage by which the deduction which otherwise would be made under this item (4) exceeds the acreage deducted under item (7) of this paragraph;

(5) The acreage planted to rice in 1953 for market or for feeding to livestock for market, plus the acreage of other rice land on the farm for which water is available and which is not used for the production of cotton under the rotation system for the farm;

(6) The acreage of land devoted in 1953 primarily to orchards or vineyards, less the acreage therein which qualifies as cropland for 1954; and

(7) In Cochise, Graham, Greenlee, Maricopa, Mohave, Pima, Pinal, Santa Cruz, and Yuma Counties, Arizona, and in Imperial and Riverside Counties, California, and in Chaves, Dona Ana, Eddy, Grant, Hidalgo, Lea, Luna, Otero, and Sierra Counties, New Mexico, and in Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves, Terrell, and Ward Counties, Texas, the acreage of cropland in excess of that acreage for which irrigation water is normally available and adequate from available facilities for the production of irrigated crops during the cotton-producing season (seeding to maturity).

(d) *Indicated acreage allotments for old cotton farms.* The county acreage allotment, less the acreages set aside and

reserved pursuant to paragraphs (a) and (b) of this section, shall be used to determine indicated allotments for old cotton farms as follows:

(1) *Determination of county cropland factors.* The first county cropland factor shall be computed by dividing the county acreage allotment (less the acreages set aside and reserved pursuant to paragraphs (a) and (b) of this section) by the total of the adjusted cropland acreages on old cotton farms. Second and additional county cropland factors shall be determined, if necessary, by dividing (i) the available county acreage allotment remaining after maximum indicated farm acreage allotments as defined in subparagraph (2) of this paragraph have been established by (ii) the total of the adjusted cropland acreages for old cotton farms in the county which under the preceding factor were not affected by the maximum allotment provisions. The last county cropland factor computed and applied shall be referred to herein as the "final county cropland factor".

(2) *Indicated farm acreage allotment.* An indicated acreage allotment shall be computed for each old cotton farm by multiplying the adjusted cropland for each such farm by the applicable county cropland factor except that the maximum indicated acreage allotment for any such farm shall not exceed the highest acreage planted to extra long staple cotton on the farm in any of the years 1951, 1952, or 1953.

(e) *Use of county acreage reserve.* The county acreage reserve shall be used by the county committee as follows:

(1) *Adjustments in indicated farm acreage allotments of 5 to 15 acres.* Not less than 20 percent of the county acreage reserve shall, to the extent required, be used by the county committee to adjust indicated farm acreage allotments of 5 to 15 acres, inclusive, determined under paragraph (d) of this section. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the acreages planted to extra long staple cotton in 1951, 1952, and 1953; the land, labor, and equipment available for the production of such cotton; crop-rotation practices; the soil and other physical facilities affecting the production of such cotton; and abnormal conditions of production. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (i) in excess of the acreage which could be planted on the farm in 1954 consistent with sound crop rotation practices followed in the community; (2) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (3) which would cause extra long staple cotton to be planted on land unsuited to the production of such cotton.

(2) *Adjustments in indicated acreage allotments for other farms.* The remainder of the acreage in the county acreage reserve, after meeting the requirements under subparagraphs (1) and (3) of this paragraph, shall be used by the county committee to adjust indicated acreage allotments for farms which are less than 5 acres or more than 15 acres. Such adjustments shall be made so as to establish acreage allotments which are fair and reasonable in relation to the acreage allotments established for similar farms in the community, taking into consideration for the farm the land, labor, and equipment available for the production of extra long staple cotton; crop-rotation practices; the soil and other physical facilities affecting the production of such cotton; and abnormal conditions of production. The acreages planted to extra long staple cotton on a farm in 1951, 1952, and 1953 shall be considered in determining the land, labor, and equipment available for the production of such cotton and in connection with the crop-rotation practices followed on the farm. The county committee shall not make adjustments so as to cause an acreage allotment to be established for any such farm (1) in excess of the acreage which could be planted on the farm in 1954 consistent with sound crop-rotation practices followed in the community, (2) in excess of the acreage which can be farmed with the labor and equipment currently or normally available on the farm, or (3) which would cause extra long staple cotton to be planted on land unsuited to the production of such cotton.

(3) *Acreage allotments for new cotton farms*—(i) *Determination of county acreage needed for establishing acreaage allotments for new cotton farms.* The county committee, with the assistance of the community committees, shall estimate from county office records and other available sources of information the number of new cotton farms in the county and the adjusted cropland acreage for such farms, and such estimates shall be used by the State and county committees as a basis for determining the acreage that will be required for establishing acreage allotments for new cotton farms. The acreage so determined shall not exceed 75 percent of the acreage obtained by multiplying the county cropland factor, which shall be estimated where necessary, by the total estimated adjusted cropland acreage on new cotton farms in the county. In determining the acreage from the county acreage reserve which is to be used for establishing acreage allotments for new cotton farms, the county committee shall take into consideration the acreage, if any, to be made available from the State acreage reserve pursuant to subparagraph (4) of § 722.1116 (c) for establishing acreage allotments for new cotton farms.

(ii) *Eligibility of a new cotton farm for an acreage allotment.* An acreage allotment for extra long staple cotton for a new cotton farm may be established by the county committee in accordance with instructions issued by the Assistant Administrator if each of the following conditions is met:

(a) An application for such an acreage allotment is filed by the farm operator with the county committee by the closing date established by the State committee. In no event is the closing date to be earlier than January 15, 1954.

(b) The farm operator is largely dependent on income from the farm for his livelihood.

(c) The farm is the only farm in the county which is owned or operated by the farm operator or farm owner for which an acreage allotment for extra long staple cotton is established for 1954.

(iii) *Establishment of acreage allotments for new cotton farms.* If the applicant's farm is eligible for an acreage allotment for extra long staple cotton, such allotment shall be established by the committee on the basis of land, labor, and equipment available for the production of extra long staple cotton; crop-rotation practices; and the soil and other physical facilities affecting the production of such cotton. The acreage allotment so determined for any such farm shall not exceed the smallest of (a) the acreage allotment established for old cotton farms in the county which are similar with respect to the foregoing factors, (b) the acreage allotment requested by the applicant, and (c) the result obtained by multiplying the adjusted cropland for the farm by the final county cropland factor. The acreage allotments for new cotton farms shall be subject to review and approval by the State committee.

(f) *Use of acreage allocated to county from State acreage reserve for making adjustments in acreage allotments for small farms.* The acreage allocated to a county from the State acreage reserve for making adjustments in acreage allotments for small farms shall be used by the county committee to adjust indicated farm acreage allotments of 15 acres and less for old cotton farms on the basis of the factors set forth in paragraph (e) (1) and (2) of this section for adjusting small farm allotments.

(g) *Allotments for late and reconstituted farms and correction of errors.* The acreage set aside from the county acreage allotment pursuant to paragraph (a) of this section shall be used by the county committee (1) for establishing allotments for old cotton farms for which allotments were not established at the time allotments were originally established for old cotton farms in the county because of oversight on the part of the county committee or because the county committee had no information or dates with respect to acreage planted to extra long staple cotton on the farm in 1951, 1952, or 1953, (2) for correcting errors in farm acreage allotments, and (3) for use in establishing acreage allotments for farms which are divided or combined for 1954 as provided in paragraph (h) of this section.

(h) *Allotments for farms divided or combined.* If land which was operated as a single farm in 1953 is divided into two or more tracts for 1954 (1) the acreages of extra long staple cotton on the farm in 1951, 1952, and 1953 shall be divided among the several tracts in proportion to the acreage of cropland on each tract, except that upon agreement by all interested producers and approval by the county committee, the acreages normally considered as rice land, wheat land, and sugarcane land may be excluded from the cropland on each tract in apportioning the cotton acreage history among the tracts, and (2) a cotton acreage allotment shall be determined, for the land which constitutes a farm as it is operated in 1954, in accordance with applicable provisions of paragraphs (d) and (e) of this section. If two or more tracts of land are combined and operated as a single farm in 1954, an allotment for such farm for 1954 shall be determined in accordance with the applicable provisions of paragraphs (d) and (e) of this section.

(i) *Availability of reserves for inspection by interested producers.* The allocations to the county from the State acreage reserve and the total amount and the distribution of the county acreage reserve and all other data used in establishing farm acreage allotments shall be available in the office of the county committee for examination by any interested producer of extra long staple cotton.

FARM MARKETING QUOTA AND FARM MARKETING EXCESS

§ 722.1118 *Notice of farm acreage allotment and marketing quota.* Immediately after acreage allotments for farms in a county or other local administrative area are established and approved by the State committee pursuant to § 722.1127 (a), the county committee shall mail to the operator of each such farm a written notice of the farm acreage allotment and marketing quota for the farm. The county committee shall also mail to the opertor of (1) each new cotton farm for which application for an allotment is made but for which it is determined that no farm acreage allotment and marketing quota will be established and (2) each farm for which no cotton acreage data were reported pursuant to § 722.1124 and the county committee has no reliable basis for appraising data for the farm but the county committee believes that extra long staple cotton was planted on the farm in one or more of the years 1951, 1952, and 1953, a similar written notice showing "none" as the acreage allotment and marketing quota established for the farm. The notice shall contain at or near the top thereof the following statement: "To all persons who as operator, landlord, tenant, or sharecropper are interested in the farm for which this acreage allotment and marketing qutoa are established." Notice so given shall constitute notice to all such persons. Such notice shall also contain a brief statement of the procedure whereby application for review of the marketing quota may be made under section 363 of the act. A copy of each notice, containing a notation thereon of the date of mailing the notice to the operator of the farm, shall be kept among the permanent records of the county committee, and upon request a copy thereof, duly certified as a true and correct copy, shall be furnished without charge to any person who as operator, landlord, tenant, or sharecropper is interested in the extra long staple cotton produced in 1954 on the farm for which the notice is given. Insofar as practicable, the notice for each old cotton farm shall be prepared and mailed to the operator so as to be received prior to December 15, 1953, the date on which the referendum to determine whether producers of extra long staple cotton favor or oppose marketing quotas for the 1954 crop will be held.

§ 722.1119 *Amount of the farm marketing quota.* The farm marketing quota for any farm for the 1954 crop of extra long staple cotton shall be the actual production of extra long staple lint cotton for the acreage planted to such cotton on the farm less the farm marketing excess.

§ 722.1120 *Amount of the farm marketing excess*—(a) *Where the acreage planted to extra long staple cotton is determined.* The farm marketing excess for the 1954 crop of extra long staple cotton shall be the normal production of the acreage of such cotton on the farm in excess of the farm acreage allotment. Where it is established by any producer on the farm in connection with an application filed by him or by any other producer on the farm in accordance with regulations to be issued under this part by the Secretary, that the normal production of the excess acreage is larger than the amount by which the actual production of extra long staple cotton in 1954 on the farm exceeds the normal production of the farm acreage allotment, the farm marketing excess shall be adjusted downward to the smaller amount.

(b) *Where the acreage planted to extra long staple cotton is not determined.* Whenever the determination of the acreage planted to extra long staple cotton in excess of the farm acreage allotment is prevented by the farm operator, the farm marketing excess shall be the total number of pounds of such cotton produced in 1954 on the farm. In the event the farm operator or any other producer on the farm establishes, in accordance with regulations to be issued under this part by the Secretary, the total number of pounds of extra long staple cotton produced in 1954 on the farm, the farm marketing excess shall be the number of pounds of such cotton produced in 1954 on the farm in excess of the normal production of the farm acreage allotment.

(c) *Acreage planted on farms without an allotment.* If extra long staple cotton is grown in 1954 on any farm outside the area designated in § 722.1116 (b), or if extra long staple cotton is grown in 1954 on a farm which is located within the area so designated but which does not have an allotment for extra long staple cotton, the farm marketing excess for the 1954 crop of extra long staple cotton shall be the normal production of the acreage of such cotton on the farm. Where it is established by any producer on the farm in connection with an application filed by him or by any other producer on the farm in accordance with regulations to be issued under this part by the Secretary, that the normal production of the acreage planted to extra long staple cotton exceeds the actual production of such cotton on the farm in 1954, the farm marketing excess shall be adjusted downward to the smaller amount.

§ 722.1121 *Publication of farm acreage allotments and marketing quotas.* One copy of each notice of the farm acreage allotment and marketing quota for farms in a county shall be placed in binders or folders, or in lieu thereof a listing of such allotments shall be prepared, and such notices or listing shall be kept freely available in the office of the county committee for public inspection for a period of not less than thirty calendar days. At the end of such period the copies of the notices or the listing shall be filed in the office of the county committee and remain readily available for further public inspection. If the county is divided into administrative areas, separate binders, folders, or listings shall be prepared and made available for inspection for each administrative area.

§ 722.1122 *Successors-in-interest.* Any person who succeeds to the interest of a producer in a farm, or in a crop of extra long staple cotton, or in extra long staple cotton for which a farm marketing quota and farm marketing excess were established, shall, to the same extent as his predecessor, be entitled to all the rights and privileges incident to such marketing quota and marketing excess and be subject to the restrictions on the marketing of such cotton.

§ 722.1123 *Marketing quotas not transferable.* A farm marketing quota is established for a farm and may not be assigned or otherwise transferred in whole or in part to any other farm.

MISCELLANEOUS PROVISIONS

§ 722.1124 *Report of data and information for old cotton farms.* The owner, operator, or any other interested person shall furnish the county committee of the county in which the farm is located the data and information required to be entered on Form CN-364 (1953), "Farm Acreage Report", a copy of which may be obtained from the county committee of any county in which either upland cotton or extra long staple cotton is grown or from the State committee. The county committee, with the assistance of the community committee, shall, insofar as possible, appraise and otherwise determine the required data and information for any farm for which such report on Form CN-364 (1953) is not filed by a person having an interest in the farm, using for such appraisals and determinations the records of the county office for the farm and other farms in the community and other available information.

§ 722.1125 *Acreage planted to extra long staple cotton*—(a) *Adjustment of acreage planted in excess of farm acreage allotment.* If the acreage determined to be planted to extra long staple cotton on a farm in 1954 is in excess of the farm acreage allotment, the farm operator may, not later than a date established under instructions issued by the Assistant Administrator, adjust such planted acreage to the farm acreage allotment. The date established under such instructions shall afford farm operators a reasonable time for making such adjustments.

(b) *Underplanting the farm acreage allotment.* For any farm on which extra long staple cotton is planted in 1954 and the acreage of such cotton in 1954 is less than the 1954 farm acreage allotment by not more than the larger of 10 percent of the allotment or one acre, an acreage equal to the farm acreage allotment shall be deemed to be the acreage planted to such cotton on the farm in 1954, and the additional acreage added to the extra long staple cotton acreage history for the farm shall be added to the extra long staple cotton acreage history for the county and State.

(c) *No credit for overplanting the farm acreage allotment.* Any acreage planted to extra long staple cotton in 1954 in excess of the farm acreage allotment for the 1954 crop of such cotton shall not be taken into account in establishing State, county, and farm acreage allotments for the 1955 and subsequent crops of such cotton.

§ 722.1126 *Availability of records.* The State and county committees shall make available for inspection by owners or operators of farms receiving extra long staple cotton acreage allotments, all records pertaining to such cotton acreage allotments and marketing quotas.

§ 722.1127 *Approval of county committee determinations and redelegation of authority by the State committee*—(a) *Approval of county committee determinations.* The State committee shall review all acreage allotments and may correct or require correction of any determinations made under §§ 722.1117 to 722.1125. All acreage allotments shall be approved by the State committee and no official notice of acreage allotment and marketing quota shall be mailed to a farm operator until such allotment has been approved by the State committee.

(b) *Redelegation of authority.* Any authority delegated to the State committee by the regulations in §§ 722.1111 to 722.1128 may be redelegated by the State committee.

REVIEW OF QUOTAS

§ 722.1128 *Review of quotas*—(a) *Review committees.* Any producer who is dissatisfied with the farm acreage allotment or marketing quota established for his farm, or in the case of a new cotton farm with the action of the county committee in refusing to establish a farm acreage allotment or marketing quota for such farm, may, by making application within 15 days after the mailing of the notice provided for in § 722.1118, have such allotment, quota, or determination reviewed by a review committee composed of three farmers appointed by the Secretary. The review committee shall, upon proper application, review the action of the county committee. The review committee in determining any farm acreage allotment or marketing quota shall, to the same extent as the county committee, be limited to the establishment of a farm acreage allotment or marketing quota in an amount which, under the Act and regulations, should have been established. Unless such application is made within 15 days, the original determination of the farm acreage allotment or marketing quota shall be final. All applications for review shall be made in accordance with the Marketing Quota Review Regulations issued by the Secretary.

(b) *Court review.* If the producer is dissatisfied with the determination of the review committee, he may, within 15 days after notice of such determination is mailed to him by registered mail, institute proceedings against the review committee to have the determination of the review committee reviewed by a court in accordance with section 365 of the act.

NOTE: The reporting requirements contained herein have been approved by, and subsequent reporting requirements will be subject to the approval of the Bureau of Budget in accordance with Federal Reports Act of 1942.

Done at Washington, D. C., this 4th day of December 1953. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

[F. R. Doc. 53-10257; Filed, Dec. 4, 1953; 3:07 p. m.]

# TITLE 17—COMMODITY AND SECURITIES EXCHANGES

## Chapter II—Securities and Exchange Commission

PART 210—FORM AND CONTENT OF FINANCIAL STATEMENTS, SECURITIES ACT OF 1933, SECURITIES EXCHANGE ACT OF 1934, PUBLIC UTILITY HOLDING COMPANY ACT OF 1935 AND INVESTMENT COMPANY ACT OF 1940

APPLICATION OF REGULATION S-X

*Purpose of amendment.* On October 9, 1953, the Securities and Exchange Commission rescinded Form 9-K (17 CFR 249.309) (Securities Exchange Act of 1934 Release No. 4949 and Securities Act of 1933 Release No. 3489), the form for quarterly reports of gross sales and operating revenues under the Securities Exchange Act of 1934. This action by the Commission makes necessary the deletion of the reference to such form now contained in paragraph (a) (3) and paragraph (a) (4) of § 210.1-01 (Rule 1-01), Article 1 of Regulation S-X.

In addition the amendment clarifies the introductory language of paragraph (a).

*Statutory basis.* The amendments of the rule are adopted pursuant to authority conferred upon the Commission by the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19 (a) thereof, the Securities Exchange Act of 1934, particularly sections 12, 13, 15 (d) and 23 (a) thereof, the Public Utility Holding Company Act of 1935, particularly section 20 thereof, and the Investment Company Act of 1940, particularly sections 8, 30, 31 (c) and 38 (a) thereof.

Text of rule as amended:

§ 210.1-01 *Application of this part.* (a) This part (together with the Accounting Series Releases) states the requirements applicable to the form and content of all financial statements required to be filed as part of—

(1) Registration statements under the Securities Act of 1933 filed on Form S-1, S-2, S-3, S-4, S-5, S-6, or S-11 (§§ 239.11, 239.12, 239.13, 239.14, 239.15, 239.16, 239.18 of this chapter), except as otherwise specifically provided in such forms;

(2) Applications for registration of securities under the Securities Exchange Act of 1934 filed on Form 8-A, 8-B, 10 or 14 (§§ 249.208a, 249.208b, 249.210, 249.214 of this chapter);

(3) Supplemental or periodic reports under Section 13 of the Securities Exchange Act of 1934 filed on Form 8-K, 10-K, 14-K, 16-K, or U5-S (§§ 249.308, 249.310, 249.314, 249.316, 259.5s of this chapter);

(4) Supplemental or periodic reports under Section 15 (d) of the Securities Exchange Act of 1934 filed on Form 8-K, 10-K, 2-MD, 4-MD, or U5-S (§§ 249.308, 249.310, 249.402, 249.404, 259.5s of this chapter); and

(5) Registration statements and annual reports filed under the Public Utility Holding Company Act of 1935 by public utility holding companies registered under such act; and

(6) Registration statements and annual reports under the Investment Company Act of 1940.

(b) The term "financial statements" as used in this part shall be deemed to include all supporting schedules.

The Commission finds that notice and public procedures upon this amendment are unnecessary since it is merely a clarification of the rules previously in effect. The foregoing rule, as amended, shall become effective January 4, 1954.

(Secs. 19, 23, 48 Stat. 85, 901 as amended, sec. 38, 54 Stat. 841; 15 U. S. C. 77s, 78w, 80a-37. Interprets or applies secs. 6, 7, 8, 10, 12, 13, 15, 48 Stat. 78, 79, 81, 892, 894, 895, as amended; sec. 20, 49 Stat. 833; secs. 8, 30, 31, 54 Stat. 803, 836, 838, 15 U. S. C. 77f, 77g, 77h, 77j, 78l, 78m, 78o, 79t, 80a-8, 80a-29, 80a-30)

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

NOVEMBER 30, 1953.

[F. R. Doc. 53-10224; Filed, Dec. 7, 1953; 8:47 a. m.]

# TITLE 19—CUSTOMS DUTIES

## Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53385]

NAVIGATION AND CUSTOMS FEES: ASSESSMENT AND COLLECTION

The Customs Regulations are hereby amended as indicated hereinafter to provide for the assessment and collection of the fees listed below pursuant to authority contained in Title V, Independent Offices Appropriation Act, 1952 (5 U. S. C. 140):

(1) For registering a house flag or funnel mark, or both, upon application of an owner of a vessel or vessels, $25.

(2) For recording a trade-mark, trade name, or copyright, $25.

(3) For designating a common carrier as a carrier of customs bonded merchandise, $35.

(4) For establishment of a customs bonded warehouse, $50.

(5) For issuing a customs cartage or lighterage license, $35.

(6) For issuing a customhouse broker's license, $100.

PART 3—DOCUMENTATION OF VESSELS

Part 3 is amended by inserting a new § 3.82 reading as follows:

§ 3.82 *Fee for registering a house flag or funnel mark, or both.* A fee of $25, designated as fee number 11 in § 4.98 of this chapter, shall be paid upon the registration of a house flag or funnel mark, or both, and each application for such registration filed with a collector of customs shall be accompanied by a remittance in that amount.

(R. S. 161, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended; 5 U. S. C. 22, 46 U. S. C. 2, 3. Interprets or applies sec. 7, 35 Stat. 426, as amended, sec. 501, 65 Stat. 290; 46 U. S. C. 49, 5 U. S. C. 140)

PART 4—VESSELS IN FOREIGN AND DOMESTIC TRADES

Section 4.98 (a) is amended by adding the following as fee number 11 to the table of fees:

11. Registering a house flag or funnel mark, or both (5 U. S. C. 140; T. D. 53385).

(R. S. 161, secs. 2, 3, 23 Stat. 118, as amended, 119, as amended; 5 U. S. C. 22, 46 U. S. C. 2, 3. Interprets or applies secs. 7, 35 Stat. 426, as amended, sec. 501, 65 Stat. 290; 46 U. S. C. 49, 5 U. S. C. 140)

PART 11—PACKING AND STAMPING; MARKING; TRADE-MARKS AND TRADE NAMES; COPYRIGHTS

1. Section 11.15 (a) is amended by deleting "and" following "ownership of the applicant," in the second sentence, by deleting footnote reference 17 at the end of the second sentence and said footnote, and by changing the period at the end of the second sentence to a comma and adding the following: "and the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Head, Fiscal Section, Bureau of Customs."

(R. S. 161, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624)

2. Section 11.16 (a) is amended by deleting footnote reference 17 at the end of the first sentence and by changing the period at the end of the second sentence to a comma and adding the following: "and by the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Head, Fiscal Section, Bureau of Customs."

(R. S. 161, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624)

3. Section 11.19 (b) is amended by substituting "accompanied by" for "together with", and by deleting the period at the end of the sentence and adding the following after the word "Alaska": "and the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Collector of Customs, New York, N. Y."

(R. S. 161, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 1624. Interprets or applies sec. 1, 61 Stat. 652; 17 U. S. C. 109)

4. Section 11.19 (d) is amended by deleting from the last sentence the word "and" and the period at the end and adding the following after the word "designate": "and by the fee of $25 prescribed by § 24.12 of this chapter. Checks or money orders in payment of the fee shall be made payable to the Head, Fiscal Section, Bureau of Customs."

(Sec. 1, 61 Stat. 652; 17 U. S. C. 109.)

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

Section 18.1 (c) is amended by substituting "accompanied by the fee of $35 prescribed by § 24.12 of this chapter," for "together with" in the first sentence, and by inserting a comma after "carriage" in that sentence.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624.)

PART 19—CUSTOMS WAREHOUSES AND CONTROL OF MERCHANDISE THEREIN

Section 19.2 (a) is amended by changing the period at the end of the first sentence to a comma and adding "and shall transmit therewith the fee of $50 prescribed by § 24.12 of this chapter."

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624.)

PART 21—CARTAGE AND LIGHTERAGE

Section 21.1 (a) is amended by deleting the period from the end of the third sentence and adding thereto "and pay the fee of $35 prescribed by § 24.12 of this chapter."

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624.)

Part 24—CUSTOMS FINANCIAL AND ACCOUNTING PROCEDURE

Section 24.12 (a) is amended to read as follows:

§ 24.12 *Customs fees; charges for storage.* (a) (1) A table of the rates of fees prescribed by law or hereinafter in this paragraph shall be kept posted in each collector's, surveyor's, and comptroller's office. A customs fee in the amount respectively indicated shall be collected for each of the following actions and when payment of such fee is received by any customs employee a receipt therefor shall be issued:

(i) Recording a trade-mark, trade name, or copyright, $25 (see §§ 11.15, 11.16, and 11.19 of this chapter).

(ii) Designating a common carrier as a carrier of customs bonded merchandise, $35 (see § 18.1 of this chapter).

(iii) Establishment of a customs bonded warehouse, $50 (see § 19.2 of this chapter).

(iv) Issuance of a customs cartage or lighterage license, $35 (see § 21.1 of this chapter).

(v) Issuance of a customhouse broker's license, $100.

(vi) Making an official certification, unless otherwise prescribed by law, 20 cents.

(2) The fee in subparagraph (1) (iii) of this paragraph shall be assessed and collected for the action of initially establishing a customs bonded warehouse or for rebonding a warehouse after its discontinuance. Such fee shall not be collected for action in connection with the discontinuance or alteration of a customs bonded warehouse or the reactivation of such a warehouse after its temporary suspension.

(3) The fee in subparagraph (1) (iv) of this paragraph shall be assessed and collected for the action of initially issuing a customs cartage or lighterage license or issuing a new license after the previous license has been canceled or revoked, but not for renewing such a license.

(R. S. 161, 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies R. S. 2635, as amended, 2654, as amended, 4383, as amended, sec. 501, 65 Stat. 290; 19 U. S. C. 58, 59, 46 U. S. C. 333, 5 U. S. C. 140)

Notice of the proposed issuance of the foregoing amendments was published in the FEDERAL REGISTER on August 8, 1953 (18 F. R. 4707), pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). After due consideration of the representations received, it has been decided to adopt the amendments as set forth above.

The fees listed in § 24.12 (a) (1) to (5), inclusive, are not retroactive and shall be assessed and collected only for the action taken on applications received on or after the effective date of these amendments.

The amendments shall become effective upon the expiration of 30 days after the date of their publication in the FEDERAL REGISTER.

[SEAL] D. B. STRUBINGER,
*Acting Commissioner of Customs.*

Approved: November 27, 1953.

H. CHAPMAN ROSE,
*Acting Secretary of the Treasury.*

# TITLE 21—FOOD AND DRUGS

## Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

EXEMPTING CERTAIN ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS FROM CERTIFICATION

*Correction*

In F. R. Doc. 53-10110, appearing at page 7672 of the issue for Thursday, December 3, 1953, the following changes should be made:

1. In the introductory text of § 146.30 (f), the parenthetical phrase should

read "(unless they contain crystalline penicillin o or *l*-ephenamine penicillin)".

2. In the fifth line of § 146.37 (f) (2), the word "only" should be inserted between the words "use" and "in".

## TITLE 22—FOREIGN RELATIONS

### Chapter I—Department of State

[Dept. Reg. 108.199]

PART 75—INTERNATIONAL TRAFFIC IN ARMS, AMMUNITION AND IMPLEMENTS OF WAR

*Correction*

In Federal Register Document 53-10042, published at page 7628 of the issue for Tuesday, December 1, 1953, the citation of authority should read as follows:

AUTHORITY: §§ 75.1 to 75.46 issued under sec. 12, 54 Stat. 10; 22 U. S. C. 452; Proc. 3038, 18 F. R. 7505. Statutory provisions interpreted or applied are cited to text in parentheses.

## TITLE 26—INTERNAL REVENUE

### Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 6055]

PART 7—TAXATION PURSUANT TO TREATIES

EXCHANGE OF INFORMATION UNDER INCOME TAX CONVENTIONS

§ 7.1 *Exchange of information*—(a) *Form 1042 Supplement.* (1) For the calendar year 1953 and subsequent calendar years every United States withholding agent shall make and file with the district director of internal revenue for the district in which the withholding agent is located an information return on Form 1042 Supplement with respect to each foreign country which has, or will have, entered into an income tax convention with the United States, if such convention provides for the mutual exchange of information and if the Commissioner of Internal Revenue determines that such return is required in the case of such country.

(2) Form 1042 Supplement shall be filed simultaneously with the Form 1042 prescribed by § 39.143-7 of this chapter. A separate return shall be made on Form 1042 Supplement in duplicate with respect to each such country as the Commissioner of Internal Revenue shall designate, and there shall be reported thereon all items of fixed or determinable annual or periodical income derived from sources within the United States and paid to nonresident aliens (including nonresident alien individuals, fiduciaries, and partnerships) and to nonresident foreign corporations, whose addresses at the time of payment were in such country, including such items of income upon which United States tax has not been withheld at source because of the income tax convention with such country; except that any of such items which constitute wages subject to withholding of United States tax pursuant to section 1622, Internal Revenue Code, and interest in respect of which an ownership certificate other than Form 1001, such as Form 1001-D, Form 1001-IR, or Form 1001-UK, or the substitute thereof, has been filed in duplicate with the withholding agent is not required to be reported on such Form 1042 Supplement.

(3) As soon as practicable after the close of the calendar year 1953 and subsequent calendar years during which the income tax convention between the United States and such country is in effect, the Commissioner of Internal Revenue will transmit to the appropriate authority designated in the convention with such country the duplicate copy of each available Form 1042 Supplement filed pursuant to this section in respect to such country for such preceding calendar year.

(4) Form 1042B, Form 1042C, Form 1042D, Form 1042E, and Form 1042F, which are currently prescribed under this part as information returns for use under the income tax convention between the United States and Canada, France, the United Kingdom, The Netherlands, and Switzerland, respectively, will not be required for 1953 and subsequent years.

(b) *Form 1042.* For the calendar year 1953 and subsequent calendar years every United States withholding agent shall report on Form 1042 all such items of income, otherwise required to be reported thereon pursuant to § 39.143-7 of this chapter, upon which United States tax has not been withheld at source because of any income tax convention which is in effect between the United States and a foreign country. There shall also be reported on such form interest on registered bonds with respect to which an exemption certificate, such as Form 1001 A-D, or an exemption or reduced rate certificate, such as Form 1001 A-S, has been filed with the withholding agent.

(c) *Prior regulations.* The provisions of this section shall apply notwithstanding any regulation to the contrary which has been approved prior to the date on which this Treasury decision is published in the FEDERAL REGISTER.

Because this Treasury decision is basically in accordance with procedures now being followed by withholding agents, it is hereby found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] T. COLEMAN ANDREWS,
*Commissioner of Internal Revenue.*

Approved: December 1, 1953.

M. B. FOLSOM,
*Acting Secretary of the Treasury.*

## TITLE 32A—NATIONAL DEFENSE, APPENDIX

### Chapter I—Office of Defense Mobilization

[Defense Mobilization Order V-1, Supp. 1]

ESTABLISHMENT OF INTERDEPARTMENTAL COMMODITY ADVISORY COMMITTEES

By virtue of the authority vested in me by Executive Order 10480 of August 15, 1953, and Reorganization Plan No. 3 of June 12, 1953, and in order to obtain advice and cooperation which will facilitate the coordination of Federal policies and programs with respect to the supply of materials to meet the requirements for both current defense activities and readiness for any future national emergency, *It is hereby ordered:*

1. There are hereby established in the Office of Defense Mobilization the following interdepartmental commodity advisory committees. The Chairman of each committee shall be appointed by the Assistant Director for Materials, Office of Defense Mobilization. Representatives shall be designated by the head of the indicated department or agency:

a. *Interdepartmental Iron, Steel and Ferroalloys Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
U. S. Tariff Commission.
General Services Administration.

b. *Interdepartmental Light Metals Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
U. S. Tariff Commission.
General Services Administration.

c. *Interdepartmental Non-Ferrous Metals Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
U. S. Tariff Commission.
General Services Administration.

d. *Interdepartmental Non-Metallic Minerals Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
U. S. Tariff Commission.
General Services Administration.

e. *Interdepartmental Chemicals and Rubber Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
Department of Agriculture.
U. S. Tariff Commission.
General Services Administration.

f. *Interdepartmental Forest Products Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of the Interior.
Department of Agriculture.
U. S. Tariff Commission.
General Services Administration.

g. *Interdepartmental Fibers Committee.*

Department of Defense.
Department of Commerce.
Department of State.
Department of Agriculture.
U. S. Tariff Commission.
General Services Administration.

2. The foregoing ODM interdepartmental commodity advisory committees shall be advisory to the Assistant Director for Materials, ODM, in the development of supply, requirements, and technical data required by the ODM in carrying out its industrial mobilization responsibilities.

3. This order shall become effective immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
*Director.*

CERTAIN STATES

*Correction*

In Federal Register Document 53-7388, appearing at page 4991 of the issue for Friday, August 21, 1953, the "Effective date of regulation" in the last column of the table in paragraph 2, opposite area "(86) Braidwood-Joliet", class C, now reading "Dec. 10, 1952," should read "Dec. 10, 1951."

In the table in F. R. Doc. 53-7389, page 4992 of the issue for Friday, August 21, 1953, area "(321) Del Rio" should read "(312) Del Rio", and the maximum rent date for this area should read "Sept. 1, 1952".

## TITLE 33—NAVIGATION AND NAVIGABLE WATERS

### Chapter I—Coast Guard, Department of the Treasury

Subchapter G—Navigation Requirements for Certain Inland Waters

[CGFR 53-49]

PART 82—BOUNDARY LINES OF INLAND WATERS

GULF COAST; MISCELLANEOUS AMENDMENTS

A notice regarding the establishment of a line of demarcation between the high seas and inland waters from Mobile Bay to the Rio Grande River on the Gulf of Mexico was published in the FEDERAL REGISTER dated May 1, 1953 (18 F. R. 2556). A public hearing was held by the Commander of the 8th Coast Guard District on June 2, 1953, in the Jackson Room of the St. Charles Hotel, New Orleans, Louisiana. Upon request the Commander of the 8th Coast Guard District permitted until July 3, 1953, additional comments and data to be submitted and made a part of the record of this hearing.

All the comments, views, and data submitted in writing or orally at the public hearing, together with the recommendations of the Commander of the 8th Coast Guard District, were considered by the Merchant Marine Council. Where practicable, the comments, views, and data relating to safe navigation were accepted and parts of the described lines as proposed were revised accordingly. The comments, data, and views submitted which were based on reasons not directly connected with promoting safe navigation were rejected.

The establishment of descriptive lines of demarcation is solely for purposes connected with navigation and shipping. Section 2 of the act of February 19, 1895, as amended (33 U. S. C. 151), authorizes the establishment of these descriptive lines primarily to indicate where different statutory and regulatory rules for preventing collisions of vessels shall apply and must be followed by public and private vessels. These lines are not for the purpose of defining Federal or State boundaries, nor do they define or describe Federal or State jurisdiction over navigable waters. Upon the waters inshore of the lines described, the Inland Rules and Pilot Rules apply. Upon the waters outside of the lines described, the International Rules apply.

The purposes for these changes in the line of demarcation between the high seas and rivers, harbors, and inland waters, from Mobile Bay to the Rio Grande River on the Gulf of Mexico, are (1) to extend or connect lines previously published for certain localities; (2) to remove confusion that has arisen regarding where the lines should be; and (3) to clearly indicate where the rules for preventing collisions at sea (International Rules) apply and where the Inland Rules and Pilot Rules for preventing collisions of vessels apply.

The purpose for amending 33 CFR 82.95 is to describe a line of demarcation from Mobile Bay, Alabama, to Mississippi Passes, Louisiana.

The purpose for amending 33 CFR 82.100 is to change the provisions of this regulation to agree with Public Law 232, 83d Congress (62 Stat. 249; 33 U. S. C. 154, 301). Public Law 232 made the Inland Rules applicable to the Mobile River and all its tributaries.

The purpose for adding a new regulation 33 CFR 82.103 is to describe the line of demarcation from Mississippi Passes, Louisiana, to Sabine Pass, Texas. Numerous objections to the descriptive line proposed and considered at the public hearing were received and were the basis for certain changes adopted. The new regulation 33 CFR 82.103 sets forth the line from Mississippi Passes, Louisiana, to Sabine Pass, Texas.

33 CFR 82.105, regarding Inland Rules to be followed in Sabine Pass, Texas, is canceled. This line is not necessary since a new regulation designated 33 CFR 82.106 includes Sabine Pass, Texas.

The new regulation designated 33 CFR 82.106 describes the line from Sabine Pass, Texas, to Galveston, Texas.

33 CFR 82.110, regarding the descriptive line for Galveston Harbor, is canceled. This line is not necessary since a new regulation designated 33 CFR 82.111 includes Galveston Harbor.

A new regulation designated 33 CFR 82.111 describes the line from Galveston, Texas, to Brazos River, Texas.

33 CFR 82.115, regarding the descriptive line for Brazos River, Texas, is canceled. This line is not necessary since a new regulation designated 33 CFR 82.116 includes the Brazos River.

A new description designated 33 CFR 82.116 describes the line from Brazos River, Texas, to the Rio Grande, Texas. Numerous comments regarding this proposed description were received. The proposed descriptive line was not adopted. The line of demarcation adopted will permit oceangoing vessels running between Aransas Pass Lighted Whistle Buoy 1A and Brazos Santiago Entrance Lighted Whistle Buoy 1 to operate under the International Rules at all times.

In order to prevent confusion regarding effective date of regulations because the revised International Rules become effective on and after January 1, 1954, it is hereby found to be in the public interest that these amendments become effective on and after January 1, 1954.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate rules and regulations in acordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective on and after January 1, 1954:

1. Section 82.95 is amended to read as follows:

§ 82.95 *Mobile Bay, Ala., to Mississippi Passes, La.* Starting from a point which is located 1 mile, 90° true, from Mobile Point Lighthouse, a line drawn to Mobile Entrance Lighted Whistle Buoy 1; thence to Ship Island Lighthouse; thence to Chandeleur Lighthouse; thence in a curved line following the general trend of the seaward, high-water shore lines of the Chandeleur Islands to the southwesternmost extremity of Errol Shoal (Lat. 29°35.8′ N., Long. 89°00.8′ W.); thence to Pass a Loutre Lighted Whistle Buoy 4.

2. Section 82.100 is amended to read as follows:

§ 82.100 *Mississippi River.* The Pilot Rules for Western Rivers are to be followed in the Mississippi River and its tributaries above the Huey P. Long Bridge.

3. Part 82 is amended by adding a new § 82.103, reading as follows:

§ 82.103 *Mississippi Passes, La., to Sabine Pass, Tex.* A line drawn from Pass a Loutre Lighted Whistle Buoy 4 to South Pass Lighted Whistle Buoy 2; thence to Southwest Pass Entrance Midchannel Lighted Whistle Buoy; thence to Ship Shoal Lighthouse; thence to Calcasieu Pass Lighted Whistle Buoy 1; thence to Sabine Pass Lighted Whistle Buoy 1.

4. Section 82.105 *Sabine Pass, Texas,* is canceled.

5. Part 82 is amended by adding a new § 82.106, reading as follows:

§ 82.106 *Sabine Pass, Tex., to Galveston, Tex.* A line drawn from Sabine Pass Lighted Whistle Buoy 1 to Galveston Bar Lighted Whistle Buoy 1.

6. Section 82.110 *Galveston Harbor* is canceled.

7. Part 82 is amended by adding a new § 82.111, reading as follows:

§ 82.111 *Galveston, Tex., to Brazos River, Tex.* A line drawn from Galveston Bar Lighted Whistle Buoy 1 to Freeport Entrance Lighted Bell Buoy 1.

8. Section 82.115 *Brazos River, Tex.* is canceled.

9. Part 82 is amended by adding a new § 82.116, reading as follows:

§ 82.116 *Brazos River, Tex., to the Rio Grande, Tex.* A line drawn from Freeport Entrance Lighted Bell Buoy 1 to Pass Cavallo Lighted Whistle Buoy 1; thence to Aransas Pass Lighted Whistle Buoy 1A; thence to a position 10½ miles, 90° true, from the north end of Lopeno Island (Lat. 27°00.1′ N., Long. 97 15.5′ W.); thence to Brazos Santiago Entrance Lighted Whistle Buoy 1.

(Sec. 2, 28 Stat. 672, as amended, 33 U. S. C. 151)

Dated: December 1, 1953.

[SEAL] A. C. RICHMOND,
*Rear Admiral, U. S. Coast Guard,*
*Acting Commandant.*

[F. R. Doc. 53-10234; Filed, Dec. 7, 1953; 8:48 a. m.]

## TITLE 39—POSTAL SERVICE

### Chapter I—Post Office Department

PART 27—LETTER, CALL, AND LOCK BOXES, AND KEY DEPOSITS

RENT OF BOXES

In § 27.7 *Rent of boxes* paragraphs (b), (c), and (d) are amended to read as follows:

(b) *Collection of rent.* Box rents shall be collected on or before the beginning of a quarter for that quarter or in advance on an annual basis for the fiscal year. Box patrons including agencies of the Federal Government are permitted to pay rental on post office boxes for not more than one full fiscal year in advance, or for the three, two, or one quarter remaining in the fiscal year during which the box is rented. All box rentals collected, both current and advance payments, shall be accounted for as postal receipts on the dates collections are made. When a patron, including a Government agency, surrenders a box prior to the expiration of the period for which rental has been paid no portion of the rental shall be refunded.

(c) *Box rent notice.* Postmasters shall place a notice that the rent is due and payable in each rented box 10 days in advance of the expiration of the quarter for which rental has been paid. If a boxholder fails to renew his right to his box on or before the last day of a quarter the box shall then be closed and offered for rent, and the mail placed in the general delivery unless deliverable by carrier. At a station or branch, such mail which is undeliverable by carrier shall be held at the station or branch for 10 days and then if not called for returned to the sender with suitable endorsement. In the case of a known permanent resident who is temporarily absent and has filed a forwarding order for his mail, the box rent notice should be inclosed in an official penalty envelope and mailed to his forwarding address. Ample time for reply should be allowed before the closing and rerenting of such box. (See §§ 43.22 and 43.23 of this chapter.)

(d) *When box rented after beginning of quarter.* When a box is rented after the beginning of the quarter the rent to be collected shall be computed by multiplying the number of days remaining in the quarter, including the day on which the box is rented, by the rate and dividing the product by 90, which for this purpose shall be considered the number of days in each quarter, except that rental for the entire quarter shall be collected from a boxholder who pays for the right to continue the use of the box which he held during the previous quarter. Boxes shall not be assigned or transferred to others by boxholders.

(R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, 5 U. S. C. 22, 369)

[SEAL] ROSS RIZLEY,
*Solicitor.*

[F. R. Doc. 53-10219; Filed, Dec. 7, 1953; 8:46 a. m.]

## TITLE 50—WILDLIFE

### Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter B—Hunting and Possession of Wildlife

PART 6—MIGRATORY BIRDS AND CERTAIN GAME MAMMALS

COMPENSATORY EXTENSIONS OF CERTAIN MIGRATORY GAME BIRD SEASONS

*Basis and purpose.* A request has been received from the States of New York and West Virginia for an extension of the migratory game bird seasons by the number of days sportsmen were not permitted to hunt such birds due to emergency State action closing extensive areas to shooting as a forest fire prevention measure. It has been determined that the slight compensatory extensions sought are not likely to result in a diminution of the birds to any greater extent than was contemplated for the original period.

Accordingly, pursuant to authority conferred upon me by § 6.4 of the Migratory Bird Treaty Act Regulations (16 F. R. 7513), the seasons fixed by the amendments to such regulations approved August 21 and October 28, 1953 (18 F. R. 5175 and 18 F. R. 6971) are, subject to shooting hours and other applicable provisions of the current Federal regulations, extended as follows:

Waterfowl and coot from December 16 to December 19, both dates inclusive, in New York (except Long Island and that part of Westchester County lying south of the Hutchinson River Parkway).

In West Virginia, waterfowl and coot from December 27, 1953, to January 9, 1954; woodcock from December 1 to December 19, all dates inclusive.

Since these amendments are relaxations of existing regulations, notice and public procedure thereon are not required (60 Stat. 237; 5 U. S. C. 1001, et seq.), and they shall become effective immediately.

(Sec. 3, 40 Stat. 755, as amended; 16 U. S. C. 704)

Dated: November 30, 1953.

JOHN L. FARLEY,
*Director,*
*Fish and Wildlife Service.*

[F. R. Doc. 53-10211; Filed, Dec. 7, 1953; 8:45 a. m.]

# PROPOSED RULE MAKING

## SECURITIES AND EXCHANGE COMMISSION

### [ 17 CFR Part 250 ]

REGISTRATION AND GENERAL EXEMPTIONS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Securities and Exchange Commission is considering adopting a new rule, (Rule U-13; 17 CFR 250.13) under the Public Utility Holding Company Act of 1935 exempting certain non-utility subsidiary companies and affiliates of registered holding companies from the obligations, duties and liabilities imposed upon them as subsidiary companies or affiliates of registered holding companies.

The proposal to adopt U-13 is made pursuant to the provisions of sections 3 (d) and 20 (a) of the Public Utility Holding Company Act of 1935.

Section 3 (d) of the act provides that the Commission "may, by rules and regulations, conditionally or unconditionally exempt any specified class or classes of persons from the obligations, duties, or liabilities imposed upon such persons as subsidiary companies or affiliates under any provision or provisions of this title • • •" The proposed rule would unconditionally exempt every subsidiary company or affiliate of a registered holding company (which subsidiary company or affiliate is not (a) a holding company, (b) a public-utility company, (c) an investment company or (d) a service company) from all the obligations, duties and liabilities imposed upon it by the act as a subsidiary company or affiliate of a registered holding company: *Provided,* That the company so exempted becomes a subsidiary or affiliate by reason of the acquisition of its voting securities after the effective date of the rule by a registered holding company: *And provided further,* That such acquisition is in accordance with an investment program permitted by an order of the Commission entered pursuant to section 11 of the act in connection with the conversion of such registered holding company into an investment company in compliance with the act.

At the present time there are two registered holding companies which, with Commission approval, are in the process of converting into investment companies and there are two other registered holding companies which have indicated an intention to convert into an investment company if permitted by the Commission.

The text of the proposed rule would read as follows:

§ 250.13 *Exemption of certain non-utility subsidiary companies and affiliates of registered holding companies transforming to investment companies.* Every subsidiary company or affiliate of a registered holding company which subsidiary company or affiliate is not—

(a) A holding company;

(b) A public-utility company;

(c) An investment company or investment trust, including one which is a medium for investments in securities for the benefit of a public-utility or holding company or its directors, officers or employees;

(d) A service company performing services or construction for or selling goods to associate companies of any of the classes specified in paragraphs (a) to (c) of this section; or

(e) Controlling, directly or indirectly, any company specified in paragraphs (a) to (d) of this section;

shall be unconditionally exempt from the obligations, duties and liabilities which would otherwise be imposed upon such company as a subsidiary company or an affiliate by any provision or provisions of the act and shall not be deemed to be a subsidiary company or an affiliate within the meaning of any such provision or provisions, if such company becomes a subsidiary company or an affiliate by virtue of the acquisition after December 15, 1953, directly or indirectly, of voting securities of which it is the issuer by a registered holding company in accordance with an investment program permitted by an order of the Commission which has become final and which has been entered pursuant to section 11 of the act in connection with the conversion of such registered holding company into an investment company in compliance with the provisions of the act.

All interested persons are hereby invited to submit views and comments on the proposed rule. Such views and comments should be submitted to the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., on or before December 16, 1953.

By the Commission.

[SEAL] NELLYE A. THORSEN,
*Assistant Secretary.*

NOVEMBER 27, 1953.

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

### [ 7 CFR Part 962 ]

[Docket No. AO 162-A4]

FRESH PEACHES GROWN IN GEORGIA

NOTICE OF HEARING WITH RESPECT TO PROPOSED AMENDMENTS TO AMENDED MARKETING AGREEMENT AND ORDER REGULATING HANDLING

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.) and in accordance with the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, as amended (7 CFR Part 900), notice is hereby given of a public hearing to be held at the Lanier Hotel, 553 Mulberry Street, Macon, Georgia, beginning at 10:00 a. m., e. s. t., December 17, 1953, with respect to proposed amendments to the marketing agreement, as amended, and Order No. 62, as amended (7 CFR Part 962, 18 F. R. 3013), hereinafter referred to as the "marketing agreement" and "order," respectively, regulating the handling of fresh peaches grown in the State of Georgia. These proposals have not received the approval of the Secretary of Agriculture.

Such public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions relating to the proposed amendments, which are hereinafter set forth, and appropriate modifications thereof.

The following amendment has been proposed by the Industry Committee established pursuant to the aforesaid marketing agreement and order:

1. Delete the proviso in the first sentence of § 962.41 and insert in lieu thereof the following: "*Provided,* That no assessment shall be levied against peaches that are exempt pursuant to § 962.71 or against peaches that are exempt from inspection pursuant to § 962.64."

The Fruit and Vegetable Branch, Production and Marketing Administration has proposed that such other changes in the marketing agreement and order be made as may be necessary to make the entire marketing agreement and order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing may be obtained from the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., or from the Southeastern Marketing Field Office, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, P. O. Box 19, Lakeland, Florida.

(48 Stat. 31, as amended; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 2d day of December 1953.

[SEAL] ROY W. LENNARTSON,
*Assistant Administrator.*

[F. R. Doc. 53-10231; Filed, Dec. 7, 1953; 8:48 a. m.]

## FEDERAL POWER COMMISSION

### [ 18 CFR Part 11 ]

# NOTICES

## DEPARTMENT OF JUSTICE

OFFICE OF ALIEN PROPERTY

STATEMENT OF ORGANIZATION AND DELEGATIONS OF FINAL AUTHORITY

The Statement of Organization and Delegations of Final Authority of the Office of Alien Property (16 F. R. 6895), as amended, are hereby amended to read as follows:

1. *Establishment.* The Office of Alien Property, Department of Justice, was established by the Attorney General to administer functions vested in him relating to the control or vesting of foreign owned property, the administration of property vested under the Trading With the Enemy Act, as amended, including allowance and payment of claims asserted with respect thereto, and litigation connected with any of the foregoing functions.

2. *Direction.* The Office of Alien Property is under the supervision and direction of an Assistant Attorney Gen-

eral, who is Director of the Office of Alien Property and is responsible to the Attorney General. The Director acts for and on behalf of the Attorney General. All of the authority, rights, privileges, powers, duties, and functions of the Office of Alien Property may be exercised by the Director or by any agencies, instrumentalities, agents, delegates, or other personnel appointed or designated by him.

3. *Authority.* (a) Authority under the Trading With the Enemy Act, as amended, was delegated to the Alien Property Custodian by the President pursuant to the following Executive Orders:

(1) Executive Order 9095 of March 11, 1942, 7 F. R. 1971, as amended by Executive Order 9193 of July 6, 1942, 7 F. R. 5205, 3 CFR, 1943 Cum. Supp.; and Executive Order 9567 of June 8, 1945, 10 F. R. 6917, 3 CFR, 1945 Supp.; and modified by Executive Order 9760 of July 23, 1946, 11 F. R. 7999, 3 CFR, 1946 Supp.

(2) Executive Order 9142 of April 21, 1942, 7 F. R. 2985, 3 CFR, 1943 Cum. Supp.

(3) Executive Order 9325 of April 7, 1943, 8 F. R. 1682, 3 CFR, 1943 Cum. Supp.

(4) Executive Order 9725 of May 16, 1946, 11 F. R. 5381, 3 CFR, 1946 Supp.

(b) The Office of Alien Property Custodian was terminated, and all powers and authority vested in or transferred to the Alien Property Custodian or the Office of Alien Property Custodian were transferred to or vested in the Attorney General by Executive Order 9788 of October 14, 1946, 11 F. R. 11981, 3 CFR, 1946 Supp.

(c) Jurisdiction formerly exercised by the Secretary of the Treasury under the Trading With the Enemy Act, as amended, over certain assets which were blocked by Executive Order 8389 of April 10, 1940, 5 F. R. 1400, as amended, 3 CFR, 1943 Cum. Supp., was transferred to the Attorney General by Executive Order 9989 of August 20, 1948, 13 F. R. 4891, 3 CFR, 1948 Supp. By Executive Order 10348 of April 26, 1952, 17 F. R. 3769, 3 CFR, 1952 Supp., the aforesaid Executive Orders and all delegations, regulations, rulings, instructions and licenses under said Orders were continued in force according to their terms for the duration of the national emergency proclaimed by Proclamation 2914 of December 16, 1950, 15 F. R. 9029, 3 CFR, 1950 Supp.

(d) By Executive Order 10244 of May 17, 1951, 16 F. R. 4689, 3 CFR, 1951 Supp., the President designated the Attorney General to exercise functions relating to the settlement of intercustodial disputes regarding enemy property conferred by the act of September 28, 1950 (64 Stat. 1079; 50 U. S. C. App. Sup. 40).

(e) Certain functions under the Trading With the Enemy Act, as amended, relating to the Philippines, which were conferred on the President by the Philippine Property Act of 1946, as amended (60 Stat. 418, 64 Stat. 1116, 22 U. S. C. and Sup. 1382), were delegated to the Philippine Alien Property Administration by the following orders:

(1) Executive Order 9789 of October 14, 1946, 11 F. R. 11981, 3 CFR, 1946 Supp.

(2) Executive Order 9818 of January 7, 1947, 12 F. R. 133, 3 CFR, 1947 Supp.

(3) Executive Order 9921 of January 10, 1948, 13 F. R. 171, 3 CFR, 1948 Supp.

(f) The Philippine Alien Property Administration was terminated by Executive Order 10254 of June 15, 1951, 16 F. R. 5289, 3 CFR, 1951 Supp., and all powers and authority vested in or transferred to the Philippine Alien Property Administration or the Philippine Alien Property Administrator were transferred to or vested in the Attorney General.

(g) The Attorney General, by Order 3732, Supp. 51, of July 12, 1951, 16 F. R. 6895, has placed all of the foregoing powers and authority in the Office of Alien Property, Department of Justice.

4. *Organization.* The Office of Alien Property is composed of the following principal subdivisions, with functions and authority as indicated:

(a) *Office of the Director.* This Office consists of the Director, the Deputy Director, an Intercustodial and Foreign Funds Officer, and the Hearing Examiners.

(1) The Director exercises the functions and authority noted in paragraph 3 of this Notice.

(2) The Deputy Director may exercise any of the authority, rights, privileges, powers, duties, and functions of the Director in the absence of the Director or in the event of his inability to act, or at any other time, to the extent that such an authority may be lawfully delegated by the Director. In performing the aforesaid duties the Deputy Director will act for and on behalf of the Attorney General.

(3) The Intercustodial and Foreign Funds Officer is responsible for the administration of controls with respect to property over which jurisdiction is exercised by virtue of Executive Order 9989 and transactions relating to such property; and for the conduct of negotiations with respect to intercustodial conflicts.

(i) The Intercustodial and Foreign Funds Officer is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(ii) The Intercustodial and Foreign Funds Officer is authorized to take final action with respect to specific licensing matters, by granting or denying applications for specific licenses, and by amending, modifying, renewing, or revoking existing specific licenses with respect to the property over which jurisdiction is exercised by virtue of Executive Order 9989. In the exercise of the foregoing authority, such official will act for and on behalf of the Director or the Deputy Director, and will sign in the following form:

Issued by direction and on behalf of the (Deputy) Director, Office of Alien Property.

By ----------
(Title)

(4) The Hearing Examiners, consisting of a Chief Hearing Examiner and such other hearing examiners as may from time to time be designated, hear and determine, subject to review by the Director or the Deputy Director, contested claims under Sections 9 (a), 20, 32 and 34 of the Trading With the Enemy Act, as amended, and handle such other matters not inconsistent with their duties as hearing examiners as may be assigned by the Director or the Deputy Director. The Hearing Examiners are hereby severally delegated authority to exercise the powers conferred upon hearing examiners by 8 CFR Part 502.

(b) *Legal and Legislative Section.* Under the supervision of the Chief, Legal and Legislative Section, this section advises on all legal and legislative matters generally affecting the operations of the Office of Alien Property. This section also is responsible for all matters relating to the liquidation of banking and insurance institutions under the control of the Office and all matters relating to the administration of patents, trade-marks and copyrights and rights or interests therein or related thereto vested under the Trading With the Enemy Act, as amended, or controlled thereunder by 8 CFR Part 507.

(1) The Chief, Legal and Legislative Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) The Chief, Legal and Legislative Section, is authorized:

(i) To issue licenses with respect to vested patents, applications for patents, copyrights and rights or interests therein or related thereto; and to fix royalty schedules pertaining thereto;

(ii) To approve requests for loans of vested motion picture films and to enter into agreements concerning the use thereof;

(iii) To make demand for and accept payment of royalties and other moneys due the Attorney General with respect to vested patents, applications for patents, copyrights, trade-marks, films, licenses and rights or interests therein or relating thereto; and to execute receipts, surrenders, releases or other instruments to evidence such action.

(c) *Litigation Section.* Under the supervision of the Chief, Litigation Section, this Section conducts all litigation concerning the Office. This Section is responsible for collection, custody and administration with respect to vested interests in estates and trusts and vested rights under contracts of life insurance and annuity.

(1) The Chief, Litigation Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) The Chief, Litigation Section, is authorized:

(i) To issue any demand, direction or instruction directed to any person, firm or corporation or take any other action necessary to effectuate a vesting order;

(ii) To take custody of any property or interest therein which is vested in, or is transferable or deliverable to, the Attorney General under the Trading With the Enemy Act, as amended; to accept payment, conveyance, transfer, assignment, or delivery made to or for the account of the Attorney General pursuant to said act; to exercise any right of election to surrender or release any vested insurance policy contract rights or interests therein against payment of cash surrender value; and to execute receipts, surrenders, releases or other instruments to evidence such action.

(d) *Claims Section.* Under the supervision of the Chief, Claims Section, this Section processes all claims under the Trading With the Enemy Act, as amended, for return of property or payment of debts of former owners of vested property and related attorney fee claims.

(1) The Chief, Claims Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions, including particularly the powers conferred upon him by 8 CFR, Part 502.

(2) In the exercise of such authority, insofar as it relates to a position taken by the Claims Section prior to allowance or final disallowance of a claim, the Chief, Claims Section, shall sign in his own name and title.

(e) *Liquidation Section.* Under the supervision of the Chief, Liquidation Section, this Section is responsible for matters relating to the operation or liquidation of business enterprises which have been supervised or vested, or in which interests have been supervised or vested, and for the management and liquidation of vested real and personal property. This Section also performs certain functions in connection with effectuating returns of vested property.

(1) The Chief, Liquidation Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) The Chief, Liquidation Section, and within this Section the Chief, Collection and Custody Unit and the Assistant Chief, Collection and Custody Unit, are severally authorized:

(i) To issue any demand, direction or instruction directed to any person, firm, or corporation or to take any other action necessary to effectuate a vesting order;

(ii) To take custody of any property or interest therein which is vested in, or is transferable or deliverable to, the Attorney General under the Trading With the Enemy Act, as amended; to accept payment, conveyance, transfer, assignment or delivery made to or for the account of the Attorney General pursuant to said act; and to execute receipts, surrenders, releases or other instruments to evidence such action;

(iii) To waive compliance with any vesting order which vests a debt in a specific amount to the extent of normal service charges not to exceed $250.00 asserted by a claimant who would be entitled to a return of the amount of such charges if the vesting order were enforced according to its terms;

(iv) To direct the execution and delivery of transfers of vested property.

(f) *Comptroller's Section.* Under the supervision of the Comptroller, this Section maintains accounting records regarding vested property; prepares financial reports of the Office of Alien Property; deposits for collection with the Treasurer of the United States currency, checks, and drafts paid to or received by the Office of Alien Property; transfers the proceeds to the account of the Attorney General with the Treasurer of the United States; and makes disbursements by the issuance of checks in payment of taxes, expenses of and claims allowed by the Office of Alien Property. This Section also performs certain other functions in connection with effectuating returns of vested property.

(1) The Comptroller is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) The Disbursing Officer, within the Comptroller's Section, is authorized to collect moneys for the Office of Alien Property; to deposit for collection with the Treasurer of the United States currency, checks, and drafts paid to or received by the Office of Alien Property; to transfer the proceeds to the account of the Attorney General with the Treasurer of the United States; and to make disbursements by issuance of checks in payment of taxes, necessary and proper expenses of the Office of Alien Property and duly allowed claims. In the exercise of such authority, he is authorized to act in his own name and title.

(g) *Administrative Section.* Under the supervision of the Chief, Administrative Section, this Section is responsible for internal administrative functions, maintains statistical records of the Office of Alien Property and prepares official reports.

(1) The Chief, Administrative Section, is authorized to exercise such powers and authority as may be necessary and appropriate in the performance of his functions.

(2) Within this Section, the Records Officer and the Assistant to the Records Officer are severally authorized to authenticate, certify and attest copies of books, records, papers, and documents in the official custody of the Office of Alien Property; to subscribe the name of the Director or the Deputy Director to such certificates, and to affix the seal of the Office of Alien Property.

(h) *Philippine Office.* Under the supervision of the Manager, Philippine Office, this Office is responsible for all matters in the Philippine Islands affecting the Office of Alien Property, including the coordination of the activities in the Philippines of all Sections of the Office of Alien Property.

(1) The Manager, Philippine Office, is authorized to exercise any of the rights, privileges, powers, duties, and functions of the Office of Alien Property, or of the Director, Office of Alien Property, with respect to property or interests located in the Philippines, or which, prior to vesting, were located in the Philippines, including particularly and without limitation:

(i) To collect all moneys for the Office of Alien Property in the Philippines; to make disbursements by issuance of checks in payment of necessary and proper expenses of the Manila Office and duly allowed claims against the Office of Alien Property;

(ii) To authenticate, certify, and attest copies of books, records, papers, and documents in the official custody of the Office of Alien Property, as successor to the Philippine Alien Property Administration, and to affix the seal of the Office of Alien Property.

(i) *San Francisco Office.* This Office, under the Manager, San Francisco Office, coordinates activities in the West Coast area of all Sections of the Office of Alien Property and administers personnel and service functions for that Office.

(j) *Hawaii Office.* This Office, under the Manager, Hawaii Office, coordinates activities in Hawaii of all Sections of the Office of Alien Property and handles personnel and service functions in that Office.

(k) *Overseas Office.* This Office, under the Chief, Overseas Office, administers all functions of the Office of Alien Property in Europe.

(l) *Tokyo Office.* This Office, under the Chief, Tokyo Office, administers all functions of the Office of Alien Property in Japan.

5. *Form of Signature.* Except for the Director, Deputy Director, and as otherwise indicated in paragraph 4 of this notice, the designated officials of the Office of Alien Property, in exercising authority conferred on them, will sign in the following form:

(Name)
Assistant Attorney General
Director, Office of Alien Property
By ----------
(Title)

6. *Location of Offices.* The Office of Alien Property maintains offices as follows:

(a) *Washington, D. C.* Federal Home Loan Bank Building, 101 Indiana Avenue NW., Washington 25, D. C.

(b) *San Francisco Office.* San Francisco, California.

(c) *Philippine Office.* Manila, P. I.

(d) *Hawaii Office.* Honolulu, T. H.

(e) *Overseas Office.* Munich, Germany.

(f) *Tokyo Office.* American Embassy, Tokyo, Japan.

7. *Information*—(a) *General.* Requests for general information should be addressed to the Office of Alien Property, Department of Justice, Washington 25, D. C., unless the San Francisco, Philippine, Hawaii, Overseas or Tokyo Office is nearer, in which event requests may be addressed to such Office.

(b) *Sales.* Notices of public offerings of vested property are given by publication in appropriate newspapers and trade journals and by mail to persons on the mailing lists of the Office of Alien Property. The mailing lists are maintained by the Comptroller's Section and names may be placed on such lists on request.

(c) *Patents and Copyrights Program.* Vested interests in certain properties of these types have been made available for use by the American public. Requests for information should be addressed to the Legal and Legislative Section, Office of Alien Property, Washington 25, D. C.

## DEPARTMENT OF STATE

[Public Notice 132; Delegation of Authority 74]

ADMINISTRATOR OF THE BUREAU OF SECURITY, CONSULAR AFFAIRS AND PERSONNEL

DELEGATION OF AUTHORITY WITH RESPECT TO ADMINISTRATION AND ENFORCEMENT OF IMMIGRATION AND NATIONALITY LAWS RELATING TO POWERS, DUTIES AND FUNCTIONS OF DIPLOMATIC AND CONSULAR OFFICERS

NOVEMBER 27, 1953.

By virtue of the authority vested in me by section 4 of the act of May 26, 1949 (63 Stat. 111; 5 U. S. C. 151c), it is hereby provided as follows:

(1) Under the general direction of the Secretary of State and subject to the limitations contained in section 104 of the Immigration and Nationality Act (66 Stat. 174; 8 U. S. C. 1104) the Administrator of the Bureau of Security, Consular Affairs and Personnel of the Department of State shall be charged with the administration and enforcement of the Immigration and Nationality Act and all other immigration and nationality laws relating to the powers, duties and functions of diplomatic and consular officers of the United States, including the authority to establish such regulations; prescribe such forms of reports, entries and other papers, issue such instruments; and to perform such other acts as he deems necessary for carrying out the provisions of the Immigration and Nationality Act and all other immigration and nationality laws relating to the powers, duties and functions of diplomatic and consular officers of the United States.

(2) There are hereby excluded from the authority delegated under paragraph (1) of this order: (a) The powers, duties and functions conferred upon consular officers relating to the granting or refusal of visas; (b) the powers, duties and functions conferred upon the Secretary of State by delegation from the President of the United States; and (c) the powers, duties and functions conferred jointly upon the Secretary of State and the Attorney General.

(3) The authority delegated under paragraph (1) of this order shall not be deemed to include the authority to redelegate the powers, duties and functions so delegated.

(4) This order shall take effect as of the date hereof.

Dated: November 27, 1953.

[SEAL] JOHN FOSTER DULLES,
*Secretary of State.*

## DEPARTMENT OF AGRICULTURE

### Production and Marketing Administration

[Notice 1]

ENTRY OF SUGAR INTO THE CONTINENTAL UNITED STATES EX-QUOTA

ENTRY FOR REFINING AND RETURN TO CUSTOMS' CUSTODY

Pursuant to the provisions of paragraph (b) of § 818.2, and on the basis of information before me, I do hereby determine and give public notice that sugar or liquid sugar may be brought or imported into the continental United States during the remainder of 1953 for the sole purpose of refining and return to Customs' custody without interfering with the effective administration of the Sugar Act of 1948. Accordingly, notice is hereby given that during the period from the date of publication of this notice in the FEDERAL REGISTER through the close of business on December 31, 1953, sugar or liquid sugar may be brought or imported into the continental United States for the sole purpose of refining and return to Customs' custody without being charged against the applicable quota or allotment after acceptance by the Director of the Sugar Branch or the Chief, Quota and Allotment Division, Sugar Branch, of the Production and Marketing Administration of the Department, of a bond pursuant to paragraph (c) of § 818.2 and the fulfillment of other applicable conditions specified in Part 818.

Issued at Washington, D. C., this 2d of December 1953.

[SEAL] TRUE D. MORSE,
*Acting Secretary of Agriculture.*

## DEPARTMENT OF COMMERCE

### Office of the Secretary

DIRECTOR OF THE BUREAU OF FOREIGN COMMERCE ET AL.

DELEGATION OF AUTHORITY RELATING TO EXPORT CONTROL

A. I hereby delegate to the Director of the Bureau of Foreign Commerce authority to exercise and perform all powers and functions provided by the Export Control Act of 1949, as extended. This specifically includes the authority: (1) To issue rules and regulations to carry out the purposes of the aforesaid Act, including rules and regulations applicable to the financing, transporting, and other servicing of exports and the participation therein by any person necessary to achieve effective enforcement; (2) to sign and issue subpoenas requiring any person to appear and testify or to appear and produce books, records, and other writings, or both, to any designated place, in connection with any investigation necessary or appropriate to the enforcement of said export control authority; and (3) to require reports and the keeping of records by any person, to the extent necessary or appropriate to the enforcement of said export control authority, and to require any person to permit the inspection of books, records, and other writings, premises, or property.

B. The Director of the Bureau of Foreign Commerce is authorized to redelegate any power or function conferred upon him by this delegation and he may authorize such successive redelegations as he may deem appropriate, except as otherwise provided and limited in paragraphs C, D, and E herein with respect to inspections, subpoenas, oaths and affirmations, and other enforcement authority.

C. In addition to the Director, and at all times, the Deputy Director of the Bureau of Foreign Commerce and the Director and Deputy Director of the Office of Export Supply are each authorized to (1) require any person to permit the inspection of books, records, and other writings, premises, or property; and (2) to sign and issue subpoenas requiring any person to appear and testify or appear and produce books, records, and other writings, or both, to any designated place, in connection with any investigation necessary or appropriate to the enforcement of said export control authority.

D. The Compliance Commissioners for Export Control are authorized, in any proceeding for the denial of licensing privileges under the Export Control Act of 1949, (1) to administer oaths and affirmations, and (2) to sign and issue subpoenas requiring any person to appear and testify or to appear and produce books, records, and other writings, or both.

E. Any person employed in the Export Control Investigation Staff of the Bureau of Foreign Commerce and any attorney in the Office of the Assistant General Counsel (International Affairs) assigned to export control enforcement duties, who is specifically designated as a special agent of the Bureau of Foreign Commerce by the Director thereof, is hereby authorized, (1) to make investigations, obtain information, inspect books, records, and other writings, premises, or property of, and take the sworn testimony of, any person; and (2) to administer oaths and affirmations for the purpose of procuring or receiving from any person sworn statements or other sworn testimony, concerning any matter under investigation necessary or appropriate to the enforcement of the export control authority vested in me.

F. This supersedes the delegation of authority previously made and confirmed with respect to export control (17 F. R. 1229), except that all outstanding rules, regulations, orders, licenses, and other forms of administrative action shall, until amended or revoked, remain in full force and effect.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 67 Stat. 62; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

Dated: December 1, 1953.

## FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 10780]

JEAN S. SUGDEN

ORDER DESIGNATING MATTER FOR HEARING

In the matter of Jean S. Sugden, Yuma, Arizona, suspension of Restricted Radiotelephone Operator Permit; Docket No. 10780.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

It appearing, that acting in accordance with the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, Jean S. Sugden, Yuma, Arizona filed with the Commission within the time provided therefor an application requesting hearing on the Commission's order of October 28, 1953, suspending for a period of the remainder of the license term her Restricted Radiotelephone Operator Permit PR-11-71027; and

It further appearing, that under the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, said licensee is entitled to a hearing in the matter; and that upon the filing of a timely written application therefor the Commission's order of suspension is held in abeyance until the conclusion of the proceeding in the said matter.

*It is ordered*, This 25th day of November 1953 that the matter of the suspension of the Restricted Radiotelephone Operator license of Jean S. Sugden is hereby designated for hearing before a Commission examiner in the offices of the Commission in Washington, D. C., at 10:00 a. m. on June 1, 1954, upon the following issues:

(1) To determine whether at any time between September 4 and September 18, 1953, inclusive, Jean S. Sugden wilfully operated a unit of radio station KOG-285 to transmit unauthorized communications in violation of § 11.151 (a) of the Commission's rules and the terms of the station license.

(2) To determine if Jean S. Sugden, between September 4 and September 18, 1953, inclusive, operated a unit of radio station KOG-285 without holding a radio operator license or permit issued by the Commission in violation of section 318 of the Communications Act of 1934, as amended, and § 11.154 (e) of the Commission's rules.

(3) If the licensee committed such violation, to determine whether the facts or circumstances in connection therewith would warrant any change in the terms of the Commission's order of suspension.

*It is further ordered*, That a copy of this order be transmitted by registered mail, return receipt requested to Jean S. Sugden, Yuma, Arizona.

Released: December 1, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[F. R. Doc. 53-10212; Filed, Dec. 7, 1953; 8:45 a. m.]

[Docket No. 10781]

ROBERT V. H. SUGDEN

ORDER DESIGNATING MATTER FOR HEARING

In the matter of Robert V. H. Sugden, Yuma, Arizona, suspension of Restricted Radiotelephone Operator Permit; Docket No. 10781.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

It appearing, that acting in accordance with the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, Robert V. H. Sugden, Yuma, Arizona filed with the Commission within the time provided therefor an application requesting hearing on the Commission's order of October 28, 1953, suspending for a period of the remainder of the license term his Restricted Radiotelephone Operator Permit RP-11-71026; and

It further appearing, that under the provisions of section 303 (m) (2) of the Communications Act of 1934, as amended, said licensee is entitled to a hearing in the matter; and that upon the filing of a timely written application therefor the Commission's order of suspension is held in abeyance until the conclusion of the proceeding in the said matter.

*It is ordered*, This 25th day of November 1953 that the matter of the suspension of the Restricted Radiotelephone Operator license of Robert V. H. Sugden is hereby designated for hearing before a Commission examiner in the offices of the Commission in Washington, D. C., at 10:00 a. m. on June 1, 1954, upon the following issues:

(1) To determine if at various times from September 4 to September 18, 1953, inclusive, Robert V. H. Sugden wilfully permitted base station KOG-285 to be operated by an unlicensed person in violation of section 318 of the Communications Act of 1934, as amended, and § 11.154 (e) of the Commission's rules; and

(2) To determine if at various times from September 4 to September 18, 1953, inclusive, Robert V. H. Sugden wilfully operated a unit of radio station KOG-285 and wilfully permitted other persons to operate units of said station to transmit unauthorized communications in violation of § 11.151 (a) of the Commission's rules and the terms of the station license;

(3) If the licensee committed such violation, to determine whether the facts or circumstances in connection therewith would warrant any change in the terms of the Commission's order of suspension.

*It is further ordered*, That a copy of this order be transmitted by registered mail, return receipt requested, to Robert V. H. Sugden, Yuma, Arizona.

Released: December 1, 1953.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
*Acting Secretary.*

[Docket No. 10784]

TACOMA BROADCASTERS, INC.

ORDER TO SHOW CAUSE

In the matter of revocation of license of Tacoma Broadcasters, Inc., licensee of Station KTAC, Tacoma, Washington; Docket No. 10784.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission having under consideration information that Tacoma Broadcasters, Inc., licensee of Station KTAC at Tacoma, Washington, has not complied with the requirements of § 1.343 (a) of the Commission's rules and regulations, which section requires each broadcast licensee to file, on or before April 1 of each year, an Annual Ownership Report, (FCC Form 323), as of December 31 of the preceding calendar year; and

It appearing, that necessary forms (FCC Form 323), for filing an Annual Ownership Report, for the calendar year ending December 31, 1952, were forwarded to Tacoma Broadcasters, Inc., during January 1953; and

It further appearing, that a letter signed by the Secretary of the Commission, was mailed to Tacoma Broadcasters, Inc., on June 1, 1953, informing such company of its non-compliance with § 1.343 (a) of the Commission's rules and regulations and directing it to

file such Annual Ownership Report on or before June 19, 1953, necessary forms being enclosed therewith; and

It further appearing, that on August 26, 1953, the Commission directed that a letter be sent to Tacoma Broadcasters, Inc., by registered mail, return receipt requested, directing said company to file such Annual Ownershop Report within thirty days, necessary forms being enclosed therewith; and

It further appearing, that such a letter was mailed on August 31, 1953, by registered mail and was received by Tacoma Broadcasters, Inc., on September 4, 1953; and

It further appearing, that an Annual Ownership Report (FCC Form 323) as of December 31, 1952, has not been received in the offices of the Commission from Tacoma Broadcasters, Inc., despite the aforesaid specific directive from the Commission to do so; and

It further appearing, that the noncompliance with § 1.343 (a) of the Commission's rules and regulations on the part of Tacoma Broadcasters, Inc., Tacoma, Washington, has been willful;

*It is ordered*, That pursuant to section 312 (a) (4) of the Communications Act of 1934, as amended, Tacoma Broadcasters, Inc., licensee of Station KTAC, be and is hereby directed to show cause why there should not be issued an order revoking its radio station license; and

*It is further ordered*, That a hearing in this matter will be held in the Commission's office, Twelfth and Pennsylvania Avenue NW., Washington 25, D. C., on the 18th day of January 1954, in order to determine whether said Order of Revocation should be issued, and that Tacoma Broadcasters, Inc., is herewith called upon to appear at this hearing and give evidence upon the matter specified herein; and

*It is further ordered*, That pursuant to § 1.402 of the Commission's rules and regulations, that said Tacoma Broadcasters, Inc., is directed to file with the Commission within thirty days of the receipt of this order a written appearance in triplicate, stating that it will appear and present evidence on the matters specified in this order if it desires to avail itself of the opportunity to appear before the Commission. If said Tacoma Broadcasters, Inc., does not desire to appear before the Commission to give evidence on the matters specified herein, it shall, within thirty days of the receipt of this order, file with the Commission, in triplicate a written waver of hearing. Such waiver may be accompanied by a statement of reasons why Tacoma Broadcasters, Inc., believes that an Order of Revocation should not be issued; and

*It is further ordered*, That failure of said Tacoma Broadcasters, Inc., timely to respond to this order or failure to appear at the hearing designated herein will be deemed a waiver of hearing.

Released: December 1, 1953.

[Docket No. 10785]

## LA PORTE COUNTY BROADCASTING CO., INC.

### ORDER TO SHOW CAUSE

In the matter of revocation of license of La Porte County Broadcasting Company, Inc., licensee of Station WLOI, La Porte, Indiana; Docket No. 10785.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 25th day of November 1953;

The Commission having under consideration information that La Porte County Broadcasting Company, Inc., licensee of Station WLOI at La Porte, Indiana, has not complied with the requirements of § 1.343 (a) of the Commission's rules and regulations, which section requires each broadcast licensee to file, on or before April 1 of each year, an Annual Ownership Report, (FCC Form 323), as of December 31 of the preceding calendar year; and

It appearing, that necessary forms (FCC Form 323), for filing an Annual Ownership Report, for the calendar year ending December 31, 1952, were forwarded to La Porte County Broadcasting Company, Inc., during January 1953; and

It further appearing, that a letter signed by the Secretary of the Commission was mailed to La Porte County Broadcasting Company, Inc., on June 1, 1953, informing such company of its noncompliance with § 1.343 (a) of the Commission's rules and regulations and directing it to file such Annual Ownership Report on or before June 19, 1953, necessary forms being enclosed therewith; and

It further appearing, that on August 26, 1953, the Commission directed that a letter be sent to La Porte County Broadcasting Company, Inc., by registered mail, return receipt requested, directing said company to file such Annual Ownership Report within thirty days, necessary forms being enclosed therewith; and

It further appearing, that such a letter was mailed an August 31, 1953, by registered mail and was received by La Porte County Broadcasting Company, Inc., on September 13, 1953; and

It further appearing, that an Annual Ownership Report (FCC Form 323) as of December 31, 1952, has not been received in the offices of the Commission from La Porte County Broadcasting Company, Inc., despite the aforesaid specific directive from the Commission to do so; and

It further appearing, that the noncompliance with § 1.343 (a) of the Commission's rules and regulations on the part of La Porte County Broadcasting Company, Inc., La Porte, Indiana, has been willful;

*It is ordered*, That pursuant to section 312 (a) (4) of the Communications Act of 1934, as amended, La Porte County Broadcasting Company, Inc., licensee of Station WLOI, be and is hereby directed to show cause why there should not be issued an order revoking its radio station license; and

*It is further ordered*, That a hearing in this matter will be held in the Commission's office, Twelfth and Pennsylvania Avenue NW., Washington 25, D. C., on the 18th day of January 1954, in order to determine whether said Order of Revocation should be issued, and that La Porte County Broadcasting Company, Inc., is herewith called upon to appear at this hearing and give evidence upon the matter specified herein; and

*It is further ordered*, That pursuant to § 1.402 of the Commission's rules and regulations, that said La Porte County Broadcasting Company, Inc., is directed to file with the Commission within thirty days of the receipt of this order a written appearance in triplicate, stating that it will appear and present evidence on the matters specified in this order if it desires to avail itself of the opportunity to appear before the Commission. If said La Porte County Broadcasting Company, Inc., does not desire to appear before the Commission to give evidence on the matters specified herein, it shall, within thirty days of the receipt of this order, file with the Commission, in triplicate a written waiver of hearing. Such waiver may be accompanied by a statement of reasons why La Porte County Broadcasting Company, Inc., believes than an Order of Revocation should not be issued; and

*It is further ordered*, That failure of said La Porte County Broadcasting Company, Inc., timely to respond to this order or failure to appear at the hearing designated herein will be deemed a waiver of hearing.

Released: December 1, 1953

## SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3147]

MONONGAHELA POWER CO.

### SUPPLEMENTAL ORDER RELEASING JURISDICTION HERETOFORE RESERVED WITH RESPECT TO RESULTS OF COMPETITIVE BIDDING AND FEES AND EXPENSES

DECEMBER 2, 1953.

Monongahela Power Company ("Monongahela"), a public-utility subsidiary of The West Penn Electric Company, a registered holding company, having filed herein a declaration and an amendment thereto, with this Commission pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("Act") and Rule U-50 promulgated thereunder, regarding the issue and sale at competitive bidding of $10,000,000 principal amount of First Mortgage Bonds, __ percent Series due 1983 ("New Bonds"); and

The Commission having by order dated November 18, 1953 permitted said declaration as amended to become effective subject to a reservation of jurisdiction with respect to the results of competitive bidding under Rule U-50 and with respect to the payment of all fees and expenses incurred or to be incurred in connection with the proposed transactions; and

A further amendment to said declaration having been filed on December 2, 1953, setting forth the action taken to comply with the requirements of Rule U-50, and stating that, pursuant to the invitation for competitive bids with respect to the New Bonds, the following bids were received:

| Bidder | Annual interest rate (percent) | Price to Company (percent of principal) | Annual cost to Company (percent) |
|---|---|---|---|
| Union Securities Corp. and Salomon Bros. & Hutzler | 3¾ | 101.727 | 3.531194 |
| Halsey, Stuart & Co., Inc. | 3¾ | 101.235 | 3.567899 |
| Harriman Ripley & Co., Inc. | 3¾ | 101.109 | 3.564513 |
| Equitable Securities Corp. | 3¾ | 101.099 | 3.564206 |
| W. C. Langley & Co. and The First Boston Corp. | 3¾ | 100.6799 | 3.587811 |
| Merrill Lynch, Pierce, Fenner & Beane | 3¾ | 100.637 | 3.590115 |
| Kidder, Peabody & Co., and White, Weld & Co. | 3¾ | 100.3199 | 3.607461 |

Said amendment setting forth that Monongahela has accepted the proposal of the underwriting group headed by Union Securities Corporation and Salomon Bros. & Hutzler as shown above, and further stating that said bonds will be reoffered to the public at a price of 102.31 percent of the principal amount thereof resulting in an underwriting spread of 0.583 percent and an aggregate spread of $58,300; and

The record also having been completed with respect to the fees and expenses to be incurred in connection with the proposed transactions, which fees and expenses to be paid by the company are estimated in the aggregate amount of $42,419.48, including a fee of $7,500 to Sullivan and Cromwell, counsel for Monongahela, plus expenses of $200, and a fee of $3,650 to Price Waterhouse & Co., for accounting services plus expenses of $569.48, and a fee of $5,000 to Cahill, Gordon, Zachry & Reindel, counsel to the purchasers; which fee is to be paid by the purchasers; and

The Commission observing no basis for adverse findings with respect to the results of competitive bidding or the fees and expenses to be paid in connection with the proposed transactions, and deeming it appropriate that said declaration, as amended, should be permitted to become effective and that jurisdiction heretofore reserved should be released;

*It is ordered*, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions contained in Rule U-24 that said declaration, as amended be, and the same hereby is, permitted to become effective forthwith; and

*It is further ordered*, That jurisdiction heretofore reserved with respect to the results of competitive bidding and the payment of fees and expenses be, and the same hereby is, released.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
*Secretary.*

[File No. 812-856]

NORTH AMERICAN SECURITIES CO.

### NOTICE OF FILING OF APPLICATION REGARDING PAYMENT OF BONUS TO EMPLOYEES

DECEMBER 2, 1953.

North American Securities Company ("Applicant"), San Francisco, California, has filed an application pursuant to section 17 (d) of the Investment Company Act of 1940 and Rule N-17D-1 of the rules and regulations thereunder regarding the proposed payment in December 1953 of a bonus to each of the company's employees equal to one-half of one month's salary in the case of each person who has been employed for the entire year and, in the case of persons employed for a lesser period, a portion of one-half of one month's salary based on the proportionate number of months of the year during which such persons were employed. The Applicant estimates that the proposed bonus payments will aggregate $9,400.

Applicant is a wholly owned subsidiary and investment adviser of North American Investment Corporation, a registered management, closed-end, diversified investment company, and it is the underwriter and investment adviser of Commonwealth Investment Company and of Commonwealth Stock Fund, Inc., each of which is a registered management, open-end, diversified investment company. Applicant has about 51 employees who are eligible to receive the proposed bonus, including seven individuals who are affiliated persons (as officers or directors) of North American Investment Corporation, Commonwealth Investment Company or Commonwealth Stock Fund, Inc., or of all three companies. The applicant's parent company, North American Investment Corporation, does not have any paid employees.

Rule N-17D-1 provides, among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of a registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with, any bonus plan in which any such registered or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

Notice is further given that any interested person may, not later than December 14, 1953, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided

in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

[File No. 812-857]

NIAGARA SHARE CORP.

NOTICE OF FILING OF APPLICATION REGARDING PAYMENT OF BONUS TO EMPLOYEES

DECEMBER 2, 1953.

Niagara Share Corporation ("Niagara Share"), Buffalo, New York, a registered management, closed-end, diversified investment company, has filed an application pursuant to section 17 (d) of the act and Rule N-17D-1 of the rules and regulations thereunder regarding the proposed payment, in the discretion of the company's board of directors, of a bonus for 1953 to each of its employees, including officers, in an amount not to exceed 10 percent of their respective salaries and an additional cost-of-living bonus for 1953 not to exceed $150, to each of its employees except certain officers. The application states that the company has 16 employees and that it is expected that each of them will receive the bonus based on salary and that 12 of them will receive the cost-of-living bonus. Niagara Share estimates that the salary and cost-of-living bonuses for 1953 will total $11,139 and $1,800, respectively.

Rule N-17D-1 of the rules and regulations under the act provides among other things, that it shall be unlawful, with certain exceptions not applicable here, for any affiliated person of any registered investment company or of any company controlled by any such registered company to participate in, or effect any transaction in connection with any bonus plan in which such registered or controlled company is a participant unless an application regarding such plan has been granted by the Commission.

Notice is further given that any interested person may, not later than December 15, 1953, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 28722]

AUTOMOBILES FROM JANESVILLE, WIS., TO IOWA, MICHIGAN, MINNESOTA, AND WISCONSIN

APPLICATION FOR RELIEF

DECEMBER 3, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Automobiles, set up, freight or passenger, carloads.

From: Janesville, Wis.

To: Points in Iowa, Michigan, Minnesota and Wisconsin.

Grounds for relief: Competition with rail carriers, circuitous routes, and competition with motor carriers.

Schedules filed containing proposed rates; W. J. Prueter, Agent, I. C. C. No. A-3939, supp. 6.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 28723]

CRANBERRIES FROM WISCONSIN TO MEMPHIS AND NASHVILLE, TENN.

APPLICATION FOR RELIEF

DECEMBER 3, 1953.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to his tariff I. C. C. No. A-3883, pursuant to fourth-section order No. 17220.

Commodities involved: Cranberries, fresh, carloads.

From: Points in Wisconsin.

To: Memphis and Nashville, Tenn.

Grounds for relief: Competition with rail carriers and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[Sec. 5a Application 50]

OIL CAPITOL TARIFF BUREAU INC.

APPLICATION FOR APPROVAL OF AGREEMENT

DECEMBER 3, 1953.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed November 9, 1953 by: Clyde Grever, Attorney-in-fact, 5315 West Eighth Street, Tulsa, Okla.

Agreement involved: An agreement between and among common carriers by motor vehicle relating to rates, rules, and regulations for the transportation, in interstate or foreign commerce, of oil-industry commodities, heavy machinery, and such commodities which, because of size or weight, require the use of special equipment, boats and other commodities, between points in the States of Arkansas, Colorado, Illinois, Kansas, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, and Texas; and procedures for the joint initiation, consideration, and establishment thereof.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, Division 2

## TITLE 46—SHIPPING

### Chapter I—Coast Guard, Department of the Treasury

Subchapter O—Regulations Applicable to Certain Vessels During Emergency

[CGFR 53-51]

PART 154—WAIVERS OF NAVIGATION AND VESSEL INSPECTION LAWS AND REGULATIONS[1]

NATIONALITY OF CREWS OF NON-SUBSIDIZED MERCHANT VESSELS

The purpose of this order is to cancel the general waiver designated § 154.11, as well as 33 CFR 19.11, effective January 1, 1954, regarding the nationality of crews of non-subsidized merchant vessels.

It has been determined upon investigation that there is sufficient experienced personnel in the merchant marine industry to meet the requirements of certain navigation and vessel inspection laws relating to manning of merchant vessels and to meet the citizenship requirements for crews of non-subsidized merchant vessels and that the continuation of this waiver is no longer necessary. It is hereby found that compliance with the notice of proposed rule making, public rule making procedure thereon, and effective date requirements of the Administrative Procedure Act is contrary to the public interest.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by an order of the Acting Secretary of the Treasury dated January 23, 1951, identified as CGFR 51-51, and published in the FEDERAL REGISTER dated January 26, 1951 (16 F. R. 731), the following waiver order is canceled effective January 1, 1954:

Section 154.11 *Nationality of crews of nonsubsidized merchant vessels* is revoked: *Provided*, That any vessel where the crew is engaged on or before December 31, 1953, under the terms of this waiver such vessel may continue with such deficiencies in its crew for the remainder of the period for which the entire crew is signed on and no penalty of law shall be imposed because of failure to comply with the provisions of 46 U. S. C. 672a which were relaxed by this waiver.

(61 Stat. 33, 685; 46 U. S. C. Sup., note prec. 1)

Dated: December 1, 1953.

[SEAL] A. C. RICHMOND, *Rear Admiral, U. S. Coast Guard, Acting Commandant.*

# TITLE 7—AGRICULTURE

## Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

### Subchapter C—Regulations and Standards Under the Farm Products Inspection Act

### PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

#### RECODIFICATION

By virtue of the authority (18 F. R. 4839) vested in me by the Secretary of Agriculture and in accordance with the revised Federal Register regulations, the format of the regulations (7 CFR Part 52) governing the grading and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products, and the United States Standards with respect thereto, which are operative pursuant to the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1954 (Pub. Law 156, 83rd Cong., approved July 28, 1953), is recodified as hereinafter set forth.

The recasting of the format due to such recodification is not intended, nor shall it be deemed to make any substantive change in said regulations. The services and programs provided by the regulations are currently in effect except the United States Standards for concentrated orange juice for manufacturing and canned concentrated orange juice which become effective on December 12 1953, and for frozen concentrate for lemonade on December 19, 1953. Therefore, with these exceptions, the regulations as presented in recodified form shall become effective upon publication in the FEDERAL REGISTER so as to avoid any interruption in the continuity of such services and programs.

The recodification is set forth below.

Issued at Washington, D. C., this 7th day of December, 1953.

[SEAL] GEORGE A. DICE,
*Deputy Assistant Administrator, Production and Marketing Administration.*

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS[1]

SUBPART—REGULATIONS GOVERNING INSPECTION AND CERTIFICATION

Sec.
52.1 Administration of regulations.

DEFINITIONS

52.2 Meaning of words.
52.3 Terms defined.

INSPECTION SERVICE

52.4 Where inspection service is offered.
52.5 Who may obtain inspection service.
52.6 How to make application.
52.7 Information required in connection with application.
52.8 Filing of application.
52.9 Record of filing time.
52.10 When application may be rejected.
52.11 When application may be withdrawn.
52.12 Disposition of inspected sample.
52.13 Basis of inspection.
52.14 Order of inspection service.
52.15 Postponing inspection service.
52.16 Financial interest of inspector.
52.17 Forms of certificates.
52.18 Issuance of certificates.
52.19 Issuance of corrected certificates.
52.20 Issuance of an inspection report in lieu of an inspection certificate.
52.21 Disposition of inspection certificates.
52.22 Report of inspection results prior to issuance of formal report.

APPEAL INSPECTION

52.23 When appeal inspection may be requested.
52.24 Where to file for an appeal inspection and information required.
52.25 When an application for an appeal inspection may be withdrawn.
52.26 When appeal inspection may be refused.
52.27 Who shall perform appeal inspection.
52.28 Appeal inspection certificate.

LICENSING OF SAMPLERS AND INSPECTORS

52.29 Who may become licensed sampler.
52.30 Application to become a licensed sampler.
52.31 Inspectors.
52.32 Suspension or revocation of license of licensed sampler or licensed inspector.
52.33 Surrender of license.

SAMPLING

52.34 How samples are drawn by inspectors or licensed samplers.
52.35 Accessibility for sampling.
52.36 How officially drawn samples are to be identified.
52.37 How samples are to be shipped.
52.38 Sampling rates for officially drawn samples.
52.39 Issuance of certificate of sampling.
52.40 Identification of lots sampled.

FEES AND CHARGES

52.41 Payment of fees and charges.
52.42 Schedule of fees.
52.43 Fees to be charged and collected for sampling when performed by a licensed sampler.
52.44 Inspection fees when charges for sampling have been collected by a licensed sampler.
52.45 Inspection fees when charges for sampling have not been collected by a licensed sampler.
52.46 Fee for appeal inspection.
52.47 Charges for micro, chemical and certain other special analyses.
52.48 When charges are to be based on hourly rate not otherwise provided for in this part.
52.49 Fees for score sheets.
52.50 Fees for additional copies of inspection certificates.
52.51 Travel and other expenses.
52.52 Charges for inspection service on a contract basis.

MISCELLANEOUS

52.53 Fraud or misrepresentation.
52.54 Political activity.
52.55 Interfering with an inspector or licensed sampler.
52.56 Compliance with other laws.
52.57 Identification.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS

52.81 Plant survey.
52.82 Premises.
52.83 Buildings and structures.
52.84 Facilities.
52.85 Equipment.
52.86 Operations and operating procedures.
52.87 Personnel; health.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED APPLE JUICE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.301 Product description.
52.302 Styles of canned apple juice.
52.303 Grades of canned apple juice.

FILL OF CONTAINER

52.304 Recommended fill of container.

FACTORS OF QUALITY

52.305 Ascertaining the grade.
52.306 Ascertaining the rating for each factor.
52.307 Color.
52.308 Absence of defects.
52.309 Flavor.

EXPLANATIONS AND ANALYSES

52.310 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.311 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.312 Score sheet for canned apple juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED APPLESAUCE

PRODUCT DESCRIPTION AND GRADES

52.331 Product description.
52.332 Grades of canned applesauce.

FILL OF CONTAINER

52.333 Recommended fill of container.

FACTORS OF QUALITY

52.334 Ascertaining the grade.
52.335 Ascertaining the rating for the factors which are scored.
52.336 Color.
52.337 Consistency.
52.338 Finish.
52.339 Absence of defects.
52.340 Flavor.

EXPLANATIONS

52.341 Definition of term used in these standards.

LOT CERTIFICATION TOLERANCES

52.342 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.343 Score sheet for canned applesauce.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN APPLES

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.361 Product description.
52.362 Styles of frozen apples.
52.363 Grades of frozen apples.

FACTORS OF QUALITY

52.364 Ascertaining the grade.
52.365 Ascertaining the rating for the factors which are scored.
52.366 Color.
52.367 Uniformity of size.
52.368 Absence of defects.
52.369 Character.

LOT CERTIFICATION TOLERANCES

52.370 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.371 Score sheet for frozen apples.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN ASPARAGUS

PRODUCT DESCRIPTION, STYLES, TYPES, AND GRADES

52.381 Product description.
52.382 Styles of frozen asparagus.
52.383 Grades of frozen asparagus.
52.384 Types of frozen asparagus.

SIZES

52.385 Size of frozen asparagus.

FACTORS OF QUALITY

52.386 Ascertaining the grade.
52.387 Ascertaining the rating of the factors which are scored.
52.388 Color.
52.389 Uniformity of length.
52.390 Absence of defects.
52.391 Character.

LOT CERTIFICATION TOLERANCES

52.392 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.393 Score sheet for frozen asparagus.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED DRIED BEANS

PRODUCT DESCRIPTION, TYPES, STYLES AND GRADES

52.411 Product description.
52.412 Types of canned dried beans.
52.413 Styles of packs of canned dried beans.
52.414 Grades of canned dried beans.

FILL OF CONTAINER

52.415 Recommended fill of container.

FACTORS OF QUALITY

52.416 Ascertaining the grade.
52.417 Ascertaining the rating of each factor.
52.418 Consistency.
52.419 Absence of defects.
52.420 Character.

EXPLANATIONS

52.421 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.422 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.423 Score sheet for canned dried beans.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GREEN BEANS AND CANNED WAX BEANS

IDENTITY, STYLES, AND GRADES

52.441 Identity.
52.442 Styles of canned beans.
52.443 Grades of canned beans.

[1] Among such other processed food products are the following: Honey; molasses, except for stock feed; nuts and nut products, except oil; sugar (cane, beet, and maple); sirups (blended), sirups, except from grain; marine food products, except oil.

FILL OF CONTAINER AND DRAINED WEIGHTS

Sec.
52.444 Recommended fill of container.
52.445 Recommended drained weight.

TYPES AND SIZES

52.446 Types of canned beans.
52.447 Sizes of green beans or wax beans in canned beans.

FACTORS OF QUALITY

52.448 Ascertaining the grade.
52.449 Ascertaining the rating for the factors which are scored.
52.450 Clearness of liquor.
52.451 Color.
52.452 Absence of defects.
52.453 Maturity.

LOT CERTIFICATION TOLERANCES

52.454 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.455 Score sheet for canned green beans or canned wax beans.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED LIMA BEANS

IDENTITY, TYPES, AND GRADES

52.471 Identity.
52.472 Types of canned lima beans.
52.473 Grades of canned lima beans.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.474 Recommended fill of container.
52.475 Recommended minimum drained weight.

SIZES

52.476 Sizes of lima beans in canned lima beans.

FACTORS OF QUALITY

52.477 Ascertaining the grade.
52.478 Ascertaining the rating of the factors which are scored.
52.479 Color.
52.480 Clearness of liquor.
52.481 Absence of defects.
52.482 Character.

LOT CERTIFICATION TOLERANCES

52.483 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.484 Score sheet for canned lima beans.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN LIMA BEANS

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.501 Product description.
52.502 Types of frozen lima beans.
52.503 Grades of frozen lima beans.

FACTORS OF QUALITY

52.504 Ascertaining the grade.
52.505 Ascertaining the rating for the factors which are scored.
52.506 Color.
52.507 Absence of defects.

LOT CERTIFICATION TOLERANCES

52.508 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.509 Score sheet for frozen lima beans.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BEETS

IDENTITY, STYLES, AND GRADES

52.521 Identity.
52.522 Styles of canned beets.
52.523 Grades of canned beets.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.524 Recommended fill of container.
52.525 Recommended drained weight.

SIZES

Sec.
52.526 Sizes of beets in whole beets.
52.527 Sizes of beet slices in sliced beets.

FACTORS OF QUALITY

52.528 Ascertaining the grade.
52.529 Ascertaining the rating for the factors which are scored.
52.530 Color.
52.531 Uniformity of size and shape.
52.532 Absence of defects.
52.533 Texture.

LOT CERTIFICATION TOLERANCES

52.534 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.535 Score sheet for canned beets.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BLACKBERRIES AND OTHER SIMILAR BERRIES SUCH AS BOYSENBERRIES, DEWBERRIES, AND LOGANBERRIES

PRODUCT DESCRIPTION AND GRADES

52.551 Product description.
52.552 Grades of canned berries.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS

52.553 Recommended liquid media and Brix measurements for canned berries.
52.554 Recommended fill of container.
52.555 Recommended minimum drained weight.
52.556 Compliance with recommended drained weights

FACTORS OF QUALITY

52.557 Ascertaining the grade.
52.558 Ascertaining the rating for the factors which are scored.
52.559 Color.
52.560 Uniformity of size.
52.561 Absence of defect.
52.562 Character of fruit.

LOT CERTIFICATION TOLERANCES

52.563 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.564 Score sheet for canned berries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BLUEBERRIES

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.581 Product description.
52.582 Types of canned blueberries.
52.583 Grades of canned blueberries.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.584 Recommended designations of liquid media and Brix measurements.
52.585 Recommended fill of container.
52.586 Recommended minimum drained weight.

FACTORS OF QUALITY

52.587 Ascertaining the grade.
52.588 Ascertaining the rating for the factors which are scored.
52.589 Color.
52.590 Absence of defects.
52.591 Character.

LOT CERTIFICATION TOLERANCES

52.592 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.593 Score sheet for canned blueberries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN BLUEBERRIES

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.611 Product description.
52.612 Types of frozen blueberries.
52.613 Grades of frozen blueberries.

FACTORS OF QUALITY

Sec.
52.614 Ascertaining the grade.
52.615 Ascertaining the rating for the factors which are scored.
52.616 Color.
52.617 Absence of defects.
52.618 Character.

LOT CERTIFICATION TOLERANCES

52.619 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.620 Score sheet for frozen blueberries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN BROCCOLI

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.631 Product description.
52.632 Styles of frozen broccoli.
52.633 Grades of frozen broccoli.

FACTORS OF QUALITY

52.634 Ascertaining the grade.
52.635 Ascertaining the rating for the factors which are scored.
52.636 Color.
52.637 Uniformity of size.
52.638 Absence of defects.
52.639 Character.

LOT CERTIFICATION TOLERANCES

52.640 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.641 Score sheet for frozen broccoli.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN BRUSSELS SPROUTS

PRODUCT DESCRIPTION AND GRADES

52.651 Product description.
52.652 Grades of frozen Brussels sprouts.

FACTORS OF QUALITY

52.653 Ascertaining the grade.
52.654 Ascertaining the rating for the factors which are scored.
52.655 Color.
52.656 Absence of defects.
52.657 Character.

LOT CERTIFICATION TOLERANCES

52.658 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.659 Score sheet for frozen Brussels sprouts.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED CARROTS

IDENTITY, STYLES, AND GRADES

52.671 Identity.
52.672 Styles of canned carrots.
52.673 Grades of canned carrots.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.674 Recommended fill of container.
52.675 Recommended minimum drained weight.

SIZES

52.676 Sizes of carrots in whole carrots.
52.677 Sizes of carrot slices in sliced carrots.
52.678 Sizes of carrot quarters in quartered carrots.

FACTORS OF QUALITY

52.679 Ascertaining the grade.
52.680 Ascertaining the rating for the factors which are scored.
52.681 Color.
52.682 Uniformity of size and shape.
52.683 Absence of defects.
52.684 Texture.

LOT CERTIFICATION TOLERANCES

52.685 Tolerance for certification of officially drawn samples.

SCORE SHEET

Sec.
52.686 Score sheet for canned carrots.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN DICED CARROTS

PRODUCT DESCRIPTION, STYLE, AND GRADES

52.701 Product description.
52.702 Style of frozen diced carrots.
52.703 Grades of frozen diced carrots.

FACTORS OF QUALITY

52.704 Ascertaining the grade.
52.705 Ascertaining the rating for the factors which are scored.
52.706 Color.
52.707 Uniformity of size and shape.
52.708 Absence of defects.
52.709 Texture.

LOT CERTIFICATION TOLERANCES

52.710 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.711 Score sheet for frozen diced carrots.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CAULIFLOWER

PRODUCT DESCRIPTION AND GRADES

52.721 Product description.
52.722 Grades of frozen cauliflower.

FACTORS OF QUALITY

52.723 Ascertaining the grade.
52.724 Ascertaining the rating for the factors which are scored.
52.725 Color.
52.726 Absence of defects.
52.727 Character.

LOT CERTIFICATION TOLERANCES

52.728 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.729 Score sheet for frozen cauliflower.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF SULFURED CHERRIES

PRODUCT DESCRIPTION, STYLES, SIZES, AND GRADES

52.741 Product description.
52.742 Styles of sulfured cherries.
52.743 Recommended sizes of sulfured cherries.
52.744 Grades of sulfured cherries.
52.745 Definition.

FACTORS OF QUALITY

52.746 Ascertaining the grade with respect to "U. S. Grade A" or "U. S. Fancy" and "U. S. Grade B" or "U. S. Choice."
52.747 Ascertaining the rating for each factor which is scored.
52.748 Color.
52.749 Absence of defects.
52.750 Character.
52.751 Ascertaining the grade with respect to U. S. Combination Grade.

LOT CERTIFICATION TOLERANCES

52.752 Tolerance for certification of officially drawn samples for U. S. Combination Grade of sulfured cherries.
52.753 Tolerance for certification of officially drawn samples for "U. S. Grade A" or "U. S. Fancy" and "U. S. Grade B" or "U. S. Choice."

SCORE SHEET AND WORK SHEET

52.754 Score sheet for sulfured cherries.
52.755 Work sheet for sulfured cherries for grading on the basis of the U. S. Combination Grade.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED RED SOUR (TART) PITTED CHERRIES

IDENTITY AND GRADES

Sec.
52.771 Identity.
52.772 Grades of canned red sour (tart) pitted cherries.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.773 Designations of liquid media and Brix measurements.
52.774 Recommended fill of container.
52.775 Recommended drained weight.

FACTORS OF QUALITY

52.776 Ascertaining the grade.
52.777 Ascertaining the rating for each factor.
52.778 Color.
52.779 Absence of defects.
52.780 Character.

LOT CERTIFICATION TOLERANCES

52.781 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.782 Score sheet for canned red sour (tart) pitted cherries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN RED SOUR (TART) PITTED CHERRIES

PRODUCT DESCRIPTION AND GRADES

52.801 Product description.
52.802 Grades of frozen red sour (tart) pitted cherries.

FACTORS OF QUALITY

52.803 Ascertaining the grade.
52.804 Ascertaining the rating for each factor.
52.805 Color.
52.806 Absence of defects.
52.807 Character.

LOT CERTIFICATION TOLERANCES

52.808 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.809 Score sheet for frozen red sour (tart) pitted cherries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED SWEET CHERRIES

IDENTITY, TYPES, STYLES, AND GRADES

52.821 Identity.
52.822 Types of canned sweet cherries.
52.823 Styles of canned sweet cherries.
52.824 Grades of canned sweet cherries.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHT

52.825 Liquid media and Brix measurements for canned sweet cherries.
52.826 Fill of container for canned sweet cherries.
52.827 Recommended minimum drained weight.
52.828 Compliance with recommended drained weights.

FACTORS OF QUALITY

52.829 Ascertaining the grade.
52.830 Ascertaining the rating for the factors which are scored.
52.831 Color.
52.832 Uniformity of size.
52.833 Absence of defects.
52.834 Character.

LOT CERTIFICATION TOLERANCES

52.835 Tolerances for certification of officially drawn samples.

SCORE SHEET

Sec.
52.836 Score sheet for canned sweet cherries.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED CREAM STYLE CORN

IDENTITY, COLORS, AND GRADES

52.851 Identity.
52.852 Colors of canned cream style corn.
52.853 Grades of canned cream style corn.

FILL OF CONTAINER

52.854 Fill of container for canned cream style corn.

FACTORS OF QUALITY

52.855 Ascertaining the grade.
52.856 Ascertaining the rating for the factors which are scored.
52.857 Color.
52.858 Consistency.
52.859 Absence of defects.
52.860 Tenderness and maturity.
52.861 Flavor.

LOT CERTIFICATION TOLERANCES

52.862 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.863 Score sheet for canned cream style corn.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED WHOLE KERNEL (OR WHOLE GRAIN) CORN

IDENTITY, COLOR, AND GRADES

52.881 Identity.
52.882 Color of canned whole kernel (or whole grain) corn.
52.883 Grades of canned whole kernel (or whole grain) corn.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.884 Recommended fill of container.
52.885 Recommended minimum drained weight.

FACTORS OF QUALITY

52.886 Ascertaining the grade.
52.887 Ascertaining the rating for the factors which are scored.
52.888 Color.
52.889 Cut.
52.890 Absence of defects.
52.891 Tenderness and maturity.
52.892 Flavor.

LOT CERTIFICATION TOLERANCES

52.893 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.894 Score sheet for canned whole kernel (or whole grain) corn and canned whole kernel (or whole grain) and vacuum pack corn.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN WHOLE KERNEL (OR WHOLE GRAIN) CORN

PRODUCT DESCRIPTION, COLOR, AND GRADES

52.911 Product description.
52.912 Color of frozen whole kernel (or whole grain) corn.
52.913 Grades of frozen whole kernel (or whole grain) corn.

FACTORS OF QUALITY

52.914 Ascertaining the grade.
52.915 Ascertaining the rating of the factors which are scored.
52.916 Color.
52.917 Absence of defects.
52.918 Tenderness and maturity.

LOT CERTIFICATION TOLERANCES

52.919 Tolerances for certification of officially drawn samples.

SCORE SHEET

Sec.
52.920 Score sheet for frozen whole kernel (or whole grain) corn.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CORN-ON-THE-COB

PRODUCT DESCRIPTION, COLOR AND GRADES

52.931 Product description.
52.932 Colors of frozen corn-on-the-cob.
52.933 Grades of frozen corn-on-the-cob.

FACTORS OF QUALITY

52.934 Ascertaining the grade.
52.935 Ascertaining the rating of the factors which are scored.
52.936 Color.
52.937 Absence of defects.
52.938 Tenderness and maturity.

LOT CERTIFICATION TOLERANCES

52.939 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.940 Score sheet for frozen corn-on-the-cob.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED CRANBERRY SAUCE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.951 Product description.
52.952 Styles of canned cranberry sauce.
52.953 Grades of canned cranberry sauce.

FILL OF CONTAINER

52.954 Recommended fill of container

FACTORS OF QUALITY

52.955 Ascertaining the grade.
52.956 Ascertaining the rating for the factors which are scored.
52.957 Color.
52.958 Consistency and texture.
52.959 Absence of defects.
52.960 Flavor and odor.

EXPLANATION

52.961 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.962 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.963 Score sheet for canned cranberry sauce.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF DRIED CURRANTS

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.981 Product description.
52.982 Types (varieties) of dried currants.
52.983 Grades of dried currants.

DEFINITIONS AND EXPLANATIONS

52.984 Explanation of terms.

WORK SHEET

52.985 Work sheet for dried currants.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF DATES

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1001 Product description.
52.1002 Styles of dates.
52.1003 Grades for dates.

DEFINITIONS AND EXPLANATIONS

52.1004 Definitions of varying degrees of uniformity of color.
52.1005 Definitions of varying degrees of uniformity of size.
52.1006 Definitions of varying degrees of character.
52.1007 Definition of defects.

FACTORS OF QUALITY

52.1008 Specifications of allowances and limitations for defects with respect to whole dates and whole pitted dates.

WORK SHEET

52.1009 Work sheet for dates.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF DRIED FIGS

PRODUCT DESCRIPTION, TYPES, STYLES, SIZES, AND GRADES

52.1021 Product description.
52.1022 Types (colors) of dried figs.
52.1023 Styles and types of packs of dried figs.
52.1024 Sizes of Style I (a), whole, loose, dried figs.
52.1025 Grades of dried figs (not for manufacturing.)
52.1026 Moisture allowances for grades (not for manufacturing) of dried figs.
52.1027 Grades of dried figs for manufacturing.
52.1028 Moisture allowances for grades for manufacturing of dried figs.

DEFINITIONS AND EXPLANATIONS

52.1029 Definitions of varying degrees of maturity.
52.1030 Definitions of varying degrees of uniformity of size.
52.1031 Definitions of varying degrees of uniformity of color.
52.1032 Definitions of defect.
52.1033 Definition of varying degrees of flavor and odor.

WORK SHEETS

52.1034 Work sheet for grades (not for manufacturing) of dried figs.
52.1035 Work sheet for grades for manufacturing of dried figs.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED FRUIT COCKTAIL

IDENTITY AND GRADES

52.1051 Identity
52.1052 Grades of canned fruit cocktail.

PROPORTIONS

52.1053 Proportion of fruit ingredients.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS

52.1054 Liquid media and Brix measurements for canned fruit cocktail.
52.1055 Fill of container for canned fruit cocktail.

FACTORS OF QUALITY

52.1056 Ascertaining the grade.
52.1057 Ascertaining the rating for the factors which are scored.
52.1058 Clearness of liquid media.
52.1059 Color.
52.1060 Uniformity of size.
52.1061 Absence of defects.
52.1062 Character.

LOT CERTIFICATION TOLERANCES

52.1063 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1064 Score sheet for canned fruit cocktail.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FRUIT JELLY

IDENTITY, TYPES, KINDS, AND GRADES

52.1081 Identity.
52.1082 Types of fruit jelly.
52.1083 Kinds of fruit jelly.
52.1084 Grades of fruit jelly.

FILL OF CONTAINER

52.1085 Recommended fill of container.

FACTORS OF QUALITY

52.1086 Ascertaining the grade.
52.1087 Ascertaining the rating for each factor.
52.1088 Consistency.
52.1089 Color.
52.1090 Flavor.

LOT CERTIFICATION TOLERANCES

52.1091 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1092 Score sheet for fruit jelly.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FRUIT PRESERVES (OR JAMS)

IDENTITY, TYPES, KINDS, AND GRADES

52.1111 Identity.
52.1112 Types of fruit preserves (or jams).
52.1113 Kinds of fruit preserves (or jams) according to Group I or Group II designations.
52.1114 Grades of fruit preserves (or jams).

FILL OF CONTAINER

52.1115 Recommended fill of container.

FACTORS OF QUALITY

52.1116 Ascertaining the grade
52.1117 Ascertaining the rating for the factors which are scored.
52.1118 Consistency.
52.1119 Color.
52.1120 Absence of defects.
52.1121 Flavor.

LOT CERTIFICATION TOLERANCES

52.1122 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1123 Score sheet for fruit preserves (or jams).

SUBPART—UNITED STATES STANDARDS FOR GRADES OF GRAPEFRUIT

PRODUCT DESCRIPTION AND GRADES

52.1141 Product description.
52.1142 Grades of canned grapefruit

LIQUID MEDIA AND FILL OF CONTAINER

52.1143 Recommended designations of liquid media and Brix measurements.
52.1144 Recommended fill of container.

FACTORS OF QUALITY

52.1145 Ascertaining the grade.
52.1146 Ascertaining the rating for the factors which are scored.
52.1147 Drained weight.
52.1148 Wholeness.
52.1149 Color.
52.1150 Absence of defects.
52.1151 Character.

EXPLANATIONS

52.1152 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.1153 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1154 Score sheet for canned grapefruit.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN GRAPEFRUIT

PRODUCT DESCRIPTION AND GRADES

52.1171 Product description.
52.1172 Grades of frozen grapefruit.

FACTORS OF QUALITY

Sec.
52.1173 Ascertaining the grade.
52.1174 Ascertaining the rating of each factor.
52.1175 Wholeness.
52.1176 Color.
52.1177 Absence of defects.
52.1178 Character.

LOT CERTIFICATION TOLERANCES

52.1179 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1180 Score sheet for frozen grapefruit.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GRAPEFRUIT JUICE

PRODUCT DESCRIPTION, AND GRADES

52.1191 Product description.
52.1192 Grades of canned grapefruit juice.

FILL OF CONTAINER

52.1193 Recommended fill of container.

FACTORS OF QUALITY

52.1194 Ascertaining the grade.
52.1195 Ascertaining the rating of each factor.
52.1196 Color.
52.1197 Absence of defects.
52.1198 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1199 Definitions of terms as used in the standards.
52.1200 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1201 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1202 Score sheet for canned grapefruit juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CONCENTRATED GRAPEFRUIT JUICE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1221 Product description.
52.1222 Styles of frozen concentrated grapefruit juice.
52.1223 Grades of frozen concentrated grapefruit juice.

FILL OF CONTAINER

52.1224 Recommended fill of container.

FACTORS OF QUALITY

52.1225 Ascertaining the grade.
52.1226 Ascertaining the rating for the factors which are scored.
52.1227 Color.
52.1228 Absence of defects.
52.1229 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1230 Definitions of terms as used in these standards.
52.1231 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1232 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1233 Score sheet for frozen concentrated grapefruit juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GRAPEFRUIT AND ORANGE FOR SALAD

PRODUCT DESCRIPTION AND GRADES

52.1251 Product description.
52.1252 Grades of canned grapefruit and orange for salad.

LIQUID MEDIA AND FILL OF CONTAINER

52.1253 Recommended designations of liquid media and Brix measurements.
52.1254 Recommended fill of container.

FACTORS OF QUALITY

52.1255 Ascertaining the grade.
52.1256 Ascertaining the rating for the factors which are scored.
52.1257 Drained weight.
52.1258 Wholeness.
52.1259 Color.
52.1260 Absence of defects.
52.1261 Character.

EXPLANATIONS

52.1262 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.1263 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1264 Score sheet for canned grapefruit and orange for salad.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BLENDED GRAPEFRUIT JUICE AND ORANGE JUICE

PRODUCT DESCRIPTION AND GRADES

52.1281 Product description.
52.1282 Grades of canned blended grapefruit juice and orange juice.

FILL OF CONTAINER

52.1283 Recommended fill of container.

FACTORS OF QUALITY

52.1284 Ascertaining the grade.
52.1285 Ascertaining the rating of each factor.
52.1286 Color.
52.1287 Absence of defects.
52.1288 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1289 Definitions of terms.
52.1290 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1291 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1292 Score sheet for canned blended grapefruit juice and orange juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CONCENTRATED BLENDED GRAPEFRUIT JUICE AND ORANGE JUICE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1311 Product description.
52.1312 Styles of frozen concentrated blended grapefruit juice and orange juice.
52.1313 Grades of frozen concentrated blended grapefruit juice and orange juice.

FILL OF CONTAINER

52.1314 Recommended fill of container.

FACTORS OF QUALITY

52.1315 Ascertaining the grade.
52.1316 Ascertaining the rating for the factors which are scored.
52.1317 Color.
52.1318 Absence of defects.
52.1319 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1320 Definitions of terms as used in these standards.
52.1321 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1322 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1323 Score sheet for frozen concentrated blended grapefruit juice and orange juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GRAPE JUICE

PRODUCT DESCRIPTION, TYPES, STYLES, AND GRADES

52.1341 Product description.
52.1342 Types of canned grape juice.
52.1343 Styles of canned grape juice.
52.1344 Grades of canned grape juice.

FILL OF CONTAINER

52.1345 Recommended fill of container.

FACTORS OF QUALITY

52.1346 Ascertaining the grade.
52.1347 Ascertaining the rating for the factors which are scored.
52.1348 Color.
52.1349 Absence of defects.
52.1350 Flavor.

EXPLANATIONS

52.1351 Explanation of terms.

LOT CERTIFICATION TOLERANCES

52.1352 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1353 Score sheet for canned grape juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN LEAFY GREENS

PRODUCT DESCRIPTION, KINDS, STYLES, AND GRADES

52.1371 Product description.
52.1372 Kinds of frozen leafy greens.
52.1373 Styles of frozen leafy greens.
52.1374 Grades of frozen leafy greens.

FACTORS OF QUALITY

52.1375 Ascertaining the grade.
52.1376 Ascertaining the rating for the factors which are scored.
52.1377 Color.
52.1378 Absence of defects.
52.1379 Character.

LOT CERTIFICATION TOLERANCES

52.1380 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.1381 Score sheet for frozen leafy greens.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF EXTRACTED HONEY, HONEY

PRODUCT DESCRIPTION, TYPES, TYPE OF PROCESS, AND COLOR

52.1391 Product description.
52.1392 Types of extracted honey.
52.1393 Color of honey.
52.1394 Application of U. S. D. A. permanent glass color standards in classifying the color of honey.
52.1395 Tolerance for certification of color of officially drawn samples.

FILL OF CONTAINER

52.1396 Recommended fill of container.

GRADES

52.1397 Grades of honey.

FACTORS OF QUALITY

52.1398 Ascertaining the grade.
52.1399 Ascertaining the rating for each factor.
52.1400 Flavor.
52.1401 Absence of defects.
52.1402 Clarity.

LOT CERTIFICATION TOLERANCES

52.1403 Tolerances for certification of officially drawn samples.

SCORE SHEET

Sec.
52.1404 Score sheet for extracted honey.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CONCENTRATE FOR LEMONADE

PRODUCT DESCRIPTION AND GRADES

52.1421 Product description.
52.1422 Grades of frozen concentrate for lemonade.

FILL OF CONTAINER

52.1423 Recommended fill of container.

FACTORS OF QUALITY

52.1424 Ascertaining the grade.
52.1425 Ascertaining the rating for the factors which are scored.
52.1426 Color.
52.1427 Absence of defects.
52.1428 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1429 Definition of terms.
52.1430 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1431 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1432 Score sheet for frozen concentrate for lemonade.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF ORANGE MARMALADE

PRODUCT DESCRIPTION, KINDS, STYLES, TYPES, AND GRADES

52.1451 Product description.
52.1452 Kinds of orange marmalade.
52.1453 Styles of orange marmalade.
52.1454 Types of orange marmalade.
52.1455 Grades of orange marmalade.

FILL OF CONTAINER

52.1456 Recommended fill of container.

FACTORS OF QUALITY

52.1457 Ascertaining the grade.
52.1458 Ascertaining the rating for the factors which are scored.
52.1459 Color.
52.1460 Consistency and character.
52.1461 Absence of defects.
52.1462 Flavor and odor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1463 Explanation of terms or analyses.

LOT CERTIFICATION TOLERANCES

52.1464 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1465 Score sheet for orange marmalade.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED MUSHROOMS

IDENTITY, COLOR, STYLES, AND GRADES

52.1481 Identity.
52.1482 Color.
52.1483 Styles of canned mushrooms.
52.1484 Grades of canned mushrooms.

SIZES, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.1485 Sizes of mushrooms in whole and button mushrooms.
52.1486 Fill of container for canned mushrooms.
52.1487 Minimum drained weight.

FACTORS OF QUALITY

52.1488 Ascertaining the grade.
52.1489 Ascertaining the rating for the factors which are scored.
52.1490 Color.
52.1491 Uniformity of size and shape.
52.1492 Absence of defects.
52.1493 Character.

LOT CERTIFICATION TOLERANCES

52.1494 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.1495 Score sheet for canned mushrooms.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN OKRA

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1511 Product description.
52.1512 Styles of frozen okra.
52.1513 Grades of frozen okra.

SIZE

52.1514 Size of frozen okra.

FACTORS OF QUALITY

52.1515 Ascertaining the grade.
52.1516 Ascertaining the rating for each factor.
52.1517 Color.
52.1518 Absence of defects.
52.1519 Character.

LOT CERTIFICATION TOLERANCES

52.1520 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1521 Score sheet for frozen okra.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF OLIVE OIL

PRODUCT DESCRIPTION AND GRADES

52.1531 Product description.
52.1532 Grades of olive oil.

FILL OF CONTAINER

52.1533 Recommended fill of container.

FACTORS OF QUALITY

52.1534 Ascertaining the grade.
52.1535 Ascertaining the rating for each factor.
52.1536 Free fatty acid content.
52.1537 Absence of defects.
52.1538 Odor.
52.1539 Flavor.

LOT CERTIFICATION TOLERANCES

52.1540 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.1541 Score sheet for olive oil.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED ORANGE JUICE

PRODUCT DESCRIPTION AND GRADES

52.1551 Product description.
52.1552 Grades of canned orange juice.

FILL OF CONTAINER

52.1553 Recommended fill of container.

FACTORS OF QUALITY

52.1554 Ascertaining the grade.
52.1555 Ascertaining the rating of each factor.
52.1556 Color.
52.1557 Absence of defects.
52.1558 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1559 Definition of terms.
52.1560 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1561 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1562 Score sheet for canned orange juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN CONCENTRATED ORANGE JUICE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1581 Product description.
52.1582 Styles of frozen concentrated orange juice.
52.1583 Grades of frozen concentrated orange juice.

FILL OF CONTAINER

52.1584 Recommended fill of container.

FACTORS OF QUALITY

52.1585 Ascertaining the grade.
52.1586 Ascertaining the rating for the factors which are scored.
52.1587 Color.
52.1588 Absence of defects.
52.1589 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1590 Definitions of terms as used in these standards.
52.1591 Explanation of analyses.

LOT CERTIFICATION TOLERANCES

52.1592 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1593 Score sheet for frozen concentrated orange juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED PEARS

IDENTITY, STYLES AND GRADES

52.1611 Identity.
52.1612 Styles of canned pears.
52.1613 Grades of canned pears.
52.1614 Grades of canned solid-pack pears.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.1615 Liquid media and Brix measurements for canned pears.
52.1616 Fill of container for canned pears.
52.1617 Recommended fill of container for canned "solid-pack" pears.
52.1618 Recommended minimum drained weight.
52.1619 Compliance with recommended drained weights.

FACTORS OF QUALITY

52.1620 Ascertaining the grade.
52.1621 Ascertaining the rating for the factors which are scored.
52.1622 Color.
52.1623 Uniformity of size and symmetry.
52.1624 Absence of defects.
52.1625 Character.

LOT CERTIFICATION TOLERANCES

52.1626 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1627 Score sheet for canned pears.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED FIELD PEAS AND CANNED BLACK-EYE PEAS

IDENTITY AND GRADES

52.1641 Identity.
52.1642 Grades of canned peas.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.1643 Recommended fill of container.
52.1644 Recommended drained weight.

FACTORS OF QUALITY

52.1645 Ascertaining the grade.
52.1646 Ascertaining the rating of each factor.
52.1647 Color.
52.1648 Absence of defects.
52.1649 Character.

LOT CERTIFICATION TOLERANCES

Sec.
52.1650 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1651 Score sheet for canned field peas and canned black-eye peas.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN FIELD PEAS AND FROZEN BLACK-EYE PEAS

PRODUCT DESCRIPTION, DEFINITIONS, AND GRADES

52.1661 Product description.
52.1662 Definitions.
52.1663 Grades of frozen peas.

FACTORS OF QUALITY

52.1664 Ascertaining the grade.
52.1665 Ascertaining the rating for the factors which are scored.
52.1666 Color.
52.1667 Absence of defects.
52.1668 Character.

LOT CERTIFICATION TOLERANCES

52.1669 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.1670 Score sheet for frozen field peas and frozen black-eye peas.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CUCUMBER PICKLES

PRODUCT DESCRIPTION, STYLES, GRADES, AND TYPES

52.1681 Product description.
52.1682 Styles of cucumber pickles.
52.1683 Grades of cucumber pickles.
52.1684 Types of cucumber pickles.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.1685 Recommended fill of container.
52.1686 Recommended minimum drained weight.

SIZES

52.1687 Sizes of cucumber pickles in whole cucumber pickles.
52.1688 Sizes of cross cut or sliced cucumber pickles.

FACTORS OF QUALITY

52.1689 Ascertaining the grade.
52.1690 Ascertaining the rating of each factor.
52.1691 Color.
52.1692 Uniformity of size and shape.
52.1693 Absence of defects.
52.1694 Texture.

LOT CERTIFICATION TOLERANCES

52.1695 Tolerance for certification of officially drawn samples.

SCORE SHEET

52.1696 Score sheet for cucumber pickles.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED PINEAPPLE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1711 Product description.
52.1712 Styles of canned pineapple.
52.1713 Grades of canned pineapple.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.1714 Recommended designations of liquid media and Brix measurements.
52.1715 Recommended fill of container.
52.1716 Recommended minimum drained weight.

COUNTS AND SIZES

52.1717 Recommended count and size of slices and half slices.

FACTORS OF QUALITY

52.1718 Ascertaining the grade.
52.1719 Ascertaining the rating for each factor.
52.1720 Color.
52.1721 Uniformity of size and shape.
52.1722 Absence of defects.
52.1723 Character.

LOT CERTIFICATION TOLERANCES

52.1724 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1725 Score sheet for canned pineapple.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN PINEAPPLE

PRODUCT DESCRIPTION, STYLES, AND GRADES

52.1741 Product description.
52.1742 Styles of frozen pineapple.
52.1743 Grades of frozen pineapple.

FACTORS OF QUALITY

52.1744 Ascertaining the grade.
52.1745 Ascertaining the rating of each factor.
52.1746 Color.
52.1747 Uniformity of size and symmetry.
52.1748 Absence of defects.
52.1749 Character.

LOT CERTIFICATION TOLERANCES

52.1750 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1751 Score sheet for frozen pineapple.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED PINEAPPLE JUICE

PRODUCT DESCRIPTION AND GRADES

52.1761 Product description.
52.1762 Grades of canned pineapple juice.

FILL OF CONTAINER

52.1763 Recommended fill of container.

FACTORS OF QUALITY

52.1764 Ascertaining the grade.
52.1765 Ascertaining the rating of each factor.
52.1766 Color.
52.1767 Absence of defects.
52.1768 Flavor.

EXPLANATIONS AND METHODS OF ANALYSES

52.1769 Explanation of terms and analyses.

LOT CERTIFICATION TOLERANCES

52.1770 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1771 Score sheet for canned pineapple juice.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED PLUMS

PRODUCT DESCRIPTION, VARIETIES, STYLES, AND GRADES

52.1781 Product description.
52.1782 Varieties of canned plums.
52.1783 Styles of canned plums.
52.1784 Grades of canned plums.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

52.1785 Recommended designations of liquid media and Brix measurements for canned plums.
52.1786 Recommended fill of container for canned plums.
52.1787 Recommended minimum drained weight.
52.1788 Compliance with recommended drained weights.

FACTORS OF QUALITY

52.1789 Ascertaining the grade.
52.1790 Ascertaining the rating for the factors which are scored.
52.1791 Color.
52.1792 Uniformity of size.
52.1793 Absence of defects.
52.1794 Character.

LOT CERTIFICATION TOLERANCES

52.1795 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1796 Score sheet for canned plums.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED WHITE POTATOES

IDENTITY, STYLES, AND GRADES

52.1811 Identity.
52.1812 Styles of canned white potatoes.
52.1813 Grades of canned white potatoes.

FILL OF CONTAINER AND DRAINED WEIGHTS

52.1814 Recommended fill of container.
52.1815 Recommended minimum drained weight.

SIZES

52.1816 Sizes of canned whole white potatoes.

FACTORS OF QUALITY

52.1817 Ascertaining the grade.
52.1818 Ascertaining the rating for each factor.
52.1819 Color.
52.1820 Uniformity of size and shape.
52.1821 Absence of defects.
52.1822 Texture.

LOT CERTIFICATION TOLERANCES

52.1823 Tolerances for certification of officially drawn samples.

SCORE SHEET

52.1824 Score sheet for canned white potatoes.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF PROCESSED RAISINS

PRODUCT DESCRIPTION, TYPES, SIZES, COLORS, AND GRADES

52.1841 Product description.
52.1842 Types (varieties) of processed raisins.
52.1843 Sizes of Thompson Seedless Raisins.
52.1844 Colors of Sulfur Bleached and Golden Bleached Thompson Seedless Raisins.
52.1845 Grades of Thompson Seedless Raisins.
52.1846 Sizes of Muscat Raisins.
52.1847 Grades of Muscat Raisins.
52.1848 Sizes of Sultana Raisins.
52.1849 Grades of Sultana Raisins.

EXPLANATIONS

52.1850 Explanation of terms.

WORK SHEET

52.1851 Work sheet for processed raisins.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN RASPBERRIES

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.1871 Product description.
52.1872 Types (colors) of frozen raspberries.
52.1873 Grades of frozen raspberries (not for manufacturing).
52.1874 Grades of frozen raspberries for manufacturing.

FACTORS OF QUALITY

52.1875 Ascertaining the score and grade for frozen raspberries (not for manufacturing).
52.1876 Ascertaining the score of each factor for frozen raspberries (not for manufacturing).

AUTHORITY: §§ 52.1 to 52.2262 issued under sec. 205, 60 Stat. 1090, Pub. Law 156, 83d Cong.; 7 U. S. C. 1624.

## SUBPART—REGULATIONS GOVERNING INSPECTION AND CERTIFICATION

§ 52.1 *Administration of regulations.* The Administrator, Production and Marketing Administration, United States Department of Agriculture, is charged with the Administration of the regulations in this part except that he may delegate any or all of such functions to any officer or employee of the Production and Marketing Administration of the Department, in his discretion.

### DEFINITIONS

§ 52.2 *Meaning of words.* Words in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand.

§ 52.3 *Terms defined.* For the purpose of the regulations in this part, unless the context otherwise requires, the following terms shall have the following meanings:

(a) "Act" means the following provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and of the Department of Agriculture Appropriation Act, 1951 (Pub. Law 759; 81st Cong., approved September 6, 1950, as continued in effect by Public Law 70; 82d Congress, approved July 1, 1951), or any future act of Congress conferring similar authority:

AGRICULTURAL MARKETING ACT OF 1946

• • • To inspect, certify, and identify the class, quality, quantity, and condition of agricultural products when shipped or received in interstate commerce, under such rules and regulations as the Secretary of Agriculture may prescribe, including assessment and collection of such fees as will be reasonable and as nearly as may be to cover the cost of the service rendered, to the end that agricultural products may be marketed to the best advantage, that trading may be facilitated, and that consumers may be able to obtain the quality product which they desire, except that no person shall be required to use the service authorized by this subsection. • • •

DEPARTMENT OF AGRICULTURE APPROPRIATION ACT, 1951

*Market inspection of farm products.* For the investigation and certification, in one or more jurisdictions, to shippers and other interested parties of the class, quality, and condition of any agricultural commodity or food product, whether raw, dried, canned, or otherwise processed, and any product containing an agricultural commodity or derivative thereof when offered for interstate shipment or when received at such important central markets as the Secretary may from time to time designate, or at points which may be conveniently reached therefrom under such rules and regulations as he may prescribe, including payment of such fees as will be reasonable and as nearly as may be to cover the cost for the services rendered. • • •

*Marketing farm products.* For acquiring and diffusing among the people of the United States useful information relative to the needed supplies, standardization, classification, grading, preparation for market, handling, transportation, storage, and marketing of farm and food products, including the demonstration and promotion of the use of uniform standards of classification of American farm and food products throughout the world • • •

(b) "Administrator" means the Administrator of the Production and Marketing Administration of the Department.

(c) "Applicant" means any interested party who requests inspection service under the regulations in this part.

(d) "Case" means the number of containers (cased or uncased) which, by the particular industry are ordinarily packed in a shipping container.

(e) "Certificate of loading" means a statement, either written or printed, issued pursuant to the regulations in this part, relative to checkloading of a processed product subsequent to inspection thereof.

(f) "Certificate of sampling" means a statement, either written or printed, issued pursuant to the regulations in this part, identifying officially drawn samples and may include a description of condition of containers and the condi-

tion under which the processed product is stored.

(g) "Class" means a grade or rank of quality.

(h) "Condition" means the degree of soundness of the product which may affect its merchantability and includes, but is not limited to those factors which are subject to change as a result of age, improper preparation and processing, improper packaging, improper storage or improper handling.

(i) "Department" means the United States Department of Agriculture.

(j) "Inspection certificate" means a statement, either written or printed, issued pursuant to the regulations in this part, setting forth in addition to appropriate descriptive information relative to a processed product, and the container thereof, the quality and condition, or any part thereof, of the product and may include a description of the conditions under which the product is stored.

(k) "Inspection service" means:

(1) The sampling pursuant to the regulations in this part;

(2) The determination pursuant to the regulations in this part of:

(i) Essential characteristics such as style, type, size, sirup density or identity of any processed product which differentiates between major groups of the same kind;

(ii) The class, quality and condition of any processed product, including the condition of the container thereof by the examination of appropriate samples;

(3) The issuance of any certificate of sampling, inspection certificates, or certificates of loading of a processed product, or any report relative to any of the foregoing; or

(4) Performance by an inspector of any related services such as assigning an inspector in a processing plant to observe the preparation of the product from its raw state through each step in the entire process, or observe conditions under which the product is being prepared, processed, and packed, or observe plant sanitation as a prerequisite to the inspection of the processed product, either on a continuous or periodic basis, or checkload the inspected processed product in connection with the marketing of the processed product.

(l) "Inspector" means any employee of the Department authorized by the Secretary or any other person licensed by the Secretary to investigate, sample, inspect, and certify in accordance with the regulations in this part to any interested party the class, quality and condition of processed products covered in this part and to perform related duties in connection with the inspection service.

(m) "Interested party" means any person who has a financial interest in the commodity involved.

(n) "Licensed sampler" means any person who is authorized by the Secretary to draw samples of processed products for inspection service, to inspect for condition of containers in a lot, and may, when authorized by the Administrator, perform related services under the act and the regulations in this part.

(o) "Lot" for the purpose of the regulations in this part means any number of containers of the same size and type containing a processed product of the same type or style offered for inspection by an interested party, except containers bearing an identification mark different from other containers and containing a lower grade quality than the containers bearing the other marks, may be considered as a separate lot.

(p) "Officially drawn sample" means any sample that has been selected from a particular lot by an inspector, licensed sampler, or by any other person authorized by the Administrator pursuant to the regulations in this part.

(q) "Person" means any individual, partnership, association, business trust, corporation, any organized group of persons (whether incorporated or not), the United States (including, but not limited to, any corporate agencies thereof), any State, county, or municipal government, any common carrier, and any authorized agent of any of the foregoing.

(r) "Plant" means the premises, buildings, structures, and equipment (including, but not being limited to, machines, utensils, and fixtures) employed or used with respect to the manufacture or production of processed products.

(s) "Processed product" means any fruit, vegetable, or other food product covered under these regulations which has been preserved by any recognized commercial process, including, but not limited to, canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation.

(t) "Quality" means the inherent properties of any processed product which determine the relative degree of excellence of such product, and includes the effects of preparation and processing, and may or may not include the effects of packing media, or added ingredients.

(u) "Sample" means a single container, a single portion of a container, any number of containers, or a composite mixture of a single type, style or size of a single commodity, packed in a single size of container, or other unit, as may be designated by the Administrator, to be used for inspection.

(v) "Shipping container" means an individual container designed for shipping a number of packages or cans ordinarily packed in a container for shipping or designed for packing unpackaged processed products for shipping.

(w) "Sampling" means the act of selecting samples of processed products for the purpose of inspection under the regulations in this part.

(x) "Secretary" means the Secretary of the Department or any other officer or employee of the Department authorized to exercise the powers and to perform the duties of the Secretary in respect to the matters covered by the regulations in this part.

(y) "Unofficially drawn sample" means any sample that has been selected by any person other than an inspector or licensed sampler, or by any other person not authorized by the Administrator pursuant to the regulations in this part.

INSPECTION SERVICE

§ 52.4 *Where inspection service is offered.* Inspection service may be furnished wherever any inspector or licensed sampler is available and the facilities and conditions are satisfactory for the conduct of such service.

§ 52.5 *Who may obtain inspection service.* An application for inspection service may be made by any interested party, including, but not limited, to, the United States and any instrumentality or agency thereof, any State, county, municipality, or common carrier, and any authorized agent in behalf of the foregoing.

§ 52.6 *How to make application.* An application for inspection service may be made to the office of inspection or to any inspector, at or nearest the place where the service is desired; and an up-to-date list of the Standardization and Inspection Field Offices of the Department may be obtained upon request to the Administrator. Satisfactory proof that the applicant is an interested party, and satisfactory proof of the authority of any person applying for inspection service, shall be furnished.

§ 52.7 *Information required in connection with application.* Application for inspection service shall be made in the English language and may be made orally (in person or by telephone), in writing, or by telegraph. If an application for inspection service is made orally, such application shall be confirmed promptly in writing. In connection with each application for inspection service, there shall be furnished such information as may be necessary to perform an inspection on the processed product for which application for inspection is made, including but not limited to, the name of the product, name and address of the packer or plant where such product was packed, the location of the product, its lot or car number, codes or other identification marks, the number of containers, the type and size of the containers, the interest of the applicant in the product, whether the lot has been inspected previously to the application by any Federal agency and the purpose for which inspection is desired.

§ 52.8 *Filing of application.* An application for inspection service shall be regarded as filed only when made in accordance with the regulations in this part.

§ 52.9 *Record of filing time.* A record showing the date and hour when each application for inspection or for an appeal inspection is received shall be maintained.

§ 52.10 *When application may be rejected.* An application for inspection service may be rejected by the Administrator (a) for non-compliance by the applicant with the regulations in this part, (b) for non-payment for previous inspection services rendered, (c) when the product is not properly identifiable by code or other marks, or (d) when it appears that to perform the inspection service would not be to the best interests of the Government. Such applicant shall be promptly notified of the reason for such rejection.

§ 52.11 *When application may be withdrawn.* An application for inspection service may be withdrawn by the applicant at any time before the inspection is performed: *Provided*, That, the applicant shall pay at the hourly rate prescribed in § 52.48 for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph or other expenses which have been incurred by the inspection service in connection with such application.

§ 52.12 *Disposition of inspected sample.* Any sample of a processed product that has been used for inspection may be returned to the applicant, at his request and expense; otherwise it shall be destroyed, or disposed of to a charitable institution.

§ 52.13 *Basis of inspection.* Inspection service shall be performed on the basis of the appropriate U. S. Standards for grades of processed products, Federal, Quartermaster Corps, Military or Veterans Administration specifications, written buyer and seller contract specifications or any written specification supplied by an applicant which is approved by the Administrator.

§ 52.14 *Order of inspection service.* Inspection service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any such applications which are made by the United States (including, but not being limited to, any instrumentality or agency thereof) and to any application for an appeal inspection.

§ 52.15 *Postponing inspection service.* If the inspector determines that it is not possible to accurately ascertain the quality or condition of a processed product immediately after processing because the product has not reached equilibrium in color, sirup density, or drained weight, or for any other substantial reason, he may postpone inspection service for such period as may be necessary.

§ 52.16 *Financial interest of inspector.* No inspector shall inspect any processed product in which he is directly or indirectly financially interested.

§ 52.17 *Forms of certificates.* Inspection certificates, certificates of sampling or loading, and other memoranda concerning inspection service shall be issued on forms approved by the Administrator.

§ 52.18 *Issuance of certificates.* (a) An inspection certificate may be issued only by an inspector: *Provided*, That, another employee of the inspection service may sign any such certificate covering any processed product inspected by an inspector when given power of attorney by such inspector and authorized by the Administrator, to affix the inspector's signature to an inspection certificate which has been prepared in accordance with the facts set forth in the notes, made by the inspector, in connection with the inspection.

(b) A certificate of loading shall be issued and signed by the inspector or licensed sampler authorized to check the loading of a specific lot of processed products: *Provided*, That, another employee of the inspection service may sign such certificate of loading covering any processed product checkloaded by an inspector or licensed sampler when given power of attorney by such inspector or licensed sampler and authorized by the Administrator to affix the inspector's or licensed sampler's signature to a certificate of loading which has been prepared in accordance with the facts set forth in the notes made by the inspector or licensed sampler in connection with the checkloading of a specific lot of processed products.

§ 52.19 *Issuance of corrected certificates.* A corrected inspection certificate may be issued by the inspector who issued the original certificate after distribution of a certificate if errors, such as incorrect dates, code marks, grade statements, lot or car numbers, container sizes, net or drained weights, quantities, or errors in any other pertinent information require the issuance of a corrected certificate. Whenever a corrected certificate is issued, such certificate shall supersede the inspection certificate which was issued in error and the superseded certificate shall become null and void after the issuance of the corrected certificate.

§ 52.20 *Issuance of an inspection report in lieu of an inspection certificate.* A letter report in lieu of an inspection certificate may be issued by an inspector when such action appears to be more suitable than an inspection certificate: *Provided*, That, the issuance of such report is approved by the Administrator.

§ 52.21 *Disposition of inspection certificates.* The original of any inspection certificate, issued under the regulations in this part, and not to exceed four copies thereof, if requested prior to issuance, shall be delivered or mailed promptly to the applicant, or person designated by the applicant. All other copies shall be filed in such manner as the Administrator may designate. Additional copies of any such certificates may be supplied to any interested party as provided in § 52.50.

§ 52.22 *Report of inspection results prior to issuance of formal report.* Upon request of any interested party, the results of an inspection may be telegraphed or telephoned to him, or to any other person designated by him, at his expense.

APPEAL INSPECTION

§ 52.23 *When appeal inspection may be requested.* An application for an appeal inspection may be made by any interested party who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot of processed products can be positively identified by the inspection service as the lot from which officially drawn samples were previously inspected. Such application shall be made within thirty (30) days following the day on which the previous inspection was performed, except upon approval by the Administrator the time within which an application for appeal inspection may be made may be extended.

§ 52.24 *Where to file for an appeal inspection and information required.* (a) Application for an appeal inspection may be filed with:

(1) The inspector who issued the inspection certificate on which the appeal covering the processed product is requested; or

(2) The inspector in charge of the office of inspection at or nearest the place where the processed product is located.

(b) The application for appeal inspection shall state the location of the lot of processed products and the reasons for the appeal; and date and serial number of the certificate covering inspection of the processed product on which the appeal is requested, and such application may be accompanied by a copy of the previous inspection certificate and any other information that may facilitate inspection. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation shall be made promptly.

§ 52.25 *When an application for an appeal inspection may be withdrawn.* An application for appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: *Provided*, That, the applicant shall pay at the hourly rate prescribed in § 52.48 of this part, for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph, or other expenses which have been incurred by the inspection service in connection with such application.

§ 52.26 *When appeal inspection may be refused.* An application for an appeal inspection may be refused if:

(a) The reasons for the appeal inspection are frivolous or not substantial;

(b) The quality or condition of the processed product has undergone a material change since the inspection covering the processed product on which the appeal inspection is requested;

(c) The lot in question is not, or cannot be made accessible for the selection of officially drawn samples;

(d) The lot relative to which appeal inspection is requested cannot be positively identified by the inspector as the lot from which officially drawn samples were previously inspected; or

(e) There is noncompliance with the regulations in this part. Such applicant shall be notified promptly of the reason for such refusal.

§ 52.27 *Who shall perform appeal inspection.* An appeal inspection shall be performed by an inspector or inspectors (other than the one from whose inspection the appeal is requested) authorized for this purpose by the Administrator and, whenever practical, such appeal inspection shall be conducted jointly by two such inspectors: *Provided*, That, the inspector who made the inspection on which the appeal is requested may be authorized to draw the samples when another inspector or licensed sampler is not available in the area where the product is located.

§ 52.28 *Appeal inspection certificate.* After an appeal inspection has been completed, an appeal inspection certifi-

cate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the processed product involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality or condition of the processed product described therein. The inspector or inspectors issuing an appeal inspection certificate shall forward notice of such issuance to such persons as he considers necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector or inspectors issuing the appeal inspection certificate. The provisions in the regulations in this part concerning forms of certificates, issuance of certificates, and disposition of certificates shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished all interested parties who received copies of the superseded certificate.

LICENSING OF SAMPLERS AND INSPECTORS

§ 52.29 *Who may become licensed sampler.* Any person possessing qualifications as determined by an examination for competency, given by the Administrator, may be licensed as a licensed sampler to draw samples for the purpose of inspection under the regulations in this part. Such a license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. Licensed samplers shall have no authority to inspect processed products under the regulations in this part except as to condition of the containers in a lot. A licensed sampler shall perform his duties pursuant to the regulations in this part as directed by the Administrator.

§ 52.30 *Application to become a licensed sampler.* Application to become a licensed sampler shall be made to the Administrator on forms furnished for that purpose. Each such application shall be executed and signed by the applicant in his own handwriting, and the information contained therein shall be verified by him under oath or affirmation administered by a notary public, and the application shall contain or be accompanied by:

(a) Satisfactory evidence that he has passed his twenty-first birthday;

(b) A statement showing his present and previous occupations, together with names of all employers for whom he has worked with periods of service during the last ten years previous to the date of his application;

(c) A statement that, in his capacity as a licensed sampler, he will not draw samples from any lot of processed products with respect to which he or his employer is an interested party;

(d) A statement by the applicant that he agrees to comply with all terms and conditions of the regulations in this part relating to duties of licensed samplers; and

(e) Such other information as may be required by the aforesaid Administrator.

§ 52.31 *Inspectors.* Inspections will ordinarily be performed by employees under the Administrator who are employed as Federal Government employees for that purpose. However, any person employed under any joint Federal-State inspection service arrangement may be licensed, if otherwise qualified, by the Secretary to make inspections in accordance with this part on such processed products as may be specified in his license. Such license shall be issued only in a case where the Administrator is satisfied that the particular person is qualified to perform adequately the inspection service for which such person is to be licensed. Each such license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. An inspector shall perform his duties pursuant to the regulations in this part as directed by the Administrator.

§ 52.32 *Suspension or revocation of license of licensed sampler or licensed inspector.* Pending final action by the Secretary, the Administrator may, whenever he deems such action necessary, suspend the license of any licensed sampler, or licensed inspector, issued pursuant to the regulations in this part, by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within seven days after the receipt of the aforesaid notice and statement of reasons by such licensee, he may file an appeal, in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid seven days period and consideration of such argument and evidence, the Secretary shall take such action as he deems appropriate with respect to such suspension or revocation.

§ 52.33 *Surrender of license.* Upon termination of his services as a licensed sampler or licensed inspector, or suspension or revocation of his license, such licensee shall surrender his license immediately to the office of inspection serving the area in which he is located. These same provisions shall apply in a case of an expired license.

TABLE I—CANNED FRUITS AND VEGETABLES AND CANNED FRUIT AND VEGETABLE PRODUCTS, INCLUDING TOMATO PRODUCTS, AND SUCH PRODUCTS AS PEANUT BUTTER, PICKLES, RELISHES, MARMALADES, HONEY, MAPLE SIRUP, FRUIT PULPS AND JAMS, EXCEPT SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES AND FRUIT JELLIES AND VINEGAR

| Size and type of container | Rate of sampling [1] | | |
|---|---|---|---|
| | From lots containing 1 to 2,000 cases | From lots containing 2,001 to 5,000 cases | From lots exceeding 5,000 cases |
| Any type of container of a volume of 11 fluid ounces or less. | 1 container for each 6,000 containers or fraction thereof. | 1 container for each 8,000 containers or fraction thereof. | 1 container for each 12,000 containers or fraction thereof. |
| Any type of container of a total volume of more than 11 fluid ounces but not more than 52 fluid ounces. | 1 container for each 3,000 containers or fraction thereof. | 1 container for each 4,000 containers or fraction thereof. | 1 container for each 6,000 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a No. 3 cylinder size can (404 x 700). | 1 container for each 1,000 containers or fraction thereof. | 1 container for each 2,000 containers or fraction thereof. | 1 container for each 3,000 containers or fraction thereof. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

SAMPLING

§ 52.34 *How samples are drawn by inspectors or licensed samplers.* An inspector or a licensed sampler shall select samples, upon request, from designated lots of processed products which are so placed as to permit thorough and proper sampling in accordance with the regulations in this part. Such person shall, unless otherwise directed by the Administrator, select samples of such products at random, and from various locations in each lot in such manner and number, not inconsistent with the regulations in this part, as to secure representative samples of the lot. Samples drawn for inspection shall be furnished by the applicant at no cost to the Department.

§ 52.35 *Accessibility for sampling.* Each applicant shall cause the processed products for which inspection is requested to be made accessible for proper sampling. Failure to make any lot accessible for proper sampling shall be sufficient cause for postponing inspection service until such time as such lot is made accessible for proper sampling.

§ 52.36 *How officially drawn samples are to be identified.* Officially drawn samples shall be marked by the inspector or licensed sampler so such samples can be properly identified for inspection.

§ 52.37 *How samples are to be shipped.* Unless otherwise directed by the Administrator, samples which are to be shipped to any office of inspection shall be forwarded to the office of inspection serving the area in which the processed products from which the samples were drawn is located. Such samples shall be shipped in a manner to avoid, if possible, any material change in the quality or condition of the sample of the processed product. All transportation charges in connection with such shipments of samples shall be at the expense of the applicant and wherever practicable, such charges shall be prepaid by him.

§ 52.38 *Sampling rates for officially drawn samples.* Unless otherwise directed by the Administrator, each inspector and each licensed sampler shall select from each lot not less than the number of samples indicated in the following applicable tables except as may be required otherwise by the provisions in § 52.34.

TABLE IV—CANNED FRUITS AND VEGETABLES AND CANNED FRUIT AND VEGETABLE PRODUCTS, INCLUDING TOMATO PRODUCTS, AND SUCH PRODUCTS AS PEANUT BUTTER, PICKLES, RELISHES, MARMALADES, HONEY, MAPLE SIRUP, FRUIT PULPS AND JAMS, EXCEPT SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES AND FRUIT JELLIES AND VINEGAR (Continued)

| Size and type of container | Rate of sampling [1] | | |
|---|---|---|---|
| | From lots containing 1 to 2,000 cases | From lots containing 2,001 to 5,000 cases | From lots exceeding 5,000 cases |
| Any type of container of a volume exceeding that of a No. 12 size can (603 x 812) but not exceeding that of a No. 10 size can (6½ cans). | 1 container for each 1,500 containers or fraction thereof. | 1 container for each 2,000 containers or fraction thereof. | 1 container for each 3,000 containers or fraction thereof. |
| Any type of container of a total volume of more than 1 gallon but not more than 2 gallons. | 1 container for each 500 containers or fraction thereof. | 1 container for each 800 containers or fraction thereof. | 1 container for each 1,200 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a No. 10 size can (6½ cans) but not exceeding 1 gallon. | 1 container for each 1,000 containers or fraction thereof. | 1 container for each 1,500 containers or fraction thereof. | 1 container for each 2,000 containers or fraction thereof. |
| Any type of container of a total volume of more than 2 gallons but not more than 5 gallons. | 1 container for each 200 containers or fraction thereof. | 1 container for each 300 containers or fraction thereof. | 1 container for each 400 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 5 gallon can but not exceeding that of a 7 gallon can. | 1 container for each 100 containers or fraction thereof. | 1 container for each 150 containers or fraction thereof. | 1 container for each 200 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 7 gallon can but not exceeding that of a 10 gallon can. | 1 container for each 50 containers or fraction thereof. | 1 container for each 75 containers or fraction thereof. | 1 container for each 100 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 10 gallon can but not exceeding that of a 15 gallon can. | 1 container for each 25 containers or fraction thereof. | 1 container for each 40 containers or fraction thereof. | 1 container for each 50 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 15 gallon can but not exceeding that of a 20 gallon can. | 1 container for each 15 containers or fraction thereof. | 1 container for each 20 containers or fraction thereof. | 1 container for each 25 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 20 gallon can but not exceeding that of a 30 gallon can. | 1 container for each 10 containers or fraction thereof. | 1 container for each 15 containers or fraction thereof. | 1 container for each 20 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 30 gallon can but not exceeding that of a 40 gallon can. | 1 container for each 8 containers or fraction thereof. | 1 container for each 12 containers or fraction thereof. | 1 container for each 16 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 40 gallon can but not exceeding that of a 50 gallon can. | 1 container for each 6 containers or fraction thereof. | 1 container for each 10 containers or fraction thereof. | 1 container for each 12 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 50 gallon can but not exceeding that of a 60 gallon can. | 1 container for each 5 containers or fraction thereof. | 1 container for each 8 containers or fraction thereof. | 1 container for each 10 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 60 gallon can but not exceeding that of a 70 gallon can. | 1 container for each 4 containers or fraction thereof. | 1 container for each 6 containers or fraction thereof. | 1 container for each 8 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 70 gallon can but not exceeding that of a 80 gallon can. | 1 container for each 3 containers or fraction thereof. | 1 container for each 5 containers or fraction thereof. | 1 container for each 6 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 80 gallon can but not exceeding that of a 90 gallon can. | 1 container for each 2 containers or fraction thereof. | 1 container for each 4 containers or fraction thereof. | 1 container for each 5 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 90 gallon can but not exceeding that of a 100 gallon can. | 1 container for each 2 containers or fraction thereof. | 1 container for each 3 containers or fraction thereof. | 1 container for each 4 containers or fraction thereof. |
| Any type of container of a volume exceeding that of a 100 gallon can. | 1 container for each container or fraction thereof. | 1 container for each 2 containers or fraction thereof. | 1 container for each 3 containers or fraction thereof. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE V—DRIED FRUIT

| Size and type of container | Shipping container sizes | | |
|---|---|---|---|
| | Less than 20 pounds net weight | 20 pounds to and including 80 pounds net weight | Exceeding 80 pounds but not exceeding 60 pounds net weight |
| Number of pounds in lot | Rate of sampling [1] | | |
| | Approximately 8 ounce samples | Approximately 16 ounce samples | Approximately 16 ounce samples |
| 500 pounds or less | (2) | 8 | (2) |
| 501 to 2,000 pounds | | 9 | |
| 2,001 to 4,000 pounds | | 10 | |
| 4,001 to 6,000 pounds | | | |
| | Approximately 8 ounce samples | | |
| 6,001 to 8,000 pounds | | 11 | |
| 8,001 to 10,000 pounds | | 12 | |
| 10,001 to 12,000 pounds | | 14 | |
| 12,001 to 14,000 pounds | | 15 | |
| Over 14,000 pounds | Each additional 1,500 pounds or fraction thereof, 1 approximately 8 ounce sample. | Each additional 2,000 pounds or fraction thereof, 1 approximately 8 ounce sample. | Each additional 3,000 pounds or fraction thereof, 1 approximately 16 ounce sample. |

[1] In no case, shall the total of all the samples drawn yield less than 25 ounces of dates; 100 figs or 200 fig slices; or 50 ounces of other dried fruit. The size of the sample from an individual container may be increased to establish the quality of the fruit in the container.

[2] When lot consists of 500 pounds or less, draw 4 approximately equal samples, except that when the lot consists of less than 4 shipping containers, a sample shall be drawn from each shipping container.

TABLE VI—DEHYDRATED FRUITS AND VEGETABLES

| Size and type of container | Rate of sampling [1] |
|---|---|
| Any type of container of 5 pounds or less net weight | 1 container for each 2,400 containers or fraction thereof. |
| Any type of container in excess of 5 pounds, net weight | 1 container for each 1,200 containers or fraction thereof. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE VII—PROCESSED PRODUCTS NOT SPECIFICALLY LISTED IN ANY TABLE CONTAINED IN THIS SECTION

| Size and type of container | Rate of sampling [1] |
|---|---|
| Any type of container irrespective of its size or volume | At a rate that will represent the lot as may be determined by the inspector. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE II—CANNED AND FROZEN, SINGLE-STRENGTH CITRUS JUICES AND GRAPE JUICES AND FRUIT JELLIES AND VINEGAR

| Size and type of container | Rate of sampling [1] | | |
|---|---|---|---|
| | From lots containing 1 to 2,000 cases | From lots containing 2,001 to 5,000 | From lots exceeding 5,000 cases |
| Any type of container of a volume of 11 fluid ounces or less | 1 container for each 4,800 containers or fraction thereof. | 1 container for each 6,000 containers or fraction thereof. | 1 container for each 8,000 containers or fraction thereof. |
| Any type of container of a total volume of more than 11 fluid ounces but not more than 52 fluid ounces. | 1 container for each 2,400 containers or fraction thereof. | 1 container for each 3,000 containers or fraction thereof. | 1 container for each 4,000 containers or fraction thereof. |
| Any type of container of a total volume of more than 52 fluid ounces. | 1 container for each 1,200 containers or fraction thereof. | 1 container for each 1,500 containers or fraction thereof. | 1 container for each 2,000 containers or fraction thereof. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

TABLE III—FROZEN FRUITS AND VEGETABLES AND FROZEN FRUIT AND VEGETABLE PRODUCTS, EXCEPT FROZEN SINGLE-STRENGTH AND CONCENTRATED CITRUS JUICES AND GRAPE JUICES

| Size and type of container | Rate of sampling [1] |
|---|---|
| Any type of container of 1 pound or less net weight | 1 container for each 2,400 containers or fraction thereof. |
| Any type of container over 1 pound but less than 10 pounds net weight | 1 container for each 1,600 containers or fraction thereof. |
| Any type of container of 5 pounds or more, but less than 10 pounds, net weight | 1 container for each 1,200 containers or fraction thereof. |
| Frozen vegetables only: Any type of container of 10 pounds or more, net weight | One 2-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus 1 additional 2-pound sample for each additional 5,000 pounds, or fraction thereof in excess of 18,000 pounds. |
| Frozen fruits and berries only: Any type of container of 10 pounds or more net weight | One 3-pound sample (approximate weight) for each 3,000 pounds of the first 18,000 pounds, plus 1 additional 3-pound sample for each additional 5,000 pounds, or fraction thereof in excess of 18,000 pounds. When determined by the inspector that 3-pound subsamples do not reflect the quality of the product in the container 1 or more entire containers may be substituted for any 1 or more sub-samples. |

[1] These are minimum rates and in no case where lots consist of more than 1 container shall less than 2 samples be drawn from any 1 lot.

§ 52.39 *Issuance of certificate of sampling.* Each inspector and each licensed sampler shall prepare and sign a certificate of sampling to cover the samples drawn by the respective person, except that an inspector who inspects the samples which he has drawn need not prepare a certificate of sampling. One copy of each certificate of sampling prepared shall be retained by the inspector or licensed sampler (as the case may be) and the original and all other copies thereof shall be disposed of in accordance with the instructions of the Administrator.

§ 52.40 *Identification of lots sampled.* Each lot from which officially drawn samples are selected shall be marked in such manner as may be prescribed by the Administrator, if such lots do not otherwise possess suitable identification.

FEES AND CHARGES

§ 52.41 *Payment of fees and charges.* Fees and charges for any inspection service shall be paid by the interested party making the application for such service, in accordance with the applicable provisions of the regulations in this part, and, if so required by the person in charge of the office of inspection serving the area where the services are to be performed, and advance of funds prior to rendering inspection service in an amount suitable to the Administrator, or a surety bond suitable to the Administrator, may be required as a guarantee of payment for the services rendered. All fees and charges for any inspection service performed pursuant to the regulations in this part shall be paid by check, draft, or money order payable to the Treasurer of the United States and remitted to the office of inspection serving the area in which the services are performed, within ten (10) days from the date of billing, unless otherwise specified in a contract between the applicant and the Administrator, in which latter event the contract provisions shall apply.

§ 52.42 *Schedule of fees.* (a) Unless otherwise provided for in a written agreement between the applicant and the Administrator, the fees to be charged and collected for any inspection service performed under the regulations in this part at the request of the United States, or any agency or instrumentality thereof, shall be at the rate of $3.60 per hour.

(b) Unless otherwise provided in the regulations in this part, the fees to be charged and collected for any inspection service performed under the regulations in this part shall be based on the applicable rates specified in this section as follows: [1]

(1) *Canned fruits and vegetables and canned fruit and vegetable products and other canned processed products, such as peanut butter, pickles, relishes, jams, jellies, marmalades, honey, maple sirup and concentrates.*

OFFICIALLY DRAWN SAMPLES

Each lot when packed 6 or more cans per case but not exceeding 48 cans per case except canned pineapple and canned pineapple juice inspected in Puerto Rico: [1]

| | |
|---|---|
| Minimum fee for 600 cases or less | $6.00 |
| For each additional 200 cases, or fraction thereof, in excess of 600 cases | 1.60 |

Each lot of canned pineapple and canned pineapple juice inspected in Puerto Rico:

| | |
|---|---|
| The fee for each case of 24 containers or less | $0.015 |
| The fee for each case of more than 24 containers | .020 |
| Minimum fee for any lot | 6.00 |

[1] Inspection of large quantities except canned pineapple and canned pineapple juice inspected in Puerto Rico: When application is made for inspection of 20,000 cases or more of a single commodity of canned fruits and vegetables and canned fruit and vegetable products in containers of any type of a volume capacity not exceeding that of a No. 12 size (603 x 812) the fee shall be at the rate of $1.40 for each 200 cases or fraction thereof: *Provided*, That, the commodity is available for inspection at any one place at any one time.

UNOFFICIALLY DRAWN SAMPLES

| | |
|---|---|
| Minimum fee | $3.60 |
| For more than 4 containers of any type of a volume not in excess of that of a No. 3 size can (404 x 414), per container | .75 |
| For more than 2 containers of any type of a volume exceeding that of a No. 3 size can (404 x 414), but not exceeding that of a No. 12 size can (603 x 812), per container | 1.50 |

(2) *Frozen fruits and vegetables and frozen fruit and vegetable products.*

OFFICIALLY DRAWN SAMPLES

Each lot other than when inspected in Puerto Rico:

| | |
|---|---|
| Minimum fee for 10,000 pounds or less | $6.00 |
| For each additional 5,000 pounds, or fraction thereof, in excess of 10,000 pounds | 2.00 |

Each lot inspected in Puerto Rico:

| | |
|---|---|
| Minimum fee for 10,000 pounds or less | 7.20 |
| For each additional 5,000 pounds, or fraction thereof, in excess of 10,000 pounds | 2.40 |

UNOFFICIALLY DRAWN SAMPLES

| | |
|---|---|
| Minimum fee | $3.60 |
| For more than 2 samples of any type or weight, per sample | 1.50 |

(3) *Dried fruits other than figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

| | |
|---|---|
| Minimum fee for 12,000 pounds or less | $6.00 |
| For each additional 2,000 pounds, or fraction thereof, in excess of 12,000 pounds | .50 |

UNOFFICIALLY DRAWN SAMPLES

| | |
|---|---|
| Each sample | $3.60 |

(4) *Dried figs and dates.*

OFFICIALLY DRAWN SAMPLES

Each lot:

| | |
|---|---|
| Minimum fee for 8,000 pounds or less | $6.00 |
| For each additional 2,000 pounds, or fraction thereof, in excess of 8,000 pounds | 1.50 |

UNOFFICIALLY DRAWN SAMPLES

| | |
|---|---|
| Each sample | $3.60 |

(5) *Other processed products.* The fee to be charged and collected for the inspection of any processed product not included in subparagraphs (1), (2), (3) and (4) of this paragraph shall be at the rate of $3.60 per hour for the time consumed by the inspector in making the inspection, including the time consumed in sampling by the inspector or licensed sampler: *Provided, however*, That fees for sampling time will not be assessed by the office of inspection when such fees have been assessed and collected directly from the applicant by a licensed sampler.

§ 52.43 *Fees to be charged and collected for sampling when performed by a licensed sampler.* Such sampling fees as are specifically prescribed by the Administrator in connection with the licensing of the particular sampler (which fees are to be prescribed in the light of the sampling work to be performed by such sampler and other pertinent factors) may be assessed and collected by such licensed sampler directly from the applicant: *Provided*, That, if such licensed sampler is an employee of a State, the appropriate authority of that State may make the collection, or they may be assessed and collected by the office of inspection serving the area where the services are performed.

§ 52.44 *Inspection fees when charges for sampling have been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler and with respect to which the sampling fee has been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee provided in this part applicable to the respective processed product: *Provided*, That, if the fee charged for the inspection service is based on the hourly rate of charge, the fee shall be at the rate of $3.60 per hour prescribed in this part.

§ 52.45 *Inspection fees when charges for sampling have not been collected by a licensed sampler.* For each lot of processed products from which samples have been drawn by a licensed sampler, and with respect to which the sampling fee has not been collected by the licensed sampler, the fee to be charged for the inspection shall be 75 percent of the fee as prescribed in this part, plus a reasonable charge to cover the cost of sampling as may be determined by the Administrator: *Provided*, That, if the fee charged is based on the hourly rate, the fee shall be at the rate of $3.60 per hour prescribed in this part, plus a reasonable charge to cover the cost of sampling, as determined by the Administrator.

§ 52.46 *Fee for appeal inspection.* The fee to be charged for an appeal inspection shall be at the rates prescribed in this part for other inspection services: *Provided*, That, if the result of any appeal inspection made for any applicant, other than the United States or any agency or instrumentality thereof, discloses that a material error was made in the inspection on which the appeal is made, no inspection fee shall be assessed.

§ 52.47 *Charges for micro, chemical and certain other special analyses.* (a) The following charges shall be made for micro, chemical and certain other special analyses which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product: [2]

| Type of analysis | For first analysis | For each additional analysis |
|---|---|---|
| *Micro, chemical, and certain other special analyses* | | |
| Mold count | $1.50 | $1.50 |
| Weed larvae and insect fragment count | 3.00 | 3.00 |
| Filth and rodent count | 3.00 | 3.00 |
| Alcohol-insoluble solids | 3.00 | 2.00 |
| Ash | 2.00 | 2.00 |
| Ascorbic acid (vitamin C) | 6.00 | 2.00 |
| Ash, alkalinity | 2.00 | 2.00 |
| Ash, salt free | 4.00 | 4.00 |
| Ash, acid insoluble | 4.00 | 4.00 |
| Ash, water insoluble | 4.00 | 4.00 |
| Crude fiber | 10.00 | 5.00 |
| Ether extract (crude fat) | 5.00 | 5.00 |
| Fiber, crude and wax bean | 3.00 | 3.00 |
| Juice number | 8.00 | 8.00 |
| Moisture (air oven method) | 2.00 | 2.00 |
| Moisture (vacuum oven method) | 2.00 | 2.00 |
| Nut meat | 3.00 | 2.00 |
| Non-volatile ether extract | 6.00 | 6.00 |
| Oil (lemon and orange extract (precipitation method) | 3.00 | 3.00 |
| Oil of lemon extract with oil base (distillation method) | 4.00 | 4.00 |
| Phosphorus pentoxide ($P_2O_5$) | 8.00 | 8.00 |
| Phosphorus pentoxide ($P_2O_5$) and aluminum trioxide ($Al_2O_3$) | 15.00 | 15.00 |
| Recoverable oil | 2.00 | 2.00 |
| Reducing sugars | 6.00 | 6.00 |
| Starch or carbohydrates (direct hydrolysis) | 12.00 | 10.00 |
| Carbohydrates (by difference) | 12.00 | 10.00 |
| Sulphur dioxide (direct titration) | 3.00 | 1.00 |
| Total solids (by drying) | 3.00 | 2.00 |
| Vanillin and coumarin | 10.00 | 10.00 |
| Volatile and non-volatile ether extract | 8.00 | 8.00 |
| Water extract | 4.00 | 4.00 |
| Water insoluble, inorganic residue examination for adulteration, acid particle count | 8.50 | 6.00 |

(b) The following charges shall be made for analyses which are requested by an applicant and are not in connection with an inspection to determine the quality or condition of the product: [3]

| Type of analysis | For first analysis | For each additional analysis |
|---|---|---|
| Catalase | $2.40 | $1.20 |
| Peroxidase | 2.40 | 1.20 |
| Titratable citric, lactic, acetic, or fatty acids, sodium chloride | 1.20 | 1.20 |
| Soluble solids (by refrac.) | 2.40 | 1.20 |
| Total solids (by refrac.) | 2.40 | 1.20 |

§ 52.48 *When charges are to be based on hourly rate not otherwise provided for in this part.* When inspection is for condition only or when inspection services or related services are rendered and formal certificates are not issued or when the services rendered are such that charges based upon the foregoing sections would be inadequate or inequitable, charges may be based on the time consumed by the inspector in performance of such inspection service at the rate of $3.60 per hour.

§ 52.49 *Fees for score sheets.* If the applicant for inspection service requests score sheets showing in detail the inspection of each container or sample inspected and listed thereon, such score sheets may be furnished by the inspector in charge of the office of inspection serving the area where the inspection was performed; and such applicant shall be charged at the rate of $1.00 for each twelve samples, or fraction thereof, inspected and listed on such score sheets.

§ 52.50 *Fees for additional copies of inspection certificates.* Additional copies of any inspection certificate other than those provided for in § 52.21, may be supplied to any interested party upon payment of a fee of $1.50 for each set of five (5) or fewer copies.

§ 52.51 *Travel and other expenses.* Charges may be made to cover cost of travel and other expenses incurred by the inspection service in connection with the performance of any inspection service, including travel and other expenses incurred in connection with any appeal inspection.

§ 52.52 *Charges for inspection service on a contract basis.* Irrespective of fees and charges prescribed in foregoing sections, the Administrator may enter into contracts with applicants to perform continuous inspection services or other inspection services pursuant to the regulations in this part and other requirements as prescribed by the Administrator in such contract, and the charges for such inspection service provided in such contracts shall be on such basis as will reimburse the Production and Marketing Administration of the Department for the full cost of rendering such inspection service including an appropriate overhead charge to cover as nearly as practicable administrative overhead expenses as may be determined by the Administrator.

MISCELLANEOUS

§ 52.53 *Fraud or misrepresentation.* Any wilful misrepresentation or any deceptive or fraudulent practice found to be made or committed by any person in connection with:

(a) The making or filing of an application for any inspection service;

(b) The submission of samples for inspection;

(c) The use of any inspection report or any inspection certificate, or appeal inspection certificate issued under the regulations in this part;

(d) The use of the words "Packed under continuous inspection of the U. S. Department of Agriculture," any legend signifying that the product has been officially inspected, any statement of grade or words of similar import in the labeling or advertising of any processed product;

(e) The use of a facsimile form which simulates in whole or in part any official U. S. certificate for the purpose of purporting to evidence the U. S. grade of any processed product; or

(f) Any wilful violation of the regulations in this part or supplementary rules or instructions issued by the Administrator, may be deemed sufficient cause for debarring such person from any or all benefits of the act.

§ 52.54 *Political activity.* All inspectors and licensed samplers are forbidden, during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, are prohibited. This applies to all appointees or licensees, including, but not limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 52.55 *Interfering with an inspector or licensed sampler.* Any further benefits of the act may be denied any applicant or other interested party who either personally or through an agent or representative interferes with or obstructs, by intimidation, threats, assault, or in any other manner, an inspector or licensed sampler in the performance of his duties.

§ 52.56 *Compliance with other laws.* None of the requirements in the regulations in this part shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to the operation of food processing establishments and to processed food products.

§ 52.57 *Identification.* Each inspector and licensed sampler shall have in his possession at all times and present upon request, while on duty, the means of identification furnished by the Department to such person.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASES [4]

§ 52.81 *Plant survey.* (a) Prior to the inauguration of continuous inspection service on a contract basis, the Administrator will make, or cause to be made, a survey and inspection of the plant where such service is to be performed to determine whether the plant and methods of operation are suitable and adequate for the performance of such services in accordance with:

(1) The regulations in this part, including, but not limited to, the requirements contained in §§ 52.81 through 52.87; and

(2) The terms and provisions of the contract pursuant to which the service is to be performed.

§ 52.82 *Premises.* The premises of the plant shall be free from conditions objectionable to food processing operations; and such conditions include, but are not limited to, the following:

(a) Strong offensive odors;

[1] The fees specified in this section are exclusive of charges for such micro, chemical and certain other special analyses, other than salt, acid, catalase, peroxidase, soluble solids (by refrac.) or total solids (by refrac.), which may be requested by the applicant or required by the inspector to determine the quality or condition of the processed product.

[1] When any of these analyses are made at the request of an appplicant and are not in connection with an inspection to determine the quality or condition of the product, the listed fees shall be increased by 20%.

[2] When these analyses are made in connection with an inspection to determine the quality or condition of the product no fee shall be charged for the analyses.

[4] Compliance with the above requirements does not excuse failure to comply with all applicable sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such plants and operations.

(b) Litter, waste, and refuse (e. g., garbage, viner refuse, and damaged containers) within the immediate vicinity of the plant buildings or structures;

(c) Excessively dusty roads, yards, or parking lots; and

(d) Poorly drained areas.

§ 52.83 *Buildings and structures.* The plant buildings and structures shall be properly constructed and maintained in a sanitary condition, including, but not being limited to, the following requirements:

(a) There shall be sufficient light (1) consistent with the use to which the particular portion of the building is devoted and (2) to permit efficient cleaning. Belts and tables on which picking, sorting, or trimming operations are carried on shall be provided with sufficient nonglaring light to insure adequacy of the respective operation.

(b) If practicable, there shall be sufficient ventilation in each room and compartment thereof to prevent excessive condensation of moisture and to insure sanitary and suitable processing and operating conditions. If such ventilation does not prevent excessive condensation, the Administrator may require that suitable facilities be provided to prevent the condensate from coming in contact with equipment used in processing operations and with any ingredient used in the manufacture or production of a processed product.

(c) There shall be an efficient waste disposal and plumbing system. All drains and gutters shall be properly installed with approved traps and vents, and shall be maintained in good repair and in proper working order.

(d) There shall be ample supply of both hot and cold water; and the water shall be of safe and sanitary quality with adequate facilities for its (1) distribution throughout the plant, and (2) protection against contamination and pollution.

(e) Roofs shall be weather-tight. The walls, ceilings, partitions, posts, doors, and other parts of all buildings and structures shall be of such materials, construction, and finish as to permit their efficient and thorough cleaning. The floors shall be constructed of tile, cement, or other equally impervious material, shall have good surface drainage, and shall be free from openings or rough surfaces which would interfere with maintaining the floors in a clean condition.

(f) Each room and each compartment in which any processed products are handled, processed, or stored (1) shall be so designed and constructed as to insure processing and operating conditions of a clean and orderly character; (2) shall be free from objectionable odors and vapors; and (3) shall be maintained in a clean and sanitary condition.

(g) Every practical precaution shall be taken to exclude dogs, cats, and vermin (including, but not being limited to, rodents and insects) from the rooms in which processed products are being prepared or handled and from any rooms in which ingredients (including, but not being limited to, salt, sugar, spices, flour, syrup, and raw fruits and vegetables) are handled or stored. Screens, or other devices, adequate to prevent the passage of insects shall, where practical, be provided for all outside doors and openings. The use of poisonous cleansing agents, insecticides, bactericides, or rodent poisons shall not be permitted except under such precautions and restrictions as will prevent any possibility of their contamination of the processed product.

§ 52.84 *Facilities.* Each plant shall be equipped with adequate sanitary facilities and accommodations, including, but not being limited to, the following:

(a) There shall be a sufficient number of adequately lighted toilet rooms, ample in size, and conveniently located. Such rooms shall not open directly into rooms or compartments in which processed products are being manufactured or produced, or handled. Toilet rooms shall be adequately screened and equipped with self-closing doors and shall have independent outside ventilation.

(b) Lavatory accommodations (including, but not being limited to, running water, single service towels, and soap) shall be placed at such locations in or near toilet rooms and in the manufacturing or processing rooms or compartments as may be necessary to assure the cleanliness of each person handling ingredients used in the manufacture or production of processed products.

(c) Containers intended for use as containers for processed products shall not be used for any other purpose.

(d) No product or material which creates an objectionable condition shall be processed, handled, or stored in any room, compartment, or place where any processed product is manufactured, processed, or handled.

(e) Suitable facilities for cleaning (e. g., brooms, brushes, mops, clean cloths, hose, nozzles, soaps, detergent, sprayers, and steam pressure hose and guns) shall be provided at convenient locations throughout the plant.

§ 52.85 *Equipment.* All equipment used for receiving, washing, segregating, picking, processing, packaging, or storing any processed products or any ingredients used in the manufacture or production thereof, shall be of such design, material, and construction as will:

(a) Enable the examination, segregation, preparation, packaging and other processing operations applicable to processed products, in an efficient, clean, and sanitary manner, and

(b) Permit easy access to all parts to insure thorough cleaning and effective bactericidal treatment. Insofar as is practicable, all such equipment shall be made of corrosion-resistant material that will not adversely affect the processed product by chemical action or physical contact. Such equipment shall be kept in good repair and sanitary condition.

§ 52.86 *Operations and operating procedures.* (a) All operations in the receiving, transporting, holding, segregating, preparing, processing, packaging and storing of processed products and ingredients, used as aforesaid, shall be strictly in accord with clean and sanitary methods and shall be conducted as rapidly as practicable and at temperatures that will not tend to cause (1) any material increase in bacterial or other micro-organic content, or (2) any deterioration or contamination of such processed products or ingredients thereof. Mechanical adjustments or practices which may cause contamination of foods by oil, dust, paint, scale, fumes, grinding materials, decomposed food, filth, chemicals, or other foreign materials shall not be conducted during any manufacturing or processing operation.

(b) All processed products and ingredients thereof shall be subjected to continuous inspection throughout each manufacturing or processing operation. All processed products which are not manufactured or prepared in accordance with the requirements contained in §§ 52.81 through 52.87 or are not fit for human food shall be removed and segregated prior to any further processing operation.

(c) All ingredients used in the manufacture or processing of any processed product shall be clean and fit for human food.

(d) The methods and procedures employed in the receiving, segregating, handling, transporting, and processing of ingredients in the plant shall be adequate to result in a satisfactory processed product. Such methods and procedures include, but are not limited to, the following requirement:

(1) Containers, utensils, pans, and buckets used for the storage or transporting of partially processed food ingredients shall not be nested unless rewashed before each use;

(2) Containers which are used for holding partially processed food ingredients shall not be stacked in such manner as to permit contamination of the partially processed food ingredients;

(3) Packages or containers for processed products shall be clean when being filled with such products; and all reasonable precautions shall be taken to avoid soiling or contaminating the surface of any package or container liner which is, or will be, in direct contact with such products. If, to assure a satisfactory finished product, changes in methods and procedures are required by the Administrator, such changes shall be effectuated as soon as practicable.

§ 52.87 *Personnel; health.* In addition to such other requirements as may be prescribed by the Administrator with respect to persons in any room or compartment where exposed ingredients are prepared, processed, or otherwise handled, the following shall be complied with:

(a) No person affected with any communicable disease (including, but not being limited to, tuberculosis) in a transmissible stage shall be permitted;

(b) Infections or cuts shall be covered with rubber gloves or other suitable covering;

(c) Clean, suitable clothing shall be worn;

(d) Hands shall be washed immediately prior to starting work and each resumption of work after each absence from the work station;

(e) Spitting, and the use of tobacco are prohibited; and

(f) All necessary precautions shall be taken to prevent the contamination of processed products and ingredients thereof with any foreign substance (including, but not being limited to, perspiration, hair, cosmetics, and medicaments).

## SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED APPLE JUICE[1]

### PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.301 *Product description.* Canned apple juice is the unfermented liquid prepared from the first pressing juice of properly prepared sound, fresh apples, excluding the liquid obtained from any additional residual apple material. Such apple juice is prepared without any concentration, without dilution, or without the addition of sweetening ingredients; may be processed with or without the addition of antioxidants; and is sufficiently processed by heat to assure preservation of the product in hermetically sealed containers (either metal or glass).

§ 52.302 *Styles of canned apple juice.* (a) Style I, Clear (typical of "clarified" apple juice).

(b) Style II, Cloudy (typical of "nonclarified" apple juice, but not a crushed or disintegrated apple product).

§ 52.303 *Grades of canned apple juice.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned apple juice that possesses a very good color; is practically free from defects; possesses a very good flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of canned apple juice that possesses a good color; is fairly free from defects; possesses a good flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade D" or "Substandard" is the quality of canned apple juice that fails to meet the requirements of U. S. Grade C or U. S. Standard.

### FILL OF CONTAINER

§ 52.304 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be filled as full as practicable with apple juice and that the product occupy not less than 90 percent of the volume of the container.

### FACTORS OF QUALITY

§ 52.305 *Ascertaining the grade.* (a) The grade of canned apple juice may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, absence of defects, and flavor.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(b) The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each factor is:

| Factors: | Points |
|---|---|
| Color | 20 |
| Absence of defects | 20 |
| Flavor | 60 |
| Total score | 100 |

§ 52.306 *Ascertaining the rating for each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.307 *Color—(a) (A) classification.* Canned apple juice that possesses a very good color may be given a score of 17 to 20 points. "Very good color" means that the color is bright and typical of freshly pressed juice and may vary from characteristic light non-amber shades to medium amber shades; that the canned apple juice of Style I, Clear, is sparkling clear and transparent; and that canned apple juice of Style II, Cloudy, may range from a slight translucent appearance to a definitely hazy appearance.

(b) *(C) classification.* If the canned apple juice possesses a good color, a score of 14 to 16 points may be given. Canned apple juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Good color" means that the color is typical of canned apple juice, which color may be deep amber or other typical color but is not off color for the respective style.

(c) *(SStd) classification.* Canned apple juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.308 *Absence of defects.* The factor of absence of defects refers to the degree of freedom from sediment or other residue, dark specks, particles of seeds, coarse particles of pulp, or other defects.

(a) *(A) classification.* Canned apple juice that is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that the canned apple juice may possess a slight amount of sediment or residue of an amorphous nature; may possess not more than a trace of dark specks or of sediment or residue of a non-amorphous nature; and shall be free from particles of seed, coarse particles of pulp, or other defects.

(b) *(C) classification.* If the canned apple juice is fairly free from defects, a score of 14 to 16 points may be given. Canned apple juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the canned apple juice may possess a slight amount of sediment or residue of an amorphous or non-amorphous nature, of dark specks, of particles of seed, of coarse particles of pulp, or of any other defects, provided such defects do not seriously affect the appearance or palatability of the product.

(c) *(SStd) classification.* Canned apple juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.309 *Flavor.* The factor of flavor refers to the degree of excellence and palatableness of a distinct apple juice flavor and aroma typical of apple juice that has been properly processed.

(a) *(A) classification.* Canned apple juice that possesses a very good flavor may be given a score of 51 to 60 points. "Very good flavor" means that the canned apple juice possesses a fine, distinct canned apple juice flavor and a typical fruity odor which may be slightly oxidized or slightly astringent but is free from any trace of scorching, of the flavor of overprocessing, of objectionable oxidation, of the flavor of green fruit, or of any other objectionable flavor or odor. To score in this classification canned apple juice shall meet the following additional requirements:

*Brix.* Not less than 11.5 degrees.

*Acid.* Not less than 0.35 gm. nor more than 0.70 gm., calculated as malic, per 100 ml. of juice.

(b) *(C) classification.* If the canned apple juice possesses a good flavor, a score of 42 to 50 points may be given. Canned apple juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Good flavor" means that the canned apple juice possesses a normal flavor and odor, typical of canned apple juice which may be more than slightly oxidized or may be more than slightly astringent but is free from objectionable odors or objectionable flavors of any kind. To score in this classification canned apple juice shall meet the following additional requirements:

*Brix.* Not less than 10.5 degrees.

*Acid.* Not less than 0.30 gm. nor more than 0.80 gm., calculated as malic, per 100 ml. of juice.

(c) *(SStd) classification.* Canned apple juice that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 41 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

### EXPLANATIONS AND ANALYSES

§ 52.310 *Explanation of terms.* (a) "Brix" means the degrees Brix of canned apple juice when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If canned apple juice is tested at a temperature other than 20 degrees C. (68 degrees F.) the applicable temperature correction shall be made to the reading of the scale as prescribed in "Official and Tentative Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of canned apple juice may be determined

by any other method which gives equivalent results.

(b) "Acid" means grams of acid (calculated as malic acid) per 100 ml. of juice in canned apple juice determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator or any other satisfactory indicator.

LOT CERTIFICATION TOLERANCES

§ 52.311 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned apple juice, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(1) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

§ 52.312 *Score sheet for canned apple juice.*

| | |
|---|---|
| Size and kind of container | |
| Container mark or identification | |
| Label | |
| Liquid measure (Fl. ounces) | |
| Vacuum (in inches) | |
| Brix (degrees) | |
| Acid (malic: grams/100 ml.) | |

| Factors | Score points | |
|---|---|---|
| Color | 20 | (A) 17–20<br>(C) [1] 14–16<br>(D) [1] 0–13 |
| Absence of defects | 20 | (A) 17–20<br>(C) [1] 14–16<br>(D) [1] 0–13 |
| Flavor | 60 | (A) 51–60<br>(C) [1] 42–50<br>(D) [1] 0–41 |
| Total score | 100 | |

Grade

[1] Indicates limiting rule.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED APPLESAUCE[1]

PRODUCT DESCRIPTION AND GRADES

§ 52.331 *Product description.* "Canned applesauce" is prepared from sound, fresh, apples (Pyrus malus) of proper ripeness, which fruit has been washed, peeled, cored, trimmed, sorted, chopped, and pulped; is packed with or without the addition of sweetening ingredients, water, salt, and spices; and is sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

§ 52.332 *Grades of canned applesauce.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned applesauce that possesses a good color and a good flavor; and that is of such quality with respect to consistency, finish, and absence of defects, as to score not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of canned applesauce that possesses a fairly good color, a fairly good flavor, a fairly good consistency, and a fairly good finish; that is fairly free from defects; and that scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade D" or "Substandard" is the quality of canned applesauce that fails to meet the requirements of U. S. Grade C or U. S. Standard.

FILL OF CONTAINER

§ 52.333 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container of canned applesauce be filled as full as practicable without impairment of quality and that the product occupy not less than 90 percent of the volume of the container.

FACTORS OF QUALITY

§ 52.334 *Ascertaining the grade.* (a) The grade of canned applesauce is ascertained by considering, in conjunction with the other requirements of the respective grade, the respective ratings for the factors of color, consistency, finish, absence of defects, and flavor.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors is:

| Factors: | *Points* |
|---|---|
| Color | 20 |
| Consistency | 20 |
| Finish | 20 |
| Absence of defects | 20 |
| Flavor | 20 |
| Total score | 100 |

§ 52.335 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.336 *Color*—(a) *(A) classification.* Canned applesauce that possesses a good color may be given a score of 17 to 20 points. "Good color" means that the canned applesauce possesses a practically uniform, bright, typical color; is free from tinges of pink color, and is free from discoloration due to scorching, oxidation, or other causes.

(b) *(C) classification.* Canned applesauce that possesses a fairly good color may be given a score of 14 to 16 points. Canned applesauce that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned applesauce possesses a fairly uniform, typical color that may be dull, slightly brown, slightly gray, or slightly pink, but is not off color.

(c) *(SStd) classification.* Canned applesauce that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.337 *Consistency.* The factor of consistency refers to the viscosity of the product and to the degree of separation of free liquor.

(a) *(A) classification.* Canned applesauce that possesses a good consistency may be given a score of 17 to 20 points. "Good consistency" means that the canned applesauce, after stirring and emptying from the container to a dry flat surface, forms a moderately mounded mass, and that at the end of two minutes there is not more than a slight separation of free liquor.

(b) *(C) classification.* Canned applesauce that possesses a fairly good consistency may be given a score of 14 to 16 points. Canned applesauce that scores 15 points or less in this classification shall not be graded above U. S. Grade C or U. S. Standard regardless of the total score for the product (this is a partial limiting rule). "Fairly good consistency" means that the canned applesauce, after stirring and emptying from the container to a dry flat surface, may be more than moderately mounded, may be moderately stiff but not excessively stiff, or may be slightly thin so that it levels itself and that at the end of two minutes there may be moderate but not excessive separation of free liquor.

(c) *(SStd) classification.* Canned applesauce that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.338 *Finish.* The factor of finish refers to the texture of the product and evenness of the apple particles.

(a) *(A) classification.* Canned applesauce that possesses a good finish may be given a score of 17 to 20 points. "Good finish" means that the apple particles are evenly divided; that the product is granular but not lumpy; is not pasty or "salvy"; and the apple particles are not hard.

(b) *(C) classification.* Canned applesauce that possesses a fairly good finish may be given a score of 14 to 16 points. Canned applesauce that scores 15 points or less in this classification shall not be graded above U. S. Grade C or U. S. Standard regardless of the total score for the product (this is a partial limiting rule). "Fairly good finish" means that the apple particles are evenly divided; the product may lack granular characteristics; may be slightly pasty or slightly "salvy" but not decidedly pasty or decidedly "salvy"; and the apple particles are not hard.

(c) *(SStd) classification.* Canned applesauce that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.339 *Absence of defects.* The factor of absence of defects refers to the degree of freedom from particles of seeds, flecks of bruised apple particles, peel, carpel tissue, dark particles from the blossom end of apples, and from other objectionable particles.

(a) *(A) classification.* Canned applesauce that is practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that the number, size, and color of the aforesaid defects present do not materially affect the appearance or eating quality of the product.

(b) *(C) classification.* Canned applesauce that is fairly free from defects may be given a score of 14 to 16 points. Canned applesauce that scores 14 points in this classification shall not be graded above U. S. Grade C or U. S. Standard regardless of the total score for the product (this is a partial limiting rule). "Fairly free from defects" means that the number, size and color of the aforesaid defects present do not seriously affect the appearance or eating quality of the product.

(c) *(SStd) classification.* Canned applesauce which fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.340 *Flavor.* Consideration is given under the factor of flavor to the natural flavor and aroma of the apple ingredient and the apparent relationship of acidity to sweetness.

(a) *(A) classification.* Canned applesauce that possesses a good flavor may be given a score of 17 to 20 points. "Good flavor" means that the product has a distinct, desirable, characteristic, normal flavor and odor, and is free from objectionable flavors and objectionable odors of any kind (including but not being limited to those caused by oxidation, fermentation, and caramelization). The canned applesauce shall test not less than 16.5 degrees Brix.

(b) *(C) classification.* Canned applesauce that possesses a fairly good flavor may be given a score of 14 to 16 points. Canned applesauce that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard regardless of the total score for the product (this is a limiting rule). "Fairly good flavor" means that the product may be lacking in good flavor and odor; is practically free from the flavor of overripe fruit; and is free from objectionable flavors and objectionable odors (including but not being limited to those caused by oxidation, fermentation and serious caramelization).

(c) *(SStd) classification.* Canned applesauce which fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS

§ 52.341 *Definition of term used in these standards.* "Degrees Brix" in canned applesauce is the refractometric sucrose value of the filtrate determined in accordance with the International Scale of Refractive Indices of Sucrose Solutions without correction for insoluble solids or acids.

LOT CERTIFICATION TOLERANCES

§ 52.342 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned applesauce, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(1) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN APPLES[1]

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.361 *Product description.* Frozen apples are prepared from sound, properly ripened fruit of Malus sylvestris (Pyrus malus); are peeled, cored, trimmed, sliced, sorted, and washed; are properly drained before filling into containers; may be packed with or without the addition of a sweetening ingredient and are frozen and stored at temperatures necessary for the preservation of the product.

§ 52.362 *Styles of frozen apples.* (a) "Slices" means frozen apples consisting of slices of apples cut longitudinally and radially from the core.

(b) "Rings" means frozen apples consisting of slices cut transversely to the core.

§ 52.363 *Grades of frozen apples.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen apples that possess similar varietal characteristics; that possess a good flavor; that possess a good color; that are practically free from defects; that possess a good character; and are of such quality with respect to uniformity of size as to score not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of frozen apples that possess similar varietal characteristics; that possess reasonably good flavor; that possess a reasonably good color; that are reasonably uniform in size; that are reasonably free from defects; that possess a reasonably good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen apples that fail to meet the requirements of U. S. Grade B or U. S. Choice.

FACTORS OF QUALITY

§ 52.364 *Ascertaining the grade.* (a) The grade of frozen apples is ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, uniformity of size, absence of defects, and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given for such factors are:

| Factors: | *Points* |
|---|---|
| Color | 20 |
| Uniformity of size | 20 |
| Absence of defects | 20 |
| Character of fruit | 40 |
| Total score | 100 |

(c) The scores for the factors of color, uniformity of size, absence of defects, and character are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(d) "Good flavor" means that the product has a good, characteristic, normal flavor and odor, and is free from objectionable flavors and objectionable odors of any kind.

(e) "Reasonably good flavor" means that the product may be lacking in good flavor and odor; and is free from objectionable flavors and objectionable odors of any kind.

§ 52.365 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.366 *Color*—(a) *(A) classification.* Frozen apples that possess a good color may be given a score of 17 to 20 points. "Good color" means that the frozen apples, internally and externally, possess a reasonably uniform bright color, characteristic of apples of similar varieties.

(b) *(B) classification.* Frozen apples that possess a reasonably good color may be given a score of 14 to 16 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the frozen apples possess a color that is typical of apples of similar varietal characteristics, that may be variable and that the product may possess a slight but not markedly brown or gray cast and shall be practically free from internal discoloration.

(c) *(SStd) classification.* Frozen apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product. (This is a limiting rule.)

§ 52.367 *Uniformity of size*—(a) *(A) classification.* Frozen apples that are practically uniform in size may be given a score of 17 to 20 points. "Practically uniform in size" has the following meaning with respect to the various styles of frozen apples:

(1) *Slices.* At least 90 percent by weight of the product consists of whole or practically whole slices of 1¼ inches in length or longer, and that of 90 percent by weight of the product consisting of units of the most uniform thickness, the thickness of the thickest unit does not exceed the thickness of the thinnest unit by more than one-fourth inch. "Practically whole slices" means that the individual slice may be cut or broken but at least three-fourths of the original slice is present.

(2) *Rings.* At least 75 percent by weight of the product consists of whole or practically whole rings and of 90 percent by weight of the product consisting of units of the most uniform thickness, the thickness of the thickest unit does not exceed the thickness of the thinnest unit by more than ⅛ inch. "Practically whole rings" means that the individual ring may be cut or broken on one side but at least ¾ of the ring is present.

(b) *(B) classification.* Frozen apples that are reasonably uniform in size may be given a score of 14 to 16 points. "Reasonably uniform in size" has the following meaning with respect to the various styles of frozen apples:

(1) *Slices.* At least 75 percent by weight of the product consists of whole or practically whole slices 1¼ inch in length or longer and that of 75 percent by weight of the product consisting of units of the most uniform thickness, the thickness of the thickest unit does not exceed the thickness of the thinnest unit by more than ¼ inch.

(2) *Rings.* At least 50 percent by weight of the apples consist of whole or practically whole rings.

(c) *(SStd) classification.* Frozen apples that fail to meet the requirements of paragraph (b) of this section, may be given a score of 0 to 13 points. Frozen apples that fall into this classification shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.368 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous material, damaged or seriously damaged units, and carpel tissue.

(1) "Harmless extraneous material" means any vegetable substance (including but not being limited to, a leaf, stem, or portions thereof, cores or portions of cores, and seeds) that is harmless.

(2) "Damaged" means any unit in which the appearance or eating quality is more than slightly affected by blossom end material, peel, bruise and other external or internal discoloration, or other means; and any unit that is affected by pathological injury or insect injury.

(3) "Seriously damaged" means any unit possessing dark blossom end material, peel that exceeds in the aggregate an area equal to that of a circle ½ inch in diameter, light brown bruise which is more than ¼ inch deep, and dark brown bruise; or means any unit in which the appearance or eating quality is seriously affected by other internal or external discoloration, pathological injury, insect injury, or by other means.

(4) "Practically free from carpel tissue" means that for each 16 ounces of drained weight of the product the carpel tissue present shall not exceed in the aggregate an area equal to ¾ square inch.

(5) "Reasonably free from carpel tissue" means that for each 16 ounces of drained weight of the product the carpel tissue present shall not exceed in the aggregate an area equal to 1½ square inches.

(b) *(A) classification.* Frozen apples that are practically free from defects may be given a score of 17 to 20 points. "Practically free from defects" means that extraneous material may be present that does not materially affect the appearance or eating quality of the product; that not more than a total of 8 percent, by weight, of the units may be damaged and seriously damaged: *Provided*, That not more than 3 percent, by weight, of all the units are seriously damaged; and that the product is practically free from carpel tissue.

(c) *(B) classification.* Frozen apples that are reasonably free from defects may be given a score of 14 to 16 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that extraneous material may be present that does not seriously affect the appearance or eating quality of the product; that not more than a total of 15 percent, by weight, of the units may be damaged or seriously damaged: *Provided*, That not more than 5 percent, by weight, of all the units are seriously damaged; and that the product is reasonably free from carpel tissue.

(d) *(SStd) classification.* Frozen apples that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.369 *Character*—(a) *General.* The factor of character refers to the tendency of the units to disintegrate or break down and become mushy. Frozen apples that possess a good character may be given a score of 34 to 40 points. "Good character" means that the units possess a reasonably uniform texture, are firm but not hard, with not more than 3 percent by weight, that are "mushy" apples.

(1) "Mushy apples" means fruit that is a pulpy mass and of a consistency approximating applesauce.

(b) *(B) classification.* Frozen apples that possess a reasonably good character may be given a score of 28 to 33 points. Frozen apples that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the units may be variable in texture, with not more than 12 percent by weight of the apples that are markedly soft, markedly hard, or mushy.

(c) *(SStd) classification.* Frozen apples that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.370 *Tolerance for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen apples, the grade for such lot will be determined by averaging the total scores for the containers comprising the sample, if:

(1) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated.

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN ASPARAGUS [1]

PRODUCT DESCRIPTION, STYLES, TYPES, AND GRADES

§ 52.381 *Product description.* Frozen asparagus is the product prepared from the clean, sound and succulent fresh shoots of the asparagus plant (Asparagus officinalis) by sorting, trimming, washing, and blanching, which is then frozen and stored at temperatures necessary for the preservation of the product.

(a) "Head" in "Cut Spears" or "Cuts and Tips" means the tip end which has been cut from an asparagus shoot and which is ⅝ inch or more in length or an upper portion which possesses substantial compact head material which has been cut from near the tip end and which is approximately the same length as the predominating length of the units in the container: *Provided*, That when asparagus is cut into units less than ⅝ inch in length, tip ends which are ⅜ inch or more in length will be considered as a "head."

(b) "Unit" means any individual portion of an asparagus shoot ⅜ inch or more in length used in frozen asparagus.

§ 52.382 *Styles of frozen asparagus.* (a) "Spears" (or Stalks") is the style of frozen asparagus that consists of the head and adjoining portion of the shoot that is 3 inches or more in length.

(b) "Tips" is the style of frozen asparagus that consists of the head and adjoining portion of the shoot that is less than 3 inches in length.

(c) "Cut Spears" or "Cuts and Tips" is the style of frozen asparagus that consists of the head and portions of the shoot cut transversely into units 2 inches or less but not less than ½ inch in length. This style shall contain not less than 18 percent,[2] by count, of heads if cut into units 1¼ inches or less in length but not less than ½ inch in length and shall contain not less than 25 percent [2] by count, of heads if cut into units longer than 1¼ inches.[2]

(d) "Center Cuts" or "Cuts" is the style of frozen asparagus that consists of portions of shoots that are cut transversely into units 2 inches or less but not less than ½ inch in length, or that does not meet the foregoing definition for "Cut Spears" or "Cuts and Tips."

§ 52.383 *Grades of frozen asparagus.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen asparagus that possesses similar varietal characteristics; that possesses a good flavor and odor; that is pratically free from defects; that possesses a good character; and that is of such quality with respect to color and uniformity of length as to score not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen asparagus that possesses similar varietal characteristics; that possesses a reasonably good flavor and odor; that possesses a reasonably good color; that is reasonably free from defects; that possesses a reasonably good character; and that is of such quality with respect to uniformity of length as to score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of frozen asparagus that fails to meet the requirements of U. S. Grade B or U. S. Extra Standard.

§ 52.384 *Types of frozen asparagus.* The type of frozen asparagus is not incorporated in the grades of the finished product, since the type of frozen asparagus is not a factor of quality for the purpose of these grades. The type of asparagus packed in the container may be designated as "green" or "all-green," or "green-white," asparagus when it meets the following requirements:

(a) "Green" or "all-green" consists of units of frozen asparagus which are typical green, light green, or purplish green in color.

(b) "Green-white" consists of frozen asparagus Spears and Tips, of which at least ⅔ of the length is typical green, light green, or purplish green in color, or that fails to meet the requirements of "green" or "all-green" asparagus spears and tips.

SIZES

§ 52.385 *Size of frozen asparagus.* The size of frozen asparagus Spears and Tips is determined by measuring the longest dimension at right angles to the longitudinal axis of the unit after it has been restored to its original contour, at a point 5 inches from the top, except that units less than 5 inches in length are measured at the base. Frozen asparagus spears and tips will be considered as meeting the designated size, provided, that in sizes small, medium, large, and extra large, as the case may be, 80 percent, by count, are of a single size: *And further provided*, That not more than 10 percent, by count, may be one size larger or one size smaller than a single size. The word and number designations of the various sizes of frozen asparagus are shown in Table No. 1 of this section.

TABLE NO. 1—SIZES OF FROZEN ASPARAGUS, SPEARS, AND TIPS

| Word designation | Number designation | Diameter in inches |
|---|---|---|
| Small | 1 | Less than ⅜ inch. |
| Medium | 2 | ⅜ inch or larger but less than ½ inch. |
| Large | 3 | ½ inch or larger but less than ⅞ inch. |
| Extra large | 4 | ⅞ inch or larger. |
| Mixture or blend of sizes. | ----- | A mixture of two or more sizes or that does not meet any of the designations. |

FACTORS OF QUALITY

§ 52.386 *Ascertaining the grade.* (a) The grade of frozen asparagus may be ascertained by considering, in conjunction with the other requirements of the respective grade, the respective rating for the factors of color, uniformity of length, absence of defects, and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors is:

| Factors: | Points |
|---|---|
| Color | 20 |
| Uniformity of length | 10 |
| Absence of defects | 30 |
| Character | 40 |
| Total score | 100 |

(c) The scores for the factors of color, uniformity of length, absence of defects, and character are determined immediately after thawing under water to the extent that the product is substantially free from ice crystals and can be handled as individual units, and is cooked to determine tough fibers and the degree of shriveling as required under the factor of "character." The cooking time (from the time the water reboils after the asparagus is added) is nine minutes for sizes No. 1 and No. 2 and twelve minutes for sizes No. 3 and No. 4 and for mixed sizes.

(d) "Good flavor and odor" means that the product, after cooking, has a good, characteristic normal flavor and odor, and is free from objectionable flavors or objectionable odors of any kind.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] The percent, by count, of heads is determined by averaging the percent, by count, of heads in all of the containers comprising the sample: *Provided*, That when cut into units 1¼ inches or less in length no individual container may contain less than 12 percent, by count, of heads, and when cut into units longer than 1¼ inches no container may contain less than 15 percent, by count, of heads.

(e) "Reasonably good flavor and odor" means that the product, after cooking, may be lacking in good characteristic normal flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.387 *Ascertaining the rating of the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.388 *Color*—(a) *General.* The color of asparagus is based on the type and style of asparagus and the characteristic and predominant color of the exterior surface of the units. Units which are substantially green, light green, or purplish green that possess insignificant areas or tinges of typical white or yellowish white color shall be considered as typical green, light green, or purplish green in color, irrespective of type or style.

(b) (*A*) *classification.* Frozen asparagus that possesses a good color may be given a score of 17 to 20 points. "Good color" has the following meanings with respect to the following types and styles of frozen asparagus:

(1) *Green or all-green spears or tips.* The units possess a good characteristic green, light green, or purplish green color, typical of well developed and tender asparagus and not more than 8 percent, by count, of the units may possess typical white or yellowish white color not in excess of ⅓ of the length of the unit.

(2) *Green or all-green cut spears or cuts and tips and center cuts or cuts.* The units possess a good characteristic green, light green, or purplish green color, typical of at least reasonably well developed and tender asparagus and not more than 6 percent, by count, of the units may be typical white or yellowish white or partially of such color.

(3) *Green-white spears or tips.* The units possess a good characteristic green, light green, or purplish green color typical of well developed and tender asparagus and may possess typical white or yellowish white color: *Provided,* That not more than 5 percent, by count, of the units, or one unit, whichever is larger, may possess such color in excess of ⅓ of the length of the unit.

(c) (*B*) *classification.* If the frozen asparagus possesses a reasonably good color a score of 14 to 16 points may be given. "Reasonably good color" has the following meanings with respect to the following types and styles of frozen asparagus:

(1) *Green or all-green spears or tips.* The units possess a reasonably good characteristic green, light green, or purplish green color typical of reasonably well developed and tender asparagus and not more than 16 percent, by count, of the units may possess typical white or yellowish white color not in excess of ⅓ of the length of the unit.

(2) *Green or all-green cut spears or cuts and tips and center cuts or cuts.* The units possess a reasonably good characteristic green, light green, or purplish green color, typical of reasonably well developed and tender asparagus and not more than 12 percent, by count, of the units may be typical white or yellowish white or partially of such color.

(3) *Green-white spears or tips.* The units possess a reasonably good characteristic green, light green, or purplish green color, typical of reasonably well developed and tender asparagus, and may possess typical white or yellowish white color: *Provided,* That not more than 10 percent, by count, of the units may possess such color in excess of ⅓ of the length of the unit.

(d) (*SStd*) *classification.* Frozen asparagus that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard regardless of the total score for the product (this is a limiting rule).

§ 52.389 *Uniformity of length*—(a) (*A*) *classification.* Frozen asparagus that is practically uniform in length may be given a score of 9 to 10 points. "Practically uniform in length" has the following meanings with respect to the following styles:

(1) *Spears (or stalks) and tips.* In 90 percent or more, by count, of the units with the most uniform length, the length of the longest unit does not exceed the length of the shortest unit by more than ¼ of the length of the shortest unit.

(2) *Cut spears or cuts and tips and center cuts or cuts.* Not more than 2 percent, by count, of the units are longer than 2 inches and at least 80 percent, by count, shall not vary more than ½ inch from the predominant length of the units.

(b) (*B*) *classification.* If the frozen asparagus is reasonably uniform in length a score of 7 to 8 points may be given. "Reasonably uniform in length" has the following meanings with respect to the following styles:

(1) *Spears (or stalks) and tips.* In 80 percent or more, by count, of the units with the most uniform length, the length of the longest unit does not exceed the length of the shortest unit by more than ¼ of the length of the shortest unit.

(2) *Cut spears or cuts and tips and center cuts or cuts.* Not more than 5 percent, by count, of the units are longer than 2 inches in length and at least 55 percent, by count, shall not vary more than ½ inch from the predominant length of the units.

(c) (*SStd*) *classification.* Frozen asparagus that fails to meet the requirements of paragraph (b) of this section may be given a score of 0 to 6 points and shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule).

§ 52.390 *Absence of defects*—(a) *General.* The factor of absence of defects has reference to the degree of freedom from grit or silt, loose material, shattered heads, misshapen units, poorly cut units, and from units damaged and seriously damaged by discoloration, mechanical injury, pathological injury, insect injury, or damaged by other means not specifically mentioned.

(1) "Grit or silt" means sand or any other particle of earthy material.

(2) "Loose material" means any loose or shattered asparagus material, cut or broken pieces, less than ⅜ inch in length.

(3) "Shattered head" means any unit with the asparagus head broken or shattered to the extent that the appearance is seriously affected.

(4) "Misshapen" means any spear (or stalk) or tip that is badly crooked, or any unit that is seriously affected in appearance by doubles or other malformations.

(5) "Poorly cut" means a unit that has a very ragged, stringy, or frayed edge or edges or a unit that is partially cut, or is cut at an angle of less than approximately 45 degrees.

(6) "Damaged" means damaged by discoloration, mechanical injury, pathological injury, insect injury, or damaged by other means which have not been specifically mentioned to such an extent that the aggregate damaged area materially affects the appearance or edibility of the unit.

(7) "Seriously damaged" means damaged to such an extent that the appearance or edibility of the unit is seriously affected.

(b) (*A*) *classification.* Frozen asparagus that is practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" has the following meanings with respect to the following styles of frozen asparagus:

(1) *Spears (or stalks) and tips.* No grit or silt may be present that affects the appearance or edibility of the product; loose material may be present that does not materially affect the appearance of the product and there may be present not more than 15 percent, by count, of shattered heads, misshapen units, poorly cut units, and damaged and seriously damaged units: *Provided,* That of such 15 percent not more than ⅓ thereof or not more than 3 percent, by count, of all the units may be seriously damaged: *And further provided,* That one unit with shattered head, misshapen unit, poorly cut unit, and damaged and seriously damaged unit is permitted in a container if such unit exceeds the respective allowances of 15 percent, by count, or 3 percent, by count, of all the units.

(2) *Cut spears or cuts and tips and center cuts or cuts.* No grit or silt may be present that affects the appearance or eating quality of the product, loose material may be present that does not materially affect the appearance of the product and there may be present not more than 10 percent, by count, of shattered heads, misshapen units, poorly cut units, and damaged and seriously damaged units: *Provided,* That of such 10 percent not more than ½ thereof or not more than 5 percent, by count, of all the units may be seriously damaged.

(c) (*B*) *classification.* If the frozen asparagus is reasonably free from defects a score of 22 to 25 points may be given. Frozen asparagus that falls into this classification shall not be graded

above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" has the following meanings with respect to the following styles of frozen asparagus:

(1) *Spears (or stalks) and tips.* Not more than a trace of grit or silt may be present that slightly affects the appearance or eating quality of the product; loose material may be present that does not seriously affect the appearance of the product; and there may be present not more than 30 percent, by count, of shattered heads, misshapen units, poorly cut units, and damaged and seriously damaged units: *Provided,* That of such 30 percent not more than ⅓ thereof or not more than 10 percent, by count, of all the units may be seriously damaged.

(2) *Cut spears or cuts and tips and center cuts or cuts.* Not more than a trace of grit or silt may be present that slightly affects the appearance or eating quality of the product; loose material may be present that does not seriously affect the appearance of the product; and there may be present not more than 20 percent, by count, of shattered heads, misshapen units, poorly cut units, and damaged and seriously damaged units: *Provided,* That of such 20 percent not more than ½ thereof or not more than 10 percent, by count, of all the units may be seriously damaged.

(d) (*SStd*) *classification.* Frozen asparagus that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.391 *Character*—(a) *General.* The factor of character refers to the degree of development of the head and bracts, and to the tenderness and texture of the unit, and to the degree of freedom from shriveling.

(1) "Well developed" means that the appearance of the head is not materially affected by a seedy appearance and is practically compact.

(2) "Reasonably well developed" means that the head may show a seedy appearance over the surface and the head and bracts may be elongated but not so developed or elongated as to give a definitely spread or branching appearance.

(b) (*A*) *classification.* Frozen asparagus that possesses a good character may be given a score of 33 to 40 points. "Good character" has the following meanings with respect to the following styles:

(1) *Spears (or stalks) and tips.* Not less than 90 percent, by count, of the heads are well developed, and immediately after thawing and cooking the appearance of the product is not materially affected by shriveling and not more than 10 percent, by count, of the units may possess tough fibers.

(2) *Cut spears or cuts and tips and center cuts or cuts.* The heads are at least reasonably well developed, and immediately after thawing and cooking the appearance of the product is not materially affected by shriveling and not more than 5 percent, by count, of the units may possess tough fibers.

(c) (*B*) *classification.* If the frozen asparagus possesses a reasonably good character a score of 27 to 32 points may be given. Frozen asparagus that falls into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" has the following meanings with respect to the following styles:

(1) *Spears (or stalks) and tips.* Not less than 90 percent, by count, of the heads are reasonably well developed, and immediately after thawing and cooking the appearance of the product is not seriously affected by shriveling and not more than 20 percent, by count, of the units may possess tough fibers.

(2) *Cut spears or cuts and tips and center cuts or cuts.* Not less than 65 percent, by count, of all the heads are reasonably well developed, and immediately after thawing and cooking the appearance of the product is not seriously affected by shriveling and not more than 10 percent, by count, of the units may possess tough fibers.

(d) (*SStd*) *classification.* Frozen asparagus that fails to meet the requirements of paragraph (c) of this section may be given a score of 0 to 26 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.392 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen asparagus, the grade for such lot will be determined by averaging the total scores of all containers, if:

(1) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(2) None of the containers comprising the sample fall more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

§ 52.393 *Score sheet for frozen asparagus.*

| Factors | Score points | | |
|---|---|---|---|
| Color | 20 | (A) | 17–20 |
| | | (B) | 14–16 |
| | | (SStd.) | 10–13 |
| Uniformity of length | 10 | (A) | 9–10 |
| | | (B) | 7–8 |
| | | (SStd.) | 1–6 |
| Absence of defects | 20 | (A) | 26–30 |
| | | (B) | 22–25 |
| | | (SStd.) | 10–21 |

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED DRIED BEANS [1]

PRODUCT DESCRIPTION, TYPES, STYLES, AND GRADES

§ 52.411 *Product description.* Canned dried beans are prepared from the matured seeds of varieties of beans (sometimes called "peas") used for canning, but not including soy-beans; and may be prepared by washing, soaking, blanching, or other processing; may be packed with or without the addition of water, spices, spice oils, spice flavorings, salt, coloring agents, thickening ingredients, sweetening ingredients, tomato products, pork or pork products, and meat or meat products; and are sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

§ 52.412 *Types of canned dried beans.* (a) White beans. (b) Lima beans. (c) Red beans. (d) Black-eye beans or black-eye peas. (e) Beans or "peas" of other colors or types.

§ 52.413 *Styles of packs of canned dried beans.* Canned dried beans are usually packed in the following styles:

(a) *In tomato sauce.* This style of pack contains tomato pulp or tomato puree or a similar tomato product in the packing medium with or without any one or more of the following: sweetening ingredients, salt, thickening ingredients, coloring agents, and spices or other flavorings. Variations of this style are:

(1) In tomato sauce with pork or pork product.

(2) In tomato sauce with meat or meat product.

(b) *In sweetened sauce.* This style of pack contains sweetening ingredients in the packing medium with or without any one or more of the following: Salt, thickening ingredients, coloring agents, spices or other flavorings, and molasses. Variations of this style are:

(1) In sweetened sauce with pork or pork product.

(2) In sweetened sauce with meat or meat product.

(c) *In brine.* This style of pack contains water and salt in the packing medium with or without any one or more

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

of the following: spices or other flavorings, and thickening ingredients.

§ 52.414 *Grades of canned dried beans.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned dried beans that possess similar varietal characteristics; are practically free from defects; possess a good character; possess a good typical color; possess a reasonably rich, typical and normal flavor; and are of such quality with respect to consistency that the total score is not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of canned dried beans that possess similar varietal characteristics; possess a fairly good consistency; are fairly free from defects; possess a fairly good character; possess a good typical color; possess a typical and normal flavor; and score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade D" or "Substandard" is the quality of canned dried beans that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FILL OF CONTAINER

§ 52.415 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned dried beans be filled with canned dried beans as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the volume capacity of the container.

FACTORS OF QUALITY

§ 52.416 *Ascertaining the grade.* (a) The grade of canned dried beans may be ascertained by considering, in addition to the requirements of the respective grade, the following factors: Consistency, absence of defects, and character.

(b) The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given for each factor is:

| | Points |
|---|---|
| Consistency | 20 |
| Absence of defects | 40 |
| Character | 40 |
| Total score | 100 |

§ 52.417 *Ascertaining the rating of each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor is inclusive (for example, the range "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.418 *Consistency*—(a) (*A*) *classification.* Canned dried beans that possess a good consistency may be given a scope of 17 to 20 points. "Good consistency" has the following meaning for the respective style of canned dried beans when they are emptied on a flat surface:

(1) *In tomato sauce and in sweetened sauce.* The sauce is smooth and is neither grainy nor lumpy and the product forms a slightly mounded mass of beans and packing medium with not more than a slight separation of liquid.

(2) *In brine.* The packing medium is neither grainy nor lumpy and the product may possess a thick consistency or a consistency in which there is a separation of liquid.

(b) (*C*) *classification.* If the canned dried beans possess a fairly good consistency, a score of 14 to 16 points may be given. "Fairly good consistency" has the following meaning for the respective style of canned dried beans when they are emptied on a flat surface:

(1) *In tomato sauce and in sweetened sauce.* The sauce is fairly smooth and may be slightly grainy but is not lumpy and the product possesses a thick consistency with practically no separation of liquid or with a moderate separation of liquid but does not possess a watery consistency.

(2) *In brine.* The packing medium is fairly smooth and may be slightly grainy but is not lumpy and the product may possess a consistency in which there is considerable separation of liquid or may possess a watery consistency.

(c) (*SStd*) *classification.* Canned dried beans that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.419 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from extraneous material, from loose skins, from broken and mashed units, and from damaged units.

(1) A "unit" means two cotyledons and a skin, or portions thereof, whether or not attached or combined as a whole bean. A single whole skin or pieces of loose skin aggregating the equivalent of a whole skin will be considered as one-third of a unit. A cotyledon or portions of cotyledons aggregating the equivalent of a cotyledon will be considered as one-third of a unit.

(2) "Loose skins" means skins or portions of skins which have become separated wholly from the cotyledons.

(3) A "broken unit" means a bean from which either cotyledon, or portions thereof, has become detached and any such parts of the bean that have become separated from the whole bean.

(4) "Mashed units" means beans that are crushed or flattened to the extent that their appearance is seriously affected.

(5) "Damaged unit" means any unit that is (i) spotted, discolored, or otherwise damaged to such an extent that its appearance or edibility is materially affected, or (ii) affected by pathological, insect, or similar type injury regardless of the area affected. Beans that possess characteristic darkening around the hilum are not considered damaged units.

(b) (*A*) *classification.* Canned dried beans that are practically free from defects may be given a score of 34 to 40 points. "Practically free from defects" means that no extraneous material is present, and, of the units:

(1) Not more than 5 percent, by count, may be loose skins and broken and mashed units; and

(2) Not more than 4 percent, by count, may be damaged units.

(c) (*C*) *classification.* If the canned dried beans are fairly free from defects, a score of 28 to 33 points may be given. Canned dried beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that there may be present not more than 1 small piece of harmless extraneous material for each 20 ounces of net weight, and, of the units:

(1) Not more than 10 percent, by count, may be loose skins and broken and mashed units; and

(2) Not more than 8 percent, by count, may be damaged units.

(d) (*SStd*) *classification.* Canned dried beans that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.420 *Character*—(a) (*A*) *classification.* Canned dried beans that possess a good character may be given a score of 34 to 40 points. "Good character" means the beans possess a texture that is typical, that may be slightly granular or slightly firm, and that the skins are tender.

(b) (*C*) *classification.* If the canned dried beans possess a fairly good character, a score of 28 to 33 points may be given. Canned dried beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the beans possess a fairly good typical texture, that the beans may be firm but are not markedly hard, that the beans may be soft but are not mushy, and that the skins may be slightly tough.

(c) (*SStd*) *classification.* Canned dried beans that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

EXPLANATIONS

§ 52.421 *Explanation of terms.* (a) "Similar varietal characteristics" means that the beans are alike in shape, color, and general characteristics.

(b) "Good typical color" means (1) that the beans possess a color distinctly characteristic of the type of canned dried beans; and (2) that the surrounding sauce or brine possesses a color distinctly characteristic for the style of pack.

(c) "Reasonably rich, typical and normal flavor" means a flavor that is indicative of good-flavor ingredients for the respective type and style of pack, and the canned dried beans are free from objectionable flavors or objectionable odors of any kind.

(d) "Typical and normal flavor" means a flavor that is indicative of a product slightly lacking in good-flavor ingredients for the respective type and style of pack, and the canned dried beans are free from objectionable flavors or objectionable odors of any kind.

LOT CERTIFICATION TOLERANCES

§ 52.422 *Tolerance for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned dried beans, the grade for such lot will be determined by averaging the total scores of all containers, if:

(1) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED GREEN BEANS AND CANNED WAX BEANS [1]

IDENTITY, STYLES, AND GRADES

§ 52.441 *Identity.* (a) "Canned green beans" means canned green beans as defined in the definitions and standard of identity for canned green beans (21 CFR 51.10), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(b) "Canned wax beans" means canned wax beans as defined in the definitions and standard of identity for canned wax beans (21 CFR 51.15), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

(c) "Canned beans" means canned green beans or canned wax beans.

(d) "Whole green beans" or "whole wax beans" means canned beans consisting of whole pods, including pods which after removal of either or both ends are less than $2\frac{3}{4}$ inches in length, or transversely cut pods not less than $2\frac{3}{4}$ inches in length.

(e) "Unit" means an individual green bean or wax bean, or portion of either, in canned beans.

§ 52.442 *Styles of canned beans.* (a) "Whole" means canned beans that are not arranged in any definite position in the container.

(b) "Whole vertical pack" means canned beans that are packed parallel to the sides of the container.

(c) "Whole asparagus style" means canned beans consisting of pods that are cut at both ends, are of substantially equal lengths, and are packed parallel to the sides of the container.

(d) "Sliced lengthwise" or "French style" means canned beans consisting of pods that are sliced lengthwise.

(e) "Cut" or "cuts" means canned beans consisting of pods that are cut transversely into pieces less than $2\frac{3}{4}$ inches, but not less than $\frac{3}{4}$ inch, in length, and may contain shorter end pieces which result from cutting.

(f) "Short cut" or "short cuts" means canned beans consisting of pieces of pods of which not less than 75 percent are less than $\frac{3}{4}$ inch in length and not more than 1 percent are more than $1\frac{1}{4}$ inches in length.

(g) "Mixed" or "mixture" means a mixture of two or more of the following forms of canned beans: "whole;" "sliced lengthwise;" "cuts;" or "short cuts."

§ 52.443 *Grades of canned beans.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not materially affected in appearance by sloughing of the epidermis; are very young and tender; and are of such quality with respect to clearness of liquor, uniformity of color, and absence of defects as to score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not materially affected in appearance by sloughing of the epidermis; possess a reasonably uniform typical color; are young and reasonably tender; are reasonably free from defects; and are of such quality with respect to clearness of liquor as to score not less than 75 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of canned green beans or canned wax beans that possess similar varietal characteristics; possess a normal flavor and odor; are not seriously affected in appearance by sloughing of the epidermis; possess a fairly uniform typical color; are nearly mature and fairly tender; possess a fairly good liquor; are fairly free from defects; and score not less than 60 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned beans that fail to meet the requirements of U. S. Grade C or U. S. Standard and may or may not be "Below standard in quality, good food, not high grade."

FILL OF CONTAINER AND DRAINED WEIGHTS

§ 52.444 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned beans be filled with green beans or wax beans, as the case may be as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the total capacity of the container.

§ 52.445 *Recommended drained weight.* The drained weight recommendations in Table No. I of this section are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of green beans or wax beans, as the case may be, is determined by emptying the contents of the container upon a No. 8 circular sieve of proper diameter and allowing to drain for 2 minutes. A sieve 8 inches in diameter is used for No. $2\frac{1}{2}$ size cans (401 x 411) and smaller sizes, and a sieve 12 inches in diameter is used for containers larger than the No. $2\frac{1}{2}$ size can.

TABLE NO. I—RECOMMENDED MINIMUM DRAINED WEIGHTS, IN OUNCES, OF GREEN BEANS AND WAX BEANS

| Container size or designation | Styles of canned beans | | | |
|---|---|---|---|---|
| | Whole | Whole vertical pack or whole asparagus style | Short cuts and cuts less than $1\frac{1}{2}$ inches | French style and cuts $1\frac{1}{2}$ inches and longer |
| 8 Z tall | $4\frac{1}{4}$ | $4\frac{3}{4}$ | $4\frac{1}{2}$ | $4\frac{1}{4}$ |
| Semco jar | 4 | ------ | $4\frac{1}{4}$ | 4 |
| No. 1 (picnic) | $5\frac{3}{4}$ | $6\frac{1}{4}$ | 6 | $5\frac{3}{4}$ |
| No. 1 tall | 9 | 10 | $9\frac{1}{4}$ | 9 |
| No. 300 | $8\frac{1}{2}$ | $9\frac{1}{4}$ | $8\frac{1}{2}$ | $8\frac{1}{2}$ |
| No. 300 jar | $8\frac{1}{2}$ | ------ | $8\frac{1}{2}$ | $8\frac{1}{2}$ |
| No. 303 | 9 | $9\frac{3}{4}$ | $9\frac{1}{2}$ | 9 |
| No. 303 jar | $9\frac{1}{2}$ | ------ | $9\frac{3}{4}$ | $9\frac{1}{2}$ |
| No. 2 | 11 | 12 | $11\frac{1}{4}$ | 11 |
| No. $2\frac{1}{2}$ | $16\frac{3}{4}$ | $17\frac{1}{2}$ | $16\frac{3}{4}$ | $16\frac{1}{2}$ |
| No. $2\frac{1}{2}$ jar | $16\frac{3}{4}$ | ------ | $16\frac{3}{4}$ | $16\frac{1}{2}$ |
| No. 10 | 61 | 66 | 63 | 61 |

TYPES AND SIZES

§ 52.446 *Types of canned beans.* The type of canned beans is not incorporated in the grades of the finished product, since the type of canned beans is not a

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

factor of quality for the purpose of these grades. The type of canned beans is dependent upon the type of beans packed in the container and is described as round type or flat type.

(a) "Round type canned green beans" are canned beans consisting of round type green beans having a width not greater than 1½ times the thickness of the bean. "Round type canned wax beans" are canned beans consisting of round type wax beans having a width not greater than 1½ times the thickness of the bean.

(b) "Flat type canned green beans" are canned beans consisting of flat type green beans having a width greater than 1½ times the thickness of the bean. "Flat type canned wax beans" are canned beans consisting of flat type wax beans having a width greater than 1½ times the thickness of the bean.

§ 52.447 *Sizes of green beans or wax beans in canned beans.* The size of green beans or wax beans is not a factor of quality of canned beans for the purpose of these grades. The size of a green bean or wax bean is determined by measuring the shorter diameter of the bean transversely to the long axis at the thickest portion of the pod. The designations of the various sizes of round type and flat type green beans or wax beans packed as canned beans are shown in Table No. II of this section.

TABLE NO. II—SIZES OF GREEN BEANS AND WAX BEANS IN CANNED BEANS

| Size of beans (inches in thickness) | Round type beans in various styles of canned beans | | | Flat type beans in whole, cut or short cut beans | |
|---|---|---|---|---|---|
| | Number designation | Whole beans, word designation | Cut or short cut beans, word designation | Number designation | Word designation |
| Less than 14½/64 inch in thickness. | Size 1 | Tiny | Small | Size 2 | Small. |
| 14½/64 inch to, but not including, 18½/64 inch in thickness. | Size 2 | Small | do | Size 3 | Medium. |
| 18½/64 inch to, but not including, 21/64 inch in thickness. | Size 3 | Medium | do | Size 4 | Medium large. |
| 21/64 inch to, but not including, 24/64 inch in thickness. | Size 4 | Medium large | Medium | Size 5 | Large. |
| 24/64 inch to, but not including, 27/64 inch in thickness. | Size 5 | Large | Large | Size 6 | Extra large. |
| 27/64 inch or more in thickness | Size 6 | Extra large | Extra large | Size 6 | Do. |

FACTORS OF QUALITY

§ 52.448 *Ascertaining the grade.* (a) The grade of canned beans may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings of the factors of clearness of liquor, color, absence of defects, and maturity.

(b) The relative importance of each factor is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

| Factors: | Points |
|---|---|
| Clearness of liquor | 10 |
| Color | 15 |
| Absence of defects | 35 |
| Maturity | 40 |
| Total score | 100 |

(c) "Normal flavor and normal odor" means that the canned beans are free from objectionable flavors and objectionable odors of any kind.

§ 52.449 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "32 to 35 points" means 32, 33, 34, or 35 points).

§ 52.450 *Clearness of liquor*—(a) *(A) classification.* Canned beans that possess a practically clear liquor may be given a score of 9 to 10 points. "Practically clear liquor" means that the liquor may possess a slight tint of yellow-green to green color and that not more than a trace of suspended material and sediment is present.

(b) *(B) classification.* If the canned beans possess a reasonably clear liquor, a score of 7 to 8 points may be given. "Reasonably clear liquor" means that the liquor may be cloudy and contain a small quantity of sediment.

(c) *(C) classification.* If the canned beans possess a fairly good liquor, a score of 5 to 6 points may be given. "Fairly good liquor" means that the liquor may be dull in color, but not off color; may be cloudy; or may possess a noticeable accumulation of sediment.

(d) *(SStd) classification.* Canned beans that possess a liquor that is definitely off color for any reason, is excessively cloudy, or contains a seriously objectionable quantity of sediment may be given a score of 0 to 4 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.451 *Color*—(a) *(A) classification.* Canned beans that possess a practically uniform bright typical color may be given a score of 14 to 15 points. "Practically uniform bright typical color" means that the canned beans possess a color that is bright and typical of very young and tender green beans or wax beans, as the case may be, of similar varietal characteristics with not more than 5 percent, by count, which vary markedly from this color.

(b) *(B) classification.* If the canned beans possess a reasonably uniform typical color, a score of 12 to 13 points may be given. "Reasonably uniform typical color" means that the canned beans possess a color that is typical of young and reasonably tender green beans or wax beans, as the case may be, of similar varietal characteristics with not more than 10 percent, by count, which vary markedly from this color.

(c) *(C) classification.* Canned beans that possess a fairly uniform typical color may be given a score of 10 to 11 points. Canned beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly uniform typical color" means that the canned beans possess a color that is typical of nearly mature and fairly tender green beans or wax beans, as the case may be, of similar varietal characteristics with not more than 15 percent, by count, which vary markedly from this color.

(d) *(SStd) classification.* Canned beans that are definitely off color or fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 9 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.452 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from extraneous vegetable matter, loose seed and pieces of seed, unstemmed units, ragged-cut units, split units, small pieces of pods, units damaged by mechanical injury, and units blemished by scars, pathological injury, insect injury, or blemished by other means.

(1) "Blemished unit" means any unit in which the aggregate area affected exceeds the area of a circle 1/8 inch in diameter.

(2) "Seriously blemished" means blemished to such an extent that the appearance or eating quality of the unit is seriously affected.

(3) "Extraneous vegetable matter" means leaves, detached stems, and other similar vegetable matter.

(4) "Ragged-cut unit" means a section of a pod that has a very ragged edge, or a section of a pod that is partially cut.

(5) "Split unit" means a whole bean, cut, or short cut unit, that is split into two parts.

(6) "Small pieces of pods" means pieces of pods less than ½ inch in length.

(7) "Damaged by mechanical injury" means broken or damaged to such an extent that the appearance or eating quality of the unit is seriously affected.

(b) *(A) classification.* Canned beans that are practically free from defects may be given a score of 32 to 35 points. "Practically free from defects" has the following meanings with respect to the following styles of packs of canned green beans or canned wax beans:

(1) *Whole or cut.* "Practically free from defects" means that the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

(iii) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 5 percent, by weight, of split units; and

(vi) Not more than 40 small pieces of pods in cut style, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(2) *Sliced lengthwise.* "Practically free from defects" means that the pods are well sliced; the combined weight of all defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems; and

(iii) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished.

(3) *Short cuts.* "Practically free from defects" means that the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

(iii) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 5 percent, by weight, of split units; and

(vi) Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(4) *Mixed when not containing pods that are sliced lengthwise.* "Practically free from defects" means that the weight of all loose seed and pieces of seed does not exceed 3 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

(iii) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 5 percent, by weight, of split units; and

(vi) Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(5) *Mixed when containing pods that are sliced lengthwise.* "Practically free from defects" means that the pods that are sliced lengthwise are well sliced and that the combined weight of all defects and defective units does not exceed 10 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 1 piece of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 4 unstemmed units or 4 detached stems, or any combination of not more than 4 unstemmed units and detached stems;

(iii) Not more than 2 percent, by count, of blemished units, and of such 2 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 5 ragged-cut units, 5 units damaged by mechanical injury, or any combination of not more than 5 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 5 percent, by weight, of split units; and

(vi) Not more than 40 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 15 percent, by count, of the total units are less than ½ inch long.

(c) *(B) classification.* If the canned beans are reasonably free from defects, a score of 27 to 31 points may be given. "Reasonably free from defects" has the following meanings with respect to the following styles of canned beans:

(1) *Whole or cut.* "Reasonably free from defects" means that the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

(iii) Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 10 ragged-cut units, 10 units damaged by mechanical injury, or any combination of not more than 10 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 10 percent, by weight, of split units; and

(vi) Not more than 60 small pieces of pods in cut style, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(2) *Sliced lengthwise.* "Reasonably free from defects" means that the pods are reasonably well sliced; the combined weight of all defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems; and

(iii) Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished.

(3) *Short cuts.* "Reasonably free from defects" means that the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

(iii) Not more than 10 ragged-cut units, 10 units damaged by mechanical injury, or any combination of not more than 10 ragged-cut units and units damaged by mechanical injury;

(iv) Not more than 10 percent, by weight, of split units; and

(v) Not more than 4 percent, by count, of blemished units, and of 4 percent not more than one-half thereof may consist of units that are seriously blemished.

(4) *Mixed when not containing pods that are sliced lengthwise.* "Reasonably free from defects" means that the weight of all loose seed and pieces of seed does not exceed 4 percent of the drained weight of the units; the combined weight of all other defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

(iii) Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 10 ragged-cut units, 10 units damaged by mechanical injury, or any combination of not more than 10 ragged-cut units and units damaged by mechanical injury;

(v) Not more than 10 percent, by weight, of split units; and

(vi) Not more than 60 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(5) *Mixed when containing pods that are sliced lengthwise.* "Reasonably free from defects" means that the pods that are sliced lengthwise are reasonably well sliced and that the combined weight of all defects and defective units does not exceed 15 percent of the drained weight of the units; and that for each 12 ounces, drained weight, of units there may be present:

(i) Not more than 2 pieces of extraneous vegetable matter, exclusive of detached stems;

(ii) Not more than 5 unstemmed units or 5 detached stems, or any combination of not more than 5 unstemmed units and detached stems;

(iii) Not more than 4 percent, by count, of blemished units, and of such 4 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) Not more than 10 percent, by weight, of split units; and

(v) Not more than 60 small pieces of pods, provided that where the number of units per 12 ounces drained weight exceed 240, not more than 25 percent, by count, of the total units are less than ½ inch long.

(d) *(C) classification.* If the canned beans are fairly free from defects, a score of 22 to 26 points may be given. Canned beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" has the following meanings with respect to the following styles of canned beans:

(1) *Whole or cut.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

(i) The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

(ii) There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

(iii) There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished;

(2) *Sliced lengthwise.* "Fairly free from defects" means that the pods are fairly well sliced; the combined weight of all defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

(i) The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

(ii) There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2] and

(iii) There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished;

(3) *Short cuts.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units and that:

(i) The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

(ii) There are not more than 6 unstemmed units per 12 ounces, drained weight, of the units;[2]

(iii) There may be present not more than 15 percent, by weight, of split units; and

(iv) There are not more than 8 percent, by count, of blemished units,[2] and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished;

(4) *Mixed when not containing pods that are sliced lengthwise.* "Fairly free from defects" means that the weight of all loose seed and pieces of seed does not exceed 5 percent of the drained weight of the units;[2] the combined weight of all other defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

(i) The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

(ii) There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

(iii) There may be present not more than 15 percent, by weight, of split units; and

(iv) There may be present not more than 15 percent, by weight, of split units; and

(v) There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, *Provided*, That where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(5) *Mixed when containing pods that are sliced lengthwise.* "Fairly free from defects" means that the pods that are sliced lengthwise are fairly well sliced; and that the combined weight of all defects and defective units does not exceed 20 percent of the drained weight of the units, and that:

(i) The combined weight of all extraneous vegetable matter does not exceed 0.6 ounce per 60 ounces, drained weight, of the units;[2]

(ii) There are not more than 6 unstemmed units per 12 ounces, drained weight, of units;[2]

(iii) There are not more than 8 percent, by count, of blemished units, and of such 8 percent not more than one-half thereof may consist of units that are seriously blemished;

(iv) There may be present not more than 15 percent, by weight, of split units; and

(v) There are not more than 60 units per 12 ounces, drained weight, of units which are less than ½ inch long, *Provided*, That where the number of units per 12 ounces drained weight exceeds 240, not more than 25 percent, by count, of the total units are less than ½ inch long.[2]

(e) *(SStd) classification.* Canned beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule), and may also be "Below standard in quality, good food, not high grade" for the following applicable reasons: excessive number of very short pieces, excessive number of blemished units, excessive number of unstemmed units, excessive foreign material, and excessive loose seed and pieces of seed.

§ 52.453 *Maturity—(a) General.* The factor of maturity refers to the degree of development of pods and seeds and the tenderness of the pods.

(1) "Trimmed pod" means any pod from which there has been trimmed off as far as the end of the space formerly occupied by seed, any portion of the pod from which seed has become separated.

(2) "Tough strings" means strings or pieces of string at least ½ inch in length which will support a ½ pound weight for not less than 5 seconds.

(3) "Fibrous material" means properly prepared, dried cellulose material obtained from deseeded pods, including strings, broken or unbroken.

(b) *(A) classification.* Canned beans that are very young and tender may be given a score of 35 to 40 points. "Very young and tender" means that the units are fullfleshed for the variety tender and not fibrous; the seeds are in the early stages of maturity; and not more than 5 percent, by count, of the units possess tough strings.

(c) *(B) classification.* If the canned beans are young and reasonably tender, a score of 29 to 34 points may be given. Canned green beans or canned wax beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Young and reasonably tender" means that the units may, to some extent, have lost their fleshy structure; the seeds may have passed the early stages of maturity and have not reached the late stages of maturity; are not fibrous; and not more than 10 percent, by count, of the units may possess tough strings.

(d) *(C) classification.* If the canned beans are nearly mature and fairly tender, a score of 23 to 28 points may be given. Canned green beans or canned wax beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Nearly mature and fairly tender" means that the units may have lost, to a considerable extent, their fleshy structure, and that:

(1) The trimmed pods contain not more than 25 percent, by weight, of seed and pieces of seed;[2]

(2) The deseeded pods contain not more than 0.15 percent, by weight, of fibrous material;[2] and

(3) Not more than 20 percent, by count, of the units may possess tough strings except that in case there are present units at least $\frac{1}{16}$ inch or more in diameter, there are not more than 12 strings or pieces of strings in 12 ounces, drained weight, which will support a ½ pound weight for not less than 5 seconds.[2]

(e) *(SStd) classification.* Canned beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 22 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule), and may also be "Below Standard in quality, good food, not high grade," for the following applicable reasons: excessive seed and pieces of seed in trimmed pods, excessive fibrous material in deseeded pods, and excessive tough strings when there are present units $\frac{7}{64}$ inch or more in diameter.

LOT CERTIFICATION TOLERANCES

§ 52.454 *Tolerance for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned green beans or canned wax beans, the grade for such lot will be determined by averaging the total score of all containers, if:

(1) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

§ 52.455 *Score sheet for canned green beans or canned wax beans.*

| | | | |
|---|---|---|---|
| Container size | | | |
| Container code or marking | | | |
| Label | | | |
| Net weight (ounces) | | | |
| Vacuum (inches) | | | |
| Drained weight | | | |
| Type (round or flat) | | | |
| Variety (green or wax) | | | |
| Style | | | |
| Size of green beans or wax beans | | | |
| Factors | Score points | | |
| Clearness of liquor | 10 | (A) 9-10<br>(B) 7-8<br>(C) 5-6<br>(SStd.) 0-4 | |
| Color | 15 | (A) 14-15<br>(B) 12-13<br>(C) 10-11<br>(SStd.) 0-9 | |
| Absence of defects | 35 | (A) 32-35<br>(B) 27-31<br>(C) 22-26<br>(SStd.) 0-21 | |
| Maturity | 40 | (A) 35-40<br>(B) 29-34<br>(C) 23-28<br>(SStd.) 0-22 | |
| Total score | 100 | | |
| Grade | | | |
| Normal flavor and odor | | | |

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED LIMA BEANS[1]

IDENTITY, TYPES, AND GRADES

§ 52.471 *Identity.* "Canned lima beans" means the canned product properly prepared from the clean, sound, succulent seed of the lima bean plant, as defined in the definitions and standard of identity for canned vegetables (21 CFR 52.990) issued pursuant to the Federal Food, Drug, and Cosmetic Act.

§ 52.472 *Types of canned lima beans.* (a) "Thin-seeded," such as Henderson Bush and Thorogreen varieties;

(b) "Thick-seeded Baby Potato," such as Baby Potato, Baby Fordhook, and Evergreen varieties;

(c) "Thick-seeded," such as Fordhook variety.

§ 52.473 *Grades of canned lima beans.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned lima beans that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a good color; that are practically free from defects; that possess a practically clear liquor; that possess a good character; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 90 points: *Provided*, That the canned lima beans may possess a reasonably good character and a fairly clear liquor if the total score is not less than 90 points.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of canned lima beans that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a reasonably good color; that are reasonably free from defects; that possess a reasonably clear liquor; that possess a reasonably good character; and that for those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 80 points: *Provided*, That the canned lima beans may possess a fairly clear liquor if the total score is not less than 80 points.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of canned lima beans that possess similar varietal characteristics; that possess a normal flavor and odor; that possess a fairly good color; that are fairly free from defects; that possess a fairly clear liquor; that possess a fairly good character; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of canned lima beans that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FILL OF CONTAINER AND DRAINED WEIGHTS

§ 52.474 *Recommended fill of container.* The recommended fill of container for canned lima beans is not incorporated in the grades of the finished product, since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned lima beans be filled as full as practicable with beans without impairment of quality.

§ 52.475 *Recommended minimum drained weight.* The minimum drained weight recommendations in Table No. I of this section are not incorporated in the grades of the finished product, since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of canned lima beans is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter so as to distribute the product evenly, inclining the sieve to facilitate drainage and allow to drain for two minutes. The drained weight is the weight of the sieve and the lima beans less the weight of the dry sieve. A sieve 8 inches in diameter is used for the No. 2 size can (307 x 409) and smaller sizes, and a sieve 12 inches in diameter is used for containers larger than the No. 2 size can.

[2] Determined as outlined in the standards of quality of canned green beans (21 CFR 51.11) and canned wax beans (21 CFR 51.16) promulgated under the Federal Food, Drug, and Cosmetic Act.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

TABLE No. I—RECOMMENDED MINIMUM DRAINED WEIGHTS (IN OUNCES) OF LIMA BEANS

| Container designation | Container size: Overall diameter (inches) | Container size: Overall height (inches) | Container size: Overflow capacity (fluid ounces) | Drained weight |
|---|---|---|---|---|
| 8 Z tall | 2 1/16 | 7 4/16 | ..... | 5½ |
| 8 Z jar | ..... | ..... | 8 2 | 5½ |
| No. 1 (picnic) | 2 1/16 | 4 | ..... | 7 |
| No. 1 tall | 3 1/16 | 4 11/16 | ..... | 10½ |
| No. 300 | 3 | 4 6/16 | ..... | 9½ |
| No. 303 | 3 1/16 | 4 5/16 | ..... | 11 |
| No. 303 jar | ..... | ..... | 17 0 | 11 |
| No. 2 | 3 5/16 | 4 5/16 | ..... | 12½ |
| No. 10 | 6 2/16 | 7 | ..... | 72 |

SIZES

§ 52.476 *Sizes of lima beans in canned lima beans.* The size of lima beans is not a factor of quality of canned lima beans for the purpose of these grades. The size of a lima bean is determined by measuring the greatest width through the center at right angles to the longitudinal axis of the bean. The designations of the various sizes of lima beans packed as canned beans are shown in Table No. II of this section.

TABLE No. II—SIZES OF LIMA BEANS IN CANNED LIMA BEANS

| Word designation: | *Size of lima beans (inches in width)* |
|---|---|
| Midget | 2 5/16 inch in width and smaller. |
| Tiny | Over 2 5/16 inch to and including 3 1/16 inch in width. |
| Small | Over 3 1/16 inch to and including 3 5/16 inch in width. |
| Medium | Over 3 5/16 inch to and including 3 9/16 inch in width. |
| Large | Larger than 3 9/16 inch in width. |

FACTORS OF QUALITY

§ 52.477 *Ascertaining the grade.* (a) The grade of canned lima beans is ascertained by considering, in conjunction with the other requirements of the respective grade, the respective ratings for the factors of color, clearness of liquor, absence of defects, and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

| Factor: | *Points* |
|---|---|
| Color | 35 |
| Clearness of liquor | 10 |
| Absence of defects | 25 |
| Character | 30 |
| Total score | 100 |

(c) "Normal flavor and normal odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.478 *Ascertaining the rating of the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "8 to 10 points" means 8, 9, or 10 points).

§ 52.479 *Color*—(a) *General.* (1) "Green" with respect to thin-seeded and thick-seeded Baby Potato types means that the color of the individual lima bean possesses as much or more green color than Plate 11, F–2, as illustrated in Maerz and Paul's Dictionary of Color.[1]

(2) "Green" with respect to thick-seeded types means that the color of the individual lima bean possesses as much or more green color than Plate 12, L–2, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(3) "White" with respect to thin-seeded and thick-seeded Baby Potato types means that the individual lima bean is lighter in color than Plate 11, C–2, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(4) "White" with respect to thick-seeded type means that the individual lima bean is lighter in color than Plate 11, L–3, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(b) *(A) classification.* Canned lima beans that possess a good color may be given a score of 32 to 35 points. "Good color" means that the lima beans, regardless of type, possess a bright typical color and meet the following additional color requirements for the respective types:

(1) *Thin-seeded types; Thick-seeded Baby Potato type.* (i) Not less than 90 percent, by count, of the lima beans are "green" defined as aforesaid, and not more than 10 percent, by count, may be lighter in color: *Provided,* That not more than 1 percent, by count, of all the lima beans are white.

(ii) Not less than 97 percent, by count, of the lima beans are "green," defined as aforesaid, and not more than 3 percent, by count, may be lighter in color or white lima beans.

(2) *Thick-seeded type.* Not less than 90 percent, by count, of the lima beans are "green," defined as aforesaid, and not more than 10 percent, by count, may be lighter in color: *Provided,* That not more than 3 percent, by count, of all the lima beans are white.

(c) *(B) classification.* If the canned lima beans possess a reasonably good color, a score of 29 to 31 points may be given. Canned lima beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:

(1) *Thin-seeded type; Thick-seeded Baby Potato type.* Not less than 50 percent, by count, of the lima beans are "green," defined as aforesaid, and not more than 50 percent, by count, may be lighter in color: *Provided,* That not more than 25 percent, by count, of all the lima beans are white.

(2) *Thick-seeded type.* Not less than 50 percent, by count, of the lima beans are "green," defined as aforesaid, and not more than 50 percent, by count, may be lighter in color: *Provided,* That not more than 25 percent, by count, of all the lima beans are white.

(d) *(C) classification.* Canned lima beans that possess a fairly good color may be given a score of 26 to 28 points. Canned lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:

(1) *Thin-seeded type; Thick-seeded Baby Potato type.* Less than 50 percent, by count, of the lima beans are "green," defined as aforesaid, and all of the lima beans may be white.

(2) *Thick-seeded type.* Less than 50 percent, by count, of the lima beans are "green," defined as aforesaid, and all of the lima beans may be white.

(e) *(SStd) classification.* Canned lima beans that are definitely off color or fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 25 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.480 *Clearness of liquor*—(a) *(A) classification.* Canned lima beans that possess a practically clear liquor may be given a score of 9 or 10 points. "Practically clear liquor" means that the liquor may be slightly cloudy and that not more than a small amount of sediment is present.

(b) *(B) classification.* If the canned lima beans possess a reasonably clear liquor, a score of 7 or 8 points may be given. "Reasonably clear liquor" means that the liquor may be somewhat cloudy and may contain a considerable amount of sediment.

(c) *(C) classification.* Canned lima beans that possess a fairly clear liquor may be given a score of 5 or 6 points. "Fairly clear liquor" means that the liquor may be dull in color but not to the extent that the appearance is seriously affected, and may be rather viscous cream-like, or starchy.

(d) *(SStd) classification.* Canned lima beans that possess a liquor that is definitely off color for any reason or that contains an excessive amount of sediment may be given a score of 0 to 4 points and shall not be graded above Substandard, regardless of the total score for the product (this is limiting rule).

§ 52.481 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from extraneous vegetable matter, from loose skins, loose cotyledons, broken beans, sprouted beans, and from beans that show light discoloration or that are blemished or seriously blemished.

(1) "Extraneous vegetable matter" means pods or pieces of pods, leaves, stems, and other similar vegetable matter.

(2) "Broken bean" means a bean from which one-half or more of a cotyledon or the equivalent thereof has become detached; or pieces of cotyledon aggregating the equivalent of an average size whole cotyledon.

(3) "Loose cotyledon" means a whole cotyledon which has become separated from the skin.

(4) "Loose skin" means a whole skin or portions of skin aggregating the equivalent of an average size whole skin which has become separated from the cotyledons.

(5) "Light discoloration" means light discoloration of the hilum or other light discoloration which slightly affects but does not materially affect the appearance of the bean.

(6) "Sprouted" means lima beans that show an external shoot protruding beyond the cotyledon or skin.

(7) "Blemished" means blemished by discoloration, pathological injury, insect injury, or blemished by other means, other than by light discoloration which is not considered blemished, to such an extent that the aggregate blemished area materially affects the appearance or eating quality of a bean or any detached piece of a bean.

(8) "Seriously blemished" means blemished to such an extent that the aggregate blemished area seriously affects the appearance or eating quality of a bean or any detached piece of a bean.

(b) *(A) classification.* Canned lima beans that are practically free from defects may be given a score of 22 to 25 points. "Practically free from defects" means that the aforesaid defects, individually or collectively, do not more than slightly affect the appearance or eating quality of the product. The following allowances provide a guide for scoring canned lima beans which are practically free from defects:

(i) For each 10 ounces drained weight of beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate area of 3/16 square inch (1/2" x 3/8") on one surface of the piece, or pieces;

(ii) 3 percent, by count, of loose skins;

(iii) 5 percent, by count, of broken beans and loose cotyledons;

(iv) 1 percent, by count, of sprouted beans; and

(v) 2 percent, by count, of blemished and seriously blemished beans, and of such 2 percent, not more than 1/3 thereof or 1/2 of 1 percent, by count, of all the beans may be seriously blemished.

(c) *(B) classification.* If the canned lima beans are reasonably free from defects, a score of 20 or 21 points may be given. Canned lima beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the aforesaid defects, individually or collectively, do not materially affect the appearance or eating quality of the product. The following allowances provide a guide for scoring canned lima beans which are reasonably free from defects:

(i) For each 10 ounces drained weight of beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate area of more than 3/16 square inch but not more than 3/4 square inch (1/2" x 3/4") on one surface of the piece, or pieces;

(ii) 5 percent, by count, of loose skins;

(iii) 10 percent, by count, of broken beans and loose cotyledons;

(iv) 4 percent, by count, of sprouted beans; and

(v) 3 percent, by count, of blemished and seriously blemished beans, and of such 3 percent, not more than 1/3 thereof or 1 percent by count, of all the beans may be seriously blemished.

(d) *(C) classification.* Canned lima beans that are fairly free from defects may be given a score of 18 or 19 points. Canned lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the aforesaid defects, individually or collectively, do not seriously affect the appearance or eating quality of the product. The following allowances provide a guide for scoring canned lima beans which are fairly free from defects:

(1) For each 10 ounces drained weight of beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate area of more than 3/8 square inch, but not more than 3/4 square inch (1/2" x 1 1/2") on one surface of the piece, or pieces;

(ii) 8 percent, by count, of loose skins;

(iii) 15 percent, by count, of broken beans and loose cotyledons;

(iv) 8 percent, by count, of sprouted beans; and

(v) 4 percent, by count, of blemished and seriously blemished beans, and of such 4 percent, not more than 1/2 thereof or 2 percent, by count, of all the beans may be seriously blemished.

(e) *(SStd) classification.* Canned lima beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 17 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.482 *Character.* The factor of character refers to the tenderness and maturity of the product.

(a) *(A) classification.* Canned lima beans that possess a good character may be given a score of 27 to 30 points. "Good character" means that the lima beans are young and tender.

(b) *(B) classification.* If the canned lima beans possess a reasonably good character, a score of 24 to 26 points may be given. "Reasonably good character" means that the lima beans are reasonably young and reasonably tender.

(c) *(C) classification.* Canned lima beans that possess a fairly good character may be given a score of 21 to 23 points. Canned lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the lima beans may be nearly mature and possess a fairly tender texture, may be firm and mealy but not hard, or may be soft but not mushy.

(d) *(SStd) classification.* Canned lima beans that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.483 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned lima beans the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to those factors which are scored:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule must be within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample; and

(5) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN LIMA BEANS[1]

PRODUCT DESCRIPTION, TYPES, AND GRADES

§ 52.501 *Product description.* "Frozen lima beans" means the frozen product prepared from the clean, sound, succulent seed of the lima bean plant by shelling, washing, blanching, and properly draining, and is then frozen in accordance with good commercial practice and maintained at temperatures necessary for the preservation of the product.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

[2] Second Edition.

§ 52.502 *Types of frozen lima beans.* (a) "Thin-seeded," such as Henderson Bush and Thorogreen varieties.

(b) "Thick-seeded Baby Potato," such as Baby Potato, Baby Fordhook, and Evergreen.

(c) "Thick-seeded," such as Fordhook variety.

§ 52.503 *Grades of frozen lima beans.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a good flavor and odor; that are tender; that possess a good color; that are practically free from defects; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Extra Standard" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a good flavor and odor; that are reasonably tender; that possess a reasonably good color; that are reasonably free from defects; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of frozen lima beans that possess similar varietal characteristics; that possess a fairly good flavor and odor; that are fairly tender; that possess a fairly good color; that are fairly free from defects; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of frozen lima beans that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FACTORS OF QUALITY

§ 52.504 *Ascertaining the grade.* (a) The grade of frozen lima beans is ascertained by considering in conjunction with the other requirements of the respective grade the respective ratings for the factors of color and absence of defects.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors is:

| Factors: | *Points* |
|---|---|
| Color | 60 |
| Absence of defects | 40 |
| Total score | 100 |

(c) The scores for the factors of color and absence of defects are determined immediately after thawing to the extent that the product is substantially free from ice crystals and can be handled as individual units. The tenderness and flavor and odor of frozen lima beans are determined after the product is cooked.

(d) "Good flavor and odor" means that the product, after cooking, has a good, characteristic, normal flavor and odor and is free from objectionable flavors and objectionable odors of any kind.

(e) "Fairly good flavor and odor" means that the product, after cooking, may be lacking in good flavor and odor but is free from objectionable flavors and objectionable odors of any kind.

§ 52.505 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "54 to 60 points" means 54, 55, 56, 57, 58, 59, or 60 points).

§ 52.506 *Color—(a) General.* (1) "Green" with respect to thin-seeded and thick-seeded types means that the color of not less than 50 percent of the surface area of the individual lima bean possesses as much or more green color than Plate 18, K–5, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(2) "Green" with respect to thick-seeded Baby Potato type means that the color of not less than 50 percent of the surface area of the individual lima bean possesses as much or more green color than Plate 18, J–3, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(3) "White" means that more than 50 percent of the surface area of the individual lima bean possesses less green color than Plate 18, E–1, as illustrated in Maerz and Paul's Dictionary of Color.[2]

(b) *(A) classification.* Frozen lima beans that possess a good color may be given a score of 54 to 60 points. "Good color" means that the lima beans, regardless of type, possess a bright typical color and meet the following additional color requirements for the respective types:

(1) *Thin-seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* (i) Not less than 93 percent, by count, of the lima beans are "green" and not more than 7 percent, by count, may be lighter in color: *Provided,* That not more than 1 percent, by count, of all the lima beans are white, or

(ii) Not less than 97 percent, by count, of the lima beans are "green" and not more than 3 percent, by count, may be lighter in color or white lima beans.

(2) *Thick-seeded type (with skins on).* Not less than 85 percent, by count, of the lima beans are "green" and not more than 15 percent, by count, may be lighter in color: *Provided,* That not more than 1 percent, by count, of all the lima beans are white.

(c) *(B) classification.* If the frozen lima beans possess a reasonably good color, a score of 48 to 53 points may be given. Frozen lima beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:

(1) *Thin-seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* Not less than 65 percent, by count, of the lima beans are "green" and not more than 35 percent, by count, may be lighter in color or white beans.

(2) *Thick-seeded type (with skins on).* Not less than 60 percent, by count, of the lima beans are "green" and not more than 40 percent, by count, may be lighter in color: *Provided,* That not more than 5 percent, by count, of all the lima beans are white.

(d) *(C) classification.* If the frozen lima beans possess a fairly good color, a score of 42 to 47 points may be given. Frozen lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the lima beans, regardless of type, possess a typical color and meet the following additional requirements for the respective types:

(1) *Thin-seeded type (with skins removed); Thick-seeded Baby Potato type (with skins on).* Less than 65 percent, by count, of the lima beans are "green" and all of the lima beans may be white.

(2) *Thick-seeded type (with skins on).* Less than 60 percent, by count, of the lima beans are "green": *Provided,* That not more than 20 percent, by count, of all the lima beans are white.

(e) *(SStd) classification.* Frozen lima beans that are definitely off color or fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 41 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.507 *Absence of defects—(a) General.* The factor of absence of defects refers to the degree of freedom from extraneous vegetable matter, from loose skins, loose cotyledons, broken beans, shriveled beans, sprouted beans, and from beans that show light discoloration or that are blemished or seriously blemished.

(1) "Extraneous vegetable matter" means pods or pieces of pods, leaves, stems, and other similar vegetable matter.

(2) "Broken bean" means a bean from which ½ or more of a cotyledon or the equivalent thereof has become detached; or pieces of cotyledon aggregating the equivalent of an average size whole cotyledon.

(3) "Loose cotyledon" means a whole cotyledon which has become separated from the skin.

(4) "Loose skin" means a whole skin, or portions of skin aggregating the equivalent of an average size whole skin, which has become separated from the cotyledons.

(5) "Light discoloration" means discoloration of the hilum or other light discoloration which slightly affects but does not materially affect the appearance of the bean.

(6) "Blemished" means blemished by discoloration, pathological injury, insect injury, or blemished by other means, other than by light discoloration which is not considered blemished, to such an extent that the aggregate blemished area materially affects the appearance or eating quality of a bean or any detached piece of a bean.

(7) "Seriously blemished" means blemished to such an extent that the aggregate blemished area seriously affects the appearance or eating quality of a bean or any detached piece of a bean.

(8) "Shriveled" means lima beans that are materially wrinkled and are not of normal plumpness.

(9) "Sprouted" means lima beans that show an external shoot protruding beyond the cotyledon or skin.

(b) *(A) classification.* Frozen lima beans that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that the aforesaid defects, individually or collectively, do not more than slightly affect the appearance or eating quality of the product. The following allowances provide a guide for scoring frozen lima beans which are practically free from defects:

(1) For each 10 ounces of frozen lima beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate of ⅜ square inch (1½ inch by ⅜ inch) on one surface of the piece, or pieces;

(ii) 3 percent, by count, of loose skins;

(iii) 5 percent, by count, of broken beans and loose cotyledons, and of such 5 percent, not more than ⅗ thereof or 3 percent, by count, of all the beans may be broken;

(iv) 1 percent, by count, of shriveled and sprouted beans; and

(v) 2 percent, by count, of blemished and seriously blemished beans, and of such 2 percent, not more than ¼ thereof or ½ of 1 percent, by count, of all the beans may be seriously blemished.

(c) *(B) classification.* If the frozen lima beans are reasonably free from defects, a score of 32 to 35 points may be given. Frozen lima beans that fall into this classification shall not be graded above U. S. Grade B or U. S. Extra Standard, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the aforesaid defects, individually or collectively, do not materially affect the appearance or eating quality of the product. The following allowances provide a guide for scoring frozen lima beans that are reasonably free from defects:

(1) For each 10 ounces of frozen lima beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate area of more than $\frac{3}{16}$ square inch but not more than ⅜ square inch (1½ inch x ¾ inch) on one surface of the piece, or pieces;

(ii) 5 percent, by count, of loose skins;

(iii) 10 percent, by count, of broken beans and loose cotyledons, and of such 10 percent, not more than ½ thereof or 5 percent, by count, of all the beans may be broken;

(iv) 4 percent, by count, of shriveled and sprouted beans; and

(v) 3 percent, by count, of blemished and seriously blemished beans, and of such 3 percent, not more than ⅓ thereof or 1 percent, by count, of all the beans may be seriously blemished.

(d) *(C) classification.* Frozen lima beans that are fairly free from defects may be given a score of 28 to 31 points. Frozen lima beans that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the aforesaid defects, individually or collectively, do not seriously affect the appearance or eating quality of the product. The following allowances provide a guide for scoring frozen lima beans that are fairly free from defects:

(1) For each 10 ounces of frozen lima beans there may be present:

(i) 1 piece, or pieces, of extraneous vegetable matter having an aggregate area of more than ⅜ square inch, but not more than ¾ square inch (½ inch x 1½ inches) on one surface of the piece or pieces;

(ii) 8 percent, by count, of loose skins;

(iii) 15 percent, by count, of broken beans and loose cotyledons, and of each 15 percent, not more than ⅔ thereof or 10 percent, by count, of all the beans may be broken;

(iv) 8 percent, by count, of shriveled and sprouted beans; and

(v) 4 percent, by count, of blemished and seriously blemished beans, and of such 4 percent, not more than ½ thereof or 2 percent, by count, of all the beans may be seriously blemished.

(e) *(SStd) classification.* Frozen lima beans that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.508 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of frozen lima beans the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to those factors which are scored:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule must be within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample; and

(5) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug and Cosmetic Act and in effect at the time of the aforesaid certification.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BEETS[1]

IDENTITY, STYLES, AND GRADES

§ 52.521 *Identity.* "Canned beets" means canned beets as defined in the definitions and standards of identity for canned vegetables (21 CFR 52.990), issued pursuant to the Federal Food, Drug, and Cosmetic Act.

§ 52.522 *Styles of canned beets.* (a) "Whole" or "whole beets" means canned beets consisting of whole beets that retain the approximate original conformation of the whole beet.

(b) "Slices" or "sliced beets" means canned beets consisting of slices of beets, irrespective of whether such slices are "corrugated," "fluted," "wavy," or "scalloped."

(c) "Quarters" or "quartered beets" means canned beets consisting of quarters of beets.

(d) "Dice" or "diced beets" means canned beets consisting of diced beets.

(e) "Julienne," "French style," or "shoestring" means canned beets consisting of strips of beets.

(f) "Cut" means canned beets consisting of units, irrespective of whether such units are "segmented" or "wedge-shaped," which are not uniform in size or shape or which do not conform to any of the foregoing styles.

(g) "Unit" means an individual beet or portion of a beet in canned beets.

§ 52.523 *Grades of canned beets.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned beets that possess similar varietal characteristics; possess a normal flavor and odor; possess a good color; are practically free from defects; are tender; and possess such uniformity of size and shape as to score not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

[2] First edition.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

(b) "U. S. Grade C" or "U. S. Standard" is the quality of canned beets that possess similar varietal characteristics; possess a normal flavor and odor; possess a fairly good color; are fairly free from defects; are fairly tender; and possess such uniformity of size and shape as to score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality of canned beets that fail to meet the requirements of U. S. Grade C or U. S. Standard.

FILL OF CONTAINER AND DRAINED WEIGHTS

§ 52.524 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container be filled as full as practicable with beets without impairment of quality and that the product and packing medium occupy not less than 90 percent of the total capacity of the container.

§ 52.525 *Recommended drained weight.* The drained weight recommendations in Table No. I of this section are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of canned beets is determined by emptying the contents of the container upon a No. 8 circular sieve of proper diameter and allowing to drain for 2 minutes. A sieve 8 inches in diameter is used for the No. 2½ size can (401 x 411) and smaller sizes; and a sieve 12 inches in diameter is used for containers larger than the No. 2½ size can.

TABLE NO. 1

[Recommended drained weight, in ounces, of beets]

| Container size or designation | Whole (size) [1] | | Sliced (size) [1] | | Diced | Quartered cut | Julienne |
|---|---|---|---|---|---|---|---|
| | Size No. 1 to 3, inclusive | Size No. 4 to 6, inclusive | Small | Medium and large | | | |
| 8-ounce Tall | 5¾ | 5¼ | 5¾ | 5¼ | 6 | 6 | 5½ |
| No. 1 Picnic | 7¼ | 7 | 7¼ | 7 | 7½ | 7½ | 7 |
| No. 303 | 10½ | 10 | 10 | 9½ | 10½ | 10½ | 9 |
| No. 2 | 12½ | 12 | 12½ | 12 | 13 | 12½ | 11 |
| No. 2½ | 19½ | 19 | 19 | 18½ | 19½ | 19 | 18 |
| No. 10 | 72 | 69 | 71 | 68 | 72 | 71 | 69 |
| 16-ounce glass | 10½ | 9½ | 9¾ | 9¼ | 10½ | 10½ | 8¾ |

[1] Assorted sizes and mixed sizes to be based on drained weight for predominant size of individual units.

SIZES

§ 52.526 *Sizes of beets in whole beets.* The size of any beet is determined by measuring the smallest diameter through the center transverse to the longitudinal axis of the beet. The word and number designations of the various sizes of beets in whole beets are shown in Table No. II of this section. Such table also specifies the count range per container for stated container sizes.

TABLE NO. II

[Sizes of beets in whole beets]

| Word designation | Number designation | Count range per container | | | | |
|---|---|---|---|---|---|---|
| | | No. 1 Picnic | No. 2 can | No. 2½ can | No. 10 can | 16-ounce glass |
| Tiny | Size 1 | 25 and over | 50 and over | 70 and over | 250 and over | 35 and over. |
| | Size 2 | 18 to but not including 25. | 35 to but not including 50. | 50 to but not including 70. | 175 to but not including 250. | 25 to but not including 35. |
| Small | Size 3 | 12 to but not including 18. | 25 to but not including 35. | 35 to but not including 50. | 125 to but not including 175. | 18 to but not including 25. |
| | Size 4 | 8 to but not including 12. | 15 to but not including 25. | 20 to but not including 35. | 75 to but not including 125. | 10 to but not including 18. |
| Medium | Size 5 | 5 to but not including 8 | 10 to but not including 15. | 15 to but not including 20. | 50 to but not including 75. | 7 to but not including 10. |
| | Size 6 | Less than 5 | Less than 10 | Less than 15 | Less than 50 | Less than 7. |
| Assorted sizes [1] | | | | | | |
| Mixed sizes [2] | | | | | | |

[1] Assorted sizes is a combination of any two adjacent sizes.
[2] Mixed sizes is a combination of more than two adjacent sizes.

§ 52.527 *Sizes of beet slices in sliced beets.* The size of any slice in sliced beets is determined by measuring the smallest diameter of the largest surface of the slice. The word designation of the various sizes of slices in sliced beets is shown in Table No. III of this section.

TABLE NO. III

[Sizes of slices in sliced beets]

| Word designation | Smallest diameter in inches |
|---|---|
| Small | Less than 2 inches. |
| Medium | From 2 inches up to but not including 2½ inches. |

TABLE NO. III—Continued

| Word designation | Smallest diameter in inches |
|---|---|
| Large | Not less than 2½ inches. |
| Assorted sizes.[1] | |
| Mixed sizes.[2] | |

[1] Assorted sizes is a combination of any two adjacent sizes.
[2] Mixed sizes is a combination of all designated sizes.

FACTORS OF QUALITY

§ 52.528 *Ascertaining the grade.* (a) The grade of canned beets may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings of the factors of color, uniformity of size and shape, absence of defects, and texture.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

| Factors: | Points |
|---|---|
| Color | 25 |
| Uniformity of size and shape | 15 |
| Absence of defects | 30 |
| Texture | 30 |
| Total score | 100 |

(c) "Normal flavor and normal odor" means that the canned beets are free from objectionable flavor and objectionable odors of any kind.

§ 52.529 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "12 to 15 points" means 12, 13, 14, or 15 points).

§ 52.530 *Color*—(a) *(A) classification.* Canned beets that possess a good color may be given a score of 21 to 25 points. "Good color" means that the canned beets possess a color that is uniform, bright, and typical of canned beets produced from beets of similar varietal characteristics.

(b) *(C) classification.* If the canned beets possess a fairly good color, a score of 18 to 20 points may be given. Canned beets that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned beets possess a color that is typical of canned beets produced from beets of similar varietal characteristics and such color may be variable or slightly dull.

(c) *(SStd) classification.* Canned beets that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 17 points and shall not be graded above Substandard, regardless of the total score for that product (this is a limiting rule).

§ 52.531 *Uniformity of size and shape*—(a) *(A) classification.* Canned beets that are practically uniform in size and shape may be given a score of 12 to 15 points. "Practically uniform in size and shape" has the following meanings with respect to the various styles of canned beets:

(1) *Whole beets.* The size of the individual beet is not more than 2¼ inches in diameter, measured as aforesaid; the beets may vary moderately in shape, and the diameter of the largest beet does not exceed the diameter of the smallest beet by more than 50 percent of the diameter of the smallest beet.

(2) *Quartered beets.* The beets from which the quarters have been prepared were of a size not more than 2½ inches in diameter, measured as aforesaid, and the weight of the largest quarter does not exceed the weight of the smallest quarter by more than 50 percent of the weight of the smallest quarter.

(3) *Sliced beets.* The individual slice is not more than 5/16 inch in thickness when measured at the thickest portion; the size of each slice is not more than 3½ inches in diameter, measured as aforesaid, and the diameter of the largest slice does not exceed the diameter of the smallest slice by more than 50 percent of the diameter of the smallest slice.

(4) *Diced beets.* The units are practically uniform in size and shape with edges measuring not more than ⅜ inch; and the aggregate weight of the units which are smaller than one-half of a cube and of all large and irregular units does not exceed 15 percent of the weight of all units.

(5) *Julienne, French style, or shoestring.* The strips of beets are practically uniform in size and shape, with cross sections measuring not more than 3/16 inch, and the aggregate weight of all strips less than 1½ inches in length does not exceed 25 percent of the weight of all the strips.

(6) *Cut.* The individual units weigh not less than ¼ ounce nor more than 2 ounces each and the largest unit weighs not more than four times the weight of the smallest unit. An occasional unit which is not representative of the general size of all the units is excluded in determining size variation.

(b) *(C) classification.* If the canned beets are fairly uniform in size and shape, a score of 8 to 11 points may be given. "Fairly uniform in size and shape" has the following meanings with respect to the various styles of canned beets:

(1) *Whole beets.* The size of the individual beet is not more than 2½ inches in diameter, measured as aforesaid; the beets may vary considerably in shape, and the diameter of the largest beet is not more than twice the diameter of the smallest beet.

(2) *Quartered beets.* The beets from which the quarters have been cut were of a size not more than 3½ inches in diameter, measured as aforesaid, and the weight of the largest quarter is not more than twice the weight of the smallest quarter.

(3) *Sliced beets.* The individual slice is not more than ⅜ inch in thickness when measured at the thickest portion; the size of each slice is not more than 3½ inches in diameter, measured as aforesaid; and the diameter of the largest slice is not more than twice the diameter of the smallest slice.

(4) *Diced beets.* The units are fairly uniform in size and shape, with edges measuring not more than ½ inch; and the aggregate weight of all units which are smaller than one-half of a cube and all large and irregular units does not exceed 25 percent of the weight of all units.

(5) *Julienne, French style, or shoestring.* The strips of beets are fairly uniform in size and shape, with cross sections measuring not more than 3/16 inch and the aggregate weight of all strips less than 1½ inches in length does not exceed 40 percent of the weight of all the strips.

(6) *Cut.* The individual units weigh not less than ⅛ ounce nor more than 3 ounces each and the largest unit weighs not more than twelve times the weight of the smallest unit. An occasional unit which is not representative of the general size of all the units is excluded in determining size variation.

(c) *(SStd) classification.* Canned beets that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 7 points and shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule).

§ 52.532 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from defective units. Defective units are slabs, units damaged by mechanical injury, units blemished by brown or black internal or external discoloration, pathological injury or insect injury and units blemished by other means.

(1) "Slab" means any portion of a whole beet obtained in slicing that possesses only one cut surface or cut surfaces of unequal areas varying in diameter more than ½ inch.

(2) "Damaged by mechanical injury" means crushed, broken, or cracked units, units with excessively frayed edges and surfaces, units with unpeeled areas, excessively trimmed units, or damaged by other means.

(3) "Blemished" means any blemish affecting an aggregate area greater than the area of a circle 3/16 inch in diameter or any blemish which seriously affects the appearance or eating quality of the unit.

(b) *(A) classification.* Canned beets that are practically free from defects may be given a score of 26 to 30 points. "Practically free from defects" has the following meanings with respect to the various styles of canned beets:

(1) *Whole beets.* The aggregate weight of all defective units does not exceed 15 percent of the weight of all the units, and of such 15 percent not more than one-half thereof or one beet, whichever weighs more, may consist of blemished units.

(2) *Sliced, quartered, and cut beets.* The aggregate weight of all blemished units and units damaged by mechanical injury does not exceed 15 percent of the weight of all the units, and of such 15 percent not more than one-half thereof or one slice, quarter or cut, whichever weighs more, may consist of blemished units, and with respect to sliced beets not more than 10 percent of the weight of all the units may consist of units that are slabs.

(3) *Diced, Julienne, French style, or shoestring beets.* The aggregate weight of all defective units does not exceed 10 percent of the weight of all the units, and of such 10 percent not more than one-half thereof may consist of blemished units.

(c) *(C) classification.* Canned beets that are fairly free from defects may be given a score of 22 to 25 points. Canned beets that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" has the following meanings with respect to the various styles of canned beets:

(1) *Whole beets.* The aggregate weight of all defective units does not exceed 30 percent of the weight of all the units, and of such 30 percent not more than one-half may consist of blemished units.

(2) *Sliced, quartered, and cut beets.* The aggregate weight of all blemished units and units damaged by mechanical injury does not exceed 30 percent of the weight of all the units, and of such 30 percent not more than one-half thereof may consist of blemished units, and with respect to sliced beets not more than 25 percent of the weight of all the units may consist of units that are slabs.

(3) *Diced, Julienne, French style, or shoestring beets.* The aggregate weight of all defective units does not exceed 25 percent of the weight of all the units, and of such 25 percent not more than one-half thereof may consist of blemished units.

(d) *(SStd) classification.* Canned beets that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.533 *Texture.* The factor of texture refers to the tenderness of the beets, and the degree of freedom from stringy or coarse fibers.

(a) *(A) classification.* Canned beets that possess a tender texture may be given a score of 26 to 30 points. "Tender texture" means that the beets are tender, not fibrous, and possess a uniform character.

(b) *(C) classification.* If the canned beets possess a fairly tender texture, a score of 22 to 25 points may be given. Canned beets that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly tender texture" means that the beets are fairly tender, may be variable in character but not tough or hard, and may possess a few stringy or coarse fibers.

(c) *(SStd) classification.* Canned beets that fail to meet the requirements of paragraph (b) of this section may be given a score of 0 to 21 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.534 *Tolerance for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned beets, the grade for such lot will be determined by averaging the total scores of all containers, if:

(1) Not more than one-sixth of the containers comprising the sample fails to meet all the requirements of the grade indicated by the average of such total

scores, and with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, must be within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

§ 52.535 *Score sheet for canned beets.*

| | | | |
|---|---|---|---|
| Container size | | | |
| Container code or marking | | | |
| Label | | | |
| Net weight (ounces) | | | |
| Vacuum (inches) | | | |
| Drained weight (ounces) | | | |
| Style | | | |
| Size of whole beets (count) | | | |
| Size of sliced beets (diameter) | | | |
| Factors | Score points | | |
| Color | 25 | (A) | 21–25 |
| | | (C) | 18–20 |
| | | (SStd.) | 0–17 |
| Uniformity of size and shape | 15 | (A) | 12–15 |
| | | (C) | 8–11 |
| | | (SStd.) | 0–7 |
| Absence of defects | 30 | (A) | 26–30 |
| | | (C) | 22–25 |
| | | (SStd.) | 0–21 |
| Texture | 30 | (A) | 26–30 |

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BLACKBERRIES AND OTHER SIMILAR BERRIES SUCH AS BOYSENBERRIES, DEWBERRIES, AND LOGANBERRIES [1]

PRODUCT DESCRIPTION AND GRADES

§ 52.551 *Product description.* "Canned blackberries" and other similar berries such as "boysenberries," "dewberries," and "loganberries," hereinafter called berries means the canned product prepared from stemmed, properly ripened sound, fresh fruit by proper cleaning and sorting and may be packed with or without the addition of water or sweetening ingredient in hermetically sealed containers and sufficiently processed by heat to assure preservation of the product.

§ 52.552 *Grades of canned berries.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned berries that possess similar varietal characteristics; that possess a good color; that are practically uniform in size; that are practically free from defects; that possess a good character; that possess a normal flavor and odor; and that for these factors which are scored in accordance with the scoring system outlined in this subpart, the total score is not less than 90 points: *Provided*, That the canned berries may possess a reasonably good color and may be reasonably uniform in size if the total score is not less than 90 points.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of canned berries that possess similar varietal characteristics; that possess a reasonably good color; that are reasonably uniform in size; that are reasonably free from defects; that possess a reasonably good character; that possess a normal flavor and odor; and that for these factors which are scored in accordance with the scoring system outlined in this subpart, the total score is not less than 80 points: *Provided*, That the canned berries may be fairly uniform in size if the total score is not less than 80 points.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of canned berries that possess similar varietal characteristics; that possess a fairly good color; that may be fairly uniform in size; that are fairly free from defects; that possess a fairly good character; that possess a normal flavor and odor; and that when scored in accordance with the scoring system outlined in this subpart, the total score is not less than 70 points.

(d) "Substandard" is the quality of canned berries that fail to meet the requirements of U. S. Grade C or U. S. Standard.

LIQUID MEDIA, FILL OF CONTAINER, AND DRAINED WEIGHTS

§ 52.553 *Recommended liquid media and Brix measurements for canned berries.* "Cut-out" requirements for liquid media in canned berries are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purpose of these grades. The recommended "cut-out" Brix measurement, as applicable, for the respective designations are as follows:

*Designations and Brix Measurements*

"Extra heavy sirup": 24° or more, but not more than 35° Brix.

"Heavy sirup": 19° or more, but less than 24° Brix.

"Light sirup": 14° or more, but less than 19° Brix.

"Slightly sweetened water": Less than 14° Brix.

"In water": Packed in water.

§ 52.554 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned berries be filled with berries as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the volume of the container.

§ 52.555 *Recommended minimum drained weight.* The minimum drained weight recommendations are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades. The drained weight of canned berries is determined by emptying the contents upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937 inch ± 3%, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight (or drained berries) is the weight of the sieve and the berries less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

§ 52.556 *Compliance with recommended drained weights.* Compliance with the recommended drained weights for canned berries is determined by averaging the drained weights from all containers which are representative of a specific lot and such lot is considered as meeting the recommendations, if: The average drained weight from all the containers meets the recommended drained weight; one-half or more of the containers meet the recommended drained weight; and the drained weights from the containers which do not meet the recommended drained weight are within the range of variability for good commercial practices.

TABLE NO. 1—RECOMMENDED MINIMUM DRAINED WEIGHT, IN OUNCES, OF CANNED BERRIES

| Can size | Can dimensions (in inches) | | Maximum capacity in water at 68° F. (in ounces) | Blackberries | | Other berries | |
|---|---|---|---|---|---|---|---|
| | Diameter | Height | | Extra heavy and heavy sirup | Light sirup and water | Extra heavy and heavy sirup | Light sirup and water |
| 6 ounces | 2 11/16 | 3 4/16 | 8 65 | 4¾ | 4¾ | 4¼ | 4 |
| No. 303 | 3 1/16 | 4 6/16 | 16 85 | 9¼ | 9¼ | 7 | 6½ |
| No. 2 | 3 7/16 | 4 6/16 | 20 50 | 11¼ | 12¼ | 9½ | 8½ |
| No. 10 | 6 2/16 | 7 | 109 45 | 63 | 70 | 55 | 50 |
| No. 10 [1] (heavy pack) | 6 2/16 | 7 | 109 45 | ---- | 74 | ---- | 70 |

[1] Canned blackberries in No. 10 containers (in water) may be certified with the additional statement "heavy pack," provided they meet a minimum drained weight requirement of 74 ounces per can.

FACTORS OF QUALITY

§ 52.557 *Ascertaining the grade.* (a) The grade of canned berries is ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, uniformity of size, absence of defects and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

| Factors: | Points |
|---|---|
| Color | 20 |
| Uniformity of size | 20 |
| Absence of defects | 30 |
| Character of fruit | 30 |
| Total score | 100 |

(c) "Normal flavor and odor" means that the product is free from objectionable odors and objectionable flavors of any kind.

§ 52.558 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "22 to 25 points" means 22, 23, 24, or 25 points).

§ 52.559 *Color.* The factor of color refers to the color typical of the varietal group and to the intensity and brightness of such characteristic color.

(a) (*A*) *classification.* Canned berries that possess a good color may be given a score of 18 to 20 points. "Good color" means that the canned berries possess a color typical of well-ripened berries for the varietal type that have been properly processed and are practically uniform and bright in color.

(b) (*B*) *classification.* If the canned berries possess a reasonably good color, a score of 16 or 17 points may be given. "Reasonably good color" means that the canned berries possess a color typical of reasonably well-ripened berries for the varietal type that have been properly processed, and which color may be somewhat lacking in luster and may range in color from the lighter shades of reasonably well-ripened berries to the darker hues of well-ripened berries.

(c) (*C*) *classification.* If the canned berries possess a fairly good color, a score of 14 or 15 points may be allowed. Canned berries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the canned berries possess a color typical of fairly well-ripened berries for the varietal type that have been properly processed, and which color may be variable but is not off-color.

(d) (*SStd*) *classification.* Canned berries that fail to meet the requirements of paragraph (c) of this section, may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.560 *Uniformity of size*—(a) *General.* The factor of uniformity of size refers to the uniformity of diameters of the canned berries. "Diameter" is the minimum diameter of the fruit of the berry measured at right angles to the stem axis that will pass through a rigid ring of the same diameter without using pressure.

(b) (*A*) *classification.* If the canned berries are practically uniform in size, a score of 18 to 20 points may be given. "Practically uniform in size" means that the variation in size of the berries does not materially affect the appearance of the product and that with respect to canned blackberries, not more than 15 percent, by count, of the blackberries are less than $^{20}/_{32}$ inch in diameter.

(c) (*B*) *classification.* If the canned berries are reasonably uniform in size, a score of 16 or 17 points may be given. "Reasonably uniform in size" means that the variation in size of the berries does not seriously affect the appearance of the product and that with respect to canned blackberries, not more than 15 percent, by count, of the blackberries are less than $^{15}/_{32}$ inch in diameter.

(d) (*C*) *classification.* If the canned berries are fairly uniform in size, a score of 14 or 15 points may be given. Canned berries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in size" means that the canned berries may be variable in size and that with respect to canned blackberries more than 15 percent, by count, are less than $^{15}/_{32}$ inch in diameter.

§ 52.561 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous vegetable material and from damaged berries.

(1) "Harmless extraneous vegetable material" means any vegetable substance (including, but not limited to, leaves, stems, or portions of stems, whether or not attached, caps or portions of caps, whether or not attached).

(2) "Damaged" means any surface blemish or internal injury that materially affects the appearance or edibility of the berry (including, but not limited to, insect injury, pathological injury, hard berries, underdeveloped berries, and abnormally developed berries).

(b) (*A*) *classification.* Canned berries that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that harmless extraneous vegetable material may be present that does not more than slightly affect the appearance or edibility of the product; and that not more than 4 percent, by count, of the canned berries may be damaged.

(c) (*B*) *classification.* If the canned berries are reasonably free from defects, a score of 24 to 26 points may be given. Canned berries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that harmless extraneous vegetable material may be present that does not more than materially affect the appearance or edibility of the product; and that not more than 8 percent, by count, of the canned berries may be damaged.

(d) (*C*) *classification.* Canned berries that are fairly free from defects may be given a score of 21 to 23 points. Canned berries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that harmless extraneous vegetable material may be present that does not more than seriously affect the appearance or edibility of the product; and that not more than 15 percent, by count, of the canned berries may be damaged.

(e) (*SStd*) *classification.* Canned berries which fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.562 *Character of fruit*—(a) *General.* The factor of character refers to the degree of texture, and appearance as well as to the degree of disintegration of the berries.

(1) A berry is considered "crushed" if more than 50 percent of the drupelets are crushed, broken or detached, or if the normal shape of the berry is otherwise materially affected or destroyed.

(b) (*A*) *classification.* Canned berries that possess a good character may be given a score of 27 to 30 points. "Good character" means that the berries possess a firm, tender texture characteristic of well-ripened berries for the varietal type and are practically intact; that the berries and accompanying liquor are practically free from detached seed cells; and that not more than 5 percent, by weight, of the blackberries may be crushed and not more than 10 percent, by weight, of dewberries, boysenberries, loganberries, or other similar types may be crushed.

(c) (*B*) *classification.* If the canned berries have a reasonably good character, a score of 24 to 26 points may be given. Canned berries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the berries may possess a reasonably tender texture characteristic of reasonably well-ripened berries to slightly over-ripe berries for the varietal type and are reasonably intact; that the berries and accompanying liquor are reasonably free from detached seed cells; and that not more than 10 percent by weight, of blackberries may be crushed and not more than 15 percent, by weight, of dewberries, boysenberries, loganberries, or other similar types may be crushed.

(d) (*C*) *classification.* Canned berries that possess a fairly good character may be given a score of 21 to 23 points. Canned berries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the berries may possess a fairly tender texture characteristic of fairly well-ripened berries to over-ripe berries for the varietal type and are fairly intact; and that not more than 20 percent, by weight, of the berries may be crushed.

(e) (*SStd*) *classification.* Canned berries that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 20 points

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.563 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned blackberries, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if, with respect to those factors which are scored:

(1) Not more than one-sixth of the containers fails to meet the grade indicated by the average of such total scores;

(2) None of the containers falls more than 4 points below the minimum score for the grade indicated by the average of such total scores;

(3) None of the containers falls more than one grade below the grade indicated by the average of such total scores;

(4) The average score of all containers for any factor subject to a limiting rule must be within the score range of that factor for the grade indicated by the average of the total scores of the containers comprising the sample; and

(5) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SCORE SHEET

§ 52.564 *Score sheet for canned berries.*

| Factors | | |
|---|---|---|
| Color | 20 | A (20) B (16–17) C (11–15) SStd (0–10) |
| Uniformity of size | 20 | A (20) B (16–19) C (11–15) SStd (0–10) |
| Absence of defects | 40 | A (40) B (32–39) C (28–31) SStd (0–27) |
| Character of fruit | 40 | A (40) B (32–39) C (28–31) SStd (0–27) |
| Total score | 100 | |
| Grade | | |

[1] Indicate limiting rule.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF CANNED BLUEBERRIES [1]

PRODUCT DESCRIPTION, TYPES, AND GRADES

§ 52.581 *Product description.* Canned blueberries are prepared from the properly ripened fresh fruit of the blueberry bush (Genus Vaccinium), including species or varieties often called "huckleberries", but not of the Genus Gaylussacia; are stemmed and washed; are packed with or without the addition of water or sweetening ingredients; and are sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

§ 52.582 *Types of canned blueberries.* (a) Native (or wild) type.

(b) Cultivated type.

§ 52.583 *Grades of canned blueberries.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of canned blueberries that possess similar varietal characteristics; that possess a very good color; that are practically free from defects; that possess a good character; that possess a normal flavor and odor; and that score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of canned blueberries that possess similar varietal characteristics; that possess a good color; that are reasonably free from defects; that possess a reasonably good character; that possess a normal flavor and odor; and that score not less than 80 points when scored in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of canned blueberries that possess similar varietal characteristics; that possess a fairly good color; that are fairly free from defects; that possess a fairly good character; that possess a normal flavor and odor; and that score not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(d) "U. S. Grade D" or "Substandard" is the quality of canned blueberries that fail to meet the requirements of U. S. Grade C or U. S. Standard.

LIQUID MEDIA, FILL OF CONTAINER AND DRAINED WEIGHTS

§ 52.584 *Recommended designations of liquid media and Brix measurements.* "Cut-out" requirements for liquid media are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purpose of these grades.

(a) It is recommended that canned blueberries have the following indicated "cut-out" Brix measurement for the respective designation, which designations include, but are not limited to, the following:

| *Designations* | *Brix measurement* |
|---|---|
| Extra heavy sirup | 25° or more, but not more than 35°. |
| Heavy sirup | 20° or more, but less than 25°. |
| Light sirup | 15° or more, but less than 20°. |
| Slightly sweetened water. | Less than 15° Brix. |
| Water pack (packed in water). | |

(b) "Brix" means the degrees Brix of the liquid from canned blueberries when tested with a Brix hydrometer calibrated at 20 degrees C. (68 degrees F.). If the liquid is tested at a temperature other than 20 degrees C. (68 degrees F.) the applicable temperature correction shall be made to the reading of the scale as prescribed in the "Official Methods of Analysis of the Association of Official Agricultural Chemists." The degrees Brix of the liquid from canned blueberries may be determined by any other method which gives equivalent results.

§ 52.585 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purpose of these grades. It is recommended that each container of canned blueberries be filled with blueberries as full as practicable without impairment of quality and that the product and packing medium occupy not less than 90 percent of the volume of the container.

§ 52.586 *Recommended minimum drained weight.* The minimum drained weight recommendations are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades. The drained-weight of canned blueberries is determined by emptying the contents of the container upon a United States Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch, 2.38 square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight (or drained blueberries) is the weight of the sieve and the blueberries less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

TABLE I—RECOMMENDED MINIMUM DRAINED WEIGHTS FOR CANNED BLUEBERRIES

| Container designation | Container size (over-all dimensions) | | Recommended minimum drained weight |
|---|---|---|---|
| | Width | Height | |
| | *Inches* | *Inches* | *Ounces* |
| 300 x 407 | 3 | 4 | 8 |
| No. 2 | 3 1/16 | 4 | 12 |
| No. 10 | 6 3/16 | 7 | 56 |

FACTORS OF QUALITY

§ 52.587 *Ascertaining the grade.* (a) The grade of canned blueberries may be ascertained by considering, in conjunction with the requirements of the respective grade, the respective ratings for the factors of color, absence of defects, and character.

(b) The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

| Factors: | *Points* |
|---|---|
| Color | 20 |
| Absence of defects | 40 |
| Character | 40 |
| Total score | 100 |

(c) "Normal flavor and odor" means that the product is free from objectionable odors and objectionable flavors of any kind.

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

§ 52.588 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for such factors and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.589 *Color*—(a) *(A) classification.* Canned blueberries that possess a very good color may be given a score of 18 to 20 points. "Very good color" means a practically uniform, bright, dark blue-purple color typical of blueberries which had been properly processed from well-matured blueberries.

(b) *(B) classification.* If the canned blueberries possess a good color, a score of 16 or 17 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Good color" means a reasonably uniform, dark blue-purple color typical of blueberries which had been properly processed from reasonably well-matured blueberries.

(c) *(C) classification.* If the canned blueberries possess a fairly good color, a score of 14 or 15 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means a blue-purple color typical of blueberries which had been properly processed and which are not off color for any reason.

(d) *(SStd) classification.* Canned blueberries that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 13 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.590 *Absence of defects*—(a) *General.* The factor of absence of defects refers to the degree of freedom from harmless extraneous material (such as leaves and large stems); from clusters; from cap stems; from undeveloped berries, or edible berries other than blueberries; and from berries damaged by insect, pathological, or any other injury.

(1) "Cap stems" are small stems which attach berries to the branch and means single cap stems or joined double cap stems with or without berries attached.

(2) A "cluster" means three or more joined cap stems with or without berries attached.

(3) "Undeveloped berries" are mummified berries with wrinkled or tough skins or which may be pathologically defective.

(b) *(A) classification.* Canned blueberries that are practically free from defects may be given a score of 36 to 40 points. "Practically free from defects" means that the canned blueberries are reasonably free from cap stems and for each 20 ounces of net weight, or the equivalent thereof, there may be present:

(1) Not more than a total of 2 whole leaves or large stems, provided such whole leaves and any other portions of leafy material do not exceed ½ square inch;

(2) Not more than 5 berries that are undeveloped or edible berries other than blueberries or berries that are damaged; and

(3) In native (or wild) type, not more than an average of 12 clusters in all containers comprising the sample, provided there are no more than 16 clusters in any single container; or

(4) In cultivated type, not more than 4 clusters.

(c) *(B) classification.* If the canned blueberries are reasonably free from defects, a score of 32 to 35 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the canned blueberries are reasonably free from cap stems and for each 20 ounces of net weight, or the equivalent thereof, there may be present:

(1) Not more than a total of 4 whole leaves or large stems, provided such whole leaves and any other portions of leafy material do not exceed ¾ square inch;

(2) Not more than 8 berries that are undeveloped or edible berries other than blueberries or berries that are damaged; and

(3) In Native (or wild) type, not more than an average of 20 clusters in all containers comprising the sample, provided there are no more than 28 clusters in any single container; or

(4) In Cultivated type, not more than 8 clusters.

(d) *(C) classification.* If the canned blueberries are fairly free from defects, a score of 28 to 31 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the canned blueberries are fairly free from cap stems and for each 20 ounces of net weight, or the equivalent thereof, there may be present:

(1) Not more than a total of 6 whole leaves or large stems, provided such whole leaves and any other portions of leafy material do not exceed 1 square inch;

(2) Not more than 10 berries that are undeveloped or edible berries other than blueberries or berries that are damaged; and

(3) In Native (or wild) type, not more than an average of 28 clusters in all containers comprising the sample, provided there are no more than 40 clusters in any single container; or

(4) In Cultivated type, not more than 12 clusters.

(e) *(SStd) classification.* Canned blueberries that fail to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.591 *Character*—(a) *(A) classification.* Canned blueberries that possess a good character may be given a score of 36 to 40 points. "Good character" means that the blueberries are reasonably firm, reasonably fleshy, practically whole, and practically intact with not more than 10 percent by weight of the drained blueberries that may be crushed, mushy, or broken berries.

(b) *(B) classification.* If the canned blueberries possess a reasonably good character, a score of 32 to 35 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade B or U. S. Choice, regardless of the total score for the product (this is a limiting rule). "Reasonably good character" means that the blueberries may be lacking in firmness and fleshy texture but are reasonably whole and reasonably intact with not more than 15 percent by weight of the drained blueberries that may be crushed, mushy, or broken berries.

(c) *(C) classification.* If the canned blueberries possess a fairly good character, a score of 28 to 31 points may be given. Canned blueberries that fall into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product (this is a limiting rule). "Fairly good character" means that the blueberries are fairly whole and fairly intact with not more than 30 percent by weight of the drained blueberries that may be crushed, mushy, or broken berries.

(d) *(SStd) classification.* Canned blueberries that fail to meet the requirements of paragraph (c) of this section may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product (this is a limiting rule).

LOT CERTIFICATION TOLERANCES

§ 52.592 *Tolerances for certification of officially drawn samples.* (a) When certifying samples that have been officially drawn and which represent a specific lot of canned blueberries, the grade for such lot will be determined by averaging the total scores of the containers comprising the sample, if:

(1) Not more than one-sixth of such containers fails to meet all the requirements of the grade indicated by the average of such total scores, and, with respect to such containers which fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers in the sample for the factor, subject to such limiting rule, is within the range for the grade indicated;

(2) None of the containers comprising the sample falls more than 4 points below the minimum score for the grade indicated by the average of the total scores; and

(3) All containers comprising the sample meet all applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act and in effect at the time of the aforesaid certification.

SUBPART—UNITED STATES STANDARDS FOR GRADES OF FROZEN BLUEBERRIES [1]

PRODUCT DESCRIPTION, TYPES, AND GRADES

§ 52.611 *Products description.* Frozen blueberries are prepared from the properly ripened fresh fruit of the blueberry bush (Genus Vaccinium), including species or varieties often called "huckleberries," but not of the Genus Gaylussacia; are cleaned and stemmed; may or may not be washed; are packed with or without packing media; and are frozen and maintained at temperatures necessary for the preservation of the product.

§ 52.612 *Types of frozen blueberries.* (a) Native (or wild) type.

(b) Cultivated type.

§ 52.613 *Grades of frozen blueberries.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of frozen blueberries that possess similar varietal characteristics; that are practically free from defects; that possess a good character; that possess a normal flavor and odor; and are of such quality with respect to color as to score not less than 90 points when scored in accordance with the scoring system outlined in this subpart.
